Description/Analysis
Issue Detail: The City Charter, Article IX Section 111, requires the City Manager to deliver budget recommendations no later than 60 days prior to the start of the new fiscal year. The Fiscal Year (FY) 2026/27 Proposed Budget (Budget) was released on April 29, 2026. This report transmits the Budget (Attachment 2) and the 2026-2031 Capital Improvement Program (CIP), which includes the FY2026/27 CIP Budget (Attachment 3) to Council for consideration and is available at https://www.cityofsacramento.gov/finance/budget.

Introduction
The Budget is balanced and closes a $66.2 million funding gap. The Budget totals approximately $1.7 billion from all funding sources and supports 4,822.07 full-time equivalent (FTE) positions. This includes $898 million for General Fund operations and capital projects, and $830 million for the City's enterprise and other fund activities.

Structural Budget Deficit

In February, the City released its updated financial forecast which projected a $66.2 million budget deficit for FY2026/27 with deficits increasing annually throughout the forecast period. While the forecast assumes increasing revenues due to continued economic growth, the growth of expenses outpaces revenues. The fundamental imbalance in the City's budget is known as a structural deficit. The structural deficit is the result of decisions that the City and voters have made over the past few years along with macroeconomic forces such as inflation and imposed tariffs. These decisions include expanding into new service areas, increased costs of prior labor contracts, increasing staffing levels, and ballot measures redirecting general revenues for specific purposes. Substantial federal aid to assist local governments mitigate COVID-19 pandemic impacts allowed the City to fund the cost increases. However, the federal funding was a one time disbursement, while many of the increased costs are ongoing. The City is not facing a budget deficit due to a recession or economic downturn. Instead, the structural budget deficit is due to the City offering more services with a higher cost base which can no longer be sustained with existing revenues.

Ongoing Labor Negotiations

In addition to the structural deficit, the City has been in negotiations with all eleven recognized employee organizations (REO) over the past 10 months. Eight of the eleven REOs now have labor contracts with the City and two of the remaining three REOs are close to being finalized. Updated labor contract costs increased the overall deficit by $11.3 million in FY2026/27. The additional costs are included in the Budget and the forecast. The City is still in active negotiations with the Sacramento Police Officers Association (SPOA) and Local Area Firefighters 522 (522). The Budget and the forecast include costs that have been proposed to SPOA and Local 522 to date.

Budget Modifications - Reductions

The Budget seeks to address the City's structural deficit while maintaining core City services and taking a strategic approach to revenue enhancements and expenditure reductions instead of simply pursuing across-the-board cuts.

As part of the budget development process departments were instructed to submit reduction plans that totaled 15% of their General Fund discretionary funding and were given a framework designed to protect core services and Council priorities. Departmental reduction strategies were categorized on a one through four scale based on impact on residents and communities, with one being a low impact and four being resulting in a severe impact. There were a combination of 208 revenue enhancements, expenditure reductions and Citywide reduction strategies totaling $109 million.

All Strategies - General Fund

Category	FTE Change	Net Budget Change
Revenues	-	($15,005,967)
1	(4.65)	(9,766,619)
2	(30.65)	(5,548,406)
3	(94.50)	(10,472,220)
4	(285.70)	(51,375,267)
Citywide	-	(16,859,052)
Total	**(415.50)**	**($109,027,531)**

Proposed solutions to close the $66.2 million funding gap and cover $11.3 million in labor contract increases include a combination of one-time and ongoing strategies totaling $70.2 million. The Budget also includes other adjustments including the utilization of State homelessness funding and incorporating augmentations necessary to continue to deliver Council approved programs and services.

Although the Residential Permit Parking Program and increased parking meter rates proposals are included in the Budget book, they will be **excluded** from the Budget. The decision to exclude them was made after the Budget book was finalized. In addition to the exclusion of the Residential Permit Parking Program, an addition of a 1.0 FTE Customer Service Representative (including offsets) for the program will also be removed. An additional $1.4 million in Homeless Housing, Assistance, and Prevention (HHAP)-6 funding will be swapped for the excluded proposals. This change does not change the reduction of $70.2 million, which includes $51.2 million in ongoing solutions and $19.0 million in one-time solutions; but it does reduce the total FTEs from 4,822.07 FTE positions to 4,821.07 FTE positions.

The chart below summarizes the strategies proposed to balance the budget including the elimination of both filled and vacant full-time equivalent (FTE) positions. The net reduction of 145.16 full-time equivalent (FTE) positions includes the termination of the Regional Transit and Natomas School Resource Officer contracts (-14.00 FTEs) and net additions (9.42 FTEs), including reversal of the additional 1.0 FTE Customer Service Representative from the exclusion of the Residential Permit Parking Program proposal. Reductions include the elimination of 101.92 vacant FTE positions, the elimination of 46.06 filled FTE positions, the planned conversion for the Single Role program conversions (an addition of 8.00 FTEs), and a reduction of 0.60 FTEs in position add/deletes. Unfortunately, the Budget would eliminate 46.06 filled FTE positions. However, not all employees in the eliminated filled positions will be separated from the City. Some may be moved to other vacant positions, and no sworn Police of Fire personnel will be separated from the City due to budget reductions.

	Amount (in Millions)	Filled FTE	Vacant FTE
Projected FY2026/27 Surplus/(Deficit)	($66.2)		
Labor Contract Adjustments	(11.3)		
Department Revenue Enhancement Strategies [1]	13.6		
Level 1 Reduction Strategies [2]	9.6	0.0	(4.7)
Level 2 Reduction Strategies	3.6	(5.4)	(10.0)
Level 3 Reduction Strategies	6.4	(34.5)	(28.4)
Level 4 Reduction Strategies [3]	14.9	(6.2)	(51.5)
Citywide Strategies	12.2		
Homeless Program Efficiencies	2.9		
Citywide Revenue Adjustments	5.6		
Encampment Relief Funds & HHAP 6 Funds [4]	5.8		
Department Augmentations [5]	(1.3)		(4.6)
Other Adjustments	4.5		
FY2026/27 Proposed Budget Surplus/(Deficit)	**$0.3**	**(46.1)**	**(99.1)**

[1] Excludes $1.4 million in proposals for Residential Permit Parking program fee increase and increased parking meter rates.

[2] Includes funding source changes for 5.90 full-time equivalent (FTE) in various positions. Funding for positions includes moving from General Fund or Measure U Fund to the Community Center Fund, Children's Fund, Development Services Fund or the General Plan Updates project. Positions are not being eliminated.

[3] Includes funding source changes for 13.00 FTE Firefighter positions from General Fund to Intergovernmental Transfer (IGT) Program. Positions are not being eliminated.

[4] Includes $1.4 million in additional HHAP-6 funding

[5] Includes the reduction of one position (1.0 FTE - Customer Service Representative) and established offset due to the exclusion of the Residential Permit Parking program fee increase.

Details of the proposed strategies can be found in Attachment 4. All strategies that were not utilized can be found in Attachment 5.

Other Modifications - Augmentations and Position Add/Deletes

There were $1.3 million in modifications to General Fund departments and a net reduction of 4.58 FTEs related to augmentations, position add/deletes and positions reductions due to the termination of the Regional Transit and Natomas School Resource Officer contracts in the Police department, including the reversal of the additional 1.0 FTE Customer Service Representative from the exclusion of the Residential Permit Parking Program proposal.

Modifications* - General Fund

Department	FTE Change	Net Budget Change
City Clerk	-	-
City Manager	-	$145,807
Community Development	1.00	505,483
Community Response	1.00	106,782

	(18.60)	**$1,599,210**

* Includes Augmentation and Add/Deletes

Additional information for all reductions modifications can be found in the Budget (Attachment 2).

Revenue Overview

The Budget includes modest citywide revenue growth. Property taxes continue to show resilience, and utility user taxes are projecting growth. However, sales tax revenues continue to struggle amid challenging market conditions and are projected to remain flat for the coming fiscal year, with modest growth in the out-years. Most citywide revenue growth can be attributed to higher projected investment income. More substantial revenue growth is projected for department revenues, which are comprised of various fees and charges for City services.

The following table highlights the forecast for the top three General Fund revenue sources representing 66% of all general revenues.

Revenue Source ($ in 000s)	FY2025/26 Amended	FY2026/27 Proposed	FY2027/28 Projected	FY2028/29 Projected	FY2029/30 Projected	FY2030/31 Projected
Property Tax	258,546	266,507	276,176	286,218	296,647	307,479
Sales Tax	236,843	243,370	247,167	255,589	261,538	266,937
Utility User Tax	70,420	70,852	71,764	72,772	73,874	75,068
Other Revenue	275,806	299,187	302,265	305,312	308,566	311,711
Total General/Measure U Revenue	**841,616**	**879,916**	**897,372**	**919,892**	**940,625**	**961,195**

CIP Overview

The Proposed 2026-31 CIP totals $2.5 billion in capital needs with $0.5 billion in identified funding leaving an unfunded balance of $2 billion. Funded projects in the CIP total $512.6 million, including $77.4 million in General Funds. The FY2026/27 CIP budget totals $129.8 million, including $14.2 million in General Funds. Additional projects and maintenance beyond the 5-year CIP are estimated to bring the total unfunded capital needs to approximately $10.1 billion.

A summary of the modifications included in the CIP is provided below, and additional information can be found in the 2026-2031 Proposed CIP (Attachment 3).

Capital Improvement Program

Department (Fund)	FTE Change	NET Budget Change
City Clerk	-	(60,000)
Citywide and Community Support (Various*)	-	(1,945,451)
Fire	-	782,000
Information Technology (Various*)	-	206,660
Police	-	(125,000)
Public Works	-	475,130
		($666,661)

*Various Funds include ARPA Reinvestment, Community Center, Development Services, General Fund, Measure U, Park Development, Parking, Quimby Act, Recycling and Solid Waste, Storm Drainage, Storm Drainage Property Fee, Wastewater, and Water.

Policy Updates

The recommended policy updates detailed below are included in the FY2026/27 Budget Resolution (Section 31) of the Budget (Attachment 2).

- Advancing one of Council's top three priorities, a new Economic Development Department will

be created, within existing resources, to coordinate and advance initiatives which will grow the local economy, attract investment, and revitalize the City's commercial corridors. To ensure that the City Manager has the required authority to create the new department, Section 8.8 is proposed to be added to the FY2026/27 Budget Resolution, which would authorize the City Manager to conduct necessary classification changes of existing positions.

- The EUR balance is estimated to be $88.2 million on July 1, 2026, which is approximately 9.2% of budgeted FY2026/27 General Fund revenues and below the target by $7,340,700. Staff recommends modifying Section 5.3 to the FY2026/27 Budget Resolution, which would authorize the City Manager to maintain an EUR reserve below the minimum threshold prescribed in the Council-adopted EUR Policy.

- Section 17.2 (D) authorizes the Public Works department to adjust revenue and expenditure budgets for providing facility maintenance and repair services to outside agencies and entities for private property concrete maintenance and sidewalk repairs. They also conduct private property hollow sidewalk repair, which is not listed. Staff recommend modifying Section 17.2 (D) to include all services provided.

- On January 27, 2026, Council adopted a Resolution establishing the SB 720 Red Light Camera Fund (Fund 2040) as a new special revenue fund account for revenue generated through the SB 720 Red Light Camera program and expenditure required to run the program (Resolution No. 2026-0013). Staff recommend adding Section 17.2 (K) to the FY2026/27 Budget Resolution to allow the Public Works department to adjust the revenue and expenditure budgets for the SB 720 Red Light Camera Fund (Fund 2040) based on actual citation revenues collected.

- On May 13, 2025, Council adopted a Resolution to establish Capital Project Fund (Fund 3705) for Animal Care Services Capital Campaign and accept a bequest from the Estate of Edward L. Prindle in the amount up to $2 million (Resolution No. 2025-0115). The Animal Care Services Capital Campaign Fund would allow the Community Development department (CDD) to accept the bequest as well as any future bequests and/or capital campaign donations with a similar purpose that could be collected and expended over multiple years. Staff recommends adding Section 17.2 (L) to the FY2026/27 Budget Resolution to allow CDD to adjust the revenue and expenditure budgets in Animal Care Services Capital Campaign Fund (Fund 3705) based on actual revenues donated.

- Staff recommends modifying Section 17.4 (A) to update outdated language. Section 17.4 (A) currently states "Adjust the revenue and expenditure budgets in the Old Sacramento Garbage Service Courts (M17700000), Old Sacramento District Improvements (M17700100), and the Joe's Crab Shack & Rio City Cafe Repairs and Maintenance (B18119000) CIPs based on actual rent proceeds available after payment of all fees to the State of California and funding

of annual required maintenance costs." "Garbage" was removed from the CIP title of M17700000 and "& Rio City Café" was removed from the CIP title of B18119000.

- Staff recommends modifying Section 17.6 (A) to update the multi-year project number of I02000200, which is no longer active. The Homeless Housing Initiatives MYOP number is now I23001000.

Supplemental Budget Information (SBI)

Any request for budgetary and/or programmatic information related to the budget process is put in a SBI log. As departments complete requests, an updated SBI log along with the requested information is provided to Council. Attachment 6 includes an up-to-date SBI log along with any completed requests.

Budget Hearings

The Council will consider the Budget during regularly scheduled meetings in May and June, with final budget adoption scheduled for June 9, 2026. The tentative hearing schedule is reflected below:

Date	Time	Legislative Body	Subject
Proposed Budget			
Wednesday, April 29, 2026	n/a	n/a	FY2026/27 Budget Release
Tuesday, May 5, 2026	11:00 AM	Budget and Audit Committee	Fees & Charges
Tuesday, May 5, 2026	5:00 PM	City Council	FY2026/27 Proposed Budget Overview
Tuesday, May 12, 2026	2:00 PM	City Council	(1) 2026-2031 Capital Improvement Program, (2) Citywide Fees and Charges (Public Hearing) (3) Budget Equity Lens
Tuesday, May 12, 2026	5:00 PM	City Council	FY2026/27 Proposed budget deliberations and Council direction
Monday, May 18, 2026	5:30 PM	Measure U	FY2026/27 Proposed Budget Overview with Measure U committee
Tuesday, May 19, 2026	5:00 PM	City Council	Additional budget deliberations (if needed)
Tuesday, May 26, 2026	11:00 AM	Budget and Audit Committee	FY2025/26 Final Budget discussion
Tuesday, June 9, 2026	5:00 PM	City Council	Adoption of the FY2026/27 Budget (Public hearing)

[1] *Schedule is subject to change, refer to agendas at: http://sacramento.granicus.com/ViewPublisher.php?view_id=21*

Policy Considerations: The Budget reflects direction provided by Council and prioritizes maintaining core City services and advancing Council priorities while closing the budget gap in FY2026/27. The Budget includes continued resources for essential core services and Council's top three priorities, as identified on September 30, 2025: Economic Development, Homelessness, and Public Safety. The strategic approach to include specific revenue enhancements and expenditure reductions instead of

simply pursuing across-the-board cuts minimizes program and service impacts to the community to the extent possible.

Economic Impacts: Not applicable.

Environmental Considerations:
California Environmental Quality Act (CEQA): This report concerns administrative activities and government fiscal activities that do not constitute a "project" as defined by the CEQA Guidelines sections 15378 and California Public Resources Code section 21080 and are not subject to the provisions of CEQA (CEQA Guidelines section 15060(c)(3)). CEQA review for any project, which utilizes funds allocated under the FY2026/27 CIP Budget, has been or will be performed in conjunction with planning, design, and approval of each specific project as appropriate.

Sustainability: None.

Commission/Committee Action:

Budget and Audit Commission: The Budget and Audit Committee will review the Budget and any other budgetary changes from previous Council meetings on May 26, 2026.

Planning and Design Commission: Sacramento City Code Section 17.912.010 requires the Planning and Design Commission to review the City's five-year CIP for consistency with the City's General Plan and to report its findings to the City Council. The 2026-2031 Proposed CIP was approved by the Commission on April 23, 2026. The General Plan Consistency Memo will be included in the Adopted Budget staff report.

Measure U Commission: The Budget and CIP will be presented to the Commission on May 18, 2026.

Rationale for Recommendation: The actions recommended in this report address the structural budget gap by making strategic revenue enhancements and expenditure reductions in FY2026/27 and future fiscal years.

Financial Considerations: The City's Budget is balanced and reflects adopted Council policies, goals, and planning/programming guides. The following five-year forecast provides a multi-year view of revenues and expenditures, allowing an assessment of the fiscal consequences of both prior and current funding decisions in the context of forecasted revenues and expenditures. While the recommended reduction strategies help close the funding gap in FY2026/27, these efforts do not completely fill the gaps in future fiscal years. The current five-year forecast is presented below.

5-Year Forecast General Fund *($ in 000s)*	FY2026/27 Proposed	FY2027/28 Projection	FY2028/29 Projection	FY2029/30 Projection	FY2030/31 Projection
Beginning Available Fund Balance	**-**	**294**	**-**	**-**	**-**
Revenues					
Revenues	879,916	897,372	919,892	940,625	961,195
Other Sources	18,683	11,724	11,926	12,132	12,343
Total Revenues/Resources	898,599	909,096	931,818	952,757	973,537
Expenditures					
Operations	879,595	921,445	972,180	993,736	1,023,131
Capital Projects	14,210	15,808	15,788	15,788	15,788
Subtotal Expenditures	893,805	937,252	987,968	1,009,523	1,038,918
EUR Contribution	4,500	4,700	5,000	5,100	5,200
Total Expenditures/Uses	898,305	941,952	992,968	1,014,623	1,044,118
Surplus/(Deficit)	294	(32,856)	(61,150)	(61,866)	(70,581)
Ending Available Fund Balance	**294**	**(32,563)**	**(61,150)**	**(61,866)**	**(70,581)**

Additional challenges in the General Fund forecast are detailed below:

- California Public Employees' Retirement System (CalPERS) unfunded liability costs will increase by $16.6 million (14.7%) over the next four years.
- Liability insurance premiums are estimated to increase by $37.3 million (69%) over the next four years.
- Unknown future labor costs. Although the Budget and the forecast include costs that have been proposed to date, the costs may differ.
- Approximately $2.0 billion in unfunded capital needs between 2026 and 2031 are not included in the forecast. Unfunded capital needs consist of the maintenance and repairs of existing City facilities and assets, and the purchase of new assets required to maintain a consistent level of service to City residents.
- Homeless services will cost approximately $168 million over the next four years, and future State funding may not be allocated to the City as the Governor did not include an additional round of HHAP program funding in his January Budget proposal.

With the exception of unfunded capital needs and unknown final labor contract costs, estimates for the above challenges have been included in the forecast as presented.

Enterprise and Other Funds: The City's Enterprise and other funds are included in the Budget. Five-year forecasts for each of the enterprise funds are available in the Forecast section of the Budget (Attachment 2).

Local Business Enterprise (LBE): Not applicable.

Budget Message

City of SACRAMENTO
Office of the City Manager

Maraskeshia S. Smith
City Manager

City Hall
915 I Street, Fifth Floor
Sacramento, CA 95814-2604
916-808-5704

April 29, 2026

Honorable Mayor and City Council
Sacramento, California

Dear Mayor and Members of the City Council:

I am pleased to transmit the Fiscal Year 2026/27 Proposed Budget (Budget). The Budget is a balanced $1.7 billion ($898.3 million General Fund) spending plan for City programs and services supporting a workforce of approximately 4,822 full-time equivalent employees, closing an estimated $66.2 million funding gap in the General Fund while preserving core services and advancing Council priorities. The Budget reflects input provided by Council, City Departments and the public.

$s in millions	FY2025/26 Approved	FY2026/27 Proposed	Change
All Funds	$1,675.0	$1,723.1	$48.1
General Fund	$872.5	$898.3	$25.8
Full-Time Equivalent Positions	4,984.83	4,822.07	(162.76)

STRUCTURAL BUDGET DEFICIT

Like many cities across California, the City is grappling with the challenge of expenses that are growing faster than resources. This imbalance, known as a structural budget deficit, is not the result of an economic downturn. Rather, the structural deficit has been caused by several factors that have developed over the past few years.

The City has added spending commitments for:

- Homelessness services.
- Children and youth.
- Economic Development.
- Office of Public Safety and Accountability.
- Police Department.
- Citywide labor increases.

Some outside factors have impacted the City budget including:

- Increased inflation for City operating costs.
- Statewide slowdown in sales tax revenue, a major General Fund resource.

- Decreased State funding for homelessness services.

To bring the City's budget into structural balance, Council will need to make decisions that will increase ongoing revenues and decrease ongoing expenses.

The City partially addressed the structural budget deficit during the FY2024/25 and FY2025/26 budget processes by closing funding gaps with a combination of one-time and ongoing budget balancing strategies. The ongoing strategies reduced projected deficits in future fiscal years while the one-time strategies only applied to one fiscal year and did not reduce projected deficits in subsequent years.

CLOSING THE GAP

On October 7, 2025, Council adopted the Fiscal Year 2026/27 Budget Development Policy (Policy). The Policy seeks to address the City's structural deficit by defining core City services and taking a strategic approach to revenue enhancements and expenditure reductions instead of simply pursuing across-the-board cuts.

The Policy instructed all City Departments to submit reduction plans that totaled 15% of their discretionary General Fund use and provided a framework designed to protect core services and advance Council priorities. Departmental reduction strategies were categorized on a one through four scale based on service impact on residents, with one being a low impact and four resulting in a severe impact.

In addition, staff analyzed "citywide" strategies to identify previously allocated funding for projects or citywide programs that could be redirected for budget balancing. Overall, staff identified over 200 one-time and ongoing revenue-enhancement and expenditure-reduction strategies totaling more than $109 million in savings. A description of each strategy is included in the Budget document.

During the Budget development process, the City has been in collective bargaining with all labor units. Labor-contract increases were greater than the amounts included in the mid-year financial forecast, and the Budget incorporates balancing strategies to cover those additional costs.

In March 2026, the City held a series of Early Budget Work Sessions (EBWS). The EBWS included a budget overview, a "baseline" balancing (March Baseline), and budget-focused presentations from City departments. The March Baseline included increased revenues, debt service restructurings to save General Fund costs, homelessness services efficiencies, funding shifts, and departmental expense and service reductions which included the elimination of both filled and vacant positions. In total, the March Baseline included the elimination of 103.3 filled full-time equivalent positions and 98.7 vacancies.

A summary of the March Baseline is provided in the chart below ($ in millions):

Strategy	Savings
Interest on Treasury Pool	$3.5
Debt Refunding	$1.4
Debt Service Funding Shift	$1.2
Citywide Strategies / Project Fund Reallocations	$11.4
Homelessness Services Contract Efficiencies	$3.8
Hotel Voucher Program Shift	$3.2
X St Shelter Partnership Savings	$2.8
Fire Single Role Savings	$3.6
Violence Prevention Funding Shift	$1.8
Additional Departmental Revenues	$15.1
Expense Reductions:	
Police	$7.1
Fire	$5.6
Youth, Parks & Community Enrichment	$4.8
Other Departments	$7.5
Total Savings	**$72.8**

Council feedback during the EBWS informed changes to the March Baseline, and the Budget incorporates several restorations of March Baseline reductions including:

- Police Department Magnet Academy
- Partial restoration of Fire Suppression vacancies
- Affordable Housing Fee program
- Senior Fiscal Policy Analyst in the Auditor's Office
- Diversity, Equity, and Inclusion staffing in the Human Resources Department
- GIS and Regional Support staffing in the Information Technology Department
- Partial restoration of park maintenance outsourcing
- Access Leisure Program in Youth, Parks and Community Enrichment
- Community center and senior center operating hours in Youth, Parks & Community Enrichment

These reductions were funded by eliminating additional vacant positions and utilizing available State homelessness funding to free General Fund resources.

The table below provides a summary of the budget balancing strategies included in the Budget ($ in millions):

	FY 2026/27	FY 2027/28
Mid-Year Forecast	**($66.2)**	**($81.8)**
Labor Contract Adjustments	($11.3)	($21.8)
Budget Balancing Strategies	$70.2	$50.6
Encampment Relief Funds (State Homelessness Funding)	$2.3	$-
Available HHAP-6 (State Homelessness Funding)	$2.1	$6.1
HHAP-7 (State Homelessness Funding)	$-	$6.4
Other Adjustments	$3.2	$5.9
End Balance	**$0.3**	**($32.6)**

The Budget utilizes a combination of one-time and ongoing strategies with nearly 75% of the budget balancing strategies being ongoing. Budget balancing strategies include the net elimination of 94.5 vacant full-time equivalent positions and 46.1 filled full-time equivalent positions. **While some filled sworn public safety positions were eliminated in the Budget, no sworn Police or Fire staff will be separated from the City and will instead move to available vacant sworn positions.**

PROPOSED BUDGET INVESTMENTS

While the challenges of balancing the budget can eclipse all other aspects during the budget process, it is important to remember that City continues to make meaningful progress in advancing Council priorities and delivering core municipal services.

Advancing Council Priorities

On September 30, 2025, Council held a priority setting workshop and identified the following top three priorities – Economic Development, Homelessness; and Public Safety.

Highlights of Budget investments to advance these priorities include:

- Creation of a new Economic Development Department, within existing resources, to coordinate and advance initiatives which grow the local economy, attract investment, and revitalize the City's commercial corridors.
- Advancement of Streamline Sacramento to make it easier to do business with the City and encourage development.
- Continued use of innovative financial strategies, such as Enhanced Infrastructure Financing Districts, to facilitate redevelopment while protecting the General Fund.
- Investments in the Old Sacramento waterfront to support tourism and downtown businesses.
- Maintenance of homeless services outreach workers to connect homeless individuals with shelter and services.

- Continuation of the Incident Management Team, which responds to 311 homelessness concerns.
- Increase in City shelter-bed capacity by approximately 400 beds.
- Continuation of the community prosecutor for an additional year.
- Retention of the City's sworn Police and Fire workforce with no sworn separations from the City due to budget reductions.
- Maintains community prosecutor for an additional year.
- Continues the use of focused enforcement, proactive policing and strategic deployment which has contributed to a 30% reduction in shootings since 2023.
- Further implementation of the Single Role program to drive efficiencies and support recruiting in the Fire Department.

Delivering Core Services

In addition to advancing Council priorities, the Budget investments support the delivery of core City services. Highlights include:

- Continuation of Traffic Safety Team which in Fiscal Year 2025/26 delivered more than 100 low-cost safety improvements, including 17 'quick build' projects, focusing on reducing serious crashes and improving safety near schools.
- Maintenance of over 3,000 lane miles of streets and repair of over 2,000 potholes monthly.
- Servicing nearly 18 million garbage, recycling, and organics containers annually.
- Expanding City infrastructure capacity to support fleet electrification and safety improvements by leveraging grant funds.
- Maintenance of over 240 parks, parkways, community gardens and open space areas.
- Implementation of new community programs funded by the Measure L Children's Fund.
- Improvement of our special event and entertainment permitting processes to support the arts, culture, and entertainment throughout the City.
- Initial pilot of alternative response funded with Opioid Settlement funds.
- Continuation of the delivery of water services to approximately 148,000 customers, sewer services to approximately 80,000 customers, and storm drainage services to approximately 144,000 customers.

PENDING FACTORS

The City is facing considerable economic challenges as it heads into the new Fiscal Year. The war in Iran has resulted in a sharp increase in energy prices, which may lead to inflation, higher interest rates, and a slowdown of the economy. Many economists are warning of a potential recession, which would result in significant reductions in City revenues. City staff will continue to update expense and revenue forecasts and will inform Council and the public of budgetary impacts.

In addition to the structural deficit, the City must address its long-term liabilities to ensure its fiscal stability. The updated five-year Capital Improvement Plan identifies approximately $2.0 billion of unfunded capital projects and deferred maintenance costs on City-owned properties that, if not addressed, will increase dramatically as buildings and infrastructure continue to age. The City's unfunded pension liability is approximately $1.5 billion as of the most recent California Public Employees' Retirement System (CalPERS) Actuarial Valuation report.

NEXT STEPS

As Council considers the Budget and the continuing structural financial challenges, it will be essential to balance current needs with long-term fiscal health. The ongoing strategies will help to structurally balance the Budget and reduce projected deficits in future years. The Budget takes a measured approach with a goal of minimizing service impacts on Sacramentans while addressing Council priorities and ensuring financial sustainability.

I am honored to present my first Budget as City Manager and work with Council as they consider difficult decisions needed to balance the budget. I want to thank the Council for its leadership as I offer a Budget that is balanced and reflects the vision and priorities articulated by Council. I also want to thank the community for their input and involvement in the development of this Budget as we all – Council, community, and City staff – work together to make Sacramento the best place to live, work, and do business.

Respectfully submitted,

MARASKESHIA S. SMITH
City Manager

Operating Budget Excellence Award

California Society of Municipal Finance Officers

Certificate of Award

Operating Budget Excellence Award
Fiscal Year 2025-2026

Presented to the

City of Sacramento

For meeting the criteria established to achieve a CSMFO Award in Budgeting.

February 5, 2026

Jennifer Wakeman
2025 CSMFO President

James Russell-Field, Chair
Recognition Committee

Dedicated to Excellence in Municipal Financial Reporting

The City's FY2025/26 Approved Operating Budget received the Operating Budget Excellence Award from the California Society of Municipal Finance Officers (CSMFO). The award process includes peer reviews of cities' operating budgets. Peer review methods are employed to maintain standards, improve performance, and provide credibility.

In preparing the FY2026/27 Budget document, the award criteria were followed and prepared in accordance with generally accepted accounting principles. This document will be submitted to the CSMFO for consideration for the Fiscal Year 2026/27 Operating Budget Excellence Award.

SECTION - 2
City at a Glance

Sacramento at a Glance

History of the City of Sacramento

The City of Sacramento was established in 1849 and became the capital for the State of California in 1854. Sacramento also serves as the seat of Sacramento County government. It is the sixth largest city in California with a population estimated at 527,979.[1] The population of the County of Sacramento is estimated at 1,604,745.[1] Sacramento encompasses 101 square miles and is in the northern section of California's Central Valley.

Sacramento is a charter city and operates under a Council-Manager form of government that currently provides for a nine-member elected City Council (Council), including an elected Mayor. There are no other elected City officials. Members of the Council serve alternating terms of four years, with the Mayor and Councilmembers representing even numbered districts up for reelection in calendar year 2028 and the Councilmembers representing odd numbered districts up for reelection in 2026. All registered voters in the City vote for the Mayor, while Councilmembers are elected by voters in specific districts. The Council appoints the City Manager, City Attorney, City Auditor, City Clerk, and the City Treasurer to carry out its adopted policies.

The City provides a full range of municipal services including police, fire, water, sewer, storm drainage, solid waste, code enforcement, construction and maintenance of parks and streets, planning and development, recreation and cultural activities, community response, and general administration.

The Sacramento City Charter requires that the City Manager submit a proposed budget to the Council at least 60 days prior to the commencement of each fiscal year. Once approved by Council, this annual budget serves as the foundation for the City of Sacramento's financial planning and control. Budgetary control is maintained at the department level, by fund. Budgetary control for capital improvement projects is maintained at the individual project level.

The following information summarizes the City's key demographics and community profile.

[1] Based on California Department of Finance estimates as of January 1, 2025.

Demographics

The information presented is based on the 2020-2024 American Community Survey (ACS) 1-Year Estimates from the United States Census Bureau.

SECTION - 3
Budget Overview

Proposed Budget Overview

Introduction

The City continues to face significant financial challenges as it works to resolve an ongoing imbalance between City operating costs and available resources, which is known as a structural deficit. The FY2026/27 Proposed Operating and Capital Improvement Program (CIP) Budget (Budget) continues to address the structural deficit while maintaining core City services and advancing Council priorities.

The Budget is balanced and closes a $66.2 million funding gap. The Budget totals approximately $1.7 billion from all funding sources and supports 4,822.07 full-time equivalent (FTE) positions. This includes $898 million for General Fund operations and capital projects, and $830 million for the City's enterprise and other fund activities.

Structural Deficit

In February, the City released its updated financial forecast which projected a $66.2 million budget deficit for FY2026/27 with deficits increasing annually throughout the forecast period. While the forecast assumes increasing revenues due to continued economic growth, the growth of expenses outpaces revenues. The fundamental imbalance in the City's budget is known as a structural deficit.

The structural deficit is the result of decisions that the City and voters have made over the past few years along with macroeconomic forces such as inflation and imposed tariffs. These decisions include expanding into new service areas, increased costs of prior labor contracts, increasing staffing levels, and ballot measures redirecting general revenues for specific purposes. Substantial federal aid to assist local governments mitigate COVID-19 pandemic impacts allowed the City to fund these cost increases, however, the federal funding was one time while many of the increased costs are ongoing.

The City is not facing a budget deficit due to a recession or economic downturn, instead the structural budget deficit is due to the City offering more services with a higher cost base which can no longer be sustained with existing revenues. This has resulted in a situation where City expenses are growing faster than City resources.

Ongoing Labor Negotiations

In addition to the structural deficit, the City has been in negotiations with all eleven recognized employee organizations (REO) over the past 10 months. Eight of the eleven REOs now have labor contracts with the City and two of the remaining three REOs are close to being finalized. Updated labor contract costs increased the overall deficit by $11.3 million in FY2026/27. The additional costs are included in the Budget and the forecast. The City is still in active negotiations with the Sacramento Police Officers Association (SPOA). The Budget and the forecast include costs that have been proposed to SPOA to date. The final costs of the SPOA contract may differ from what is currently in the Budget and forecast.

Closing the Budget Gap in the Past Fiscal Years

The City has been working to decrease the structural deficit over the past two fiscal years by making strategic reductions that minimize impacts on the public and preserve core City services. In FY2024/2025, a $66 million gap was closed with $30.2 million in ongoing reduction strategies and $36.6 million in one-time solutions. There was a reduction of 43 vacant full-time equivalent (FTE) positions. No filled positions were eliminated and no layoffs were conducted. In FY2025/26, a $62.2 million gap was closed with $34.6 million in ongoing reduction strategies and $35.2 million in one-time solutions. There was a reduction of 70.5 vacant FTE positions and 12.8 filled FTE positions. Although filled positions were eliminated, no layoffs were conducted.

Closing the Budget Gap in FY2026/27

The Budget continues to address the City's structural deficit by preserving core City services and taking a strategic approach to revenue enhancements and expenditure reductions instead of simply pursuing across-the-board cuts. Reduction strategies included in the Budget aim to minimize program and service impacts to the community to the best extent possible. Proposed solutions to close the $66.2 million funding gap and cover $11.3 million in labor contract increases include a combination of one-time and ongoing strategies with $52.6 million in ongoing reduction strategies and $17.6 million in one-time solutions. The Budget also includes other adjustments including the utilization of State homelessness funding and incorporating augmentations.

	Amount (in Millions)	Filled FTE	Vacant FTE
Projected FY2026/27 Surplus/(Deficit)	($66.2)		
Labor Contract Adjustments	(11.3)		
Department Revenue Enhancement Strategies	15.0		
Level 1 Reduction Strategies*	9.6	0.0	(4.7)
Level 2 Reduction Strategies	3.6	(5.4)	(10.0)
Level 3 Reduction Strategies	6.4	(34.5)	(28.4)
Level 4 Reduction Strategies**	14.9	(6.2)	(51.5)
Citywide Strategies	12.2		
Homeless Program Efficiencies	2.9		
Citywide Revenue Adjustments	5.6		
Encampment Relief Funds & HHAP 6 Funds	4.4		
Department Augmentations	(1.3)		(3.6)
Other Adjustments	4.5		
FY2026/27 Proposed Budget Surplus/(Deficit)	**$0.3**	**(46.1)**	**(98.1)**

* Includes funding source changes for 5.90 full-time equivalent (FTE) in various positions. Funding for positions includes moving from General Fund or Measure U Fund to the Community Center Fund, Children's Fund, Development Services Fund or the General Plan Updates project. Positions are not being eliminated.

** Includes funding source changes for 13.00 FTE Firefighter positions from General Fund to Intergovernmental Transfer (IGT) Program. Positions are not being eliminated.

The Budget includes the net reduction of 144.16 full-time equivalent (FTE) positions, which includes net position reductions (-140.58 FTEs), reductions related to the

termination of the Regional Transit and Natomas School Resource Officer contracts (-14.00 FTEs) and net additions (10.42 FTEs). Reductions include the elimination of 101.92 vacant FTE positions, the elimination of 46.06 filled FTE positions, the planned conversion for the Single Role program conversions (an addition of 8.00 FTEs), and a reduction of 0.60 FTEs in position add/deletes. There are also funding shifts of 18.90 filled FTE positions from the General Fund and Measure U Fund to the Community Center fund, Children's Fund, Development Services fund, Intergovernmental Transfer (IGT) Program and various projects. Unfortunately, the Budget would eliminate 46.06 filled FTE positions, however, not all employees in the eliminated filled positions will be separated from the City. Some may be moved to other vacant positions, and no sworn Police of Fire personnel will be separated from the City due to budget reductions. **More information on the budget balancing process and balancing strategies can be found in Section 4 - Budget Modifications.**

Revenue Outlook

The Budget includes minimal citywide revenue growth compared to what was projected for FY2025/26 Midyear. Property taxes continue to show resilience, and utility user taxes are projecting growth. However, sales tax revenues continue to struggle amid challenging market conditions and are projected to remain flat for the coming fiscal year, with modest growth in the out-years. Most citywide revenue growth can be attributed to higher projected investment income. More substantial revenue growth is projected for department revenues, which are comprised of various fees and charges for City services. For FY2026/27, most of the projected revenue growth in the departments comes from the Fire Department for permit fees, fire district revenues, and reimbursements related to emergency medical response.

External funding, primarily from the State's Homeless Housing, Assistance, and Prevention Grant (HHAP) program provide significant assistance for the City's homelessness services programs. The FY2026/27 Budget assumes no new funding for HHAP-7 will be received within the fiscal year. Instead, the assumption is that HHAP-7 will be received in FY2027/28. This aligns with the timing of receipt for prior rounds of HHAP. Without additional external funding being received for FY2026/27, the City's homelessness programming will need to be funded by prior year grant allocations and by General Fund support.

Pending Factors

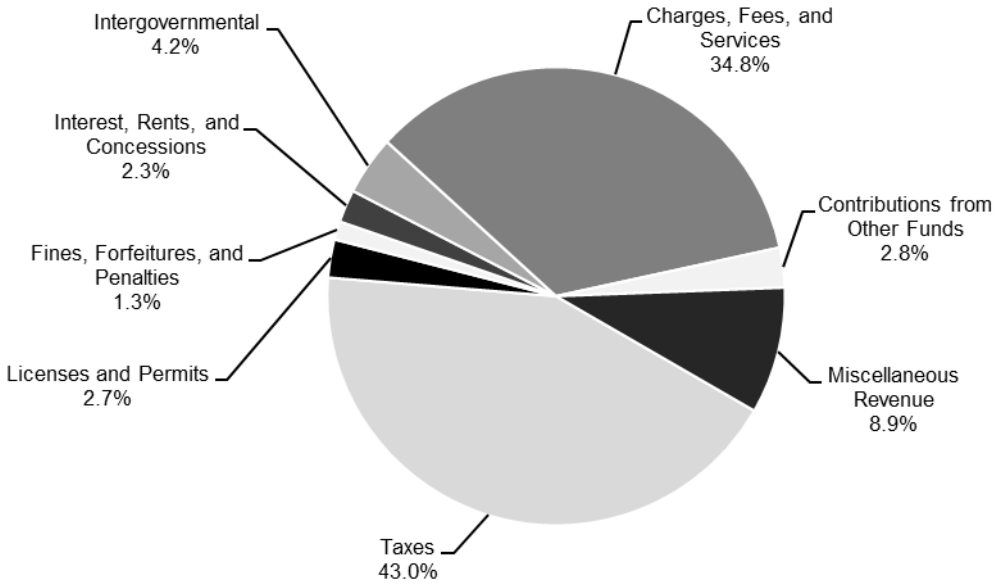
The City continues to face challenges such as increasing service needs, higher costs and slower revenue growth.

The City's budget forecast assumes continued economic growth; however, increased geopolitical risks and higher energy prices have increased economic uncertainty. Reduced revenues from an economic downturn would have major impacts on the City's Budget. Staff will continue to closely monitor the economy and update Council and the public of any budget impacts as more information becomes available.

The ongoing solutions used to balance the Budget over the last few fiscal years have decreased the deficit for the following fiscal year. While one-time balancing strategies

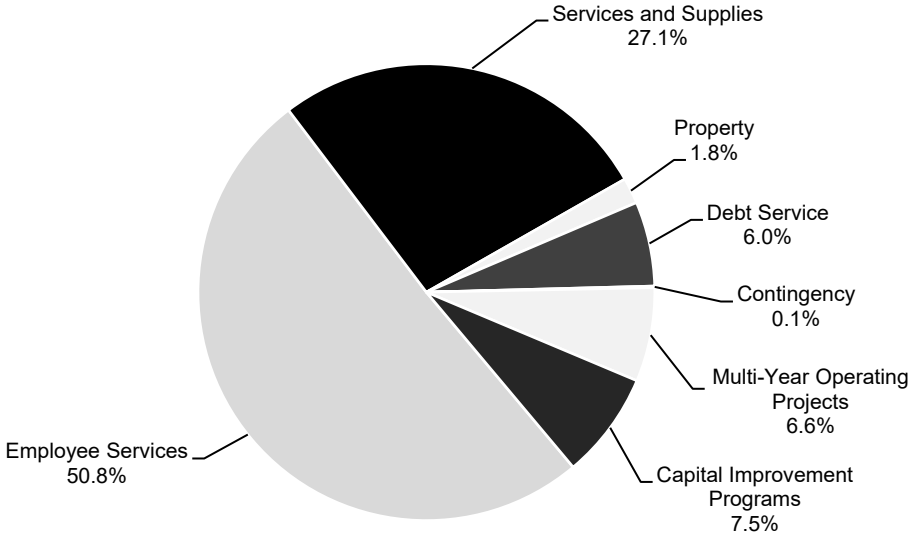
allow the City to maintain services for one year, they do not solve the structural nature of the budget deficit. In FY2026/27, a larger portion of reduction strategies are ongoing, which decreases future projected deficits.

The City must address its long-term liabilities to ensure its fiscal stability. The five-year CIP identifies approximately $2.0 billion of unfunded capital projects and deferred maintenance costs on City-owned properties that, if not addressed, will increase dramatically as buildings and infrastructure continue to age.



In addition, the California Public Employees' Retirement System (CalPERS) latest Actuarial Valuation report reflects an unfunded pension liability of $1.5 billion. The City also has approximately $206 million in unfunded Other Post-Employment Benefits (OPEB) that primarily consists of retiree health care obligations.

Since the State funds a significant portion of the City's homeless program, the unknown future of State homelessness funding can further strain the City's Budget. The State funding has decreased over the past fiscal years. Total HHAP-6 funding for the state was $1 billion. Senate Bill 131 established HHAP-7 and would appropriate $500 million effective July 1, 2026. City and county appropriations have not been released, but the City could receive less than what was received for HHAP-6 since the total appropriate is half of the amount appropriated for HHAP-6. It is unknown if there will be future homelessness funding beyond HHAP-7. If homelessness funding doesn't continue, the City will have to determine other ways to fund the homelessness program or decrease services provided.



Finally, the City relies on federal funding for critical public safety, infrastructure, economic development, and other programs. If federal funding is withheld or rescinded, the City will need to eliminate those programs or find a substitute funding source.

Total Proposed City Budget: $1.72 Billion

Revenues

Expenditures

Note: The above charts do not include other sources and uses as represented in Schedules 2A and 2B.

Budget Modifications

The Budget seeks to address the City's structural deficit by maintaining core City services and taking a strategic approach to revenue enhancements and expenditure reductions instead of simply pursuing across-the-board cuts.

All departments were instructed to submit reduction strategies that totaled 15% of their discretionary General Fund (which includes Measure U Fund and Innovation Growth Fund). Departmental reduction strategies were categorized on a one through four scale based on impact on residents and communities, with one being a low impact and four being resulting in a severe impact.

In addition to department specific strategies, staff analyzed "citywide" strategies to identify previously allocated funding for projects or citywide programs that could be redirected for budget balancing. Overall, staff identified 208 one-time and ongoing revenue-enhancement and expenditure-reduction strategies totaling about $109 million in savings.

All Strategies - General Fund

Category	FTE Change	Net Budget Change
Revenues	-	($15,005,967)
1	(4.65)	(9,766,619)
2	(30.65)	(5,548,406)
3	(94.50)	(10,472,220)
4	(285.70)	(51,375,267)
Citywide	-	(16,859,052)
Total	**(415.50)**	**($109,027,531)**

Of the $109 million in strategies, the Budget includes $61.7 million in reduction strategies, with a net reduction of 140.58 FTEs.

Proposed Strategies - General Fund

Category	FTE Change	Net Budget Change
Revenues	-	($15,005,967)
1	(4.65)	(9,551,619)
2	(15.40)	(3,564,343)
3	(62.83)	(6,404,612)
4	(57.70)	(14,907,243)
Citywide	-	(12,232,367)
Total	**(140.58)**	**($61,666,151)**

In addition to budget balancing strategies above, the Budget also includes $16.1 million in other balancing strategies and adjustments such as other Citywide revenue adjustments, various expense adjustments and department modifications that factor into closing the $66.2 million gap.

The Budget also includes a $5.0 million decrease in other funds. This is due to increases in revenues, swapping General Fund for other funds and Citywide strategies that not only reduced the General Fund budget, but also the budget of other funds.

Proposed Strategies - Other Funds

Category	FTE Change	Net Budget Change
Revenues	-	(5,261,681)

2026-2031 CIP

The Proposed 2026-2031 CIP is the City's five-year financial and strategic plan for infrastructure, deferred maintenance and facility needs. The CIP also identifies all capital needs, including projects that currently do not have identified funding or are not yet fully funded. The addition of unfunded capital needs gives Council a clearer picture of the status of the City's infrastructure and fiscal health, allows Council to prioritize infrastructure investments more holistically, and aids in the development of a comprehensive capital financing plan.

The Proposed 2026-31 CIP totals $2.5 billion in capital needs with $0.5 billion in identified funding leaving an unfunded balance of $2 billion. Funded projects in the CIP total $512.6

million, including $77.4 million in General Funds. The FY2026/27 CIP budget totals $129.8 million, including $14.2 million in General Funds. Additional projects and maintenance beyond the 5-year CIP are estimated to bring the total unfunded capital needs to approximately $10.1 billion.

A summary of program and service changes included in the CIP is provided below. Citywide projects identified as budget reductions are the City Clerk Automation Program, Digital Strategy Program, IT Security Program, 311 Mobile Application Modernization Project, City Facility Reinvestment Program, City Facility Improvements Program, Community Neighborhood Improvements Program, and the City Treasurer Investment Management Reserve Program. There is an increase in the Fire Apparatus Program. The Information Technology department submitted a one-time budget adjustment to update the City's existing contact center infrastructure to deliver measurable efficiencies and directly support key Council priorities. Public Works consolidated several Solid Waste projects into one program to better manage various regulatory tasks and is also receiving one-time funding to upgrade various fleet shops. Additional details are provided in the department sections.

Budget Hearings

On May 5, 2026, the Council will hold the first public hearing on the Budget. Council will consider the budget in May and June with adoption scheduled for June 9, 2026. These meetings provide the Council and public with an opportunity to provide input on the Budget. The following reflects the planned budget hearing schedule. It is important to note that meeting dates may change as needed to address other City business.

Date	Time	Legislative Body	Subject
Proposed Budget			
Tuesday, May 5, 2026	11:00 AM	Budget and Audit Committee	Fees & Charges
Tuesday, May 5, 2026	5:00 PM	City Council	FY2026/27 Proposed Budget Overview
Tuesday, May 12, 2026	2:00 PM	City Council	(1) 2026-2031 Capital Improvement Program, (2) Citywide Fees and Charges (Public Hearing) (3) Budget Equity Lens
Tuesday, May 12, 2026	5:00 PM	City Council	FY2026/27 Proposed budget deliberations and Council direction
Monday, May 18, 2026	5:30 PM	Measure U	FY2026/27 Proposed Budget Overview with Measure U committee
Tuesday, May 19, 2026	5:00 PM	City Council	Additional budget deliberations (if needed)
Tuesday, May 26, 2026	11:00 AM	Budget and Audit Committee	FY2025/26 Final Budget discussion
Tuesday, June 9, 2026	5:00 PM	City Council	Adoption of the FY2026/27 Budget (Public hearing)

On the Horizon – Future Fiscal Challenges

Aside from the forecasted deficits, the City continues to face ongoing challenges such as an unknown economic future and liabilities that compete with the priorities and needs of our community. The following summarizes a few of the challenges ahead, which not only impacts the General Fund but the Enterprise Funds as well.

Current National Economic Conditions

The economic climate is more uncertain than a year ago, with major changes in trade policy resulting in an increased risk of a coming recession. Aside from the increase in inflation, imposed tariffs, supply shortages and the current increase in fuel due to the geopolitical tensions in Iran has made the economy more uncertain in the past few months. The City will continue to monitor this volatile economic climate.

Annual Pension Costs–CalPERS

CalPERS has held its discount rate assumption steady at 6.8% since FY2023/24. Despite this, forecasted pension costs have grown more than anticipated in FY2023/24 due to a combination of factors such as salary growth being higher than the actuarial assumption of 2.8% annually and the amortization of investment losses from prior years being phased in over a 5-year period. This includes the investment losses of -6.1% in FY2021/22 and of 5.8% in FY2022/23, both of which were below the discount rate at the time. Based on estimates provided by CalPERS, the City's payment for unfunded accrued liabilities (UAL) (when investment returns do not achieve the target earning assumptions rate) will increase by $16.9 million over the term of the forecast, $14.6 million in the General Fund. The total UAL for the Safety and Miscellaneous CalPERS plans is $1.5 billion. The current funding ratio (assets divided by the funding target) is 72.7% for the Miscellaneous Plan and 66.5% for the Safety Plan. In July 2025, CalPERS announced a preliminary 11.6% net return on investments for the 12-month period ending June 30, 2025. Should future investment returns not achieve the earning assumptions rate of 6.8%, the City's payments toward the unfunded liability will further increase.

General Liability and Auto Liability Insurance (GL&AL)

Liability costs continue to rise, driven by higher settlements and jury verdicts. Since 2012, public entities, including the City, have experienced a significant increase in large liability claims, contributing to a nationwide hardening of the excess liability insurance market. Without significant tort reform within California the increase on premiums is expected to continue for the foreseeable future. Property insurance costs have also been rising since 2017, reflecting the increasing frequency and severity of natural disasters as well as higher construction costs.

In keeping consistent with City Council's adopted Risk Management Funding and Reserve Policy, the General Fund contribution for general liability and auto liability is projected to increase from $47.5 million in FY2025/26 to $54.1 million in FY2026/27, an increase of 14%. The Forecast section of the Budget provides additional information on GL&AL cost increases. The General Fund contribution to the Workers' Compensation Fund remained flat at $18.5 million from FY2025/26 to FY2026/27.

OPEB

The City currently provides a medical insurance subsidy to retirees who meet certain longevity standards, on a pay as you go basis. This benefit was eliminated for all new hires between 2012 and 2014, except for Local 522 which eliminated the benefit in January 2020.

Several years ago, the Governmental Accounting Standards Board (GASB) set new standards (GASB Statement 45, subsequently updated by GASB Statement 75) that require reporting of the cost of the retiree medical benefit on an accrued actuarial basis and to put forward a plan to fund the benefit. At one point, the City's projected unfunded accrued liability for retiree benefits was $452 million (June 2014). To address this liability, the City began including contributions to the City's OPEB Trust (Trust) in the FY2014/15 budget. In FY2015/16 the City adopted the OPEB Funding Policy. This policy directed staff to continue efforts to reduce and eventually eliminate this liability. Council also authorized the transfer of any available resources in the pension budget accounts at the end of the fiscal year to the Trust. The total OPEB liability for all funds was approximately $206 million as of June 30, 2023. An updated OPEB actuarial valuation as of June 30, 2025 is expected later this year.

General Fund Revenues: Options and Opportunities

The following are budget sustainability measures for Council's consideration to ensure that the City's financial position is sustainable over the long-term:

- **Support state legislative efforts to maximize revenues for local government:** The City will continue to oppose legislation that calls for additional unfunded mandates on local governments. Further, the City will support legislation that increases and protects state-shared revenue, expands local opportunities for public-private partnerships, and collection of revenue from non-traditional vendors in the areas of transient occupancy taxes for online travel companies and Utility User Tax for streaming services. The City will also advocate for a solution to collect

parking meter revenue lost due to ongoing abuse, while also ensuring access for those with disabilities.

- **Update Fees and Charges:** Many of the City departments' fees and charges have not been updated to keep up with the actual cost of providing programs and services. Although the City conducts a biennial CPI increase, many departments have not reviewed their fees to ensure that there is a full cost recovery. Not only does this partially contribute to City's deficit, but it also decreases the City's ability to provide and/or expand programs and services.

  The City hired a consultant to conduct a two-year citywide fee study that started in April 2025 with the goal of updating existing fees, deleting obsolete fees, and adding new fees. The consultant worked with the following departments in the first year: Community Development Department, City Attorney's Office, City Clerk, Finance, Human Resources, and Police. The following departments will conduct the fee study in the second year: Youth, Parks, & Community Enrichment, Public Works and Convention & Cultural Services. Some of the fees and charges in the Budget are a result of the citywide fee study. The consultant will continue the study in the second year to provide fee and charges updates for the FY2027/28 budget.

- **Update Business Operation Tax (BOT) (requires voter approval):** BOT rates have not been adjusted since 1991. During the FY 2023/24 budget process, Council directed staff to explore options to modernize the BOT. Staff returned with a proposal to modernize the BOT and on November 14, 2023, Council adopted Ordinance 2023-0023 to conduct the proposed updates, which was subject to approval of the voters. Measure C was added to the Statewide Municipal Election, held on March 5, 2024, and 61% of the voters voted against the measure. During FY2025/26 Budget adoption, Council directed staff to revisit the options to modernize BOT. The Law & Legislation Committee directed staff to perform outreach to the business community and bring options forward to the Committee for consideration. The next steps are for staff to present a modernization framework to a Council workshop and Council will then determine whether to make any adjustments to the modernization staff developed and whether to bring forward an item to Council to place BOT modernization on the ballot.

Conclusion

As the City continues to overcome deficits in FY2026/27 and future fiscal years, preserving mandated and core services remains a priority. The City will continue to utilize strategies to reduce expenditures and increase revenues to ensure that the Budget is balanced. Maximizing revenue opportunities will provide some relief and help leverage limited resources for operational needs and community programming investments.

4

SECTION - 4
Budget Modifications

Budget Modifications – Proposed

In February 2026, the City released its updated General Fund financial forecast, which projected a $66.2 million deficit for FY2026/27. The City budget continues to be in structural deficit as expense growth is outpacing revenues resulting in deficits increasing annually throughout the forecast period.

Department Reduction Process

To address the structural imbalance currently projected in the General Fund for FY2026/27, all City departments were instructed to submit reduction strategies that totaled 15% of their discretionary General Fund (which includes the Measure U Fund and Innovation Growth Fund). This was to generate more savings strategies than needed to close the projected budget gap in order to create a menu of reduction options for Council to choose from. Proposed strategies should have ongoing savings and be categorized in one of the reduction types: (1) Revenue Enhancement or Discretionary Program Reduction, (2) Mandated Program Delivery Change and (3) Mandated Program Reduction.

Reduction Type	
Revenue Enhancement	Increase projected department revenues with no corresponding increase in the department expenditure budget.
Discretionary Program Reduction	Decrease spending on programs that are not core City services.
Mandated Program Delivery Change	Decrease spending on programs that are core City services while maintaining the same level of service. (example: contracting out services)
Mandated Program Reduction	Decrease spending on programs that are core City services by reducing service levels.

A combination of 166 revenue enhancements and expenditure reductions were submitted by departments. In addition to the proposed department strategies, there were 42 Citywide reduction strategies totaling $16.9 million. The majority of the Citywide strategies are one-time savings.

Review Process

Departmental reduction strategies were categorized on a one through four scale based on impact to residents and communities, with one being low impact, two being moderate impact, three being high impact and four being severe impact. Other considerations that were used to determine where a proposal should rank were whether position reductions were filled or vacant and if there was an impact to the Measure L baseline. Citywide strategies and revenue enhancement strategies were not ranked.

Revenue enhancement proposals were reviewed to ensure that they were in compliance with Propositions 218 and 26. Also, any revenue increase proposals that were related to an expenditure in the Measure L baseline were also reviewed to determine impact.

As shown in the chart below, a total of $109 million in strategies were reviewed and considered. Of the 208 proposals, 21 were revenue enhancements and 187 were expenditure reductions. There were 415.5 full-time equivalent (FTE) positions included in the reduction proposals of which approximately 51% or 245.95 FTEs are currently filled.

Proposal Type/Category	Submittals	Amount (in millions)	Vacant FTEs	Filled FTEs	Total FTEs
Revenue Increases	21	$15.0	-	-	-
Level 1 – Low Impact	29	9.8	(4.65)	-	(4.65)
Level 2 – Moderate Impact	27	5.5	(14.00)	(16.65)	(30.65)
Level 3 – High Impact	32	10.4	(34.37)	(60.13)	(94.50)
Level 4 – Severe Impact	57	51.4	(95.60)	(190.10)	(285.70)
Citywide Strategies	42	16.9	-	-	-
Total	208	$109.0	(148.62)	(266.88)	(415.5)

Proposed Budget Strategies

The following tables include the details of the $61.7 million General Fund, Measure U and IGF revenue enhancements and expenditure reductions in the Budget. Of the $61.7 million in reductions below, $48.5 million are ongoing reductions and $13.2 million are one-time reductions. This breakdown doesn't include other budget balancing strategies discussed in the Budget Overview.

Proposed Strategies - General Fund

Measure L (Sacramento Children's Fund) Review

An internal assessment was conducted to determine whether any of the proposed reductions would cause youth expenditures to go below the Measure L (Sacramento Children's Fund) baseline as determined by the City Auditor's Office (CAO). Out of all of the proposals, there were twelve proposals totaling approximately $1 million that would cause expenditures to go below the Measure L baseline. The amount was determined using the methodology of the CAO. Since the baseline was based on actual youth spending for FY2023/24, the only reductions eligible for the Measure L calculation were the ones that would reduce actual youth spending from that fiscal year. Therefore, proposed reductions of vacant positions, unspent supplies and services and unspent projects are not eligible since they were not expenditures in FY2023/24 baseline. Fee increases tied to departments serving youth would also be reduced from the calculation.

The following table contains all strategies that are considered youth related.

Department	Description	Fund	Expenditure Change	FTE Change	FTE Filled	Measure L Amount	Reason
Fire	Add two positions (2.0 FTE – Firefighter (Admin)) in the Diversity, Outreach & Recruitment program as part of a three-year grant agreement funded through the Children's Fund.	Measure U	338,620	2.00	-	-	Not in the Measure L calulation as it is grant funding.
Youth, Parks, and Community Enrichment	Delete one position (0.90 FTE - Program Coordinator) in the Expanded Learning Division.	Measure U	(72,612)	(0.90)	-	(70,797)	Included in the Measure L calculation.
Youth, Parks, and Community Enrichment	Change funding source for 50% of one position (1.0 FTE - Administrative Technician) in the Youth Development Administration Division from Measure U Fund to Children's Fund.	Measure U	-	-	-	(62,464)	Included in the Measure L calculation.
Youth, Parks, and Community Enrichment	Change funding source for 50% of one position (1.0 FTE - Administrative Technician) in the Youth Development Administration Division from Measure U Fund to Children's Fund.	Measure L Children's Fund	-	-	-	62,464	Included in the Measure L calculation.
Youth, Parks, and Community Enrichment	Delete one position (1.0 FTE - Program Leader) and add two new positions (2 at 0.45 FTE - Senior Recreation Aide) in Youth Employment Division.	Measure U	(39,581)	(0.10)	-	(39,581)	Included in the Measure L calculation.
Youth, Parks, and Community Enrichment	Reduce stipend amount paid to participants in Prime Time Teen, Young Leaders of Tomorrow, and Junior Rec Aide programs by 50%. Reduce Service and Supply Budget in Youth Employment Division.	Measure U	(100,000)	-	-	(100,000)	Included in the Measure L calculation.
Youth, Parks, and Community Enrichment	Discontinue the Organizational Resiliency Fund annual allocation from Youth Development Administration Division.	Measure U	(300,000)	-	-	-	Not in Measure L calculation because there is no effect on youth acitivites.
Youth, Parks, and Community Enrichment	Delete twelve positions (2 at 1.0 FTE - Program Coordinator and 10 at 0.20 FTE - Recreation Aide) in the Community Center Division. Reduce after school programs in Community Centers.	Measure U	(233,790)	(4.00)	-	(95,971)	Measure L Amount equals reduction minus non-youth related activities.
Youth, Parks, and Community Enrichment	Delete eight positions (2 at 0.25 FTE and 2 at 0.30 FTE - Senior Lifeguard and 4 at 0.35 FTE - Assistant Pool Manager). Reduce Programming in the Aquatics Division: Close all four City wading pools.	Measure U	(117,520)	(2.50)	-	(73,133)	Measure L Amount equals reduction less unfilled positions.

Department	Description	Fund	Expenditure Change	FTE Change	FTE Filled	Measure L Amount	Reason
Youth, Parks, and Community Enrichment	Delete three positions (1 at 1.0 FTE - Program Supervisor, 1 at 0.47 FTE - Recreation Aide) from Youth Employment Division, and (1 at 0.40 FTE - Senior Recreation Aide) from Youth Development Administration Division. Reduce support to the Youth Commission capacity building training and discontinue Summer and Semester at City Hall program.	Measure U	(132,435)	(1.87)	(1.00)	(132,435)	Included in the Measure L calculation.
Youth, Parks, and Community Enrichment	Eliminate stipends paid from Youth Employment Division's Prime Time Teen, Young Leaders of Tomorrow, and Junior Rec Aide programs to youth completing their programs. Reduce Service and Supply Budget in Youth Employment Division.	Measure U	(100,000)	-	-	(100,000)	Included in the Measure L calculation.
Youth, Parks, and Community Enrichment	Delete two positions (1.0 FTE - Program Coordinator, and 0.46 FTE - Recreation Aide) in the Youth Employment Division. Reduce Prime Time Teen, Young Leaders of Tomorrow, and Jr. Rec Aide offerings by 50%.	Measure U	(107,150)	(1.46)	-	(107,150)	Included in the Measure L calculation.
Youth, Parks, and Community Enrichment	Delete fifty-four positions (1 at 1.0 FTE - Aquatics Recreation Coordinator, 2 at 0.20 FTE and 4 at 0.25 FTE - Cashier, 23 at 0.20 FTE - Lifeguard, 6 at 0.40 FTE - Pool Manager, 12 at 0.35 FTE - Senior Lifeguard and 6 at 0.35 FTE - Assistant Pool Manager), reduce revenue obligation by $35,308 and increase services and supplies budget by $250,000 in the Aquatics Division. Reduce programming in the Aquatics Division. Reduce operating schedules to 3-days per week at neighborhood pools.	General Fund	-	-	-	-	Included in the Measure L calculation.
Youth, Parks, and Community Enrichment	Delete fifty-four positions (1 at 1.0 FTE - Aquatics Recreation Coordinator, 2 at 0.20 FTE and 4 at 0.25 FTE - Cashier, 23 at 0.20 FTE - Lifeguard, 6 at 0.40 FTE - Pool Manager, 12 at 0.35 FTE - Senior Lifeguard and 6 at 0.35 FTE - Assistant Pool Manager), reduce revenue obligation by $35,308 and increase services and supplies budget by $250,000 in the Aquatics Division. Reduce programming in the Aquatics Division. Reduce operating schedules to 3-days per week at neighborhood pools.	Measure U	(464,420)	(15.70)	-	(289,009)	Measure L Amount equals reduction less unfilled positions.
Youth, Parks, and Community Enrichment	Delete one position (0.45 FTE - Aquatics Specialist) in the Aquatics Division.	Measure U	(22,653)	(0.45)	-	(14,097)	Included in the Measure L calculation.
		Total Change	**$ (1,351,541)**	**(24.98)**	**(1.00)**	**$ (1,022,172)**	

Once the amount was determined, the next step of the assessment was to determine whether the Budget exceeded or reduced the baseline funding. The Budget includes any increases to overall employee service (such as contractual labor agreements, health benefits, PERS, etc.) and increases to supply and services. The assessment methodology involves comparing the Budget for the sample of youth programs at the department level to the CAO baseline tracker. This assessment showed that although there are approximately $1 million in youth program reductions, there is approximately $5.9 million in overall increases, which exceeds the baseline funding requirements in the sample assessment.

The formal Measure L assessment will be conducted by the CAO at year-end and will be based on actual spending for the fiscal year. If it is determined through the CAO assessment that youth programs do not meet the mandated baseline requirement for Measure L spending, adjustments will be made to increase funds to said programs to required levels.

Department and Citywide Strategies – Other Funds

The Budget includes $5.0 million in decreases and strategic reductions to other funds. This included increases to revenues, swapping General Fund for other funds and Citywide strategies that not only reduced the impact to General Fund, but also to the other funds.

