Fiscal Year 2026/27 Citywide Fees and Charges

File ID: 2026-00776

Location: Citywide

Recommendation: 1) Review the proposed Citywide Fee and Charge Adjustments; and 2) pass a **Motion** forwarding to City Council to conduct a public hearing, excluding fees tied to the Residential Permit Parking Program and increased parking meter rates proposals.

Contact: Brian Martin, Principal Budget Analyst, (916) 808-1929, bmartin1@cityofsacramento.org; Mirthala Santizo, Budget Manager, (916) 808-5078, msantizo@cityofsacramento.org; Pete Coletto, Director of Finance, (916) 808-5416, pcoletto@cityofsacramento.org; Department of Finance

- 5-Presentation

Description/Analysis

Issue Detail: On February 7, 2006, Council formally adopted a Citywide Fees and Charges Policy (Resolution 2006-106) to ensure that City fees and charges reflect Council's direction regarding recovery of costs related to providing programs and services. The policy was amended on May 8, 2014, to modify language stating the City will use the State of California Department of Industrial Relations Consumer Price Index (CPI), the same index used by the County Assessor to adjust the annual property tax roll for inflation (Attachment 2). The policy identifies five major categories of fees the City currently implements: impact/development fees, service fees, regulatory fees, rental fees, and penalties/fines. The policy sets the guidelines for cost recovery goals, determines the categories of cost recovery levels, and allows for establishment and modification of fees and charges. Periodically, fees and charges need to be updated to reflect increases in costs or new/changing

circumstances.

The City began a Fee Study parallel to the annual Fees and Charges review process in April 2025. The City has contracted with Government Consulting Partners to conduct a comprehensive review over a two-year period examining current City fees and comparing them against jurisdictions of similar size and service models. All departments are participating in the study except for the Fire Department and the Department of Utilities. The Fire Department contracted with MGT of America Consulting to conduct a study in FY2024/25, and the Department of Utilities plans to conduct a fee study in the near future. The culmination of the citywide study will result in fee adjustments, additions, and deletions to enable cost recovery for departments that provide services.

The Fiscal Year (FY) 2026/27 Proposed Budget (Budget) was released on April 29, 2026, and includes the changes recommended in this report. Changes to City fees and charges requiring Council approval are detailed in Attachment 4. The following chart summarizes the number of proposed fee changes by fund and department, and the revenue adjustments included in department revenue budgets.

Department (Fund)	New Fees	Fee Deletions	Fee Changes	Grand Total	Dollar Change
General Fund					
Community Development	17	13	180	210	1,163,370
Community Response	1			1	36,000
Convention and Cultural Services	3		7	10	20,000
Fire			117	117	2,252,111
Public Works ¹	6		37	43	5,383,151
Youth, Parks and Community Enrichment	37	6	24	67	15,870
Subtotal General Fund	64	19	365	448	\$8,870,502
Other Funds					
Community Development (Development Services)			2	2	0
Convention and Cultural Services (Community Center)			72	72	198,000
Public Works (Marina)	1		16	17	150,360
Public Works (Parking)	9		37	46	179,397
Public Works (Private Development)	1			1	0
Public Works (Solid Waste)	1		23	24	15,000
Utilities (Storm Drainage)	1		1	2	194
Utilities (Wastewater)			4	4	181
Utilities (Water)	9		10	19	108,874
Subtotal Other Funds	22	0	165	187	\$652,006
Total All Funds	86	19	530	635	\$9,522,508

¹ Fees 470-479 related to Residential Parking Permits and parking meter rate increases will be removed from the budget. Chart will be updated for Council approval.

Although the Residential Permit Parking Program and increased parking meter rates proposals (Fees 470-479) are included in the Budget book, they will be **excluded** from the Budget. The decision to exclude them was made after the Budget book was finalized. The fees will be removed from the chart and detailed fee list for the Public Hearing and Council approval on May 12, 2026.

The following provides details on the major changes reflected in the chart above:

The Community Development Department (CDD), as part of the comprehensive citywide fee study, is updating fees based on current efforts and revised hourly rates based on current operational costs.

The Department of Community Response (DCR) is adding a monthly program fee for micro-community participants to partially offset the program's operating costs and help sustain the program. The program fee will be no more than 30% of the program participant's gross monthly income and will not be charged until after a program participant's initial 90-day grace period in the program.

The Convention & Cultural Services Department (CCS) is adding new fees for the Temporary Public Art program, transferring fee types for the Entertainment Permit program, and proposing fee adjustments to stay in line with industry standards and to ensure we are still able to maintain and attract clients to our facilities.

The Fire Department is amending fees for two programs to offset the cost of providing the programs and services.

- The Fire Prevention Program is amended to include an annual fee increase each July 1st, by the percentage change in the CPI Series Title: Urban Wage Earners and Clerical Workers the U.S. City Average, All Urban Consumers-not seasonally adjusted, for San Francisco-Oakland-San Jose, CA as published by the U.S. Department of Labor, Bureau of Labor Statistics for the twelve (12) month period ending December 31 of the preceding year.
- The Fire Department Emergency Medical Services (EMS) Program is amended to include an annual fee increase each July 1st, by the percentage change in the CPI Series Title: Medical Care in the U.S. City Page 7 of 14 Average, All Urban Consumers, Not Seasonally Adjusted, as published by the U.S. Department of Labor, Bureau of Labor Statistics for the twelve (12) month period ending December 31 of the preceding year.

The Public Works Department is recommending modifications to better reflect current market conditions and provide true cost recovery for services provided.

- Parking citation fees for various on-street violations have been updated to deter activities that would result in safety hazards on City streets and to better align citation rates with neighboring jurisdictions as allowed in the Sacramento City Code (Sections 10.36-10.56, 12.44) and the

California Vehicle Code (21211-22521). An hourly fee for Parking Enforcement support has also been added to recover staff time and lost revenue from supplying parking enforcement staff to other jurisdictions and events for traffic control. Boot removal fee increased from \$100 to \$150 to recover costs for this service.

- Rate adjustments for the City-owned parking garages are included to better manage use of parking spaces and to be consistent with market rates in the region. Hourly parking rates at City-owned parking garages have been raised to align with private parking garages and parking garages in neighboring jurisdictions. Electric Vehicle (EV) charging rates have been updated to match Sacramento Municipal Utility District (SMUD) Time of Date rates to better recover electricity costs. The idling fee has also been adjusted to encourage more users to benefit from the service. The Amtrak Employee Monthly Rate will increase from \$90 to \$97 to match the increase to the Old Sacramento monthly parking rate.
- **A fee structure for Residential Permit Parking will be removed from the Budget.**
- **Increased rates for on-street parking meters will be removed from the Budget.**
- Marina has added a Dock Alteration Recovery fee. This will cover installation fees after the first courtesy installation and removal of a dock alteration, such as a personal locker or dock wheels. Marina berth rates increased by 5% effective January 1, 2026 due to increased operating expenses. The Director of PW, or designee, is authorized to adjust berth rates from time to time within a range and the increase remains within approved ranges.
- Household Hazardous Waste (HHW) disposal fees have been updated based on actual costs of disposal during the previous fiscal year. Approximately half of HHW disposal fees needed to be updated, with an increase between \$0.01 and \$0.04 per unit, and with one waste category decreasing by \$0.07.
- Recycling and Solid Waste (RSW) is adding a new fee for commercial and residential plan review. This fee will recover the cost of RSW staff to provide review of development projects to ensure they meet City Code chapter 13.10, chapter 13.24, and chapter 17 standards. The fee has been calculated for full cost recovery for RSW staff at an hourly rate that is commensurate with other types of development project reviews.
- Development Engineering has proposed a new fee to recover staff review costs associated with the Streamlined Parcel Map Waiver process. This fee is intended to ensure that projects comply with City Code 17.832.110 requirements prior to tentative map approval. The review will be initiated at the time of initial submittal of the tentative map application to the Community Development Department. No changes or modifications are proposed to existing fees for the Final or Parcel Map applications. The proposed fee is based on a full cost recovery model and

reflects Public Works staff time calculated at an hourly rate consistent with other development project review services.