Department	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
City Manager	Fund the Language Access Coordinator position (1.0 FTE - Administrative Analyst) on an ongoing basis.	Measure U	145,807	-	-
City Clerk	Increase funding for the North Sacramento Community Prosecutor project by $300,000 from liquidating the Economic Development Initiatives Project (I02181000) and a portion of the North Sacramento Code Enforcement and Outreach Project (I02180600).	General Fund	-	-	-
Finance	Delete one position (1.0 FTE-Accountant Auditor) and add one new position (1.0 FTE - Administrative Analyst) in the Office of Cannabis Management.	General Fund	-	1,890	-
Finance	Add one position (1.0 FTE - Customer Service Representative) and establish offset. This is related to the Public Works' modified Residential Permit Parking program fee increase.	General Fund	-	3,969	1.00
Information Technology	Delete one position (1.0 FTE - Department Systems Specialist II) and add one new position (1.0 FTE - Administrative Analyst) to improve IT administrative and fiscal operations, streamline workflows enhance fiscal oversight, and ensure continuity in functions like telecommunications billing, accounting, and budget development.	General Fund	-	(7,128)	-
Information Technology	Delete one position (1.0 FTE - Principal Applications Developer) and add one new position (1.0 FTE - IT Supervisor) to lead the combined Permitting/Code Enforcement team. This change will oversee critical systems, including the Code Enforcement system replacement and the City's Streamline initiative.	General Fund	-	(71)	-
Information Technology	Delete one position (1.0 FTE - Senior Systems Engineer) and add two new positions (2.0 FTE - Telecom Technician Trainee) and increase revenue budget from small cell towers installed on public streetlights. This will reduce downtime for over 300 public safety vehicles and support 1000+ Citywide cameras, improving operational efficiency and response times.	General Fund	(50,000)	59,638	1.00
Information Technology	Increase funding to support the IT Training Development Plan to address a significant gap in staff skills and knowledge base that is required to support the City's technical environment and critical business systems. Training helps maintain and enhance intellectual capital providing direct value to the organization.	General Fund	-	-	-
Information Technology	Increase funding for Enterprise Resource Planning (ERP) System Cloud Readiness Assessment and Business Process Mapping. Approval of this initiative will improve operational efficiency, reduce manual effort, and position the City for a successful ERP modernization which supports critical Human Resources and Finance business operations.	General Fund	-	-	-
Information Technology	Increase funding for the Citywide Contact Center Replacement and Modernization. The City's existing contact center infrastructure is outdated, relying on legacy on-premises phone systems and hardware that have reached the end of life and are no longer supported by the vendor. Upgrading the system will deliver measurable efficiencies and directly support key Council Priorities and IT Strategic goals including Public Safety, Revenue, and Equitable Access to City Services.	General Fund	-	-	-
Information Technology	Delete one position (1.0 FTE - IT Manager) and add one position (1.0 FTE - Support Services Manager).	General Fund	-	-	-
Human Resources	Delete one position (1.0 FTE - Senior Staff Assistant) and add one new position (1.0 FTE - Administrative Technician) in Employment Services.	General Fund	-	(11)	-
Police	Delete 11 positions (1.0 FTE - Police Lieutenant, 2.0 FTE - Police Sergeant, and 8.0 FTE - Police Officers) and associated revenues. This Regional Transit contract was terminated in December 2025.	General Fund	2,278,239	(2,278,239)	(11.00)
Police	Delete three positions (3.0 FTE - Police Officer). Eliminates the Natomas School Resource Officer program and associated revenue. This contract was terminated in December 2025.	General Fund	559,773	(559,773)	(3.00)
Police	Delete one position (1.0 FTE - Government Affairs Manager) and add one new position (1.0 FTE - Government Affairs Manager (Public Safety)) in the Office of Strategy & Compliance.	General Fund	-	19,175	-

FY2026/27 Proposed Budget

Department	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Police	Delete one position (1.0 FTE - Media & Communications Specialist) and add one new position (1.0 FTE - Public Safety Administrative Manager) to the Office of Strategy & Compliance	General Fund	-	35,410	-
Police	Delete one position (1.0 FTE Police Clerk II) and add one new position (1.0 FTE - Administrative Technician) in the Personnel Division.	General Fund	-	21,553	-
Fire	Add four positions (1.0 FTE Senior Fire Prevention Officer and 3.0 FTE Fire Prevention Officer II) to Fire Prevention and increase corresponding operating budget revenue.	General Fund	(1,229,420)	767,783	4.00
Fire	Add two positions (2.0 FTE – Firefighter (Admin)) in the Diversity, Outreach & Recruitment program as part of a three-year grant agreement funded through the Children's Fund.	Measure U	(338,620)	338,620	2.00
Fire	Increase funding for the mandated Sacramento Regional Fire/EMS Communications Center (SRFECC) Regional Contract.	General Fund	-	-	-
Fire	Add one position (1.0 FTE - Firefighter (Admin)) for the Mobile Integrated Health (MIH) Program.	General Fund	(171,904)	171,904	1.00
Fire	Add one position (1.0 FTE – Firefighter (Admin)) for the Mobile Crisis Unit.	General Fund	(171,904)	171,904	1.00
Fire	Add two positions (2.0 FTE - Firefighter (Admin)) in the Emergency Medical Firefighter Medical Quality Assurance Team.	General Fund	(343,808)	343,808	2.00
Fire	Increase funding for the Advanced Life Support (ALS) defibrillators equipment program.	General Fund	-	-	-
Fire	New Vehicle Purchase - Increase funding for Fire Department Fleet CIP (F12000300) for two fire engines and one fire ladder truck.	General Fund	-	782,000	-
Fire	Add one position (1.0 FTE - Stores Administrator) in the Emergency Medical Services Division.	General Fund	-	278	1.00
Public Works	Delete one position (1.0 FTE - Assistant Engineer) and add one new position (1.0 FTE - Associate Planner) in the Funding and Asset Planning section of the Mobility and Sustainability Division to manage transportation assets and pursue available funding.	General Fund	(4,897)	4,897	-
Public Works	Add one position (1.0 FTE - Senior Planner). Establish new fund and increase revenue and expense budget to implement Senate Bill 720 (Ashby) - Automated traffic enforcement system programs.	General Fund	(261,099)	161,361	1.00
Public Works	Delete one position (1.0 FTE - Program Specialist) and add one new position (1.0 FTE - Operations General Supervisor) in the Maintenance Services Division to improve operational efficiencies.	General Fund	(79)	79	-
Public Works	Delete one position (1.0 FTE - Administrative Officer) and add one new position (1.0 FTE - Operations General Supervisor- Streetscapes Maintenance Supervisor) in the Maintenance Services Division to maintain service levels.	General Fund	(79)	79	-
Public Works	Add one position (1.0 FTE - Electrician) for Facilities and Real Property Management to support increased workload from aging/increased facilities and electric vehicle infrastructure.	General Fund	(122,480)	123,830	1.00
Public Works	Increase funding one-time for Fleet Shop CIP to repair and replace outdated equipment, improve worker safety, and recognize operational efficiencies.	General Fund	-	204,881	-
Public Works	Increase funding one-time for Fleet Shop CIP to repair and replace outdated equipment, improve worker safety, and recognize operational efficiencies.	Measure U	-	51,119	-
Public Works	Increase services and supplies budget for Urban Forestry to address minimum required service levels.	General Fund	(500,000)	500,000	-
Public Works	Delete one position (1.0 FTE - Program Specialist) and add one new position (1.0 FTE - Administrative Officer) in Facilities to maintain service levels and reflect the fiscal and administrative job duties performed by this position.	General Fund	-	(42,510)	-
Convention and Cultural Services	Establish fee structure and revenue budget for Temporary Art Applications within the Art in Public Places (APP) program to recover existing operational costs.	General Fund	(10,000)	-	-
Convention and Cultural Services	Establish fee structure and revenue budget for Temporary Art Applications within the Art in Public Places (APP) program to recover existing operational costs.	Measure U	10,227	-	-

FY2026/27 Proposed Budget

Department	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Youth, Parks, and Community Enrichment	Delete ten positions (10 at 0.20 FTE - Recreation Aides) and add four new positions (4 at 0.47 FTE - Building Monitor) in the Community Center Division and convert savings to service and supplies budget. Shift staffing to support rental and revenue generating programs.	Measure U	-	-	(0.12)
Youth, Parks, and Community Enrichment	Delete one position (0.40 FTE - Recreation Aide) and add one new position (0.40 FTE - Building Monitor) in the Community Recreation Division. Realignment of current position to better meet operational needs.	Measure U	-	-	-
Youth, Parks, and Community Enrichment	Delete three positions (1.0 FTE - Recreation Superintendent and 2 @ 0.2 FTE Crew Leaders) from Older Adult Services and Youth and add one new position (1.0 FTE - Program Manager) in Fiscal Administration Division.	Measure U	-	(5,500)	(0.40)
Youth, Parks, and Community Enrichment	Delete three positions (1 at 1.0 FTE , 1 at 0.80 FTE - Customer Service Assistant and 1 at 1.0 FTE - Program Leader). Convert savings to services and supplies budget in Community Center Division.	Measure U	-	-	(2.80)
Youth, Parks, and Community Enrichment	Delete two positions (1 at 0.80 FTE - Program Coordinator) from Community Recreation Division and (1 at 0.80 FTE - Program Leader) from Youth Employment Division then convert savings to services and supplies budget in the Youth Employment Division.	Measure U	-	-	(1.60)
Youth, Parks, and Community Enrichment	Delete five positions (1 at 0.35 FTE - Program Director, 1 at 0.25 FTE - Recreation Leader, 3 at 0.25 FTE Camp Aides) in the Camp Sacramento Division and convert savings to services and supplies.	Measure U	-	-	(1.35)
Youth, Parks, and Community Enrichment	Delete two positions (2 at 0.35 FTE - Assistant Camp Chef) and add one new position (1 at 0.39 FTE - Camp Chef) in the Camp Sacramento Division.	Measure U	-	-	(0.31)
Youth, Parks, and Community Enrichment	Delete one position (0.45 FTE - Aquatic Specialist) and add one new position (0.45 FTE - Building Monitor) in the Aquatics Division and convert savings to service and supplies. Shift staffing to support high rental demand.	Measure U	-	-	-
Youth, Parks, and Community Enrichment	Reallocation of FY2025/26 Budgeted Fleet Vehicle Replacement Funds to update vehicle and/or equipment replacements based on operational needs.	Measure U	-	-	-
Youth, Parks, and Community Enrichment	Reduce revenue budget for Camp Sacramento Division to match projections.	General Fund	-	-	-
Youth, Parks, and Community Enrichment	Reduce revenue budget for Camp Sacramento Division to match projections.	Measure U	100,000	-	-
Youth, Parks, and Community Enrichment	Reallocation of FY2026/27 Budgeted Fleet Vehicle Replacement Funds to update vehicle and/or equipment replacements based on operational needs.	Measure U	-	(94,063)	-
Community Development	Increase one-time funding for citywide spay and neuter clinics. Due to funding, staffing, and spay and neuter surgery space, Animal Care Services does not have the ability to provide community spay and neuter services to the community in-house.	Measure U	-	500,000	-
Community Development	Delete one position (1.0 FTE - Building Inspector I/II/III) and add one new position (1.0 FTE - Building Inspector IV) increasing field inspection supervision, improves workload assignments, and enhances the resolution of customer concerns.	General Fund	-	5,305	-
Community Development	Delete one position (1.0 FTE - Plans Examiner III) and add one new position (1.0 FTE - Building Inspector IV). Realigns staffing by replacing a Plans Examiner III with a Building Inspector IV to improve career progression and recruitment.	General Fund	-	5,311	-
Community Development	Add one position (1.0 FTE - Customer Service Representative) in Rental Housing Inspection Program (RHIP). Increase revenue budget for RHIP offsetting position. Ensures RHIP can keep pace with its growing workload, address persistent backlogs, and maintain timely, accurate processing of more than 66,000 rental units as the program's operational and compliance requirements expand.	General Fund	(100,000)	95,003	1.00
Community Development	Delete one position (1.0 FTE - Animal Care Technician) and add one new position (1.0 FTE - Animal Services Coordinator) in Animal Care. Increase revenue budget for Animal Care due to fee increases. This position will provide behavior evaluations and training to dogs housed in the shelter to decrease length of stay and increase the live release rate.	General Fund	-	-	-

FY2026/27 Proposed Budget

Department	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Community Development	Delete one position (1.0 FTE - Animal Care Technician) and add one new position (1.0 FTE - Animal Services Coordinator) in Animal Care. Increase revenue budget for Animal Care due to fee increases. This position will provide behavior evaluations and training to dogs housed in the shelter to decrease length of stay and increase the live release rate.	Measure U	(19,000)	18,864	-
Community Response	Add one position (1.0 FTE - Administrative Technician) for the Office of Community Response.	Measure U	-	106,782	1.00
Citywide and Community Support	Use one-time reserve funding for incremental increases for annual software licenses, subscriptions, system maintenance, and technical support increases that support existing citywide business and technology systems and applications. Ongoing software maintenance, subscriptions, and technical support are crucial for ensuring that business systems function optimally and maintain high availability.	General Fund	-	-	-
Citywide and Community Support	Use one-time reserve funding for the Cloud Data Infrastructure for Analytics and AI Readiness to implement a centralized, secure, cloud-based data warehouse that will serve as a shared enterprise platform for data storage, governance, and analytics. Consolidating data into a single managed environment will reduce duplication, standardize reporting, improve data quality, and strengthen fiscal and operational oversight, delivering immediate efficiency gains and improved transparency across the organization.	General Fund	-	-	-

		Total Change $	**(229,244)**	**1,508,148**	**(3.58)**

Proposed Budget Modifications – Other Funds

There was $1.6 million in modifications to other funds for augmentations and position add/deletes. There is a decrease of 18.60 FTEs. This is due to augmentations, position add/deletes and position reductions due to the loss of Expanded Learning Opportunities Program (ELOP) funding from Robla Unified School District.

Department	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Public Works	Replace outdated asphalt patch truck to increase efficiency and reliability of services.	Gas Tax 2016	-	350,000	-
Public Works	Increase services and supplies budget for Urban Forestry to address minimum required service levels.	Landscaping and Lighting	500,000	-	-
Public Works	Delete one position (1.0 FTE - Program Specialist) and add one new position (1.0 FTE - Administrative Officer) in the Parking Services Division to maintain service levels and reflect the fiscal and administrative job duties performed by this position.	Parking	-	(413)	-
Convention and Cultural Services	Delete six positions (3.0 FTE - Stationary Engineer, 2.0 FTE - Events Coordinator, and 1.0 FTE - Booking Coordinator) and add six new positions (2.0 FTE - Stagehand II, 1.0 FTE - Administrative Assistant, 1.0 FTE - Carpenter, 1.0 FTE - Building Maintenance Worker, and 1.0 FTE - Senior Building Maintenance Worker) within the SAFE Credit Union Convention & Performing Arts District. Better position alignment will increase retention and maintain reliable operations.	Community Center	-	(50,299)	-
Youth, Parks, and Community Enrichment	Delete fifteen positions (1 at 1.0 FTE Program Developer and 14 at 0.25 FTE Recreation Aides) and add fourteen new positions (14 at 0.40 FTE Recreation Aides) in the 4th R Division. Conversion of the career position to part time positions aligns with program needs.	4th R Program	-	7,833	1.10
Youth, Parks, and Community Enrichment	Delete forty five positions (15 at 0.46 FTE Senior Recreation Aides and 30 at 0.46 FTE Recreation Aides) from the START Division and adjust corresponding offsets. Positions are being deleted due to loss of Expanded Learning Opportunities Program (ELOP) Funding from Robla Unified School District.	START	810,720	(810,720)	(20.70)
		Total Change $	**1,079,955**	**519,255**	**(18.60)**

Budget Reduction Strategies Not Chosen

The following tables include General Fund reduction strategies **not included** in the Budget. If the proposed $13.2 million in one-time reduction strategies are not used to balance the Budget, ongoing reduction strategies in levels 1-3 (approximately $6.3 million) and a portion of level 4 (approximately $6.9 million) would need to be used. The strategies are detailed below.

Strategies Not Chosen - General Fund

Category	FTE Change	Net Budget Change
Revenues	-	$0
1	-	(215,000)
2	(15.25)	(1,984,063)
3	(31.67)	(4,067,608)
4	(228.00)	(36,468,024)
Citywide	-	(4,626,685)
Total	**(274.92)**	**($47,361,380)**

Strategies Not Chosen – General Fund

Department	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Vacant	FTE Filled
Level 1 Reduction						
Youth, Parks, and Community Enrichment	Increase revenue budget within Park Operations Division for fees related to expanded parking operations to be implemented at William Land Park.	Measure U	-	(215,000)	-	-
		Total Change $	-	**(215,000)**	**0.00**	**0.00**
Level 2 Reduction						
Police	Delete five positions (5.0 FTE - Police Clerk II) from various sections of the department.	General Fund	-	(390,273)	(3.00)	(2.00)
Police	Delete six positions (1.0 FTE - Police Sergeant and 5.0 FTE - Police Officer), eliminating the Magnet Academy/Youth Services Division. A modified version of the Magnet program will still exist.	General Fund	-	(1,202,520)	-	(6.00)
Police	Delete one position (1.0 FTE - Police Officer) in the Public Information Office.	General Fund	-	(223,409)	(1.00)	-
Youth, Parks, and Community Enrichment	Delete four positions (1 at 0.75 FTE , 1 at 0.50 FTE and 2 at 1.0 FTE - Program Leaders) in the Community Center Division. Reduce recreation program hours in Community Centers.	Measure U	54,287	(222,148)	-	(3.25)
		Total Change $	**54,287**	**(2,038,350)**	**(4.00)**	**(11.25)**
Level 3 Reduction						
Community Development	Decrease funding for the Residential Development Impact Fees for Affordable Dwelling Units Program. Impacts affordable housing developments, as developers rely on the reduction of impact fees.	Measure U	-	(500,000)	-	-
Convention and Cultural Services	Decrease expense budget for Old Sacramento management services to recognize cost savings from re-negotiating scope while maintaining core services.	Measure U	-	(250,000)	-	-
Human Resources	Delete one position (1.0 FTE - Administrative Analyst) in Office of Diversity and Equity reducing Diversity, Equity, and Inclusion (DEI) programming and initiatives.	Measure U	-	(137,752)	-	(1.00)
Police	Delete one position (1.0 FTE - Police Sergeant) in Internal Affairs.	General Fund	-	(218,667)	-	(1.00)
Police	Delete five positions (1.0 FTE - Police Sergeant and 4.0 FTE - Police Officer), eliminating the Human Trafficking Unit.	General Fund	-	(924,307)	(2.00)	(3.00)
Police	Delete one position (1.0 FTE - Police Sergeant), eliminating the Crime Prevention Through Environmental Design (CPTED)/Court Liaison Unit (CLU).	General Fund	-	(243,279)	-	(1.00)
Police	Delete three positions (2.0 FTE - Administrative Analyst and 1.0 FTE - Administrative Technician), eliminating the Compliance Team.	General Fund	-	(388,097)	-	(3.00)
Youth, Parks, and Community Enrichment	Delete seven positions (4 at 1.0 FTE and 2 at 0.80 FTE - Customer Service Assistant) in the Community Center Division and (1 at 1.0 FTE - Customer Service Assistant) in the Older Adult Services Division. Reduce Community Center Paypoint Locations to three Hub Locations.	Measure U	-	(537,041)	(2.00)	(4.60)
Youth, Parks, and Community Enrichment	Delete five positions (1 at 1.0 FTE - Program Coordinator - Adaptive Recreation, 1 at 0.47 FTE, 2 at 0.15 FTE, and 1 at 0.30 FTE - Recreation Leader Adaptive Recreation) from Access Leisure Division. Will reduce city offered programs and services for participants with disabilities and limit staff capacity to support inclusion requests and program modifications /accommodations for all YPCE programs. Reduced services could be provided by community partners.	Measure U	-	(138,354)	-	(2.07)
Youth, Parks, and Community Enrichment	Delete six positions (4 at 1.0 FTE - Custodian II, 1 at 1.0 FTE - Program Coordinator, 1 at 1.0 FTE - Program Supervisor) in the Community Center Division. Reduce programming in all Community Centers. Community Centers would only be open four days during the week and only available for rentals on the weekends.	Measure U	-	(539,209)	(2.00)	(4.00)
Youth, Parks, and Community Enrichment	Delete one position (1.0 FTE - General Repair Worker) in the Park Maintenance Division and replace with third-party service provider.	Measure U	-	(34,799)	-	(1.00)
Youth, Parks, and Community Enrichment	Delete five positions (5 at 1.0 FTE - Irrigation Technician) in the Park Maintenance Division and replace with third-party service provider.	Measure U	-	(156,103)	-	(5.00)
		Total Change $	-	**(4,067,608)**	**(6.00)**	**(25.67)**

Department	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Vacant	FTE Filled
Level 4 Reduction						
City Auditor	Delete one position (1.0 FTE - Senior Fiscal Policy Analyst) in the City Auditor Office. This will significantly affect the City Auditor's Office ability to conduct audits, research and analysis directed by City Council.	General Fund	-	(142,818)	-	(1.00)
Finance	Delete one position (1.0 FTE - Payroll Technician) in the Payroll Division.	General Fund	-	(98,881)	-	(1.00)
Finance	Delete one position (1.0 FTE - Administrative Technician) in the Procurement Division.	General Fund	-	(88,641)	-	(1.00)
Finance	Delete one position (1.0 FTE - Customer Service Rep) in the Revenue Division Revenue Services unit.	General Fund	-	(87,290)	-	(1.00)
Finance	Delete one position (1.0 FTE - Customer Service Rep) in the Revenue Division Permits & Taxes Unit.	General Fund	-	(81,439)	(1.00)	-
Finance	Delete one position (1.0 FTE - Customer Service Rep) in the Revenue Division Revenue Services unit.	General Fund	-	(81,559)	-	(1.00)
Fire	Delete 11 positions (3.0 FTE - Fire Captain, 3.0 FTE - Fire Engineer and 5.0 FTE - Firefighter) in Fire Suppression resulting in reduced emergency response capacity.	General Fund	-	(2,488,501)	(1.00)	(10.00)
Fire	Delete 12 positions (3.0 FTE - Fire Captain, 3.0 FTE - Fire Engineer and 6.0 FTE - Firefighter) in Fire Suppression resulting in reduced emergency response capacity.	General Fund	-	(2,481,162)	(1.00)	(11.00)
Human Resources	Delete one position (1.0 FTE - Administrative Analyst) in Office of Diversity and Equity reducing DEI programming and initiatives.	Measure U	-	(137,339)	-	(1.00)
Human Resources	Delete one position (1.0 FTE - Diversity and Equity Manager) in Office of Diversity and Equity.	Measure U	-	(228,069)	-	(1.00)
Information Technology	Delete two positions (1.0 FTE - Senior Telecommunications Tech and 1.0 FTE - Telecommunications Tech II) supporting the Fire Communications Program. A reduction to this program will hinder the management of portable and mobile radios used by firefighters, compromise fire vehicle electronics and communication systems affect the Fire Station Alerting System.	General Fund	-	(316,997)	-	(2.00)
Information Technology	Delete four positions (2.0 FTE - Systems Engineers, 2.0 FTE - IT Support Specialist II) supporting the Police Department Patrol Vehicle Technology (PVT) Program. A reduction to this program will negatively impact the department's ability to provide essential support for PVT, including maintaining and supplying critical hardware such as rugged laptops, cameras, routers, modems, and other field operations tools.	General Fund	-	(591,507)	-	(4.00)
Information Technology	Delete one position (1.0 FTE - Telecommunications Engineer III). If this position is deleted, the department cannot manage the City's FCC radio license operations, affecting 4,620 voice radio users in Police, 911, Fire, Code Enforcement, Utilities, Public Works, Solid Waste, and other departments relying on voice communications.	General Fund	-	(194,644)	-	(1.00)
Information Technology	Delete three positions (1.0 FTE - Principal Applications Developer, 1.0 FTE - Senior Applications Developer, and 1.0 FTE - Applications Developer) that support the Citywide Content Management System (CCM/CARA) tools and automation software that enables document capture, management, storage, and delivery. Eliminating this program could put the City at risk of legal penalties under state and federal records-retention policies.	General Fund	-	(522,870)	-	(3.00)
Information Technology	Delete six positions (6.0 FTE - 311 Customer Service Agents) that support the 311 Contact Center. Reducing this program will transfer after-hours and weekend support to departments. Calls outside from 7:00 am to 7:00 pm, Monday through Friday (around 40,400 calls per year or 16%) will be handled by department on-call personnel.	General Fund	-	(643,382)	-	(6.00)
Information Technology	Delete one position (1.0 FTE - Senior Applications Developer) supporting the Electronic Citywide Accounting and Personnel System (eCAPS) Finance Payroll Module. A reduction to this program would severely understaff the team and increase operational risk. Without technical oversight, the city risks payroll errors, missed paychecks, failed deposits, and incorrect tax withholdings. These issues could lead to employee hardship, strained labor relations, compliance penalties, and legal exposure.	General Fund	-	(179,234)	-	(1.00)
Information Technology	Delete one position (1.0 FTE - Senior Systems Engineer). This impact the Police Department Systems Support team by reducing their ability to conduct daily system health checks, manage system and data backups, and provide user account provisioning and support.	General Fund	-	(144,183)		(1.00)

Department	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Vacant	FTE Filled
Level 4 Reduction (cont.)						
Information Technology	Delete two positions (1.0 FTE – GIS Specialist III and 1.0 FTE – GIS Specialist II), reducing citywide GIS and data analytics capacity by limiting mapping, planning, and data-driven decision-making support across General Fund departments that rely on GIS services.	General Fund	-	(359,569)	-	(2.00)
Information Technology	Delete two positions (1.0 FTE - Program Specialist and 1.0 FTE - Administrative Analyst). This could disrupt critical HR operations, including payroll, benefits administration, Open Enrollment, Personnel Action Request processing, and labor contract updates.	General Fund	-	(307,537)	-	(2.00)
Information Technology	Delete one position (1.0 FTE - IT Supervisor). The Regional Support Division will be reorganized to distribute work evenly among remaining staff.	General Fund	-	(202,109)	-	(1.00)
Police	Delete 12 positions (2.0 FTE - Police Sergeant and 10.0 FTE - Police Officer) in the Impact Team and discontinue overtime funding in the Impact Project (I11002400).	General Fund	-	(2,924,460)	-	(12.00)
Police	Delete two positions (2.0 FTE - Police Officer) in the Emergency Vehicle Operators Course (EVOC).	General Fund	-	(424,640)	-	(2.00)
Police	Delete two positions (2.0 FTE - Police Officer) in the Criminal Intelligence Unit.	General Fund	-	(379,113)	-	(2.00)
Police	Delete one position (1.0 FTE - Police Officer) in Digital Forensics Unit.	General Fund	-	(213,149)	-	(1.00)
Police	Delete three positions (3.0 FTE - Police Officer), eliminating the Internet Crimes Against Children (ICAC)/Sexual Assault Felony Enforcement (SAFE) team.	General Fund	-	(542,162)	(1.00)	(2.00)
Police	Delete 15 positions (1.0 FTE - Dispatcher III and 14.0 FTE - Dispatcher I/II) in the Communications Center.	General Fund	-	(1,749,023)	(15.00)	
Police	Delete one position (1.0 FTE - Police Officer) in the Major Collisions Unit.	General Fund	-	(135,447)	(1.00)	
Police	Delete one position (1.0 FTE - Police Lieutenant) in Academy/Training.	General Fund	-	(288,541)	-	(1.00)
Police	Delete six positions (1.0 FTE - Police Sergeant and 5.0 FTE - Police Officer), eliminating the Nighttime Traffic Enforcement Team.	General Fund	-	(1,177,053)	-	(6.00)
Police	Delete 10 positions (1.0 FTE - Police Sergeant and 9.0 FTE Police Officer), eliminating the Daytime Traffic Enforcement Team.	General Fund	-	(1,814,367)	(4.00)	(6.00)
Police	Delete one position (1.0 FTE - Police Officer) in Robbery Unit.	General Fund	-	(135,447)	(1.00)	
Police	Delete nine positions (1.0 FTE - Police Sergeant and 8.0 FTE - Police Officer) in Burglary Division.	General Fund	-	(1,807,811)	(1.00)	(8.00)
Police	Delete 20 positions (3.0 FTE - Police Sergeant and 17.0 FTE - Police Officer), eliminating Problem Oriented Policing (POP) teams.	General Fund	-	(3,729,162)	(3.00)	(17.00)
Police	Delete 15 positions (3.0 FTE - Police Sergeant and 12.0 FTE - Police Officer), eliminating the Violent Crime Reduction (VCR) teams.	General Fund	-	(2,822,079)	(1.00)	(14.00)
Police	Delete nine positions (1.0 FTE - Police Sergeant and 8.0 FTE - Police Officer), eliminating the Special Investigations Unit.	General Fund	-	(1,887,785)	-	(9.00)
Police	Delete one position (1.0 FTE - Police Lieutenant) in Metro Division.	General Fund	-	(275,581)	-	(1.00)
Police	Delete five positions (5.0 FTE - Police Lieutenant) in Patrol Division.	General Fund	-	(1,393,359)	-	(5.00)
Police	Delete one position (1.0 FTE - Police Captain) in Office of the Chief.	General Fund	-	(321,975)	-	(1.00)
Police	Delete 16 positions (2.0 FTE - Police Sergeant and 14.0 FTE - Police Officer), eliminating Special Weapons and Tactics (SWAT).	General Fund	-	(3,181,771)	(1.00)	(15.00)
Police	Delete two positions (2.0 FTE - Police Officer) in Patrol Unit.	General Fund	-	(270,894)	(2.00)	
Youth, Parks, and Community Enrichment	Delete seven positions. (2 at 1.0 FTE, and 1 at 0.80 FTE - Custodian II, 1 at 1.0 FTE - Program Supervisor) in the Community Center Division, (1 at 1.0 FTE - Program Supervisor) in the Access Leisure Division, (1 at 1.0 FTE - Administrative Officer) in the Fiscal and Management Services Division and (1 at 1.0 FTE - Administrative Analyst) in the Youth Development Administration Division. Reduce programming in all Community Centers. Community Centers would only be open three days during the week and only available for rentals on the weekends.	Measure U	88,652	(738,423)	(1.00)	(5.80)

Department	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Vacant	FTE Filled
Level 4 Reduction (cont.)						
Youth, Parks, and Community Enrichment	Delete forty-three positions (4 at 0.20 FTE and 1 at 0.35 FTE - Cashier, 16 at 0.20 FTE - Lifeguard, 3 at 0.40 FTE and 1 at 0.45 FTE - Pool Manager, 2 at 0.25 FTE and 11 at 0.30 FTE - Senior Lifeguard, and 4 at 0.35 FTE - Assistant Pool Manager) in the Aquatics Division and (1.0 FTE - Recreation Superintendent) in the Older Adult Services Division, reduce revenue obligation in the Aquatics Division by $182,487 and increase services and supplies budget by $100,000 in the Aquatics Division. Reduce Programming in the Aquatics Division. Close all neighborhood pools and only open the three hub pools.	General Fund	-	-	-	
Youth, Parks, and Community Enrichment	Delete forty-three positions (4 at 0.20 FTE and 1 at 0.35 FTE - Cashier, 16 at 0.20 FTE - Lifeguard, 3 at 0.40 FTE and 1 at 0.45 FTE - Pool Manager, 2 at 0.25 FTE and 11 at 0.30 FTE - Senior Lifeguard, and 4 at 0.35 FTE - Assistant Pool Manager) in the Aquatics Division and (1.0 FTE - Recreation Superintendent) in the Older Adult Services Division, reduce revenue obligation in the Aquatics Division by $182,487 and increase services and supplies budget by $100,000 in the Aquatics Division. SECTION - 5
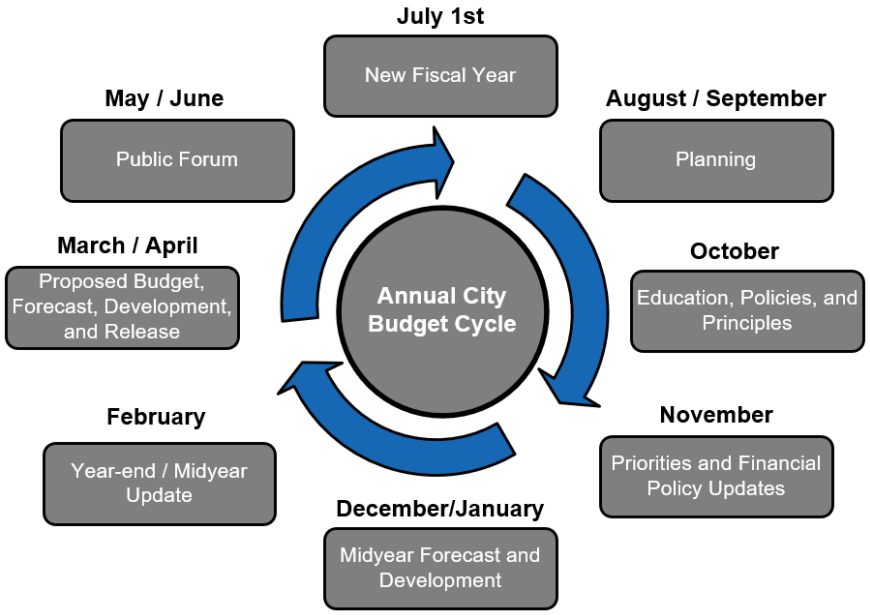
Understanding the Budget

BUDGET INFORMATION



Budget Presentation

The presentation of the Budget includes both the FY2026/27 Proposed Operating Budget and the 2026-2031 Proposed Capital Improvement Program (CIP) Budget which includes the FY2026/27 CIP Budget. The Budget documents are available on the City's website at: www.cityofsacramento.org/finance/budget.

The Budget includes technical information concerning operating departments and estimated citywide revenues and expenses. The Forecast Section provides an outline of anticipated revenue, including an explanation of assumptions, and a five-year General Fund forecast (revenues and expenditures). The Budget Schedules include detailed information on staffing, revenue estimates, and proposed expenditures for the governmental funds, the enterprise, and other special revenue funds. The Staffing section provides a list of authorized positions for each department, by classification, including the changes in FTE.

The Budget Process

The City engaged and educated the community on the budget process and the City's financial challenges by completing a community budget survey, conducting community meetings, and facilitating discussions at the Budget and Audit Committee (Committee) and Council meetings from February through April. The following graphic represents the City's budget/program planning cycle:

The City's fiscal year is July 1 through June 30. As such, the Council adopts the City's operating and capital budgets for a single fiscal year beginning July 1 and ending June 30 in the subsequent calendar year.

To establish the annual budget, the Budget, Policy and Strategic Planning Division of the Finance Department, in coordination with the City Manager and the City's operating departments, develops a proposed revenue and expenditure plan for the coming fiscal year. The existing approved expenditure plan is carried over from the prior year and:

- Labor costs are updated to reflect current salaries, minimum wage changes and adjustments for taxes as well as salary and benefit changes called for in union contracts. Estimates are also established for unrepresented employees.
- Cost Plan allocations which reimburse the General Fund for support provided to the enterprise funds are updated based on services (accounting, budget, facility maintenance, human resources, information technology [IT], payroll as well as Council and Charter Offices) provided.
- Debt service is updated to reflect the actual payments required.
- Fleet (City vehicles) expenditures including vehicle acquisition, fuel, operations and maintenance, and motor pool are updated based on established replacement schedules, prior year actual costs/usage and anticipated cost increases.
- General Liability and Auto Liability insurance costs are updated based on annual experience and exposure cost allocation studies in accordance with the adopted Risk Management Funding and Reserve Policy.
- Retiree health care costs and pension payments for the Sacramento City Employees' Retirement System (SCERS) are updated based on actuarial reports.

Departments are also provided with an opportunity to request budget changes to address ongoing initiatives like repair and replacement of aging equipment and infrastructure, utilities, and staffing needs. These requests are submitted and reviewed by the City Manager's Office. A summary of budget modifications is outlined in the Budget Modification Section.

A five-year revenue model has been developed based on prior year actual revenue receipts and economic and revenue indicators to determine what resources, tax revenues, and other discretionary revenues will be available to support operating requirements. Detailed information on the revenue forecast, including estimated ongoing impacts of the pandemic, is included in the Forecast Section. Capital improvement programs and projects are identified and funded with available General Funds, enterprise funds, internal service funds, grants, transportation, and other funding sources as identified in Schedule 4 and detailed in the 2026-2031 CIP.

Council Priorities

On February 14, 2017, the Council adopted the following Core Budget Policies and Guidelines (Resolution 2017-0078) for the annual budget.

Core Budget Policies
1. City Council must adopt a balanced budget.
2. Funding decisions should be consistent with Council adopted policies.
3. The Economic Uncertainty Reserve shall be maintained at a minimum of 10% of budgeted General Fund revenues. Resources shall be added to maintain this level through the budget and midyear processes as necessary.
Budget Guidelines
1. Maintain a fiscally sustainable, balanced budget.
2. The Mayor and Council's priorities, based on community input, should drive the budget creation.
3. Continue a community-based budget process where city residents are engaged and educated on budget processes and provide feedback on budget priorities.
4. Look for ways to grow the reserve beyond its current goal.
5. All budget actions must be considered in a five-year context, with new revenues not counted or spent until realized. One-time resources should be used for one-time needs, not ongoing expenses.
6. Do not make spending decisions in isolation. Avoid spending money on one-off projects or without looking at the big picture. Understand long-term consequences and opportunity costs.
7. Keep Council informed on the fiscal condition of the City and conduct continuous evaluations for efficiencies and effectiveness.
8. The City must consistently look for opportunities to proactively grow revenues instead of being reactive.
9. Make every effort to identify private financing or federal and state grant opportunities before using City resources. Pursue new and enhance existing revenue sources.
10. Before new expenditures are made, identify return on investments and impacts; fiscal and social benefits.
11. Address unfunded long-term liabilities.
12. Remain a full-service city.

Financial Management Policies

The City of Sacramento develops its annual budget according to Council-adopted sustainable budget policies. These policies call for one-time funding sources to only be used for one-time operating and capital expenditures. Ongoing expenditures are to be matched with ongoing financing sources. Reserves are to be used in a planned and strategic manner. The five-year forecast for the General Funds will be updated as new information becomes available. Full reviews of revenue receipts in comparison to the budgetary estimates are performed and corrective actions recommended, if necessary.

The ongoing core of the Council's budget philosophy continues to be sustainability. The Council has adopted the following financial management policies that guide the development of the Budget, financial decision making, and fund management. These policies are included in the Financial Policy Section of the document.

- Budget Control
- Debt Management and Debt Management Disclosure
- Development Stabilization Contingency Reserve (DSCR) and Development Services Fund Management

- Emergency Medical Services (EMS) Revenue Recovery and Fee Waiver
- Fees and Charges
- General/Measure U (G/MU) Fund Economic Uncertainty Reserve (EUR) Policy
- Interfund Loans
- Investment
- Other Post-Employment Benefits (OPEB)
- Pension Funding
- Prior Year Savings Guideline Policy
- Rental Housing Inspection Program (RHIP) Reserve and Project Management Policy
- Risk Management Funding and Reserve
- Sacramento City Employees' Retirement System (SCERS) Investment

Performance Measurement

A performance management program is an important tool in city management. It offers a method of measuring the success of programs and activities in achieving outcomes that reflect public priorities. The establishment and evaluation of performance metrics and business improvement activities will serve to inform operational and strategic decision-making throughout the organization. As a management tool, it will aid in evaluating how well programs are providing quality services.

The National Performance Management Advisory Commission's *"A Performance Management Framework for State and Local Government,"* provides a model for public sector performance management based on seven key principles, which can be applied to local government planning, budgeting, management, and evaluation to bring together critical processes and decision making to improve results. The seven principles ensure that:

1. ***A results focus permeates strategies, processes, the organization culture, and decisions***. While compliance with prescribed processes can assure fairness, fiscal integrity, or adherence to the law, it does not necessarily result in substantial benefits to the public. Performance management assures that the organization's culture and processes are aligned with the goals the organization wishes to achieve.

2. ***Information, measures, goals, priorities, and activities are relevant to the priorities and well-being of the government and the community***. To achieve results, an organization must first establish goals and performance targets that are relevant to stakeholders. It then must ensure that all levels of the organization (e.g., policy makers, managers, staff, and others) understand how to implement performance management tools that will achieve those goals.

3. ***Information related to performance, decisions, regulations, and processes is transparent, i.e., easy to access, use, and understand***. The transparency (i.e., completeness, organization, and understandability) of performance information is critical to fostering evidence-based planning, budget, and decision making.

4. ***Goals, programs, activities, and resources are aligned with priorities and desired results***. Effective performance management systems ensure alignment among an organization's goals, priorities, programs, activities, resources, and desired results.

5. ***Decisions and processes are driven by timely, accurate, and meaningful data***. Collecting, storing, and applying performance data is essential to tracking and understanding results.

6. ***Practices are sustainable over time and across organizational changes***. "Performance management is not an event, a program, or a quick fix…" Efforts must be sustainable, flexible, and adaptable enough to keep up with inevitable changes, whether those changes take place within the organization's leadership or the community in which the organization is located.

7. ***Performance management transforms the organization, its management, and the policy-making process.*** An organization that has been truly transformed by performance management uses evidence-based planning and management, objective goal setting, and alignment of its structure, systems, and resources to achieve its desired results.

The City has been working on performance management with departments to identify measures that address these principles. While department sections include a few key measures, there are many additional measures being tracked citywide. The City Manager's Office directly oversees this program and is working on strengthening existing measures and adding measures that are important to the Council, our community, and the operating departments/management.

FINANCIAL INFORMATION

Budget Basis

The City's annual budget is prepared on a modified accrual basis of accounting. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Property taxes, franchise taxes, licenses, intergovernmental revenue, special assessments, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual, and so have been recognized as revenues of the current fiscal period. All other revenue items are considered measurable and available only when cash is received by the government.

Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Budgets are modified throughout the year when the tax base changes, fees are modified, new revenue sources are identified, or programs are changed. The City Manager is authorized to administratively amend the budget during the year for transactions less than $250,000 without Council approval. All other appropriation adjustments during the year require Council approval. Unencumbered annual budget appropriations lapse at fiscal year-end except as specifically identified in the annual budget resolution. Multi-year budget appropriations are automatically carried over into the next fiscal year.

Fund Structure

The City uses fund accounting to assure and demonstrate compliance with finance-related legal requirements. A fund is defined as a separate accounting entity with a self-balancing set of accounts recording cash and other financial resources together with related liabilities. Each fund was established for the purpose of accounting for specific activities in accordance with applicable regulations, restrictions, or limitations. The City has three types of funds:

- *Governmental Funds* — Account for activities which are primarily supported by taxes or other mandatory payments. Most of the City's basic services are included in governmental funds. There are three categories of Governmental Funds:
    - The General Fund is the primary operating fund of the City and accounts for all financial resources except for those that are required to be accounted for in separate funds. Sources of General Fund revenues include taxes, licenses, permits, fees, fines, intergovernmental revenues, and charges for services,

special assessments, interest income, and other resources available for discretionary funding.

The General/Measure U Fund EUR was established to provide resources for the Mayor and Council to manage the impact of economic fluctuations that negatively impact the City's revenues.

- April 26, 2016 – Council-adopted the General Fund EUR Policy (Council Motion 2016-00440) establishing a minimum reserve level equal to 10% of annual General Fund revenues and a target reserve level equal to two months of regular ongoing General Fund expenditures, including transfers (17% of General Fund expenditures). Resources to fund this reserve will be identified on an ongoing basis and can include positive year-end results or other one-time resources available to the General Fund.

- February 5, 2019 – Council adopted the General/Measure U Fund EUR Policy (Resolution 2019-0248) adding the Measure U Fund to the original EUR Policy.

- The Measure U Fund was established to account for revenues collected from the half-cent transactions and use tax approved by voters on November 6, 2012. On November 6, 2018, the voters approved a change to Measure U, increasing the tax to one cent. Measure U was approved as a general tax and can be used for any general government purpose. This tax is charged on each dollar of taxable sales of goods purchased from retailers within the City of Sacramento, and on the taxable storage, use, or consumption of goods purchased outside the city and delivered to a location within the city.

- Other Governmental Funds include:

  - Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. These funds are generally required by statute, charter, or ordinance to finance specific governmental functions.

  - Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest, or that are being accumulated for principal and interest maturing in future years.

  - Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for governmental capital assets.

- *Proprietary Funds* — Account for services for which customer fees are intended to finance the costs of operations. There are two types of Proprietary Funds:

- Enterprise Funds account for programs and services financed and operated similar to business-type activities which include services rendered to the general public on a fee basis.
    - Community Center Fund accounts for the operation and maintenance of the City's Convention Center Complex, including the Convention Center Theater, Memorial Auditorium, and the Community Center.
    - Parking Fund accounts for the operation and maintenance of five City parking garages and 40 garages and parking lots (including lots owned by the State of California and numerous private owners).
    - Solid Waste Fund accounts for the collection and disposal of refuse throughout the City and for landfill closure.
    - Storm Drainage Fund and Storm Drainage Property Fee Fund accounts for the operation and maintenance of the City's surface drainage system.
    - Wastewater Fund accounts for the operation and maintenance of the City's wastewater system.
    - Water Fund accounts for the operation and maintenance of the City's water treatment and water transmission and distribution systems.
- Internal Service Funds, i.e., the City's Fleet Fund and Risk Management Fund, account for the activities that provide services delivered by one department to another department on a cost reimbursement basis.

- *Fiduciary Funds* — Account for activities that most closely resemble not-for-profit organizations, including trusts and agency activities. The City is:
    - *The* trustee, or *fiduciary*, for its closed (effective January 1977) defined benefit pension plan – Sacramento City Employees' Retirement System (SCERS).
    - Responsible for other assets, held on behalf of investors, in the City's investment pool and individual investment accounts.
    - Responsible for the assets received by the Successor Agency from the City's former Assembly Bill X1 26 which dissolved redevelopment agencies in California.
    - The agent for bonded assessment and community facilities districts and responsible for ensuring the assets reported in these funds are used for their intended purposes.

Annual budgets are adopted for the governmental funds, enterprise funds, special revenue funds, and internal service funds. Expenditures are appropriated on a modified accrual basis, except the commitments related to purchase orders and contracts are treated as expenditures in the year of commitment.

HOW TO READ THIS DOCUMENT

The Budget for each department is presented in a format that includes the following:

- Department mission statement (if available)
- Budget/staffing changes
- A department level budget summary table showing budget for:
  - FY2023/24 Actuals
  - FY2024/25 Actuals
  - FY2025/26 Approved Budget
  - FY2025/26 Amended Budget (as of February 2026)
  - FY2026/27 Proposed Budget
  - Variance

  The summary table shows for each year:
  - Budgeted expenditures by category
  - Funding sources and amounts
- A division level summary budget table:
  - FY2023/24 Actuals
  - FY2024/25 Actuals
  - FY2025/26 Approved Budget
  - FY2025/26 Amended Budget (as of February 2026)
  - FY2026/27 Proposed Budget
  - Variance
- A division level summary staffing table:
  - FY2023/24 Actuals
  - FY2024/25 Actuals

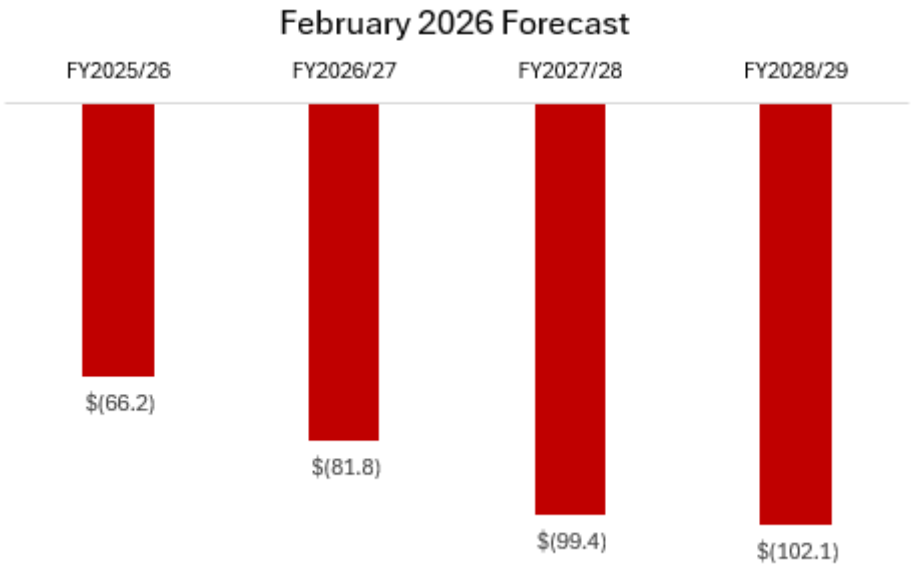
SECTION - 6
The Forecast

Proposed Financial Forecast



Financial Forecast

The financial forecast is a fiscal management tool that evaluates current and future fiscal trends and presents estimated information based on past, current, and projected financial conditions. This tool helps identify future revenue and expenditure trends that may have an immediate or long-term influence on Council's policies, strategic goals, and community programs and services.

General and Measure U Funds Overview

This section includes a five-year forecast for the General Fund (General and Measure U Funds combined), a separate forecast for the Measure U Fund and the City's Enterprise Funds. The information in these forecasts provides a current picture of the fiscal condition of the funds, establishing an important context for the decision-making necessary to maintain both essential community services and fiscal stability.

In February 2026, the City released its updated financial forecast which projected a $66.2 million funding gap for FY2026/27 with deficits increasing annually throughout the forecast period and reaching over $102 million by FY2028/29.

The forecast did not assume an economic downturn and highlighted a fundamental imbalance in the City's budget with expenses outpacing revenues. This imbalance is known as a structural deficit.

The structural deficit is not the result of an economic downturn but is the result of decisions that the City and voters have made over the past few years along with macroeconomic forces such as inflation. These decisions include expanding into new service areas, increased costs of new labor contracts, increasing staffing levels, and

ballot measures redirecting general revenues for specific purposes. In many cases, federal aid to assist local governments mitigate COVID-19 pandemic impacts allowed the City to fund these cost increases, however, the federal funding was one-time while many of the increased costs are ongoing.

In addition to the structural deficit, the City has been in negotiations with all eleven recognized employee organizations (REO) over the past 10 months. Eight of the eleven REOs now have labor contracts with the City and two of the remaining three REOs are close to being finalized. Updated labor contract costs increased overall deficit by $11.3 million in FY2026/27 above the labor increases included in the mid-year forecast. The additional costs are included in the Budget and the forecast. The City is still in active negotiations with the Sacramento Police Officers Association (SPOA). The Budget and the forecast include costs that have been proposed to SPOA to date.

The Budget addresses the City's deficit by taking a strategic approach to conduct revenue enhancements and expenditure reductions instead of simply pursuing across-the-board cuts. Proposed solutions to close the $66.2 million funding gap plus the additional labor contract costs of $11.3 million include a combination of one-time and ongoing strategies. While the ongoing reductions helped decrease the deficits in future fiscal years, they did not close the entire gap.

The Five-Year General Fund Forecast

Given Council's sustainable budget policy, proposed fiscal actions are evaluated in both a short and longer-term context. The five-year forecast is a key tool in the City's long-range financial planning process, providing a multi-year view of revenues and expenditures, allowing an assessment of the fiscal consequences of both prior and current funding decisions in the context of forecasted revenues and expenditures.

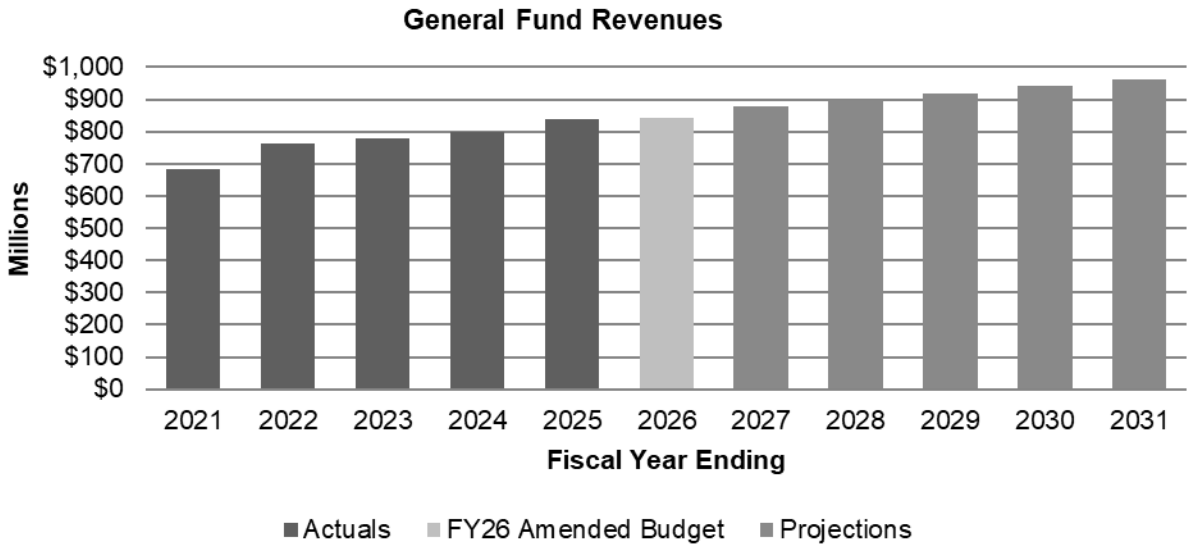
The five-year forecast is developed during the annual budget process based on the most recent national, State, regional and local economic data, trends, and changes in both economic conditions and anticipated future revenues trends. Updated cost estimates are also a key component of the long-range forecasting process. This allows the City to identify potential challenges and make course corrections through budget and operational adjustments. In addition, if there are significant changes to either revenues and/or expenditures during the year, outside of the budget or quarterly reviews, the impact of those changes will be reported to Council as soon as practicable.

The Budget is balanced; however, the City continues to face a structural deficit with expenses outpacing revenue growth in future fiscal years. While the recommended reduction strategies help close the funding gap in FY2026/27, these efforts do not completely fill the gaps in future fiscal years. The current five-year forecast is presented below.

5-Year Forecast General Fund *($ in 000s)*	FY2026/27 Proposed	FY2027/28 Projection	FY2028/29 Projection	FY2029/30 Projection	FY2030/31 Projection
Beginning Available Fund Balance	**-**	**294**	**-**	**-**	**-**
Revenues					
Revenues	879,916	897,372	919,892	940,625	961,195
Other Sources	18,683	11,724	11,926	12,132	12,343
Total Revenues/Resources	898,599	909,096	931,818	952,757	973,537
Expenditures					
Operations	879,595	921,445	972,180	993,736	1,023,131
Capital Projects	14,210	15,808	15,788	15,788	15,788
Subtotal Expenditures	893,805	937,252	987,968	1,009,523	1,038,918
EUR Contribution	4,500	4,700	5,000	5,100	5,200
Total Expenditures/Uses	898,305	941,952	992,968	1,014,623	1,044,118
Surplus/(Deficit)	294	(32,856)	(61,150)	(61,866)	(70,581)
Ending Available Fund Balance	**294**	**(32,563)**	**(61,150)**	**(61,866)**	**(70,581)**

Additional challenges in the General Fund forecast are detailed below:

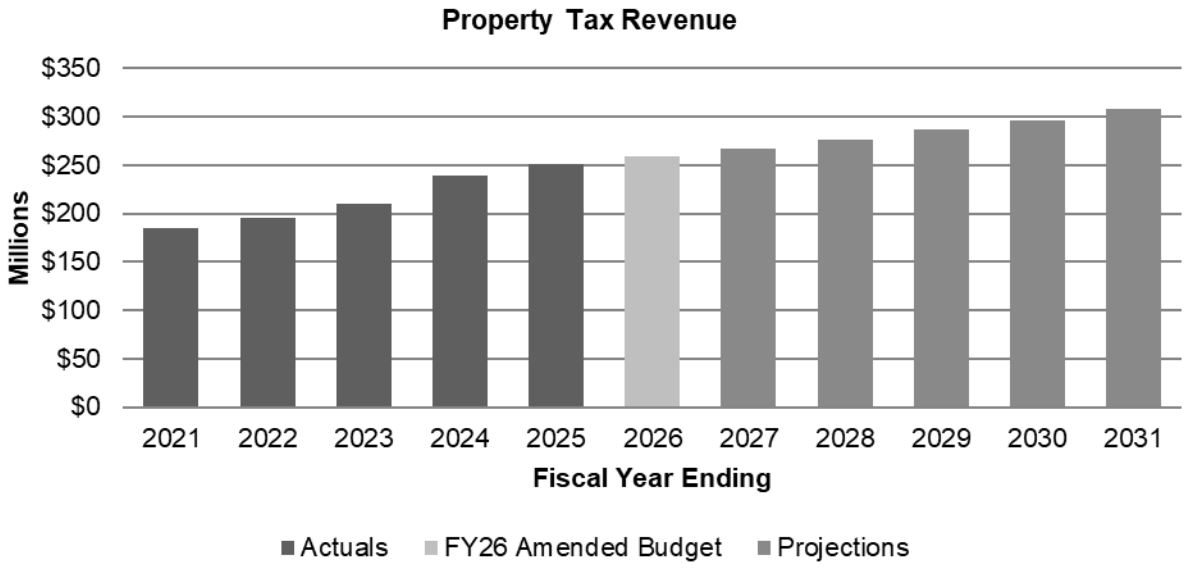
- California Public Employees' Retirement System (CalPERS) unfunded liability costs will increase by $16.6 million (14.7%) over the next four years.
- Liability insurance premiums are estimated to increase by $37.3 million (69%) over the next four years.
- Unknown future labor costs with SPOA. Although the Budget and the forecast include costs that have been proposed to SPOA to date, the final costs may differ.
- Approximately $2.0 billion in unfunded capital needs between 2026 and 2031 are not included in the forecast. Unfunded capital needs consist of the maintenance and repairs of existing City facilities and assets and the purchase of new assets required to maintain a consistent level of service to City residents.
- Homeless services will cost approximately $168 million over the next four years, and future State funding may not be allocated to the City as the Governor did not include an additional round of HHAP program funding in his January Budget proposal.



With the exception of unfunded capital needs and unknown final SPOA contract costs, estimates for the above challenges have been included in the forecast as presented.

General Fund Revenues

The City's General Fund revenues continue to experience growth across most revenue sources. The following table highlights the top three General Fund revenue sources representing almost two-thirds of all General Fund revenues.



Revenue Source ($ in 000s)	FY2025/26 Amended	FY2026/27 Proposed	FY2027/28 Projected	FY2028/29 Projected	FY2029/30 Projected	FY2030/31 Projected
Property Tax	258,546	266,507	276,176	286,218	296,647	307,479
Sales Tax	236,843	243,370	247,167	255,589	261,538	266,937
Utility User Tax	70,420	70,852	71,764	72,772	73,874	75,068
Other Revenue	275,806	299,187	302,265	305,312	308,566	311,711
Total General/Measure U Revenue	**841,616**	**879,916**	**897,372**	**919,892**	**940,625**	**961,195**

The chart below provides a five-year year look back and forecast of General Fund revenue growth. General Fund revenues are projected to increase by about 9% between FY2026/27 through FY2030/31.

Property Tax

Property taxes account for 30% of all General Fund revenues. Revenues related to property taxes are affected by fluctuations in the real estate market, levels of new construction activity, and the corresponding changes to the assessed value of those properties on the tax roll.

According to Federal Reserve Economic Data, the average 30-year fixed rate mortgage fell from over 7% in January 2025 to about 6.2% in December 2025. For 2026, however, the Mortgage Bankers Association and Fannie Mae are projecting mortgage rates to remain essentially flat at 6.1% and 6.0%, respectively. This may hinder additional homebuyer demand this year. According to the Sacramento Business Review January 2025 Report, Sacramento's residential housing market was subdued throughout 2025 as affordability constraints weighed on homebuyer demand. As a result, the region is likely to see another year of muted activity in 2026, with affordability remaining the primary barrier to stronger demand.

Additionally, regional home price appreciation decelerated throughout 2025 even as mortgage rates declined, indicating potential buyers remained on the sidelines despite improvement in mortgage rates. Resale home values in Sacramento declined 1% between November 2024 and November 2025. New home values have maintained their sales pace through heavy reliance on builder-provided incentives, but sales volume remains well below the pre-pandemic average. Taken together, these recent trends in the housing market both nationally and regionally suggest that Sacramento's housing market faces continued headwinds heading into FY2026/27.

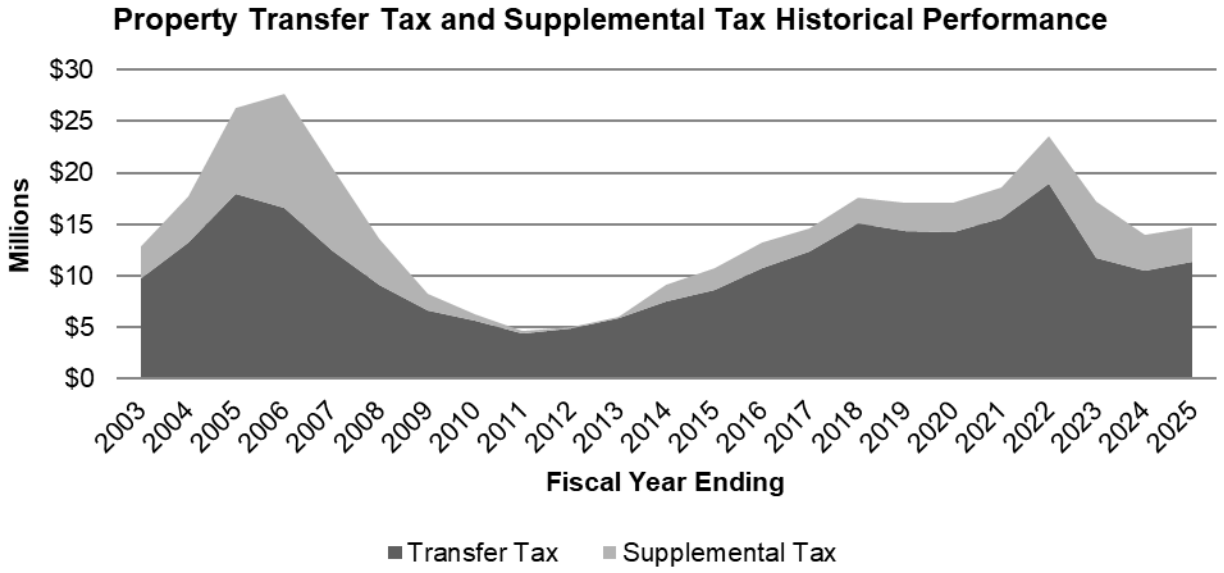
The total assessed value for Sacramento County's FY2025/26 secured and unsecured roll surpassed $256.9 billion, an increase of 5.41% countywide. Additionally, the Sacramento County Assessor's (Assessor) 2025 Annual Report and monthly reports have highlighted positive barometers for the City as follows:

- Total gross assessed value of secured/unsecured properties in the City grew 4.2% from FY2024/25 to FY2025/26.
- City properties with Proposition 8 assessments (temporary reduction in property taxes due) decreased from 2,820 in April 2025 to 2,708 in April 2026, a 4.0% decrease. However, the total value of those assessments increased by $1.1 billion.

On January 13, 2026, the California State Board of Equalization directed the Assessor to apply the full 2% inflation factor (CCPI – California Consumer Price Index) to property values for taxation. Because the Assessor does not complete work on the tax roll until after the Budget is adopted, the forecast for property tax revenues is based on the Assessor's "work in progress" and will be re-evaluated when final information is received in July.

In light of national and regional housing market conditions, staff is recommending the property tax secured roll forecast for FY2026/27 to be unchanged from the forecasted amount for FY2026/27 presented to Council on February 10, 2026. In the past five years, the annual growth rate of the secured roll has been roughly 6.1%, which includes the pandemic-era housing boom. The forecast assumes 3.0% growth in FY2026/27 and 3.8% growth in the out-years, which is the annual growth rate observed for secured roll receipts over the past two decades. This represents the continued resilience of the regional housing market while considering that short-term growth may not be as robust in the future as it has been in recent years.

Property Tax In-Lieu of Vehicle License Fees (VLF)



The State's 2004 property tax for VLF swap permanently reduced the VLF rate from 2% to 0.65%, shifted the VLF revenue to the State General Fund to make up for reduced property taxes to schools, and shifted property taxes from the school share to property tax in-lieu of VLF to cities and counties. The Sacramento County Audit-Controller Division provided updated information in late 2025 for FY2025/26 collections and indicated the City would receive an increase of 3.9% in estimated revenues when compared to FY2024/25 collections. Staff recommend assuming a 4% annual growth for this revenue stream to align with long-term historical actuals.

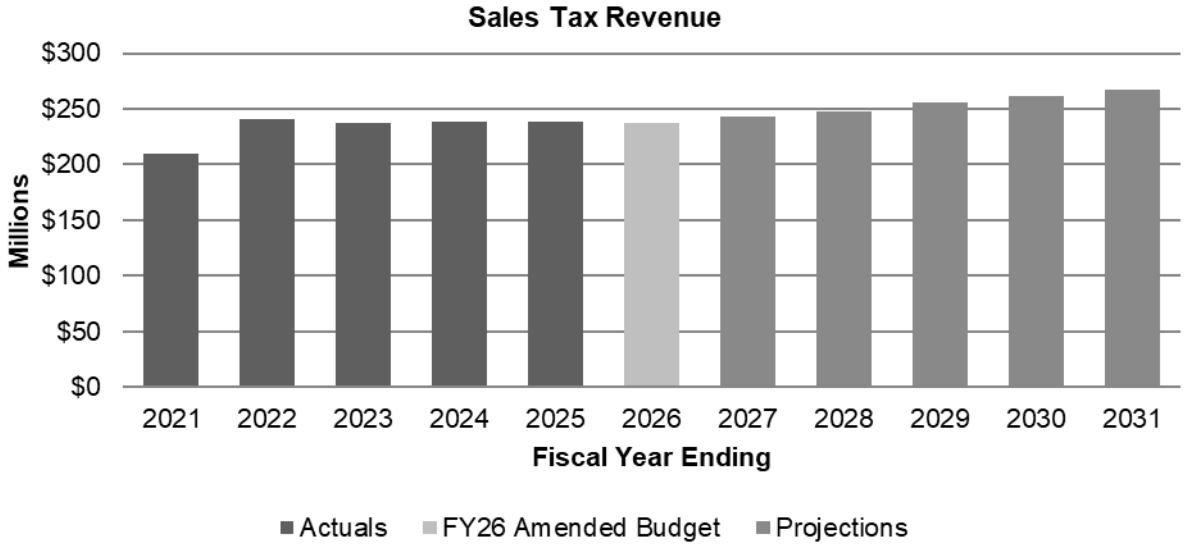
Property Transfer Tax and Supplemental Property Tax

The real property transfer tax is a charge imposed by the City upon the passing of title from one owner to another. The City charges $2.75 for every $1,000 of the property's sale price (0.00275%). The supplemental property tax is a charge generated when a property is reassessed due to a change in ownership (a sale, transfer, or transfer of fractional interest) or because of new construction. The supplemental tax bill reflects any increase or decrease in property tax generated by the supplemental event.

These two sources of revenue can be volatile, fluctuating with housing market activity, ranging from a combined high of $27.7 million in FY2005/06 to a combined low of $4.6 million in FY2010/11. Compared to the same period in FY2024/25, real estate transactions over the first seven months of FY2025/26 have been flat and the average real property transfer tax received per transaction declined by 17%. This is a symptom of the overall housing market discussed earlier, illustrating that Sacramento home sellers appear reluctant to sell if they are locked in lower interest rates and if they cannot secure an affordable mortgage upon the sale of their current property. Due to these recent trends, staff recommend keeping the real property transfer tax and supplemental property tax flat over the term of the forecast. Elevated interest rates, limited housing supply, and inflationary factors continue to weigh heavily on the real estate market.

The following graph reflects the significant effect the Great Recession had on these revenue sources and the gradual rebound since then. Given the volatility of these revenues, it is especially important to be aware of market trends and adjust the forecast early should overall sales volume and price decrease dramatically.

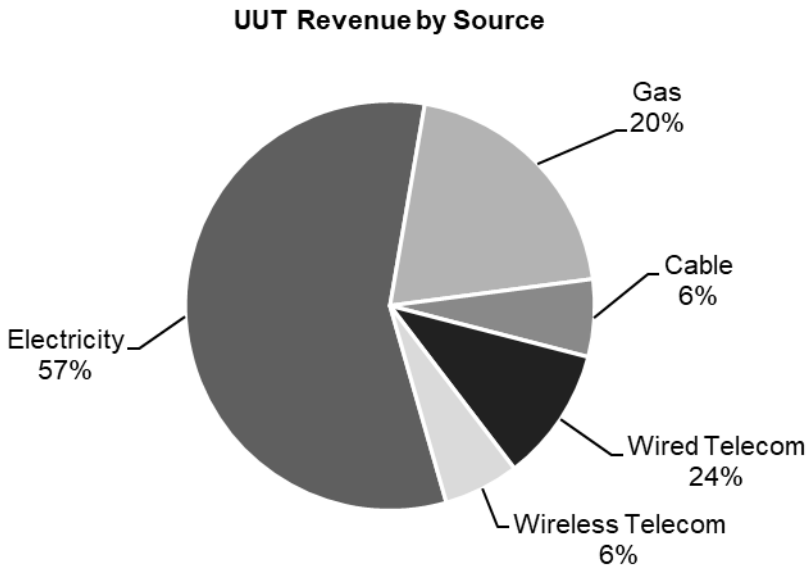
Sales Tax



A general sales and use tax is imposed on all retailers when they sell tangible personal property and certain services in the state. The City's transactions and use tax is imposed on all retailers for the sale, storage, use, or other consumption of tangible personal property and certain services within the City. These taxes are collectively referred to as sales taxes. The City's current sales tax rate is 8.75%. Of the 8.75% sales tax rate, the City keeps only 2 percentage points, half of which is allocated to the General Fund and half of which is allocated to the Measure U Fund as approved by voters in November 2018. The remainder of the percentage points are allocated to the State of California or to Sacramento County. Sales taxes account for 28% of all General Fund revenues. The table below lists the percentage breakdown of each economic segment of the sales tax forecasted in FY2025/26.

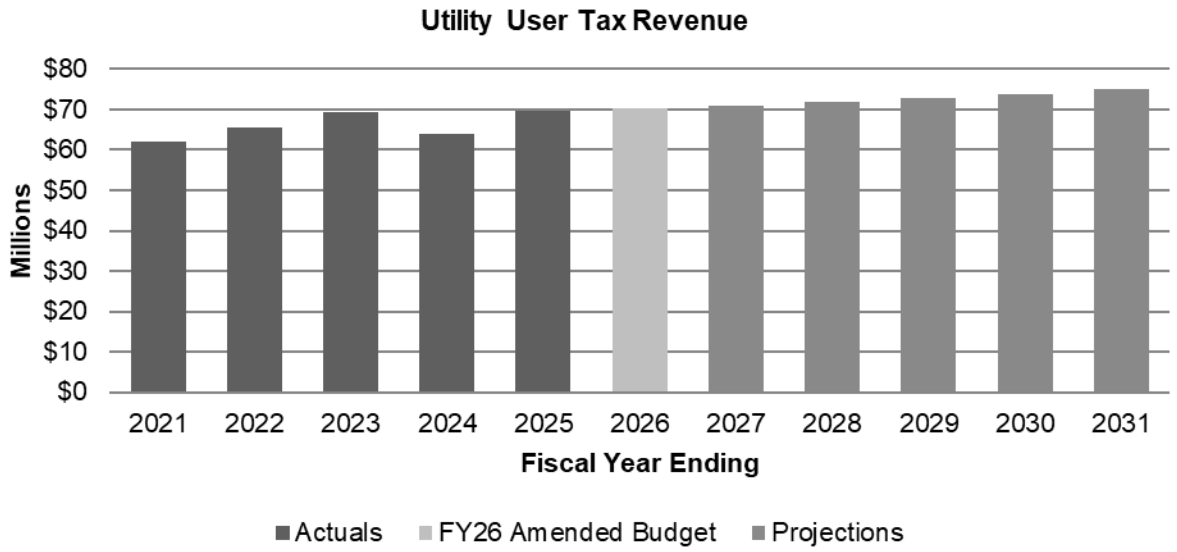
Sales Tax Breakdown by Economic Segment	
General Retail	24.8%
Food Products	19.7%
Business to Business	18.3%
Transportation	15.0%
Construction	11.0%
County Pool	7.7%
Miscellaneous	3.5%
Total	**100.0%**

Last year, the federal government implemented a broad-based tariff program that has made it more difficult to forecast the direction of the economy and related downstream effects such as interest rate forecasts and sales tax forecasts. Initial fears that the tariffs would spur more inflation as consumers received the passthrough costs were overstated. Ever-changing trade and tariff policies have caused businesses to hesitate to change prices. However, sales taxes receipts are still uncertain despite these developments. Interest rates are still higher than they have been in recent years, which typically dampens consumer demand for vehicle purchases and home improvement spending. The recent geopolitical tension in Iran has also created volatility in the global oil market. If the conflict is sustained over a longer period of time, households may need to spend more on gasoline and home energy, which would in turn reduce discretionary spending on taxable goods and services. This is especially true of cities that are heavily reliant on transportation by automobile like Sacramento, where over three-quarters of the labor force drives a car to work.



The City projected approximately $241.5 million in sales tax receipts for FY2026/27 last year. Based on more recent forecasting by Neumo, the City's sales tax consultant, the City is projecting approximately $243.4 million in sales tax receipts for FY2026/27, an increase of less than 0.8%. Over the past few years, sales tax revenues have been affected by a variety of unusual factors, including but not limited to the COVID-19 pandemic and recovery; higher than normal inflation; global supply chain issues; changes in consumer demand from taxable to non-taxable purchases; a spike in fuel prices at the onset of the Russian invasion of Ukraine; the shifting federal implementation of trade and tariff policies; and now another spike in fuel prices over geopolitical tensions in Iran.

For the City's sales tax forecast, staff are recommending using Neumo's conservative scenario for FY2026/27 and FY2027/28 and then using the midpoint between Neumo's conservative scenario and most likely scenario for the out-years.



Utility User Tax (UUT)

UUT is a usage tax on communication, electric, and gas charges billed to a billing or service address in the City as authorized in the City Code (Section 3.32). November 2008, voters approved Measure O to reduce the 7.5% tax rate to 7% on telecommunication services. Measure O also expanded taxable services to include Voice over Internet Protocol (VoIP), text messaging, and many other previously excluded technologies. Gas, electricity, and cable services retain the 7.5% tax rate. UUT is the City's third largest revenue source, accounting for 8% of General Fund revenue. UUT has had the most consistent revenue stream over the past five years but also faces the most potential for adversity with industry regulation and the market growth of unregulated media platforms. The following graph represents the UUT revenues by source:

Most UUT revenue is generated by electricity and gas usage, comprising over 75% of the entire revenue stream. The communications segments of UUT accounted for about half of the revenue stream about thirty years ago but have declined to about 25% due to changing consumer preferences and regulatory pressures. The dominance of the electricity and gas segments makes the overall revenue stream less diversified than it was in the past and therefore more prone to volatility. For example, years in which Sacramento seasons feature milder weather may result in more muted UUT revenue totals as households decline to turn on air conditioning and heating. More details about each segment are included below. The FY2026/27 budget assumes rates of growth or decline for each UUT segment based on long-term historical performance, yielding a blended UUT growth rate of between 1.2% and 1.6% annually.

Details on each of the five components that comprise the UUT are provided below.