The Department of Utilities performed a review of all Water, Wastewater, and Storm Drainage fees in March 2026 updating labor costs, in accordance with City labor agreements and significant equipment and material cost increases to ensure full cost recovery for services provided. This is a separate process from the larger fee study that will be conducted.

Youth, Parks, & Community Enrichment (YPCE) is making modifications, additions, and deletions to our current fees. Modifications reflect either information related to approved proposals or changes to current fees.

The proposed changes will accommodate new features and programs. YPCE made modifications to current fees for clarification and to better describe fee purpose. Modifications were also made to Camp Sacramento's fee structure from a per person rate to a per cabin size rate. The proposed fees align with industry standards and will allow the flexibility needed to operate all programs without limitations this upcoming fiscal year.

Except for the CDD fees, the proposed fee and charge changes will take effect on July 1, 2026. The CDD fees will not go into effect until July 12, 2026, as these fees require a 60-day notice after adoption, prior to implementation.

Policy Considerations: The changes proposed are consistent with Council's adopted Citywide Fees and Charges Policy and support the City's budget sustainability and fiscal responsibility goals.

Proposition 26 (Attachment 3) was passed by voters on November 2, 2010, amending Article XIII C of the state constitution. According to the ballot measure, the intent of the measure is to ensure the effectiveness of Propositions 13 and 218 by providing a definition of a "tax" for state and local purposes "so that neither the Legislature nor local governments can circumvent these restrictions on increasing taxes by simply defining new or expanded taxes as "fees." Thus, under Proposition 26 a tax has been defined broadly to include any levy, charge, or exaction of any kind imposed by a local government, except for seven specified categories of charges. Moreover, the City bears the burden of proving that a fee or charge is not a tax. Toward this end, the report contains summary information, as appropriate, explaining why each proposed fee or fee increase is not a tax under Proposition 26.

Economic Impacts: Not applicable.

Environmental Considerations:

California Environmental Quality Act (CEQA): Approval of fees and the maintenance of a website does not constitute a "project" and is therefore exempt from CEQA according to Section 15601(b)(3) of the CEQA guidelines.

Sustainability: Not applicable.

Rationale for Recommendation: The annual review of citywide fees and charges ensures that the City's recovery of costs for services keeps pace with changes in the cost-of-living index, as well as changes in methods or levels of service delivery. The public hearing on this item is currently scheduled for May 12, 2026.

Financial Considerations: The review and adjustment of citywide cost recovery through fees and charges is an appropriate mechanism to ensure the continued recovery of costs for specified programs and services. In this case, it is important to note that the proposed fees and charges in this report are necessary to sustain existing programs and do not provide substantial additional resources. The report recommends adding 86 new fees, 530 modifications to the fee basis or language and 19 deletions, **less the fees tied to the Residential Permit Parking Program and increased parking meter rates proposals (Fees 470-479)**. The recommended adjustments will generate approximately \$8.87 million annually in General Fund revenue and \$652,000 annually for all other funds. Any additional changes will result in an amendment to budgeted revenues in the proposed budget.

Local Business Enterprise (LBE): None.