Electricity – Electricity is the largest UUT segment and is expected to be the main catalyst for UUT growth for the foreseeable future. Since the turn of the millennium, electricity UUT has grown from 34% of the revenue stream to 57% in FY2024/25. Through the first seven months of FY2025/26, electricity UUT represents 61% of total UUT. SMUD is the City's primary provider of electricity and continues to face cost pressures for compliance, risk mitigation requirements, technology, and grid investments. SMUD has increased rates five times since January 2024 to address these issues and has recently proposed a further rate increase of 3% for January 1, 2027. The FY2026/27 budget assumes a growth rate of 3.2% in electricity UUT annually for the next five years, which aligns with the annual growth rate observed over the past twenty years.

Natural Gas – Natural gas is the second largest UUT segment. Like electricity, it has also grown as a percentage of total UUT in the past decades, but not as dramatically. Since the turn of the millennium, gas UUT has grown from 10% of the revenue stream to 20% in FY2024/25. Through the first seven months of FY2025/26, natural gas UUT represents 18% of total UUT. PG&E is the City's primary provider of natural gas. In recent years PG&E increased rates significantly to address wildfire-related prevention and mitigation requirements. However, January 1, 2026, PG&E decreased gas rates by 3.0% citing lower compliance costs as the main driver of that change. The FY2026/27 budget assumes a growth rate of 2.3% in natural gas UUT annually for the next five years, which aligns with the annual growth rate observed over the past twenty years.

Wired Telecommunications – Wired telecommunications are the third largest UUT segment, representing all services delivered over a physical wire. This includes but is not limited to copper landlines, DSL, cable internet, and fiber internet. The segment was once reliably over 40% of total UUT revenue, but it has declined to just 11% of the revenue stream in FY2024/25. Through the first seven months of FY2025/26, wired telecommunications UUT represent 10% of total UUT. This segment has seen cable internet and fiber internet grow over the years, but

not by enough to offset losses from the decline of DSL and traditional landlines, as consumer preferences have increasingly favored mobile data-based communication. Notably, new construction homes in California have begun omitting copper wiring for landlines and DSL altogether. The FY2026/27 budget assumes a rate of decline of about 4.2% in wired telecommunications UUT annually for the next five years, which aligns with the annual rate of decline over the past ten years.

Wireless Telecommunications – Wireless telecommunications are the fourth largest UUT segment, representing all services delivered through over-the-air signals, including but not limited to cell phone service, satellite communications, and Wi-Fi services. However, the vast majority of data usage is not taxable due to the federal Internet Tax Freedom Act. This means voice services, SMS, and other charges such as roaming are the main components of wireless telecommunications UUT. This segment saw a dramatic rise from just $1.2 million in FY1996/97 to $14.2 million in FY2009/10, followed by a dramatic decline to $3.9 million in FY2024/25. At its peak, wireless telecommunications UUT was 23% of total UUT but has fallen to just 5% of receipts through the first seven months of FY2025/26 as consumers have relied on app-based communication over voice services and SMS. This aligns with the adoption of cell phone services through the 2000s and the popularization of smartphones in the late 2000s. The FY2026/27 budget assumes a rate of decline of about 9.0% in wireless telecommunications UUT annually for the next five years, which aligns with the annual rate of decline over the past ten years.

Cable Television – Cable television UUT is the smallest UUT segment, representing cable TV subscriptions. In the past ten years, this UUT segment has seen steady annual declines as consumers continue to abandon cable TV in favor of streaming platforms, which are not subject to local UUT. Other consumers have shown a preference for bundling cable with other services for discounts, which further reduces the portion of their bill subject to cable UUT. Cable television UUT growth has been essentially flat over the past twenty years, but more recent trends over the past five to ten years suggest a long-term decline. The FY2026/27 budget assumes a rate of decline of about 4.2% in cable UUT annually for the next five years, which aligns with the annual rate of decline since FY2015/16, when cable UUT started to decline after all-time highs.

Cannabis Business Operations Tax (CBOT)

The California Department of Tax and Fee Administration has reported a decline in taxable sales of cannabis products for four consecutive calendar years, falling from $5.8 billion in 2021 to $4.8 billion in 2025. The Sacramento cannabis industry has experienced a similar decline as the statewide industry. After collecting a record-high $25.4 million in CBOT in FY2020/21, the City's CBOT collections have hovered between $22 million and $24 million annually. CBOT collections in FY2024/25 totaled $22.6 million, the lowest receipts since the record-high in FY2020/21. Additionally, CBOT collections through the first seven months of FY2025/26 are 12% lower than through the same timeframe in FY2024/25.

California is now considered a mature market for cannabis. Absent federal legalization to export to other states, cannabis sales are not expected to see the same large growth rates experienced immediately after statewide recreational cannabis legalization. Given

these trends statewide and locally, staff recommend keeping CBOT projections flat at $20.2 million through the term of the forecast until new information becomes available.

Fees and Charges

Local government can implement fees to fund City facilities, infrastructure, and services. There are five main categories of fees that the City currently implements:

- Impact/Development fees
- Penalties/Fines
- Regulatory fees
- Rental fees
- Service fees

On February 7, 2006 (Resolution No. 2006-106), Council formally adopted a Citywide Fees and Charges Policy. This policy ensures that fees and charges reflect the Council's direction regarding recovery of costs related to providing programs and services. The policy sets the guidelines for cost recovery goals, determines the categories of cost recovery levels, and allows for the establishment and modification of fees and charges. If a fee is not adjusted in the budget process, to the extent feasible and/or appropriate, it should be increased biennially by a consumer price index (CPI) factor to keep pace with inflation.

Beginning in FY2014/15, the City used the State of California Department of Industrial Relations CPI, which is the same index used by the Assessor, to adjust the annual property tax roll for inflation. The annual review of Citywide fees and charges helps to ensure that the City's recovery of costs for services keeps pace with changes in the cost-of-living index, as well as changes in methods or levels of service delivery. Fees and charges make up approximately 17.4% of General Fund revenues. As part of the annual budget process, the Finance Department will present the annual Fees and Charges Update to Council for adoption in May 2026.

The City is currently conducting a two-year citywide fee study, which started in April 2025. City departments were separated into two phases with the first phase being completed in time for the FY2026/27 Budget process and the second phase being completed in time for the FY2027/28 Budget process. All City departments (except for Fire Department and the Department of Utilities) will participate in the process. The Fire Department completed a separate fee study, and the Department of Utilities plans to do a separate fee study. Some of the fees and charges in the Budget are a result of the citywide fee study. The consultant will continue the study in the second year to provide fee and charges updates for the FY2027/28 budget.

General and Measure U Fund Expenditures

The single largest expenditure in the General Fund (including Measure U) is the cost of employees who support department operations through the delivery of programs and services to the community. The Budget and forecast include scheduled step increases for employees and any other negotiated salary and benefit increases based on existing

labor agreements. Forecasted labor costs often change due to approved salary and benefit increases included in the labor agreements approved by Council, movement of employees through salary steps, pension cost increases, new position augmentations, and position deletions due to reduction strategies. Salary growth beyond the actuarial assumption of 3.0% annually used by CalPERS also results in additional labor costs in the form of higher unfunded pension liabilities.

Homeless Services Funding

Over the past few years, the City has expanded its homeless services programming to over 1,500 shelter beds serving over 4,000 individuals. These services include not only sheltering programs but also related support services. Standing up new sheltering programs requires significant investment not only for the initial buildout but also for ongoing operations and maintenance. Initial funding for ongoing operations and maintenance came from state grant funding and pandemic-era federal grant funding. Most of these external funding sources have been exhausted, creating additional strain on the General Fund to support programming needs. The table below illustrates changes in programming needs between FY2025/26 Approved and FY2026/27 Proposed as well as funding sources to address those needs.

Homeless Services Funding	FY2026/27 Proposed	FY2027/28 Projected	FY2028/29 Projected	FY2029/30 Projected	FY2030/31 Projected
Original Programming Needs	**48,304**	**48,408**	**48,892**	**49,381**	**49,875**
Contract Efficiencies	(2,904)	(1,075)	(1,091)	(1,108)	(1,125)
X Street Navigation Center	(2,815)	(2,843)	(2,872)	(2,900)	(2,929)
City Motel Program	(3,164)	(3,196)	(3,228)	(3,260)	(3,293)
Revised Programming Needs	**39,421**	**41,294**	**41,701**	**42,112**	**42,528**
Funding Sources					
Remaining ERF Funding	2,297	-	-	-	-
Remaining HHAP-6 Funding	2,105	6,105	-	-	-
New HHAP-7 Funding	-	6,400	-	-	-
General Fund Support	35,019	28,789	41,701	42,112	42,528
Total Funding Sources	**39,421**	**41,294**	**41,701**	**42,112**	**42,528**
Homeless Services Shortfall	**-**	**-**	**-**	**-**	**-**

In last year's five-year forecast, General Fund support of $48.3 million was assumed to be needed to maintain current programming in FY2026/27. That number has been revised downward to $35.0 million. Key changes between last year's forecast and this one include the following:

- Net savings of about $2.9 million from contract renegotiations with vendors.
- Savings of about $2.8 million from shifting, restructuring, or relocating operations of the X Street Navigation Center in light of the site's lease with Caltrans set to expire.
- A savings of about $3.2 million from shifting the City Motel Program to a voucher-based model with a focus on unsheltered families.
- One-time funding support of about $4.4 million from previously approved grant funding carried over into FY2026/27.

One-time funding of approximately $6.4 million in HHAP-7 funding is projected in FY2027/28 for the forecast. This is about half of the amount the City received for HHAP-6, reflecting the fact that the state has proposed to fund HHAP-7 at half of the amount as HHAP-6. Staff recommend assuming HHAP-7 will not be received by the City and ready to spend until FY2027/28 due to the timing of receipts for prior HHAP rounds. Additional one-time funding of approximately $6.1 million of remaining HHAP-6 funding is projected in FY2027/28. The deadline to fully spend HHAP-6 funding is June 30, 2029. To maintain existing programming in FY2027/28, staff estimate the General Fund will need to contribute approximately $28.8 million.

No one-time funding support is projected for FY2028/29 and beyond. Staff estimate the General Fund will need to contribute approximately $42 million in those years to maintain existing programming.

CalPERS

The City participates in the CalPERS pension plan managed by the State of California. Contributions to the plan consist of the normal cost rate which is determined by looking at the annual cost of providing benefits to active employees for the upcoming fiscal year. The normal cost should be viewed as the long-term contribution rate which both the City and the employees contribute toward. The FY2026/27 normal contribution is projected to be approximately $67.0 million, of which $57.6 million is from the General Fund.

The second component is a payment for the unfunded accrued liability (UAL) which is determined by looking at the Market Value of Assets of the City's two defined benefit plans (Miscellaneous and Safety) and comparing it with the accrued liability of that plan. To the extent that the assets are lower than the liability, the City is required to make a payment (determined by CalPERS) toward the UAL. The purpose of the UAL payment is to get the assets and liabilities back to even over time. The FY2026/27 UAL payment is $128.2 million, of which approximately $113.0 million is from the General Fund. The City's current UAL with CalPERS is approximately $1.5 billion.

The total employer contribution is the sum of the normal cost rate applied to an employer's reported payroll plus the UAL payment. These two components are the required contribution amount that employers pay CalPERS to fund their employees' pension benefits. The FY2026/27 total employer contribution is projected to be approximately $195 million, of which approximately $170 million is from the General Fund. The UAL portion of the General Fund's contribution is 96% higher than the normal cost.

California Public Employees' Pension Reform Act (PEPRA): On January 1, 2013, PEPRA changed the way CalPERS retirement and health benefits are applied and placed compensation limits on members. The normal cost for PEPRA employees is shared 50/50 between the City and the employees, whereas the normal cost for Classic employees -- those employees who were CalPERS members prior to 2013 -- was capped at 7% for miscellaneous members and 9% for safety members, unless Recognized Employee Organizations (REOs) agreed to pick up a portion of the employer's cost. In response to the Great Recession, the City's REOs agreed to pick up a portion of the employer's normal cost (1% for miscellaneous members and 3% for safety members).

For PEPRA members, the cost sharing of the normal cost as well as the benefit changes has resulted in a reduced financial burden for the City. As Classic members continue to transition to retirement, PEPRA employees have become a larger portion of the City's workforce. The graph below illustrates the increase in PEPRA employees over the past five years.

PERS Type	Approved FY2021/22	Approved FY2022/23	Approved FY2023/24	Approved FY2024/25	Approved FY2025/26	Proposed FY2026/27
Classic	56%	52%	38%	35%	31%	29%
PEPRA	44%	48%	62%	65%	69%	71%

CalPERS Discount Rate (earnings assumption)

In July 2021, in accordance with the CalPERS Funding Risk Mitigation Policy (Policy) approved by the Board in 2015, the discount rate was lowered from 7.0% to 6.8% following a 21.3% FY2020/21 fiscal year return. Under the Policy, when CalPERS achieves a double-digit return on investments, a reduction in the discount rate is triggered. The combined impact of all these changes was an increase in employer rates. These increases in costs are included as part of the five-year forecast.

In November 2025, the CalPERS Board (Board) adopted new actuarial assumptions based on the recommendations in the November 2025 CalPERS Experience Study and Review of Actuarial Assumptions. This study reviewed the retirement rates, termination rates, mortality rates, rates of salary increases, and inflation assumption for public agencies. These assumptions were not used in the most recent actuarial valuation of the City's defined benefit plans and will not influence required employer contributions until FY2027/28. Notably, however, the new study increased the price inflation assumption from 2.3% to 2.5% and the wage inflation assumption from 2.8% to 3.0%, reflecting higher long-run inflation expectations than had been originally anticipated in 2021. In addition, the Board held the current discount rate of 6.8% steady in the new study. If the retirement plan does not meet actuarial assumptions – if earnings on plan assets are lower than the discount rate or salary increases are higher than plan assumptions – the City's UAL will increase.

In July 2025, CalPERS announced a preliminary 11.6% net return on investments for the 12-month period ending June 30, 2024. Public equity investments outpaced all other asset classes in the new investment report, with an estimated 16.8% return in FY2024/25. These assets comprise about 39% of the total fund. Although the preliminary net return was estimated to be 11.6% for FY2024/25, recent geopolitical events and market volatility present a challenge to achieving the discount rate of 6.8% in FY2025/26. If CalPERS fails to meet its discount rate target in FY2025/26 by a wide enough margin, costs for employers could still increase in the future. Depending on the FY2025/26 results, the five-year forecast will be updated after June 30, 2026.

General Liability, Auto Liability, and Workers' Compensation Insurance

The City contracts with Bickmore Risk Services (Bickmore) to develop an actuarial estimate which establishes the appropriate amount to budget for claim costs for the coming fiscal year as well as the program's liability for outstanding claims. Bickmore utilizes historical City loss data to forecast the upcoming fiscal year's cost of claims and

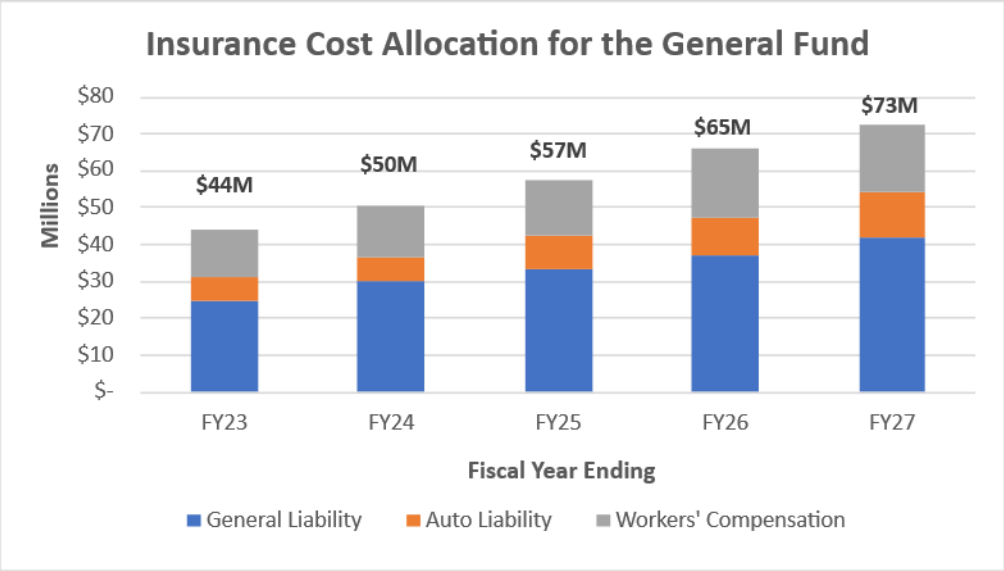
expenses utilizing the actuary's forecast at the recommended 80% confidence level when budgeting for claim costs and expenses. This means that the calculated amounts should be sufficient 80% of the time to cover the fiscal year's costs for the Workers' Compensation (WC) and GL&AL Funds. However, current levels of fund availability sit at 56% of the amount needed. Consistent with City Council's adopted policy to maintain this confidence level, the General Fund contribution to the GL&AL Fund increased from $47.5 million in FY2025/26 to $54.1 million or 14% in FY2026/27.

Insurance premiums have been rising in recent years—particularly excess liability and property premiums—and public entities are expected to continue facing a difficult insurance market in FY2026/27. This is an industry-wide issue, not one isolated to the City of Sacramento.

Over the past two years, the liability insurance market has experienced a notable reduction in available liability capacity. These shifts have tightened underwriting conditions and limited coverage options for public entities. A key factor behind this trend is the continued impact of social inflation, along with the growing presence of litigation financing. Together, these forces have contributed to larger jury awards and higher settlement values, increasing overall claim costs and further straining the insurance market.

Moreover, according to Public Risk Innovation, Solutions, and Management (PRISM), the City's risk-sharing pool for excess liability and workers' compensation coverage, it indicates that the current market shortage is the result of a significantly higher volume of large losses compared to the past. The disproportionate rise in claim costs is due to liability insurance losses increasing at a rate that has dramatically outpaced changes in the Consumer Price Index over the past 10 years, a phenomenon known as social inflation. Across the United States, nuclear verdicts continue to be a leading driver of rising liability costs. The number of verdicts exceeding $10 million rose to 135 in 2024, representing a 52% increase from the prior year, with the total value of these nuclear verdicts reaching a staggering $31.1 billion.

In Alliant's year-end 2025 review, they cite that recent trends have contributed to a prolonged hard market environment. Although overall market capacity has stabilized somewhat from peak constraints, underwriting discipline remains strict. Carriers are exercising heightened selectivity, particularly in high-exposure areas such as law enforcement liability, street and road design, juvenile detention, foster care, and sexual abuse and molestation (SAM) claims.



The City's loss history, which has seen an increase in large liability losses since FY2011/12, is also contributing to our increasing insurance premiums.

The property market is showing signs of stabilization among established participants, while risk exposure in high-loss areas such as coastal regions, earthquake zones, and wildfire-prone territories is attracting increased scrutiny. Growth strategies are becoming more targeted, with expansion efforts focused on both new and existing markets. At the same time, the threat of tariffs has renewed inflation concerns within the property

insurance community, adding pressure to pricing, cost assumptions, and overall market outlook.

The General Fund contribution to the Workers' Compensation Fund remained flat at $18.5 million from FY2025/26 to FY2026/27. While the overall workers' compensation market remains stable, medical costs associated with catastrophic claims continue to rise, driven by improved accident survivability, increased life expectancy, and higher costs of medical technology. Nationally, claims exceeding $10 million have increased by approximately 30% over the past three years. In addition, the City's projected Excess Workers' Compensation insurance costs are expected to increase due to larger claims in 2019, 2022 (driven by higher COVID-related claim volume), and 2024. This adverse loss experience is expected to place upward pressure on future premium pricing.

The graph below details the general liability, auto liability and workers' compensation cost allocations for the General Fund over the past five fiscal years.

Looking ahead, concerns regarding emerging and previously manageable exposures are likely to result in additional coverage limitations, including new exclusions, reduced limits, and tighter underwriting standards. These conditions underscore the importance of proactive risk management and strategic planning to mitigate financial exposure and maintain adequate coverage.

Measure U Programming and Forecast - $146.5 million

Voter approval of the City of Sacramento Essential Services Protection Measure (Measure U) in November 2018 authorized the extension and expansion of the City's Measure U Transaction and Use Tax from a half-cent to a full cent effective April 1, 2019, which can be used for any general government purpose. This one-cent tax is charged on each dollar of taxable sales of goods purchased from retailers within the City of Sacramento, and on the taxable storage, use, or consumption of goods purchased outside of the City and delivered to a location within the City. Measure U is projected to generate approximately $137.2 million in revenues for FY2026/27.

The General Fund and Measure U Funds were presented separately in prior fiscal year financial forecasts. However, in FY2019/20, the Council directed staff to combine the two funds and present them in a single forecast. While the Measure U Fund is included in the General Fund five-year forecast, the following forecast is included to provide additional transparency and details on the revenue estimates and budgeted expenditures. The Measure U Fund is projecting a deficit at the end of FY2026/27 as the growth in expenditures for ongoing programs, especially labor costs and service and supplies, is higher than revenue growth.

As presented, the Measure U Fund provides $146.5 million for ongoing programs and services for Affordable Housing, Arts/Creative Edge, Climate Action, Community Investment, Community Response, Homelessness, Inclusive Economic Development, Library, Public Safety, and Youth. Detailed information on each program is included in the department sections.

Summary of Measure U Programs:

Affordable Housing – $3.6 million, 20.0 FTE

- Resources for Specific Plans, Zero-Dollar Fee program, Long Range Planning, and Zoning services in the Community Development Department, and for Housing in the City Manager's Office to focus on planning and zoning a citywide housing policy and opportunities to promote development of additional housing.

Arts/Creative Edge – $3.6 million, 22.25 FTE

- Resources for nonprofit arts and cultural organizations through the Cultural Arts Award Program and for City programs that promote cultural and creative life including the Arts in Public Places, Arts Education and Outreach office, Arts and Culture, History, Arts Stabilization, Creative Economy and Grants, and the Entertainment Services Division.

Climate Action – $534,000, 4.00 FTE

- Resources for sustainability and cost-saving energy programs to reduce the City's greenhouse gas emissions as required by State law and staff for the City's Climate Action and Sustainability Office.

Community Investment - $26.1 million, 141.37 FTE

- Resources for the Sacramento Utility Rate Assistance (SURA) Program as well as fleet acquisitions, park operations, older adult services, city cemetery, permitting and events, and fiscal & technological support for the Youth, Parks & Community Enrichment Department (YPCE).

Community Response - $51.5 million, 126.0 FTE

- Resources for the Department of Community Response to provide an alternative response to homelessness model through community outreach; and additional resources for fleet acquisitions and to address illegal dumping,

neighborhood code compliance, public safety accountability, animal care/shelter, and the Sacramento City 311 Call Center activity.

Homelessness - $3.1 million, 7.0 FTE

- Resources for the Department of Community Response to coordinate with various Federal, State, local, nonprofit, and faith-based entities to end homelessness.

Inclusive Economic Development - $6.5 million, 31.0 FTE

- Resources for Community Programs, and City departments that promote inclusive economic and community development such as Community Engagement, Community Investment, Economic Development, Workforce Development and Office of Diversity and Equity.

Library - $14.7 million

- Resources for the support, maintenance, and capital needs of the City's libraries.

Public Safety - $10.8 million, 78.5 FTE

- Resources to staff and support the hiring pipeline in Police, fire training and fire suppression in the Fire Department, park safety services in YPCE, and animal enforcement and field services in the Community Development Department.

Youth - $17.6 million, 276.78 FTE

- Resources for programs such as the Powerhouse Science Center, Fare Free Transit for Youth, and Office of Violence Prevention. Resources also include the operation of the City's access leisure, aquatics, community centers, youth employment, Camp Sacramento, Office of Youth Development, and recreation programs.

Miscellaneous - $8.4 million

- Resources for commission stipends for various Commissions, expanded technology support, and Citywide employee services/benefits costs related to staffing funded by Measure U.

Enterprise Funds

Enterprise Funds capture the financial activity of government facilities or services that are self-supporting through the fees associated with operating that service. Revenues and expenditures are expected to sustain operational needs, maintenance, and replacement of aging infrastructure, comply with regulatory mandates, and maintain the financial stability of the funds.

The following chart provides an overview of the proposed changes included in the FY2026/27 Budget for the Enterprise Funds:

Department	Description	Fund	Net Budget Change	FTE Change
Citywide Support	Liquidate one-time funding in the Commission Stipends Program (I04000100). Return unused dollars to fund balance.	Water	(450)	-
Citywide Support	Liquidate one-time funding in the Central City Wayfinding Project (S18160100). Return unused dollars to fund balance.	Community Center	(66,794)	-
Citywide Support	Liquidate one-time funding in the Central City Wayfinding Project (S18160100). Return unused dollars to fund balance.	Parking	(39,000)	-
Citywide Support	Liquidate one-time funding in the Arts and Cultural Plan (I17000900). Return unused dollars to fund balance.	Community Center	(100)	-
Citywide Support	Liquidate one-time funding in the Digital Strategy Program (A07000700). Return unused dollars to fund balance.	Community Center	(7,514)	-

Additional information on each of these initiatives can be found in the Budget Modification section and related department sections.

Operational descriptions and updates of each of the City's Enterprise Funds are shown on the following pages, including a five-year forecast for each fund. The following chart summarizes the status of the Enterprise Funds.

Fund	Status
Community Center	Transient Occupancy Tax (TOT) generates 70% of Community Center Fund revenue and TOT is projected to grow 3.5% annually, through the five-year forecast. Despite increased facility utilization driven by a successful new promoter rebate program, debt service for the Convention Center renovation remains a significant obligation, accounting for approximately 40% of annual expenditures. To ensure long-term fiscal integrity, the City continues to service the $4.6 million outstanding balance of a $12 million interfund loan approved by Council in 1997, with scheduled annual payments of $250,000.
Parking	Parking revenue is expected to return to pre-pandemic levels by the end of FY2025/26, fueled by return to office mandates and an increase in event sales. Consequently, General Fund assistance to the Parking Fund will be phased out starting in FY2026/27 to move the Parking Fund toward self-reliance. To ensure long-term sustainability of the Parking Fund, staff is closely monitoring the impact of technology upgrades and fee changes.
Solid Waste	The Solid Waste Fund will end FY2026/27 with a slight surplus. However, a growing annual deficit is projected to begin in FY2027/28 as rising expenses outpace the savings from FY2026/27 equipment upgrades and staffing realignments. Additional measures will be needed in FY2027/28 to ensure the stability of the fund.
Storm Drainage	A rate increase is not included in the five-year forecast. The anticipated revenues and use of fund reserves will provide sufficient resources to continue operations and maintenance, as well as to ensure compliance with state and federal regulations through FY2029/30. The department anticipates pursuing a rate increase in the future.
Storm Drainage Property Fee	A rate increase is not included in the five-year forecast. This fund was established through a voter-approved ballot measure in April 2022 to support a Storm Drainage Capital Improvement Program and associated operating costs. In June 2022, a lawsuit was filed against the City that challenged the constitutionality of the measure. In FY2025/26, the City received a favorable judgment on the Storm Drainage Property Fee Fund litigation. There are no longer any fund restrictions related to the case.
Wastewater	A rate increase is not included in the five-year forecast. The anticipated revenues and reserves will provide sufficient resources to continue critical infrastructure repair and rehabilitation, as well as to ensure compliance with state and federal regulations through FY2027/28. The Department anticipates pursuing a rate increase for FY2027/28.
Water	A rate increase is not included in the five-year forecast. The anticipated revenues and reserves will provide sufficient resources to continue critical infrastructure repair and rehabilitation, as well as to ensure compliance with state and federal regulations through FY2027/28 with the use of the Capital Reserve. The Department anticipates pursuing a rate increase for FY2027/28.

FY2026/27 Proposed Budget

The following tables provide a snapshot of the five-year forecast for each of the Enterprise Funds. Additional information for each of the forecasts can be found in the following pages.

Community Center Fund

Community Center Fund (6010)

The Community Center Fund supports the operations, debt service, and capital improvements for the SAFE Credit Union Convention & Performing Arts District, which includes the SAFE Credit Union Convention Center, SAFE Credit Union Performing Arts Center, and Memorial Auditorium. This fund also provides support for other visitor-serving facilities and the General Fund. The operational and financial goals for the Community Center Fund include maintaining successful financial performance as an enterprise fund, optimizing facility utilization through aggressive marketing, exceeding industry standards for customer service and facility maintenance, stimulating hotel market demand to generate transient occupancy tax (TOT) revenues, and offering a premier venue to contribute to the economic vitality of the downtown and Sacramento region.

About 70% of fund revenues collected in the Community Center Fund is TOT. For FY2026/27, TOT is projected to be about 3.5% above FY2025/26 estimated collections. The remaining portion of fund revenues collected in the Community Center Fund is user fees received from events held at the SAFE Credit Union Convention & Performing Arts District. To strengthen utilization, a new promoter rebate program was implemented that has performed well and has successfully re-engaged promoters to hold events at our facilities who had previously reduced or paused activity in Sacramento.

On September 25, 2018, City Council authorized the issuance of TOT revenue bonds. A total of $285.2 million in TOT Revenue, Tax Exempt bond funding was received to help finance the Convention Center Complex Renovation Project. Debt service payments for these new bonds started in May 2019. Debt service on the Community Center Fund represents about 40% of total expenditures annually.

Additionally, in 1997, to maintain the financial integrity of the Community Center Fund, the City Council approved a loan of up to $12 million from the Risk Fund, if needed, to offset any year-end deficit. Total borrowing was $10.4 million, including interest. Repayment of the interfund loan began in FY2005/06 and has continued each year. An annual payment of $250,000 is budgeted in FY2026/27 with payments continuing in future years. As of the beginning of FY2025/26, there is a remaining balance of approximately $4.6 million.

Parking Fund (6004)

The City of Sacramento operates five city parking garages and 12 City-owned surface lots, as well as 40 garages and surface parking lots that are managed for private owners to increase parking availability for residents and visitors. The Parking Services Division also manages over 60,000 square feet of retail space servicing 19 tenants within the various City parking structures.

Parking Fund revenue decreased to 52% of pre-pandemic levels in FY2020/21 and is projected to recover to 100%+ of pre-pandemic levels in FY2025/26. Revenue for FY2025/26 from parking fees collected at City garages is projected to increase 6% as the operation continues to recover from the impacts of the pandemic, which lowered the utilization at City owned parking garages as employers adopted hybrid work models. Additionally, event sales have increased with more events returning downtown and the temporary relocation of the Oakland Athletics to West Sacramento. We anticipate an additional 2% annual growth in revenue in subsequent years. While State employees returning to the office may also have an impact on off-street parking revenues, the impact remains uncertain in future years and has been omitted from this forecast. Staff will assess the impact of these items and incorporate the impact into future forecasting exercises. Rental revenue is based on current and anticipated leases of commercial spaces.

Services & supplies costs have a budgeted increase in FY2026/27 of $121K. Operating costs have increased in recent years due to increased security, repair & maintenance, technical services, utilities, and rental of land and building costs. FY 2025/26 includes a budgeted labor reduction of $1M for known vacancies, this is also reflected in FY2026/27. This is not included in outer-years, however future labor savings are anticipated due to employee turnover rates. The forecast includes a 2.5% increase annually for expenses in the outer years.

Operating transfers in/out include the cost plan support, In Lieu Franchise Tax, In Lieu Property Tax and interdepartmental support. Operating transfers also include a $5.3M support transfer from the Meter Shop in FY25/26, with $4.1M budgeted for support in FY26/27. The budgeted support from the Meter Shop is expected to continue to decrease in outer years. Debt service has a 9% decrease in FY26/27 as debt obligations continue to decrease. Funding anticipated technology upgrades and replacement/upgrades of current infrastructure is included in the CIP.

During the pandemic, the General Fund provided almost $11 million in support to the Parking Fund, including $5.2 million in FY2020/21 Midyear Budget, $5.1 million in FY2021/22 Midyear Budget, and $633,000 in the FY2022/23 Approved Budget. Should revenues fail to grow at levels sufficient to cover increasing operating costs, it could compromise the City’s ability to make required debt service payments, resulting in the need for additional General Fund support. The FY2026/27 Proposed Budget includes parking management strategies which aim to keep the Parking Fund on sustainable financial footing and prevent the need for additional General Fund support in the future.

Staff will assess the effectiveness of these strategies and incorporate their impact into future forecasting exercises.

Note: Employee Services reflects a 1.0M Base Labor Reduction implemented in FY2025/26 for known vacancies; actual budgeted positions would be higher than reflected in this table.

Solid Waste Fund (6007)

The revenues in the Solid Waste Fund (6007) are generated through user service fees collected for residential solid waste management services. Recycling and Solid Waste (RSW) Division manages the collection of garbage, containerized organics, and recyclables. In addition to direct solid waste services, the Division provides on-going post-closure monitoring of landfills, street sweeping, hazardous waste disposal services, and code enforcement services. To meet the state-mandated waste diversion requirements, RSW provides public outreach to educate residents on recycling standards to reduce contamination, encourage composting, and proper disposal of household hazardous waste.

The following chart provides a five-year forecast for the Solid Waste Fund.

Storm Drainage Fund (6011)

Revenue generated for the purpose of providing storm drainage services under the 1996 drainage fee schedule is deposited in the Storm Drainage Fund. Revenues are primarily derived from customer service fees and interest. Storm Drainage Fund revenues support the cost of storm drainage operations for pumping stations, wet weather treatment and storage, collection system maintenance, related engineering services, floodplain management, customer service and billing, education programs, water quality monitoring, innovative "green" infrastructure programs, and regulatory compliance. Fund expenditures are divided among operating costs, debt service, and multi-year operating projects.

Rate adjustments for the storm drainage utility are subject to a citizen vote. The Storm Drainage Fund has not had an increase since 1996, prior to the implementation of Proposition 218. As a result, revenue collection has not kept pace with storm drainage system costs, and the utility has been historically underfunded. The City worked closely with the community, the Utilities Rate Advisory Commission and the City Council to develop a new Storm Drainage Property Fee (6021) to support capital infrastructure and related operating costs. The Storm Drainage Fund will continue to rely on reserves for existing operations and maintenance.

The City Council passed the Department of Utilities (DOU) Reserve Policy on January 24, 2023 (Motion Number 2023-0028), which has been incorporated into the five-year forecast. Approval of the policy allowed the Department of Utilities (DOU) to formalize existing guidelines and practices for better financial management of the DOU enterprise funds. The balance of the unrestricted operating reserve associated with the Storm Drainage Fund represents a commitment of $11.5 million that is incorporated into the available fund balance calculation.

The Storm Drainage Fund faces significant challenges over the next five years. Key issues for the Storm Drainage Fund include the following:

- Declining fund reserves, as the existing revenue will not be sufficient to cover future operating expenses.
- Upgrading separated drainage system service to meet citywide standards.
- Improving drainage system reliability and contributing to the combined sewer system (CSS) repair.
- Maintaining state and federal regulatory compliance, e.g., Stormwater National Pollutant Discharge Elimination System (NPDES) Permit, floodplain management, and supporting regional flood control efforts.
- Implementing a new tree inventory and maintenance plan for trees on DOU facilities, including flood control channels and levees that will provide consistent tree care and maintenance and defend the city against tree-related risk claims and lawsuits.

- Increasing maintenance needs of drainage facilities related to the cleanup of waste and debris caused by homeless encampments.
- Implementing an asset management system that will provide accurate reporting for operating, maintaining, and replacing infrastructure at appropriate lifecycle intervals.
- Significant cost increases projected for utilities due to rate restructuring.
- Increased cost related to carbon-neutral sustainability goals for fleet and facilities.
- Expand and improve the Supervisory Control and Data Acquisition (SCADA) system security program to meet regulatory compliance and to mitigate risk from escalating threats related to cyber-attacks, across all four funds.

The following chart provides a five-year forecast that addresses some of the challenges facing the Storm Drainage Fund. These challenges include anticipated cost increases, funding programs to meet regulatory requirements, and no rate adjustments.

ENDING FUND BALANCE	**30,854**	**29,430**	**24,761**	**19,332**	**14,462**	**7,425**

[(1)] Other Sources in FY2025/26 include additions to fund balance for prior reductions related to outstanding short-term portion of debt liability, and the annual adjustment for the Operating Reserve per the DOU Reserve Fund Policy adopted by City Council on January 24, 2023 (Motion No. 2023-0028).

Storm Drainage Property Fee Fund (6021)

Revenue generated for the purpose of providing storm drainage services under the 2022 drainage fee schedule is deposited in the Storm Drainage Property Fee Fund. Revenues are derived from customer fees, fees related to private development project review, and interest earnings. Services include costs associated with capital programs such as regulatory, master planning, asset management, and improvement programs. These varying programs will construct new infrastructure; keep pollution, trash, and debris out of local waterways; reduce long-term costs, and protect water supplies and infrastructure against floods, and emergencies. Fund expenditures are summarized and reflected as eligible operating costs, capital improvement costs, and multi-year operating project costs.

The City worked closely with the community, the Utilities Rate Advisory Commission, and the City Council to develop a new Storm Drainage Property Fee that was approved through the ballot and adopted by the City Council in April 2022. The new fee will support a capital improvement program and associated operating costs.

In June 2022, a lawsuit was filed against the City that challenged the constitutionality of the measure. In FY2025/26, the City received a favorable judgment on the Storm Drainage Property Fee Fund litigation. There are no longer any fund restrictions related to the case.

While the new fee will help address some level of capital replacement and regulatory requirements, it will not provide sufficient resources to fund all storm drainage aging infrastructure or regulatory needs. The Storm Drainage Property Fee Fund faces significant challenges over the next five years. Key issues for the Fund include the following:

- Ongoing replacement of aging infrastructure to meet state and federal standards.
- Upgrading the separated drainage system service to meet citywide standards.
- Improving drainage system reliability and contributing to the CSS repair and rehabilitation or replacement.
- Design and construct certified full trash capture devices and/or multi-benefit low-impact development features that will prevent trash greater than 5 mm from being discharged to waterways for identified areas (high-density residential, commercial, industrial, and mixed-use) with litter to meet the requirements of the State Water Resources Control Board’s Statewide Trash Provisions by 2030.
- Maintaining state and federal regulatory compliance, e.g., NPDES and floodplain management, and supporting regional flood control efforts.

- Implementing an asset management system that will provide accurate reporting for operating, maintaining, and replacing infrastructure at appropriate lifecycle intervals.
- Continued implementation of the Drainage Master Plan Program that develops hydrologic and hydraulic models and completes master plans for the City's 137 drainage basins.
- Improving the Drainage and CSS to adequately handle the intensity of weather events related to climate change.
- Increased cost related to carbon-neutral sustainability goals for fleet and facilities.
- Expand and improve the SCADA system security program to meet regulatory compliance and to mitigate risk from escalating threats related to cyber-attacks, across all four funds.

The following chart provides a five-year forecast that addresses some of the challenges facing the Storm Drainage Property Fee Fund. These challenges include anticipated cost increases, funding projects and programs to meet regulatory requirements, and no rate adjustments.

Wastewater Fund (6006)

Revenue generated for the purpose of providing wastewater collection services is deposited in the Wastewater Fund. Revenues are derived from customer service fees, fees related to private development project review, recovery of Sacramento Area Sewer District (SacSewer) related operation and maintenance costs paid by the fund, interest earnings, and connection charges. Wastewater Fund revenues cover the cost of wastewater collection and maintenance, storage and treatment of wet weather combined sewage, installation of new services, operation of sanitary pumping stations, related engineering services, customer service and billing, education programs, water quality monitoring, and regulatory compliance. Fund expenditures are generally divided among operating costs, debt service, capital improvement, and multi-year operating projects.

The City-operated wastewater collection system consists of a CSS and a separated wastewater system that, together, serve approximately 60% of the city, primarily the northeastern, central, and southern sections of the city. SacSewer is the wastewater collection system provider for the other areas of the City. While the City is responsible for the limited treatment of its CSS, it partners with SacSewer to treat the majority of the city's wastewater. The City provides SacSewer with billing and collection services for properties within the service area in which wastewater collection is provided by the City.

The City Council passed the DOU Reserve Policy on January 24, 2023 (Motion Number 2023-0028), which has been incorporated into the five-year forecast. Approval of the policy allowed DOU to formalize existing guidelines and practices for better financial management of the DOU enterprise funds. The balance of the unrestricted operating ($10.9 million) and capital ($3.4 million) reserves associated with the Wastewater Fund represent a commitment incorporated into the available fund balance calculation.

While prior rate adjustments have helped address operational costs and some level of capital replacement, they have not provided sufficient resources to fund major capital replacement projects. The Wastewater Fund presents unique challenges due to the system's revenue growth potential and the age and nature of the system's infrastructure, which include:

- Compliance with state and federal regulations (e.g., CSS NPDES permit and separated wastewater discharge requirements (WDR)) that includes implementation of the CSS Long Term Control Plan and the Sewer System Management Plan. The CSS collects wastewater from homes and businesses, as well as stormwater and urban runoff. A separate wastewater system collects wastewater from homes and businesses and does not collect stormwater.
- Continued state-mandated maintenance, repair, and rehabilitation of the City's aging CSS and aging separated wastewater system.
- Incorporating the growth of new wastewater services.

- Maintaining the financial strength of the fund for the purpose of raising sufficient capital to finance the rehabilitation and replacement of the wastewater systems and compliance with the CSS NPDES permit.
- Implementing a new tree inventory and maintenance plan for trees on DOU facilities that will provide consistent tree care and maintenance; and defend the city against tree-related risk claims and lawsuits.
- Implementing an asset management system that will provide accurate reporting for operating, maintaining, and replacing infrastructure at appropriate lifecycle intervals.
- Increased cost related to carbon neutral sustainability goals for fleet and facilities.
- Significant cost increases projected for utilities due to rate restructuring.
- Expand and improve the SCADA system security program to meet regulatory compliance and to mitigate risk from escalating threats related to cyber-attacks, across all four funds.

The following chart provides a five-year forecast that addresses some of the challenges facing the Wastewater Fund. These challenges include anticipated cost increases, funding projects and programs to meet regulatory requirements, and no rate adjustments. The Department is pursuing a rate increase in FY2027/28.

(1) Other Sources in FY2025/26 include additions to fund balance for prior reductions related to outstanding short-term portion of debt liability, and includes the annual adjustments for the Operating and Capital Reserves per the DOU Reserve Fund Policy adopted by City Council on January 24, 2023, Motion No. 2023-0028.

Water Fund (6005)

Revenue generated for the purpose of providing water services is deposited in the Water Fund. Revenues are derived from customer fees, interest earnings, fees related to private development project review, tap sales, and reimbursements from other entities for services provided. Water Fund revenues are structured to cover the costs of providing water services to customers. Services include water treatment, water treatment plant maintenance and repair, hazardous materials and waste disposal management, water transmission/distribution system maintenance and repair, water conservation and education programs, water quality monitoring, source water protection, related engineering services, customer service and billing, and oversight of the City-County Office of Metropolitan Water Planning (known as the Water Forum). Fund expenditures are summarized and reflected as operating costs, debt service, capital improvement costs, and multi-year operating project costs.

The City Council passed the DOU Reserve Policy on January 24, 2023 (Motion Number 2023-0028), which has been incorporated into the five-year forecast. Approval of the policy allowed DOU to formalize existing guidelines and practices for better financial management of the DOU enterprise funds. The balance of the unrestricted operating ($27.4 million) and capital ($29.1 million) reserves associated with the Water Fund represents a commitment incorporated into the available fund balance calculation.

While prior rate adjustments have helped address operational costs, the accelerated water meter program implementation, and some level of capital replacement, they have not provided sufficient resources to fund major capital replacement projects. The Water Fund faces significant challenges over the next five years. Key issues for the Water Fund include the following:

- Ongoing replacement and maintenance of aging and failing infrastructure.
- Providing safe and reliable drinking water to the community, while planning for anticipated climate change impacts and other risks to supply and quality.
- Maintain water supply resiliency through conjunctive use of surface and groundwater supplies.
- Continued implementation and monitoring of an aggressive water conservation program 1) consistent with meeting state-wide water efficiency mandates and 2) responsive to new legislation establishing a framework for long-term improvements in urban water use efficiency and drought planning as California adapts to climate change.
- Supporting regional, long-term water supply planning.
- Developing wholesale and wheeling agreements in support of effective regional water management.
- Meeting future debt service requirements related to rehabilitating and improving intake structures and treatment plants.

- Implementing an asset management system that will provide accurate reporting for operating, maintaining, and replacing infrastructure at appropriate lifecycle intervals.
- Increased cost related to carbon neutral sustainability goals for fleet and facilities.
- Implementing a new tree inventory and maintenance plan for trees on DOU facilities that will provide consistent tree care and maintenance; and defend the city against tree-related risk claims and lawsuits.
- Increasing costs for items vital to collecting, treating, and delivering water to meet service levels. The most significant cost increases are for chemicals, utilities, and replacement and maintenance of water meters.
- Expand and improve the SCADA system security program to meet regulatory compliance and to mitigate risk from escalating threats related to cyber-attacks, across all four funds.
- Maintaining state and federal regulatory compliance and planning for compliance with new and revised requirements.

The following chart provides a five-year forecast that addresses some of the challenges facing the Water Fund. These challenges include anticipated cost increases, funding projects, and programs to meet regulatory requirements. No rate adjustments are included in this forecast. The forecast assumes $25.5 million will be funded from the Capital Reserve in FY2028/29. As shown, the fund balance will be negative in FY2030/31 without a rate increase. The Department is pursuing a rate increase in FY2027/28.

COST ALLOCATION PLAN

Most of the City's centralized services reside in the General Fund. Each year, a study is conducted to identify and assign each fund's fair share of these centralized service costs on a reasonable and consistent manner. These charges are incorporated in non-General Fund departments' budgets.

Schedule 5
Article XIIIB Appropriation Limit Calculation (in 000s)

"GANN" Appropriations Limit

In November 1979, the voters of the State of California approved Proposition 4, commonly known as the "Gann Initiative." The Proposition created Article XIIIB of the State Constitution, placing certain limits on the amount of revenue that can be appropriated each fiscal year. The limit is based on actual appropriations during FY1978/79 (base year) and is recalculated each fiscal year based on certain inflation and population factors. Only those revenues that are considered "proceeds of taxes" are subject to the limit. Proceeds of taxes are, however, allowed to be spent on several types of appropriations that do not count against the limit, including voter approved debt, the costs of complying with court orders and federal mandates, and expenditures for qualified capital outlays. The City is in compliance with Article XIIIB for each of the fiscal years as shown below.

APPROPRIATION LIMIT (Section 1)	**FY2022/23**	**FY2023/24**	**FY2024/25**	**FY2025/26**	**FY2026/27**
Prior year limit	$ 945,554	$1,016,435	$1,064,006	$1,104,507	$1,179,282
Multiply by:					
Change in CPI or Per Capita Personal Income	1.0755	1.0444	1.0362	1.0644	1.0644
Change in Population	0.9995	1.0023	1.0018	1.0031	1.0031
Total Appropriation Limit	**$1,016,435**	**$1,064,006**	**$1,104,507**	**$1,179,282**	**$1,259,119**
PROCEEDS OF TAXES (Section 2)					
Total governmental revenue	$ 881,204	$ 917,555	$ 971,536	$1,003,087	$1,048,235
Add taxes in enterprise funds:					
Transient Occupancy Tax	26,359	33,872	34,460	34,661	36,846
Add user fees in excess of cost:	-	-	-	-	-
Deduct:					
Non-proceeds of tax revenue	(270,816)	(289,279)	(322,568)	(350,331)	(373,440)
General obligation debt service	-	-	-	-	-

Schedule 7A
Operating Grants - $149.4 million

Schedule 7A outlines key federal, state, and local grants that City departments have secured to advance City objectives and supplement City programs. While grant payments for non-labor items are charged directly to the grant fund, labor costs are noted in the grant fund and show as a grant recovery in the fund to which the employees are assigned. This information is intended as a general summary of the City's success in receiving grants but is not exhaustive. Resources for capital programs are included in the 2026-2031 CIP. Significant grant amounts that will benefit FY2026/27 are summarized by department below.

CITY MANAGER - $59,243,498

California Department of Food and Agriculture **$500,000**
Meadowview Community Farmers Market FY2024/25
The California Department of Food and Agriculture selected the City of Sacramento to provide oversight to the Meadowview Community Farmers Market. Funding will be used to increase access to fresh, healthy food in low-income communities in South Sacramento. In partnership with community organizations, this funding will support a new Farmers Market in Meadowview that would provide an affordable, culturally relevant, and convenient source of fresh local produce to improve the health and well-being of South Sacramento residents.

California Natural Resource Agency
Community Reinvestment Project
FY2022/23 **$20,000,000**
FY2023/24 **$5,000,000**
Funds appropriated in the 2022-23 State Budget (AB 178) for community reinvestment programs and projects within the City. $9.7 million funds eight city infrastructure projects dedicated to street safety, park, and facility improvements; $8.2 million in grant awards to seventeen agencies/non-profit organizations in various community efforts throughout the City from youth job training, childhood education, environmental and sustainability projects, community center upgrades, park improvements, art, music events, and food programs; and the remaining $2.1 million will be used for grant administration and service agreements. Funds appropriated in the 2023-24 State Budget (SB 104) for programs and projects within the City. $2,425,000 funds ten city infrastructure projects dedicated to park improvements, street improvements and safety; and $2,575,000 awards twenty agencies and non-profit organizations throughout the City in various efforts from community space improvements and beautification, youth employment training, health and wellness programs, and promoting nutrition.

California Natural Resource Agency **$1,000,000**
Park and Community Improvement Projects FY2023/24
Funds appropriated in the 2023-24 State Budget (SB 104) for programs and projects within the City. $450,000 funds two city infrastructure projects dedicated to street safety and the activation and marketing of the SAFE Credit Union Convention & Performing Arts District; and $550,000 in grant, awards four agencies/non-profit organizations throughout the City in various efforts from enhancing neighborhood lighting and safety, providing youth leadership training and violence prevention programs, community center facilities upgrades, to creating safe spaces.

Cities for Financial Empowerment (CFE) Fund, Inc. **$170,000**
Financial Empowerment Cities Grant FY2024/25
CFE Fund will conduct a thorough analysis of Sacramento's Financial Empowerment Landscape. In partnership, the City will identify potential partners, stakeholders and engage the community at large to understand common financial empowerment challenges and identify potential solutions, with particular emphasis on historically disadvantaged groups such as communities of color, immigrants, etc. Financial Empowerment data will be captured and analyzed to develop additional resources as needed and to sustain ongoing operations.

Encampment Resolution Funding (ERF) 3-R FY2024/25 **$5,846,243**
The ERF Program is a competitive grant available to assist local jurisdictions in providing services and support to people experiencing homelessness in encampments, creating meaningful paths to safe and stable housing. OIED – Housing was awarded funding to pilot a direct street-to-housing rapid rehousing program for individuals experiencing unsheltered homelessness along the Northern Parkway.

Governor's Office of Planning and Research **$2,000,000**
South Sacramento Youth Programming FY2022/23
Funds appropriated in the 2022-23 State Budget (AB 178) for South Sacramento Youth Programming within the City. The State's allocation funds two agencies/non-profit organizations within the city in various efforts from youth and family health support programs to provide a multi-use space for the South Sacramento community.

Homeless Housing, Assistance, and Prevention (HHAP)
FY2022/23 HHAP-3 **$303,527**
FY2023/24 HHAP-4 **$4,572,254**
FY2024/25 HHAP-5 **$5,893,727**
FY2025/26 HHAP-6 **$3,128,443**

HHAP funding must be spent on evidence-based solutions to prevent, reduce, and end homelessness. The City leverages both the Office of Innovation and Economic Development (OIED) Housing and the Department of Community Response (DCR) to handle program administration, provide permanent supportive housing, and conduct prevention programming.

Sacramento Area Council of Governments **$480,000**
Engage, Empower, Implement Project (EEI) FY 2024/25
The EEI funding program invests in community-based approach to plan projects within the six-county Sacramento region. The goal of the program is to elevate community-based planning by providing funding for city and county partnerships with community-based organizations to create a pipeline of equitable, safe, and sustainable projects within historically marginalized and disinvested communities. The funding will support transportation accessibility, sustainability, and connectivity along Northgate Boulevard and climate resiliency for Marysville-Del Paso Boulevard.

State of California Volunteers SacYouth Corps. FY2024/25 **$5,905,304**
This program provides funding from the United States Department of Labor through the State of California to fortify career pathways into public sector and high-growth jobs and institute a more cohesive youth workforce ecosystem that better aligns the efforts of public agencies, education systems, community-based organizations, and employers within growing local industries. Funding supports the City's efforts to develop public sector pathways including training youth to step into existing high-need positions and building out sustainable pre-apprenticeship and on-the-job training programs that support long-term COVID-19 recovery and climate change mitigation goals.

State of California Workforce Development Board **$400,000**
SETA California Workforce Highroad Training Partnership FY2024/25
This grant will fund ambassadors participating in monthly and quarterly training on economic mobility topics and resources and will conduct outreach to connect Sacramento residents with related local opportunities around small business, workforce training and placement, and financial coaching and wellness.

State Senate Bill 170, California Natural Resources Agency **$2,000,000**
Planting Justice Tree Nursery FY2022/23
As part of the Budget Act of 2021 (Senate Bill 170, Chapter 240), these funds will transform the vacant tree nursery located at 1920 34th Avenue into a nationally significant center for urban agriculture, social entrepreneurship, multifaceted biodiversity, youth mentorship, and farmer training.

United States Business Administration **$850,000**
ECE Workforce Training Program FY2024/25
These federal funds will support and strengthen the city's childcare industry by increasing the number of family childcare home (FCCH) providers. The scope will specifically address the retention of current FCCH providers, recruitment and training of childcare workers, and increase the number of available infant and toddler slots for families to allow Sacramentans to get back into the workforce.

United States Department of Labor $394,000
Early Childhood Education (ECE) Apprenticeship FY2024/25
The ECE Apprenticeship Program will be designed to provide education and training to apprentices over a six-semester period. Apprentices will enroll in courses through the Local Education Agency (LEA) while working at Early Learning & Childcare centers throughout the city of Sacramento. Apprentices will receive on-the-job training and mentoring from experienced ECE teachers and supportive services including tutoring and educational counseling from the LEA staff. The program is designed to meet the immediate labor force need by increasing the ECE workforce. In addition, the ECE apprenticeship program will build childcare center capacity and help improve program quality.

United States Environmental Protection Agency (US EPA) $800,000
Marysville and Grand Multipurpose Grant FY2024/25
US EPA Grant funds environmental assessment to characterize and identify the source of Volatile Organic Compounds impacting two City owned properties at 3739 and 3801 Marysville Boulevard. Funding includes environmental remediation of the two City owned properties as necessary and development of a community-informed site reuse plan that identifies existing conditions, specific actions, and funding sources for addressing development constraints within the four-block area of the Marysville Boulevard and Grand Avenue intersection.

COMMUNITY RESPONSE - $ 25,586,055

Encampment Resolution Funding Round 4 (ERF-4-L) FY2024/25 $12,353,418
ERF-4-L will continue to provide interim housing, case management, and housing navigation with a focus on individuals from the Sacramento Northern Parkway Trail.

Homeless Housing, Assistance and Prevention (HHAP)
FY2025/26 HHAP-6 $12,896,495
HHAP-6 funding will continue to support operations of the X Street Navigation Center, the Meadowview Navigation Center, the North Fifth Street Navigation Center, and Emergency Bridge Housing on Grove Avenue.

State Capacity and Infrastructure, Transition, Expansion and Development Program- Intergovernmental Transfer (CITED-IGT) FY2025/26 $336,142
CITED-IGT funding will support DCR's work to develop the infrastructure and systems for the department's California Advancing and Innovating Medi-Cal (CalAIM) Community Supports Program. The CalAIM program will standardize and enhance access to several Community Supports services, including Housing Transition Navigation Services, Housing Deposits, Housing Tenancy and Sustaining Services, Day Habilitation Programs and Transitional Rent.

CONVENTION & CULTURAL SERVICES - $64,500

California Arts Council State and Local Partners Grant $64,500
This grant is made to County designated agencies for participation in the California Arts Council's State and Local Partner program. Sacramento Office of Arts & Culture is the County's designated agency. This grant will support capacity building and investment in unincorporated Sacramento County.

FINANCE - $2,500,000

Go-Biz Cannabis Equity Grants for Local Jurisdictions FY2026 $2,500,000
Go-Biz social equity grants focus on the inclusion and support of individuals in California's legal cannabis marketplace who are from communities that have been negatively or disproportionately impacted by cannabis criminalization. The grant funds are intended to reduce barriers for entrance into the legal cannabis industry for social equity community members. The FY26 grant cycle includes a $1,000,000 City match in addition to the grant award, which can include administrative labor and contracts that benefit equity members.

FIRE DEPARTMENT - $4,060,282

Assistance to Fire Fighter Grant (AFG) FY2022/23 $1,453,298
The AFG Program is a FEMA initiative designed to help fire departments obtain critically needed equipment, training, and wellness/safety resources to protect personnel and enhance community resilience. Key goals include reducing firefighter and civilian deaths and injuries, enhancing operational efficiency, and supporting preparedness and resilience at the national level

California Opportunity Youth Apprenticeship (COYA) Grant $684,000
The COYA Grant is a Department of Industrial Relations – Division of Apprenticeship Standards funding program supporting Sacramento Fire Department's EMS Corps initiatives. The COYA Grant funds the Sacramento EMS Corps Program and supports apprenticeships for opportunity youth—young people facing barriers to employment who are preparing for careers in EMS and Fire.

Employment Development Department (EDD) $425,673
Emergency Medical Services (EMS) Corps Grant
The EDD EMS Corps Grant is a State of California EDD–funded program supporting workforce development to support EMS training and related programming through the Sacramento Fire Department and partner agencies.

Urban Search and Rescue (US&R) FY2024/25 $1,497,311
The National US&R system is a partnership between Department of Homeland Security (DHS), Federal Emergency Management Agency (FEMA), state emergency agencies, and local public safety departments. It relies on sponsoring agencies that can quickly deploy task forces at DHS's direction. US&R teams locate, rescue, and provide medical care to victims of collapsed structures, major flooding, weapons of mass destruction incidents, and may also support incident command. California has eight of the 28 national

task forces. The City of Sacramento Fire Department sponsors California Task Force 7 (CA-TF7). DHS funds these programs through annual grants, and the Department manages all administrative responsibilities for CA-TF7. Grant funds support training, readiness, equipment, supplies, and staffing for one Battalion Chief, one Administrative Analyst, one Administrative Technician, and two Cache Logisticians.

INFORMATION TECHNOLOGY - $38,946,843

Sacramento Last Mile Grant FY2024/25 $38,696,843

The Sacramento Last Mile Grant is a significant initiative aimed at enhancing broadband connectivity in underserved areas of Sacramento. The project, funded by a $38.69 million grant from the California Public Utilities Commission (CPUC), involves collaboration with Consolidated Communications Inc. (CCI) to provide fixed pricing for broadband services over several years. The grant will support the development and installation of necessary infrastructure to deliver high-speed internet to residents and businesses. The project also involves coordination with various departments, agencies, and other local entities, to ensure seamless implementation and integration with city owned existing infrastructure. The goal is to improve digital equity and access to reliable internet services for all residents of Sacramento.

Sacramento's State and Local Cybersecurity Grant Program FY2024/25 $250,000

The City has been awarded a California Governor’s Office of Emergency Services Cybersecurity Grant as part of the State and Local Cybersecurity Grant Program (SLCGP). This grant will fund several key training opportunities including cybersecurity skills assessment and specialized training for IT Department Cybersecurity and Network Infrastructure staff. Additionally, the Department of Utilities will receive specialized cybersecurity training for the city's water and wastewater operational technology utility network. These training programs are designed to enhance the City's cybersecurity posture by providing key staff with advanced monitoring and intelligence capabilities. The grant aims to validate and further mature the City's existing cybersecurity efforts, ensuring that Sacramento remains well-protected against cyber threats.

POLICE DEPARTMENT - $14,329,795

Board of State & Community Corrections $5,000,000

California Violence Intervention & Prevention Program (CalVIP), Cohort 5

The CalVIP grant program is an initiative aimed at enhancing public health and safety through support for community-based gun violence reduction efforts in communities that are disproportionately impacted by gun violence. The purpose of the grant is to disrupt cycles of violence and retaliatory actions to lower the rates of homicides, shootings, and aggravated assaults in affected communities.

Citizens' Option for Public Safety
FY2024/25 $815,998
FY2025/26 $806,874
This State-mandated program provides funding to local law enforcement jurisdictions to support law enforcement activities. Annual allocations are determined by population, based on the most recent January estimate provided by the California Department of Finance.

Edward Byrne Memorial Justice Assistance Program
FY2022/23 $278,035
FY2023/24 $257,556
This federal program provides annual funding to state and local governments to support a broad range of activities to prevent and control crime and to improve the criminal justice system. Funds will support future costs for ShotSpotter technology in the South Sacramento area.

Gang Violence Suppression FY2025/26 $403,660
This state-mandated program provides funding to local law enforcement jurisdictions to support a comprehensive, cohesive, strategic, and tactical plan to effectively address issues that are associated with or contribute to gang involvement and violent crime. A portion of funding is awarded to local criminal justice partners such as the Sacramento County's District Attorney's Office, the Sacramento County Probation Department, the Sacramento City Unified School District as well as community-based organizations such as Brother 2 Brother and the La Familia Counseling Center.

National Public Safety Partnership – Capacity Building FY2023/24 $500,000
The Police Department is a Bureau of Justice Assistance Public Safety Partnership site (PSP), and this grant is exclusively for PSP sites to support their work to build capacity to develop and implement crime and violence reduction strategies identified through the Bureau of Justice Assistance Public Safety Partnership. SPD was awarded this grant to focus on increasing the efficiency of the Digital Forensics Unit and improving crime mapping abilities for internal and external uses (i.e. public dashboards of violent crime suppression results). A portion of these funds will be awarded to the Sacramento County District Attorney's Office to further the goals identified in its Public Safety Partnership Assessment.

Selective Traffic Enforcement Program FY2025/26 $350,000
The objective of this federal grant program, passed through the State of California's Office of Traffic Safety, is to reduce the number of traffic-related injuries and fatalities. Funded strategies include traffic safety enforcement, outreach, and engagement activities to reduce motorist, bicyclist, and pedestrian injuries and fatalities attributable to driving under the influence (DUI) and unsafe driving (e.g., speed, texting, etc.).

Urban Area Security Initiative
FY2022/23 **$3,097,000**
FY2023/24 **$2,820,672**
Funding from the U.S Department of Homeland Security through the State of California to enhance the five mission areas of the National Preparedness Goal: Prevention, Protection, Mitigation, Response, and Recovery.

UTILITIES DEPARTMENT (DOU) - $1,020,000

Central Valley Flood Protection Board: Sacramento and San Joaquin Drainage District Property Abatement Program Project **$1,020,000**
This project, funded by the Central Valley Flood Protection Board (Board) and responsible for property held in fee by the Sacramento and San Joaquin Drainage District (SSJDD), will coordinate within the Central Valley with DOU and provide reimbursement to the City to remove, handle, and legally dispose of all trash, debris, and hazardous waste left behind on SSJDD properties. This shall include, but is not limited to, the cleanup, removal, transport, legal disposal, vegetation management, installation of approved physical barriers, and ground surface restoration.

YOUTH, PARKS, & COMMUNITY ENRICHMENT (YPCE) - $ 4,577,263

Crate Community Center Renovation **$850,000**
Grant funding, through Rep. Doris Matsui's office, to renovate, convert, and repurpose an unfinished building into a multi-use community center**.**

Equipment for YPCE Patrol Trucks **$5,000**
Funding was awarded through the Automated External Defibrillator (AED) grant program in the form of subsidized pricing for AEDs for YPCE Ranger patrol trucks

Johnston Park Renovation **$1,000,000**
Grant funding, through Rep. Ameri Bera's office, for renovation of the ballfield and basketball court at Johnston Park.

North Natomas Regional Park Phase 7 Improvements **$500,000**
A general fund appropriation from the State to the City for North Natomas Regional Park Phase 7 Improvements including clearing and grubbing, fine grading, irrigation, landscaping, concrete paving, decomposed granite paving, group picnic areas, site furnishings and hydroseeding.

North Sacramento Adult Day Program Facility **$1,000,000**
Grant funding, through Rep. Ameri Bera's office, to upgrade and refurbish the community center at Johnston Park to operate Triple-R Adult Day Care program.

Roberton Park- Del Paso Heights Sports Complex **$1,000,000**
The State, through Rep. Ameri Bera's office, is funding improvements to Robertson Park's Del Paso Heights Sports Complex.

Workforce Innovation and Opportunity Act (WIOA) Youth Program Development **$222,263**

The Sacramento Employment and Training Agency provides funding to support 60 in school youth (ages 16-21 years old) each year. Activities are individualized and may include paid work experience, tutoring, leadership development opportunities, adult mentoring, comprehensive guidance and counseling, and a minimum of one year of follow-up services.

Schedule 7B
City Grant Awards

Schedule 7B provides an overview of grants awarded by the City of Sacramento to non-profits, businesses, community-based organizations, or other entities to support essential City programs. The information provided is a general summary of the grants awarded during calendar year 2025 and includes the program's name, grantee, grant amount, and funding source.

Schedule 8
Reclassification Requests (in Full-Time Equivalents)

all requests are subject to Human Resources approval

The City is currently undergoing a citywide classification and compensation study as approved by Council. Until this is completed individual reclassification requests are not being considered. The following summarizes the next steps in this study.

- **Citywide Classification and Compensation Study**
  The Human Resources Department is authorized to work with the Finance Department and all represented unions to review existing job classifications and compensation structures for positions in the City to ensure they are internally equitable and externally competitive.

Schedule 9
Multi-year Operating Projects (MYOPs)

Schedule 9 provides an overview of FY2026/27 appropriations to existing and new MYOPs. Appropriations will be transferred to the respective project July 1, 2026. The information is a general summary of MYOPs in each department by fund, project number, project name, budget as of March 2026, balance as of March 2026, and FY2026/27 funding amount.

SECTION - 8
Mayor and City Council

Mayor and City Council

The Mayor and City Council, consisting of the Mayor and eight Councilmembers, are the policy-making body for the City of Sacramento. The goal of the Council is to govern the City in a manner that is both responsive to the needs and concerns of City residents and financially sound.

The **Mayor and City Council (Council)** pass City ordinances, provide administrative direction and authority by resolution, approve new programs, and approve the annual budget. The Council acts as Sacramento's Financing Authority, Housing Authority, Public Financing Authority, and Redevelopment Agency Successor Agency. They also appoint the City's Charter Officers (City Attorney, City Auditor, City Clerk, City Manager, and City Treasurer) and the Director of the Office of Public Safety Accountability.

- Mayor and City Council: The governing body of the City. The Mayor is elected by all city voters and Councilmembers are elected by voters in each specific Council District. The Mayor appoints Councilmembers to serve on various regional boards, commissions, and joint powers authorities.

- Office of Public Safety Accountability (OPSA): The mission of OPSA is to enhance relationships between the City of Sacramento's public safety employees and the community they protect and serve. OPSA has broad oversight authority of the Sacramento Police Department and the Sacramento Fire Department. OPSA is charged with independently accepting, tracking, monitoring, and reviewing misconduct complaint investigations.

PROGRAMS/SERVICE HIGHLIGHTS

- Provide work experience opportunities in the Mayor's and City Council Offices to high school and college-aged youth through the City's volunteer internship program, Thousand Strong program, and various university and fellowship programs. A new addition to the various unpaid intern programs utilized, the Mayor and City Council offices started participating in the Youth Services Corps (previously known as the Californians for All) intern program aimed at providing paid work experience to City residents between the ages of 16–30, the funds are provided through a grant secured by the Office of Economic Development. In FY2025/26, the Mayor and Councilmembers welcomed 13 Youth Services Corps interns.

- Sponsor and/or organize community events such as movie nights, musical entertainment, holiday celebrations, cultural celebrations, community resources, and farmers markets to enhance the community's experience of living in the city.

- Financially support community organizations that provide services to City residents in the areas of racial equity, health and wellness, homelessness, teen learning, arts and culture, and youth sports.

- Hold ongoing community meetings throughout the city to share information and gather ideas that support and connect residents to one another and local government.

- Through the ceremonial resolution process, recognize community-oriented civic celebrations, causes, issues, companies, organizations, and individual residents or City employees that have achieved notable milestones or made contributions to the city and/or community. Also, honor and recognize the passing of residents. In FY2025/26, almost one hundred individuals or organizations were recognized.

- Issue Keys to the City via the Mayor's Office for residents reaching the 100-year milestone birthday or who have demonstrated remarkable service to the City throughout their life.

DEPARTMENT EFFICIENCIES

- Utilized the 311 system and integrated constituent management system to support constituents in tracking neighborhood complaints and requests for service.

- Welcomed Morelia, Michoacán as a Sister City to Sacramento.

OBJECTIVES FOR FY2026/27

- Continue evaluating and incorporating new and existing information technology tools to achieve sustainable services, increase transparency, and strengthen community engagement.

- Continue using websites and social media to share information and to communicate in a timely fashion with the community on issues of interest and impact.

- Continue providing work experience opportunities (internships) to college and high school students focused on building meaningful skill sets that will aid in obtaining full-time employment.

- Continue using electronic communications whenever possible to limit the use of printed materials. Printed materials will be made available to constituent communities, as necessary.

SECTION - 9
City Attorney

City Attorney

The mission of the Sacramento City Attorney's Office is to provide the highest quality legal services to the City of Sacramento.

The **Office of the City Attorney** serves as legal counsel to the City Council, City Officers and department staff, boards, and commissions as well as the Administration, Investment and Fiscal Management Board, Sacramento City Financing Authority, and Sacramento Regional Arts Facilities Financing Authority. The Office provides legal representation in criminal, civil and administrative litigation, renders advice and counsel, and prepares ordinances, resolutions, contracts, opinions, and other legal documents for the City and its related entities. The City Attorney's Office is organized into four operational divisions and an administration division.