RESOLUTION NO. 2014-0111

Adopted by the Sacramento City Council

May 8, 2014

APPROVING CITYWIDE FEE AND CHARGE ADJUSTMENTS

BACKGROUND

- A. On February 7, 2006, the City Council adopted the Citywide Fees and Charges policy (Resolution No. 2006-106).
- B. The City has used the Employee Cost Index for State and Local Government Employees, Total Compensation as published by the Bureau of Labor Statistics for inflationary adjustments. Beginning in FY2014/15 the City will use the State of California Department of Industrial Relations Consumer Price Index (CPI) which is the same index used by the County Assessor to adjust the annual property tax roll for inflation. This change will align adjustments for inflation affecting the City's largest revenue source, property taxes, with the fees that are also indexed against inflation.
- C. Implementation of the policy requires a necessary mechanism to ensure that the City's fees and charges reflect the City's current costs and that those fees and charges are reviewed on an annual basis by City Council. Staff has conducted the required annual review and recommends certain new fees and fee adjustments.
- D. Proposed new fees, deleted fees, and fee adjustments are set forth in Exhibit A.

BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:

- Section 1. The fee and charge policy is approved as amended in Exhibit A.
- Section 2. The fee and charge adjustments as set forth in Exhibit B are hereby approved.
- Section 3. Exhibits A and B are part of this resolution.

Table of Contents

Exhibit A: Amended Fee and Charge Policy

Exhibit B: FY2014/15 Adjustments to Fees and Charges

This exhibit, pages 8-14 of the Resolution, are not applicable to this report.

Adopted by the City of Sacramento City Council on May 8, 2014, by the following vote:

Ayes: Members Ashby, Cohn, Fong, Hansen, McCarty, Pannell, Warren

Noes: None

Abstain: None

Absent: Members Schenirer and Mayor Johnson

Attest:

Shirley Concolino, City Clerk

CITY OF SACRAMENTO FEES AND CHARGES POLICY

The City of Sacramento has the ability to determine the extent to which fees should be used to fund City facilities, infrastructure and services.

There are five main categories of fees that the City currently implements¹:

- ✓ **Impact/development fees** are typically one-time charges levied by the City against new development to generate revenue for the construction of infrastructure and capital facilities needed to offset the effects of the new development.
- ✓ **Service fees** are charges imposed on persons or property that are designed to offset the cost of providing a government service. Sometimes these services are elective, such as fees for processing voluntary development permit applications, or providing service/recreation programs, while other service fees are not, such as mandatory service fees for trash or utility services. Such fees are typically reasonably related to the cost of providing the service for which the fee is imposed. Otherwise, the fee may constitute a special tax for which voter approval is required by Propositions 13, 62, and 218.
- ✓ **Regulatory fees** are imposed to offset the cost of a regulatory program, such as business regulatory fees, or to mitigate the past, present or future adverse impact of a fee payer's operations. While payment of a regulatory fee does not necessarily provide any direct benefit from payment of the fee, there must be a "nexus" between the activity and the adverse consequences addressed by the fee. Common examples of regulatory fees include inspection fees and business license fees designed to reimburse a local agency for the cost of monitoring the business and enforcing compliance with City code.
- ✓ **Rental fees** are charged for the rental of public property and include the rental of real property, parking spaces in a public parking lot, or the rental of community facilities such as a recreation or community room or picnic area. Rental fees are not subject to the general rule that the fee must bear a direct relationship to the reasonable cost of providing the service for which the fee is charged however, rental fees must be fair and reasonable.
- ✓ **Penalties/Fines** are payment required for non-compliance or failure to adhere to specific rules and/or requirements.

This document sets forth guidelines for:

- Establishing cost recovery goals;
- Determining the categories of cost recovery levels in which to categorize/organize fees;

1. League of California Cities Website: Spring Meeting May 13-15, 1998 Laurence S. Wiener, Esq. City Attorney of Beverly Hills and Westlake Village **THE CITY ATTORNEY'S ROLE IN EVALUATING FEE STUDIES.**

- Methods for determining which category a fee falls under; and
- Establishment and modification of fees and charges.