- Administration: Develops and implements office policies and procedures; monitors overall office performance; prepares and administers the office budget; develops and implements education and training; handles all personnel hiring, evaluation, and other personnel matters; assembles and analyzes office productivity data, including the production of an annual report; and engages in long-range planning.
- General Counsel & Advisory Division: Provides advisory and transactional advice and support to charter offices and City departments on all aspects of municipal law including Brown Act; Public Records Act; California Environmental Quality Act and National Environmental Policy Act; water law; propositions 26 and 218; public bidding, construction, and procurement; contract negotiation, drafting, and review; prevailing wages; transportation modes; real estate procurement, conveyance, and leasing; solid waste disposal; landfill regulation; and various other areas of municipal law.
- Litigation Division: Defends and prosecutes civil litigation cases on behalf of the City and its officers and employees acting in the course and scope of employment; and provides legal support to Risk Management.

• Community Advocacy & Public Safety Division (CAPS):	Works collaboratively with City departments on code enforcement, social nuisance abatement, public safety issues, including prosecuting code violations through administrative, civil, or criminal proceedings, and social nuisances through civil litigation and training, and advising staff on enforcement matters. Advises the Sacramento Police Department, Community Development Department, Fire Department, and Department of Community Response Enforcement Divisions.
• Strategic Projects & Research Division (SPR):	Provides strategic support to the City Council's policymaking function by providing legal advice and response on multi-departmental projects and Council initiatives, including issues of homelessness, economic development, cannabis regulations, and emergency management.

PROGRAMS/SERVICE HIGHLIGHTS

General Counsel & Advisory

- Worked with Procurement staff to update and consolidate the City's contracting rules to ease implementation while also maintaining transparency and fairness in the City's contracting process. This project involved updates to the City code, procurement policies, and the City's contract templates for the purchase of goods, non-professional services, professional services, and public projects

- Assisted staff and the Sacramento Children's Fund Planning and Oversight Commission with the development and approval of the City's first Strategic Investment Plan, consistent with Measure L.

- Advised Department of Utilities (DOU) staff on updated development fees for water, separated sewer, combined sewer, and a new storm drainage fee. Drafted an authorizing ordinance for the storm drainage fee. Reviewed nexus studies and compliance with authorizing statutes and advised staff on the fee adoption process and requested exemptions. Despite significant developer opposition, litigation threats, and headwinds presented by State housing laws, DOU successfully obtained the requested fee levels.

- Successfully defended several lawsuits, including a challenge to an 800-residential-unit project on Bercut Drive and a preliminary lawsuit challenging the Airport South Industrial project.

- Assisted in the drafting of the City's missing middle housing interim ordinance. By adopting this ordinance, the City became the first jurisdiction in the state to allow multi-unit housing in every neighborhood.

Litigation

- Case No. 1: The City initiated litigation against A. Teichert and Sons, Inc. for non-compliant and deficient work on the Accelerated Water Meter Program concerning 1-inch water meter retrofit work and water main installations. The parties reached a settlement agreement allowing the Department of Utilities to collect $13.4 million.

- Case No. 2: This inverse condemnation matter involves a property owner who filed litigation against the City claiming that the West Broadway Specific Plan adopted by the City in 2020 requires him to complete a roadway dedication for a portion of his property and caused him to reduce the price of his property in a sale to a housing developer to account for the loss of 25% of the building area. We filed a motion to dismiss for lack of subject matter jurisdiction as plaintiff's development application is still pending. The Court granted the motion to dismiss, and plaintiff dismissed the lawsuit.

- Case No. 3: Plaintiff alleged an equal rights violation and law enforcement interference when his access to public baseball fields was infringed. The City successfully moved to have Plaintiff deemed a vexatious litigant in the US District Court Eastern District of California, and his case was dismissed.

- Case No. 4: This matter involved a fatal officer-involved shooting in a parking garage where the decedent refused to put down a firearm and was brandishing it at officers. The City filed a demurrer to the Complaint on standing issues and the case was dismissed.

- Case No. 5: This matter involved a commercial cannabis business alleging the City was improperly denying their building permits. The City negotiated a dismissal of the case by coordinating with staff to facilitate resolution of the outstanding building permit disputes.

Community Advocacy & Public Safety

- Advised the City's public safety department regarding Community Assistance, Recovery, and Empowerment (CARE) Court and Senate Bill 43 to expand access to mental health court, including submitting petitions to the Sacramento Superior Court for individuals in our community suffering from severe and untreated mental illness and other co-occurring disorders.

- Led the Justice for Neighbors (JFN) team to abate social and physical nuisance properties throughout the City, collecting administrative and civil penalties to support the JFN Fund, which in turn, provides support to abatement efforts through staff training, equipment and assistance with home repairs through the Emergency Home Repair Project.

- The Community Advocacy and Public Safety Division (CAPS) prosecution team not only assisted our enforcement officers' efforts to hold individuals accountable for complying with the law, but they also worked with violators and their attorneys

in the courtroom to improve their quality of life by helping to locate and provide services and shelter for interested individuals.

- Provide legal representation to the Police Department's Internal Affairs (IA) Unit regarding officers' personnel files, advising the Department in its role as a custodian of records, and provided successful representation both at the Superior Court and Court of Appeals. Additionally, CAPS provided a training session for all IA staff and prepared a legal manual for the division as a continuing legal resource.

- Assisted the Police Department with prosecuting Gun Violence Restraining Orders, taking weapons off the street and from individuals who pose a threat to either themselves or the public at large.

Strategic Projects & Research

- *Promoter Incentive Program.* Strategic Projects & Research Division (SPR) attorneys worked with the Convention & Cultural Services Department to create the Promoter Incentive Program for the SAFE Credit Union Convention Center & Performing Arts District. The program is designed to attract event presenters to hold multiple events at City facilities, bringing more events for City residents and generating additional revenue for the City and local businesses.

- *Entertainment Zones.* SPR assisted the Office of Innovation and Economic Development to draft the ordinance to create five entertainment zones in the city for special events where alcoholic beverages can be safely consumed on public streets.

- *Cannabis Consumption Lounges.* Advised the Office of Cannabis Management on the development of regulations for smoking and non-smoking cannabis consumption lounges at storefront cannabis dispensary sites.

- *SCFA/City of Sacramento 2025 Refunding Revenue Bonds.* SPR advised the City Treasurer on the $57 million bond issuance to finance the refunding of bonds previously issued under the City's master lease program. The financing creates aggregate debt service savings in each year relative to the debt service on the previously issued bonds.

- *Waterfront Reinvestment Program.* SPR attorneys worked with the Convention & Cultural Services Department to implement the Waterfront Reinvestment Program in Old Sacramento, which includes new commercial leases, boardwalk improvements, and a new children's play area.

- *Cannabis Business Operations Tax Appeal.* SPR attorneys assisted the Finance Department when a cannabis distributor appealed the City's assessment of $1.8 million in business operations taxes and penalties. On appeal, the hearing examiner upheld the business operations tax assessment in its entirety.

DEPARTMENT EFFICIENCIES

- Optimized budget savings by keeping vacant positions open.

- Conducted trials of legal research tools which would provide significant savings over the current platform to address ongoing budget reductions for FY2026/27.

- Contracted for the destruction of over 2,140 cubic feet of case files and other office records which were past the retention period creating a net savings of $70,000 over the next 7 ½ years.

OBJECTIVES FOR FY2026/27

- Implement the processes put in place to enhance the diversity, equity, and inclusion goals designed to improve internal commitment for recruitment and hiring, outreach to the community, and operations within the City Attorney's Office, as recently recognized by the California State Bar Gold Seal.

- Inform and advise the Council and City departments regarding Presidential Actions, including Executive Orders, Memoranda, and commencing litigation to protect the City from the federal government's threat to terminate federal funding of existing grants.

- Assist the Council and City Manager with budget savings through increased efficiencies in the City Attorney's Office.

- Provide citywide training as needed to include Public Records Act, public contracting, First Amendment issues, and the Brown Act.

- Continue to actively support and advise the City Council in the City's pursuit of racial and social justice and racial equity through implementation of its Racial Equity Resolution and planned next steps, as well as continuing support for the Police Department and the Office of Public Safety Accountability as they write and implement policies addressing community oversight pursuant to the Council's direction.

- Retain a staff of highly qualified and dedicated attorneys and support staff with extensive knowledge of the City of Sacramento and municipal law to deliver high quality legal services and advice more efficiently and effectively.

- Continue to defend the City's legal interests in court and in administrative proceedings and initiate legal action and other initiatives to protect and advance the rights, interests, and quality of life of our community, and ensure justice and equity.

- Continue to pursue filing of petitions in CARE Court, to aid in addressing the homelessness crisis and the specific needs of the percentage of homeless individuals experiencing significant mental illness.

SECTION - 10
City Auditor

City Auditor

The mission of the Office of the City Auditor is to provide a catalyst for improvements to municipal operations, promote credible, efficient, effective, equitable, fair, focused, transparent, and a fully accountable city government.

The **Office of the City Auditor** is an essential element of the City of Sacramento's public accountability, built on standards of independence, objectivity, and technical accuracy. The audit process involves verifying compliance with laws and regulations, identifying internal control weaknesses and failures, and assessing whether the City has acquired and used its resources efficiently. The Office of the City Auditor conducts performance audits in accordance with Generally Accepted Government Auditing Standards and has strict quality assurance programs to ensure that staff exercise due professional care, adequately plan audits, and prepare work papers that contain sufficient and compelling evidence to support any statements of fact in its audit reports. The Office of the City Auditor consists of the following operations:

- Performance Auditing: Provides independent, objective, and reliable information regarding the City's ability to meet its goals and objectives and establishes an adequate system of internal controls.
- Research and Analysis: Provides independent, objective, and reliable research and analysis related to a wide variety of topics including revenues, expenditures, diversity, and community livability.
- Whistleblower Investigative Audits: Conducts investigative audits of allegations of potential improper government activities (i.e., fraud, waste, or abuse) reported through the City’s whistleblower hotline.

PROGRAMS/SERVICE HIGHLIGHTS

- Developed an Annual Work Plan using several quantitative and qualitative techniques, sources, and stakeholder input to identify areas of high audit and research potential.
- Issued the City Auditor's 2026 Community Survey.
- Issued the City Auditor's FY2024/25 Baseline Funding Verification for the Sacramento Children's Fund. In compliance with section 120(e)(1)(C) of the City Charter, this report details the City Auditor's efforts related to verifying that the Baseline Funding amount of $22.9 million was expended in FY2024/25.
- Issued the FY2024/25 Audited Amount of Cannabis Business Operations Tax (CBOT) for the Sacramento Children's Fund. In compliance with section 120(c)(2) of the City Charter, this report identifies the amount of CBOT for FY2024/25.
- Issued the Audit of the Police Department's Military Equipment Use Policy and Inventory Practices.
- Issued the Audit of the City's Homeless Response: City Motel Program.
- Issued the City Auditor's FY2024/25 Annual Report. This report outlined the City Auditor's work for the fiscal year.
- Monitored the status of nearly 100 open audit recommendations by conducting follow-up reviews every six months.
- Received and processed various whistleblower allegations regarding potential improper government activities (i.e., fraud, waste, or abuse).

DEPARTMENT EFFICIENCIES

- Continued our agreement with Missionmark to explore the potential for developing audit software that will digitize internal audit processes and reduce processing time. Fully implemented, Missionmark's time tracking feature will help evaluate future project timelines and budgets.
- Managed online dashboards that provide the public with interactive information on the status of whistleblower investigations, audit recommendations, and gender and ethnic composition of City employees.

OBJECTIVES FOR FY2026/27

- Improve the efficiency and effectiveness of City operations by performing audits and conducting independent research and analysis.
- Deter and detect improper government activities (i.e., fraud, waste, or abuse) by managing the City's Whistleblower Hotline.

- Fulfill the City Auditor's responsibilities related to the Sacramento Children's Fund.
- Provide work experience opportunities (internships) to college and high school students focused on building meaningful skill sets that will aid the students in obtaining full-time employment.

SECTION - 11
City Clerk

City Clerk

The mission of the City Clerk's Office is to provide quality public service and connect the public with the legislative process. We strive to ensure that the City's legislative processes are open and public by providing a link between citizens and government with processes aimed toward transparency. Through efficient use of City resources, we can ensure the preservation of Sacramento's legislative history.

The **City Clerk** serves as the Clerk of the Council and is responsible for the preparation of agendas, the recording and maintenance of all Council actions, and the preparation and filing of public notices.

- Office of the City Clerk: The office through which the Council, City departments, and the public look for general information regarding the City. As the official records keeper for the City, the Clerk is responsible for the coordination and administration of all City records, documents, and public files. The City Clerk manages Public Records Act (PRA) requests, administers the City ticket policy and regulatory ticket distribution filings, conducts all bid openings, maintains the City's municipal code and charter, receives all claims filed against the City, researches issues related to Council and Committee actions, maintains contract and agreement files, registers lobbyists, manages online campaign filings and campaign finance submissions, administers City board and commission files, administers oaths of office, presides as the Elections Official for the City and the Filing Officer for the Fair Political Practices Commission requirements, and serves as the official custodian of the City Seal.

- Mayor-Council Operations: Manages the administrative, personnel, and fiscal operations of the City Clerk's Office and Offices of the Mayor and Council, including the Office of Public Safety Accountability.

- Ethics and Compliance: This office supports the Ethics Commission and focuses on reviewing existing City codes and policies, and educating and training staff, public officials, and the community to ensure compliance. These guidelines are found in the City Code and in adopted citywide policies.

PROGRAMS/SERVICE HIGHLIGHTS

- Continued to hire and train diverse staff in the responsibilities and requirements of the City Clerk's Office. A large focus this year was on implementing training centered around succession planning for the City Clerk's Office. Succession planning will remain a priority in FY2026/27.

- An additional focus this year, continuing into next year, is making more of the City's records available in an easily accessible format on the City's Open Data Portal. Also, recently added over one hundred years of Sacramento election history that includes historical information on candidates and measures.

- In a continued effort to offer our commissioners accessible training opportunities that satisfy governmental regulations, the City Clerk's Office has made Equal Employment Opportunity (Assembly Bill 1825) and Ethics Education (Assembly Bill 1234) training courses available online.

- Preparing the City Clerk's Office to comply with mandates outlined in SB 707 that include remote two-way participation in Council meetings, increasing language access and translation services, and require a web presence for public meetings. All of these are ways to strengthen public participation and broaden opportunities to participate remotely.

DEPARTMENT EFFICIENCIES

- Continued the review of operations in the City Clerk's Office and Offices of the Mayor and Council for implementation of "best practices" for a more efficient workflow and accurate deliverables.

- Continued utilization of the Citywide Content Management System (CCM) as a tool in the implementation of a records management program focused on moving the City toward consistent administration and appropriate handling of the agency's records and providing increased access to City records for both internal and external customers with the goal of increasing transparency in government.

- Worked with IT to move to a more robust Citywide Content Management System as the current platform will no longer be supported.
- Provided training opportunities for City staff on procedures and resources associated with the Clerk's Office to maintain institutional knowledge and provided training on new policy and legal requirements to ensure compliance.
- Continued evaluation and implementation of new and existing information technology tools to achieve sustainable services, increase transparency, and provide new records and data to the public with an emphasis on immediate virtual access.
- Continued to utilize Microsoft Teams for better collaboration and accountability between both in-office and remote workers.
- Responded to over 4,800 California Public Records Act requests.
- Processed 13 councilmember candidates for the upcoming primary election in June 2026 and two notices of intention for ballot measures for the November 2026 election.

OBJECTIVES FOR FY2026/27

- Continue to utilize social media to communicate in a timely fashion with citizens on issues managed by the Clerk's Office.
- Utilize new functionality in the Office 365 suite to reduce duplication and improve responses to PRA requests.
- Implement new technology to improve the timeliness of PRA request responses.
- Continue to expand utilization of the CCM and the online records portal, as part of furthering the City's mission of transparency.
- Continue to refine and expand our Boards and Commissions recruiting, onboarding, and ongoing training to include the implementation of many virtual training modules.
- Continue to evaluate and expand our programs and technology tools to create more efficient processes and products for staff and citizens.
- Continue to support the City's nine elected officials and their staff with onboarding and offboarding employees, financial requests, travel, office budgets, ceremonial documents, and other administrative duties.
- Implement mandates required under SB 707 that will strengthen public participation and broaden opportunities to participate remotely.

SECTION - 12
City Manager

City Manager

The **City Manager** is the Chief Executive Officer of the City and is responsible for the leadership and direction of all operations, programs, and services, per City Charter. The City Manager facilitates the implementation of Council's policies and priorities and provides policy recommendations to the Council concerning the annual budget, future needs of the City, and oversight of all City departments. The City Manager's Office (CMO) contains a wide-range of high-profile programs that handle issue-specific needs such as: Performance and Innovation, Media and Communications, Governmental Affairs, and Special Projects.

The City currently is facing a third year of a significant structural budget deficit, with expense growth outpacing revenue growth. The deficit reflects a combination of strategic investments in staffing to meet service demands, voter-approved commitments, adjustments to employee compensation to remain competitive, and broader inflationary pressures affecting cities nationwide. During the previous two budget cycles, the City partially addressed the structural budget deficit, closing a $128 million gap with a combination of one-time and ongoing budget balancing strategies. With the proposed budget for FY2026/27, the CMO and the Finance Department have identified a continued path toward fiscal sustainability and will continue to work closely with all City departments and the Mayor and Council offices to deliver an approved balanced budget per the City Charter.

PROGRAMS/SERVICE HIGHLIGHTS

Executive Office

- The Office of Governmental Affairs provides oversight and coordinates and develops policies for local, state, and federal legislative activities including management of the City's contract lobbyists. The Office identifies state and federal funding opportunities and works with lobbyists and elected officials to secure needed resources. The Office serves as staff to Council's Law and Legislation Committee, is responsible for the design and implementation of the annual state and federal legislative and policy platform and manages all Fair Political Practices Commission reporting. The Office has taken responsibility for overseeing the administration of large state grants secured by state legislators, with these grants funding critical City and community-led projects.

- Media and Communications partners with all departments to inform, engage, and connect residents to City services, projects, and initiatives. In FY2025/26, the team led proactive outreach on major City priorities, including implementing and promoting updated fireworks enforcement, daylighting parking changes, and traffic safety improvements through quick-build projects and Vision Zero. The team supported communications for key infrastructure and development efforts, including the I Street Bridge, Del Rio Trail bridge replacement, and new Entertainment Zones. Media and Communications also drove awareness and responded to media around critical housing and homelessness initiatives, including the Point-in-Time Count, the Roseville Road expansion, and micro-communities.

- The Special Projects unit leads and supports one-time and ongoing initiatives that provide strategic planning and accountability and that advance data-driven decision-making to ensure that the City serves the community in the most effective and efficient way possible. For example, the Special Projects unit is leading the development of a Priorities Strategic Plan to connect outcomes, indicators, objectives, and initiatives within each of the three City Council priorities (economic development, public safety, and homelessness). This effort will serve as a foundation for the City's next-generation performance management framework that will be piloted with six departments in FY2026/27.

Community and Economic Development

- The Office of Innovation and Economic Development (OIED) focuses on opportunities to support and increase job creation, business growth, and development activities. Accomplishments for the office in the last fiscal year include continued deployment of state and federal funds for economic recovery programs including Small Business Technical Assistance; Workforce Development; Childcare, Housing Development, Commercial Corridor Support; Financial Empowerment Center Expansion; and Outreach and Engagement.

- Continued work toward increasing affordable housing development, including completing agreements for new residential units, applying for housing grant funds

through the State, supporting the reduced impact fee program, and completing an exclusive right to negotiate agreement for City surplus property. Additionally, awarded $5.8 million in State Encampment Resolution Fund grant to pilot a street to housing program, contracted with the State for the fifth round of Homeless Housing, Assistance and Prevention (HHAP) program funding ($27 million), and began preparations for the sixth round of HHAP funding.

- Furthered the implementation of the Aggie Square Community Benefit Partnership Agreement. This included launching workforce pilots, completing the first housing project, and breaking ground on two additional housing projects with City/ Sacramento Housing and Redevelopment Agency funding for a total of 800 new units along Stockton Boulevard. Additionally, furthered implementation of the Aggie Square Anti-Displacement and Housing Stabilization program which assisted 1,589 individuals through emergency assistance, home repairs, and first-time homebuyer programs.

- Completed the leases for two new restaurants on the Waterfront. Facilitated amending the City code to establish five entertainment zones to increase economic activity and enhance customer experience. Entertainment zone events included Terra Madre Americas which had an attendance of over 165,000.

- Launched the fourth cohort of the Economic Gardening Program 2.0, which is assisting six small businesses by pairing them with business experts who work with them to develop and implement growth strategies. A total of 26 businesses have now completed the Economic Gardening Program 2.0 and many have reported significant revenue and employment growth.

- Supported the advancement of projects in the Railyards which resulted in the groundbreaking of the stadium and finance closing for the Historic Central Shops.

- Launched solicitations for four catalytic projects including the two aforementioned waterfront restaurant opportunities in Old Sacramento, the Hale Building on K Street, and the 102-acre site in South Sacramento.

- Continued to support the Neighborhood Development Action Team (NDAT) Community Ambassador Program with 18 ambassadors to bring more trusted messengers to the community. The 18 ambassadors speak 15 languages. The NDAT Community Ambassador program is an award-winning cultural and language justice program created to facilitate multicultural bridge building to create and maintain relationships with community partners, businesses, and residents who represent linguistically diverse populations and/or historically underrepresented communities.

- Partnered with six community-based organizations to train and employ 140 youth and young adults and supported the placement of 150 youth and young adults in City programs and internships through the Youth Service Corps and Young Adult Workforce grant.

- Established and operationalized the City's Language Access Program through the hiring of a dedicated Language Access Coordinator. Released a Language Access Policy and initiated implementation through expanded staff trainings, new language service provider contract, launch of the "I Speak" campaign, introduction of a public feedback form, purchase of interpreter devices, and ongoing system improvements to enhance equitable access to City services.

- The Financial Empowerment Center (FEC) continues to offer free professional one-on-one financial coaching for residents who are 18+. The FEC has assisted over 1,800 clients. This resulted in an average savings of $3,167 per client, with an overall savings of $1,539,604 and an average reduction in debt of $3,087, which resulted in over $4 million reduced debt.

- In the first year of the Business Solutions Center Pilot, a program dedicated to helping City of Sacramento small businesses start, grow, and thrive, over 250 businesses were assisted through technical assistance and microgrants.

OBJECTIVES FOR FY2026/27

- Commence development of an Economic Development Strategy that is an industry-focused business attraction and retention strategy that builds on the growth industries identified in ScaleUp Sacramento (life sciences, future mobility, clean economy, business services, and food and agriculture manufacturing).

- With a focus on equity and inclusion, continue to implement innovative approaches to strengthening Sacramento's workforce, neighborhoods, and commercial.

- Create processes for department engagement and capacity building, while strengthening community collaboration.

- Establish Sac LIFT (Sacramento Local Impact Funders Table) as a cross-sector collaborative that convenes financial institutions, philanthropy, and public partners to align resources, strengthen partnerships, and advance equitable economic opportunity and community impact for Sacramento residents.

- Continue to advance catalytic projects, like The Railyards, Sacramento Valley Station, the Hale Building, 102-acre site and the Old Sacramento Waterfront in a way that maximizes inclusive economic opportunities for adjacent communities and stimulates the economy.

- Pursue opportunities to permanently implement small business assistance programs that were developed during the pandemic and increase economic growth options for Sacramento's small businesses.

- Explore and implement policies to streamline housing development and increase the stock of housing opportunities at all levels.

- Grow the nighttime economy through supporting the development of two new live music venues in North Sacramento and Power Inn areas to enhance vibrancy and revitalize communities.

- Strengthen enterprise-wide grant governance by operationalizing improved policies, standardizing grant lifecycle workflows, and partnering with departments to enhance compliance and tracking in the City's Grant Management System.

- Lead implementation of the City's next-generation performance management framework by supporting departmental rollout of outcomes, indicators, and objectives aligned with Council priorities, ensuring readiness for the FY2026/27 pilot phase and FY2027/28 citywide expansion.

- Operationalize an executive performance rhythm by conducting quarterly operating review "stat" meetings with pilot departments, tracking and resolving action items, and integrating performance summaries into executive briefings.

BUDGET AND POSITION CHANGES

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Economic Development	Delete one position (1.0 FTE - Special Projects Manager) and add one new position (1.0 FTE - Senior Development Project Manager) in the Office of Innovation and Economic Development.	Measure U	(165,296)	(131)	-
Community Engagement	Fund the Language Access Coordinator position (1.0 FTE - Administrative Analyst) on an ongoing basis.	Measure U	145,807	-	-
Economic Development	Decrease funding for the Office of Innovation and Economic Development by $100,000. This decreases funding available for economic development activities including real estate due diligence, developing plans and studies, purchasing data, and community advertising and sponsorships.	Measure U	-	(100,000)	-
Economic Development	Decrease funding for the Economic Gardening Multi-Year Operating Project. The reduction may require smaller cohorts of participating businesses in perpetuity or alternate program cost reductions.	Innovation and Growth	-	(600,000)	-
Executive Office	Delete one position (1.0 FTE - Administrative Analyst) in the Executive Office.	General Fund	-	(112,705)	(1.00)
Media and Communications	Delete one position (1.0 FTE - Administrative Analyst) in Media and Communications.	General Fund	-	(140,111)	(1.00)

PERFORMANCE MEASURES

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of businesses in the city*	22,384	21,876	21,504	21,132	N/A

The Office of Innovation and Economic Development promotes a 'business-friendly' environment and provides assistance to encourage business growth and development. Tracking the number of businesses located in the city is a good indicator of a business-friendly environment. Source: ESRI Business Analyst**

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of jobs in the city	285,037	287,118	269,090	252,137	N/A

In supporting the growth of business activity, Economic Development seeks to increase the number of job opportunities available to city residents. Tracking the total number of jobs in the city is a good indicator of increased opportunity for employment. Source: ESRI Business Analyst**

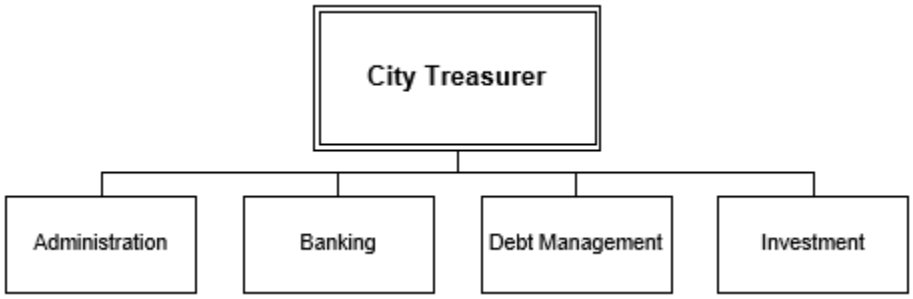
Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Employment rate (calendar year)	95.4%	95.3%	95.2%	95.0%	N/A

Changes in employment rates that correlate with job growth indicate job creation that is in harmony with the workforce needs. Source: State of California Employment Development Department, Labor Market Information Division.

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 **Estimate**	FY27 Target
Total investments made in Sacramento, by building permit valuation	$1.19 billion	$1.13 billion	$1.11 billion	$2.55 billion	N/A

The department promotes and facilitates investment and development opportunities within the city to revitalize targeted commercial areas. Continued physical development and investment in the City remain essential to create jobs, improve quality of life, and provide the necessary infrastructure to attract development and businesses. Tracking building valuation and monitoring its trend line is an indicator of economic growth.

*Number of businesses in the city could be tracked by new versus renewal, gross receipts, and gross payroll if the City's BOT processing system and software is updated.



**ESRI is an international supplier of geographic information software systems, geodatabase management, and business analytics data. ESRI extracts its business data from Dun & Bradstreet.

SECTION - 13
City Treasurer

City Treasurer

Provide banking, investment, and debt management services for and to protect the fiscal integrity of the City of Sacramento.

The **City Treasurer** is responsible for the deposit and investment of all City funds. The City Charter also provides that the City Treasurer keeps the Council informed regarding the status of investments and City funds. Additionally, the Council has directed that the City Treasurer should also provide public finance and debt issuance services for the City.

PROGRAMS/SERVICE HIGHLIGHTS

- Added an additional Investment Officer to the Investment Division to aid in long-term succession planning; to ensure continuity and a seamless transfer of knowledge should retirements occur in the near future.
- Met with council members and members of the community for workshops on updating the City's Annual Investment Policy to formally incorporate language that supports the City's goal of Socially Responsible Investing.
- Worked with HR and payroll to request a full audit of Sacramento City Employees' Retirement System (SCERS) participants with adequate monitoring going forward to ensure the plan data is accurate, thereby increasing the funded status and reducing the City's need for large annual contributions to the plan
- Proactive monitoring/implementation of Account Validation services complying with the 2026 National Automated Clearing House Association (NACHA) rule changes focusing on strengthening Automated Clearing House (ACH) network security via mandatory risk-based fraud detection.
- Launched a citywide service fee initiative to recover credit card merchant costs to eliminate City subsidy, utilizing a phased implementation with many lines of business adopting by Summer 2026; potential annual savings of $900k.
- Assisted business units (Entertainment Services Dist. & Front Street Shelter) in establishing new e-commerce payment methods, providing a better customer experience, maximum flexibility, more revenue opportunities and strong security standards, all while maintaining Payment Card Industry (PCI) Compliance; Coordinated and co-led the team to another Clean Report of Compliance (ROC) while navigating new PCI 4.0 Requirements.

- Completed the issuance of the 2025 Refunding Revenue Bonds (the "**2025 Bonds**"), which fully refunded and defeased the 2015 Refunding Revenue Bonds. The issuance of the 2025 Bonds will enable the City's General Fund to realize approximately $5.65 million in total cashflow savings; the 2025 Bonds were intentionally structured to provide upfront savings for the General Fund in the near-term in Fiscal Years 2026-2029.

- Managed the cash flow for the City, SCERS, Sacramento Housing and Redevelopment Agency (SHRA), Sacramento Public Library Authority (SPLA), and other trust funds between the bank and the investment pools to gain interest earnings and provide liquidity in a prudent manner. Consistently one of the top performing municipalities in the State of California over the long term. The investments staff is now managing $2 billion.

- SCERS Plan achieved over 109% funding status in a year where moderate inflation led to larger than anticipated participants' balance increases. Staff continues to demonstrate disciplined investment strategies in both positive and negative market environments, ensuring our 700 plan participants will receive the benefits they are entitled to. A fully funded/overfunded plan reduces the necessity of large annual City contributions into the plan.

DEPARTMENT EFFICIENCIES

- Automated the daily cash flow process that links City and banking data in real-time, thus improving accuracy and efficiency.

- Streamlined trade processing and implemented new reconciliation methods and procedures to ensure validity and reliability of investment records.

- Utilized a third-party consultant to proactively monitor on an ongoing basis the credit ratings and outlook of outstanding bonds, thereby freeing up City staff to focus on other debt management-related responsibilities.

OBJECTIVES FOR FY2026/27

- Work with external legal consultants, City Council, Mayor, and City Attorney's office to create a Charter Amendment for the November 2026 general election to address language gaps in the charter for the eventual termination of SCERS; Continue to work with City Council and Mayor on ways to utilize potential excess SCERS funds to be used for council priorities should funds become unencumbered.

- Engage with external pool participants to complete the roll out of the updated investment recovery fee to ensure the fees charged cover expenses incurred when managing the portfolios; the investment recovery fee had not been updated since 2011.

- Complete reviews and implement citywide banking policies and procedures that will complement existing procedures for departments; Continue to evaluate and establish a citywide Credit Card Fee Policy; Incorporate and remediate new PCI Data Security Standard 4.0.01 requirements into PCI Policies and Procedures. Initiate and enforce stricter policies in card processing procedures, specifically surrounding email Data Loss Prevention (DLP) block Policy.

- Implement budget strategy proposal to eliminate City subsidies of merchant fees for credit card fees by passing to the end user; the project aims to implement through a phased approach with most Lines of Businesses adopting by Summer 2026.

- Work with the Finance Department and the City Attorney's Office on the second issuance of Greenbriar Community Facilities District (CFD) (Improvement Area No. 2) bonds to acquire infrastructure from the developer.

- Work with the City Manager's Office's Office of Innovation and Economic Development, Convention and Cultural Services Department, and the City Attorney's Office on the issuance of the 2026 Transient Occupancy Tax Revenue Bonds to finance projects included in the Waterfront Reinvestment Program.

- Work with the Finance Department and the City Attorney's Office on the change proceedings associated with Delta Shores CFD (Improvement Area No. 3), and the new Improvement Area No. 4.

- Work on the issuance of bonds for Aggie Square CFD to acquire infrastructure from the developer.

- Provide financial guidance to the Public Works Department and the City Manager's Office regarding components of the I Street Bridge Project.

- Work with the City Manager's Office and the Office of Innovation and Economic Development to address solutions for short-term funding needs for potential development projects that may require funding through non-traditional means.

- Work with the Mayor and Council to create criteria to assist in the prioritization of projects and uses of surplus Transient Occupancy Tax (TOT) revenues to ensure charter compliance, promote equity, and further TOT revenue generation. Continue to build a succession and training plan that helps to cultivate staff in preparation for natural attrition with a focus on knowledge sharing for the subsequent hiring of future replacement staff.

- Work with the Banking Manager and Finance to onboard more vendors onto the City's Single Use Account and ACH payment programs to cut down on the number of large checks the City must float to cover daily, which reduces the potential for higher yields on Pool A funds.

SECTION - 14
Community Development

Community Development

We help plan, build, and maintain a great city.

The **Community Development Department** plans for growth, development, and prosperity in Sacramento; reviews and approves development applications and building permits; responds to issues related to the Health and Safety Code while ensuring well-maintained properties and preserving the existing housing stock; and provides animal care services.

The Department consists of the following service areas:

- Administrative Services: Provide centralized support for Department budgeting, accounting, personnel services, procurement, boards and commissions, and marketing and communications.
- Animal Care Services: Provide animal care services through enforcement of City codes with emphasis on public safety, cruelty, and abuse investigations, sheltering, adoption, and community outreach, along with a robust volunteer program affording a high level of community engagement.
- Building: Protect public health and safety by regulating construction and development through provision of permits, plan review, and building inspections. Provide building application and building permit services and specialized development project management services.
- Code Compliance: Promote and maintain a safe and desirable living and working environment through enforcement of City and state codes. Programs and services include

neighborhood and business code compliance, graffiti, vehicle, and weed abatements, substandard/dangerous building inspections, tenant protection, vacant building and lot monitoring, and residential rental housing inspections and monitoring.

- Planning: Provide a vision for a great city by leading the City's planning, development, urban design, and historic preservation efforts. Guide development for public and private sector investment throughout our community.

PROGRAMS/SERVICE HIGHLIGHTS

- The Administrative Services Division processed $87.3 million in fees for City departments and other agencies.

- Animal Care Services Homeless Outreach and Assistance Program has provided vaccinations, veterinary care, and spay/neuter services to a record 1,888 animals owned by 1,028 unhoused residents. Community engagement activities included 717 Doggy Day Out appointments, 130 Pups and PJs appointments, and 163 Jog-A-Dog appointments.

- Building Division completed the first year of Streamline Sacramento, a cross-departmental effort to examine the City's procedures for reviewing and approving development projects, with an emphasis on housing. Twenty-eight streamlining actions were implemented in the first year.

- The Building Division adopted the 2025 California Building Standards Code and completed approximately 23,000 plan reviews with 98.5% completed on time and 72,000 inspections with 97% completed on time. Expanded and institutionalized the Small Business Liaison Program to improve access and predictability for small businesses.

- Code Compliance Division was awarded an $884,021 Tobacco Grant Program grant from the California Department of Justice to reduce illegal retail sales and marketing of cigarettes and tobacco products, including e-cigarettes, to minors.

- Over 3,600 vehicles were towed citywide by Code Compliance, and an additional 500 hazardous or abandoned recreational vehicles and/or trailers were towed and destroyed.

- The Planning Division advanced major community and neighborhood planning initiatives, including progress on the River District and Central City Specific Plans, implementation of the award-winning Forward Together Action Plan, and

continued delivery of the Planning Academy and Community Ambassador Program.

- The Planning Division also improved housing development readiness and public engagement, through new tools and programming supporting small-scale development and outreach to emerging developers (Housing Development Toolkit Map, ADU Fair, and Small Developer Incubator Pilot Program).

- Planning staff is on track to process approximately 564 private development applications by the end of FY2025/26. This represents an increase of 8% over the prior year. Projects range from construction of new residential, mixed-use buildings, ministerial housing review, and retail development to tentative maps to subdivide land for future development. Notable projects this year have included: the Railyards soccer stadium, Kaiser Hospital, the adaptive reuse of the historic Diggs and Marshall School, Russell at Truxel project on surplus City property, Creekside at Woodlake, and Birchway Apartments in Natomas.

DEPARTMENT EFFICIENCIES

- Animal Care Services had a backlog of 772 spay and neuter surgeries in September 2024, due to veterinary staffing shortages in the Division and outside veterinarian vendors. By March 2026, that number has been reduced to 1, due to the hiring of two veterinarians and increased external spay and neuter services. These additional resources reduced the number of animals in foster-to-adopt homes and reduced costs by no longer requiring veterinary care for those animals.

- As part of Streamline Sacramento, the Building Division's remote building inspections program allows convenient virtual inspections for minor residential building permits and went live in October 2025, with 30 virtual inspections being conducted daily. The Building Division also launched a six-month pilot program in October 2025, to expand in-person public counter hours to five days per week; it also instituted an Inspection Tracker—an internal web-based dashboard for supervisors to track inspections and make schedule or inspector adjustments in real time.

- The Code Compliance Division is developing a new, enhanced case management system anticipated to go live in FY2026/27.

- The Planning Division implemented a new California Environmental Quality Act (CEQA) streamlining process that includes development of a checklist form for meeting the requirements of the Public Resources Code Section 21080.66 (AB 130) exemption. The Planning Division also established in-progress planning frame and foundation inspections to interact early with contractors to provide for smooth and timely transitions at final inspections.

OBJECTIVES FOR FY2026/27

- Amend the Planning and Development Code to align it with the 2040 General Plan, including large-scale rezoning analysis of over 100,000 parcels and development of new Missing Middle Housing and neighborhood commercial regulations.

- Continue implementation of Streamline Sacramento—the cross-departmental effort to streamline the development approval process.

- Complete the development of policies and procedures for the Front Street Animal Shelter.

- Complete modifications to the Tobacco Retailers License Program to include Council priorities and code enforcement priorities to the ordinance.

- Create an enhanced vacant building and vacant property ordinance with increased enforcement and monitoring tools.

- Launch new code enforcement case management and reporting system that will be used by several departments.

REORGANIZATION

- As part of the FY2026/27 budget, the department is creating a new “Hearings” Department ID. This internal delineation will clarify the resources allocated and utilized for this body of work.

BUDGET AND POSITION CHANGES

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Animal Care Shelter	Increase one-time funding for citywide spay and neuter clinics. Due to funding, staffing, and spay and neuter surgery space, Animal Care Services does not have the ability to provide community spay and neuter services to the community in-house.	Measure U	-	500,000	-
Building	Delete one position (1.0 FTE - Building Inspector I/II/III) and add one new position (1.0 FTE - Building Inspector IV) increasing field inspection supervision, improves workload assignments, and enhances the resolution of customer concerns.	General Fund	-	5,305	-
Building Plan Check	Delete one position (1.0 FTE - Plans Examiner III) and add one new position (1.0 FTE - Building Inspector IV). Realigns staffing by replacing a Plans Examiner III with a Building Inspector IV to improve career progression and recruitment.	General Fund	-	5,311	-
Rental Housing Inspection Program	Add one position (1.0 FTE - Customer Service Representative) in Rental Housing Inspection Program (RHIP). Increase revenue budget for RHIP offsetting position. Ensures RHIP can keep pace with its growing workload, address persistent backlogs, and maintain timely, accurate processing of more than 66,000 rental units as the program's operational and compliance requirements expand.	General Fund	(100,000)	95,003	1.00
Animal Care Shelter	Delete one position (1.0 FTE - Animal Care Technician) and add one new position (1.0 FTE - Animal Services Coordinator) in Animal Care. Increase revenue budget for Animal Care due to fee increases. This position will provide behavior evaluations and training to dogs housed in the shelter to decrease length of stay and increase the live release rate.	Measure U	(19,000)	18,864	-
Animal Care Administration	Increase revenue budget in Animal Services based on licensing fee increase recommendations from the Citywide fee study.	General Fund	(24,000)	-	-
Animal Care Administration	Increase revenue budget in Animal Services based on licensing fee increase recommendations from the Citywide fee study.	General Fund	(120,370)	-	-
Building Plan Check	Decrease funding for consultant services for plan review and inspections.	General Fund	-	(955,000)	-
Current Planning	Increase revenue budget in Planning based on fee increase recommendations from the Citywide 2025 Government Consulting Partners Fee Study.	General Fund	(1,000,000)	-	-
Long Range Planning	Change funding source for two positions (2.0 FTE - Associate Planner) in the Neighborhood Development Action Team (NDAT) from Measure U Fund (Fund 2401) to the General Plan Updates project (I22000000).	Measure U	(779,162)	-	-
Building Plan Check	Delete one position (1.0 FTE - Senior Engineer) in the Building Plan Check Division.	General Fund	-	(154,968)	(1.00)
Building	Increase revenue budget in Building Division based on fee increase recommendations from Citywide Fee Study. Offset three positions (1.0 FTE - GIS Specialist III and 2.0 FTE - GIS Specialist II) partially with Technology fee increases.	Development Services	(327,250)	233,872	-
		Total Change	**(2,369,782)**	**(251,613)**	**-**

MEASURE U

The following chart summarizes the Department's Measure U programs.

Funding Category	Program Name	FTE	FY2026/27 Proposed
Affordable Housing			
MYOP	NDAT	-	600,000
	Zero-Dollar Rate Program	-	3,000,000
Operations	Long Range	13.00	(701,687)
	Zoning	5.00	379,406
Community Development			
MYOP	Fleet Acquisitions	-	184,000
Community Response			
MYOP	Commission Stipends	-	7,500
	Fleet Acquisitions	-	135,000
Operations	Animal Care Administration	14.00	1,212,774
	Animal Care/Shelter	34.00	5,668,124
	Neighborhood Code Compliance	39.00	3,899,614
Public Safety - Community Development			
Operations	Animal Enforcement/Field Services	15.00	2,019,613
Grand Total		**120.00**	**$ 16,404,344**

PERFORMANCE MEASURES

Animal Care Services Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percent of animals that are adopted, transferred, sent to rescue, or returned to owner (live release rate)	87%	81.9%	79.6%	82%	90%

The live release rate is a key measure of the Front Street Animal Shelter's success in achieving its mission of saving lives. The live release rate can be affected by a variety of factors including the health of animals upon intake, the number of animals received due to bite/abuse/neglect investigations, staffing levels, and volunteer/community involvement.

Building Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percent of development inspections performed on the day scheduled	98%	96%	98%	97%	95%

Most inspections are completed on the day that they are scheduled.

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percentage of residential building permits issued within two days	87%	86%	83%	85%	80%

Most residential permits are minor in nature and may be approved in the online permitting platform. This measure is tracked nationally and offers a means of comparison with other agencies.

Code Compliance Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Vehicle cases closed within 21 days	64%	53%	80%	78%	80%

Abandoned or inoperable vehicles are investigated by Neighborhood Code Compliance. When a Code Enforcement Officer confirms a vehicle violation, the vehicle is marked, and the registered owner of the vehicle has three days to remove the vehicle, or it may be towed.

Planning Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percent of Site Plan and Design Review (DR) Files completed within 90 days	59%	56%	46%	59%	60%

The Planning Division tracks and reports the time it takes to approve an application for the Site Plan and Design Review. This review includes a technical analysis of the project to determine compliance with development standards, design guidelines, and the California Environmental Quality Act (CEQA). The application may be approved at the staff or Director level.

SECTION - 15
Community Response

Community Response

The mission of the Department of Community Response is to provide compassionate and individualized support to people experiencing homelessness with the goal of aiding them on their path toward recovery, wellness, and self-sufficiency.

On July 1, 2020, the City Council directed the City Manager to develop an alternative response model for 911 calls that do not require traditional emergency services. This response was originally created as a Division in the City Manager's Office. The Division became the standalone **Department of Community Response (DCR)** effective July 1, 2021.

DCR deploys teams of social workers and outreach specialists throughout the city to help people experiencing homelessness get off the streets and into improved circumstances. DCR manages and monitors the City's emergency shelters and programs that serve people experiencing homelessness. DCR's alternative responses to conventional public-safety interventions divert entry into jails and emergency rooms by connecting individuals in need with appropriate services and treatment options to better resolve issues.

Working with the County of Sacramento, Sacramento Steps Forward, and the Sacramento Housing and Redevelopment Agency, DCR plays a pivotal role in Sacramento's Regional Homeless Response System, focusing on providing outreach and engagement as well as emergency shelter and interim housing.

DCR's Director also oversees the City's multi-departmental Incident Management Team responding to homelessness, which ensures all available resources are utilized and leveraged in the best manner possible to support unsheltered residents while addressing unsafe, unsanitary, and/or unlawful encampments in local communities.

DCR is comprised of the following three offices:

- Office of the Director (OOD): Responsible for the City's strategic plan to respond to homelessness as well as the Department's fiscal, human resources, government affairs, communications, and administrative management.
- Community Outreach Division (COD): Responsible for responding to 311 calls for service by deploying teams of social workers and outreach specialists who help people experiencing homelessness access shelter and support using evidence-

based practices such as cultural competency, motivational interviewing and strengths-based approaches that are not typically found within traditional emergency response models.

- Homeless Services Division (HSD): Responsible for managing the City's effort to shelter and house people experiencing homelessness, which includes coordinating with various Federal, State, local, nonprofit and faith-based entities and administering millions of dollars in contracts to fund emergency shelter, wraparound services and interim supportive housing projects.

PROGRAMS/SERVICE HIGHLIGHTS

- In 2025, City-funded shelters provided shelter to 4,474 individuals, including 1,142 children. During 2025, 3,170 individuals exited City-funded shelters, including 840 (26%) who exited to permanent housing and 1,330 (42%) who exited to an improved housing destination.

- In the third year of the Incident Management Team (IMT), DCR continued to maintain and coordinate implementation of the dual mandate to protect public health and safety through enforcement of applicable State and City codes while also connecting unhoused community members to services and shelter. In collaboration with the Sacramento Police Department, Fire Department, Code Enforcement, Animal Control, City Park Rangers and other contracted providers, the IMT accomplished the following in calendar year 2025:

    - Received 48,809 calls for service that resulted in the creation, response, and closure of 87,145 cases.
    - Responded to 20,145 calls for service related to cleanup and removed 6 million pounds of trash.
    - Engaged with 3,860 community members experiencing homelessness and made 1,104 rapid (real time) placements into shelter.
    - Achieved compliance on 10,192 cases, including 1,899 arrests/citations, and the abatement of 609 hazardous and/or unregistered vehicles.

- In the third year of the City of Sacramento-County of Sacramento Homeless Services Partnership Agreement, DCR continued to coordinate implementation of this landmark accord. Efforts during this time period focused on optimizing collaborative outreach and engagement services between DCR staff and County Behavioral Health Service personnel, who shifted from primarily working with clients in large outdoor encampments to engaging clients within City-funded shelters. This shift in focus improved the number of people linked to behavioral health services by 65 percent as compared to 2024.

- The Community Outreach Division expanded the Roseville Road campus by 100 electrified pallet style homes utilizing a portion of the approximately $12.4 million of State's Encampment Resolution Fund - Round 4 (ERF 4L) received. ERF 4L is

also funding the operations of the Roseville Road expansion and providing high intensity outreach and services and enhanced shelter and housing support to program participants. These additional shelter beds and services were provided specifically to individuals on the Sacramento Northern Parkway Trail and surrounding neighborhoods.

- Following system upgrades and capacity building launched in July 2025, the Community Outreach Division and IMT partner agencies significantly improved response times and efficiency by shifting from a model where different response types happened sequentially to a framework where different response types happened concurrently. These changes resulted in a significant increase in the number of homelessness response cases received and closed. These efforts resulted in visible reductions in the number of encampments within the city.

- In collaboration with the Office of the City Manager, DCR continued to operate its public-facing IMT Data Dashboard featuring key performance metrics in an easy-to-use interface. By providing weekly updated information related to homelessness response, this tool has reduced demands on staff time to respond to information requests and allowed a more cost-effective focus on response.

- The Community Outreach Division established more in-depth social-service-focused response teams. These teams include staffing the Street Overdose Response Team (SORT) in partnership with the Fire Department, as well as case-carrying work focused on rehousing and resource connection.

- DCR developed a new Safe Camping site in the River District where people can temporarily camp before transitioning to City shelters. The site offers 100 City-provided tents, restrooms, showers, trash collection, outreach and 24/7 security.

- DCR launched its Micro-Communities program, offering specialized populations including seniors 55 and older an option for ultra-affordable interim housing. The department has four Micro-Communities in development. Located on City-owned parcels, each site will have no more than 40 prefabricated units, each with their own heating/air conditioning. Other site amenities will include bathrooms, showers, a kitchen, 24/7 security, laundry, storage and connections to supportive services.

- Through DCR's efforts, Sacramento became one of the first cities to launch a California Advancing and Innovating Medi-Cal (CalAIM) program, which is funded by the State's Medicaid Program and provides reimbursements for non-medical services that improve health outcomes, including rehousing, creating a new revenue stream for the City to serve people experiencing homelessness.

DEPARTMENT EFFICIENCIES

- The Office of the Director continued to work on strategic planning, management of fiscal/budget, and HR solutions. OOD refined DCR recruitment, selection, and

hiring processes to support all programs and operations. In FY2024/25, DCR successfully recruited and hired an Assistant Director, a Program Manager, and 10 Neighborhoods Resource Coordinators. The Department also promoted one employee to Support Services Manager, one employee to Administrative Analyst and five employees to Neighborhood Resource Coordinator II.

- The Department renegotiated 15 shelter and services contracts saving the City an estimated $8.8 million annually.

- The Homeless Services Division strengthened its monitoring of City Sheltering programs to include new performance analytics.

- The Community Outreach Division continued to work collaboratively with IT. This year the focus was on user experience. With completion of the Customer 360 Phase 2 development, upgrades were completed that allow a caller to request multiple responses concurrently through one call to 311, ensuring that all cases closed result in a follow up email being sent.

- The Community Outreach Division established a logistics subdivision that manages dispatch of resources and data input. This change, coupled with system improvements described above, resulted in a 200 percent increase in the number of outreach calls resolved within 24 hours.

- The Homeless Services Division restructured the City Motel Program to focus on families with minor children and utilize a time-limited voucher-based model. With additional motels participating in the program, this restructuring expands client choice while reducing operating costs.

OBJECTIVES FOR FY2026/27

- Continue to develop solutions to address funding issues by reducing costs across sheltering contracts while improving performance through increased focus on key performance indicators.

- Open the City's first "ultra-affordable" interim housing Micro-Community site to serve as a fiscally responsible bridge between emergency shelter and time/resource intensive housing development.

- Continue to apply for all grant funding available (i.e., Homeless Housing, Assistance and Prevention and Encampment Resolution Funding).

- Conduct monthly reviews of shelter performance analytics.

- Implement new homeless response protocol for "focused response" for challenging areas where persistent encampments exist or where encampments return frequently.

- Establish and pilot a civilian-led cost-effective alternative response program to respond to nonviolent and behavioral health calls from the 911 system.

- Finalize and launch the shelter reporting tool in partnership with IT and 311 to provide better capture and tracking of shelter grievances and facility concerns.

- Develop a new Safe Parking program where people can temporarily stay and sleep in their vehicles overnight and receive supportive services to exit homelessness.

- Continue to collaborate with local partners including the County of Sacramento, Sacramento Steps Forward, the Sacramento Continuum of Care, and the Sacramento Housing and Redevelopment Agency, to execute "All In Sacramento," Sacramento's Regionally-Coordinated Framework and Action Plan to Prevent and End Homelessness.

BUDGET AND POSITION CHANGES

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Office of the Director	Increase revenue for a new Micro-Community Program Fee.	Measure U	(36,000)	-	-

Convention and Cultural Services

Convention and Cultural Services

The mission of the Convention and Cultural Services Department is to promote and preserve our unique culture and heritage by delivering arts, leisure, and educational experiences to enrich people's lives and enhance the metropolitan area.

Through its divisions, and in partnership with nonprofit and civic partners, the **Convention and Cultural Services Department (CCS)** delivers a dynamic portfolio of venues, programs, and experiences that serve residents, artists, and visitors while contributing to the city's economic vitality and identity.

The Department includes the following divisions, programs, and partnerships:

- CCS Administration: Administers overall departmental policy direction, oversees financial activities and transactions, supports procurement, delivers projects, and assists divisions with human resources functions.

- Crocker Art Museum: The Crocker Art Museum brings people together and connects them in unexpected ways with art, ideas, each other, and the world around them. The Museum features the world's foremost display of California art and is renowned for its holdings of master drawings. Other major collection areas include international ceramics, European paintings, and Asian, African, and Oceanic art. The Museum serves as the primary regional resource for the study and appreciation of fine art and offers a diverse spectrum of exhibitions, events, and programs to augment its collections, including films, concerts, studio classes, lectures, children's activities, and more.

- Entertainment Services: The Entertainment Services Division manages all entertainment-related permitting—including film, special events, and entertainment venues—through a centralized, citywide approach. The division serves as a single point of entry for applicants, supporting the safe and successful production of entertainment activities while minimizing community impacts. In addition to permitting, the division works to attract and support entertainment activity across Sacramento, contributing to the City's cultural vibrancy, social connectivity, and local economy.

- Fairytale Town: Fairytale Town is a nonprofit storybook park and education center that provides children and families with opportunities for imaginative play and early learning. The organization serves more than 250,000 visitors annually and operates the Sacramento Adventure Playground in South Sacramento, where approximately 7,500 youth participate in hands-on exploration experiences each year.

- History: The Center for Sacramento History (CSH) serves as the official repository and research center for City and County historical collections. The Center collects, preserves, and provides access to the region's cultural heritage for researchers, students, and the public. CSH also manages leases within the Old Sacramento Waterfront Historic District, supporting property maintenance in partnership with Administrative Services. CSH leads historic district interpretation and programming. It also supports exhibitions and interpretive programming and produces educational programs and events that connect residents and visitors to Sacramento's history.

- Museum of Science and Curiosity: The SMUD Museum of Science and Curiosity (MOSAC) provides informal science education for audiences across Sacramento and the Northern California region. Through interactive exhibits, educational programming, and a digital dome theater, the museum engages visitors in science, technology, engineering, arts, and math (STEAM). Exhibits and programs address topics such as sustainability, energy, water, space, and early

learning, supporting curiosity, education, and workforce awareness.

- Office of Arts and Culture: The City of Sacramento's Office of Arts and Culture (OAC) leads the City's efforts to support, promote, and advance arts, culture, and creativity. In partnership with City and civic partners, OAC advances a vibrant and just creative economy guided by *Creative Edge: Sacramento's Arts, Culture, and Creative Economy Plan*. OAC manages creative economy grantmaking and educational programs, as well as the City's Art in Public Places program, Poet Laureate program, Emerging Curators Fellowships, and cultural tourism initiatives. OAC also serves as a resource on the state and impact of Sacramento's creative economy.

- Sacramento History Museum: The Sacramento History Museum is dedicated to sharing and making accessible the stories of Sacramento's culturally rich and diverse communities. The Museum explores the stories of the area's first inhabitants, from the Indigenous peoples who originally lived here, to the thousands of immigrants who came from around the world to seek their fortune in California's gold fields, creating the "indomitable city". With engaging educational programs serving thousands of students each year, public programming and tours of The Old Sacramento Waterfront District, innovative social media, and immersive exhibits, the Museum brings the history of Sacramento's people, places, and events to life for over 50,000 visitors each year.

- Sacramento Zoo: The Sacramento Zoo is a major regional attraction, serving approximately 500,000 visitors annually. The Zoo cares for more than 300 animals and features diverse botanical collections and specialized gardens. Through exhibits, conservation efforts, and educational programming, the Zoo provides opportunities for learning, recreation, and tourism.

- SAFE Credit Union Convention and Performing Arts District: Located in the vibrant core of downtown Sacramento, the SAFE Credit Union Convention and Performing Arts District encompasses three

premier facilities: the SAFE Credit Union Convention Center, SAFE Credit Union Performing Arts Center, and the historic Memorial Auditorium. Together, these venues provide a versatile and dynamic environment capable of hosting a wide spectrum of events, including large-scale conventions, trade shows, sporting competitions, educational seminars, theatrical productions, concerts, comedy performances, commencement ceremonies, weddings, and formal galas. The SAFE Credit Union Convention and Performing Arts District serves as a central hub for cultural, business, and community gatherings, offering state-of-the-art amenities and an exceptional experience for organizers, attendees, and performers alike.

PROGRAMS/SERVICE HIGHLIGHTS

- For the SAFE Credit Union Convention and Performing Arts District, a major focus this year was increasing activation across the district, with particular emphasis on the Memorial Auditorium, which plays a critical role in supporting the vitality of nearby restaurants, hotels, and businesses. To strengthen utilization, the District implemented a new promoter rebate program that has performed well and successfully re-engaged promoters who had previously reduced or paused activity in Sacramento. As a result, event days increased from 130 in 2025 to 179 in 2026, with strong momentum across several key segments, including touring entertainment, Latino performances, family and children's programming, sports, and community-based events.

- The Center for Sacramento History produced several programs and events in the past year. In September 2025, the Center activated the Jean Runyon Little Theatre inside Sacramento's iconic Memorial Auditorium with a speaker engagement delivered by historian Dr. Beth Lew Williams about the history of anti-Chinese discrimination in California. Days later, the Center hosted a successful film screening highlighting its partnership with the California Revealed project, showcasing efforts at preserving important film footage. Together, these events drew over 350 guests to this cultural asset. In October, the annual Archives Crawl invited over 300 attendees to engage with exhibitions of original historical resources. This spring, the Center continued its partnership with the Sacramento County Office of Education and served 250 students at the National History Day competition. Throughout the year, the Center was present at over a dozen additional community events, reaching out to the community and making lasting connections.

- The Center for Sacramento History continued to share the history of the region through several unique projects. The Center produced and unveiled a series of

interpretive upgrades in Old Sacramento and its vicinity in the summer of 2025. Interpretive panels in the historic district invite visitors to learn about the events that shaped the area throughout the Gold Rush era, while upgrades to the Theodore Judah monument provide context and tell the story of the transcontinental railroad in a visually appealing setting. The Center collaborated with the Shingle Springs Band of Miwok Indians to produce interpretive panels along the Riverfront Promenade south of Tower Bridge, which tell the stories of our relationship to the rivers. Additionally, the Center's History of Racism film series continues to be used in schools and universities throughout California.

- OAC continued to advance the goals of the Creative Edge Plan. With American Rescue Plan Act (ARPA) funding: the Creative Growth Fellowship program awarded $2.04 million to 200 Sacramento artists to support their artistic practice and career development; the EveryDay Creative partnership with CLTRE continued to support Sacramento creative entrepreneurs and businesses with access to mentorship, training, storefront access, and direct financial support; an Arts Journalism Grant to Solving Sacramento continues to increase public awareness and engagement with arts and cultural activities, tell the story of the city's creative economy, and promote diversity in journalism. With General Funds and support from the California Arts Council as the Sacramento County-designated local arts agency, OAC awarded $98,153 in general operating support to 25 local arts and cultural organizations throughout the County through the Small Organization Sustainability Fund. Seventy-two larger arts organizations continued to receive support through the General Fund and Sacramento County funded 2025-2027 Cultural Arts Awards. Arts in Public Places continues to support a number of both City and community-initiated public art projects, including collection management, maintenance planning, and increased visibility and access to the collection.

- The Entertainment Services Division (ESD) continued to expand its services through targeted outreach, training, and program development. The Film Office established a $250,000 film incentive to attract major productions to Sacramento, while continuing to support local filmmakers through grant funding. ESD launched an outreach campaign for the new limited entertainment permit in partnership with Economic Development, providing guidance to applicants and promoting the availability of permit fee credits. The division also developed and delivered a training series for special event permit applicants, with two well-attended sessions that received positive feedback. Recordings of both the limited entertainment permit outreach and special event trainings were made available on the ESD website as ongoing resources. To date, the division has issued 409 special event permits covering 1,024 event dates, along with five new entertainment permits, 10 renewals, four limited entertainment permits, and 18 permit modifications. Approximately 70 film permits are expected to be issued.

- The City's nonprofit partners collectively welcomed hundreds of thousands of visitors, supported school outreach and out-of-school programs for thousands of

youths, and developed new programs, exhibits, and activities to make programming more accessible and reflective of the City's rich diversity of residents.

- The Crocker Art Museum served more than 204,000 visitors in FY2024/25, with 26% benefiting from free admission programs. The Museum engaged 23,452 students through onsite and in-school programs, including the Art Ark mobile museum and Crocker-To-Go, reaching 36 schools across the region. Over the year, the Museum presented eleven exhibitions, including six organized by the Crocker, featuring a diverse range of artists and collections—from local artists such as Raul Gonzo to contemporary Indigenous artists Cara and Diego Romero. The Museum also hosted the ¡Descubra! Free Family Festival in collaboration with the Smithsonian Museum of the American Latino. The Crocker contributed to the regional creative economy by engaging more than 1,100 artists, performers, and community partners through exhibitions, public programs, and acquisitions.
- Fairytale Town welcomed more than 200,000 visitors, conducted 115 educational classroom visits with live animals, and provided learning opportunities for approximately 700 summer camp participants.
- The SMUD Museum of Science and Curiosity (MOSAC) welcomed more than 168,000 visitors and served over 37,000 youth through field trips, camps, and school and scout programs.
- The Sacramento History Museum partnered with local cultural organizations to develop community-driven exhibitions that reflect the diversity of the Sacramento region. The Museum offered free public programming and admission days and participated in initiatives such as Museums for All, Discover & Go, and Blue Star programs, expanding access for a wide range of audiences.
- The Sacramento Zoo, with approximately 12,000 member households, welcomed roughly 500,000 visitors over the past year. Educational programming included field trips serving more than 50,000 children and adults, as well as ZooMobile visits that reached over 3,000 students in local schools.

DEPARTMENT EFFICIENCIES

- OAC continued to develop more consistent approaches to grantmaking and public art commissioning processes, including improved evaluation rubrics and enhanced support for applicants and panelists (including recruitment, intake, training, and adjudication). An internal working group advanced efforts to streamline and strengthen the division's marketing and communications strategies. The division also continued efforts to better document administrative, financial, and programmatic processes, while initiating new work to improve clarity and efficiency in city arts-related policies and procedures.

- Fairytale Town bolstered its weekend live performances in the Children's Theater thanks to a partnership with NorCal Arts; served record numbers in summer camp

sessions while also introducing a spring camp program; and finalized plans for a new playset introducing a Chinese folk figure into the park.

- The SAFE Credit Union Convention and Performing Arts District conducted a comprehensive review to identify opportunities for workflow improvements, streamline responsibilities, and strengthen organizational alignment. As part of this evaluation, they also developed a structured career ladder designed to support employee growth, enhance internal skill development, and create clear pathways for promotion. These initiatives not only generate measurable budget savings through increased operational efficiency but also expand their capacity to complete a greater number of projects in-house. By reducing their reliance on external contractors, they were able to improve turnaround times, maintain higher quality control, and further reinvest savings into staff development and departmental resources.

- The Entertainment Services Division began development of an online permitting portal to provide a more efficient and streamlined approach to processing film, entertainment venue, and special event permits. The Division also completed a request for proposals (RFP) for a new website and communications plan to create a centralized resource where applicants can access comprehensive information and services for all three permit types. A vendor has been selected, and contract execution is forthcoming.

OBJECTIVES FOR FY2026/27

- Promote the SAFE Credit Union Convention and Performing Arts District by exploring innovative business strategies and cultivating meaningful community partnerships that broaden facility usage and enhance neighborhood vibrancy. Through the implementation of the District's new sale structure and promoter incentive program, they will build on last year's momentum to increase activations across the district, strengthen community engagements, and attract a more diverse range of events. These efforts will support higher transient occupancy tax (TOT) collections, generate greater economic impact on the city, and reinforce the SAFE Credit Union Convention and Performing Arts District as a dynamic hub for entertainment, culture, and local connection.

- The Center for Sacramento History and the SAFE Credit Union Convention and Performing Arts District will collaborate to produce programming celebrating the Memorial Auditorium's 100th anniversary, to include events in February 2027 and a summertime music-themed exhibition featuring items from the Center's Tower Records collection.

- A new Native American-themed children's play area will be unveiled in the Old Sacramento Waterfront Historic District through a collaboration of City staff and community partners.

- OAC will continue to partner with the Arts, Culture, and Creative Economy Commission to advance the goals of the Creative Edge Plan; complete American Rescue Plan Act support for the creative economy; and deliver projects and initiatives supporting creative entrepreneurs and small businesses, individual artists and culture bearers, and arts organizations of all sizes, as well as arts journalism and creative venues across the city. OAC will also continue efforts to deepen strategic partnerships, advance cultural tourism, and implement major projects and long-term planning through the Art in Public Places program. The division will introduce professional development programming aligned with community-identified learning objectives and explore initiatives addressing arts education and lifelong learning, facility and space challenges, and the intersection of arts, health, and wellbeing. OAC will work with internal and external partners and community members to advance the City's race, gender, cultural equity, and accessibility goals, and to further shared priorities.

- The Entertainment Services Division plans to launch a new online permitting portal in FY2026/27. Outreach and training will be provided across all permit types to support applicants and internal City users in navigating the new system. A new website will also go live, featuring an enhanced special event permit guide. Special event trainings will continue on a semi-annual basis. The Division will also begin reviewing outdated City code across all three permit types and initiate updates to better reflect current practices and address challenges in the permitting process.

Work with nonprofit partners to advance the City's broader race and cultural equity objectives, streamline engagement with City offices, and further shared goals.

- **Crocker Art Museum:** The Crocker Art Museum is beginning work on a long-range strategic plan that will guide the institution over the next three to five years. As part of this process, the Museum will engage City representatives and community members to help inform its future direction and strengthen its regional impact. Efforts will also focus on integrating the Museum's new Director into the community.
- **Fairytale Town:** Objectives for the coming year include planning new playsets that introduce cultural influences not yet represented; expanding programming to serve older children; and strengthening community connections through multilingual outreach and new partnerships with multicultural organizations.
- **Sacramento History Museum:** The Sacramento History Museum will continue to cultivate partnerships with local cultural and historical organizations to share the stories of the people and events that shape the Sacramento region through exhibitions and free public programming.
- **Sacramento Zoo:** As the Sacramento Zoo approaches its centennial in 2027, it will continue working with the City to explore opportunities for additional space needed to support its long-term growth and service to the community.

BUDGET AND POSITION CHANGES

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
History	Delete three positions (1.2 FTE - Marina Aide) in the History Division. No service impact due to decreased dock traffic.	Measure U	-	(45,663)	(1.20)
History	Change funding source for McClellan rent payment from Measure U fund (Fund 2401) to the Community Center fund (Fund 6010). Facility provides storage for materials to support exhibitions, research, and public access.	Measure U	-	(180,000)	-

PERFORMANCE MEASURES

Convention Center Complex Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Total events and performances	393	380	384	400	420
Number of tickets sold	129,766	237,409	216,789	216,078	226,881

The SAFE Credit Union Convention and Performing Arts District provides both ticketed and free events to the public. It is home to local arts groups Broadway Sacramento, Sacramento Ballet, Sacramento Choral Society and Orchestra, Sacramento Philharmonic and Opera and Sacramento Speaker Series. The Performing Arts Center has played host to touring shows such as Wicked, Frozen and Hadestown; concerts such as Bonnie Raitt and John Mellencamp; comedians such as David Spade, Fortune Feimster and Brett Goldstein; and speakers such as Malala Yousafzai and Dr. Anthony Fauci.

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Total revenue of in-house vendors	$12,908,515	$14,705,193	$19,064,317	$20,017,533	$21,018,409

The SAFE Credit Union Convention Center has followed the industry's best practices in securing contracts with in-house service providers. Currently, the City has contracts with Sodexo Live! as the exclusive food and beverage services provider, Encore as the preferred audio-visual services provider, and exclusive rigging services provider and Smart City Networks as the exclusive telecommunications service provider.

Crocker Art Museum Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Attendance	187,324	181,475	204,701	216,500	222,000
Membership	12,253	11,864	11,576	12,000	12,250

The Crocker Art Museum serves as a regional hub of art and culture and offers a diverse spectrum of exhibitions, events, and programs to augment its world-class collections. Public programs include free family festivals, films, concerts, studio classes, lectures, children's activities, and more. Attendance figures reflect the exhibition and programmatic schedule. The Museum continues to work to rebuild attendance and membership loss following COVID-19 closures.

Center for Sacramento History Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of Researcher Interactions (In Person, Online, By Phone)	665	750	545	456	500
Number of Users Accessing Online Records	207,398	325,219	351,628	568,750	400,000

The Center for Sacramento History (CSH) holds original, historical public records from the City and County. These records are an essential resource for accurate information about the Sacramento region's past and play a key role in reflecting the development of our city and our legal system. We provide access to these records in-person and virtually to the public and researchers of all types, including students, genealogists, and historians. They use these records for their own personal research, for academic study, for environmental and preservation purposes, to publish books and papers, and to produce films and television series. Over the last 10 years, we have dramatically increased access to our collections by placing collection guides and digitized material on the Online Archive of California and Archive.org, both national databases that have opened us to an ever-growing audience. By providing prompt and accurate research and response, CSH has facilitated the use of Sacramento film and photographic collections in both mainstream and independent films shown on HBO, CNN, NBC, Netflix, and local news agencies, serving to raise the profile of our city nationally and internationally. CSH responds to research requests virtually, and in-person research. Thanks to the increase in CSH materials and collection guides available online, our public usage continues to increase.

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of items listed in collection's databases	132,515	154,393	136,916	137,000	138,000

The Center for Sacramento History's inventory consists of the following types of catalogued items: artifacts; photographs; government, business, and organizational records; personal and family manuscripts; audio, film, and video; and digital objects. These all tell the story of the Sacramento region. Each year we increase the amount of collection material available online. Following the reopening of the Center as the pandemic eases, we can utilize the work of students and volunteers again to digitize at a more consistent rate. Now, thanks to a grant from the County, we can digitize our extensive television film collection in-house with new digitization equipment and students to complete the work.