A. Cost Recovery Goals

In setting user fees and cost recovery levels, the following factors will be considered²:

- 1) The amount of a fee should not exceed the overall cost of providing the facility, infrastructure or service for which the fee is imposed. In calculating that cost, direct and indirect costs may be included. That is:
 - Costs which are directly related to the provision of the service; and,
 - Support costs which are more general in nature but provide support for the provision of the service. For example, service fees can include reimbursement for the administrative costs of providing the service. Development fees can include the cost of administering the program to construct public facilities that are necessary to serve new development.
- 2) The method of assessing and collecting fees should be as simple as possible in order to reduce the administrative cost of collection.
- 3) Fees should be sensitive to the “market” for similar services.

In addition, in setting enterprise fund fees and cost recovery levels, the following factors will be considered:

- 4) The City will set fees and rates at levels which fully cover the total direct and indirect costs, including operations, capital outlay and debt service of the enterprise programs.
- 5) The City will review and adjust enterprise fees and rate structures as required to ensure that they remain appropriate and equitable.

B. Categories of Cost Recovery Levels in Which to Categorize/Organize Fees

There are five categories of cost recovery levels in which to classify fees:

1. **Enterprise:** Full direct and indirect cost recovery (100% of total costs) for enterprise services such as water, sewer and solid waste, as well as impact/development fees.
2. **High:** Full direct cost recovery (81-100% of total costs).
3. **Medium:** Recovery between 41-80% of direct costs.
4. **Low:** Recovery between 0-40% of direct costs.

² Government Finance Officers Association Website, Best Practices in Public Budgeting, City of San Luis Obispo: User Fee Cost Recovery Goals, 2005.

5. **Other:** Fees based on market, geography, assessment, project specific, legal limits or specific Council policy.

The City may choose, for policy reasons, to set fees at less than full recovery. For example, fees based on market, geography, assessment, project specific, statutory/legal limits or specific Council policy. In some cases, the City will acknowledge that a subsidy is acceptable, or even necessary to ensure program access and viability.

C. Methods for Determining Which Category a Fee Falls Under

Implementation of higher cost recovery levels is appropriate under the following conditions (up to 100% of the cost of the service or program):

- The service is regulatory in nature (e.g. building permits, plan check fees);
- The service is similar to services provided through the private sector;
- Other private or public sector alternatives could or do exist for the delivery of the service;
- Over-use of the service is specifically discouraged (e.g. police responses to disturbances or false alarms might fall into this category).
- Over-use of the service or facility is a specialized use that could be provided at a lower cost if not for specific nature or service (e.g. lighted fields).

Lower cost recovery levels are appropriate under the following conditions:

- There is no intended relationship between the amount paid and the benefit received. (It is likely that some recreation and human service programs fall into this category as it is expected that these programs will be subsidized by funds);
- Collecting fees is not cost-effective or will significantly effects the accessibility to the service;
- The service is non-recurring, generally delivered on a peak demand or emergency basis, cannot be planned for and is not readily available from a private sector source (e.g. public safety services);
- Collecting fees would discourage compliance with regulatory requirements and adherence is primarily self-identified, and as such, failure to comply would not be readily detected by the City.

Other:

- Market pricing requires that there be a direct relationship between the amount paid and the level and cost of the service received or a direct relationship to actual prices being charged for the service in the current market.
- Legal specifications and/or limitations to the amount that is charged.
- Adopted Council Policy setting specific fee.

Factors to Consider

The extent to which the total cost of service should be recovered through fees depends upon the following factors:

- ✓ The nature of the facilities, infrastructure or services;
- ✓ The nature and extent of the benefit to the fee payer;
- ✓ The effect of pricing on the demand for services; and
- ✓ The feasibility of collection and recovery.