Entertainment Services Division

Film and Media

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of Permits Issued	73	80	42	70	75
Number of Film Days	159	143	67	80	85
Total Amount of Production Company Spending in Sacramento	$2,005,342	$6,469,485	$1,724,975	$900,000	$1,500,000
Number of Local Hires	411	929	427	400	500
Number of Hotel Nights	836	4,347	1,573	600	800

Sacramento Film + Media carries out film permitting, promotes the City as a filmmaking destination, and serves as a general resource for, and a driver of, film and media industry development in the City of Sacramento. Sacramento Film + Media measures its progress through the number of film permits, hotel nights and extended stays, local hires and film production spend in the City.

Office of Arts and Culture Division

Public Art Program

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of exhibitions produced	4	4	4	4	4
Number of artworks conserved, maintained, or repaired	10	8	8	8	8
Number of public art projects completed (installed)	2	20	5	5	15
Number of permanent public art projects in progress	21	20	17	17	5
Special events, workshops, lectures	10	10	10	22	10

The Art in Public Places program is funded through an ordinance that requires at least two percent of eligible City capital improvement project budgets to be set aside for public art. Several of the objects in the City public art collection have been recognized nationally. The number of projects in progress may vary significantly year-to-year based on funding for new construction. Project timelines are generally multi-year and undergo an extensive public process of artist selection, community input, and oversight by Arts Commission staff. Gallery exhibitions are also produced as part of the program. The City public art collection includes more than 450 objects. Public artworks that are maintained or conserved year-to-year may vary due to funding and/or project complexity.

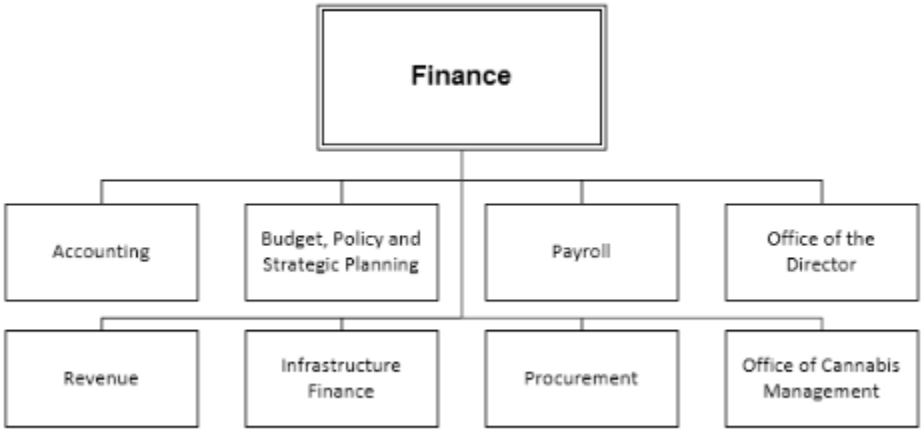
Any Given Child Program

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of arts education school assemblies organized	50	148	50	100	150
Number of participants reached through above events	17,500	32,500	17,500	32,000	35,000
Number of professional development events for artists and classroom teachers	6	8	10	10	10
Number of artists and classroom teachers served in professional development	61	220	265	300	300
Number of students served in six- or 10-week residences	3,710	4,320	4,445	4,750	5,000

A program developed by the John F. Kennedy Center for Performing Arts, Any Given Child, provides equitable access to arts education experiences for K-8 students during the school day. Services offered under the program include in-class arts residencies, school assemblies delivered by local arts organizations, and professional development workshops for teachers, school administrators, and artists. The structure of the fees-for-service menu distributed to participating school districts changed. Districts now purchase a specific number of Teaching Artist Residencies, Arts Exposure Events (assemblies), and seats at Professional Development workshops, to be used throughout the year.

Cultural Arts Awards (CAA) Program

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of Cultural Arts Award (CAA) grantees	66	64	63	72	75
CAA grant allocation	$933,905	$902,164	$890,520	$926,276	$950,000
In Person Attendance	1,466,952	1,525,347	Not yet available	Not yet available	Not yet available
Digital Attendance	690,702	88,843	Not yet available	Not yet available	Not yet available
Total Expenditures	$123,259,317	$92,726,894	Not yet available	Not yet available	Not yet available
Total Paid Positions (FT, PT, Independent Contractors)	3,559	3,296	Not yet available	Not yet available	Not yet available



The Cultural Arts Awards (CAA) grants program offers general operating support for nonprofit arts and cultural organizations. The CAA grant is funded by both the County and City of Sacramento. Data on in-person attendance, digital attendance, total expenditures and total paid positions comes from SMU Data Arts through the Cultural Data Project profile that organizations complete annually.

Finance

Finance

The mission of the Finance Department is to educate, inform, and provide excellent internal and external customer service with integrity, efficiency, and quality.

The **Finance Department** is responsible for overseeing the financial management of the City. The Department currently provides accounting, billing, budgeting, collection, infrastructure finance, parking citation, payroll, procurement, and revenue collection services. Internal services and programs include strategic planning and policy analysis.

- Accounting: Responsible for providing oversight for the system of internal controls to safeguard City assets and preparing annual financial statements.
- Budget, Policy, and Strategic Planning: Responsible for the development and preparation of the annual operating budget, five-year capital improvement program, midyear budget report, and quarterly financial reports. Supports the Council, charter offices, and operating departments with budgeting, financial support, forecasting, analysis on special projects, and labor negotiations.
- Infrastructure Finance: Responsible for the formation and management of financing plans, assessment districts, tax districts, infrastructure financing districts, and fee districts for development and the continuance of services in support of goals to achieve sustainability and enhance livability.
- Office of the Director: Responsible for enhancing and maintaining the fiscal stability of the city.

- Payroll: Responsible for issuing bi-weekly paychecks for active employees, monthly paychecks for SCERS retirees and for maintaining and monitoring internal controls to ensure transactions comply with current labor agreements, payroll policies, and state and federal laws and regulations.

- Procurement Services: Responsible for the development, implementation, and compliance with citywide policies for the acquisition of goods and services through competitive bidding, as well as contract and purchase order administration.

- Revenue: Responsible for the administration, compliance, and collection of citywide invoices, special business permits, parking permits, and tax revenue streams.

- Office of Cannabis Management (OCM): OCM coordinates cannabis-related policy, administrative procedures, and community outreach by managing the permitting process, coordinating across departments to ensure the safe and legal operation of cannabis in the City, and managing the local cannabis social equity program (also known as CORE).

PROGRAMS/SERVICE HIGHLIGHTS

- Led the Citywide budget development process.

- Provided ongoing labor negotiations costings and representation at the table for all of the City's eleven recognized employee organizations (REOs). Worked with Labor Relations to help them renegotiate three-year terms with several REOs.

- Updated the Capital Improvement Program to incorporate unfunded capital and deferred maintenance needs, which is best practice.

- Maintained full functionality and customer service levels, fast turnaround times for purchase order dispatching, and prompt payments to employees and vendors.

- Managed $67 million of special district revenue to construct and maintain infrastructure, support business districts, and increase tourism within the city. Administered the collection and distribution of tax increment revenue for the Aggie Square EIFD and continued to support OIED in efforts to expand the Railyards EIFD. Oversaw the adoption of a new Public Facilities Finance Plan for the Airport South Industrial project and the updated Delta Shores Finance Plan. Assisted in the renewal of the Downtown and 16th Street PBIDs.

- Completed implementation of the new citywide point-of-sale (POS) cashiering system that will accept payments for most services, programs, fees, and charges. City departments that collect revenue using in-person or online payments utilize a variety of software applications that impact cashiering operations. This system will streamline the process and ensure transactions are recorded properly in the Citywide financial system.

- Conducted an in-house fee study for special business permit fees managed by the Revenue Division, ensuring full cost recovery of the permit programs.

- Issued over 134,000 payments to employees and retirees.

- Awarded over $1.1 million in grants to CORE cannabis businesses.

- Received $4 million in permit revenue from 161 cannabis Business Operating Permits (BOP) issued, including both new and renewal applications.

- Conducted studies to analyze both the market and the Cannabis Equity program (CORE) for cannabis industry feasibility, sustainability, and barriers to entry.

- OCM will be hosting the CORE Summit 2026 (May 6-7). A two-day, cannabis equity-centered conference that will convene social equity operators, municipal and state regulators, advocates, and other cannabis stakeholders to advance education, collaboration, networking, and sustainable participation within Sacramento's regulated cannabis market.

DEPARTMENT EFFICIENCIES

- Implementation of an online appointment scheduling application for cashiering appointments and cannabis business tax payments.

- Executed the first holistic update to the procurement code in over a decade, creating Citywide efficiencies.

- Developed and implemented an ordinance to collect Sacramento Tourism and Marketing District fees directly from short-term rental platforms ensuring collection and reducing administration for short-term rental operators.

- Optimized the use of districts and finance plans to build priority public improvements, fund services, and encourage private investment in the City.

- Streamlined internal procurement processes and procedures using best practices to eliminate redundancies, increase staff effectiveness, and improve transparency.

- Scanned and indexed images of cash receipts, allowing City staff to access electronic images of cash receipt documentation.

- Implemented an appointment scheduling process for customers requesting payment plans for parking citations, increasing efficiency of customer experience at the public counter.

OBJECTIVES FOR FY2026/27

- Oversee updates to the River District and Central City Finance Plans to assist the Planning Department in efforts to amend the Specific Plans. Establish financing structures to facilitate development of Innovation Park (former Sleeptrain Arena site) and the Railyards. Assist the City Treasurer's Office in efforts to issue CFD Special Tax Bonds for the Aggie Square and Greenbriar developments.

- Implement new accounting and financial reporting standards including Governmental Accounting Standards Board (GASB) Statements No. 101 – Compensated Absences.

- Completing the Annual Comprehensive Financial Report, Sacramento City Employees' Retirement System Report, Measure U Sales Tax Performance Report, Transportation Development Act Report, Independent Accountant's Report on Applying Agreed-Upon Procedures Related to the Article XIII-B Appropriations Limit Calculation Report and Single Audit Report with no audit adjustments and/or material findings from external auditors.

- Provide departments and fund managers with the tools necessary to forecast labor growth, especially as it relates to retirement and other post-employment benefit costs.

- Provide departments with the necessary resources to streamline procurement functions. In addition, complete research to improve citywide processes and ultimately create efficiencies and initiate money-saving strategies.

- Automate retro-pay process in eCAPS HCM to eliminate manual review and process retro-pay to employees in a timely manner.

- Transition from mailing documents such as account statements and invoices to electronic delivery, encouraging sustainability and efficient payment processing.

- Implement a web module for the Citywide cashiering system, increasing online payment access for customers.

BUDGET AND POSITION CHANGES

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Accounting	Delete one position (1.0 FTE - Account Clerk II) in the Accounting Division.	General Fund	-	(74,697)	(1.00)
Accounting	Delete one position (1.0 FTE - Account Technician) in the Accounting Division.	General Fund	-	(78,163)	(1.00)
Accounting	Increase revenue budget in Escheat to align with projections.	General Fund	(90,000)	-	-
Receivables and Collections	Increase revenue budget in Receivables and Collections to align with projections. Late and delinquent payment penalties are now charged at a percentage of amount owed instead of a flat rate.	General Fund	(305,364)	-	-
Permits and Taxes	Increase revenue budget for Permits & Taxes to align with projections.	General Fund	(30,000)	-	-
Public Improvement Finance	Increase revenue budget in Infrastructure Finance to align with projections.	General Fund	(25,000)	-	-
Office of Cannabis Management	Delete one position (1.0 FTE-Accountant Auditor) and add one new position (1.0 FTE - Administrative Analyst) in the Office of Cannabis Management.	General Fund	-	1,890	-
Revenue Services	Add one position (1.0 FTE - Customer Service Representative) and establish offset. This is related to the Public Works' modified Residential Permit Parking program fee increase.	General Fund	-	3,969	1.00
		Total Change	**(450,364)**	**(147,001)**	**(1.00)**

PERFORMANCE MEASURES

Accounting Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percent of vendors paid within 30 days	81%	84%	85%	80%	80%
Number of days for Accounting to review and approve a vendor invoice and process a payment	4	4	4	4	4
"Prompt Payment" discounts taken	112,162	132,000	239,519	150,000	150,000
"Prompt Payment" discounts lost	18,789	30,000	20,979	15,000	15,000
Percent of discounts taken	88%	73%	93%	90%	90%

Review and approval of vendor payments is centralized to ensure consistency with generally accepted accounting principles and the City's procurement policies. Timely vendor payments fulfill the City's obligations relative to contract compliance and in some circumstances allow the City to take advantage of prompt payment discounts. The Accounts Payable Automation Project is expected to improve the timeliness of vendor payments.

Finance Administration Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Obtain unmodified audit opinion on Annual Comprehensive	Yes	Yes	Yes	Yes	Yes
Obtain Government Finance Officers Association Certificate of Achievement for Annual Comprehensive Financial Report	Yes	Yes	Yes	Yes	Yes
Proposed balanced budget presented to City Council 60 days prior to the beginning of the fiscal year	Yes	Yes	Yes	Yes	Yes
Obtain California Society of Municipal Finance Officers Operating & Capital Budgeting Awards	Yes	Yes	Yes	Yes	Yes

Delivering timely and quality financial planning and reporting documents is important to the City's goals of transparency and prudent financial management.

Procurement Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of days for Procurement Services to review a requisition and issue a purchase order	3	3	3	3	3

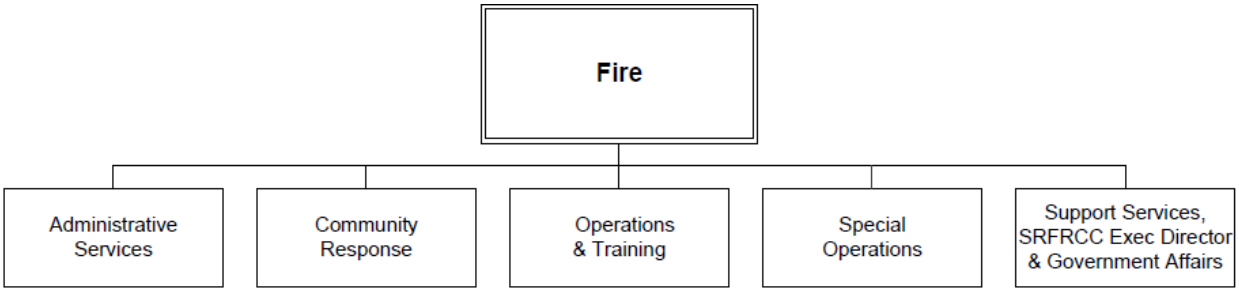
Issuing centralized purchase orders ensures compliance with the City's procurement policies and procedures. Timely review and issuance of purchase orders is critical in fulfilling the program and service delivery needs of Departments.

Revenue Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of business operations tax certificates issued	18,933	21,586	21,500	22,000	22,000

Collection of revenues associated with the provision of specific programs and services reflects prudent financial management and is necessary to achieve the resources included in the City's annual budget. Invoices unpaid for 30 days or longer are considered delinquent. Collection efforts on delinquent invoices are initiated centrally by the Revenue Division to recover funds owed to the City for services provided.

Office of Cannabis Management



Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of permits issued	-	-	-	293	300
Number of grants issued	-	-	-	68	70

SECTION - 18
Fire

Fire

Committed to excellence in enhancing and protecting life, property, and the environment.

The **Fire Department** started serving the residents of Sacramento in 1850 as a volunteer organization. On March 30, 1872, the Department became the first paid professional fire department west of the Mississippi River. Today's all-hazard response includes fire suppression, emergency medical response, hazardous materials incidents, and specialized rescues, such as water, vertical, and confined space. The Department provides emergency services, fire code enforcement, public education, and fire investigations. The Department also manages the Office of Emergency Management, which coordinates disaster response, mitigation, preparedness, and recovery efforts Citywide.

- Office of the Chief: Responsible for developing and providing direction for the Department.
- Administrative Services: Responsible for departmental support of the budget, revenues, accounts payable, procurement, contracts, council reports, and grants. Provides personnel services including hiring, payroll, workers' compensation, and testing.
- Fire and Emergency Medical Services (EMS): Deliver emergency response services that protect life, property, and the environment across Sacramento and contract service areas. Operating from 24 stations, highly trained firefighters respond to more than 100,000 annual calls, including medical emergencies, fires, hazardous materials incidents, technical rescues, and water emergencies. The Division manages frontline resources—24 engines, 9 trucks, and specialized rescue, hazmat, and marine units—ensuring rapid, coordinated response across 146 square miles serving over 500,000 residents. Guided by the Department's mission and core values, operations personnel provide professional, compassionate service

	while upholding honor, respect, courage, integrity, and devotion to duty.
• Support Services:	Provides essential support functions to all divisions, which includes acquisition and repairs of necessary equipment, and information technology; coordination of all facility maintenance, repairs, and construction; and fleet maintenance, repairs, and acquisition.
• Fire Prevention:	Enforces codes and ordinances related to fire and life safety issues, completes plan reviews and conducts inspections of construction projects, coordinates annual life safety inspections of commercial buildings, and investigates fires.
• Office of Emergency Management (OEM):	Responsible for the coordination of preparedness, response, recovery, and mitigation efforts to protect lives, property, and the environment from natural and human-caused disasters. OEM is involved in multi-agency planning, training, and emergency operations to ensure a unified and resilient Sacramento response before, during, and after incidents.
• Training/Professional Standards:	The Training Division ensures Sacramento Fire Department personnel maintain the skills and competencies needed to safely and effectively serve the community. It oversees recruit academies, ongoing company training, leadership development, and specialized instruction in fire operations, EMS, hazardous materials, technical rescue, and incident command. Through rigorous programs, realistic exercises, and adherence to state and national standards, the division prepares members for complex, high-risk environments while sustaining operational readiness. It also supports professional growth and continuous improvement to strengthen performance and uphold the Department's commitment to innovation, accountability, and service excellence.

PROGRAMS/SERVICE HIGHLIGHTS

- The Sacramento Fire Department (SFD) responded to 106,985 incidents, a 2.3% decrease in call volume compared to the prior year. Even with purposeful call-reduction, over the last six years, the Department has experienced an 11.4% increase.
- Keeping the public informed on multiple media platforms, including local media outlets, being responsive to media inquiries and informing of emergencies and events within the community.
- Investigated 433 fires where 42% of fires investigated were incendiary in nature, leading to a 28% arrest rate.
- Implementation of the Fire Service Paramedic and Fire Service Emergency Medical Technician (EMT) Program.
- Implementation of National Emergency Response Information System (NERIS) fire reporting in Image Trend software – a records management and reporting software vendor widely used in Fire/EMS.
- Through partnership and support from community-based organizations and neighborhood leaders, SFD applied for and will receive $1.27 million in grant funds from the California Employment Development Department.

DEPARTMENT EFFICIENCIES

- The EMS Division consistently fulfills federal, state, and county requirements for reporting, training, education, incident review, and infection control.
- Collaborated with regional EMS partners to develop a strategy for managing EMS-related incidents based on urgency and severity.
- Collaborated with the Fleet Division to ensure the management of the fire equipment replacement cycle while addressing supply chain and vehicle parts issues.
- Selected and hired a new Health and Wellness Coordinator to provide ongoing preventative program design and Return-to-Work (RTW) programming for the members of Sacramento Fire.
- The SFD continues to recruit community members for EMT, while we also have an upgrade program for current EMTs to Paramedic. This upgrade program helps make our program more diverse as well.
- The SFD continues to work closely with the Regional Fire Diversity Advisory Board to establish new methods to connect with community members who have never explored a career in the fire service.

- The SFD chairs the Regional Fire Diversity Advisory Board and continues to develop relationships with learning institutions, community-based organizations, and veterans who may not have traditionally thought of the fire service as a career.

OBJECTIVES FOR FY2026/27

- Explore opportunities to modernize our service delivery and replace aging assets.
- Expand the scope of work and staffing of the Health and Wellness Coordinator to provide therapeutic interventions, preventative maintenance, and limit worker's compensation impacts and loss-of-duty time.
- Work closely with the Regional Fire Diversity Advisory Board to establish new methods to connect with women who have never explored a career in the fire service.
- Continue to work towards establishing a greater connection with our community-based organizations (CBOs), neighborhood leaders, and organizations to fortify the Department with new members from our community interested in public safety careers.
- Continue evaluations of all divisions to determine cost-effective measures to provide good community service.

BUDGET AND POSITION CHANGES

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Fire Suppression	Delete nineteen vacant Fire Suppression positions (19.0 FTE Firefighters) and offset thirteen Fire Suppression positions (13.0 FTE Firefighters) with Emergency Medical Transport fees to reduce costs. The department will implement dynamic staffing.	General Fund	-	(5,391,783)	(19.00)
Fire Prevention Service	Add four positions (1.0 FTE Senior Fire Prevention Officer and 3.0 FTE Fire Prevention Officer II) to Fire Prevention and increase corresponding operating budget revenue.	General Fund	(1,229,420)	767,783	4.00
Fire Prevention Service	Increase revenue budget for Fire Prevention – Permit and Code Enforcement. Revised fee revenue projection for FY2026/27 from the approved May 2025 Fee Study.	General Fund	(1,307,551)	-	-
Diversity/ Outreach/ Recruitment	Delete one position (1.0 FTE - Assistant Chief).	Measure U	-	(297,150)	(1.00)
Support Services	Increase revenue budget for the Emergency Medical Services (EMS) Division to incorporate the Voluntary Rate Range Program (VRRP).	General Fund	(4,800,000)	-	-
Support Services	Increase revenue budget in the Emergency Medical Services (EMS) Division to recognize the Advanced Life Support (ALS) projected increase.	General Fund	(944,560)	-	-
Fire Suppression	Delete 12 positions (12.0 FTE - Firefighter) and add 20 new positions (10.0 FTE – Sacramento Fire Paramedic and 10.0 FTE - Sacramento Fire EMT) for the second phase of the Single Role Program.	General Fund	(3,641,580)	115,804	8.00

BUDGET AND POSITION CHANGES (continued)

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Diversity/ Outreach/ Recruitment	Add two positions (2.0 FTE – Firefighter (Admin)) in the Diversity, Outreach & Recruitment program as part of a three-year grant agreement funded through the Children's Fund.	Measure U	(338,620)	338,620	2.00
Communications (SRFECC)	Increase funding for the mandated Sacramento Regional Fire/EMS Communications Center (SRFECC) Regional Contract.	General Fund	-	-	-
Support Services	Add one position (1.0 FTE - Firefighter (Admin)) for the Mobile Integrated Health (MIH) Program.	General Fund	(171,904)	171,904	1.00
Support Services	Add one position (1.0 FTE – Firefighter (Admin)) for the Mobile Crisis Unit.	General Fund	(171,904)	171,904	1.00
Support Services	Add two positions (2.0 FTE - Firefighter (Admin)) in the Emergency Medical Firefighter Medical Quality Assurance Team.	General Fund	(343,808)	343,808	2.00
Support Services	Increase funding for the Advanced Life Support (ALS) defibrillators equipment program.	General Fund	-	-	-
Fire Infrastructure	New Vehicle Purchase - Increase funding for Fire Department Fleet CIP (F12000300) for two fire engines and one fire ladder truck.	General Fund	-	782,000	-
Support Services	Add one position (1.0 FTE - Stores Administrator) in the Emergency Medical Services Division.	General Fund	-	278	1.00
Fire Suppression	Increase revenue budget to recognize the increase in Fire District Reimbursements from Pacific Fruitridge.	General Fund	(2,253,100)	-	-
		Total Change	**(15,202,447)**	**(2,996,832)**	**(1.00)**

MEASURE U

The following chart summarizes the Department's Measure U programs.

Funding Category	Program Name	FTE	FY2026/27 Proposed
Public Safety - Fire			
Operations	Diversity/Outreach/Recruitment	-	2,579,508
Grand Total		**-**	**$ 2,579,508**

PERFORMANCE MEASURES

Emergency Operations Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Average Response Time	5 minutes 30 seconds	5 minutes 30 seconds	5 minutes 30 seconds	6 minutes 30 second	6 minutes 30 second

The accepted national standard for response times is 5:00 minutes in an urban environment. Response time is defined by 4:00 minutes travel time plus 1:00 minute turnout time, which is the time from dispatch received until time leaving the station.

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Unit Hour Utilization (UHU)	0.45	0.45	0.51	0.47	0.45

The acceptable standard measurement of ambulance usage is UHU. UHU is the ratio of the number of hours spent delivering emergency medical services to the total number of hours the medic units are available. For example, a UHU of 0.50 indicates that a unit was utilized 50 percent of the total amount of time available throughout the year. A high UHU means lower availability for calls. Poor availability can negatively affect response times.

The ambulance industry has utilized the following general scale when evaluating overall UHU:

Unit Hour	Utilization Range
0.55-0.45	High Utilization
0.45-0.35	Above Average Utilization
0.35-0.25	Average Utilization
0.25-0.15	Below Average Utilization
0.15-0.01	Low Utilization

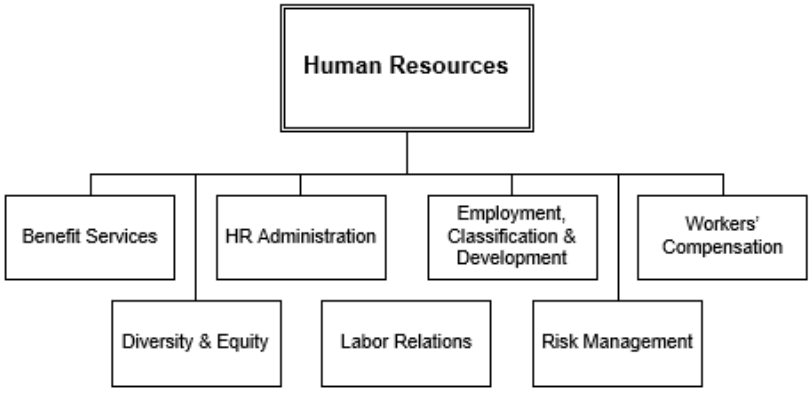
The Fire Department's goal over the next two years is to lower its ambulance UHU to an acceptable level while maximizing efficiency and capturing lost revenue. This will be accomplished by revamping the current emergency medical services (EMS) deployment model and adding needed resources. The Department will also continue to work with its EMS partners in the surrounding area to develop a priority-dispatch system that would distribute EMS calls according to the urgency and severity of the call, helping to further reduce UHU.

Fire Administration Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percent of Fire Plan Reviews Completed on Time	97.44%	95.00%	97.96%	98.42%	99.00%

The Division is responsible for performing fire plan review services. Over the last year, fire plan review services were on time at a rate of over 90 percent. Although this is an impressive statistic, the reality is that each customer expects their projects to be reviewed within our published turnaround times. Moreover, the Department is working on implementing an expedited plan review service (for customers willing to pay for a faster turnaround time).

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Development Services Fire Inspections Conducted	6,316	8,000	7,146	7,340	8,000



Fire Prevention conducts annual permit inspections as mandated by local and state code. These inspections are estimated to increase over the next year due to the number of new buildings constructed that will require annual fire permits. Due to a shift of personnel to work on development services inspections, the number of Annual Fire Permit Inspections conducted dropped.

19

SECTION - 19
Human Resources

Human Resources

The Department of Human Resources delivers programs and services to customers which results in a positive experience.

The **Department of Human Resources (HR)** delivers comprehensive programs and services that strengthen organizational effectiveness and workforce operations.

- Benefit Services: Provide employee and retiree benefit administration, employee benefit orientations, coordination of the Defined Contribution Plans Committee, and budgeting for the Department.
- HR Administration: Provide support for exempt hires, contracting support, board, commission, and legislative support, and special projects.
- Labor Relations: Provide employee contract negotiations, implementation of labor agreements, discipline, grievance administration, equal employment opportunity (EEO), Americans with Disabilities Act (ADA) coordination for employees, applicants, and program participants, employee leave administration, development and negotiations of city policies and procedures, and review all City contracts for services for AB 339 applicability and required recognized employee organization noticing.
- Employment Services: Provide employment services, recruiting, testing, classification and compensation studies, and position management.

• Risk Management/ Workers' Compensation:	Provide environmental health and safety, insurance, workers' compensation, and liability claims management.
• Diversity & Equity:	Provide ongoing support to departments to identify performance measures, evaluation methods, and application of equity lens for both internal and external equity efforts that align with department goals to advance the Race & Gender Equity Action Plan (RGEAP) and Sacramento Centered on Racial Equity (SCORE) Initiative. Provide ongoing consultation and training and technical support on equity, inclusion, and belonging to ensure alignment with and integration of all City equity efforts and SCORE deliverables.

PROGRAMS/SERVICE HIGHLIGHTS

- Transitioned eight retiree health reimbursement plans with over $28 million in assets to a new recordkeeper to reduce investment fees paid by plan participants and enhance administrative support to the City.
- Workers' Compensation managed 810 reports, including Exposures, First Aids, Incidents, Future Medical Care, Indemnity, and Medical Only claims, of which 342 were active claims requiring benefits for City employees and achieved a claim closing ratio of 103%, surpassing the annual goal of 100%, reducing financial impact, and ensuring timely employee care.
- Environmental Health and Safety (EHS) prioritized vehicle collision prevention by developing a collision heat map using Vehicle Collision Report data to identify geographic trends and high-risk locations. This allowed the team to take a more proactive approach to risk mitigation, support targeted training efforts, and strategically deploy safety resources where they were most needed. From July 2025 through February 2026, 194 employees completed the Smith System Defensive Driving training to strengthen defensive driving skills and help reduce the likelihood of future collisions.
- Employment Services launched Human Resources' social media presence to promote City job opportunities and highlight community outreach efforts, expanding visibility of City careers, increasing application volume, and helping attract a broader and more diverse candidate pool that better reflects the community we serve.
- Labor Relations engaged in successor labor agreement negotiations with eleven (11) Recognized Employee Organizations (REOs), completed the meet-and-confer process for nine (9) citywide and departmental policies, and implemented Citywide procedures for compliance with California Assembly Bill 339 for contract services.

- The Office of Diversity and Equity (ODE) expanded the Race and Gender Equity Action Plan (RGEAP) outcomes to include workforce equity and internal and external equity performance measures related to programs, services, and processes. ODE also facilitated ongoing capacity building for City department equity teams to learn and apply the Results-Based Accountability Framework (RBA) from Clear Impact, including use of the "Turn the Curve" strategy. Clear Impact's Scorecard dashboard is used to track and monitor equity-centered performance measures. In collaboration with the Racial Equity Committee, City Manager's Office, and Racial Equity Alliance, ODE developed the Sacramento Centered on Racial Equity Initiative (SCORE) Work Strategy and Plan. This plan serves as a living roadmap for the implementation of the deliverables outlined in the Operationalizing Racial Equity Resolution 2025-0354.

DEPARTMENT EFFICIENCIES

- Leave Administration implemented the software program AbsenceSoft to streamline the management of the Citywide Leave Administration program improving efficiency by centralizing and automating tasks that were previously handled through manual entry, emails, and spreadsheet tracking. The program improves cross-department coordination by providing designated departmental users with access to electronically submit and track employee leave information.

- The Workers' Compensation Unit utilized the new EHS Origami reporting system to analyze injury trends involving first responder on-duty workouts and training activities. By leveraging this data, the Unit was able to identify patterns, better understand areas of risk, and provide departments with more meaningful operational support. This data-driven approach helps inform safety discussions, guide targeted prevention efforts, and supports the development of a safer working environment for employees engaged in physically demanding public safety duties.

- EHS partnered with YPCE and the City's contracted medical provider to develop and implement a standardized guide for coordinating pre-employment mass medical exam events, improving communication, scheduling, and hiring efficiency, and event planning while supporting more direct collaboration with the provider.

- Employment Services launched the City's new onboarding platform to modernize and streamline the onboarding process, improve operational efficiency through automation and centralized workflows, enhance coordination between HR and departments, reduce administrative delays, and provide a more seamless, user-friendly experience for new employees as they transition into City service.

OBJECTIVES FOR FY2026/27

- Continue to refine recruitment, selection, and hiring processes to remove barriers, increase efficiency, and incorporate new and innovative approaches that strengthen our ability to attract and retain a diverse and highly qualified workforce.

- ODE to beta test and launch three Citywide equity efforts that will help City staff across departments to include an equity lens in decision-making: 1) Online Sac Equity Impact Planner & Assessment Tool, 2) Sac Equity Mapping Atlas, 3) Equity Impact Statement For Staff Reports.

- Implement a new Workers' Compensation Claims Administration system to enhance operational efficiency and improve the management of workers' compensation claims.

- The EHS team is implementing a new Learning Management System (LMS) to modernize the training experience and improve system functionality, reporting, and tracking. This transition will streamline administration, increase user engagement, and better support the organization's evolving training needs.

- Labor Relations will implement a *Skelly* Officer training program to expand the pool of qualified *Skelly* Officers and ensure timely pre-disciplinary hearings that provide appropriate due process for employees.

BUDGET AND POSITION CHANGES

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Employment Services	Delete one position (1.0 FTE - Senior Staff Assistant) and add one new position (1.0 FTE - Administrative Technician) in Employment Services.	General Fund	-	(11)	-
Labor Relations	Delete one position (1.0 FTE - Administrative Analyst) and add one new position (1.0 FTE - Personnel Analyst) in Leave Administration.	General Fund	-	(2,282)	-
Benefit Services	Decrease funding in Benefits Services through reductions in non-mandatory operational costs and department chargebacks for specialty I-9 services.	General Fund	-	(28,392)	-
Employment Services	Delete one position (1.0 FTE - Personnel Technician) in Employment Services.	General Fund	-	(90,763)	(1.00)
HR Administration	Decrease funding for contracted instructional and other professional services budgets in Human Resources Administration.	General Fund	-	(159,000)	-
		Total Change	**-**	**(280,448)**	**(1.00)**

Operations	HR Administration	-	42,626
Grand Total		**3.00**	**$ 610,685**

PERFORMANCE MEASURES

HR Administration Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percentage of EEO and ADA complaints resolved without a substantiated finding of a policy violation or a monetary settlement	67%	86%	80%	80%	80%

The percentage of Equal Employment Opportunity (EEO) and Americans with Disabilities Act (ADA) complaints resolved without a substantiated finding of a policy violation—either by the City's internal EEO Office or an external enforcement agency-or a monetary settlement is an important indicator of the City's risk mitigation efforts. The City reduces potential liability by maintaining clear anti-discrimination policies and delivering ongoing EEO training to employees. These trainings—provided both online and in person-support a respectful and inclusive workplace culture and are offered at least quarterly, including as part of new employee onboarding.

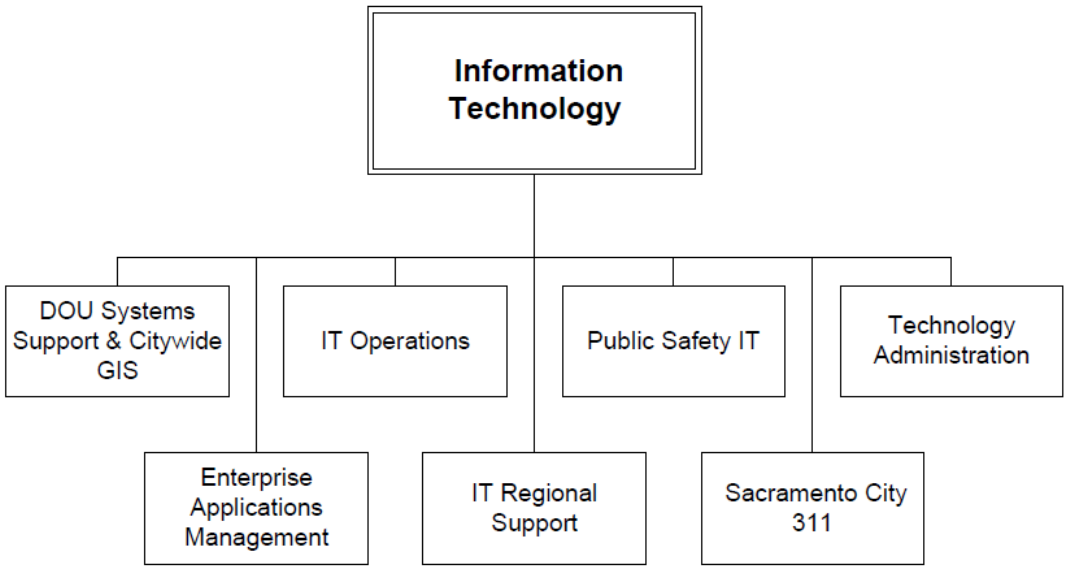
Labor Relations Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percentage of grievances that come to the Department and are resolved internally	78%	80%	75%	50%	50%

The Labor Relations Division makes every reasonable effort to resolve labor grievances at the lowest possible level. By resolving grievances internally, the City reinforces its commitment to honoring the terms of its memoranda of understanding (MOUs) with employee organizations. Early and efficient resolution also helps conserve City resources by avoiding the costs associated with arbitration. The Labor Relations Division will continue to manage grievances in a timely, consistent, and good faith manner with the goal of achieving the highest possible resolution rate.

Risk Management Administration Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of vehicle-related liability claims filed against the City.	132	132	120	125	125



One of the most significant risks of injury to Sacramento citizens and employees is vehicle accidents. With the support of City leadership and effective driver training through the Sacramento Regional Driver Training Facility and online training modules, the number of vehicle-related liability claims has decreased, even as the number of miles driven has increased. The number of City vehicle-related liability claims had been as high as 224 in 1997 and has been reduced dramatically since that time.

SECTION - 20
Information Technology

Information Technology

The Department of Information Technology (IT) is committed to ensuring IT investments and strategic business technologies are innovative, reliable, equitable, and deliver the highest possible value to the City and its constituents.

The **IT Department** manages a full range of information technology and related services for all departments and the public, 24 hours a day, seven days a week. The City's IT systems, infrastructure, information, and functions range from relatively simple to extremely complex.

The IT Department is divided into seven areas:

- Department of Utilities IT Systems Support & Citywide GIS: Responsible for providing a full range of IT services to support the Department of Utilities, and GIS support to Citywide operations and the City's public Open Data Portal.
- Enterprise Applications Management: Responsible for the development and management of citywide software systems, data, and applications.
- IT Operations: Responsible for IT infrastructure services such as security, networks, telecommunications, servers, storage, and backup to support all City business, and Public Safety functions.
- IT Regional Support: Responsible for end-user device management, IT Service Desk operations, and end-user technical training.

- Public Safety Information Technology: Responsible for applications development and IT support for the Sacramento Fire and Police Departments.
- Sacramento City 311: Responsible for assisting the public and internal departments with all non-public safety service requests, and questions regarding City services and policies.
- Technology Administration: Responsible for strategic planning, fiscal, human capital resources, technology procurement, telecommunications billing, and administrative management of the Department.

PROGRAMS/SERVICE HIGHLIGHTS

- The outdated and unsupported Police Department Human Resource Information System was replaced and migrated to the City's Finance and Human Resources System. This integration streamlined key Human Resource functions into a single platform, facilitating standardized business processes organization-wide, increasing transparency, improving operational efficiency, and reducing costs.
- The IT Department provides 311 resources for our community to request City services. 311 is the primary point of contact with residents and acts as the front door for many. The City's 311 has grown substantially since it started back in 2008. In 2024, 311 answered over 312,000 phone calls, of which 54,000 were handled by our virtual agent without any human interaction. 311 also processed a total of 511,000 requests, which originated through phone, web, mobile app, and email. Among the many challenges the City faced, the 311 team accomplished this important work while working remotely.

DEPARTMENT EFFICIENCIES

- The City’s network core infrastructure was upgraded to enhance connectivity between the City’s Enterprise and Public Safety Data Centers, supporting the City Cloud Initiative. The upgrade also provides connectivity to all City facilities and internet service providers. Consolidating the enterprise and public safety IT network environments will simplify technical support, maintenance, and operations, leading to cost savings for the City.
- Upgraded the City’s firewalls for the Enterprise, Police, and Fire Departments to enhance cybersecurity and protect sensitive data. The consolidation of the public safety firewalls will improve support, maintenance, and operations while reducing cost. This upgrade strengthens the City’s defense against cyber threats, improves firewall performance and efficiency, and ensures better access to data centers and internet-based applications.

- Enhanced the 311 Natural Language Interactive Voice Recognition (IVR) system to autonomously handle complex calls from citizens. The Artificial Intelligence feature enables callers to access services without having to wait to speak with a 311 agent. The system efficiently handles hundreds of daily calls, including external agency transfers, and schedules junk and appliance pickups. This allows the IVR system to efficiently handle routine tasks, freeing up 311 agents to focus on more complex requests that require human intervention.

- IT continues to digitize various departmental business processes by incorporating electronic forms, online payments, digital signatures, and business process automation. These initiatives expand digital service delivery, optimize City business processes, enhance user interfaces, and ensure citizens can access essential services remotely. Examples of initiatives include accepting electronic planning and building permit requests, and setting up electronic approval workflows for purchase requests, badge access, and procurement cards.

- The IT Department updated and published the 2026–2027 Digital Strategy, setting the City's technology vision and priorities for the next two years. The plan guides digital service expansion, artificial intelligence (AI) adoption, cybersecurity improvements, data-driven decision-making, and workforce modernization, providing a clear roadmap for continued technology innovation across City departments.

OBJECTIVES FOR FY2026/27

- Replace the outdated Citywide Document Management System (CCM) with a cloud-based solution. The CCM serves as the City's main repository for documents and records and integrates with enterprise business systems. Transitioning to a cloud solution will enhance efficiency, accessibility, security, and compliance, fostering greater transparency and cost-effectiveness.

- Establish a centralized, secure cloud data infrastructure to support analytics and AI readiness by implementing an enterprise data warehouse. This shared platform will unify data storage, governance, and analytics capabilities, reducing duplication, standardizing reporting, and improving data quality. By consolidating data into a single managed environment, the organization will enhance fiscal and operational oversight while achieving greater efficiency, consistency, and transparency.

- Modernize the Citywide Contact Center by replacing its outdated infrastructure, which currently relies on legacy on-premises phone systems and hardware that have reached the end-of-life and are no longer supported by the vendor. This initiative will deliver measurable efficiencies and directly support key Council Priorities and IT Strategic Goals, including Public Safety, Revenue, and Equitable Access to City Services.

- The City's effort to comply with the Americans with Disabilities Act (ADA) and the U.S. Department of Justice (DOJ) digital accessibility requirements by improving

the accessibility of public-facing websites, online content, and digital services. The work includes conducting accessibility audits, identifying and mitigating barriers, coordinating remediation with solution vendors, and providing user training to strengthen staff awareness and long-term compliance practices.

- Implement the AI Strategy to improve service delivery, operational efficiency, and innovation across departments. The work established the framework to evaluate AI use cases, implement pilot solutions, establishing governance and security standards, while coordinating with technology vendors, and providing staff training to promote effective and responsible use of AI tools.

- The IT Disaster Recovery and Business Continuity project for the City of Sacramento aims to improve the IT Department's resilience by updating its Business Impact Analysis (BIA) and Disaster Recovery Plan (DRP). The project focuses on creating a comprehensive and actionable roadmap for recovery strategies, communication processes, and business resumption plans. By enhancing these key elements, the goal is to ensure the IT Department can efficiently respond to disruptions, minimize downtime, and restore services swiftly, ensuring continuous support for the City’s operations during emergencies or crises.

- Implement Customer 360 to enhance the delivery of 311 service requests, improve citizen satisfaction, and streamline business operations. This involves streamlining business processes and workflows to improve overall efficiency in service delivery and integrating data from various internal systems with the 311 system. The goal is to provide citizens with a clear view of their interactions throughout the service request lifecycle, aiming to improve transparency.

- Implement a cloud-based code enforcement case management system and Entertainment Permit System to streamline the business process and improve customer experience. The system aims to modernize the business processes by automating and integrating with other enterprise applications. In addition, the system will improve analytics and reporting to help management make data-driven business decisions.

- Implement a modern Unified Endpoint Management (UEM) solution. UEM is the key to addressing mobile and traditional end-user devices, maintaining continuity of end-user computing operations, and delivering seamless IT administration in the current era of expanded remote work.

BUDGET AND POSITION CHANGES

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Citywide GIS Support	Delete one position (1.0 FTE - GIS Specialist III) supporting citywide GIS operations. A reduction to the program could disrupt essential services and systems in multiple departments that rely on GIS data analysis, mapping, and location-based information.	General Fund	-	(142,968)	(1.00)
IT Regional Support	Delete two positions (2.0 FTE - IT Support Specialist II) supporting the IT Service Desk. This reduction will severely impact our ability to resolve urgent technical issues, affecting operational effectiveness, increasing downtime, and reducing productivity citywide.	General Fund	-	(320,243)	(2.00)
Technology Administration	Delete one position (1.0 FTE - Department Systems Specialist II) and add one new position (1.0 FTE - Administrative Analyst) to improve IT administrative and fiscal operations, streamline workflows enhance fiscal oversight, and ensure continuity in functions like telecommunications billing, accounting, and budget development.	General Fund	-	(7,128)	-
Enterprise Applications Mgmt	Delete one position (1.0 FTE - Principal Applications Developer) and add one new position (1.0 FTE - IT Supervisor) to lead the combined Permitting/Code Enforcement team. This change will oversee critical systems, including the Code Enforcement system replacement and the City's Streamline initiative.	General Fund	-	(71)	-
IT Operations	Delete one position (1.0 FTE - Senior Systems Engineer) and add two new positions (2.0 FTE - Telecom Technician Trainee) and increase revenue budget from small cell towers installed on public streetlights. This will reduce downtime for over 300 public safety vehicles and support 1000+ Citywide cameras, improving operational efficiency and response times.	General Fund	(50,000)	59,638	1.00
Sacramento City 311	Delete one position (1.0 FTE - 311 Customer Service Agent) from 311 Customer Service.	General Fund	-	(77,241)	(1.00)
Technology Administration	Increase funding to support the IT Training Development Plan to address a significant gap in staff skills and knowledge base that is required to support the City's technical environment and critical business systems. Training helps maintain and enhance intellectual capital providing direct value to the organization.	General Fund	-	-	-
Citywide IT Systems	Increase funding for Enterprise Resource Planning (ERP) System Cloud Readiness Assessment and Business Process Mapping. Approval of this initiative will improve operational efficiency, reduce manual effort, and position the City for a successful ERP modernization which supports critical Human Resources and Finance business operations.	General Fund	-	-	-
Citywide IT Systems	Increase funding for Enterprise Resource Planning (ERP) System Cloud Readiness Assessment and Business Process Mapping. Approval of this initiative will improve operational efficiency, reduce manual effort, and position the City for a successful ERP modernization which supports critical Human Resources and Finance business operations.	Parking	-	10,285	-
Citywide IT Systems	Increase funding for Enterprise Resource Planning (ERP) System Cloud Readiness Assessment and Business Process Mapping. Approval of this initiative will improve operational efficiency, reduce manual effort, and position the City for a successful ERP modernization which supports critical Human Resources and Finance business operations.	Water	-	89,505	-
Citywide IT Systems	Increase funding for Enterprise Resource Planning (ERP) System Cloud Readiness Assessment and Business Process Mapping. Approval of this initiative will improve operational efficiency, reduce manual effort, and position the City for a successful ERP modernization which supports critical Human Resources and Finance business operations.	Wastewater	-	25,755	-

BUDGET AND POSITION CHANGES (continued)

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Citywide IT Systems	Increase funding for Enterprise Resource Planning (ERP) System Cloud Readiness Assessment and Business Process Mapping. Approval of this initiative will improve operational efficiency, reduce manual effort, and position the City for a successful ERP modernization which supports critical Human Resources and Finance business operations.	Recycling and Solid Waste	-	45,560	-

MEASURE U

The following chart summarizes the Department's Measure U programs.

Funding Category	Program Name	FTE	FY2026/27 Proposed
Community Response			
Operations	Sacramento City 311	-	427,505
Miscellaneous			
Operations	IT Regional Support	-	35,000
	PD Systems Support	-	38,447
Grand Total		**-**	**$ 500,952**

PERFORMANCE MEASURES

IT 311 Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percent of 311 calls that are answered	73.9%	77.2%	92.0%	85.0%	90.0%

The percent of calls answered is a measure of call center staffing, self-service effectiveness, and the demand for the services offered by the City.

IT Regional Support Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Respondents rating the quality of IT service as good or excellent	98.3%	97.9%	97.9%	99.0%	99.0%

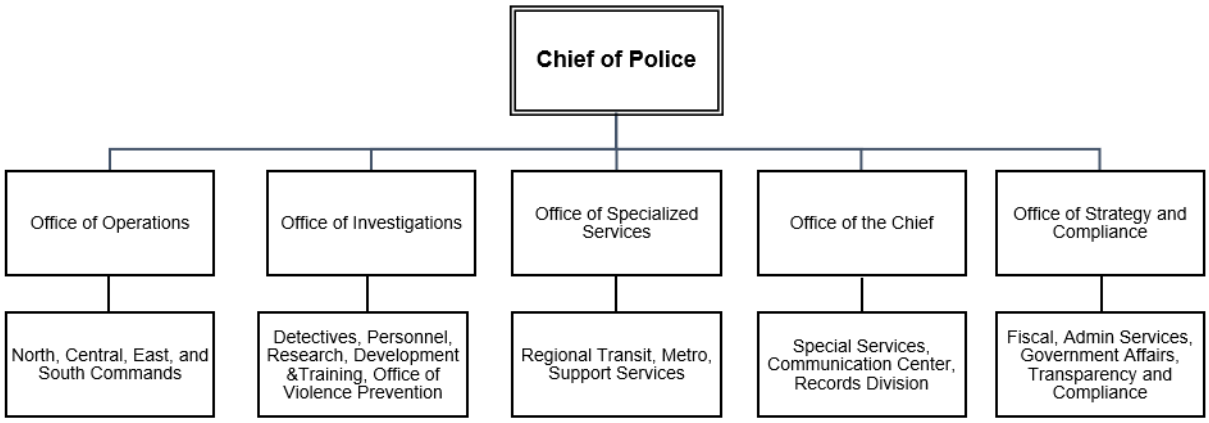
The IT Department tracks support requests and regularly surveys internal customer satisfaction. Satisfaction survey requests are automatically generated for all customers who contact the department for IT support.

IT Operations Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Network services available					
Public Safety systems	99.0%	99.0%	99.0%	99.0%	99.0%
All other systems	99.0%	99.0%	99.0%	99.0%	99.0%

The IT Operations Division and Public Safety IT Division maintain and operate the City's network, telecommunications, and fiber systems that support enterprise voice and data systems. Network and telecommunication systems are mission critical and an integral part of City business operations. This performance measure captures the network system availability/uptime percentages excluding scheduled maintenance periods.

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Enterprise database system available	99.9%	99.0%	99.5%	99.9%	99.9%



The IT Operations Division manages and maintains a wide variety of data and systems that house critical mission information for City business systems. The performance measure tracks the system uptime/availability percentage rate for the enterprise database systems.

SECTION - 21
Police

Police

The mission of the Sacramento Police Department is to work in partnership with the community to protect life and property, solve neighborhood problems, and enhance the quality of life in our city.

- **The Police Department (PD)** endeavors to build public trust through community policing, service, professionalism, and a commitment to transparency, fairness, impartiality, and accountability. With the proposed FY 2026/27 budget, the PD will be comprised of 693 sworn positions and 337.5 professional staff positions. As a key tenet of the Department's commitment to data-driven policing, it is focused on strategies to identify trends, allocate resources efficiently, and prevent crime in the community. The PD continues to foster strong community partnerships, being vigilant in efforts to proactively address crime and apprehend criminals. The PD values the diversity of the public it serves and strives to provide a strong fabric of public safety through the implementation of best practices and dedicated service.

- Office of Investigations: Broad scope of responsibilities including investigating crimes, maintaining evidence and additional critical Citywide administrative functions. This office encompasses the following divisions: Forensics; Evidence and Property; Office of Violence Prevention; Personnel Services; Recruiting and Backgrounds; Employee Services; Magnet and Cadet programs; and Research, Development, and Training.

- Office of Operations: Responsible for providing frontline police services, including the Patrol Division (located among three neighborhood substations) and the specialty units assigned there.

- Office of Specialized Services: Responsible for Support Services; Records; the Communications Division (911 Center); and the Metro Division which includes specialty teams such as the K9, Special Weapons and Tactics (SWAT), Impact, Homeland Security, Traffic, and Air Operations.

- Office of the Chief: Responsible for developing and communicating the Department's vision. This office oversees Internal Affairs and the Public Information Office.

- Office of Strategy and Compliance: Responsible for planning, organizing, and directing departmental policies, compliance, and transparency. This office oversees Government Affairs, Professional Standards, Finance, Fleet Management, Public Safety Information Technology, Transparency, Strategy and Compliance.

PROGRAMS/SERVICE HIGHLIGHTS

- **Crime Violence Reduction Strategy:** The PD is fully committed to focusing on reducing violent crime through collaboration with federal and regional public safety partners, enhanced crime analysis, identifying crime trends, dedicating additional resources to gun violence task forces, increasing its use of effective technologies, and maintaining efforts with community-based organizations to apply evidence-based community violence interruption, disruption, and suppression strategies. During 2025, while working collaboratively with federal partners, the PD seized nearly 300 pounds of narcotics and at least 85 firearms. These seizures were the culmination of months-long investigations by officers and partner agencies. These seizures serve to disrupt criminal activity and contribute to the deterrence of violent crime in the city.

  Additionally, the PD, the Sacramento County District Attorney's Office, and the California Department of Justice (Cal DOJ) partnered to form the Sacramento Regional Human Trafficking Task Force. This team is dedicated to recovering victims of human trafficking and connecting them with services provided by various community-based organizations. In 2025, the team investigated 107 separate human trafficking cases, which resulted in the recovery of 105 persons.

  The Office of Violence Prevention (OVP) plays a central role in the City's violence reduction strategy by partnering with community-based organizations to implement prevention, intervention, and rapid response initiatives. Through coordinated programs such as the Gang Prevention and Intervention Task Force (GPIT) and the Evidence-Based Community Violence Interruption, Disruption, and Suppression (EBCVIDS) initiative, OVP administers multi-year operating projects (MYOP) that support outreach, credible messenger engagement, and strategic

responses to critical incidents. These collaborative efforts strengthen partnerships and contribute to the sustained reductions in violent crime observed in Sacramento over the past five years.

Year-End Crime Statistics
2021 - 2025[1]

	CITYWIDE TOTALS						
	2021	2022	2023	2024	2025	5-Yr Avg	%
CRIMINAL HOMICIDE	58	54	40	45	42	48	-12.1%
RAPE[2]	159	174	135	115	109	138	-21.2%
ROBBERY	991	1,243	1,196	1,015	889	1,067	-16.7%
AGGRAVATED ASSAULT	2,896	3,187	2,863	2,750	2,448	2,829	-13.5%
BURGLARY	2,547	2,763	2,790	2,363	2,068	2,506	-17.5%
LARCENY-THEFT	9,745	10,247	9,194	8,673	7,699	9,112	-15.5%
MOTOR VEHICLE THEFT	3,167	3,587	3,754	2,721	2,257	3,097	-27.1%

% Column is difference between 5-Yr Avg and 2025 Totals.

[1]2021-2022 counts are based on both UCR and NIBRS reporting standards. 2023-2025 counts are official reported DOJ NIBRS counts.

[2]As of August 2025, rape counts now include sodomy and sexual assault with an object.

- **National Public Safety Partnership (PSP):** In October 2022, PD was one of six cities across the country that were inducted into the 2022 cohort of the National Public Safety Partnership (PSP) through the U.S. Department of Justice Bureau of Justice Assistance (BJA). PSP was established by the U.S. Department of Justice (DOJ) to provide an innovative framework to enhance federal support of state, local, and tribal law enforcement and prosecution authorities in enhancing public safety and reduce violent crime. PSP supports law enforcement and community partners in deploying data-driven, evidence-based strategies tailored to local needs. This cooperative agreement, valued at $700,000, provides expedited, coordinated training and technical assistance (TTA) and an array of resources from DOJ to enhance local public safety strategies. In 2024, the PD secured a $500,000 BJA Capacity Building grant to continue this work on programs, specifically eliminating stopgaps and accelerating time-sensitive investigations through upgrading digital forensic solutions.

  As an expansion of PSP operations, the Department embarked on a Domestic Violence focused evaluation and operation in the northern area. The initial observation period was January – July 2024, where the north area saw a continued increase in domestic violence. This evaluation identified that domestic violence incidents were disproportionately higher in the north area of the city. Further analysis revealed these incidents were focused in three geographic areas. This operation focused on education, enforcement, and implementing rapid follow-up

on the most extreme cases. Through the operation, which ran from January – August, the Department saw a 19.8% reduction of reported domestic violence incidents in the focus areas.

- **Office of Strategy and Compliance:** In 2023, the PD reorganized to create a new Strategy and Compliance Division. The Division is made up of 1.0 FTE Government Affairs Manager, 2.0 FTE Administrative Analyst, and 1.0 FTE Administrative Technician positions to ensure internal and external compliance measures, such as:

    - California legislative mandates (e.g. Assembly Bill (AB) 481 - Military Equipment Use (MEU), Senate Bill (SB) 1421/SB 16, SB 2/AB 89, AB 392, AB 48, AB 958, AB 1238 and AB 953 Racial and Identity Profiling Act (RIPA);
    - National Best Practices for Policing, including proposed national certification standards;
    - Statutory compliance with the Public Records Act (Release of Records);
    - California Commission on Peace Officer Standards and Training (POST) mandates;
    - Force Investigations Team (FIT) and Use of Force Review Board (UOFRB) processes;
    - Sacramento City Council resolutions, including mandatory Use of Force reporting;
    - Body Worn Camera (BWC) Project (Constitutional Policing and Employee Evaluation Audits);
    - Sacramento Community Police Review Commission (SCPRC) recommendations; and
    - Armored vehicle deployment.

    The Office of Strategy and Compliance furthers the goals of assuring modern and equitable police practices, managing risk and strategic plan implementation, and compliance with local, state, and federal laws and regulations, as well as PD-initiated transparency efforts. The new division reports directly to the Chief of Police, providing an executive level of review with a global perspective, to assist and advise the Chief with issues pertaining to police reform efforts and best practices. The Department has bolstered transparency by prioritizing inclusion and keeping residents better informed about major incidents. These efforts foster deeper engagement and collaboration with the communities it serves. Key examples include formal notifications regarding armored vehicle deployments and an active partnership with the Sacramento Community Police Review Commission. This collaboration includes Military Equipment Use (MEU) purchase reporting and notifications, the establishment of a Community Advisory Council, and the development of a future Community Policy Advisory Board.

- **Community Engagement:** The Sacramento Police Department remains deeply committed to fostering trust and transparency through a robust array of community engagement initiatives. By prioritizing active participation in events like National

Night Out, Shop with a Cop, and the MLK March, the Department builds meaningful personal connections with the residents it serves. Safety and education also remain at the forefront through programs such as Active Shooter Training, Neighborhood Roll Calls, and Magnet School Public Safety Academies, which empower citizens and youth alike.

To ensure every corner of the city is heard, all area Commands actively engage with Neighborhood Associations, participate in Oak Park Peace Walks, and maintain strong property business improvement district (PBID) partnerships. Whether through informal settings like Cops and Coffee or proactive Business Walks, the PD continues to weave itself into the fabric of the community, ensuring that public safety is a collaborative, citywide effort. The PD remains committed to community engagement efforts that include:

- Community Day at the Sacramento Police Academy
- Female Fitness Challenge
- Active Shooter Training
- Shop with a COP
- National Night Out
- Magnet School Public Safety Academies
- Community Connections
- Community Events and Marches (Run to Feed the Hungry, MLK March, Oak Park Peace Walk, etc.)
- PBID Partnerships
- Engagement with Neighborhood Associations, Citywide Pedals Program
- Sac Cares Program
- Cops and Coffee
- Neighborhood Roll Calls
- Business Walks

- **Employee Wellness:** The PD has continued to invest in the health of Department employees, through the enhanced Employee Services Unit (ESU) focused on building employee and organizational resiliency through physical, emotional, and financial wellbeing. Using grant funds to support wellness programs, the PD has created and implemented a POST certified course for employees that provided knowledge, training, and tools to develop anxiety reduction techniques, healthy work-life balance, mindfulness, physical fitness, financial fitness, and creating supportive employee systems. Additionally, working with POST, the PD is developing an organizational wellness strategic plan. The PD believes that investment in employee wellness will assist officers and professional staff in making improved decisions resulting in better outcomes for our community.

- **Recruiting:** The PD is continuing recruiting efforts with a focus on diversity through print, digital, streaming, and social media platforms. These efforts range from traditional recruiting events to new digital content creation and delivery utilizing new technologies such as immersive 3D virtual reality experiences. Recruiting efforts have become more focused on programs such as the 30x30 Initiative, the California State University Sacramento's Law Enforcement Candidate Scholars programs, and the Hiring Pipeline Program which includes the cadet, student trainee and community service officer programs. The PD has also initiated focused recruiting events at our Communications Center resulting in improved hiring outcomes. Other recruiting programs include:

    - Bootcamp Wednesday
    - Run with a Recruiter
    - Career Fair/Hiring Workshops
    - Conduct preparation for the Oral Assessment
    - The Female Fitness Challenge

DEPARTMENT EFFICIENCIES

- **Emerging Technologies:** The PD continued to expand and integrate the use of emerging technologies such as Police Observation Devices (PODs), Unmanned Aerial Systems (UAS) and the deployment of smart phones to operations staff to enhance connectivity to essential law enforcement databases.

    - **PODs**: The PD's 152 PODs are strategically located throughout the city and in 2025 they enabled officers to respond to and investigate nearly 639 POD-generated calls for service. Officers use POD data to conduct follow-up on criminal investigations.

    - **Automated License Plate Reader (ALPR):** ALPR technology is a key component to the PD's technological resources. The PD's patrol vehicles are equipped with Fleet 3 in-car-camera technology. The ALPR technology captures multiple vehicle lanes and checks vehicle license plates against criminal justice databases.

    - **Unmanned Aerial Systems - Drone as First Responder:** The PD explored a pilot program which expanded the UAS program. It assisted with area searches, rooftop checks, yard searches, searches for missing persons, and scene assessment. This program enhanced both community and officer safety while increasing employee efficiency. This program is an additional layer of de-escalation utilized by officers.

    - **Public Safety Camera Network:** In 2024, the PD created a Public Safety Camera Network – this is an open ecosystem that integrates and enhances the business community, government, public safety and

investigation assets. This network enables citizens and businesses to partner directly with the PD to register the location of their privately-owned cameras and in some cases provide direct integration to the PD for live camera viewing. This network of cameras allows responding officers and investigators to more efficiently and effectively use cameras to respond to and investigate crimes within the City of Sacramento.

- **The Police Application:** The PD is partnering with a vendor to develop a department-specific mobile application designed to enhance communication with the community. This app will serve as a centralized and official platform where the Department can quickly share verified information. By enabling direct communication with the public, the application helps limit the spread of misinformation that often arises from social media, scanner traffic, or incomplete video clips shared before facts are established.

  Timely updates, alerts, and accurate information will strengthen transparency, reinforce the department as the trusted source of public safety information, and improve community confidence. Additionally, consistent and proactive communication supports officers by ensuring the community receives factual context about police activity, bolsters leadership credibility, and helps safeguard the department's reputation while fostering long-term trust.

- **The Briefing Room**: The Briefing Room provides on-demand, law enforcement specific microlearning designed to reduce organizational risk and liability by ensuring officers and supervisors receive consistent, current training aligned with court rulings, legislative updates, and evolving community expectations. Developed and reviewed by highly experienced California POST-certified instructors, the platform delivers short, high-impact training modules that can be completed during regular shifts, eliminating travel, backfill, overtime, and per diem expenses. By reinforcing best practices and legal standards through frequent and engaging instruction, the program supports consistent policy application, strengthens defensible decision making in the field, and promotes sustained cultural improvement across the department. This model provides a cost-effective way to keep personnel aligned with modern policing expectations while enhancing the Department's ability to manage risk and limit potential liability.

- **Translation Services:** The PD Communications Center is working hard to build the best possible interface between our community and the services we provide by improving the call process by leveraging technology to assist with call triaging, redirecting, translation and location services.

- **Streamlining Records Requests:** The PD receives thousands of records requests and our records division is currently working with our transparency

and government affairs teams to route all requests for PD data through one portal to make it easier for the public to get what they need. They are also working with an external partner in developing an artificial intelligence (AI) document redaction program which will enhance the release of records.

- **Community Service Officer III:** A Community Service Officer III (CSO III) is a career position that is non-sworn within the PD. The role of a CSO III often includes providing support to police officers in patrol, investigations, records, property and other divisions within the PD. They assist with various administrative tasks, engaging in community-based services, and conduct investigations.

- **Traffic Enforcement:** The Traffic Section expanded its efforts in FY2025/26 by adding a nighttime traffic enforcement team to conduct enforcement activities during evening commute periods and weekends to address DUI and sideshow issues. This strategy places resources in the areas where the collisions and dangerous driving behaviors are occurring, ensures coverage throughout the city, and collaborates with community partners to meet the goal of safer travel for all roadway users, such as pedestrians, bicyclists, and automobile drivers. In 2025, the PD conducted 23,560 traffic stops and issued 8,386 citations (22% increase from 2024). Additionally, the City saw an increase of 11% fatal collisions and 17% higher traffic deaths, compared to 2024.

OBJECTIVES FOR FY2026/27

For FY2026/27, PD priorities are:

- Operational Readiness and Response
- Crime Reduction
- Employee Investment
- Quality Police Service
- Strategic Governance

- **Operational Readiness and Response:**
  - Maintain a constant state of readiness and preparedness to respond to the everyday needs of our city but also exceptional situations.
  - Continue to invest in cutting-edge technology and training to enhance personnel's ability to respond swiftly and effectively to emergencies.
  - Ensure that it is strategically positioned to prevent and deter crime by optimizing resource allocation.

- **Crime Reduction:**
  - Employ data-driven strategies to identify trends and allocate resources to prevent and mitigate crime.

- Empower residents to be active participants in crime prevention efforts by fostering strong community partnerships.
- Remain vigilant in its efforts to proactively address crime and apprehend criminals.

- **Employee Investment:**
  - Create a positive and supportive work environment that values both professional staff and officers' contributions.
  - Empower its officers and professional staff to reach their full potential by providing opportunities for professional development and advancement
  - Prioritize mental health and wellness programs to support the overall well-being of officers and professional staff. It will also ensure a positive and supportive work environment that values the contributions of all our staff.
  - Provide opportunities for professional development and advancement, empowering our officers and professional staff to reach their full potential.
- **Quality Police Service:**
  - Build trust and positive relationships with the community through transparent and accountable policing practices.
  - Tailor policing strategies to meet the specific needs of Sacramento’s diverse population by actively listening to community concerns and feedback.
  - Uphold the highest standards of ethical conduct and integrity while promoting great customer service to our community members.
- **Strategic Governance:**
  - Develop and implement comprehensive strategic plans to guide its future direction.
  - Make informed decisions that drive positive outcomes by leveraging data analytics.
  - Foster a culture of innovation and continuous improvement to ensure that the Department remains adaptable to evolving challenges.

BUDGET AND POSITION CHANGES

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Major Crimes	Increase revenue by offsetting sexual assault exams costs through state reimbursements.	General Fund	(120,000)	-	-
Operations Administration	Delete 11 positions (1.0 FTE - Police Lieutenant, 2.0 FTE - Police Sergeant, and 8.0 FTE - Police Officers) and associated revenues. This Regional Transit contract was terminated in December 2025.	General Fund	2,278,239	(2,278,239)	(11.00)
Operations Administration	Delete three positions (3.0 FTE - Police Officer). Eliminates the Natomas School Resource Officer program and associated revenue. This contract was terminated in December 2025.	General Fund	559,773	(559,773)	(3.00)
Compliance & Strategy	Delete one position (1.0 FTE - Government Affairs Manager) and add one new position (1.0 FTE - Government Affairs Manager (Public Safety)) in the Office of Strategy & Compliance.	General Fund	-	19,175	-
Communications	Delete two positions (1.0 FTE - Dispatcher II and 1.0 FTE - Police Clerk II) and add two new positions (2.0 FTE - Administrative Technician) in the Communications Division.	General Fund	-	(9,372)	-
Office of the Chief	Delete one position (1.0 FTE - Media & Communications Specialist) and add one new position (1.0 FTE - Public Safety Administrative Manager) to the Office of Strategy & Compliance.	General Fund	-	35,410	-
Professional Standards Unit	Delete one position (1.0 FTE - Police Officer) and add one new position (1.0 FTE - Administrative Analyst) in the Policy Team.	General Fund	-	(49,113)	-
Crime Analysis	Delete two positions (2.0 FTE - Police Officer) and add two new positions (2.0 FTE - Administrative Analyst) in the Crime Analysis Unit.	General Fund	-	(246,491)	-
Public Safety Information Technology	Discontinue use of the SpidrTech platform and eliminate ongoing funding (F11100600).	General Fund	-	(125,000)	-
Violence Prevention	One-time reduction to the Gang Prevention & Intervention Taskforce project (I11003000).	Measure U	-	(1,402,921)	-
Department-Wide	Discontinue ShotSpotter program in the South and East commands. ShotSpotter will be maintained in the North area.	General Fund	-	(320,892)	-
South Command	Delete one position (1.0 FTE - Community Service Representative I) in Patrol Unit, reducing community engagement.	General Fund	-	(76,793)	(1.00)
Central Command	Delete five positions (1.0 FTE - Police Sergeant and 4.0 FTE - Police Officer), eliminating the Mounted Unit.	General Fund	-	(918,098)	(5.00)
Hiring Pipeline	Delete five positions (5.0 FTE - Community Service Officer III) in the Hiring Pipeline program.	Measure U	-	(505,295)	(5.00)
Metro K9	Delete one position (1.0 FTE - Police Officer) in the K9 Unit.	General Fund	-	(135,444)	(1.00)
Forensic Identification	Delete one position (1.0 FTE - Fingerprint Clerk) in Forensics Unit.	General Fund	-	(79,941)	(1.00)
Professional Standards Unit	Delete one position (1.0 FTE - Police Officer) in the Force Investigations Team.	General Fund	-	(135,444)	(1.00)
Recruiting	Delete two positions (2.0 FTE - Police Officer) in the Recruiting Unit.	General Fund	-	(334,747)	(2.00)
Personnel	Delete five positions (5.0 FTE - Police Officer) in the Background Investigations Unit.	General Fund	-	(792,574)	(5.00)
Research, Development, & Training	Delete two positions (2.0 FTE - Police Officer) in Advanced Officer Training.	General Fund	-	(270,888)	(2.00)
Hiring Pipeline	Delete seven positions (7.0 FTE - Community Service Officer II) in the Hiring Pipeline program.	Measure U	-	(693,700)	(7.00)
Records	Delete 11 positions (1.0 FTE - Police Records Supervisor and 10.0 FTE - Police Records Specialist) in the Records Division.	General Fund	-	(913,919)	(11.00)

BUDGET AND POSITION CHANGES (continued)

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Professional Standards Unit	Delete one position (1.0 FTE - Police Captain) in the Administrative Services Division.	General Fund	-	(328,046)	(1.00)
Violence Prevention	Liquidate unspent Office of Violence Prevention (OVP) project funds (I02000600).	Measure U	-	(405,598)	-
Personnel	Delete one position (1.0 FTE Police Clerk II) and add one new position (1.0 FTE - Administrative Technician) in the Personnel Division.	General Fund	-	21,553	-
Communications	Freeze nine positions (9.0 FTE - Dispatcher II) on a one-time basis in the Communications Division and reduce labor budget for a part-time position (0.5 FTE - Police Officer).	General Fund	-	(1,120,857)	-
Records	Delete seven positions (1.0 FTE - Police Clerk II, 1.0 FTE - Student Trainee, 1.0 FTE - Dispatcher I, 2.0 FTE - Police Records Specialist II, 1.0 FTE - Police Records Specialist III) across multiple divisions.	General Fund	-	(422,941)	(5.00)
Hiring Pipeline	Delete seven positions (1.0 FTE - Police Clerk II, 1.0 FTE - Student Trainee, 1.0 FTE - Dispatcher I, 2.0 FTE - Police Records Specialist II, 1.0 FTE - Police Records Specialist III) across multiple divisions.	Measure U	-	(38,052)	(1.00)

3. https://openjustice.doj.ca.gov/exploration/crime-statistics/crimes-clearances (2024)

The measure of crime is an indicator of safety in a community. Safe neighborhoods and safe public spaces create a sense of wellbeing for residents and visitors. Crime rate comparisons to California's other large cities provide a baseline to measure progress in managing crime. The universal benchmark of crime is referred to as Part 1 crime. Part 1 Crimes totals, as published by the California Department of Justice include: homicide, rape, robbery, aggravated assault, burglary, motor vehicle theft, larceny-theft, and arson.

The above Part 1 crime statistics were retrieved from the California Department of Justice's Open Justice data portal and contain data of law enforcement agencies throughout the state. Sworn FTE data was retrieved from the California Commission on Peace Officer Standards and Training's (POST) Agency Statistics portal, accessed on March 17, 2026.

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percentage sworn SPD employees who are women or minorities	46%	47%	48%	50%	50%
Percentage of new hires into sworn or Hiring Pipeline Program vacancies that are women or minorities	81%	83%	76%	74%	75%

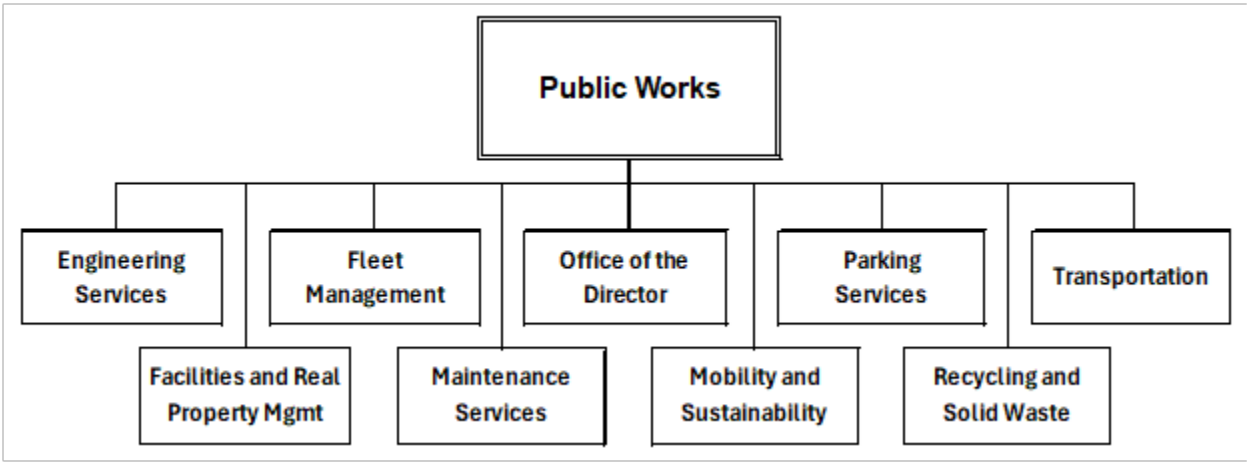
The Department recognizes that a workforce that mirrors the community it serves is important. It is committed to an intentional and increased focus on attracting, hiring, and retaining a more diverse workforce through a variety of virtual and in-person efforts. The first measure reflects the percentage diversity among all Police employees. Currently, approximately 42 percent of sworn employees are women or minorities. The second measure reflects the percentage of new hires into sworn and Hiring Pipeline vacancies. The Department will continue its efforts to increase the number of women and minority new hires into sworn and Hiring Pipeline vacancies.

Field Services Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Key Measure in minutes					
Median response time for priority 2 and 3 calls (mm:ss)	12:17	11:56	11:50	11:29	11:39

The timely arrival of a police officer to a reported crime is vital to prevent injury or death, apprehend suspected criminals, identify witnesses and evidence, and enhance the solvability of the crime. The Police Department prioritizes all calls for service with emergency and in-progress crimes given the highest priority. The response time of all calls is tracked by the Department's Crime Analysis Unit. The projections for the remainder of the current fiscal year and the next fiscal year are based on current trends. Comparable jurisdictional data is not available as each agency uses different criteria and policies governing the definition of priority calls for service.

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percentage of 911 calls answered within 15 seconds	87%	84%	87%	87%	90%



The faster a call to 911 is answered, the faster units can be dispatched and made available at the scene of an emergency. The State of California standard is answering 90% of all 911 calls within 15 seconds. Call answer times are tracked by the Department's Communications Center. The projection for the remainder of the current fiscal year is based on prior month averages. The projection for next fiscal year is based on the minimum state standard. Actual results vary depending on staffing and call volume.

22

SECTION - 22
Public Works

Public Works

We keep the City of Sacramento operating and moving forward.

The **Public Works Department** is dedicated to maintaining safer streets, sustainable infrastructure, and innovative mobility solutions. Over the past year, we have implemented tens of millions of dollars in transportation improvements, expanded electric vehicle charging and transit access, enhanced traffic safety, and completed critical road and facility upgrades. Additionally, the Department has strengthened parking management through expanded permit programs and automated enforcement, while continuing to improve operations at the Sacramento Marina to better serve the boating community. These services are the responsibility of the following divisions:

- Engineering Services: Responsible for transportation funding support, project development, design and construction, survey and inspection, private development encroachment permits for work in public right-of-way, and map review and approval, and staffing of the Disabilities Advisory Commission (DAC).
- Facilities and Real Property Management: Responsible for facility maintenance, real estate, design management and construction, multi-use building management, Americans with Disabilities Act (ADA) barrier removal, and citywide mail services.
- Fleet Management: Responsible for purchases, maintenance, and management of all fleet assets and citywide fueling infrastructure.
- Maintenance Services: Responsible for maintenance of roads and bridges, sidewalks, curbs, gutters, and streetscapes, tree health and maintenance, and right-of-way coordination.

- Office of the Director: Responsible for policy, legislative support, funding, special projects, recruitment and retention, employee enrichment, community outreach and marketing, and department-wide support.

- Mobility and Sustainability: Responsible for city and regional transportation planning and prioritization and coordination, citywide curb management policies, directing key sustainability and mobility initiatives and grant applications, managing and updating mobility and sustainability initiatives, implementing key programs and initiatives, conducting community outreach and engagement, managing transportation assets and data, and coordinating citywide sustainability and climate-related initiatives and programs.

- Parking Services: Responsible for parking enforcement, parking meters, retail lease space, parking garages, parking lots, and operation of the Sacramento Marina.

- Recycling and Solid Waste: Responsible for collecting residential garbage, recycling, organics, household hazardous waste, household junk, illegal dumping, and providing residential and commercial street sweeping services. The Division is also responsible for commercial waste compliance and landfill post-closure maintenance and monitoring.

- Transportation: Responsible for maintenance and operations of streetlights, traffic signals, traffic control signs and pavement markings, preparation and implementation of private development entitlements, traffic studies and reports, traffic safety investigations, and traffic control design for traffic safety and mobility.

PROGRAMS/SERVICE HIGHLIGHTS

- Public Works secured several grants, including $2.4 million to install Fleet charging stations, planning grants to improve mobility and safety in Old North Sacramento, South Sacramento, and along the Arden Way commercial corridor, an Active Transportation Grant for Northgate Boulevard, and safety improvement grants. The Department adopted a pavement moratorium on newly resurfaced streets, prohibiting trenching and excavation for utility work for up to five years on streets with asphalt overlays and up to three years on streets with lighter resurfacing treatments. This new ordinance ensures the longevity and integrity of recently

paved roads, promoting improved street conditions and reducing the need for costly repairs.

- The Engineering Services Division completed eight projects in construction with an award amount of $33 million dollars. The projects were the Auburn Blvd Bridge Replacement, Del Rio Trail Project, North Laguna & Jacinto Creek Trail Resurfacing, I St Bridge Railing Repair, Ninos Parkway Phase 2, Memorial Auditorium Sidewalk and the Highway Safety Improvement Program Florin Rd Safety. Engineering Services completed 4703 plan reviews for more than $106,366,734 in private development investments throughout the city and completed 95.7% reviews on time. Engineering Services successfully issued and provided construction oversight for 5936 encroachment permits.

- The Facilities and Real Property Division oversees maintenance for over 400 City facilities. Recent projects include Old Sacramento 1110 Front Street Restaurant Deck Repair, Fire Station 17 Standby Generator, City Hall Uninterruptable Power Supply Replacement, City Hall Automatic ADA Doors for Council Chambers, 3900 Roseville Rd Sleeping Cabins and Ali Youssefi Square Ice Rink Repairs.

- The Fleet Maintenance Division completed over 15,000 work orders on over 2,600 vehicles and equipment.

- The Mobility and Sustainability Division established new Mobility, Parking, and Curb Management section within the Mobility and Sustainability Division. Curb Management will focus on new mobility, citywide curb management policies, and management of existing shared mobility programs. Mobility and Sustainability completed the Sacramento Urban Forest Plan in partnership with the Maintenance Division's Urban Forestry Team. This Plan establishes a clear vision and goals for the growth, maintenance, and protection of the city's urban trees. Mobility and Sustainability completed an addendum to the Standard Specifications, updating the pavement restoration standards to ensure better quality and durability of street repairs; and completed the Pavement Condition Report, which reflects the current conditions and maintenance strategies based on the analysis of approximately 3,198 lane miles of City streets. Mobility and Sustainability completed the Streets for People: Sacramento Active Transportation Plan, a new citywide plan for improving walking, rolling and bicycling in Sacramento which will guide future City and private development investment.

- The Parking Services Division implemented the Supplemental Permit Parking (SPP) pilot program, allowing residents living in developments with little or no on-site parking the opportunity to purchase parking permits on the street, resulting in improved parking management and access to convenient parking solutions. Parking partnered with Sacramento Regional Transit to implement automated enforcement of bus zone and bike lane parking violations. This collaboration ensures that bus stops and bike lanes are safe for all users, promoting a more efficient and secure transit environment. Parking extended discounted employee

parking programs including the expansion of the on-street Merchant Permit Parking Program and updating the Discounted Employee Parking Program (DEPP) eligibility requirements for discounts in City garages.

- The Recycling and Solid Waste Division continued the Neighborhood Clean-up Grant Program which offers up to $800 to recognized organizations for eligible clean- up programs; 12 projects awarded totaling $3,854 in grant funds. Recycling and Solid Waste has distributed over 41,000 food waste collection bins to residents, since June 2022, to support the City's organics recycling program.

- The Transportation Division began building the newly adopted Transportation Safety Team to focus on low-cost, quick-built safety improvements to reduce crashes that cause fatalities and serious injuries. Staff installed over 100 low-cost improvements including 17 custom quick-builds projects, 39 locations of intersection daylighting, 17 locations in school zones with high-visibility crosswalks, enhanced school signage, and daylighting, as well as 6 newly stop-controlled residential intersections throughout the city.

DEPARTMENT EFFICIENCIES

- The Department implemented assertive recruitment strategies, such as organizing and attending career fairs within the community, social media marketing, partnering with the Human Resources Department to create continuous hiring lists, and adjusting interview protocols; vacancies reduced from 42% in March 2023 to 22% in March 2025. Public Works initiated a Governance Study to identify a more effective governance and financing model for the regional Sacramento Valley Station and surrounding district. The Department began implementation of cost recovery efforts for public electric charging to offset the cost of electricity and ongoing operations and maintenance. Overstay penalties will also be assessed to ensure turnover.

- The Parking Division implemented hiring incentives for Parking Enforcement Officers and subsequently hired and retained nine new officers. The additional staffing has strengthened enforcement capabilities, allowing the Parking Division to better serve the community. Parking also implemented a new parking guidance system for Memorial Parking Garage. A significant milestone, this system has improved parking efficiency and user experience by providing real-time information on available parking spaces.

- The Maintenance Services Division efforts to replace ornamental turf in medians with drought-tolerant landscaping is underway to decrease maintenance requirements and enhance water conservation. It is estimated that 10% of all ornamental turf will be removed by the end of the fiscal year. Streetscape maintenance service schedule was adjusted to twice monthly, reducing vendor costs by $200,000.

- The Fleet Management Division partnered with the telematics provider to transmit data to the state repository for Clean Truck Check (CTC) testing to reduce fleet technicians completing the tests manually. This gives the technicians more flexibility to assist with vehicle maintenance and repairs. Fleet Management also installed a new diesel exhaust removal system to allow for safer and more efficient conditions in maintenance shops; switched technician scanning tools which provide a broader scope of data for additional resources to diagnose vehicles and equipment; adjusted shop operational hours to align with City staff working hours to provide better customer service.

- The Facilities and Real Property Division is working with Information Technology and Risk Management departments to update the Facilities Asset Management System and centralize all City facilities into one asset database.

- The Recycling and Solid Waste Division initiated planning for a re-route of residential garbage, recycling, and organics collections to accommodate new development and optimize operations. The re-route is targeted to be implemented in FY 2026/27.

- The Engineering Services Division created a Project Management Database to streamline reviews and approvals to make project delivery more efficient. Updated the permit fee calculator for development plan reviews and inspection costs to provide more accurate estimates based on actual bid costs and construction duration. This reduces staff time spent on invoicing and gives developers more realistic financial projections. The Division also launched an online project dashboard for all transportation projects, giving internal and external customers real-time visibility to improve coordination, collaboration, and awareness of project status in the public right-of-way.

- The Mobility and Sustainability Division in partnership with the Facilities began collecting fees for electric vehicle (EV) charging stations at all EV Blueprint sites, as well as many City-managed garages. These fees provide the critically needed funding in order to support sustainable management and long-term operations of these public-facing EV charging stations.

OBJECTIVES FOR FY2026/27

- Update the Pavement Conditions Report to reflect current conditions and maintenance strategies, including a detailed analysis of pavement quality by council district and disadvantaged areas.

- Transition the Supplemental Permit Parking (SPP) program from a pilot to a formal program, providing residents in developments with limited or no on-site parking the opportunity to purchase on-street parking permits. Formalizing the program will improve parking access, enhance neighborhood parking management, and offer more convenient parking solutions for affected residents.

- Evaluate the structural integrity and condition of City-owned parking garages and develop a prioritized plan to address deferred maintenance, ensuring safe operations and informed long-term capital planning.

- Evaluate on-street parking restrictions citywide and work toward greater uniformity and consistency in hours of operation and parking restrictions. This effort will improve clarity for the public, support equitable enforcement, and enhance overall curbside management.

- Launch the Climate Equity Pilot to advance equitable Climate Action & Adaptation Plan implementation through community-led projects.

- Launch the Urban Forest Plan Implementation Working Group to bring together City staff and tree care-holders to jointly develop ways to effectively implement the Sacramento Urban Forest Plan.

- Launch a Parking Lot Greening Pilot Program that will retrofit one City parking lot and develop a guidebook to support private property owners in identifying low-cost, high-impact greening projects for voluntary compliance with the Parking Lot Shading Ordinance.

- Complete the Vision Zero Action Plan Update.

- Update to the Transportation Systems Management Program (TSMP), update to modernize the City's Street Design Standards, and implementation of an Automated Red Light Enforcement Program.

- Fleet Management will provide technicians with training specific to the vehicles in our fleet, including electric vehicles, and acquire up-to-date diagnostic tools to ensure efficient identification and resolution of vehicle and equipment issues.

- Continue to implement AB 43 speed reduction measures to reduce speed limits n specified locations to address safety concerns.

- Complete the Traffic Signal Operations Manual, establishing clearer standards for all signal planning, design, construction, timing, and modification.

- Hire all new members of the Transportation Safety Team and draft a framework for identifying eligible quick-build project locations and community outreach.

- Complete an update on the Fleet Transportation Policy to effectively manage the use of City vehicles.

- Complete the analysis and start implementation of a plan to adhere to the Advanced Clean Fleet Regulation.

- Complete the renovation projects and open the Martin Luther King Jr. Library and the North Sacramento Hagginwood Library. Major renovations are funded through “Building Forward, Library Infrastructure” State grants and City-matching funds.

- Replace the Uninterruptable Power Supply at the City’s 911 Communications Center and Data Center.

- Complete the installation of an Emergency Standby Generator at the Pannell Community Center allowing the Center to be used during Smoke events, and times of high heat or extreme cold as cooling and heating centers, even with disruptions in Sacramento Municipal Utility District (SMUD) power.

- Explore efficient and convenient ways to distribute compost from the City’s organics recycling program at no cost to City residents to meet Senate Bill 1383 procurement requirements.

- Implement new residential garbage, recycling, and organics collection routes to optimize operations and address new development.

- Commence construction of the I Street Bridge Replacement project.

- Update the Project Delivery Manual which will help train new staff with the City’s project delivery policies and procedures and will also assist with internal and external audits. Start construction on the Regional Bus Mobility Center at the Sacramento Valley Station.

- Continue to work with IT to support them on their large Last Mile and Middle Mile telecom projects which will begin construction and bring the possibility of internet to every single home in Sacramento.

BUDGET AND POSITION CHANGES

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
RSW Admin Services	Delete one position (1.0 FTE - Integrated Waste Equipment Operator) and add one new position (1.0 FTE - Senior Staff Assistant) in the Recycling and Solid Waste Division to support human resources operations efficiencies and enhance service delivery.	Recycling and Solid Waste	-	(5,088)	-
Mobility and Sustainability	Delete one position (1.0 FTE - Assistant Engineer) and add one new position (1.0 FTE - Associate Planner) in the Funding and Asset Planning section of the Mobility and Sustainability Division to manage transportation assets and pursue available funding.	General Fund	(4,897)	4,897	-
Mobility and Sustainability	Delete one position (1.0 FTE - Assistant Engineer) and add one new position (1.0 FTE - Associate Planner) in the Funding and Asset Planning section of the Mobility and Sustainability Division to manage transportation assets and pursue available funding.	Gas Tax 2016	4,897	-	-
Mobility and Sustainability	Add one position (1.0 FTE - Senior Planner). Establish new fund and increase revenue and expense budget to implement Senate Bill 720 (Ashby) - Automated traffic enforcement system programs.	General Fund	(261,099)	161,361	1.00
Parking Enforcement	Delete five positions (5.0 FTE - Parking Enforcement Officer) and add five new positions (5.0 FTE - Senior Parking Enforcement Officer [SPEO]). Increase certain parking violation fines and supportive actions. Updated equipment will increase efficiency and SPEOs will support complex enforcement assignments currently experiencing a processing backlog, thus improving service levels for the public.	General Fund	(2,008,548)	158,008	-
Streetscape Maintenance	Delete one position (1.0 FTE - Program Specialist) and add one new position (1.0 FTE - Operations General Supervisor) in the Maintenance Services Division to improve operational efficiencies.	General Fund	(79)	79	-
Streetscape Maintenance	Delete one position (1.0 FTE - Program Specialist) and add one new position (1.0 FTE - Operations General Supervisor) in the Maintenance Services Division to improve operational efficiencies.	New Measure A Maintenance	79	-	-
Admin & Advanced Planning	Delete one position (1.0 FTE - Administrative Officer) and add one new position (1.0 FTE - Operations General Supervisor- Streetscapes Maintenance Supervisor) in the Maintenance Services Division to maintain service levels.	General Fund	(79)	79	-
Admin & Advanced Planning	Delete one position (1.0 FTE - Administrative Officer) and add one new position (1.0 FTE - Operations General Supervisor- Streetscapes Maintenance Supervisor) in the Maintenance Services Division to maintain service levels.	Gas Tax 2016	79	-	-
Fleet Management Admin	Delete one position (1.0 FTE - Program Specialist) and add one new position (1.0 FTE - Administrative Officer) in Fleet Division to maintain service levels.	Fleet Management	-	(1,815)	-
Parking Facility Maintenance	Add one position (1.0 FTE - Electrician) for Facilities and Real Property Management to support increased workload from aging/increased facilities and electric vehicle infrastructure.	General Fund	(122,480)	123,830	1.00
Parking Facility Maintenance	Add one position (1.0 FTE - Electrician) for Facilities and Real Property Management to support increased workload from aging/increased facilities and electric vehicle infrastructure.	Parking	68,107	-	-
Mobility and Sustainability	Increase parking meter rates, add new vehicle for the parking facilities maintenance supervisor, and establish meter revenue as the funding support for Curb Management section. Ensure sufficient vehicle availability for operations and improve on-street parking availability for visitors and merchants.	General Fund	(789,008)	379,040	-

BUDGET AND POSITION CHANGES (continued)

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Mobility and Sustainability	Increase parking meter rates, add new vehicle for the parking facilities maintenance supervisor, and establish meter revenue as the funding support for Curb Management section. Ensure sufficient vehicle availability for operations and improve on-street parking availability for visitors and merchants.	Gas Tax 2016	(408,451)	-	-
Parking Meter Collections	Extend parking meter operating hours to 10pm across all metered areas to improve on-street parking access for visitors, merchants, and residents.	General Fund	(582,634)	28,549	-
Parking Meter Collections	Increase revenue and expense budgets for Parking Meter Collections by adding 200 new metered spaces in high impact areas. Increasing space turnover will improve access to downtown for citizens, visitors, and merchants.	General Fund	(211,392)	209,345	-
Parking	Increase revenue and expense budgets for the Parking Services division to reflect ongoing growth in parking garage utilization. Establish new multi-year operating project (MYOP) with generated funds to support economic development opportunities.	Parking	(1,000,000)	800,000	-
Parking	Increase revenue and expense budgets for the Parking Services division to reflect ongoing growth in parking garage utilization. Establish new multi-year operating project (MYOP) with generated funds to support economic development opportunities.	SB720 Red Light Camera Fund	-	200,000	-
Off-Street Parking Admin	Increase hourly rates in City parking garages to be consistent with surrounding market, recover increasing operational costs, and improve parking availability for visitors and merchants.	Parking	(175,240)	6,217	-
On-Street Parking Admin	Establish fee structure for Residential Permit Parking program to improve parking availability for residents, visitors, and merchants, and recover operational costs of the existing program.	General Fund	(1,088,581)	127,699	-
Sacramento Marina	Increase revenue budget for Marina to reflect increased berth rates implemented January 1, 2026 and align budget with actual trends.	Marina	(150,000)	-	-
RSW Admin Services	Adjust revenue and expense budgets for Recycling and Solid Waste to align with actual revenue and expenditure trends. Purchase new specialized vehicle for bin maintenance to maintain service levels and reduce overtime.	Recycling and Solid Waste	(2,200,541)	(2,240,288)	-
Pavement Maintenance	Add Maintenance Services equipment to address operational needs: High pressure water trailer and pressure washer/steam cleaner for cleanup and maintenance including graffiti removal and dust suppression.	Gas Tax 2016	-	37,407	-
Fleet Management Admin	Increase funding one-time for Fleet Shop CIP to repair and replace outdated equipment, improve worker safety, and recognize operational efficiencies.	General Fund	-	204,881	-

MEASURE U

The following chart summarizes the Department's Measure U programs.

Funding Category	Program Name	FTE	FY2026/27 Proposed
Climate Action			
Operations	Climate Action and Sustainability	4.00	564,432
Community Response			
MYOP	Illegal Dumping Collection	-	400,000
	PW Sustainability Program	-	300,000
Miscellaneous			
Operations	Fleet Management Administration		51,119
Grand Total		**4.00**	**$ 1,315,551**

PERFORMANCE MEASURES

Facilities & Real Property Management Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percent of all facility work order requests completed within a 30-day performance standard	51%	60%	61%	60%	60%

This measure indicates how quickly work order requests are completed. Work order categories include "emergency" with a one-day performance standard, "priority" with a seven-day performance standard, and "standard" with a 30-day performance standard.

Fleet Management Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percent of City vehicles available at 6:00 AM	92%	92%	91%	91%	95%

This measure indicates what percentage of overall City vehicles are available to operators for City services. The division is collecting information to measure staffing ratios and estimated service demands for each shop to appropriately staff each shop to sustain adequate vehicle availability.

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percent of alternative fuel vehicles purchased	61%	67%	61%	61%	65%

The California Global Warming Solutions Act of 2006 (Assembly Bill 32) requires California to reduce its GHG emissions to 1990 levels by 2020. The City's Fleet Management Division Sustainability Policy states that annual purchases of fleet replacement vehicles will include a minimum commitment of 50% for alternative fuel and/or alternatively powered vehicle replacements by 2018, and 75% by 2025. Starting in FY2019/20 target includes renewable diesel purchases, not previously included.

Maintenance Services Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percentage of roads with a Pavement Condition Index above 70 (good rating)	23%	22%	22%	22%	22%

The Maintenance Services Division is responsible for the City's street infrastructure system which includes over 3,118 lane miles of paved roadway. The Maintenance Services Division's goal is to work towards a Pavement Condition Index of 70 (good) from its current rating of 56 (fair). Beginning in FY17, the City updated the method of calculating pavement conditions from the Pavement Quality Index to the industry standard Pavement Condition Index.

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percentage of 311 service requests for potholes responded to within 48 hours	93%	93%	96%	95%	96%

The Maintenance Services Division is responsible for the street infrastructure system which includes the maintenance of 3,118 lane miles of paved roadway. Patching potholes is an essential service and on average, the Maintenance Services Division patches over 2,000 potholes per month. Our customer commitment is to respond to 311 complaints for potholes within 48 hours of receiving the request.

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percentage of tree inventory pruned per annual cycle	58%	60%	78%	80%	90%

The City's Urban Forestry Program maintains, sustains and enhances Sacramento's tree canopy through a variety of programs. Urban Forestry staff (internal and contractors) need to prune 890 trees monthly on average to stay consistent with our goal of maintaining a less than seven-year pruning cycle for all of our 75,000 plus public trees. However, beginning in FY20 a lack of staffing has created a backlog for trees being pruned.

Parking Services Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Revenue generated per parking meter	$1,613	$1,744	$2,169	$2,739	$2,768

The Parking Division is responsible for the collection and maintenance of over 6,100 paid on-street parking spaces within the Central City. The division continues to work with downtown and midtown merchants to repurpose metered spaces to accommodate customer pickup and delivery as well as implementing Al Fresco dining options. Throughout the City, there are over 3.5 million parking meter customer transactions per year.

* Beginning in the last quarter of FY2019/20 results were affected by significant decline in revenue due lack of on-street parking meter utilization due to the pandemic. With a steady increase in utilization each year, meter revenue is projected to reach pre-pandemic levels in FY24/25.

Marina Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Marina slips occupancy rate	87%	84%	87%	87%	87%

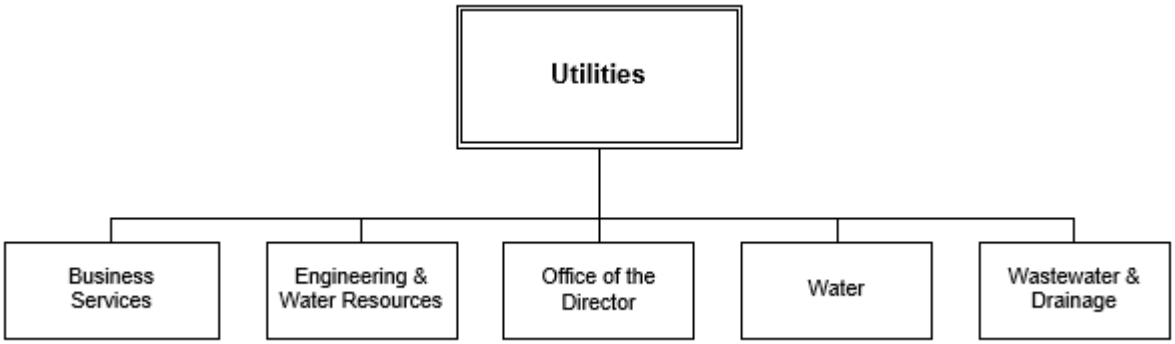
The Sacramento Marina has 475 available boat slips, which can accommodate boats varying in length from 25 to 50 feet. Historically, the Marina had an average 94% occupancy rate, however during the Great Recession the occupancy rate dipped to as low as 44%. Occupancy began to improve in 2016 and in recent years has maintained a steady average occupancy between 80% - 87%.

Recycling & Solid Waste Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Percent of City collected waste diverted from landfill	46%	47%	47%	48%	47%

California State law requires that at least 50% of the waste generated within the city limits be diverted from landfills. While the percent of City-collected residential waste (recycling, organics and household junk) diverted from landfills is below the State threshold as a jurisdiction, the City government collection rate meets the state requirement at 50% diversion for Calendar Year 2022, the latest data available. The difference is due to the higher level of waste diversion by the majority of commercial waste haulers, which is not part of the City's residential collection service. The City is also implementing diversion measures to reduce organic waste in landfills in accordance with SB 1383, which has a statewide goal of a 75% reduction from 2014 levels. Educating customers on proper recycling is central to seeing these percentages grow. Over 50% of the Division's annual outreach expenditure is spent on increasing diversion.

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of complaints of missed pickups (per 1,000 refuse accounts)	10	9	9	9	9



In a given year, City Integrated Waste Equipment Operators service almost 18 million garbage, recycling and yard waste containers. Complaints of missed collections represent the highest volume of solid waste related calls to City 311; however, the actual number of verifiable service miss represents only a fraction of one percent of the total containers collected annually.

23

SECTION - 23
Utilities

Utilities

The mission of the Department of Utilities is to provide dependable, high-quality water, wastewater, and storm drainage services in a fiscally and environmentally sustainable manner.

The **Department of Utilities (DOU)** provides and maintains water, wastewater, and storm drainage services and facilities for its customers, City ratepayers. These services are crucial to safeguard the health and safety of the public, support economic development, protect the environment, and improve the quality of life in our city. DOU works in conjunction with other City Departments as well as regional, state, and federal agencies in the operation, maintenance, development, and rehabilitation of water resources infrastructure to comply with regulatory requirements.

DOU is organized into four operating divisions and the Office of the Director. The operating divisions consist of Business Services, Engineering and Water Resources, Water, and Wastewater & Drainage. This organizational structure allows for increased collaboration across business functions and enables DOU to focus efforts on customer priorities.

- Business Services: Provides fiscal support by enhancing and maintaining the financial stability of our Water, Wastewater, and Drainage Funds through accounting, budgeting, and long-range financial planning; provides utility customers with customer service and billing services.

- Engineering & Water Resources: Provides engineering, construction, and/or contract support for capital projects; development review; department-wide procurement for goods and services; water conservation program implementation; regional water policy activities; and in collaboration with the Water and Wastewater & Drainage Divisions, ensures compliance with state and federal regulations.

- Office of the Director: Provides department leadership and direction by fostering a healthy work environment, focusing on innovation, sustainability, resiliency, and excellent customer service. Engages in government affairs by working on local, state, and national legislative and policy matters. Further public education, and outreach; while planning for current and future generations using a strategic plan that protects, preserves, and enhances water resources and the environment for our community.

- Water: Provides operations and maintenance (O&M) of the water distribution system, surface water treatment plants, groundwater wells, and reservoirs; cross-connection control program; construction coordination with capital improvements for infrastructure upgrades; water quality monitoring and regulatory compliance; research and development into regulatory change, optimization of processes, and water quality issues.

- Wastewater & Drainage: Provides O&M for storm drainage, wastewater, and combined stormwater/ sewer systems, treatment plants, wastewater and storm drainage pumping facilities, levees, and O&M for electrical instrumentation, Supervisory Control and Data Acquisition (SCADA), and for the water, wastewater, and drainage system assets. In addition, the division oversees the citywide Underground Service Alert (USA) program and citywide generator program for emergency standby power systems, to ensure operational readiness and regulatory compliance.

DOU also provides administrative and financial support and oversight to the Water Forum. The Water Forum consists of five (5.0) full-time employees and has two operating funds and one reimbursable fund. The Water Fund provides reimbursements for the City's share of the costs associated with this joint effort, while the other program costs are covered by cost-share partners.

PROGRAMS/SERVICE HIGHLIGHTS

- Completed the required five-year update of the America's Water Infrastructure Act (AWIA) Risk and Resilience Assessment. Risk and resilience assessments and subsequent emergency response plan updates are used to identify and mitigate vulnerabilities, ensuring the safe and reliable delivery of drinking water.

- The Central Valley Regional Water Quality Control Board updated the Combined Sewer System permit for the City. The permit revision will allow the City to migrate from flood reduction-only goals to an adaptive management process to focus on identifying areas susceptible to system outflows, meeting receiving water quality objectives with a continued focus on reducing/eliminating untreated combined sewer overflows.

- Filed City protest to Delta Conveyance Project (tunnels), reached consensus on significant provisions in the Water Forum 2.0 Agreement, and successfully included language in Proposition 4 ballot measure that supports DOU projects.

- Executed an agreement with Caltrans to provide up to $23 million for four large trash capture devices, supporting both agencies' regulatory requirements to prevent trash from discharging into waterways by 2030. Caltrans has provided $3 million in FY2025/26 to begin project design and feasibility evaluations.

- Completed the City's Customer Care Billing (CCB) system, a multi-year initiative aimed at modernizing the City's billing and customer service platform. This upgrade enhanced system reliability, improved data accuracy, streamlined account management processes, and strengthened the overall customer experience by enabling more responsive service, improved self-service options, and better integration with other City systems.

- Assumed responsibility for managing the City's cross connection tracking and reporting functions, previously handled by Sacramento County. The program team imported data to new public-facing tracking and reporting software allowing private backflow device owners and testers to purchase annual status tags for each device. This work streamlines communication with private device owners and supports annual testing compliance to protect water quality. DOU also updated City codes for cross-connection control standards and discontinuance of water service for violation of cross-connect control standards.

DEPARTMENT EFFICIENCIES

- Advanced the Asset Management (AM) Program in alignment with the AM Strategic Plan to support long-term operational efficiencies. Key accomplishments include near-completion of the Asset Management Plan for water distribution storage facilities, development of condition assessment methodologies for

wastewater and storm drainage sump stations, completion of eight wastewater facility assessments with twenty additional assessments planned through FY2026/27, and an audit of flood-related assets that improved inventory accuracy and field inspection practices. Additional data-management initiatives include the following: review and update of drainage detention basin asset inventories, development of storm drainage structural treatment facility asset inventories and maintenance workflows, and continued data analysis and validation in support of future GIS Utility Network implementation.

- Expanded water quality monitoring capabilities by installing 12 new Water Quality Sample Stations in FY2025/26, enabling more detailed analysis of distribution system water quality and supporting data-driven operational decisions.

- Enhanced system safety by replacing the failing chlorine gas scrubber at the Sacramento River Water Treatment Plant, ensuring reliable mitigation of chlorine releases in the event of an equipment failure.

- Improved distribution system performance by installing 1,500 linear feet of new 8-inch water mains, increasing system reliability, enhancing water quality, and strengthening fire protection capacity.

OBJECTIVES FOR FY2026/27

- Deliver the FY2026/27 CIP water, wastewater, and drainage infrastructure programs on schedule and within budget.

- Partner with the Auditor's Office to complete a comprehensive energy audit evaluating the feasibility of transitioning DOU operations to 100% electric. The audit will include cost-benefit analyses of solar power purchase agreements, potential use of solar shares, participation in SMUD's automated demand response program, and operational and emergency response impacts associated with fleet electrification.

- Support the Auditor's Office in conducting an independent financial review of the Storm Drainage Fund (Fund 6011) and the Storm Drainage Property Fee Fund (Fund 6021) to enhance financial transparency and long-term fund sustainability.

- Collaborate with the selected rate consultant to develop a cost-of-service analysis, strategic communication plan, and long-term funding plan for the water and wastewater funds that will support the FY2027/28 planned rate adjustments.

- Advance the Water+ Program by completing the Basis of Design for rehabilitation and resiliency improvements at the City's existing drinking water treatment plants

and water supply expansion project needed to meet 2040 General Plan growth projections. Prepare and advertise a Request for Proposals to select a design consultant and initiate design activities during FY2026/27.

- Finalize design of two large trash capture projects funded by Caltrans and begin construction at the two large trash capture project locations. Continue progress on trash capture system pilot to select most cost-efficient solutions for small trash capture design. Collaborate with regional partners to meet compliance objectives for trash regulations for waterways. Establish contracts with qualified firms to provide professional services to achieve compliance by the 2030 regulatory deadline.

- Support the City Treasurer's Office in implementing the Customer Fund Merchant Fee to improve cost recovery and financial management practices.

- Complete implementation of $7 million grant-funded groundwater projects no later than December 31, 2026. The funds will be used towards construction of capacity enhancements of existing wells which will allow for groundwater production during drier hydrologic years.

- Improve water system reliability and resiliency by installing 12 additional Water Quality Sample Stations, replacing 700 linear feet of aging water mains, relocating 400 linear feet of mains currently positioned under creeks, and replacing 30 obsolete fire hydrants that have reached end-of-life.

BUDGET AND POSITION CHANGES

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Water Production Operations	Delete one position (1.0 FTE - Junior Plant Operator) and add one new position (1.0 FTE - Senior Plant Operator) for the Water Division's Water Maintenance Program to address ongoing support challenges impacting reliability and resiliency objectives.	Water	9,706	(5,559)	-
Water Maintenance	Delete one position (1.0 FTE - Junior Plant Operator) and add one new position (1.0 FTE - Senior Plant Operator) for the Water Division's Water Maintenance Program to address ongoing support challenges impacting reliability and resiliency objectives.	Wastewater	(2,912)	-	-
Water Maintenance	Delete one position (1.0 FTE - Junior Plant Operator) and add one new position (1.0 FTE - Senior Plant Operator) for the Water Division's Water Maintenance Program to address ongoing support challenges impacting reliability and resiliency objectives.	Storm Drainage	(6,794)	-	-
Water O&M Admin	Delete one position (1.0 FTE - Administrative Analyst) and add one new position (1.0 FTE - Program Specialist) for the Water Division's Water Operations & Maintenance Administration Program to have a dedicated staff member assigned to oversee the Automated Metering Infrastructure (AMI) program.	Water	-	(371)	-

BUDGET AND POSITION CHANGES (continued)

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Wastewater Collection	Increase funding for category change on Unit 11149, Service truck to Hydro Excavator Truck to allow repair crews to perform excavation and utility exposure work in-house, without disrupting scheduled maintenance or relying on external equipment.	Wastewater	-	178,500	-
USA Program	Delete one position (1.0 FTE - Utilities Locator) and add one new position (1.0 FTE - Utilities Operations & Maintenance Serviceworker) for the Wastewater & Drainage Division's USA Program to allow operational flexibility due to the fluctuations in underground service alert (USA) workload.	Water	1,289	(2,578)	-
USA Program	Delete one position (1.0 FTE - Utilities Locator) and add one new position (1.0 FTE - Utilities Operations & Maintenance Serviceworker) for the Wastewater & Drainage Division's USA Program to allow operational flexibility due to the fluctuations in underground service alert (USA) workload.	Wastewater	(645)	-	-
USA Program	Delete one position (1.0 FTE - Utilities Locator) and add one new position (1.0 FTE - Utilities Operations & Maintenance Serviceworker) for the Wastewater & Drainage Division's USA Program to allow operational flexibility due to the fluctuations in underground service alert (USA) workload. PERFORMANCE MEASURES

Business Services Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
City Manager Goal = 3:00 minutes or less	2:02 min	1:50 min	2:26 min	2:32 min	3:00 min

The Department's Average Speed to Answer (ASA) is the number of seconds a customer waits in the queue prior to being answered by a Customer Service Representative. The ASA is one of the key performance indicators (KPI), to measure the Department's organizational performance and effectiveness in responding to customer questions and/or concerns about their utility billing accounts. The 3:00 minutes ASA is a lower-tier (25th percentile) industry standard for combined utilities as documented in the 2017 American Water Works Association (AWWA) Utility Benchmarking Performance Management for Water and Wastewater Report.

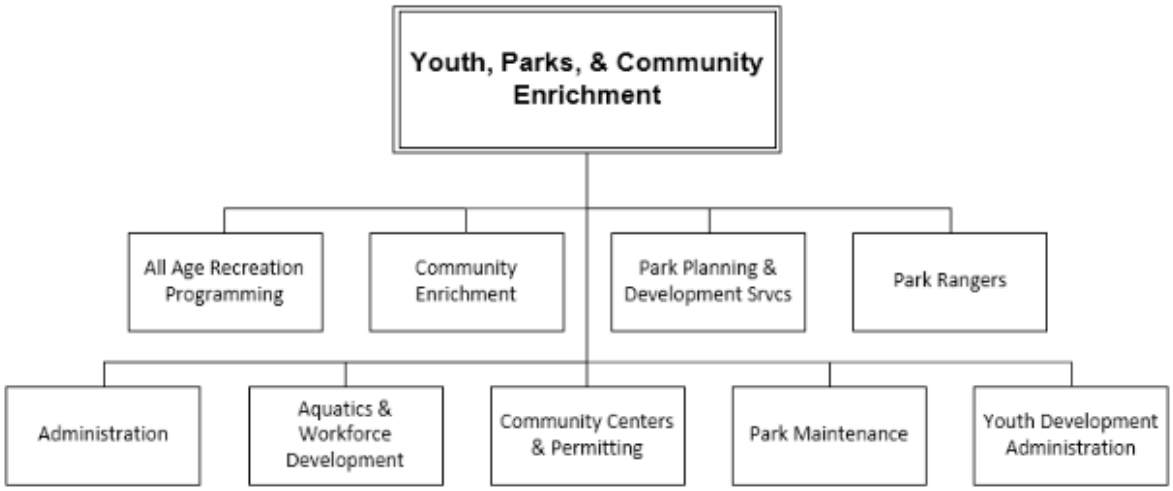
Engineering & Water Resources Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
% water conservation achieved (year-over-year)	38%	35%	33%	32%	35%

The percentage of water conservation achieved citywide is not only a required performance measure to comply with the City Council Resolution for water conservation, but also a key performance indicator (KPI) to measure effectiveness of the Department's water conservation outreach and enforcement efforts. This percentage reduction is compared to our 20% by 2020 gallons-per-capita-per-day target as mandated by SB X7-7.

Operations & Maintenance Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
# of sewage spills	3.00 per 100 miles	4.15 per 100 miles	2.48 per 100 miles	2.50 per 100 miles	2.50 per 100 miles



The number of sewage spills is measured to ensure regulatory compliance and to gauge the effectiveness of operational activities and capital improvements that have been implemented to achieve this compliance. The primary permit with respect to the separated system is the waste discharge requirements permit issued by the State Water Resources Control Board. The goal of this permit is to minimize sewage spills from the separated system.

SECTION - 24
Youth, Parks, & Community Enrichment

Youth, Parks, & Community Enrichment

To empower our youth, strengthen neighborhoods, and provide life-enriching programs for a beautiful livable community.

The City's **Youth, Parks, & Community Enrichment (YPCE) Department** provides residents and visitors with beautiful parks and enriching programs to create a thriving community with healthy, strong, and cohesive neighborhoods. Program development and service delivery for the Department is guided by the following primary themes: empowering and enriching Sacramento youth, protecting the City's green infrastructure, and optimizing the experience of living through people, parks, and programs.

Department services are structured as listed below.

- Administration: Responsible for department-wide support of fiscal management, human resources, procurement, grant writing and management, lease management, and administrative operations that include managing Gifts to Share (a nonprofit that supports City events, projects, and programs), the Parks and Community Enrichment Commission and the Ann Land & Bertha Henschel Commission.
- All Ages Recreation Programming: Responsible for citywide programs, and services that navigate critical pathways for youth development, and support lifelong recreation and learning. Program areas support people of all ages and abilities, civic engagement, expanded learning, youth and adult enrichment and sports programs, older adult services.

- Aquatics and Workforce Development: Responsible for 17 city pools including the regional North Natomas Aquatics Complex (NNAC), Camp Sacramento along with YPCE workforce development programs that provide work-based opportunities for youth.
- Community Centers and Permitting: Responsible for a wide range of facilities that support safe space, community livability, and a high quality of life for all of Sacramento. This includes 15 City-operated Community Centers and Clubhouses, along with citywide permitting and special events. Provides accessibility to recreation, leisure enrichment and community resources for all ages, including youth, teens, active adults, and senior programs.
- Park Maintenance: Responsible for daily maintenance of 237 parks, parkways, bike trails, and open space areas spanning over 4,360 acres. Responsibilities include maintenance of turf, landscape, structures, and park amenities citywide. Includes maintenance and operation of the Old City Cemetery, a State historic landmark that offers tours and events through the year
- Park Planning & Development Services: Responsible for park planning, parkland acquisition, park site amenity planning, policy implementation, asset management and the design and development of new and renovations of existing neighborhoods, community, regional parks and parkways.
- Park Rangers: Responsible for the public safety, service, and preservation of 237 parks, bike trails, aquatics facilities, community centers and open space, spanning across 4,360 acres and provide support to the Incident Management team in citywide response to homelessness.
- Youth Development Administration: Responsible for refining, developing, and promoting the City's overall strategic vision to achieve citywide youth development goals in accordance with the Youth Development Plan, along with the implementation of The Sacramento Children's Fund (Measure L)

PROGRAMS/SERVICE HIGHLIGHTS

- Workforce Development Unit provided work-based learning programs and paid work experiences for youth ages 10-18. These programs focused on workforce readiness, setting youth up to succeed in supporting homelessness prevention and future economic development. Stipend-based programs supported over 730 participants in 25 cohorts at community centers throughout the city. Two hundred eighty youth were employed, completing approximately 28,000 hours of work at various parks, community centers, local businesses, and schools. The combination of both stipend-based programming and paid work experience accounts for close to $1M dollars in direct youth investment.

- The Aquatics section opened 12 neighborhood pools, including the grand reopening of Southside Pool, and four stand-alone wading pools for the 2025 summer season, while also operating the 10-month regional NNAC and year-round community center. Recreation swim provided a safe place to swim for over 90,000 visitors; over 3,600 registrations in water safety programs including swimming lessons and basic water safety classes for drowning prevention; aquacise and lap swimming provided health and wellness opportunities for over 17,000 visitors to City run pools. The Summer Reading Program partnership with Sacramento Public libraries resulted in 3,785 free admissions to pools for a total value of $23,680.

- The NNAC hosted several high-level swim meets that were major economic drivers for Sacramento. This included the nationally televised 2026 TYR Pro-Series Swim Meet at NNAC that featured swimmers from all over the world, including current and former Olympians. These multi-day events drew participants and spectators to the Sacramento area for the entire week of competition.

- Community Centers provided programming opportunities and access to safe space for over 29,135 youth and teen visits through in-person afterschool and summer camps, Hot Spots Remix, and Recreation Explorer Camp (R.E.C.), serving youth ages 3-5 in a play-based preschool program. Centers increased program offerings for older adults across the city, serving 13,114 meals in partnership with Meals on Wheels. Centers had over 41,320 senior visits and 14,943 fitness room visits.

- Through the Triple-R Adult Day program, Older Adult Services (OAS) provided safe daytime support programming to 82 participants with dementia, with 33% of participants receiving financial support through the Triple-R sliding scale program offerings for older adults across the city, serving 13,114 meals in partnership with scholarship. Triple-R exceeded previous year's attendance and totaled 7,285 visits, providing respite for family members from round-the-clock caregiving. At Hart Senior Center, staff answered 11,139 calls or visits for resource and referral services, distributed 8,000 meals through Meals on Wheels, and recorded attendance numbers of 65,045 for in-person and virtual activities. Additionally, Hart Senior Center hosted valuable services through partnerships with American Association of Retired Persons, UC Davis Health, Legal Services of Northern California, and others. Through these partnerships, older adults benefit from

resources such as health lectures, tax assistance, and educational legal presentations.

- The Reservations office issued over 750 youth and adult sports field permits with over $110,000 waived through the sports field fee waiver program, and over 3,000 picnic reservation permits. Community Centers supported over $245,000 in fee waivers for community-based organizations to provide programming that supports youth, families, and seniors. Organizations include Senior Link, Agency on Aging, Dignity Health, Project Alpha and more.

- Park Planning and Development Services completed 32 park projects across the city and currently has 59 active park projects with an estimated budget of $37M. YPCE Park Planning team also completed over $25M In deferred maintenance projects since FY2019/20. Projects include accessibility improvements, court resurfacing projects, playground replacements and restroom repairs and replacements. Recent deferred maintenance projects include Mama Marks Park wading pool conversion to splash pad, Lewis, Mark Hopkins and Steve Jones Park playground replacements, Robertson Park Restroom replacement, and Sim and Glenn Hall Park baseball field renovations.

- The Youth Development Administration team supported $14M in grant programs and initiatives since FY2024/25, with over 80% funded by the General Fund. These grants support community-based organizations and city-led programming in addressing the priorities of youth safety, violence prevention, workforce development, childcare and economic development in under-resourced communities.

- In FY2025/26, the Park Maintenance Division assumed maintenance responsibilities for one new parkland facility, Thelma Hawk Park, with two additional parks, Lakeview and Lakeshore Parks anticipated to be completed before the end of the fiscal year.

- The Ranger Division delivered strong service outcomes in 2025, responding to 9,862 calls for service, including 1,087 rapid-response homelessness-related calls.

- Rangers led 57 coordinated cleanups and processed 677 park use permits, supporting safe and active public spaces.

- Over $450K were invested in youth citywide through the Youth Program Scholarship Fund since implementation in FY2024/25. 4,473 youth qualified for scholarships for core programs awarding $196K. This included $126K in Community Center programs, $9K in Expanded Learning and Sports programs, and $61K in Aquatics programs. $145K were waived in community center rental fees for youth organizations and $108K were waived in athletic field rentals for youth sports organizations, supporting equitable access to core service programs and facilities.

DEPARTMENT EFFICIENCIES

- Park Planning and Development Services continues to engage with communities and pursue grant funding to supplement City funding as a mechanism to further address deferred maintenance and projects in park deficient and priority neighborhoods with the most critical need.

- The new Mama Marks Splash Pad, a conversion of an old wading pool, opened successfully and serves as a model for reducing staffing expenses while expanding access and continuing to meet community needs.

- The Summer Oasis summer camp program was realigned to include community centers with the previous park locations for operational efficiency. The reenvisioned summer camp provided indoor and outdoor activities, that were streamlined across all community center locations. Youth engaged in enrichment activities and neighborhood trips, including visits to city pools. Meals were provided in partnership with the local school districts. In 2025, community centers had 1,596 youth and teen participant enrollments, with over 10,000 visits across seven community centers and clubhouses. This realignment supported an increase in enrollment from 1,854 to 2,016 participants in the Summer Oasis program.

- The Expanded Learning section continued to partner with Robla School District and expanded in Twin Rivers and Natomas Unified School Districts to receive Expanded Learning Opportunity Program funding to support increased participation in afterschool programs and to provide out of school time camps. The increased funding and partnerships served almost 1,000 students in the 2025/26 school year.

- The Reservations Office continues to improve the sports field allocation process. Guidelines are posted on department website as “Athletic Field Use and Allocation Guidelines”. The purpose of the document is to outline the process and procedures for the scheduling of long-term and year-round sports and occasional or drop-in sports. In 2025, updates were made to include cricket fields and additional assessments are being evaluated to incorporate outdoor sport courts including but not limited to tennis, futsal and basketball courts.

- The Park Ranger team supported Department of Community Response’s (DCR) Rapid Response Team efforts to address the impact of homelessness in our parks, responding to over 1,087 calls, and assisted with 57 large clean-ups last year. The division acquired four additional portable Automated External Defibrillator devices, which are used for critical first aid response and potential life-saving measures in the field. Park Rangers also advanced technology and safety by partnering with the Sacramento Police Department to implement the Mobile Data Telephone system, providing real-time digital connectivity to dispatch during emergencies.

- Park Maintenance utilized nearly 42,000 volunteer hours in our parks in 2025, with a comparable wage value of over $1.6 million dollars. This is an enhancement to standard maintenance operations across all city parks.

OBJECTIVES FOR FY2026/27

- Deliver core programs and services with an equity-based approach and safely activate parks and facilities to provide a positive economic impact.
    - Continuing afterschool and summer camp programs that support youth safety and community-powered economies through affordable childcare for working families to include the addition of summer and break programs for youth in grades TK and Kindergarten as funded by Sacramento Children's Fund.
    - Provide scholarships and fee waivers, including the Youth Program Scholarship Fund and Hart Trust Fund, for low-income residents, food and resources for older adults on fixed incomes, and workforce training for at-risk youth, helping prevent homelessness through skill building and community integration.
    - Increase referral partnerships and third-party options through community partnerships to support participation in specialized programs including Triple R adult day program and Access Leisure.
    - The Youth Development Administration team will continue Measure L implementation. This work includes contract awards, annual report development, program management, and fiscal oversight.

- Prioritize maintenance of all facilities, parks, parkways, bike trails, natural areas and open space to ensure they are safe, clean, and accessible to all Sacramento residents and visitors.
    - Initiate and implement the Nino's Parkway Volunteer Enhancement Program, providing residents with opportunities to enhance the parkway areas adjacent to their homes through improved landscaping or garden projects.
    - Explore funding options for additional stand-alone wading pool conversions to splash pads. Design will begin on the Robertson Wading pool conversion this year.
    - Prepare updated Park Impact Fee Nexus Study and park land dedication requirements. Updates will incorporate adopted level-of-service standards and fees to fund new development of the planned park facilities.

- Park Rangers will prioritize public safety through proactive community engagement, patrol deployment and addressing issues of homelessness under the leadership of new Chief Ranger.
    - Continue supporting DCR's Rapid Response Team efforts to address homelessness outreach and cleanup.
    - Launch and implement the Community and Ranger Engagement Pilot Program to strengthen Ranger visibility, community partnerships, and proactive park use education across YPCE parks and facilities.

BUDGET AND POSITION CHANGES

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Youth Expanded Learning	Delete one position (0.90 FTE - Program Coordinator) in the Expanded Learning Division.	Measure U	1,815	(72,612)	(0.90)
Community Centers	Delete ten positions (10 at 0.20 FTE - Recreation Aides) and add four new positions (4 at 0.47 FTE - Building Monitor) in the Community Center Division and convert savings to service and supplies budget. Shift staffing to support rental and revenue generating programs.	Measure U	-	-	(0.12)
Community Recreation Services	Delete one position (0.40 FTE - Recreation Aide) and add one new position (0.40 FTE - Building Monitor) in the Community Recreation Division. Realignment of current position to better meet operational needs.	Measure U	-	-	-
Community Centers	Modify Community Centers and Clubhouses Fee Waiver/Fee Reductions Resolution. Resolution currently offers 100% discount and 50% for organizations that meet eligible criteria. Discounts would be modified to 50% and 25% for organizations that meet eligible criteria only. Community Center Division waived $380,000 in rental fees in FY2024/25 without reimbursement.	General Fund	-	-	-
Community Centers	Modify Community Centers and Clubhouses Fee Waiver/Fee Reductions Resolution. Resolution currently offers 100% discount and 50% for organizations that meet eligible criteria. Discounts would be modified to 50% and 25% for organizations that meet eligible criteria only. Community Center Division waived $380,000 in rental fees in FY2024/25 without reimbursement.	Measure U	(190,000)	-	-
Youth Development Administration	Change funding source for 50% of one position (1.0 FTE - Administrative Technician) in the Youth Development Administration Division from Measure U Fund to Children's Fund.	Measure U	(62,464)	-	-
Youth Development Administration	Change funding source for 50% of one position (1.0 FTE - Administrative Technician) in the Youth Development Administration Division from Measure U Fund to Children's Fund.	Measure L Children's Fund	62,464	-	-
4th R	Delete fifteen positions (1 at 1.0 FTE Program Developer and 14 at 0.25 FTE Recreation Aides) and add fourteen new positions (14 at 0.40 FTE Recreation Aides) in the 4th R Division. Conversion of the career position to part time positions aligns with program needs.	4th R Program	-	7,833	1.10

BUDGET AND POSITION CHANGES (continued)

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
START	Delete forty five positions (15 at 0.46 FTE Senior Recreation Aides and 30 at 0.46 FTE Recreation Aides) from the START Division and adjust corresponding offsets. Positions are being deleted due to loss of Expanded Learning Opportunities Program (ELOP) Funding from Robla Unified School District.	START	810,720	(810,720)	(20.70)
Youth Employment	Delete one position (1.0 FTE - Program Leader) and add two new positions (2 at 0.45 FTE - Senior Recreation Aide) in Youth Employment Division.	Measure U	-	(39,581)	(0.10)
Youth Employment	Reduce stipend amount paid to participants in Prime Time Teen, Young Leaders of Tomorrow, and Junior Rec Aide programs by 50%. Reduce Service and Supply Budget in Youth Employment Division.	Measure U	-	(100,000)	-
Older Adult Services	Delete four positions (2 at 1.0 FTE, 1 at 0.8 FTE and 1 at 0.6 FTE - Program Coordinator Older Adults) in the Older Adult Services Division to streamline staffing and improve department-wide operational efficiency. The delivery of services at the Hart Senior Center is being realigned to enhance operational efficiency through continued strategic collaboration with community centers with no impact on current service levels as the majority of programming continues to be provided by leisure enrichment contractors, dedicated volunteers, and established community partners.	Measure U	55,795	(329,688)	(3.40)
Youth Development Administration	Discontinue the Organizational Resiliency Fund annual allocation from Youth Development Administration Division.	Measure U	-	(300,000)	-
Community Centers	Delete twelve positions (2 at 1.0 FTE - Program Coordinator and 10 at 0.20 FTE - Recreation Aide) in the Community Center Division. Reduce after school programs in Community Centers.	Measure U	-	(233,790)	(4.00)
Aquatics	Delete eight positions (2 at 0.25 FTE and 2 at 0.30 FTE - Senior Lifeguard and 4 at 0.35 FTE - Assistant Pool Manager). Reduce Programming in the Aquatics Division: Close all four City wading pools.	Measure U	-	(117,520)	(2.50)
Youth Development Administration	Delete three positions (1 at 1.0 FTE - Program Supervisor, 1 at 0.47 FTE - Recreation Aide) from Youth Employment Division, and (1 at 0.40 FTE - Senior Recreation Aide) from Youth Development Administration Division. Reduce support to the Youth Commission capacity building training and discontinue Summer and Semester at City Hall program.	Measure U	-	(132,435)	(1.87)

BUDGET AND POSITION CHANGES (continued)

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Youth Employment	Eliminate stipends paid from Youth Employment Division's Prime Time Teen, Young Leaders of Tomorrow, and Junior Rec Aide programs to youth completing their programs. Reduce Service and Supply Budget in Youth Employment Division.	Measure U	-	(100,000)	-
Youth Employment	Delete two positions (1.0 FTE - Program Coordinator, and 0.46 FTE - Recreation Aide) in the Youth Employment Division. Reduce Prime Time Teen, Young Leaders of Tomorrow, and Jr. Rec Aide offerings by 50%.	Measure U	-	(107,150)	(1.46)
Aquatics	Delete fifty-four positions (1 at 1.0 FTE - Aquatics Recreation Coordinator, 2 at 0.20 FTE and 4 at 0.25 FTE - Cashier, 23 at 0.20 FTE - Lifeguard, 6 at 0.40 FTE - Pool Manager, 12 at 0.35 FTE - Senior Lifeguard and 6 at 0.35 FTE - Assistant Pool Manager), reduce revenue obligation by $35,308 and increase services and supplies budget by $250,000 in the Aquatics Division. Reduce programming in the Aquatics Division. Reduce operating schedules to 3-days per week at neighborhood pools.	General Fund	-	-	-
Aquatics	Delete fifty-four positions (1 at 1.0 FTE - Aquatics Recreation Coordinator, 2 at 0.20 FTE and 4 at 0.25 FTE - Cashier, 23 at 0.20 FTE - Lifeguard, 6 at 0.40 FTE - Pool Manager, 12 at 0.35 FTE - Senior Lifeguard and 6 at 0.35 FTE - Assistant Pool Manager), reduce revenue obligation by $35,308 and increase services and supplies budget by $250,000 in the Aquatics Division. Reduce programming in the Aquatics Division. Reduce operating schedules to 3-days per week at neighborhood pools.	Measure U	35,308	(499,728)	(15.70)
Older Adult Services	Increase in revenue budget in Older Adult Services Division to reflect projected revenues.	General Fund	-	-	-
Older Adult Services	Increase in revenue budget in Older Adult Services Division to reflect projected revenues.	Measure U	(20,000)	-	-
Fiscal And Management Services	Delete three positions (1.0 FTE - Recreation Superintendent and 2 @ 0.2 FTE Crew Leaders) from Older Adult Services and Youth and add one new position (1.0 FTE - Program Manager) in Fiscal Administration Division.	Measure U	-	(5,500)	(0.40)
Community Centers	Delete three positions (1 at 1.0 FTE , 1 at 0.80 FTE - Customer Service Assistant and 1 at 1.0 FTE - Program Leader). Convert savings to services and supplies budget in Community Center Division.	Measure U	-	-	(2.80)

BUDGET AND POSITION CHANGES (continued)

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Community Recreation Services	Delete two positions (1 at 0.80 FTE - Program Coordinator) from Community Recreation Division and (1 at 0.80 FTE - Program Leader) from Youth Employment Division then convert savings to services and supplies budget in the Youth Employment Division.	Measure U	-	-	(1.60)
Youth Employment	Delete five positions (1 at 0.35 FTE - Program Director, 1 at 0.25 FTE - Recreation Leader, 3 at 0.25 FTE Camp Aides) in the Camp Sacramento Division and convert savings to services and supplies.	Measure U	-	-	(1.35)
Camp Sacramento	Delete two positions (2 at 0.35 FTE - Assistant Camp Chef) and add one new position (1 at 0.39 FTE - Camp Chef) in the Camp Sacramento Division.	Measure U	-	-	(0.31)
Aquatics	Delete one position (0.45 FTE - Aquatic Specialist) and add one new position (0.45 FTE - Building Monitor) in the Aquatics Division and convert savings to service and supplies. Shift staffing to support high rental demand.	Measure U	-	-	-
Aquatics	Delete one position (0.45 FTE - Aquatics Specialist) in the Aquatics Division.	Measure U	-	(22,653)	(0.45)
Park Operations	Reallocation of FY2025/26 Budgeted Fleet Vehicle Replacement Funds to update vehicle and/or equipment replacements based on operational needs.	Measure U	-	-	-
City Cemetery	Increase revenue budget in the City Cemetery Division to match projections.	General Fund	-	-	-
City Cemetery	Increase revenue budget in the City Cemetery Division to match projections.	Measure U	(2,500)	-	-
Park Operations	Delete twenty-six positions (26 at 1.0 FTE Park Maintenance Worker) in the Park Maintenance Division and contract for park maintenance services with a third-party vendor.	Measure U	-	(567,428)	(26.00)
Camp Sacramento	Reduce revenue budget for Camp Sacramento Division to match projections.	General Fund	-	-	-
Camp Sacramento	Reduce revenue budget for Camp Sacramento Division to match projections.	Measure U	100,000	-	-
Park Operations	Reallocation of FY2026/27 Budgeted Fleet Vehicle Replacement Funds to update vehicle and/or equipment replacements based on operational needs.	Measure U	-	(94,063)	-
Park Operations	Reallocation of FY2025/26 Budgeted Fleet Vehicle Replacement Funds to update vehicle and/or equipment replacements based on operational needs.	Measure U	-	-	-
Youth Employment	Delete two positions (1.0 FTE - Program Leader, 1.0 FTE - Recreation General Supervisor) and decrease services and supplies in Youth Employment.	Measure U	-	(166,129)	(1.50)

PERFORMANCE MEASURES

Parks Operations Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Park maintenance cost per acre	$6,139	$6,058	$6,106	$6,100	$6,125

Currently, the Park Maintenance Division maintains more than 3,446 acres of parkways, developed turf, landscape, recreation structures, and park amenities citywide. Services provided by this division include mowing, weeding, litter removal, playground inspections, irrigation repair, and restroom cleaning.

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of developed park acres maintained per FTE	19.55	23.71	30.08	32.00	35.00

The department has established minimum service levels to ensure safe and clean parks and facilities. To accomplish this, each full-time equivalent Park Maintenance staff is generally assigned a service area. On average, a full-time equivalent staff's service area is approximately 35 acres. Any increase to park acreage, given existing staffing, has a direct negative impact on service levels.

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of volunteer hours managed per developed park acre	8.63	8.40	8.50	11.00	12.00

Over 40,000 volunteer hours are regularly provided by various groups, including Adopt-a-Park, park ambassadors, and countless cemetery volunteers each month. Volunteers supplement the department's routine park maintenance and beautification. Maintenance staff provides volunteer participants supervision, tools, garbage removal services, and horticultural expertise.

Park Safety Division

Key Measure	FY23 Actuals	FY24 Actuals	FY25 Actuals	FY26 Estimate	FY27 Target
Number of safety calls responded to per Park Ranger	275	277	758	875	950

The Park Safety Rangers provide security response to service requests received via 311 calls, routinely patrol areas of all parks, and when requested provide security support to City special events. In addition, the Park Rangers frequently address issues related to and coordinate outreach for people experiencing homelessness, address issues of criminal activity, and provide emergency assistance within city park areas.

25

SECTION - 25
Citywide and Community Support

Citywide and Community Support

Citywide Support

This section includes City costs, programs and revenues that are not directly associated with an individual department. Below are the major expenditures budgeted in Citywide and Community Support (Citywide).

Employee Benefits and Insurance

- Employee Benefits ($23.0 million - $21.3 million in the General Fund, $1.7 million in the Measure U [MU] Fund and $2.3 million in other funds):

    - Labor costs for approved contracts and proposals given to recognized employee organizations (REO) that are still under negotiation with the City;
    - Employee leave payouts authorized by labor contracts; and
    - Vacation and sick leave termination payouts;

  Budget authority is transferred from this program to departments to reimburse actual costs incurred for leave payouts. Reimbursements are done on a proportional basis if the actual costs incurred by departments exceed the available resources in Citywide.

- Salary Savings (-$3.2 million – -$2.9 million in the General Fund and -$0.3 million in the MU Fund) – A salary saving factor of 0.4% has been added to Citywide. This is to recover the savings caused by vacancies and recruitment and will allow the City to incorporate it into other areas. In the past fiscal years, a rolling three-year analysis was conducted on labor to determine the rate. The salary savings rate has decreased over the past several years due to the elimination of vacant positions. The rate may change in the future based on updated analysis and if any more positions are eliminated.

- General Liability & Auto Liability (GL & AL) ($54.1 million - $48.5 million in the General Fund and $5.6 million in the MU Fund) – The City contracts with Bickmore Risk Services (Bickmore) to estimate the annual budget needed to cover claim costs and expenses that will occur in the coming fiscal year and the program's liability for outstanding claims. Bickmore utilizes historical City loss data to forecast the upcoming fiscal year's cost of claims and expenses at various confidence levels. The City uses the recommended 80% confidence level when budgeting for claim costs and expenses. The General Fund contribution for GL&AL is budgeted in Citywide, while contributions from the other funds ($29.2 million) are budgeted in the managing department's section (e.g., Solid Waste Fund contributions are in Public Works).

Retired/Transfer Employee Benefits

The costs associated with retired and transferred employee retirement and healthcare benefits are included in the Citywide budget.

- Other Post-Employment Benefits (OPEB) ($11.6 million - $9.1 million in the General Fund) – The cost of retiree/beneficiary health (1,742 participants), dental (2,741 participants), vision (1,790 participants), and out-of-area (331 participants) insurance benefits as of June 30, 2023.

- OPEB Trust ($0) – The City funds OPEB benefits on a pay-go basis. In 2014 the City established a California Employers' Retiree Benefit Trust (CERBT) Fund to address the increasing OPEB liability ($304.7 million as of June 30, 2025). The balance in the CERBT was approximately $102.9 million as of June 30, 2025. The annual contribution for the OPEB Trust was eliminated in FY2021/22. Future funding to the Trust will continue to be transferred from year-end budgeted pension savings.

- Sacramento City Employees' Retirement System (SCERS) ($0) – Starting in FY2026/27, the SCERS fund is fully funded, and the City will stop making contributions. There were 710 participants (1 active) as of June 30, 2025.

- California Public Employees' Retirement System (CalPERS) ($193.2 million - $158.0 million in the General Fund and $10.3 million in the MU Fund) – Although CalPERS costs are not budgeted in Citywide, this represents the City's total contribution as well as the amounts negotiated for the employee paid portion of the employer cost (-$3.5 million). Costs are budgeted in the managing department's budgets.

Citywide Maintenance Contracts and Utilities

- Information Technology Maintenance and Support Contracts ($5.7 million - $3.7 million in the General Fund and $0.3 million in the MU Fund) – Funds major contracts and support for the City's human resources, financial and budgeting systems. The non-General Fund and non-MU Fund costs associated with these services are recovered through the cost allocation plan except for $0.1 million for computer software maintenance.

- Multi-tenant City-owned Buildings ($6.2 million in the General Fund) – Covers anticipated expenses associated with janitorial, security, utilities, and pest management services at various multi-tenant City-owned buildings (e.g., City Hall Complex). The costs for non-General Fund operations are recovered through the City's cost allocation plan.

Sacramento County Charges and Assessments

Citywide includes $4.6 million in the General Fund for Sacramento County Charges and Assessments. State law authorizes counties to charge other local government entities for the cost of assessing and collecting property tax revenues, for property-related assessments including flood control, and for costs associated with county jail operations (jail booking fees). In addition, the City pays its fair share of property-based assessments for various improvement districts and taxes on property owned by the City but located outside of City boundaries.