The chart below reflects these factors and the potential options for higher or lower cost recovery³:

	The Nature of the Facilities, Infrastructure or Services	The Nature and Extent of the Benefit to The Fee Payers	Effect of Pricing on the Demand for Services	Feasibility of Collection and Recovery
Higher Cost Recovery	In the case of fees for facilities, infrastructure and proprietary services ⁴ , total cost recovery may be warranted.	When a particular facility or service results in substantial, immediate and direct benefit to fee payers, a higher percentage of the cost of providing the facility or service should be recovered by the fee.	Because the pricing of services can significantly affect demand, full cost recovery for services is more appropriate when the market for the services is strong and will support a high level of cost recovery.	In the case of impact fees, which can be collected at the time of issuance of a building permit, ease of collection is generally not a factor.
Lower Cost Recovery	In the case of governmental services ⁵ , it may be appropriate for a substantial portion of the cost of such services to be borne by the City's taxpayers, rather than the individual users of such services.	When a particular facility or service benefits not only the fee payer but also a substantial segment of the community, lower cost recovery is warranted.	If high levels of cost recovery affect accessibility to or negatively effect the delivery of services to lower income groups, this should be considered based on the overall goals of the program being implemented.	Some fees may prove to be impractical for the City to utilize if they are too costly to administer.

D. Establishment and Modification of Fees and Charges

³ Government Finance Officers Association Website, Best Practices in Public Budgeting, City of Fort Collins, CO: User Fee Policies, 2005.

⁴ Proprietary services are those which are provided for the benefit and enjoyment of the residents of the City

⁵ Governmental services are those which are provided by the City for the public good such as regulating land use, maintaining streets, and providing police and fire protection.

Fees will be reviewed and updated on an ongoing basis as part of the annual budget process to ensure that they keep pace with changes in the cost-of-living as well as changes in methods or levels of service delivery. At the beginning of the budget process each department will submit a list of proposed adjustments to their section of the master fee schedule. Each service must be assigned a target cost recovery level as defined above.

Maintaining competitive status and comparability with other cities should be considered when determining new fee levels. Those fees that are proposed for adjustment should be benchmarked against neighboring jurisdiction fee schedules or appropriate service markets. The benchmark analysis should be taken into consideration when making final pricing decisions.

However, the City may choose, for policy reasons, to set fees at less than full recovery. (for example, fees based on market, geography, assessment, project specific, statutory/legal limits or specific Council policy). As stated above, in some cases, the City will acknowledge that a subsidy is acceptable, or even necessary to ensure program access and viability. Where appropriate, fees that have not been increased in some time should have increases phased in over several years to avoid 'sticker shock' increases.

If a particular fee is not adjusted in the budget process, to the extent feasible and/or appropriate, it should be increased biennially by a CPI factor to keep pace with inflation. Beginning in FY2014/15 the City will use the State of California Department of Industrial Relations Consumer Price Index (CPI) which is the same index used by the County Assessor to adjust the annual property tax roll for inflation.

Biennially, the Finance Department shall determine the percentage change in this index and apply the increase or decrease to the master fee schedule, rounding up to the nearest whole dollar. Certain fees are exempt from an index adjustment, such as fees set by the State of California, percentage-based fees or those that have been identified as inappropriate for indexed fee increases (e.g. feasibility or fees that are based on market for services). Exempt fees are noted in the master fee schedule. Council may consider fee issues outside of the annual budget process on a case-by-case basis.

The City should conduct a comprehensive cost of service analysis every five to seven years to ensure fees and charges are set appropriately. Generally, fees may be adjusted based on supplemental analysis whenever there have been significant changes in the method, level or cost of service delivery. For example, changes in processes and technology change the staff time required to provide services to the public. A cost of service study will identify and quantify these changes.

Proposition 26

Proposition 26, the “Stop Hidden Taxes Initiative,” was passed by the voters on November 2, 2010, to amend Article XIII C of the State Constitution. According to the ballot measure, the intent of the measure is to ensure the effectiveness of Propositions 13 and 218 by providing a definition of a “tax” for state and local purposes “so that neither the Legislature nor local governments can circumvent these restrictions on increasing taxes by simply defining new or expanded taxes as ‘fees.’” Accordingly, under Proposition 26 a tax has been very broadly defined.