Multi-Year Operating Projects (MYOPs)
Citywide includes $9.6 million in MYOPs for FY2026/27. The General Fund has a reduction of $1.9 million due to sweeping inactive projects for budget balancing, and the MU Fund is $5.3 million. The newly created fund for the Sacramento Children's Fund has $8.1 million. There is $0.9 million in reductions from the ARPA Fund. There is a reduction of $1.0 million in other funds. The General Fund and MU fund projects support citywide operating activities such as the Sacramento Utility Rate Assistance (SURA) program, litigation, the Powerhouse Science Center, and library maintenance. All projects are detailed on Schedule 9. Additional funding for departmental MYOPs is included in the various department operating budgets. Funding for these programs is moved into specific projects after the budget is approved.

Administrative Contingency
The General Fund Administrative Contingency may be used throughout the year, in accordance with Sections 4, 5, and 6 of the Budget Resolution, to adjust budgets for unforeseen expenses. The Administrative Contingency is $2 million.

Office of Arts and Culture (OAC)
Citywide includes $0.4 million for the OAC, which pays for professional services and commission stipends.

Redevelopment Agency Successor Agency (RASA)
In response to AB 26 (2011) which eliminated all redevelopment agencies in California, the City became the recognized RASA effective February 1, 2012, for all non-housing functions and obligations. As RASA, the City is entitled to be reimbursed for administrative costs associated with managing the transfer of non-housing assets, legal concerns, cash and debt management, and other administrative obligations. Under AB 26, the administrative budget to pay for staff costs to perform RASA duties is limited to 3% of the property tax allocated to RASA. The City budgeted $211,900 in revenue for staff support provided by the City Attorney's Office, Finance, and other departments.

Miscellaneous

- Elections ($650,000) – Funds the cost of regular and special elections, as well as increased costs associated with special ballot measures and petition verification.

- Litigation ($60,000) – Covers the administrative costs associated with litigation, used annually as necessary. This funding is in addition to the Citywide Litigation MYOP ($500,000) included in Schedule 9 which provides annual funding for external support for the City's litigation efforts.

- Service Fees ($672,718) – Covers the costs associated with banking, instructional, and various legal service fees. It also includes the City's portion of the CalPERS payment for obligations associated with the Human Rights/Fair Housing PERS commission.

- Accident Replacement Vehicles ($250,000) – Funds costs associated with fleet accident repairs and replacements.

- Membership, Licenses and Dues ($500,000) – Funds costs associated with Citywide memberships.

Citywide Revenues
An in-depth review of FY2026/27 citywide revenues and the five-year forecast are included in Section 6 – The Forecast.

- Major Tax Revenues – All discretionary tax revenues including property, sales, and Utility Users Tax are budgeted in Citywide. Additional detailed information and a breakdown of budgeted revenue is available in Schedule 6. The expenditure budget ($500,000) represents consultant contracts for providing sales tax and Utility Users Tax revenue estimates.

Community Support

The City provides administrative and financial support to various local and regional operations or partners.

Property and Business Improvement Districts (PBIDs)
Citywide includes $23.9 million for PBIDs, which were created as a financing mechanism where property and business owners approve a special assessment to improve their commercial districts. The City currently collects and remits assessments for 18 different PBIDs throughout the City.

Visit Sacramento
Citywide includes $2.9 million in support for Visit Sacramento, comprised of $2.2 million from the 10% TOT that is deposited in the Community Center Fund and $0.6 million from the MU Fund. The $2.3 million from the Community Center Fund is for general operating support of Visit Sacramento per City Code 3.28, which has required the City to increase its contribution with inflation annually since FY1980/81. The $0.6 million from the MU Fund is for discretionary support including an annual reimbursement for VRO assessments.

Downtown Sacramento Partnership (DSP)
Citywide includes $375,000 for DSP to fund programs and activities along the Old Sacramento waterfront and downtown area. Also, $150,000 is included to conduct cleaning and maintenance work in the J, K, and L corridors (Clean and Safe Improvements in Central Business District Project).

Greater Sacramento Area Economic Council (GSEC)
Citywide includes an annual contribution of $208,163 to support work conducted at GSEC. Contribution cost is based on the per-capita rate of $0.40 and the estimated population of Sacramento (520,408).

Sacramento Public Library Authority (SPLA)
The City has 12 libraries located within the City boundaries which are operated by the SPLA under a joint powers authority. Citywide includes $24.6 million, which includes $10.3 million from Library Services Parcel Tax and $14.3 million from the MU Fund to

fund library operations and to partially fund the construction of the North Sacramento library.

The library's mission is to provide the residents of Sacramento the services they expect while focusing on community needs for reading, learning needs of our youngest residents, and creating welcoming spaces and providing experiences that include Science, Technology, Engineering, and Mathematics (STEM) and Science, Technology, Engineering, the Arts, and Mathematics (STEAM) learning opportunities for the entire community as well as increasing equity for our most vulnerable populations.

In 2014 and 2016, voters in the City of Sacramento declared their support for the Sacramento Public Library by passing two parcel taxes, Measure B and Measure X, for Library services which provided funding for the operation of the City libraries and to maintain and add services, staff, and technology. Both measures include a Maintenance of Effort (MOE) provision that requires prior-year reductions to General Fund operating revenue to be restored if the City provides additional funding to its non-public safety programs. The City's MOE is $7.6 million and is provided from General Fund contributions. Measure B and Measure X sunset on June 30, 2026, and June 30, 2027, respectively. On May 21, 2024, Council adopted Ordinance 2024-0013 to consolidate and extend the existing parcel taxes, which was subject to approval of the voters. Measure E was added to the Statewide Municipal Election, held on November 5, 2024, and 74% of the voters voted for the measure. As a result, the Library Services Parcel Tax is projected to generate $10.3 million in FY2025/26.

As of FY 2025/26, a substantial investment of approximately $39 million from both the City and the State has been dedicated to enhancing Sacramento's library infrastructure. Through the State of California's Building Forward: Library Infrastructure Grant Program, focused on internal infrastructure, the City secured approximately $15.1 million in State grants, along with an additional $1.5 million from Measure L, for a total of $16.6 million in grant funding. This funding is supported by a required City match of approximately $7.6 million, in addition to an extra $14.8 million committed by the City to fully support these critical projects.

This significant investment will fund major improvements, including a complete remodel of the Martin Luther King Jr. (MLK) Library with a budget of $15.8 million, and the renovation of the former Sacramento News & Review building to expand the North Sacramento–Hagginwood Library (NSHL), with an investment of $19 million. The remaining $4 million has been allocated for critical infrastructure upgrades at the Central Library, Del Paso Heights Library, and Belle Cooledge Library.

The City of Sacramento remains committed to investing in the long-term enhancement of its library facilities. These efforts address rising construction, material, and furnishing costs while ensuring modern, inclusive, and accessible spaces that serve all residents.

In addition to these investments, the City has identified an additional $2 million in essential capital improvement needs, primarily focused on exterior upgrades such as parking lot maintenance and ADA enhancements that are not eligible for grant funding.

City staff will continue to work with Library staff to identify opportunities to address the structural gap between revenues and expenditure needs.

General Information

The following information below is not included in the Citywide Budget but is detailed to provide additional information on portions of the City's FY2026/27 Approved Budget.

Economic Uncertainty Reserve (EUR)

The EUR was established in FY1983/84 and on April 26, 2016, the Council revised the EUR Policy (included in the Financial Policies section) which established:

- A minimum reserve level of 10% of budgeted General Fund revenues; and
- A goal of achieving and maintaining the value of two months of regular ongoing General Fund expenditures in the reserve.

On June 12, 2019, the EUR Policy was amended to include MU resources in determining the annual set aside amount necessary to maintain a minimum General Fund reserve level of 10%. Further, the policy includes a goal of achieving and maintaining the value of two months of regular ongoing General Fund expenditures in the reserve.

For the last several fiscal years, the EUR contributions have been used for other purposes. Due to the funding gap in FY2024/25, the EUR contribution to the reserve at year-end was used as one of the reduction strategies. In addition, the City Council suspended approximately $3.3 million of the FY2023/24 EUR contribution to restore/fund various programs, provide scholarships and fee waivers to communities negatively impacted by fee increases, and decrease a parking violation fee. In lieu of contributing to the EUR in FY2025/26, $3.7 million was placed in a Federal Funding reserve to partially help the City if the federal government withholds or rescinds federal revenues. A EUR contribution of $4.5 million for FY2026/27 has been added to the Budget.

The EUR balance is estimated to be $88.2 million on July 1, 2026, which is approximately 9.2% of budgeted FY2026/27 General Fund revenues and below the target by $7,340,700.

Other Sources and Uses

Other sources and uses in the governmental, enterprise, internal and other governmental funds total $37.6 million.

Beginning Fund Balances

Beginning fund balances of the governmental, enterprise, internal, and other governmental funds total $530.7 million which represent available resources from the FY2024/25 Annual Comprehensive Financial Report (ACFR) and anticipated activity in FY2025/26. Beginning balance by fund is included in the Budget Schedules section (Schedules 2A-2C).

Ending Fund Balances

Projected ending fund balances of the governmental, enterprise, internal, and other governmental funds total $486.7 million. Ending balance by fund is included in the budget schedules section (Schedules 2A-2C). The available balance of enterprise, internal service funds, and other governmental funds (excluding the Innovation and Growth Fund) may only be used for the specific purpose of the individual fund.

BUDGET AND POSITION CHANGES

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change
Citywide Support	Decrease services and supplies budget for Arts Stabilization to reflect a targeted reduction of discretionary spending.	Measure U	-	(15,000)	-
Citywide Support	Liquidate one-time funding from the Sacramento Utility Rate Assistance (SURA) Program (I4130100) to reflect savings from prior fiscal years.	Measure U	-	(438,079)	-

Debt Financing

Debt Financing

The **Debt Financing Program** finances the cost of capital improvements through revenue bonds, assessment revenue bonds, lease revenue bonds, capital leases, notes payable, special tax bonds, or advances from other funds. Debt service payments are generally made in semi-annual installments. This budget contains debt service payments for all funds. A five-year projection on gross debt service allocated by fund is included in the Budget Schedules section (Schedule 10).

Central to debt management is ensuring the City's compliance with Federal, State, and local regulations. Other debt management functions include, but are not limited to:

- Making full and timely debt payments
- Maintaining investment-grade credit ratings
- Ensuring compliance with bond covenants
- Facilitating project fund draws to ensure spend-down pursuant to Internal Revenue Service (IRS) expenditure requirements
- Monitoring private activity/private use of tax-exempt financed assets and remediation as necessary
- Meeting the continuing disclosure reporting requirements of the Municipal Securities Rulemaking Board, the IRS, the California State Controller’s Office, and the California Debt and Investment Advisory Commission
- Providing ongoing information to rating agencies, municipal bond insurers, and bond investors
- Reviewing, assessing, and responding to inquiries (as appropriate) from bond investors, while ensuring no selective disclosure occurs
- Assisting with the management of City funds associated with debt
- Levy of special assessments and special taxes
- Managing the delinquency and foreclosure process

The City Treasurer’s Office is responsible for issuing debt on behalf of departments, the Sacramento Public Financing Authority*, assessment districts, community facilities districts and other qualified entities. Additionally, the City Treasurer’s Office provides support to the City’s Finance Department and Office of Innovation and Economic Development on the maintenance of redevelopment-related debt. Typical debt structures include revenue bonds, lease revenue bonds, land-secured (Mello-Roos) financings, short-term notes, and small-equipment leases (direct placement loans). Debt may be issued with fixed or variable interest rate structures.

*Prior to dissolution of redevelopment activities in California in January 2012, the City Treasurer’s Office issued debt on behalf of the Sacramento City Financing Authority (SCFA). Debt previously issued on behalf of the SCFA that remains outstanding is managed by the City Treasurer’s Office.

Debt Limit

The City has approximately $703 million in General Fund lease obligations (inclusive of required principal and interest payments) as of June 30, 2026, the majority of which is expected to be paid from funds other than the City's General Fund. State law sets the bonded limit for General Obligation bonds at 15% of the total assessed valuation of all real and personal property within the City. As of June 30, 2025, the City had no General Fund Obligation Bonds outstanding and had a total debt limit of approximately $11.26 billion associated with general obligation debt.

Summary of the City and Related Sacramento City Financing Authority and Sacramento Public Financing Outstanding Debt (does not include land-secured debt) are listed below.

The following summarizes what is included in the Debt Service Division Budgets:

- **2006 Capital Improvement Revenue Bonds (CIRBs), Series B, and E** - included (1) General Fund backed lease revenue bonds for Tier 1 Community Reinvestment Capital Improvement Program (CRCIP) projects supporting community non-profit organizations *(Crocker Art Museum Association, B Street Theater, Studio for Performing Arts, community non-profit organizations for the arts and youth)* which included loan agreements for some of the borrowed debt, and (2) refinancing of remaining debt associated with the 2001 CIRBs *(water and golf capital improvement projects [CIPs])*, 2002 CIRBs *(Civic Center, Sacramento Housing and Redevelopment Agency [SHRA] projects and other CIPs)*, and the 2003 CIRB *(911 call center and other CIPs)*.

- **2015 Golden 1 Center (G1C) Lease Revenue Bonds** – Financed the acquisition, construction, installation, and equipping of the Golden 1 Center in Downtown Commons.

- **2025 Refunding Revenue Bonds** – Refunded the 2015 Refunding Revenue Bonds. The 2025 Refunding Revenue Bonds were intentionally structured to front-load savings – primarily to benefit the City's general fund between Fiscal Years 2026 – 2029.

- **2016 H Street Refunding Bonds** – Refinanced the 2002 Certificates of Participation issued jointly by the City of Sacramento and County of Sacramento to finance the construction of the California Musical Theater; savings from the refinancing benefited the California Musical Theater via lower debt service payments.

- **2017 Water Revenue Bonds** – Financed the continuation of the City's Accelerated Water Meter Program, replacement of aging pipelines, rehabilitation of certain components of the City's water treatment plants, and miscellaneous capital projects.

- **2018 Transient Occupancy Tax Revenue Bonds** – Financed the renovation of the Convention Center, the Community Center Theater, and the Memorial Auditorium.

- **2019 Sacramento Tourism Infrastructure District Assessment Revenue Bonds** – Financed the construction of the second ballroom at the Convention Center.

- **2019 Wastewater Revenue Bonds** – Financed the rehabilitation of various wastewater sumps, rehabilitation of infrastructure in the combined sewer system and the separated system, as well as in-line and underground storage structures.

- **2020 Wastewater Revenue Refunding Bonds** – Refinanced a portion of the 2013 Wastewater Revenue Bonds. Cash-flow savings allowed the City's Wastewater System to pay for additional capital improvements without the need to raise utility rates in the near-term.

- **2020 Water Revenue Refunding Bonds** – Refinanced a portion of the 2013 Water Revenue Bonds. Cash-flow savings allowed the City's Water System to pay for additional capital improvements without the need to raise utility rates in the near-term.

- **2023 Water Revenue Refunding Bonds** – Refinanced a portion of the 2020 Water Revenue Refunding Bonds. Cash-flow savings allowed the City's Water System to pay for additional capital improvements without the need to raise utility rates in the near-term.

- **CA Department of Boating and Waterways Loans** – Financed the expansion of the north and south basins of the City's Marina.

- **Miscellaneous Debt (New Money)** – Financing for the acquisition, replacement, restoration, modification, and improvement of various equipment (fleet, vehicles, parking meters, garbage cans, and elevator equipment). Included in this are the (1) American Recovery and Reinvestment Act, Marina, and California Infrastructure and Economic Development Bank loans, and (2) financed improvements in various redevelopment project areas.

- **Miscellaneous Debt (Refunding)** – Refinanced numerous land-secured districts, primarily in Council District 1; savings benefit constituents who are part of those land-secured districts by way of reduced property taxes.

- **State Revolving Fund Loan (Drinking Water Program) –** Financed the Meter and Pipe Installation Project which benefited numerous areas throughout the city.

BUDGET AND POSITION CHANGES

Division	Description	Fund	Revenue/ Offset Adjustment	Expenditure Change	FTE Change

Budget Control Policy

1. PURPOSE

The purpose of this policy is to ensure the City makes informed fiscal decisions that take into account the full costs, in terms of dollars and service impacts, of implementing spending increases during the fiscal year. To maintain a structurally balanced budget, any spending increases must be accompanied by compensatory revenue increases or spending decreases that clearly identify the associated opportunity costs.

2. BACKGROUND

The service plan for the City is based on an annual budget as required by the City Charter and by good financial and operational practices. Budgeting on an annual basis provides time to review all revenue sources, develop solutions to previously identified problems, and to discuss and decide on policies and priorities. An annual budget process also provides time for management to plan and more efficiently and effectively implement changes incorporated into the budget. Making significant mid-cycle changes outside of the orderly budget process can lead to poor decision-making due to incomplete information and to inefficient and ineffective operations or service delivery.

3. POLICY

3.1 Annual Budget Development:

The annual budget process will be the method used by the City to develop its service delivery priorities and the level and type of resources required to fund those services.

Before the City undertakes any changes that would create fixed ongoing expenses, the cost implications of such changes will be projected for current and future years.

3.2 Budget Amendments:

Changes to the budget and to service levels during the fiscal year will be minimized. Changes during the fiscal year will generally be limited to technical adjustments, emergency funding, unforeseen circumstances, time-sensitive opportunities or issues, or new grants or awards. The creation of a new program, a higher service level, or other increases in expenditures, without associated revenues or reimbursements, during mid-budget cycle is discouraged. Changes outside of the annual budget process should only be considered during the midyear budget review.

Unexpected revenue shortfalls or other significant issues that may create a budget shortfall during the fiscal year are to be reported to the Council with recommendations by the City Manager as to whether a midyear budget adjustment should be made.

Budget amendments shall be considered and adopted by the Council except for where authority has been delegated as prescribed within the adopted Budget Resolution.

Council Resolution 2023-0111

Effective Date: May 02, 2023

Debt Management Policy

1. Introduction

1.1 *Background*. The City of Sacramento (the "**City**") has a long history of issuing multiple types of debt and working with various residents, businesses, developers, and government agencies to achieve the most-effective financing solutions for necessary capital projects and capital improvements. Debt issuance is one way of financing these projects and improvements in a cost-efficient manner while maintaining generational equity. With its limited fiscal resources, the City will continue to explore the issuance of debt as an equitable means of meeting its infrastructure needs.

1.2 *Purpose*. This Debt-Management Policy (this "**Policy**") sets forth the principles and objectives that should guide the City's decisions to issue debt, and it establishes guidelines for responsibly managing debt. The core objectives of this Policy include the following:

(A) Minimize costs of debt service and issuance.

(B) Maintain access to cost-effective borrowing.

(C) Achieve and maintain the highest practical credit ratings of the various bond and credit types as well as the City's overall credit rating.

(D) Balance pay-as-you-go financing with debt financing.

(E) Ensure full and timely repayment of debt.

(F) Maintain full disclosure and reporting with respect to debt and associated credit ratings, as well as debt that matured or were refunded/defeased within the past three years.

(G) Ensure compliance with federal, state, and local laws and regulations.

(H) Promote the City's best interests and protect the City's financial stability when deciding whether to seek approval to issue debt and how to structure the debt.

(I) Maintain internal-control procedures to ensure that the proceeds of each debt issuance are directed to the intended use.

(J) Maintain a high-level of transparency to debt stakeholders and consistency in debt decision making.

1.3 *Scope of Application*. This Policy applies to debt issued or incurred by the City (including debt issued by means of community facilities districts ("CFDs") and debt the City issues for third parties – conduit financing), the Sacramento City Financing Authority, the Sacramento Public Financing Authority, and the Redevelopment

Agency Successor Agency (collectively, "**City Debt**"). From time to time, however, compelling or extraordinary circumstances may arise that require the City Council, at the recommendation of the City Treasurer or the Debt Manager within the City Treasurer's Office (the "**Debt Manager**"), to make an exception to this Policy. While there may be exceptions to this Policy, such exceptions shall not impair existing City programs, services, or staffing levels as noted in section 3.1(A) of this Policy or impair the City's ability to satisfy existing financial obligations. Certain obligations of the City—such as Other Post-Employment Benefits and debt not involving the issuance of bonds or other long-term obligations (e.g., long-term loans obtained from the State Water Resources Control Boad)—are not subject to this Policy.

2. Governing Authority, Points of Contact, and Responsibility

2.1 *Authority*. The City's debt program for all City funds must be operated in conformance with applicable federal, state, and other legal requirements, including authorizing sections of the City Charter and the City Code, and the various covenants of the City's outstanding debt obligations.

2.2 *Delegation of Authority*. The City Council assigns its responsibility for managing and coordinating all activities related to the structure, issuance, and post-issuance management of all City Debt to the City Treasurer's Office.

2.3 *Point of Contact*. The City Treasurer and the Debt Manager are responsible for maintaining communication to the bond market on the City's behalf, with a policy and practice of full disclosure. This includes communication with rating agencies, bond insurers, investors, and other debt-related service providers about the City's financial condition; the financial condition of enterprise funds that secure the repayment of enterprise revenue bonds; the financial condition of the assessment fund that secures the repayment of the assessment revenue bonds; and the relevant financial information of CFDs that secure special-tax bonds, as applicable. As necessary, the City Treasurer or the Debt Manager will seek guidance from the City Attorney's Office and the City's disclosure counsel on the appropriateness of disclosing certain matters.

2.4 *Responsibilities*. Debt obligations may not be presented to the City Council for authorization without a joint assessment and recommendation by the City Manager's Office and the City Treasurer's Office, except as follows: bonds to issued through CFDs may be presented to the City Council for authorization by the City Treasurer's Office without joint assessment and recommendation. City departments that propose debt-financed capital programs or small-equipment acquisitions must work in close coordination with the City Treasurer's Office, the City Manager's Office, the City Attorney's Office, and the City's Department of Finance by providing information to facilitate the feasibility analysis and due-diligence process before the issuance or incurrence of debt. In preparing and reviewing bond-issuance documents and other related matters, the following roles

serve as general guidance. Roles for a particular financing may differ slightly.

(A) The City Treasurer's Office—

(1) is responsible for selecting the structure, timing, method of issuance (public vs. private placement, negotiated vs. competitive sale), and other terms of debt issuance;

(2) serves as the primary contact between the City and rating agencies, investors, and all other financial market participants;

(3) manages non-attorney members of the financing team (see section 4.6, "Professional Assistance");

(4) leads the development of all necessary financing documents;

(5) presents the financing structure and financing documents to the City Council for approval;

(6) manages the investment of debt proceeds in the acquisition and construction funds, bond-reserve funds, capitalized interest funds, and escrow funds;

(7) manages compliance with post-issuance requirements, including continuing-disclosure requirements (in accordance with the Supplemental Policy on Disclosure), private-activity analysis and remediation, and arbitrage requirements; and

8) conducts periodic reviews of this Policy and brings forward to the City Council any proposed amendments.

(B) The City Manager's Office and appropriate City Departments under the City Manager's purview—

(1) identifies and prioritizes projects through the City's multi-year capital-improvement program;

(2) identifies sources of funds for payment of debt service;

(3) identifies sources of funds for project operations and maintenance;

(4) participates in document preparation and review such as, but not limited to: the preliminary and final official statements, rating agency presentations, and investor roadshows;

(5) participates in conference calls or meetings regarding the debt, e.g., due-diligence reviews, rating-agency presentations, and investor relations;

(6) provides timely information as needed to comply with post-issuance requirements, including tracking expenditures of tax-exempt debt proceeds to comply with arbitrage requirements and annual reporting requirements; and

(7) notifies the City Treasurer's Office before the City enters into (a) any agreements that qualify as "debt obligations" under SEC Rule 15c2-12, such as loans from non-City lenders, equipment leases, and grants; and (b) any amendments of such loans, leases, and grants.

(C) The City Attorney's Office—

(1) provides independent verification of the City's compliance with all applicable laws and regulations with the assistance of outside legal counsel;

(2) selects, retains, and manages outside legal counsel to assist with debt financing (e.g., bond counsel, disclosure counsel);

(3) protects the City's interests;

(4) participates in document preparation and review; and

(5) participates in conference calls or meetings regarding due-diligence review.

(D) The City Council—

(1) takes this Policy into account when, it authorizes the issuance or incurrence of City Debt;

(2) reviews and approves this Policy and, if necessary, reviews and considers the approval of recommendations to amend this Policy brought forward by the City Treasurer's Office; and

(3) reviews and, if appropriate, approves supplemental policies that address various debt and financing instruments (if additional supplemental policies are adopted, then an amended version of Attachment A reflecting those policies must be attached to this Policy).

3. Capital Financing Considerations

3.1 *Constraints.* Except for debt issued through CFDs, new-money debt will affect the long-term affordability of all outstanding and planned new-money debt of the same credit type; the maintenance and operating costs of debt-financed improvements will also affect the City's budget.

(A) The pledge of repayment implicit in the issuance of debt means that any future issuance of debt is limited; hence, when assessing the financial feasibility of financing a proposed project or acquisition, the City Council

must consider (1) the total of all outstanding debt, including overlapping debt and the planned debt; (2) the City's needs for special projects that benefit City constituents; (3) any feasibility report that has been prepared for the financing in accordance with section 3.3(A) or 3.3(B) below; (4) whether issuing debt to finance the proposed project or acquisition will necessitate reductions in the number and types of programs and services the City provides to constituents or reductions in the number of City employees; and (5) whether issuing such debt may impair the City's ability to satisfy unfunded liabilities or other non-discretionary obligations.

(B) Additionally, the necessary maintenance and operating costs of debt-financed projects will constrain the City's budgetary flexibility and should be considered alongside debt capacity when evaluating any proposed financing.

(C) Finally, debt issuances should be coordinated with the City's overall capital-improvement program and budget process to the extent possible.

3.2 *Debt Capacity*. The City's ability to issue new-money debt is constrained by federal and state laws and regulations, the City Charter and the City Code, and the covenants of existing debt. The City Treasurer's Office shall work to ensure that the City Council and the City Manager are aware of outstanding debt levels and of the ramifications if additional new-money debt is issued, including the additional financial constraints the City may face. As needed, the City Treasurer's Office may perform debt-capacity analyses, with assistance by one of the City's underwriters and one of the City's municipal advisors, to evaluate the long-term effects of debt issuance in relation to the City's objectives.

3.3. *Feasibility*. To ensure consistency with this Policy, the City Council shall not undertake or authorize the issuance or incurrence of debt—particularly new-money debt—without an assessment and recommendation of the City Manager's Office and the City Treasurer's Office.

(A) General-Fund or Lease-Revenue Bonds. In conjunction with the City Treasurer's Office, the City's Department of Finance shall prepare, for each long-term financing that will be supported by the general fund, an internal feasibility analysis (formal or informal) of the effect on current and future budgets and the City's overall credit rating of the debt and the costs of operating the capital projects proposed to be financed. This analysis may be performed formally or informally and must also address the reliability of revenues to support debt service of outstanding general-fund obligation and general-fund lease revenue debt, as well as the proposed debt financing. Total annual debt service for all general-fund obligation bonds and general-fund lease-revenue bonds, in each year they are outstanding, must not exceed 6% of annual budgeted general-fund revenues minus revenues that

City departments generate by providing services directly chargeable to City residents and businesses. Examples of such department revenues include the Fire Department's advanced life-support fee, the Police Department's alarm-permitting fee, and the Community Development Department's building permit and general plan fees. See the City Fee Database.

(B) Transient Occupancy Tax Revenues. In conjunction with the City Treasurer's Office, the City's Department of Finance shall prepare, for each long-term financing that will be supported by special revenues, an internal feasibility analysis (formal or informal) that identifies the effect of both the financing and the operating costs of the financed capital projects on the City's current and future budgets and the City's overall credit rating. This analysis must also address the reliability of revenues that support debt service of outstanding special revenue debt, as well as the proposed debt financing. Projected revenues from the transient-occupancy tax (Sacramento City Code chapter 3.28) must equal or exceed 175% of the maximum annual debt service for senior bonds and other senior parity obligations and 115% of the maximum annual debt service for all senior bonds, senior parity obligations, subordinate bonds, and subordinate parity obligations. The debt service coverage ratio of a CFD must equal or exceed 110% of the net special tax revenues (gross special tax revenues less priority administrative expenses) generated in each year the debt is outstanding.

(C) Community Facilities Districts (CFD). The debt service coverage ration of a CFD must equal or exceed 110% of the net special tax revenues (gross special tax revenues less priority administrative expenses) generated in each year the debt is outstanding, inclusive of party obligations. The value to lien ratio shall be, at a minimum, three to one (3:1) taking into account all special tax and special assessment liens applicable to the subject property. Value may be established by reference to the assessed value of the subject property as determined by the Sacramento County Assessor's Office or by an appraisal thereof. Appraisals, when used to establish property values, shall be performed by a state certified real estate appraiser, as defined in subdivision © of Section 11340 pf the California Business and Professions Code selected by the City in accordance with the State of California appraisal standards and the Uniform Standards of Professional Appraisal Practice. Such appraiser shall possess a Member of the Appraisal Institute ("MAI") certification and be selected by the City. The definitions, standards and assumptions to be used in such an appraisal shall be the definitions, standards and assumptions set forth in the California Debt and Investment Advisory Commission's "Appraisal Standards for Land-Secured Financing." May, 1994, revised July, 2004.

A market absorption study may be required for projects that entail the following expected land use types:

- Conventional office – non-owner user multi-tenant occupancy over 350,000 sq. ft. in one or more buildings.
- Medical office – non-owner user, multi-tenant occupancy over 250,000 sq. ft. in one or more buildings.
- Retail – anchored or non-anchored retail centers, multi-tenant occupancy over 100,000 sq. ft. in one or more buildings. Regional malls or retail power center are included in this category.
- Mixed-use developments – anchored or non-anchored developments, multi-tenant occupancy over 250,000 sq. ft. in one or more buildings; and
- Corporate campus developments – typically conventional office research and development governmental or industrial. This land use type is predominantly large owner user profile, 250,000 sq. ft. or more in buildings.

The appraisal and/or absorption study shall be coordinated by, under the direction of, and addressed to the City. All costs associated with the preparation of the appraisal report and/or market absorption study shall typically be paid by the project proponent(s).

The City reserves the right to engage an independent licensed civil engineer or other consultants possessing similar expertise to estimate all land improvement (i.e., infrastructure) costs and summarize findings in a report. The independent licensed civil engineer's report shall be coordinated by, under the direction of, and addressed to the City. All costs associated with the preparation of the independent licensed civil engineer's report shall be paid by the project proponent(s).

With respect to any CFD which is formed after April 1, 2023, the following requirements shall apply:

If the portion of the CFD (or improvement area, as applicable) which is undeveloped property (as defined by reference to the rate and method of apportionment of special tax) is responsible for 20 percent or more of the maximum special tax (as defined by reference to the rate and method of apportionment of special tax) levy in the fiscal year following the fiscal year in which the bonds are issued, the value to lien ration for such undeveloped property. Value may be established by reference to the assessed value of the subject property as determined by the Sacramento County Assessor's Office or by an appraisal thereof. Such appraiser shall possess an MAI certification and be selected by the City.

Of, the value to lien ration required by the foregoing paragraph is not satisfied, prior to the release of the Preliminary Official Statement for the bonds to investors, the owner or owners of the undeveloped property in the CFD (or

improvement area or tax zone, as applicable), shall deliver to the City or the bond trustee, an irrevocable instrument of credit from a financial institution rated “A” or better or otherwise acceptable to the City (a “security”), or cash in-lieu thereof, in an amount equal to two times the maximum special tax that may be levied on such undeveloped property in the fiscal year following the fiscal year in which the bonds are issued.

The security shall name the City, or its designed as a beneficiary and shall provide that the City, or its designee, may draw an amount equal to any delinquencies in payment of semiannual installments of the special taxes levied on such undeveloped property, The amount drawn on the security shall be applied in the same manner and for the same purposes as the delinquent special taxes would have been applied, provided that the payment of a draw under the security will not be deemed to cure the delinquency in payment of the special taxes. If the City draws upon the letter of credit or other irrevocable instrument of credit, owner or owners of the undeveloped property would be required to replenish the letter of credit to the previous letter of credit amount.

The security shall be released when the foregoing undeveloped property is responsible for less than 20 percent of the maximum special tax levy in the CFD (or improvement area or tax zone, as applicable). In the event the security is not renewed to continue to meet the requirements set forth above, the City may draw upon the full amount of the security. Provided that there are not special tax delinquencies on the undeveloped property to which the security relates, the City will return amounts drawn when the security is renewed, replaced or cash in-lieu thereof is provided as set forth herein if such amount are available in the special tax/redemption fund for the CFD (or improvement area, or tax zone, as applicable).

(D) Enterprise Funds. The City Manager’s Office and the City Treasurer’s Office shall evaluate the affordability of new-money debt for enterprise funds. Enterprise rate levels must fully cover debt-service requirements and debt-service-coverage ratios as outlined in the applicable debt covenants, as well as the anticipated costs of operating, maintaining, and administering the capital improvements financed by the debt. At the time of debt issuance, the projected net system revenues of the enterprise fund should be sufficient to maintain a coverage ratio equal to or greater than 120% for parity obligations and bonds and 100% for aggregate parity, subordinate, and unsecured obligations. The ability to afford new debt for enterprise operations will be evaluated as an integral part of the City’s process for reviewing and setting rates for utilities services.

(E) Conduit Financing by a Joint-Powers Authority. The City may agree to the issuance of bonds by various joint-powers authorities (e.g., California Enterprise Development Authority, California Municipal Finance Authority, California Statewide Communities Development Authority). When the City is not the issuer of bonds for a project within the City, the City’s policy will be to require the issuer to assume full responsibility for the issuance and on-going

compliance of the bond issue with federal and state laws. City Treasurer's Office staff will rely upon information and documentation provided by the joint-powers authority or the prospective borrower of a project that desires to obtain tax-exempt financing. The City reserves the right to ask follow-up questions and request additional information as part of the review it deems appropriate. When feasible, the City may hold the public hearing required by the Tax Equity and Fiscal Responsibility Act of 1986 (26 U.S.C. § 147(f)(2)) but is not required to do so.

(F) City-Issued Conduit Financing. Occasionally, the City Treasurer's Office may determine that it is in the City's best interest to issue bonds on behalf of another governmental entity or a 501(c)(3) corporation within the City's boundaries. In these instances, neither the City's general fund, nor the City's other funds, nor the City's taxing power will be pledged for repayment of the bonds. In addition, the City will rely on the financial analysis provided by the governmental entity or the 501(c)(3) corporation for purposes of due-diligence review before moving forward on the request to issue debt. The City reserves the right to make its issuance of conduit bonds contingent upon cooperation of the 501(c)(3) corporation and their team with a reasonable due diligence process. The City's preferred method is for a joint-powers authority, of which the City is already a member, to be the issuer of conduit debt.

(G) Small-Equipment Lease Financing. The City may move forward with a small-equipment lease financing at the request of City departments after analysis and due-diligence review by the City Manager's Office, the City Department of Finance, and the City Treasurer's Office. Requests from City departments must demonstrate the need (e.g., legal, environmental, cash flow) for small-equipment lease financing, and the City departments must provide realistic, projected drawdown schedules showing that borrowed funds will be spent in accordance with requirements of the Internal Revenue Service (the "**IRS**"). The City Treasurer's Office will determine whether additional disclosure will be required at the time the financing is entered into and will make the decision based on consultation with the City's disclosure counsel.

3.4 *Capital Expenditure Considerations*. The City will consider the following factors to evaluate pay-as-you-go financing versus debt financing for funding capital expenditures:

(A) Factors favoring pay-as-you-go.

(1) Projected revenues and fund balances are adequate and available to complete the proposed project, or the proposed project can be completed in phases.

(2) Utilizing projected revenues and fund balances to complete the financing of the proposed project may not necessarily materially impact metrics such as days cash on-hand or debt service coverage ratio,

which would not lead to an impairment of the outlook or ratings of any City Debt.

(3) Existing debt levels might adversely affect the City's credit ratings or ratings outlook.

(4) Market conditions are unfavorable or present difficulties in marketing the proposed debt.

(5) The proposed project's useful life is less than five years.

(6) Debt financing would be the preferred method, but circumstances require delaying the financing.

(7) Lack of clarity regarding when funding for improvements would be needed.

(B) Factors favoring debt financing.

(1) Current and projected revenues available for debt service are sufficient and reliable so that financings can be marketed with investment-grade credit ratings.

(2) Market conditions present favorable interest rates and demand for the City's financings.

(3) The proposed project is mandated by federal or state law, by court or administrative order, or by a settlement related to a lawsuit or administrative action, and current resources are insufficient or unavailable to fund the project fully within the time required.

(4) The proposed project is immediately needed to meet or relieve capacity needs or emergency conditions, and current resources are insufficient to fund the project fully within the time required.

4. Debt Issuance

4.1 *Types and Purposes of Debt.*

(A) Long-Term Debt. Long-term new-money debt may be used only to finance capital improvements, such as the costs of acquiring or improving land, infrastructure, facilities, or equipment, and only if it is appropriate to spread these costs over more than one budget year. Portions of long-term new-money debt may also be used to fund capitalized interest, costs of issuance, required reserves, and any other financing-related costs that may be legally capitalized. Long-term new-money debt may not be used to fund City operating costs, to fund services or programs or to fund maintenance related costs. The final maturity of long-term debt should not exceed 40 years. The following are the types of long-term debt that may be issued or incurred by the City or on which staff of the City Treasurer's Office may work:

(1) Special-Tax Revenue Bonds. Under the Mello-Roos Community Facilities District Act of 1982, codified at Government Code sections 53311 to 53368.3 (the "**Mello-Roos Act**"), the City may issue special-tax revenue bonds to finance the construction or acquisition of various public improvements identified in the Rate and Method of Apportionment of Special Tax for each CFD. The Mello-Roos Act provides an efficient means of financing certain public capital facilities and services and promotes economic development in areas that lack sufficient infrastructure, such as infill or brownfield areas. Bonds may be issued to fund capital facilities so long as the estimated useful life of the public or non-public capital facilities is at least five years. These bonds must be approved by at least two-thirds of the qualified electors within the CFD.

(2) Marks-Roos Bonds. Under the Marks-Roos Local Bond Pooling Act of 1985, codified at Government Code sections 6584 to 6599.3 (the "**Marks-Roos Act**"), governmental entities, in consort with or as part of a joint-powers authority, may use a "pooled" financing technique for a broad array of public capital improvements. The City has used the Marks-Roos Act to issue refunding bonds for CFDs as well as for three redevelopment project areas when new- money debt was issued concurrently. Voter approval is not required.

(3) Property and Business Improvement District Bonds. Under the Property and Business Improvement District Law of 1994, codified at Streets and Highways Code sections 36600 through 36671, bonds may be issued to finance capital improvements with repayment of the bonds from assessments levied on the real property or businesses that benefit from the improvements financed.

(4) General-Obligation Bonds. These bonds may be issued by governmental entities that have the legal authority to levy ad valorem property taxes and other charges at whatever rate and amount is necessary to pay the debt. Under article XVI, section 18, of the California Constitution, these bonds may only be issued with two-thirds voter approval.

(5) Enhanced Infrastructure Financing District Bonds. These bonds may be approved by a public financing authority ("PFA") established for the purpose of managing the affairs of the EIFD. While the PFA will be comprised of members appointed by the City (certain City Council members and the City Council's public designees), the PFA oversees a separate legal entity. The requirements of the EIFD and issuing EIFD bonds are identified in Government Code sections 53398.5 to 53398.88.

In the event an EIFD desires the City to issue bonds, the Office of the City Treasurer may be asked to handle pre-issuance and issuance related matters on behalf of an EIFD. The Office of City Treasurer will manage the issuance of such EIFD bonds in accordance with this Policy in a manner conducive to obtain the lowest cost of borrowing possible.

(6) Certificates of Participation and Lease-Revenue Bonds. These debt instruments are secured by a lease-leaseback arrangement between the City and another public entity. The City uses its general operating revenues (which are not expressly pledged) to pay rent owed under a lease. The payments are in turn used to pay debt service on lease-revenue bonds issued by a joint-powers authority or on certificates of participation executed and delivered by a trustee. Voter approval is not required because these debt instruments are not subject to the debt limit in article XVI, section 18 of the California Constitution. The City Council must annually appropriate funding for the payment of debt service associated with these types of debt instruments as part of the approval of the City's budget.

(7) Revenue Bonds. These bonds are payable from revenue generated by a City enterprise, such as water and wastewater utilities. Because debt service on revenue bonds is paid solely from enterprise revenues and is not secured by any pledge of tax or general fund revenues, these bonds are not subject to the debt limit in article XVI, section 18 of the California Constitution. Revenue bonds are used for the improvements to the enterprise and are paid by ratepayers that benefit from the service provided by the enterprise. In the case of transient occupancy tax revenue bonds, such bonds are generally payable from the special tax portion of transient occupancy taxes the City collects less the annual transfer to Visit Sacramento.

(8) State Revolving Fund Loans or Other Similar Debt Instruments. An example is the Infrastructure State Revolving Fund Program, which provides financing to public agencies and non-profit corporations sponsored by public agencies; the loan proceeds are used for a variety of infrastructure and economic-development projects. Often the cost of borrowing through the loan programs is lower than the cost of issuing debt in the public market, but the final maturity of the loan may be limited. Additionally, the process to obtain a loan may take longer than publicly-issued bonds. Though generally less cost effective than a loan, bonds may afford the financing of projects with a need for expedited schedules.

(B) Short-Term Debt. Short-term debt may be used as an interim source of funding before the issuance of long-term debt. It may be issued for any governmental purpose for which long-term debt may be issued, including the

payment of capitalized interest and other financing-related costs; it may also be used to address legitimate short-term cash-flow requirements during a given fiscal year, so that the City may continue to fund the operating costs of providing necessary public services; and it may be used to bridge the gap in financing before long-term debt is issued to meet the ongoing capital needs of a project or series of projects. The City will not engage in short-term borrowing solely for the purpose of generating investment returns (arbitrage). Short-term debt usually may not exceed five years.

(1) Tax and Revenue Anticipation Notes ("**TRANs**"). These are short-term notes used to cover cash shortfalls resulting from a mismatch between the timing of revenues and expenditures. The City may issue TRANs when needed to meet general-fund cash-flow needs in a fiscal year. TRANs are secured by the property taxes and other revenues received later in the fiscal year. Voter approval is not required. Federal tax regulations often require that TRANs be repaid in the fiscal year in which they are issued to cover short-term cash-flow shortfalls.

(2) Bond Anticipation Notes ("**BANs**"). These are short-term interest-bearing notes issued in the anticipation of long-term bond issuances. The City may issue BANs as a source of interim financing when the City Treasurer determines that doing so is prudent and advantageous to the City. Voter approval is not required.

(3) Grant Anticipation Notes ("**GANs**"). These are short-term interest-bearing notes issued in anticipation of the receipt of grants. The City may issue GANs as a source of interim financing when the City Treasurer determines that doing so is prudent and advantageous to the City and the upcoming receipt of grants is guaranteed. Voter approval is not required.

(4) Lease-Purchase Financings. These financings may be used for the short-term financing of equipment. The term of a lease- purchase agreement is typically less than 10 years but may be as long as 15 years. Under this type of financing, the City and a bank enter into a master lease agreement for the lease-purchase of equipment up to a certain aggregate amount. The City and the bank then enter into separate "schedules of property" or "lease schedules" for each lease-purchase of equipment, and the City Council annually budgets and appropriates an amount sufficient to pay rent for the equipment under lease during that year; the failure to appropriate will result in termination of the lease-purchase agreement and the potential acquisition by the bank of the financed equipment. Voter approval is not required.

(5) Commercial Paper Notes. These notes serve as a cash-management tool used primarily to provide short-term interim funding of capital expenditures that will ultimately be funded from a long-term bond or loan. Commercial-paper notes can reduce a project's overall interest costs because only the amount needed for interim funding is borrowed, and interest rates on the interim funding are lower than the rates on the "permanent" funding with long-term bonds or loans. As of the date of this Policy, the City has never issued commercial paper notes, but the need for this type of short-term financing could arise in the future.

(C) Other Debt. There may be special circumstances when other forms of debt are appropriate; these will be evaluated on a case-by-case basis. In such case, the City Treasurer's Office may seek guidance from one of the City's municipal advisors.

(D) Refunding. The City Treasurer's Office will periodically review outstanding City Debt to identify refunding opportunities and evaluate the costs and benefits of restructuring or retiring outstanding obligations. Refunding will be considered (within federal tax-law constraints) when it will provide a net economic benefit or when it is needed to achieve City objectives relating to necessary changes in restrictive covenants, call provisions, operational flexibility, tax status, the issuer, debt-service profile, etc. The City may purchase City Debt in the open market for the purpose of retiring the debt when doing so is cost effective.

(1) Only one type of refunding transaction is allowed: a "current refunding," which is when outstanding bonds are optionally redeemed within 90 days after the proceeds of refunding bonds are deposited into an escrow account with the escrow agent (typically the same entity as the trustee).

(2) In general, when the City undertakes a current refunding for net economic benefit, the refunding should produce net-present-value debt-service savings of at least 5%. This 5% threshold is a goal rather than a requirement, as the City may have reasons to refund an issue that generates net-present-value savings of less than 5% (e.g., the refunding will eliminate unduly restrictive debt covenants) or conversely aim for a higher targeted minimum level of savings.

(3) The City may also issue taxable bonds to advance refund tax-exempt bonds with an optional redemption date more than 90 days after the proceeds of the taxable bonds are available. Whether the City moves forward with an advance refunding will depend on several factors, and the City Treasurer's Office will work with one of the City's municipal advisors to evaluate advance-refunding scenarios. In general, the goal will be to achieve net-present-value savings of at least 5%, but this is not a requirement.

(4) When, during periods of economic distress, the City Council determines that annual debt service (i.e., principal and interest payments) for an outstanding issue of bonds might exceed available revenues, the City may issue new bonds to refund and restructure the outstanding bonds even though the net-present-value savings will be negative. Annual debt service on the refunding bonds would be lower than debt service on the refunded bonds in the first few years of the refunded bonds, but the term of the refunded bonds might extend beyond the term of the refunded bonds, thereby increasing overall total interest costs.

4.2 *Public Policy Discussion*. The proceedings to issue debt for projects that are controversial or of high public interest should be conducted with full transparency and public discussion (e.g., through community meetings, public outreach, City Council meetings).

4.3 *Reimbursement of City Expenditures.* If the City intends to reimburse itself from proceeds of tax-exempt debt for City expenditures made before issuance of the debt, then City staff must bring forward to the City Council, as soon as is practicable and in accordance with 26 C.F.R. § 1.150-2, a resolution declaring the City's official intention to reimburse itself.

4.4 *Method of Sale*. Except to the extent a competitive process is required by law, the City Treasurer is responsible for determining the appropriate way method to offer City Debt to prospective investors. A negotiated sale is preferred because it (A) provides the City more flexibility in determining the structure, time, and date of the sale, which is advantageous in a volatile municipal-bond market; (B) permits the schedule for the issuance and sale of bonds to be expedited when necessary to meet the City's goals; and (C) affords the chosen underwriter or senior managing underwriter (in the case of an underwriting syndicate) greater opportunity to premarket the City Debt to potential purchasers, including local investors, before the sale—all of which contributes to the City's goal of achieving the lowest overall cost of borrowing. Criteria (C) is especially important to certain credit types such as special-tax revenue bonds, where there is a need to properly describe the background or the "story" of the particular special-tax revenue bonds for each financing so investors can have a better understanding of the risks of the financing and the project. Other methods of sale, such as competitive sale and private placement, may be considered on a case-by-case basis. For example, private placement debt may be appropriate when pending litigation or other risks or market conditions make a competitive or publicly negotiated sale difficult.

4.5 *Pooled Financing*. The City Treasurer is responsible for determining the appropriate use of third-party "pools" to issue City Debt. The current preferred method of sale is a direct issuance by the City led by one senior managing underwriter or co-senior managing underwriters. The appropriateness of pooled financing depends on the par amount of bonds to be issued, the complexity of the financing, and the need for

greater bond-market penetration (institutional, retail, and high-net-worth individuals).

4.6 *Professional Assistance*. The City Treasurer may periodically select and retain service providers (other than bond and disclosure counsel, which the City Attorney's Office selects and retains with input from the City Treasurer's Office as appropriate) as needed to meet legal requirements and obtain specialized analytical services that facilitate the issuance of City Debt by minimizing borrowing costs. The City Treasurer will make these selections with the goal of achieving an appropriate balance between service (including experience, professional reputation, and market recognition) and cost. The City Treasurer may select service providers through a sole-source process of their choosing unless a competitive or other process is required by law or this Policy.

5. Debt Structure Features

5.1 *Debt Repayment*

(A) Useful Life. City Debt must be structured so that the weighted average maturity of the proposed debt is less than or equal to the weighted average economic or useful life of the capital projects or improvements to be financed.

(B) Level Debt Service Preferred. To the extent possible, the structure of debt-service for long-term debt other than special-tax revenue bonds should have combined annual principal and interest payments that remain relatively constant to maturity, i.e., "level debt service." But in some circumstances non-level debt service may be to the City's advantage or is the norm—such as in the case of special tax revenue bonds where debt service increases by about 2% annually. The City Treasurer's Office will determine the structure of the debt at the time of borrowing after considering pricing, cash flows, and other relevant factors and after consulting with the underwriter of the proposed debt and one of the City's municipal advisors.

5.2 *Credit Quality*. The City should obtain and maintain the highest possible credit ratings when issuing short-term and long-term debt and will only issue bonds, for itself or others, that have a credit rating of "investment grade" or higher.[1*] The City will, however, consider the issuance of non-rated special-tax revenue bonds issued through CFDs, as well as the issuance of other non-rated bonds if circumstances warrant. In the context of non-rated land-secured bonds, the City reserves the right to not move forward with a financing requested by a developer for any reason. At a minimum key information must be provided to the City for

* For Moody's Investor Service, "investment grade" means a rating of **P-3** or higher for short-term debt and **Baa3** or higher for long-term debt. For Standard & Poor's, "investment grade" means a rating of **A-3** or higher for short-term debt and **BBB–** or higher for long-term debt. And for Fitch Ratings, "investment grade" means a rating of **F-3** or higher for short-term debt and **BBB–** or higher for long-term debt.

review and consideration. The items include but are not limited to: a recorded final map on at least the first phase(s) of development, approved tentative maps on the balance of the district, no-redacted purchase and sale agreements for land sales of taxable property within the district within at least the last three years of the request to form the district, and definitive development plans including unit mix, village size and village phasing. Furthermore, the City reserves the right to not move forward with a financing if the development does not have complete or substantially complete backbone infrastructure and street improvements on at least the first phases of development (all in-ground utilities, streets, curbs, gutters, sidewalks), and is in a state of development ready to pull building permits. The City will not seek a rating for bonds unless the City Treasurer's Office determines that the bonds are likely to receive an underlying (i.e. unenhanced) rating of BBB or higher.

The security shall be released when the foregoing undeveloped property is responsible for less than 20 percent of the maximum special tax levy in the CFD (or improvement area or tax zone, as applicable). In the event the security is not renewed to continue to meet the requirements set forth above, the City may draw upon the full amount of the security. Provided that there are not special tax delinquencies on the undeveloped property to which the security relates, the City will return amounts drawn when the security is renewed, replaced or cash-in-lieu thereof is provided as set forth herein if such amount are available in the special tax/redemption fund for the CFD (or improvement area, or tax zone, as applicable).

5.3 *Credit Enhancement*. The City Treasurer's Office will work with one of the City's municipal advisors and with the underwriter of the proposed City Debt (or senior managing underwriter, if there is an underwriting syndicate) to analyze the costs and benefits of obtaining bond insurance on a maturity-by-maturity basis for the proposed debt.

5.4 *Non-Cash Reserve and Reduced Reserve*. The City Treasurer's Office will work with one of the City's municipal advisors and with the underwriter of the proposed City Debt (or senior managing underwriter, if there is an underwriting syndicate) to analyze the costs and benefits of having no reserve, obtaining a surety reserve policy, or incorporating a debt service reserve based on a modified three-prong reserve test (26 C.F.R. § 1.148-2(f)(2))—for example, to 50% of maximum annual debt service or 10% of outstanding principal.

5.5 *Fixed-Rate Debt.* The City's preferred interest-rate mode is fixed-rate.

5.6 *Variable-Rate Debt.* The City may issue variable-rate debt—i.e., debt that pays interest at a rate that resets according to a pre-determined formula or specified index or results from a periodic remarketing of the debt. Although the City might benefit from variable-rate debt in some transactions, issuing variable-rate debt passes an unknown obligation and risk to future City Councils.

5.7 *Derivatives.* Derivatives might be appropriate for certain City borrowing programs. For example, derivatives may be used in connection with the issuance of variable-rate debt. The City Treasurer's Office will evaluate, with a written analysis provided by a municipal advisor, the use of derivatives on a case by-case basis to determine whether the potential benefits are sufficient to offset any potential costs and whether the derivatives are consistent with federal and state law and financially prudent.

5.8 *Call Provisions.* The City Treasurer's Office will determine the call provisions for City Debt at the time of pricing, mindful that call provisions may affect the interest of potential investors and the price of the bonds. The City's preferred structure is optional redemption at par to maintain flexibility for future refunding opportunities. The City will not issue non-callable debt unless it is legally required or unless market conditions dictate otherwise; non-callable debt should not be issued solely to generate additional debt-service savings.

5.9 *Bond Size.* Unless otherwise directed by the City Treasurer in consultation with the City Manager, the minimum amount the City will finance through the issuance of bonds is $10 million unless circumstances justify a lower amount. The City may pursue other financing mechanisms—such as pay-as-you-go financing, inter-fund borrowing, lines of credit, and lease financing—for debt less than $10 million. In the case of special tax revenue bonds, special circumstances may exist that warrant the City Treasurer's consideration of the developer's request to issue bonds in an amount less than $10 million (e.g., if the bonds are for an infill or brownfield development project). The City Treasurer will determine whether to move forward with a debt financing with small par amount.

6 Debt Administration and Regulatory Compliance

6.1 *Policies and Procedures for Post-Issuance Compliance*. The City Treasurer's Office must maintain written policies and procedures that require compliance with debt covenants and with federal, state, and local laws and regulations. The policies and procedures must address continuing-disclosure requirements; arbitrage-rebate requirements, private-use limitations, other tax-compliance requirements; levy enrollment and administration; delinquency and foreclosure management; debt service and other payments; and permitted investments and uses of debt proceeds.

6.2 *Federal Income Tax Compliance*. The City Treasurer's Office is responsible for keeping all records needed to comply with federal requirements for tax-exempt debt.

(A) For each bond issue, the City Treasurer's Office will pay required rebate amounts, if any, no later than 60 days after each five-year anniversary of the issue date of the bonds and no later than 60 days after the last bond of the issue is redeemed.

(1) During the construction of each capital project financed with debt proceeds, the City's arbitrage consultant will typically be requested to prepare an interim arbitrage-rebate report at least once every 12 months until all proceeds deposited in the project fund (or acquisition and construction fund in the case of CFD financing) have been expended; if, however, the proceeds remaining in the project fund (or acquisition and construction fund) are equal to or less than 5% of the proceeds deposited into the project fund, (or acquisition and construction fund), then the City Treasurer's Office may have the arbitrage consultant prepare the interim arbitrage-rebate reports according to the timeframe required by IRS regulations.

(2) After the construction proceeds have been fully expended or the balance in the project fund (or acquisition and construction fund) has fallen below 5% of the proceeds deposited, into the project fund (or the acquisition and construction fund), the City's arbitrage consultant will prepare an interim arbitrage-rebate report on each five-year anniversary of the issue date of the bonds, or more frequently if warranted.

(B) During the term of each issue plus three years, the City Treasurer's Office will retain copies of all arbitrage reports, records relating to the use and investment of tax-exempt proceeds, documentation of private use, and other relevant documents associated with the issue. If the issue is refunded, then the retention period for the refunded issue is the life of the refunding issue plus three years. Training may be provided for all personnel working on the IRS's post-issuance-compliance process. If any potential violations to complying with federal tax laws are discovered, then the City Treasurer or the Debt Manager, after consulting with the City Attorney's Office, will contact bond counsel and determine what, if any, corrective actions are needed (e.g., participation in the IRS's Voluntary Closing Agreement Program).

(C) The City Treasurer or the Debt Manager will periodically review the City's post-issuance compliance policies and procedures and will implement revisions as appropriate after consulting with the City Attorney's Office and, if needed, bond counsel and disclosure counsel.

(D) When bonds (the refunding bonds) are issued to refund outstanding bonds (the refunded bonds), all remaining proceeds of the refunded bonds—e.g., all amounts remaining in the project fund, reserve fund, and other accounts, plus accrued interest—will be considered for purposes of IRS regulations to be "transferred proceeds" of the refunding bonds and, as such, will be subject to the arbitrage calculations for the refunding bonds. In addition, if the transferred proceeds represent more than 5% of the original deposit in the project fund (or acquisition and construction fund) of proceeds from the refunded bonds (see section 6.2(A)(1) above), then interim arbitrage calculations must be performed on an annual basis until the balance of the

transferred proceeds is less than 5% of the original deposit at which point the arbitrage calculations will be completed every five years from the issuance date of the refunding bonds.

6.3 *Use of Proceeds from Tax-Exempt or Taxable Debt and of Assets Financed with Tax-Exempt Debt.* The City Treasurer's Office in conjunction with other City departments is responsible for the following:

(A) Monitoring the use of proceeds from tax-exempt and taxable debt and the use of assets financed or refinanced with tax-exempt debt throughout the term of the debt to ensure compliance with all covenants and restrictions in the documents relating to the debt and to ensure that the proceeds are directed to the intended use.

(B) Consulting with the City Attorney's Office and bond counsel in reviewing contracts or other arrangements involving use of assets financed or refinanced with tax-exempt taxable debt to ensure compliance with all covenants and restrictions in the documents relating to the debt.

(C) Maintaining records for any contracts or other arrangements involving the use of assets financed or refinanced with tax-exempt debt.

(D) Maintaining internal-control procedures related to the management and disbursement of proceeds, such as procedures requiring that proceeds are either (1) held by a third-party trustee or fiscal agent, which will disburse the proceeds to, or upon the order of, the City in accordance with one or more written requisitions; or (2) held by the City and deposited and accounted for in a separate fund or account, with withdrawals and expenditures carefully documented.

Consulting promptly with the City Attorney's Office and bond counsel to develop a course of action to remediate any identified existing or potential violations of restrictions on the use of tax-exempt or taxable proceeds or the use of assets financed or refinanced with tax-exempt or taxable proceeds.

Debt Management Policy - Disclosure

1. Introduction

1.1 This Supplemental Policy on Disclosure ("**Policy**") governs the City's discharge fulfillment of its disclosure obligations related to municipal securities issued by the City or by related entities such as the Sacramento City Financing Authority, the Sacramento Public Financing Authority, and the Redevelopment Agency Successor Agency. In the event an Enhanced Infrastructure Financing District ("**EIFD**") formed by the City issues bonds, the City, specifically the Office of the City Treasurer, may be asked to handle post issuance matters including continuing disclosure for EIFD bonds. While an EIFD is a separate legal entity from the City with a separate governing body from the City Council, if City staff is responsible with the continuing disclosure requirements for EIFD bonds, City staff will do so in accordance with this Policy.

(A) The City and its related entities issue obligations in the public capital markets from time to time. When bonds are issued, the City, whether acting for itself or for a related entity, is obligated to disclose all material information in compliance with federal securities laws, including the Securities Act of 1933, the Securities and Exchange Act of 1934, Rule 10b-5 of the Securities and Exchange Commission ("**SEC**"), and Rule 15c2-12 of the SEC. California Government Code sections 8855 and 53359.5 require certain disclosures to the California Debt and Investment Advisory Commission and Government Code sections 12463.2, 53891, 53892, 53892.2, and 53892.3 require certain disclosures to the California State Controller's Office.

(B) Incomplete, inaccurate, or misleading disclosure might have material financial consequences for the City, as well as City officers and employees. For example:

- The SEC could bring civil actions charging that disclosure was negligent, reckless, or intentionally fraudulent; in addition, the SEC could refer cases to the U.S. Department of Justice for criminal prosecution.
- The SEC could impose cumbersome procedures and oversight on the City as conditions for settling civil actions.
- The City could suffer adverse publicity, which might reduce market access.
- The credit rating on the City's debt could be downgraded, resulting in increased costs in future issuances.
- City officials could face personal fines for violations of securities laws.

(C) Sound disclosure practices can provide both tangible and intangible benefits, including the following:

- Enhanced credibility in the municipal-bond marketplace.
- Transparency with rating agencies, bond issuers, investors, and prospective investors.
- Improved decision making for prospective investors.
- Increased numbers of investors who purchase the City's bonds in the primary and secondary markets.
- Demonstrated City commitment to providing timely disclosure to rating agencies, investors, and other stakeholders.
- The potential for a lower overall cost of borrowing.

1.2 Scope of Policy. This policy applies to City information and document, including the following, that a reasonable investor would consider significant or useful when deciding whether to invest in the City's bonds:

(A) Initial-disclosure documents, i.e., preliminary, and final official statements.

(B) Continuing-disclosure documents, i.e., annual financial information and event notices.

(C) Miscellaneous reports and presentations to the public.

2. Governing Authority, Point of Contact, and Responsibility

2.1 Authority. Either the City Treasurer or the Debt Manager within the City Treasurer's Office (the "**Debt Manager**") shall manage the City's disclosure program in conformance with federal, state, and local requirements, including the Sacramento City Charter, the Sacramento City Code, and the City's Debt-Management Policy.

2.2 Point of Contact. Either the City Treasurer or the Debt Manager will be the City's point of contact for disclosure, primarily responsible not only for developing and distributing information but also for determining the materiality of information, based in part by guidance by the City Attorney's Office and the City's disclosure counsel.

2.3 Responsibility,

(A) The City Treasurer or the Debt Manager shall oversee all aspects of disclosure. As such, the City Treasurer or the Debt Manager shall review the form and content of the City's documents and materials prepared, issued, or distributed in connection with the City's disclosure obligations relating to its debt. Those documents and materials include not just preliminary and final official statements following:

- Annual financial information provided to the Municipal Securities Rulemaking Board ("**MSRB**") in accordance with SEC Rule 15c2-12 and any applicable continuing-disclosure agreement or certificate (except that the City Treasurer and the Debt Manager are not responsible for the form and content of the City's annual comprehensive financial report, which is prepared by the City's Accounting Division and reviewed by the City's external auditor).

- Event notices provided to the MSRB in accordance with SEC Rule 15c2-12and any applicable continuing-disclosure agreement or certificate.

- Any other information provided to the MSRB for use by investors in making investment decisions.

Such information and notices will typically be provided through the MSRB's Electronic Municipal Market Access website (known as "EMMA"), which the SEC has designated as the official source for municipal securities data and disclosure documents.

The City reserves the right to utilize certain services provided by a third-party dissemination agent such as the upload of disclosure fillings to EMMA, however as stated in section (c) below, the preparation, review, and final approval of all disclosure filings are the responsibility of the City.

(B) Along with the City Treasurer and their staff, the City Attorney and the City Manager shall serve as integral members of the financing team, each responsible, as appropriate, for ensuring and certifying to the accuracy of information released to the market.

(C) The City is responsible for the content of its disclosure documents. The City Treasurer, City Attorney, and City Manager shall ensure the use of outside professionals for their respective areas of expertise is appropriate and that reliance upon outside professionals is reasonable and not excessive. The City Treasurer's Office is responsible for the accuracy and completeness of information filed with EMMA, except with respect to certain information filed by developers and merchant builders or their respective consultants, in accordance with the respective developer's or merchant builder's limited scope continuing disclosure requirements for certain special-tax revenue bonds.

(D) The City Treasurer or the Debt Manager shall ensure that subject-matter experts, including City staff with relevant knowledge or expertise, are involved in developing and periodically reviewing and updating disclosure documents. For example, when obligations are secured by specific revenues, such as water or wastewater revenues, City staff who are knowledgeable about the relevant enterprise utility must be involved.

(E) The City Treasurer and Debt Manager, in collaboration with the City Attorney, shall arrange for the engagement of disclosure counsel to assist

the City in complying with disclosure requirements, as warranted. The City Treasurer or the Debt Manager shall also arrange for the periodic training of City Council members and City Council members' staff (as determined by the City Treasurer or the Debt Manager), executive management and other employees who may contribute to or have involvement with the City's primary offerings or continuing disclosure obligations, regarding the City's disclosure obligations under federal securities laws.

(F) City officers and employees serving as financing-team members are responsible for reviewing and commenting on draft documents. As part of their review, they must determine whether all material information—including confidential or politically sensitive information—has been included and is both accurate and relevant.

(G) City officers and employees and the officers and employees of related entities shall promptly provide all information, assurance, and certifications that the City Treasurer or the Debt Manager requests for compliance with federal securities laws. The City Manager and the City Attorney shall be required to promptly and fully respond to those requests.

3. Certifications

3.1 In connection with the City Council's approval of preliminary or final official statements for publicly issued debt, as appropriate City officer or employee shall certify in writing, to the best of their knowledge, the documents do not make any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which they were made, not misleading.

The City Treasurer or the Debt Manager shall provide offering documents such as preliminary official statements to appropriate City officials (which may include the Mayor and City Council, City Manager, City Attorney, and other City officers and employees) in such a manner as to allow timely, informed decisions regarding disclosure.

DSCR and Development Services Fund Management Policy

1. PURPOSE

The purpose of the DSCR and the Development Services Fund (Fund 2016) is to ensure the prudent management of development funds for the public and the City of Sacramento. The DSCR will be used to bridge gaps between budgeted and actual development revenues in the Community Development Department (CDD) during periods of significant revenue decline.

2. BACKGROUND

The Development Services Fund was established on February 23, 1999 (Reso 99-077), to account for major plan review and building permit projects, cyclical surplus plan review and building permit revenues, and environmental impact review projects. In 1999 the City Council authorized the transfer of General Fund budget surpluses, during periods of high building activity, in the Development Services Department to be transferred to the Development Services Fund. The intent was that the Development Services Fund would be drawn down in years of lower building activity. Over time, these resources were used to fund ongoing workload, without an ongoing revenue stream. When the Fund could no longer support ongoing budgeted expenditures, the authority to carryover surpluses was removed from the annual budget resolution.

A sustainable funding plan for CDD building and planning operations is necessary for the department to be responsive to the economic climate. Establishing a DSCR Policy for Fund 2016 and Management Guidelines will provide the department resources during a downturn in development activity and time to react to those changes.

3. POLICY

The DSCR shall be established as set forth below and any changes to the policy will be presented to and approved by the City Council.

(a) The DSCR goal is one year's worth of building, building plan check, and current planning revenues.

(b) The DSCR will be initially funded with the available fund balance upon completion of the FY2014/15 audited financial statements for Fund 2016.

(c) Beginning with FY2014/15 actual year-end revenues in excess of budget from CDD's Building Inspection, Building Plan Check, Customer Service/Permit Counter, and Planning Operations, provided that the net year-end results (revenue and expenditure budget variance) of CDD are positive, will be transferred to the DSCR.

(d) The DSCR will only be used to bridge gaps between projected and actual development-related revenues in CDD during periods of significant revenue shortfalls.

4. MANAGEMENT OF ACTIVITIES IN FUND 2016

The fund shall be used for the management of development activities, when those activities are intended to be fully offset by revenues as described below and summarized in Attachment 1.

(a) Environmental impact review or planning review in fully reimbursable projects (P2100xxxx)

i. Revenues and expenditures must balance upon closure

ii. Shortfalls in completed projects where recovery efforts are unsuccessful will be covered by a transfer from the DSCR so that the project may be closed with balanced revenues and expenditures

(b) Major development projects (I21xxxxxx) when building valuation is in excess of $50 million, to be adjusted annually according to the Consumer Price Index (e.g., high rise buildings, arenas, theaters in fully reimbursable projects)

i. Revenues and expenditures must balance upon closure

ii. Funds remaining in a completed project will be transferred first to the DSRC until the Reserve level is attained, then to the department's General Fund operating budget

iii. Shortfalls in completed projects will be covered by a transfer from the DSCR so that the project may be closed with balanced revenues and expenditures

(c) Citywide Development Activities (funding provided by a % fee on all permits/plan reviews)

i. Technology for building or planning permitting systems: (e.g., Accela, CitizenServe, or eCAPS) to be managed in the separate capital projects (A21xxxxxx)

ii. General Plan and Community Plan updates: To be managed in a multi-year projects (I22xxxxxx) with separate child projects for the various plans/updates

EMS Revenue Recovery and Fee Waiver Policy

1) PURPOSE

a) To establish a policy for revenue recovery and fee waiver or reduction of costs associated with providing the City of Sacramento's (City) EMS program.

2) DEFINITIONS

a) Advanced Life Support (ALS): This term is defined in Health and Safety Code section 1797.52.

b) Basic Life Support (BLS): This term is defined in Health and Safety Code section 1797.60.

c) Electronic Patient Care Report (ePCR): A patient care report, as defined in Sacramento County Emergency Medical Agency Policy No. 2305.22, in an electronic format. An ePCR is an electronic health record, within the meaning of Health and Safety Code section 1797.227, created for each patient by Fire Department staff at the time of service. The report is used to relay information between the responding unit and the receiving hospital staff. The report serves as documentation of the treatment provided.

d) Emergency: This term is defined in Health and Safety Code section 1797.70.

e) Emergency Medical Services (EMS): This term is defined in Health and Safety Code section 1797.72. EMS includes Fire Department responses to provide ALS, BLS, and treat-not-transport patient care.

f) Fee Waiver: the forgiveness of all of a patient's owed City Council approved EMS user fees, based on a formalized criteria and processes as outlined in this policy.

g) Fee Reduction: the forgiveness of a portion of a patient's owed City Council approved EMS user fees, based on a formalized criteria and processes as outlined in this policy.

3) BACKGROUND

a) On July 27, 1993 (Resolution 93-434), the City established the ALS program.