Tax Defined:

“Tax” now means “any levy, charge, or exaction of any kind imposed by a local government, except for the following seven categories of charges:

Exception 1 – Benefit Conferred or Privilege Granted

A charge imposed for a specific benefit conferred or privilege granted directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of conferring the benefit or granting the privilege

Examples:

- Residential parking permit fees
- Professional licenses
- Business improvement assessments

Exception 2 – Government Service or Product

A charge imposed for a specific government service or product provided directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of providing the service or product

Examples:

- User fees for park and recreation programs
- Weed abatement fees
- Sidewalk curb repairs

Exception 3 – Licenses and Permits

A charge imposed for the reasonable regulatory costs to a local government for issuing licenses and permits, performing investigations, inspections and audits, enforcing agricultural marketing orders, and the administrative enforcement and adjudication thereof

Examples:

- Building inspections
- Cardroom license
- Business licenses

Exception 4 – Use of City property

A charge imposed for entrance to or use of local government property, or the purchase, rental, or lease of local government property

Examples:

- City-owned parking lots
- Swimming pools
- Convention Center rentals
- Golf green fees

Exception 5 – Fines and Penalties

A fine, penalty, or other monetary charge imposed by the judicial branch of government or a local government as a result of a violation of law

Examples:

- City Code fines and penalties (e.g., 1.28.020)
- Parking fines

Exception 6 – Property Development Charges

A charge imposed as a condition of property development

Examples:

- Development impact fees

Exception 7 – Proposition 218 Fees

Assessments and property related fees imposed in accordance with the provisions of Proposition 218, Article XIII D

Examples:

- Utility fees for water, sewer, drainage, and solid waste
- Street lighting assessments

Burden of Proof:

The paragraph following the seven enumerated exceptions states:

“The local government bears the burden of proving by a preponderance of the evidence [1] that a levy, charge, or other exaction is not a tax, [2] that the amount is no more than necessary to cover the reasonable costs of the government activity, and [3] that the manner in which those costs are allocated to a payor bears a fair or reasonable relationship to the payor’s burdens on, or benefits received from, the governmental activity.” The latter two requirements only apply to the first three exceptions.

Thus, with the burden of proof now shifted to the City, that requires each department to take into consideration how it aims to prove that a proposed fee or fee increase is not a tax. The following analytical framework can assist in this regard.

Burden of Proof: A 3-step Analysis

1. The City must make a threshold determination whether one of the exceptions applies.
 - If none apply, it is a tax subject to voter approval.
2. If Exceptions 1, 2, or 3 apply, the City must also show that the fee revenue will not exceed the reasonable costs of providing the related governmental activity (at the aggregate level).
3. Finally, the City must show that the costs are fairly allocated to the individual payors.

Exhibit A

Fee #	Department	Fund	Fee Name	Action	Current Fee	Proposed Fee	Justification	Proposition 26
1	Convention and Cultural Services	Community Center	Forklift	Modify	\$126.00 per hour, with operator	\$132.00 per hour, with operator	Charge increased by 4.8%, within industry standard cost ranges.	This charge is not a tax under Proposition 26, as it falls under Exception 4, use of City property.
2	Convention and Cultural Services	Community Center	Lighting Package (Memorial Auditorium only)	Modify	\$985	\$1,100	Charge increased by 11.7%, within industry standard cost ranges.	This charge is not a tax under Proposition 26, as it falls under Exception 4, use of City property.
3	Convention and Cultural Services	Community Center	Lighting Package (Performing Arts Center only)	Modify	\$985	\$1,100	Charge increased by 11.7%, within industry standard cost ranges.	This charge is not a tax under Proposition 26, as it falls under Exception 4, use of City property.
4	Convention and Cultural Services	Community Center	Manlift	Modify	\$142.00 per hour, with operator	\$149.00 per hour, with operator	Charge increased by 4.9%, within industry standard cost ranges.	This charge is not a tax under Proposition 26, as it falls under Exception 4, use of City property.
5	Convention and Cultural Services	Community Center	Piano, 9' Steinway Grand	Modify	\$800.00 per day	\$900.00 per day	Charge increased by 12.5%, within industry standard cost ranges.	This charge is not a tax under Proposition 26, as it falls under Exception 4, use of City property.
6	Convention and Cultural Services	Community Center	Piano, 9' Baldwin Grand	Modify	\$550.00 per day	\$600.00 per day	Charge increased by 9.1%, within industry standard cost ranges.	This charge is not a tax under Proposition 26, as it falls under Exception 4, use of City property.
7	Convention and Cultural Services	Community Center	Piano, Yamaha Upright	Modify	\$275.00 per day	\$300.00 per day	Charge increased by 9.1%, within industry standard cost ranges.	This charge is not a tax under Proposition 26, as it falls under Exception 4, use of City property.

This charge is not a tax under Proposition 26, as it falls under Exception 5, a fee for fines and penalties. Each fine or penalty is a charge imposed by the judicial branch of government or local government as a result of a violation of law.
493	Public Works	General	Parking Violation: Trucks in Residential Areas or Trailer (18-Wheeler)	Modify	\$375.00	\$500.00	Res. 2003-383, Res.2023-0135, SCC 10.36.120, Res. 2024-0153, Reso 2025-0128. Increasing violation fine amount.	This charge is not a tax under Proposition 26, as it falls under Exception 5, a fee for fines and penalties. Each fine or penalty is a charge imposed by the judicial branch of government or local government as a result of a violation of law.
494	Public Works	General	Parking Violation: Yellow Zone	Modify	\$60.00	\$70.00	Res. 2008-195, SCC 10.36.130b, Res. 2024-0153. Increasing violation fine amount.	This charge is not a tax under Proposition 26, as it falls under Exception 5, a fee for fines and penalties. Each fine or penalty is a charge imposed by the judicial branch of government or local government as a result of a violation of law.
495	Public Works	General	Parking Enforcement Support Hourly Rate	Add	N/A	\$295/hr	Added fee to recover staff time and resources.	This charge is not a tax under Proposition 26, as it falls under Exception 2, a fee for government services. Each fee is a charge imposed for a specific government service or product provided directly to the payer that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of providing the service or product.
496-498	Public Works	General	Level 2 EV Charging-Electricity, Operations, and Maintenance	Modify	\$0.20 per kWh – Off-Peak \$0.25 per kWh – Mid-Peak \$0.30 per kWh – Peak	\$0.25 per kWh – Off-Peak \$0.35 per kWh – Peak	Res. 2024-0153. Increased fees to cover increased operational and electricity costs. Rate structure adjusted to match SMUD Time of Day rate periods	This charge is not a tax under Proposition 26, as it falls under Exception 2, a fee for government services. Each fee is a charge imposed for a specific government service or product provided directly to the payer that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of providing the service or product.
499-500	Public Works	General	Level 2 EV Charging-Idling Fee Assessed in EV Charging Spaces with Free Parking	Modify	\$0 for First 2 hours \$10/hour (prorated) thereafter	\$5/hour (prorated) after expiration of posted time limit	Res. 2024-0153. Fees necessary to provide a reasonable amount of time for long-term patrons to charge while also encouraging turnover for more users to benefit from the service. Fee would be collected through ChargePoint and allocated to the City department that manages the charging location.	This charge is not a tax under Proposition 26, as it falls under Exception 2, a fee for government services. Each fee is a charge imposed for a specific government service or product provided directly to the payer that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of providing the service or product.
501	Public Works	General	Solid Waste Commercial Plan Review	Add	-	\$205/hour	Full cost recovery. This fee recovers the cost of staff to provide commercial solid waste plan review.	This charge is not a tax under Proposition 26, as it falls under Exception 2, a fee for government services.

502	Public Works	Solid Waste	Solid Waste Residential Plan Review	Add	-	\$205/hour	Full cost recovery. This fee recovers the cost of staff to provide residential solid waste plan review.	This charge is not a tax under Proposition 26, as it falls under Exception 2, a fee for government services.