As costs for ALS services continue to increase, the revenues generated by fees for service have not grown proportionally. The City is challenged to recover fee for service revenues due to several different reasons, one of them being payer mix. The City's payer mix is currently 40 percent Medicare, 40 percent Medicaid, and 15 percent private insurance with the remainder being from self-insured and uninsured. In addition, there are federally mandated write-offs, which allow the City to collect only a small percentage of the actual billed

amount from Medicare and Medicaid. In an effort to maximize reimbursements and cover direct costs the City has pursued additional recovery options.

b) In October 2011, AB 678 enacted the Ground Emergency Medical Transport (GEMT) program. It provided for the reimbursement of transports of Medi-Cal patients who were not in managed care. On March 18, 2014, the Council authorized an agreement with Sacramento Metropolitan Fire District (Motion No. 2014-0053) to pursue reimbursements through the GEMT program.

c) On June 26, 2012, the Council approved increases to the ALS fees for service (Resolution 2012-214) to increase cost recovery to address a portion of the structural variance between the cost of providing services and the revenue collected for those services.

d) On December 16, 2014, Council authorized the participation in the Rate Range Intergovernmental Transfer (IGT) program. IGT allows local governments to receive a federal reimbursement for transporting Medi-Cal patients that are in managed care.

e) On December 5, 2017, Council approved increased to the ALS fees for service (Resolution 2017-0468) to increase cost recovery to address a portion of the structural variance between the cost of providing services and the revenues collected for those services. The resolution allowed staff yearly to adjust the fees based on a medical Consumer Price Index (CPI).

f) On December 31, 2022, the Ground Emergency Medical Transport (GEMT) program ended.

g) On January 1, 2023, The Department of Health Care Services (DHCS) developed the Public Provider Ground Emergency Medical Transport (PP-GEMT) Intergovernmental Transfer Program (IGT), pursuant to AB 1705, to provide increased reimbursements to emergency medical transports provided by eligible public GEMT Providers through application of an add-on increase.

h) While the City can assure the continuation of fee for service revenues, revenue recovery programs such as GEMT, IGT, and PP-GEMT are subject to the availability of state and federal funding.

4) EMS FEE RECOVERY POLICY

a) The EMS Program shall be fully offset by fees generated by services provided. All revenues recovered for the provision of EMS services shall be used to cover direct and indirect costs to reduce the General Fund subsidy for this program.

b) GEMT, IGT, and PP-GEMT revenues received in excess of the Fire Department's approved General Fund revenue budget, during the fiscal year, shall be committed for future appropriations for the Fire Department.

5) EMS FEE WAIVER POLICY

a) The City Manager or their designee may waive all or a portion of the EMS fees established by City Council as provided herein.

b) In no event shall any person be denied EMS services because of their inability or failure to pay the charges incurred for services provided.

c) Procedures:

i. Fee Waiver Application:

1. An applicant or applicant's legal representative may submit a completed Fee Waiver Application with adequate supporting documentation to the Fire Department for review and consideration. The Fee Waiver Application shall be on a form prescribed by the City Manager or their designee.

2. Fire Department staff, through assistance from a contracted billing company, will use reasonable research methods to confirm the validity of the information provided.

3. Upon completion of the application review process above, the contracted billing company will notify all applicants as instructed by the Fire Chief or their designee.

4. Fee waiver applications and supporting documentation will be retained in accordance with the City's Record Retention Policy.

d) Fee Waiver Conditions and Options:

i. Financial Hardship. A fee waiver may be granted in circumstances where a financial hardship is demonstrated. The determination of a financial hardship shall be based on the most recent Federal Poverty Level (FPL) chart provided by the Department of Health and Human Services (HHS). The Fire Chief may grant a waiver, reduction, or payment plan to applicants that demonstrate a financial hardship.

ii.

2026 Federal Poverty Levels			
Household Size	Poverty Level (100% Waiver)	2X Poverty Level (50% Reduction)	3X Poverty Level (25% Reduction)
1	15,960	31,920	47,880
2	21,640	43,280	64,920
3	27,320	54,640	81,960
4	33,000	66,000	99,000
5	38,680	77,360	116,040
6	44,360	88,720	133,080
7	50,040	100,080	150,120
8	55,720	111,440	167,160
Note: For families/households with more that 8 persons, add $5,680 for each additional person. Poverty levels will be updated annually.			

The current poverty information is available at: https://aspe.hhs.gov/topics/poverty-economic-mobility/poverty-guidelines.

1. Waiver or Reduction: The Fire Chief may approve a full waiver or partial reduction of the remaining balance after all insurance payments have been posted based on the applicant's ability to pay the remaining balance. Reductions may range from 25% to 50% based on the applicant's financial hardship as reflected above.

2. Payment Plan: The Fire Chief may offer a low-cost monthly payment plan in lieu of, or in addition to, a reduction for applicants that have a verified financial hardship.

iii. Services Provided. A waiver may be granted in circumstances where the level of response or services provided do not justify application of the charges incurred. Such determination shall be based on the contents of the applicable ePCR or one or more of the following circumstances:

1. The call for service did not require response by Fire Department apparatus including an ambulance, engine company, or truck company;

2. Treatment or care provided to the applicant was at a lower level than the defined levels of ALS and BLS service;

iv. The applicant did not initiate the call for service, and the applicant refused care.

Fees and Charges Policy

1. PURPOSE

The City of Sacramento has the ability to determine the extent to which fees should be used to fund City facilities, infrastructure and services.

There are five main categories of fees that the City currently implements:[2]

- ✓ **Impact/development fees are** typically one-time charges levied by the City against new development to generate revenue for the construction of infrastructure and capital facilities needed to offset the effects of the new development.

- ✓ **Service fees** are charges imposed on persons or property that are designed to offset the cost of providing a government service. Sometimes these services are elective, such as fees for processing voluntary development permit applications, or providing service/recreation programs, while other service fees are not, such as mandatory service fees for trash or utility services. Such fees are typically reasonably related to the cost of providing the service for which the fee is imposed. Otherwise, the fee may constitute a special tax for which voter approval is required by Propositions 13, 62, and 218.

- ✓ **Regulatory fees** are imposed to offset the cost of a regulatory program, such as business regulatory fees, or to mitigate the past, present, or future adverse impact of a fee payer's operations. While payment of a regulatory fee does not necessarily provide any direct benefit from payment of the fee, there must be a "nexus" between the activity and the adverse consequences addressed by the fee. Common examples of regulatory fees include inspection fees and business license fees designed to reimburse a local agency for the cost of monitoring the business and enforcing compliance with City code.

- ✓ **Rental fees** are charged for the rental of public property and include the rental of real property, parking spaces in a public parking lot, or the rental of community facilities such as a recreation or community room or picnic area. Rental fees are not subject to the general rule that the fee must bear a direct relationship to the reasonable cost of providing the service for which the fee is charged however, rental fees must be fair and reasonable.

- ✓ **Penalties/Fines** are payment required for non-compliance or failure to adhere to specific rules and/or requirements.

[2] League of California Cities Website: Spring Meeting May 13-15, 1998Laurence S. Wiener, Esq.City Attorney of Beverly Hills and Westlake Village ***THE CITY ATTORNEY'S ROLE IN EVALUATING FEE STUDIES.***

This document sets forth guidelines for:

- Establishing cost recovery goals;
- Determining the categories of cost recovery levels in which to categorize/organize fees;
- Methods for determining which category a fee falls under; and
- Establishment and modification of fees and charges.

2. POLICY

A. Cost Recovery Goals

In setting user fees and cost recovery levels, the following factors will be considered:[3]

1) The amount of a fee should not exceed the overall cost of providing the facility, infrastructure, or service for which the fee is imposed. In calculating that cost, direct and indirect costs may be included. That is:
   - Costs which are directly related to the provision of the service; and
   - Support costs which are more general in nature but provide support for the provision of the service. For example, service fees can include reimbursement for the administrative costs of providing the service. Development fees can include the cost of administering the program to construct public facilities that are necessary to serve new development.

2) The method of assessing and collecting fees should be as simple as possible in order to reduce the administrative cost of collection.

3) Fees should be sensitive to the "market" for similar services.

In addition, in setting enterprise fund fees and cost recovery levels, the following factors will be considered:

4) The City will set fees and rates at levels which fully cover the total direct and indirect costs, including operations, capital outlay and debt service of the enterprise programs.

5) The City will review and adjust enterprise fees and rate structures as required to ensure that they remain appropriate and equitable.

B. Categories of Cost Recovery Levels in Which to Categorize/Organize Fees

There are five categories of cost recovery levels in which to classify fees:

[3] Government Finance Officers Association Website, Best Practices in Public Budgeting, City of San Luis Obispo: User Fee Cost Recovery Goals, 2005.

1) **Enterprise:** Full direct and indirect cost recovery (100% of total costs) for enterprise services such as water, sewer, and solid waste, as well as impact/development fees.
2) **High:** Full direct cost recovery (81-100% of total costs).
3) **Medium:** Recovery between 41-80% of direct costs.
4) **Low:** Recovery between 0-40% of direct costs.
5) **Other:** Fees based on market, geography, assessment, project specific, legal limits, or specific Council policy.

The City may choose, for policy reasons, to set fees at less than full recovery. For example, fees based on market, geography, assessment, project specific, statutory/legal limits, or specific Council policy. In some cases, the City will acknowledge that a subsidy is acceptable, or even necessary to ensure program access and viability.

C. Methods for Determining Which Category a Fee Falls Under

Implementation of higher cost recovery levels is appropriate under the following conditions (up to 100% of the cost of the service or program):

- The service is regulatory in nature (e.g., building permits, plan check fees);
- The service is similar to services provided through the private sector;
- Other private or public sector alternatives could or do exist for the delivery of the service;
- Over-use of the service is specifically discouraged (e.g., police responses to disturbances or false alarms might fall into this category); and
- Over-use of the service or facility is a specialized use that could be provided at a lower cost if not for specific nature or service (e.g., lighted fields).

Lower cost recovery levels are appropriate under the following conditions:

- There is no intended relationship between the amount paid and the benefit received. (It is likely that some recreation and human service programs fall into this category as it is expected that these programs will be subsidized by funds);
- Collecting fees is not cost-effective or will significantly affects the accessibility to the service;
- The service is non-recurring, generally delivered on a peak demand or emergency basis, cannot be planned for and is not readily available from a private sector source (e.g., public safety services); and
- Collecting fees would discourage compliance with regulatory requirements and adherence is primarily self-identified, and as such, failure to comply would not be readily detected by the City.

Other:

- Market pricing requires that there be a direct relationship between the amount paid and the level and cost of the service received or a direct relationship to actual prices being charged for the service in the current market.
- Legal specifications and/or limitations to the amount that is charged.
- Adopted Council Policy setting specific fee.

Factors to Consider

The extent to which the total cost of service should be recovered through fees depends upon the following factors:

- ✓ The nature of the facilities, infrastructure or services;
- ✓ The nature and extent of the benefit to the fee payer;
- ✓ The effect of pricing on the demand for services; and
- ✓ The feasibility of collection and recovery.

The chart below reflects these factors and the potential options for higher or lower cost recovery:[4]

	The Nature of the Facilities, Infrastructure or Services	The Nature and Extent of the Benefit to The Fee Payers	Effect of Pricing on the Demand for Services	Feasibility of Collection and Recovery
Higher Cost Recovery	In the case of fees for facilities, infrastructure and proprietary services[5], total cost recovery may be warranted.	When a particular facility or service results in substantial, immediate and direct benefit to fee payers, a higher percentage of the cost of providing the facility or service should be recovered by the fee.	Because the pricing of services can significantly affect demand, full cost recovery for services is more appropriate when the market for the services is strong and will support a high level of cost recovery.	In the case of impact fees, which can be collected at the time of issuance of a building permit, ease of collection is generally not a factor.
Lower Cost Recovery	In the case of governmental services[6], it may be appropriate for a substantial portion of the cost of such services to be borne by the City's taxpayers, rather than the individual users of such services.	When a particular facility or service benefits not only the fee payer but also a substantial segment of the community, lower cost recovery is warranted.	If high levels of cost recovery affect accessibility to or negatively affect the delivery of services to lower income groups, this should be considered based on the overall goals of the program being implemented.	Some fees may prove to be impractical for the City to utilize if they are too costly to administer.

[4] Government Finance Officers Association Website, Best Practices in Public Budgeting, City of Fort Collins, CO: User Fee Policies, 2005.

[5] Proprietary services are those which are provided for the benefit and enjoyment of the residents of the City

[6] Governmental services are those which are provided by the City for the public good such as regulating land use, maintaining streets, and providing police and fire protection.

D. Establishment and Modification of Fees and Charges

Fees will be reviewed and updated on an ongoing basis as part of the annual budget process to ensure that they keep pace with changes in the cost-of-living as well as changes in methods or levels of service delivery. At the beginning of the budget process each department will submit a list of proposed adjustments to their section of the master fee schedule. Each service must be assigned a target cost recovery level as defined above.

Maintaining competitive status and comparability with other cities should be considered when determining new fee levels. Those fees that are proposed for adjustment should be benchmarked against neighboring jurisdiction fee schedules or appropriate service markets. The benchmark analysis should be taken into consideration when making final pricing decisions.

However, the City may choose, for policy reasons, to set fees at less than full recovery. (for example, fees based on market, geography, assessment, project specific, statutory/legal limits or specific Council policy). As stated above, in some cases, the City will acknowledge that a subsidy is acceptable, or even necessary to ensure program access and viability. Where appropriate, fees that have not been increased in some time should have increases phased in over several years to avoid 'sticker shock' increases.

If a particular fee is not adjusted in the budget process, to the extent feasible and/or appropriate, it should be increased biennially by a CPI factor to keep pace with inflation. Beginning in FY2014/15 the City will use the State of California Department of Industrial Relations Consumer Price Index (CPI) which is the same index used by the County Assessor to adjust the annual property tax roll for inflation.

Biennially, the Finance Department shall determine the percentage change in this index and apply the increase or decrease to the master fee schedule, rounding up to the nearest whole dollar. Certain fees are exempt from an index adjustment, such as fees set by the State of California, percentage-based fees or those that have been identified as inappropriate for indexed fee increases (e.g., feasibility or fees that are based on market for services). Exempt fees are noted in the master fee schedule. Council may consider fee issues outside of the annual budget process on a case-by-case basis.

The City should conduct a comprehensive cost of service analysis every five to seven years to ensure fees and charges are set appropriately. Generally, fees may be adjusted based on supplemental analysis whenever there have been significant changes in the method, level or cost of service delivery. For example, changes in processes and technology change the staff time required to provide services to the public. A cost-of-service study will identify and quantify these changes.

3. Proposition 26

Proposition 26, the "Stop Hidden Taxes Initiative," was passed by the voters on November 2, 2010, to amend Article XIII C of the State Constitution. According to the ballot measure, the intent of the measure is to ensure the effectiveness of Propositions 13 and 218 by providing a definition of a "tax" for state and local purposes "so that neither the Legislature nor local governments can circumvent these restrictions on increasing taxes by simply defining new or expanded taxes as 'fees." Accordingly, under Proposition 26 a tax has been very broadly defined.

Tax Defined:
"Tax" now means "any levy, charge, or exaction of any kind imposed by a local government, except for the following seven categories of charges:

Exception 1 – Benefit Conferred or Privilege Granted
A charge imposed for a specific benefit conferred or privilege granted directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of conferring the benefit or granting the privilege.

Examples:

- Residential parking permit fees
- Professional licenses
- Business improvement assessments

Exception 2 – Government Service or Product

A charge imposed for a specific government service or product provided directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of providing the service or product.

Examples:

- User fees for park and recreation programs
- Weed abatement fees
- Sidewalk curb repairs

Exception 3 – Licenses and Permits

A charge imposed for the reasonable regulatory costs to a local government for issuing licenses and permits, performing investigations, inspections, and audits, enforcing agricultural marketing orders, and the administrative enforcement and adjudication thereof.

Examples:

- Building inspections
- Cardroom license
- Business licenses

Exception 4 – Use of City property

A charge imposed for entrance to or use of local government property, or the purchase, rental, or lease of local government property.

Examples:

- City-owned parking lots
- Swimming pools
- Convention Center rentals
- Golf green fees

Exception 5 – Fines and Penalties

A fine, penalty, or other monetary charge imposed by the judicial branch of government or a local government as a result of a violation of law.

Examples:

- City Code fines and penalties (e.g., 1.28.020)
- Parking fines

Exception 6 – Property Development Charges

A charge imposed as a condition of property development.

Example:

- Development impact fees

Exception 7 – Proposition 218 Fees

Assessments and property related fees imposed in accordance with the provisions of Proposition 218, Article XIII D.

Examples:

- Utility fees for water, sewer, drainage, and solid waste
- Street lighting assessments

Burden of Proof:

The paragraph following the seven enumerated exceptions states:

“The local government bears the burden of proving by a preponderance of the evidence [1] that a levy, charge, or other exaction is not a tax, [2] that the amount is no more than necessary to cover the reasonable costs of the government activity, and [3] that the manner in which those costs are allocated to a payor bears a fair or reasonable relationship to the payor’s burdens on, or benefits received from, the governmental activity.” The latter two requirements only apply to the first three exceptions.

Thus, with the burden of proof now shifted to the City, that requires each department to take into consideration how it aims to prove that a proposed fee or fee increase is not a tax. The following analytical framework can assist in this regard.

Burden of Proof: A 3-step Analysis

1. The City must make a threshold determination whether one of the exceptions applies.
    - If none apply, it is a tax subject to voter approval.
2. If Exceptions 1, 2, or 3 apply, the City must also show that the fee revenue will not exceed the reasonable costs of providing the related governmental activity (at the aggregate level).
3. Finally, the City must show that the costs are fairly allocated to the individual payors.

Effective Date: July 1, 2019

General/Measure U (G/MU) Fund Economic Uncertainty Reserve (EUR) Policy

1. PURPOSE

To establish the targeted level of G/MU Fund operating reserves, a basic component of a financially strong city. Adequate reserves help sustain City operations when adverse or unexpected circumstances affect the City, providing resources to minimize service disruption in the event of temporary revenue shortfalls or unpredicted one-time expenditures. This policy establishes the amounts the City will strive to maintain in its Economic Uncertainty Reserve (EUR) and the conditions under which the reserve may be used.

2. BACKGROUND

Financial reserves strengthen the City's financial status and provide valuable resources for unexpected events. Every fund of the City represents a stand-alone financial set of accounts and has its own operating characteristics, financial capabilities, and constraints. The level of reserves needed should be based on the financial and operating characteristics of each fund. In June 2011, the City Council adopted a goal of establishing a General Fund EUR equivalent to 10% of annual General Fund revenues.

According to the Government Finance Officers Association (GFOA), it is essential that governments maintain adequate levels of fund balance to mitigate current and future risks (e.g., revenue shortfalls and unanticipated expenditures) in order to protect taxpayers and employees from unexpected changes in financial conditions.

GFOA recommends, at a minimum, that general-purpose governments, regardless of size, maintain an unrestricted budgetary fund balance in their General Fund of no less than two months of regular general fund operating revenues or regular general fund operating expenditures (http://www.gfoa.org/appropriate-level-unrestricted-fund-balance-general-fund).

This policy establishes 10% of annual G/MU Fund budgeted revenues as the minimum level of funding in the City's EUR and establishes two months of operating expenditures as a target reserve level. The policy also outlines the methods the City will utilize to achieve the target reserve level, defines the conditions under which these funds can be used and describes how the City's expenditure and/or revenue levels will be adjusted to match any new economic realities that are causing the use of fund balance reserves as a financing bridge.

3. POLICY

3.1 Minimum and Target Reserve Levels

The City will maintain an EUR at a minimum of 10% of budgeted G/MU Fund revenues. The City will seek to achieve and maintain a G/MU Fund EUR equal to two months of regular ongoing G/MU Fund expenditures, including transfers (i.e., 17% of G/MU Fund expenditures).

The EUR shall be reported as a commitment of fund balance in the G/MU Fund for external financial reporting. Appropriations from the EUR may only be made by a vote of the City Council to meet a critical, unpredictable financial need.

3.2 Methods to Achieve Funding Levels

The annual budget will include a minimum fund balance of 0.50% of total budgeted expenditures. If these resources are not required during the fiscal year this amount shall be transferred to the EUR. Additionally, unbudgeted one-time G/MU Fund revenues received in a fiscal year, which are not required to balance the budget as part of the midyear review or fiscal year-end close, shall be added to the EUR until the target reserve level is met.

During the budget process, staff shall review the current and five-year projected reserves to ensure that they are appropriate given the economic and financial risk factors the City faces.

3.3 Criteria for Expenditure of Reserve Funds

The EUR is intended to contend with significant short-term issues, inclusive of unexpected revenue shortfalls, higher than anticipated expenditures, or declared emergencies.

It is the intent of the Council to limit use of the EUR to address unanticipated, non-recurring needs. Reserves shall not normally be applied to recurring annual operating expenditures. The EUR may, however, be used strategically to allow time for the City to restructure its operations in a deliberate manner (as might be required in an economic downturn), but such use will only take place in the context of a Council-adopted long-term plan.

3.3 Timeline for Replenishment of the EUR

If the EUR is drawn down below the minimum level, a plan will be developed and implemented to replenish the reserve, generally from future surpluses. Replenishing the EUR will be a priority use of one-time resources. Generally, the City should seek to replenish the EUR to the minimum reserve level within one to three years.

Interfund Loans

Scope: CITYWIDE

Council Motion 2015-0141

Interfund Loans Policy

1. PURPOSE

The City's Interfund Loan Policy documents the methods used by the City to demonstrate prudent financial management over interfund loans. The policy:

- Requires City Council approval of interfund loans, except for short-term working capital loans,
- Permits short-term interfund loans for working capital to cover Council-approved reimbursable grants and projects and other temporary timing differences in cash flows, and
- Prohibits interfund loans from being used to solve ongoing structural budget issues or hindering the accomplishment of any function or project for which the lending fund was established.

2. BACKGROUND

Interfund loans are the lending of cash from one City fund to another for a specific purpose and with a requirement for repayment. The practice of interfund loans is a recognized and necessary aspect of municipal finance. Such loans are typically short-term in nature and constitute the allocation of resources between individual funds for working capital purposes.

3. POLICY

3.1 Long-term Loans

Interfund loans, other than short-term working capital loans, must be approved by the City Council. Council approval will include the following terms of the loan:

- Purpose of Interfund Loan
- Identification of the source fund
  - Availability of unrestricted funds in the source fund
  - Review of multi-year plans for use of source fund cash
  - Analysis of legal or contractual restrictions
- Repayment of Interfund Loan
  - Repayment must have a payment source and funding stream
  - Specific repayment schedule
  - Interest imposed at a rate equal to at least investment earnings if loan did not occur

- Other Considerations
    - Feasibility of repayment
    - Internal controls to monitor repayment

3.2 Short-term Loans

Short-term interfund loans for working capital to provide cash for Council-approved reimbursable grants and projects, are permitted. Short-term working capital loans are also permitted for temporary timing differences in cash flows when expenditures are incurred before revenue is collected. The source funds for working capital interfund loans are the Risk Fund and the General Fund.

3.3 Prohibited Uses

- Interfund loans will not be used to solve ongoing structural budget issues.
- Interfund loans will not hinder the accomplishment of any function or project for which the lending fund was established.

Investment Policy

Scope: CITYWIDE

Administrative Entity
Office of the City Treasurer
(916) 808-5168
JColville@cityofsacramento.org

Regulatory References
Council Resolution 2020-0236

Effective Date: July 28, 2020

Investment Policy

The purpose of this document is to set forth the investment and operational policies for the management of the public funds of the City of Sacramento. These policies are designed to ensure the prudent management of public funds under management by the Sacramento City Treasurer.

Although the Sacramento City Charter generally provides the City Treasurer with the authority to deposit and invest funds in the City Treasury, undertaking of the investment activities by the City Treasurer is subject to the annual delegation of investment authority from the City Council as the body being primarily responsible for the investment of City funds. Accordingly, these policies are applicable to the management of City treasury funds as that task may be delegated to the City Treasurer.

A copy of this policy statement will be provided to all investment brokers and dealers and others in related fields doing business with the City of Sacramento, and will be provided to other interested parties on request. In addition, this policy statement will be posted to the City Treasurer's page of the City's internet website.

An entity retained to provide investment-related services to the City of Sacramento shall not render services unless and until it confirms, in writing, that it has received and reviewed this policy statement, and is prepared to implement its terms, as applicable to the services to be provided by the entity.

I. Governing Authority; Scope

Section 73 of the Sacramento City Charter vests the City Treasurer with authority to deposit and invest funds of the City treasury, subject to the annual delegation of investment authority from the City Council to the City Treasurer pursuant to Government Code section 53607. These policies shall apply to the City Treasurer's investment of City treasury funds.

The City Treasurer investment program for all treasury funds shall be operated in conformance with applicable federal, state, and other legal requirements. This policy statement is intended to conform to Government Code sections 53600, et seq, and interpretation of these policies shall be consistent with those statutes.

II. Objectives

A. Primary Objectives

The primary objectives of investment activities, in order of priority, are safety, liquidity, and yield:

1. *Safety*

Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective is to mitigate credit risk and interest rate risk. Credit Risk. Credit risk is the risk of loss due to the failure of the security issuer or backer.

The City will minimize credit risk by:

(a) Credit Risk. Credit risk is the risk of loss due to the failure of the security issuer or backer.

The City minimize credit risk by:

i. Limiting investments to the types of securities listed in Section VI of this Investment Policy

ii. Re-qualifying the financial institutions, broker/dealers, intermediaries, and advisers with which the City will do business in accordance with Section IV.

iii. Diversifying the investment portfolio so that the impact of potential losses from any one type of security or from any one individual issuer will be minimized.

(b) Interest Rate Risk. Interest rate risk is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates. The City will minimize interest rate risk by:

i. Structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity

ii. Investing operating funds primarily in shorter-term securities, money market mutual funds, the Local Agency Investment Fund ("LAIF") managed by the State of California, or similar investment pools and limiting the average maturity of the portfolio in accordance with this policy.

2. *Liquidity*

The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands (static liquidity). Furthermore, since all possible cash demands cannot be anticipated, the portfolio should consist largely of securities with active secondary or resale markets (dynamic liquidity). Alternatively, a portion of the portfolio may be placed in money market mutual funds or LAIF which offer same day liquidity for short-term funds.

The staff of the City Treasurer's Office shall (i) monitor the City's budget formation and approval process and (ii) actively engage with City staff to assess and manage cash flow needs of the City.

3. *Yield*

The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above. The core of investments is limited to relatively low risk securities in anticipation of earning a fair return relative to the low level of risk being assumed.

Securities shall generally be held until maturity with the following exceptions:

(a) A security with declining value may be sold early to minimize loss of principal.

(b) A security swap would improve the quality, yield, or target duration in the portfolio.

(c) Liquidity needs of the portfolio require that the security be sold.

(d) Where the sale of the security to realize capital, gains is advisable in the judgment of the investment officers.

B. Other Objectives

1. *Pooling of Funds*

Except for cash in certain restricted and special funds, the City will consolidate cash and reserve balances from all funds to maximize investment earnings and to increase efficiencies with regard to investment pricing, safekeeping and administration. Investment income will be allocated to the various funds proportionately based on their respective participation and in accordance with generally accepted accounting principles. The pooling of funds shall have no effect on the legal character of the pooled funds, i.e. funds whose use is restricted by law shall remain restricted and cannot be used as part of the City's general fund.

2. *Local Considerations*

Where possible, as a secondary objective, funds may be invested for the betterment of the local economy. The City Treasurer may accept a proposal from an eligible institution that provides for a reduced rate of interest provided that such institution documents the use of deposited funds for local community development projects.

- An eligible local community institution is defined as being headquartered in counties in and around Sacramento, including but not limited to Placer, El Dorado, Sutter, and Yolo.
- To be recognized as an eligible local community institution the entity must have had a 5 star "Superior" Rating from either Bauer Financial or IDC Financial Publishing for the past 4 consecutive quarters. Eligible institutions must submit their quarterly ratings to the City Treasurer's office and maintain their 5-star rating continuously. If an eligible local community institution drops below the required 5-star rating, they will have 1 quarter to cure the deficiency. If in the following quarter the institution does not re-achieve a 5-star rating with the same independent rating company, the City may withdraw funds allocated to that institution.
- Institutions who receive deposits from the City as part of a local community investment not eligible for FDIC insurance must be secured by collateral of 110% as described in California Government Code Section 53651 and 53652.
- Institutions who receive deposits from the City as part of a local community investment must commit to invest 50% of the deposits in the local community,

within the City of Sacramento City limits.

- Institutions must provide a detailed semi-annual report to the City Treasurer's Office that shows evidence that the institution is meeting the 50% local community investment mandate on the City's deposits. If an institution cannot provide evidence that it has met the 50% local community investment criteria, the City may withdraw its deposits from the institution.
- As a matter of prudence, the amount the City Treasurer may invest in eligible local community institutions will be limited to 3.5% of the institution's total assets, as determined by the quarterly independent financial reports. If, during the course of an investment with an eligible local institution, the City exceeds the maximum 3.5% deposit level, the City may withdraw any funds in excess of the limit to cure the deficiency.
- The city may place deposits with eligible local community institutions up to a total of 10% of the total in the City's portfolio. If this amount is exceeded the City may withdraw funds from any institution to reduce the total community investment back below the maximum.

Although an eligible local community institution may meet all of the above stated criteria, it is not a guarantee that the City will maintain deposits. The City Treasurer retains the right to make deposit and withdrawal decisions based on the Primary Objectives of the Investment Policy stated above.

3. *Favored Investments*

Investments are encouraged in entities that have demonstrated significant commitment and cooperation (a) with foreclosure prevention efforts, including, without limitation, temporary moratoriums on foreclosures, renegotiation of the principle mortgage balances to reflect current values, and other good faith negotiations with homeowners in regard to delinquent mortgages, and/or (b) in offering free or low-cost banking services to low- and moderate-income residents who are part of the traditionally "unbanked" or "under-banked" population. The City Treasurer may take into consideration the level of effort an entity expends in either the foreclosure relief or community banking areas, or both, when considering competing investments. If the City Treasurer is satisfied with the record of an entity in regard to such efforts, then the Treasurer's investment staff may invest in the securities of the entity, provided that the investment is otherwise consistent with the requirements of this Investment Policy statement.

III. Standards of Care

A. *Prudence*

In accordance with Government Code section 53600.3, the standard of prudence to be used by investment officials shall be the "prudent person" standard and shall be applied in the context of managing an overall portfolio. Investment officers acting in accordance with written procedures developed by the City Treasurer and this investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided extraordinary deviations from expectations are reported by subordinate investment

officers to the City Treasurer in a prompt fashion and that the sale of securities is carried out in accordance with the terms of this policy.

Pursuant to the "prudent person" standard, investment officers shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency. Funds shall be managed not for speculation where the sole goal of a transaction is to increase principal balances, but for investment intended to earn a reasonable rate of return on invested funds, considering the probable safety of their capital as well as the probable income to be derived. Despite that investment transactions are undertaken with care pursuant to the “prudent person” standard, it is recognized that invested funds are subject to the vagrancies of the markets beyond the control of the investment officers.

B. *Ethics and Conflicts of Interest*

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. Employees and investment officials shall disclose any material interests in financial institutions with which they conduct business. They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio. Employees and investment officers shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of the City.

Investment officers shall file State Fair Political Practices Commission’s Statement of Economic Interests and make the disclosures required by the City’s conflict of interest policies.

C. *Delegation of Authority*

Authority to manage the City treasury investment program is granted to the City Treasurer pursuant to Sacramento City Charter section number 73, unless the Charter specifically indicates otherwise, subject to annual delegation of investment authority by the City Council pursuant to Government Code section 53607. Pursuant to the City Charter, the City Treasurer also is authorized to appoint deputies and employees, as prescribed by Council resolution, to implement the investment program. The City Treasurer and those employees appointed by the Treasurer to perform investment activities pursuant to these policies shall be referred to herein collectively as “investment officers.”

Investment officers shall act in accordance with established written procedures and internal controls for the operation of the investment program consistent with this investment policy (“Investment Procedures Manual”). Procedures should include references to: safekeeping, delivery vs. payment, investment accounting, repurchase agreements, wire transfer agreements, and collateral/depository agreements. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures manual. The investment officers shall be responsible

for all transactions undertaken and shall establish a system of controls to regulate their activities.

IV. Authorized Financial Institutions, Depositories, and Broker/Dealers

A. *Selection*

Financial institutions and depositories involved in implementing the City Treasurer's investment activities are selected on a competitive basis in order to obtain high quality services by reliable, reputable and stable entities. The competitive process may be formal or informal, as determined by the City Treasurer in his or her discretion, with the objective of obtaining the quality of services necessary to serve the best interests of the City and relevant stakeholders, with services performed at competitive fees and rates. Such processes may occur from time to time by the City Treasurer's Office whether at the time the City Treasurer contracts for the general banking services or otherwise. The firm or firms providing investment-related services may or may not be, at the discretion of the City Treasurer, the same firm providing general banking services. Among the factors that the City Treasurer may consider in obtaining such services are (i) minimum qualifications pertaining to capacity, satisfaction of requirements to conduct required business, i.e. licenses, permits, registrations, certifications, etc.; (ii) capitalization; (iii) insurance and bonding; (iv) safekeeping and custodial experience; (v) status in good standing; (vi) ability and capacity of the firm to provide a full range of services as may be required by the City Treasurer; (vii) extent of the value added by an entity over the services provided by firms then-providing investment-related services to the City Treasurer's Office; and (viii) other attributes as may be determined by the City Treasurer from time to time. The City Treasurer may determine the number and nature of firms to be retained to provide investment-related services based upon the volume of existing and projected investment work. Those firms that are selected to execute transactions on behalf of the City shall do so in a good faith manner and in the best interests of the City, and shall disclose to and advise the investment officers of material facts that bear upon the pricing of a given transaction order given by investment officers. All financial institutions executing investment transactions shall satisfy the requirements of Government Code section 53601.5. All depositories shall satisfy the institutional qualifications and security requirements described in Government Code sections 53648 et seq.

B. *Performance Review*

All financial institutions and depositories shall maintain the qualifications and attributes deemed appropriate by the City Treasurer, including, but not limited to those enumerated in subsection A above, and shall perform their duties in a satisfactory manner. The City Treasurer, at his or her discretion, shall conduct periodic performance reviews to ensure the institutions and depositories are providing services in the best interests of the City.

V. Safekeeping and Custody

A. *Delivery vs. Payment*

All trades of marketable securities will be executed by delivery vs. payment (DVP) to ensure that securities are deposited in an eligible financial institution prior to the release of funds.

B. *Safekeeping*

Securities will be held by an independent third-party custodian selected by the City Treasurer. The inventory and value of cash and securities held by the custodian will be reconciled on a daily basis. The custodial institution shall annually provide a copy of their most recent report on internal controls in accordance with Statement on Standards for Attestation Engagements No. 18, or SSAE 18.

C. *Internal Controls, Investment Procedures Manual*

The City Treasurer is responsible for establishing and maintaining an internal control structure designed to guide the activities of the investment officers to ensure that the assets of the City are protected from loss, theft or misuse. Details of the internal controls system shall be documented in the Investment Procedures Manual and shall be reviewed and updated annually, as needed. The internal control structure shall be designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management. The internal controls structure shall address the following points:

1. Prevention of collusion
2. Separation of transaction authority from accounting and recordkeeping
3. Custodial safekeeping
4. Avoidance of physical delivery securities
5. Clear delegation of authority to subordinate staff members
6. Written confirmation of transactions for investments and wire transfers
7. Development of a wire transfer agreement with the lead bank and third-party custodian

Accordingly, the City Treasurer shall establish a process for an annual independent review by an external auditor to assure compliance with policies and procedures or alternatively, compliance should be assured through the City annual independent audit.

VI. Suitable and Authorized Investments

A. *Investment Types*

Allowable investments of funds not required for the immediate use by the City are limited to those described in Government Code sections 16429.1 (Local Agency Investment Fund), 53601 (investment of surplus), 53601.8 (certificates of deposit),

53635 (purchase of commercial paper by pools) and 53638 (bank deposits), as such statutes may be amended or renumbered from time to time. These allowable investments, and their permitted amounts and attributes, are set forth in a summary prepared and updated from time to time by the California Debt and Investment Advisory Commission ("CDIAC") entitled, "Allowable Investment Instruments Per State Government Code, Applicable To All Local Agencies," included CDIAC's "Local Agency Investment Guidelines" publication that may be located at http://www.treasurer.ca.gov/cdiac/LAIG/guideline.pdf

B. *Extended Maturities*

The investment officers will observe the maximum maturity term of five years on various of the allowable investments. However, where a particular investment is found by the investment officers to be advantageous and consistent with these policies, but for a nominal exceedance of a 5-year maximum maturity caused by effect of the security's issuance and maturity dates, or the settlement date of the transaction, or both, they are authorized to invest in the following obligations with remaining maturities of five (5) years, plus not more than thirty (30) calendar days: U.S. Treasury obligations, obligations of California or other states, California local agency obligations, U.S. Agency obligations and medium-term notes. The City Treasurer will provide notice to the City Council of such investments within periodic investment reports made to the Council. See, Section VIII.A. Pursuant to Government Code section 53601, investment officers shall not make investments in instruments with maturities longer than five (5) years, plus thirty (30) calendar days, without prior approval of the City Council.

C. *Securities Lending*

The investment officers at their discretion may engage in securities lending activities pursuant to securities lending agreements (as defined in Government Code section 53601(j)(5)(D)) provided that the following are satisfied:

1. Securities lending transactions are to be governed by agreements entered into by the City Treasurer and the agent or agents the City Treasurer engages to perform such transactions provided that such agreements

   (a) comply with the requirements of Government Code section 53601(j), and

   (b) require the payment of cash collateral equal to or greater than 102% of the market value of the loaned security at the time of the loan.

2. The securities lending agreements may allow for the use of cash collateral for the reinvestment in securities that

   (a) comply with the requirements of Government Code section 53601(j)(3)(D), and

   (b) are securities whose direct investment is authorized by Government Code section 53601 and these policies,

   (c) provided that nothing herein shall preclude the City Treasurer from entering into securities lending agreements that reduces the scope of

investments made with cash collateral to something less than that allowed under subsections (a) and (b) above.

VII. Investment Parameters

A. *Diversification*

The City shall diversify its investment portfolio. To minimize risk of loss resulting from the over-concentration of assets in a specific maturity, issuer, or type of securities, all cash and cash equivalent assets in all City funds shall be diversified by maturity, issuer, and class of security. Diversification strategies shall be determined and revised on an ongoing basis by the investment officers for all funds covered by these investment policies. In establishing specific diversification strategies, these investment policies shall apply. The investment officers shall emphasize that portfolio maturities will be staggered to avoid undue concentration of assets in a specific maturity sector. Maturities selected shall provide for stability of income and reasonable liquidity.

B. *Cash Management Funds*

1. Liquidity shall be assured through practices ensuring that the payroll dates and dates of large disbursements are covered through maturing investments or marketable U.S. Treasury bills.

2. Positions in securities having potential default risk shall be limited in size pursuant to the maximum limits set forth in Government Code section 53601. See Attachment A. Such securities include the following: Commercial paper; negotiable certificates of deposit, and Banker's Acceptances.

3. Risks of market price volatility shall be controlled through maturity diversification.

4. Liquidity risk: Because of inherent difficulties in accurately forecasting cash flow requirements, a portion of the portfolio should be continuously invested in readily available funds such as LAIF, money market funds, overnight repurchase agreements, and/or marketable securities that can be sold to raise cash in one day's notice, to ensure that appropriate liquidity is maintained to meet ongoing obligations.

C. *Competitive Bids*

The investment officers shall obtain competitive bids from at least two brokers or financial institutions on all purchases and sales of investment instruments executed on the secondary market for consideration in excess of $15 million per purchase transaction.

VIII. Reporting

A. *Investment Reports*

The City Treasurer shall present to the City Council, the City Manager and the City's internal auditor monthly investment reports that include the transactions as required by Government Code section 53607.

B. *Marking to Market*
For purposes of preparation of the investment reports, the market value of the portfolio shall be calculated. In defining market value, considerations should be given to the GASB Statement 31 pronouncement.

C. *Performance Standards*
The investment portfolio will be managed in accordance with the parameters specified within established against which portfolio performance shall be compared on a regular basis. The benchmarks shall be reflective of the actual securities being purchased and risks undertaken.

IX. Policy Considerations

A. *Exemption*
Any investment currently held that does not meet the guidelines of this policy shall be exempted from the requirements of this policy, provided that the City Treasurer may take steps he or she deems appropriate to address non-compliant investments in the best interest of the City and pool participants. At maturity or liquidation, such monies shall be reinvested only as provided by this policy.

B. *Amendments*
This policy shall be reviewed annually by the investment officers. Any change must be approved by the City Treasurer, followed by review and consideration by the City Council pursuant to Section X of these policies.

X. City Council Consideration of Investment Policy

This policy shall be reviewed and considered by the City Council on an annual basis pursuant to Government Code section 53646(a)(2).

XI. Miscellaneous

A. Statutory References
All statutory references cited in these policies shall refer to the statute as it may be amended or renumbered from time to time.

Other Post-Employment Benefits (OPEB)

Other Post-Employment Benefits (OPEB) Policy

1. PURPOSE

In order to assure that the City's Other Post-Employment Benefits (OPEB) program is financially sustainable, the program should accumulate adequate resources in a systematic and disciplined manner over the active service life of benefitting employees. The City's OPEB Funding Policy documents the method the City will use to determine its actuarially determined contributions to fund the long-term cost of benefits to City employees and retirees. The policy also:

- Demonstrates prudent financial management practices;
- Promotes long-term and strategic thinking;
- Provides guidance in making annual budget decisions;
- Reassures bond rating agencies; and
- Demonstrates to employees and the public how OPEB will be funded to ensure adequate funding for negotiated benefits.

2. BACKGROUND

The City provides OPEB benefits to active employees hired before specific dates based on negotiated labor agreements and the unrepresented resolution. The City's OPEB benefits consist of a cash contribution benefit for retiree medical and dental benefits and subsidized premiums resulting from blending retirees and active employees in the same risk pool. For police and miscellaneous employees, the cash benefit amount is $300 per month for retirees only and $365 per month for retirees with dependents. Police employees hired after September 3, 2013, and miscellaneous employees hired after June 30, 2012, are not eligible for OPEB benefits. For fire employees hired before January 14, 2015, the cash benefit amount is the total of the lowest cost $25 co-pay health plan premium for one plus an additional 5.28 percent of that cost; the lowest cost PPO dental plan for one; and $25.

Fire employees hired on or after January 14, 2015, are eligible for a cash benefit amount up to $774 monthly from the date of retirement until the retiree reaches Medicare eligibility age, and up to $387 monthly from the date the retiree reaches Medicare eligibility. Fire employees pay $45 per month, with a City match of $45 per month, deposited to a separate trust fund to pay for the benefit.

The City's OPEB cash benefit is prorated based on years of service – 50 percent for employees with ten to fifteen years of service, 75 percent for employees with fifteen to twenty years of service and 100 percent for employees with twenty years of service or more.

Currently, the City has $363 million in underfunded long-term liabilities associated with retiree medical benefits from all funding sources, $309 million attributable to the General Fund. While the benefit was historically funded on a pay-as-you-go (pay-go) basis, paying only the actual cost of the benefit for retirees in the current fiscal year, financial accounting standards require the City to account for the benefit as if it were actuarially funded. If the City does not replace the current plan of pay-go combined with minimal contributions to the City's relatively new OPEB trust fund, the City's pay-go obligation will continue to grow, consuming resources that would otherwise pay for vital programs and services.

Consistent with best practices, in January 2013 Council authorized the establishment of an irrevocable trust with an initial General Fund investment of $2 million. Another $2 million was contributed to the trust in FY2013/14. The FY2014/15 and FY2015/16 approved budgets each included a $1 million contribution to the trust, bringing the total funding for the trust to $6 million. The approved FY2014/15 and FY2015/16 Budget Resolutions also included authority to direct available budgetary resources in the pension budget accounts at the end of the fiscal year to the OPEB Trust.

3. POLICY

3.1 OPEB Actuarially Determined Contribution (ADC)

The City will engage an OPEB actuary to determine the City's ADC based on biennial actuarial valuations. The ADC will include the normal cost for current service and amortization of the unfunded liability. The normal cost[1] will be calculated using the entry age normal cost method using appropriate economic and non-economic assumptions approved by the City.

The City will review the actuarial valuations to validate the completeness and accuracy of the employee census data and the reasonableness of the actuarial assumptions. Actuarial valuations involve estimates and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

3.2 Funding the ADC

The City will continue to appropriate in the annual budget for contributions to the OPEB Trust and the pay-go costs of OPEB for current retirees, as well as use one-time savings in pension contributions to make additional contributions to the OPEB Trust.

1 Normal Cost – the current year cost of the program to provide the benefit for current employees in the future.

The City will fully fund the ADC within 10 years, or by Fiscal Year 2025-26, by reducing the gap between its current OPEB funding and the ADC with a combination of City contributions, employee contributions, and OPEB plan changes.

The City will achieve "full funding" of its OPEB plan within 30 years, or by Fiscal Year 2045-46, with a 20-year amortization of the unfunded liability after the 10-year ramp-up period. Full funding of the OPEB plan is defined as funding 100 percent of the accrued liability on an actuarial basis.

3.3 Transparency and Reporting

Funding of the City's OPEB should be transparent to all parties including City employees, retirees, recognized employee organizations, the City Council and Sacramento residents. In order to achieve this transparency, the following information shall be available:

a. Copies of the biennial actuarial valuations for the City's OPEB plan shall be made available to the City Council.

b. The City's Comprehensive Annual Financial Report shall be published on its website. This report includes information on the City's OPEB plan, contributions to the OPEB Trust, and the funded status of the plan.

c. The City's annual operating budget shall include appropriations for contributions to the OPEB Trust and pay-go costs.

3.4 Review of Funding Policy

Funding OPEB requires a long-term plan. The City will review this policy at a minimum biennially, coincident with preparation of the actuarial valuations, to determine if changes to this policy are necessary to ensure adequate resources are being accumulated to fund OPEB benefits.

Pension Funding Policy

1. PURPOSE

The City's Pension Funding Policy documents the method the City will use to determine its actuarially determined contributions to fund the long-term cost of benefits to the plan participants and annuitants. The policy also:

- Provides guidance in making annual budget decisions;
- Demonstrates prudent financial management practices;
- Reassures bond rating agencies; and
- Shows employees and the public how pensions will be funded.

2. BACKGROUND

The City provides defined benefit retirement benefits through the California Public Employees' Retirement System (CalPERS) and the Sacramento City Employees' Retirement System (SCERS). CalPERS is a multiple-employer public employee defined benefit pension plan. SCERS is a single-employer defined benefit pension plan.

All full-time and certain part-time City employees hired after January 28, 1977 and City safety employees, regardless of date of hire, are eligible to participate in CalPERS. CalPERS provides retirement and disability benefits, annual cost of living adjustments and death benefits to plan members and their beneficiaries. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by state statute and City ordinance.

All full-time, non-safety employees hired before January 29, 1977, were eligible to participate in SCERS. SCERS provides retirement and disability benefits, annual cost of living adjustments and death benefits to plan members and beneficiaries. Benefit provisions and all other requirements are established by the City Charter.

The financial objective of a defined benefit pension plan is to fund the long-term cost of benefits provided to the plan participants. In order to assure that the plan is financially sustainable, the plan should accumulate adequate resources in a systematic and disciplined manner over the active service life of benefitting employees. This funding policy outlines the method the City will utilize to determine its actuarially determined contributions to fund the long-term cost of benefits to the plan participants and annuitants.

Pension Funding: A Guide for Elected Officials, issued by eleven national groups including the U.S. Conference of Mayors, the International City/County Management Association, and the Government Finance Officers Association, established the following five general policy objectives for a pension funding policy:

1. **Actuarially Determined Contributions.** A pension funding plan should be based upon an actuarially determined contribution (ADC) that incorporates both the cost of benefits in the current year and the amortization of the plan's unfunded actuarial accrued liability.

2. **Funding Discipline**. A commitment to make timely, actuarially determined contributions to the retirement system is needed to ensure that sufficient assets are available for all current and future retirees.

3. **Intergenerational equity**. Annual contributions should be reasonably related to the expected and actual cost of each year of service so that the cost of employee benefits is paid by the generation of taxpayers who receives services from those employees.

4. **Contributions as a stable percentage of payroll**. Contributions should be managed so that employer costs remain consistent as a percentage of payroll over time.

5. **Accountability and transparency**. Clear reporting of pension funding should include an assessment of whether, how, and when the plan sponsor will ensure sufficient assets are available for all current and future retirees.

3. POLICY

3.1 CalPERS ADC

CalPERS actuaries will determine the City's ADC to CalPERS based on annual actuarial valuations. The ADC will include the normal cost for current service and amortization of any under-funded amount. The normal cost will be calculated using the entry age normal cost method using economic and non-economic assumptions approved by the CalPERS Board of Administration.

The City will review the CalPERS annual actuarial valuations to validate the completeness and accuracy of the member census data and the reasonableness of the actuarial assumptions.

3.2 SCERS ADC

The City will determine its ADC to SCERS using the following principles:

a. The ADC will be calculated by an enrolled actuary and will include the normal cost for current service and amortization to collect any under-funded amount.

b. The normal cost will be calculated using the entry age normal cost method using the following assumptions:

i. Economic assumptions such as the investment rate of return and average salary increase will be reviewed with the actuary to confirm reflection of the best anticipated experience.

ii. Non-economic assumptions, such as rates of separation, disability, retirement, mortality, etc. shall be determined by City management in consultation with the actuary to reflect current experience.

c. The un-funded actuarial accrued liability, or the difference between the accrued liability and actuarial value of assets, will be amortized over a declining number of years given the closed status of the plan.

d. The actuarial value of assets will be determined using a 3-year smoothed market value to minimize volatility of the City's ADC.

e. The City's ADC to SCERS will be stated in an annual contribution amount, rather than as a percentage of pay, given the closed status of the plan.

3.3 Transparency and Reporting

Funding of the City's pension plans should be transparent to vested parties including plan participants, annuitants, the SCERS Administrative, Investment, and Fiscal Management (AIFM) Board, the City Council and Sacramento residents. In order to achieve this transparency, the following information shall be available:

a. Copies of the annual actuarial valuations for the City's CalPERS plans shall be made available to the City Council.

b. A copy of the annual actuarial valuation for SCERS shall be made available to the City Council and the SCERS AIFM Board.

c. The City's Comprehensive Annual Financial Report shall be published on its website. This report includes information on the City's annual contributions to the pension systems and their funded status.

d. The City's annual operating budget shall include the City's contributions to SCERS and CalPERS.

3.4 Review of Funding Policy

Funding a defined benefit pension plan requires a long-term horizon. As such, the City will review this policy at least every five years to determine if changes to this policy are needed to ensure adequate resources are being accumulated.

Prior Year Savings Guideline Policy

3. PURPOSE

The purpose of this policy is to create a new funding mechanism to address the City's long-term liabilities and long-term fiscal challenges.

4. BACKGROUND

The City is facing significant financial challenges. The City's budget is facing a structural deficit with the pace of expense growth exceeding revenue growth in the Fiscal Year (FY) 2024/25 Approved five-year forecast. In addition, the City has significant unfunded liabilities including $1.4 billion in unfunded pension liabilities, $1.4 billion in unfunded capital and deferred maintenance needs over the next five years, and $0.2 billion in unfunded Other Post Employment Benefits (OPEB) liabilities for retirees. To support budget balancing and provide dedicated funding to address the City's long-term liabilities,

3. POLICY

3.1 Criteria for Prior Year Savings:

Prior year savings include net positive year-end budgetary results from the General Fund, Measure U Fund and/or any future general-purpose fund.

3.2 Funding Priorities:

- 1st Priority – Budget balancing if there is a projected deficit in the coming budget year. Council may consider strategic one-time investments.

- 2nd Priority – Restore Economic Uncertainty Reserve to the minimum balance established by Council policy (currently 10% of General/Measure U revenues) if there is no projected budget deficit in the coming budget year.

- 3rd Priority – If the first two priorities are met, any remaining prior year savings will be allocated as follows:
  - One-third – To a new special fund for capital projects and deferred maintenance.
  - One-third – To a new special fund for unfunded pension liabilities and/or OPEB liabilities.
  - One-third – Discretionary.

RHIP Reserve and Project Management Policy

1. PURPOSE

The purpose of the RHIP Reserve and Project Management Policy is to ensure the prudent management of RHIP reserve funds for the public and City of Sacramento. The reserve will be used for two purposes: 1) to bridge gaps between budgeted and actual RHIP revenues in the Community Development Department (CDD) during periods of revenue decline; and 2) to cover one-time expenses as program growth continues to increase.

2. BACKGROUND

On July 27, 2004, the Sacramento Housing and Redevelopment Commission's Task Force recommended to the Sacramento City Council that a housing inspection program be established in the City to improve the residential rental housing stock by bringing standard rental properties into compliance with health and safety standards and codes.

Between May and September 2005, the Code Enforcement Department conducted several stakeholder meetings coordinated by the Sacramento Mediation Center. During this process the stakeholders group reviewed and discussed a draft rental inspection ordinance.

In March 2006, the City Council approved the implementation of a pilot program. It initially focused on inspection efforts in areas of the city that reflected a combination of factors including, but not limited to, areas that showed higher concentrations of housing and dangerous building cases, neighborhood code enforcement cases, and police and fire calls for service. The key features of the proposed pilot program included: that no fees would be charged to property owners for initial inspection; the program would generate revenue to cover costs of the program; the program would be implemented quickly; its implementation was under existing authority and did not require an ordinance; and the pilot program would allow staff to evaluate the program, track the progress of proactive residential rental inspections, and report back findings and future recommendations.

In March 2008, Council adopted an ordinance by adding Chapter 8.120 of the Sacramento City Code related to rental housing inspections. Council also approved Resolution 2008-0135 approving fees, staffing, and resources for RHIP as defined in Sacramento City Code 8.120.050. Later in the month of March 2008, Council approved Resolution 2008-0173 approving a $284,920 adjustment to the FY2007/08 approved budget for 10.5 FTE staff to begin implementation of RHIP.

In November 2008, Council adopted an ordinance amendment to Section 8.120.210 of the Sacramento City Code; added Sections 8.120.220 through 8.120.270 relating to the collection of unpaid fees, costs, or charges; and amended Section 8.120.050 related to the establishment of fees.

In June 2009, Council adopted an amendment to Resolution 2008-0135 and established Resolution 2009-0411 authorizing the carryover of FY2008/09 excess revenues for the program provided that full cost of the current year operations for RHIP had been recovered and provided clarification of the original intent of the original ordinance and resolution that RHIP be self-sustaining.

In May 2013, Council adopted an Ordinance 2013-0013 amendment to Section 8.120 of the Sacramento City Code and passed Resolution 2013-0171 establishing the fees and penalties relating to RHIP.

In May 2024, Council adopted Resolution 2024-0153 approving an increase in fees and penalties related to RHIP.

3. POLICY

The RHIP Reserve shall be established as set forth below and any changes to the policy will be presented to and approved by City Council.

(a) The RHIP costs shall be fully offset by direct revenues.

(b) All revenues recovered for the provision of RHIP shall be used to cover direct and indirect costs to ensure there is no General Fund subsidy for this program.

(c) The RHIP reserve goal is one year's worth of RHIP revenues.

(d) Beginning with FY2025/26, if full cost of current-year operating for the program has been received, then excess revenues for that program will be recognized in CDD's operating budget and the expenditure budget will be adjusted in the RHIP Reserve project (180000200) in tandem up to the amount equal to one year's revenue budget for the program.

(e) The RHIP reserve will be used to bridge gaps between budgeted and actual RHIP operating variance and one-time purchases as determined by the City Manager or Designee.

Risk Management Funding and Reserve Policy

1. PURPOSE

The City's Risk Management Funding Policy documents the City's approach to providing adequate financial resources to fund the City's General and Auto Liability and Workers Compensation Programs and establishing and maintaining adequate reserves in the Risk Management Internal Service Fund.

2. BACKGROUND

The City has been self-insured for workers' compensation and for general and auto liability since 1971 and 1976, respectively. The General and Auto Liability and Workers Compensation Programs charge City Departments and funds for the costs of providing for claims, as well as for the cost of administering the claims.

3. POLICY

(a) In order to methodically and consistently measure the City's projected claims, the City will contract with a professional outside actuary to prepare annual actuarial valuation reports for both categories of claims. Program funding will be based on the annual actuarial valuation reports.

(b) The City's funding policy will provide program funding at the 80 percent confidence level, including recognition of anticipated investment income. Confidence level is used by actuaries to determine the realistic possibilities that a given funding rate will be sufficient to cover all claims that might be incurred in any one program year. An 80 percent confidence level indicates that the funding rate should be adequate eight out of 10 years.

(c) The City shall maintain a Risk Management Reserve dedicated to mitigation of the risk of loss arising from potential claims and lawsuits against the City for general and auto liability as well as workers' compensation claims. The Risk Management Reserve shall be funded at the following levels:

General and Auto Liability – In addition to annual funding of projected claims at the 80 percent confidence level, the City shall maintain a reserve equal to two Self-Insured Retention allotments.

Workers' Compensation – In addition to annual funding of projected claims at the 80 percent confidence level, the City shall maintain a reserve equal to two SIR allotments.

If the SIR amount changes in future years, the two SIR allotments will continue to be the reserve requirement for both programs.

If either program maintains a balance above the minimum funding and reserve requirement, the excess reserves will be used to subsidize City contributions over a 1-5 year period depending upon the amount of the excess and the City's economic condition.

If either program has excess claims requiring additional contributions to the fund, the City will increase contributions over a 1-3 year period depending on the amount of the shortfall and the City's economic condition to get to the minimum funding and reserve requirement.

If one program has excess reserves and the other program has a shortfall, transfers between programs may be implemented to reduce or eliminate the program shortfall.

Sacramento City Employees' Retirement System (SCERS) Investment Policy

1. INTRODUCTION

This Investment Policy encompasses the investment goals, objectives and policies of the Sacramento City Employees' Retirement System ("SCERS" or "System"). The purpose of the Investment Policy is to assist the Administration, Investment and Fiscal Management Board ("AIFM Board" or "Board") and its Investment Managers[1] to effectively supervise and monitor SCERS' investment program.

Pursuant to Section 383 of the Sacramento City Charter ("Charter"), the AIFM Board is charged with the exclusive responsibility of managing and investing the System's funds. Also, pursuant to Section 383 of the Charter, the Board has adopted, and the Sacramento City Council has approved, this Investment Policy, which governs the investment activity undertaken by the Board.

This Investment Policy addresses the following issues:

- The investment goals of SCERS' investment program; and
- The general investment policies for the management of funds of the System.

The Investment Policy is designed to provide sufficient flexibility to capture investment opportunities as they may occur, while setting forth reasonable parameters to ensure prudence and care in the execution of the investment program.

2. INVESTMENT PHILOSOPHY

The Board believes that its investment policies, in aggregate, are to be the most important determinants of its investment success. Compliance with investment policies should therefore be monitored rigorously. The Board also believes that performance of the total portfolio and individual asset classes, as well as the performance of any retained Investment Manager, should be monitored and compared to appropriate, predetermined performance benchmarks.

The Board believes that prudent management of risk is a central element of the investment function. Toward this end, the Board believes that diversification among asset classes will reduce risk and enhance returns of the overall investment portfolio in the long term.

The Board believes that market efficiency and opportunities vary among asset classes and may change over extended periods of time. Therefore, the Board believes that SCERS' portfolio management strategies should adapt over time to reflect the changing nature of capital markets.

[1] "Investment Managers" are financial or investment advisers and consultants retained by the Board to assist in the management and investment of the System's funds.

AIFM BOARD'S MISSION STATEMENT

The Board's primary mission in managing the System's funds is described as follows:

- To ensure that sufficient funds will be available to provide participants and their beneficiaries with all benefits due as specified in SCERS' retirement plan documents

- To give priority to the financial interests of participants and beneficiaries over all other financial interests;

- To comply with all applicable fiduciary standards; and,

- To reduce the cost of funding benefits for both the City of Sacramento, as the participating employer, and the individual participants of SCERS.

3. INVESTMENT GOALS AND OBJECTIVES

In accordance with Board's Mission Statement, the overarching goal of SCERS' investment program is to generate adequate long-term returns that, when combined with employer and employee contributions, will result in sufficient assets to pay the present and future obligations of SCERS.

The following objectives are intended to assist in achieving this goal:

- SCERS should earn, on a long-term average basis, a total real rate of return in excess of SCERS' actuarial assumed rate of real return

- SCERS' assets will be managed on a total return basis, which takes into account the considerable importance of the preservation of capital. Additionally, SCERS follows the principle that different degrees of investment risk exist and each generally is rewarded with a varying degree of return.

- The Board will operate in an efficient manner that fulfills its fiduciary responsibility and contributes to the overall effectiveness of the System.

It is the purpose of the SCERS' investment program to assure that sufficient financial assets are available to provide SCERS' participants and their beneficiaries with all benefits due as specified in the System's governing provisions set forth in the Charter. Therefore, the participants' and beneficiaries' financial interests shall take precedence over all other financial interests.

To achieve these objectives, SCERS allocates its assets (asset allocation) with a strategic, long-term perspective of the capital markets.

4. GENERAL INVESTMENT POLICIES

FIDUCIARY DUTIES

The Board's investment activity on behalf of SCERS is mandated by the Sacramento City Charter. Section 383 of the Charter establishes the broad requirement that all investments must be permissible by law for investment of trust funds pursuant to Section 16040 of the California Probate Code. Accordingly, the Board, in discharging its duties to the System, acts as a fiduciary governed by requirements imposed on trustees. In the context of the System, the Board is required to model and manage the System's investment program based on principals outlined under the prudent person standard.

Pursuant to the "prudent person" standard, the Board and its Investment Managers shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the System, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the System. Funds shall be managed not for speculation, but for investment intended to earn a reasonable rate of return on invested funds, considering the probable safety of their capital as well as the probable income or return to be derived. Despite that investment transactions are undertaken with care pursuant to the "prudent person" standard, it is recognized that invested funds are subject to the vagrancies of the markets beyond the control of the investment officers.

The fiduciary duties of the Board shall be carried forward by retained Investment Managers. The policies expressed in this Investment Policy shall be as applicable to and binding upon the Investment Managers as they are to the Board.

AUTHORITY TO INVEST AND DELEGATION THEREOF

Pursuant to Section 383 of the Charter, the AIFM Board is charged with the exclusive responsibility of managing and investing the System's funds. The Board is authorized by Sections 382 and 383 of the Charter to engage the services of one or more financial or investment advisors and consultants to assist it in the management and investment of the System's funds, collectively referenced herein as the "Investment Managers." As such, the Board from time to time may select and retain professionals within the investment and financial field to implement the SCERS investment program. Once retained, such professionals must acknowledge in writing their fiduciary responsibility to the System and agree that SCERS' investment objectives and policies as expressed in this Investment Policy will be followed. It is expected that such professionals will at all times conduct themselves as fiduciaries in the same manner as does the Board.

PERFORMANCE MEASUREMENT

The performance of professionals retained to implement the SCERS investment program shall be reported and measured against, on an absolute basis, the actuarial assumed rate of return, and, on a relative basis, one or more market benchmarks customized as appropriate to the nature, type and extent of the investments held by the System pursuant to these policies. To the extent the Board retains Investment Managers to execute specific objectives (as opposed to broad investment objectives), such benchmarks shall be appropriate to the stated objectives.

The Board shall retain the services of a consultant to determine appropriate performance benchmarks and to report on the investment performance of the System's funds against such benchmarks. Such reports shall be made not less than on a quarterly basis and shall cover varying time periods as directed by the Board, e.g. performance over the current fiscal year, the past 12-months, one or more past calendar or fiscal years, or since inception, as appropriate with the long-range investment goals of the System's funds.

DIVERSIFICATION

The Board shall diversify holdings in the investment portfolio so that the impact of potential losses from any one type of security or from any one individual issuer will be minimized. In addition, the diversity of the portfolio among various sectors of the marketplace will minimize the impact of potential losses from any one sector. Such sectors may be demarked by market capitalization of issuers (e.g. small, middle and large capitalization corporations), by location (e.g. domestic vs. foreign corporations), by industry, and by public or private issuers of debt.

LIQUIDITY REQUIREMENTS OF THE SYSTEM

SCERS' funds shall be managed and invested in a manner to provide liquidity sufficient to pay the ongoing expenses of the System and the payment of benefits to retirees when due. To the extent feasible, the Board shall raise funds to cover expenses and benefits in an orderly and efficient manner, while minimizing adverse effects on investment strategies implemented by the Board from the untimely forced liquidation of investments.

As part of the SCERS investment program, the liquidity needs of the System shall be addressed in accordance with the following practices:

(a) Setting aside cash generated from (i) the liquidation of securities to accomplish Board-approved asset allocations or other Board directive; (ii) the liquidation of securities in the normal course of managing the investment portfolios pursuant to this policy; and (iii) the maturity or redemption of securities as may occur from time to time within the investment portfolios; and (iv) the receipt of dividends and interest.

(b) Structuring the investment portfolio so that securities mature to meet

cash requirements of the System, thereby avoiding disadvantageous sales of fixed income securities prior to maturity.

(c) Investing liquid funds required to pay current expenses and benefits in the City's Pool A treasury pool to be managed in accordance with investment policies adopted by the City Council.

ASSET ALLOCATION AND RISK MANAGEMENT OF INVESTMENTS

Strategic Asset Allocation

The Board annually shall review and determine the allocation of investments to various broad asset classes. The asset allocation policy shall be structured for not less than a one- year period. The asset allocation policy shall be developed with the assistance of the Investment Manager, and shall address the following considerations:

- Historical and anticipated capital market performance (returns and risks) of various asset classes;
- The expected correlation of returns among various asset classes;
- Inflation, interest rates, and other economic assumptions;
- The difference between the current and the projected asset values of the Plan; and,
- The actuarial rate of return.

The allocation of investments to various asset classes shall be reviewed annually and reflected in duly adopted resolutions of the Board. The objective of the Board's annual review of the overall asset allocation policy for the System's funds is to provide a sound, fiduciary structure to the investment process. The asset allocation target exposures are established after thorough review and analysis of the System's fund's expected rates of return opportunities and the associated risk of attempting to achieve the targeted return. The asset allocation policy identifies the asset classes to be used and designates the percentage allocation to each asset class in the System's investment portfolio. If necessary to fulfill its fiduciary obligations to the System, the Board may revise the asset allocation policy at any time it determines that circumstances justify such revision.

As its primary risk management tool, the Board shall allocate the investment portfolio between broad asset classes, such as between fixed income assets (notes, bonds, other debt instruments, and secured real estate mortgages) and equity assets (such as stocks)("First Tier Allocations"). Within each broad asset class, the Board may also provide allocations between investments within those broad classes of assets ("Second Tier Allocations"). An example of this is the allocation of equity investments amongst shares of foreign corporations, shares of large capitalization corporations and the selection of shares of corporations providing attractive dividend yields.

The Board formulates the overall risk profile of the investment pool by considering the above factors and establishing the First Tier Allocations. However, at any point in time, the actual First Tier Allocations may vary from the Board-approved percentage allocations by plus or minus 5.0% without altering the intended risk profile. In establishing any Second Tier Allocations, the Board, by resolution, may establish variances of allocations to allow the Board and Investment Managers greater flexibility in making advantageous investments that otherwise are consistent with the requirements of this Investment Policy. The discretion to shift funds within the limits of such variances in First and Second Tier Allocations may be exercised in order to take advantage of market dynamics, to preserve capital, to avoid liquidating investments at inopportune times, or for such other reason as to further the prudent investment of the System's funds.

In the selection of specific investments, the Board and its Investment Managers shall adhere to the asset allocations and variances duly established by the Board, while adhering to the overriding prudent person standard.

Rebalancing of Portfolios

The target allocations and variances will guide the decision as to which asset class should receive contributions when available and how the investments are rebalanced from time to time. Rebalancing is an effective tool used to maintain the risk profile of the total fund and to potentially enhance returns. Risk is controlled by calling cash to reduce portfolio values in over-allocated asset categories and providing cash to increase portfolio values to under- allocated asset categories to maintain target asset allocation policy weights. This rebalancing shall be performed periodically, as necessary, but not less than biannually, to redistribute assets to achieve the target allocations within any established variance.

5. SUITABLE AND AUTHORIZED INVESTMENTS

AUTHORIZED INVESTMENTS

Allowable investments of SCERS' funds shall be consistent with the requirements of this Investment Policy and Sacramento City Charter Section 383. Specific allowable investment types are set forth below. As used in this Section V, exchange traded funds ("ETF's") may include (a) leveraged ETF's that result in enhanced price movements over that generated by the underlying assets held by the ETF's, (b) inverse ETF's that incorporates a contrary or short position in the underlying assets, and (c) ETF's that combine both leveraged and inverse strategies.

INVESTMENT TYPES

Domestic Equity

Investments may include equity investments provided the equity is a common or preferred stock of a domestic corporation and sold on a public or registered stock exchange within the United States. At the discretion of the Board and Investment

Managers, investments may be made in mutual funds and exchange traded funds whose assets consist of such domestic equities.

International Equity

Investments may include equity investments provided the equity is a common or preferred stock of a foreign corporation provided (a) the resident country of the corporation has an operative financial exchange or over-the-counter market, a convertible currency, and a political, economic and investment structure which facilitates the availability of securities to foreign investors, and (b) the ownership of such shares are represented by American Depository Receipts (ADR) sold on a public or registered stock exchange within the United States. At the discretion of the Board and Investment Managers, investments in foreign corporations may be made in dollar-denominated mutual funds and exchange traded funds whose assets consist of such foreign equities.

Domestic Fixed Income

SCERS' funds may be invested in debt securities, including convertible bonds, issued by solvent domestic corporations or by local, state or federal governments, political subdivisions, or public agencies, including, without limitation, the City of Sacramento and Sacramento Redevelopment Agency through the City of Sacramento Financing Authority. At the discretion of the Board and Investment Managers, investments in the debt of domestic corporations may be made in individual issues and dollar-denominated mutual funds and/or exchange traded funds whose assets consist of such domestic debt securities.

International Fixed Income

SCERS' funds may be invested in investment grade foreign debt securities issued by a solvent foreign corporation or by foreign sovereignties. At the discretion of the Board and Investment Managers, investments in the debt of foreign corporations may be made in individual issues and dollar-denominated mutual funds and/or exchange traded funds whose assets consist of such foreign debt securities.

Commodities

SCERS' funds may be invested in commodities, including, without limitation, precious metals, agricultural products, oil and natural gas. Such investments may be in the form of dollar-denominated exchange traded funds that track the price changes of targeted commodities.

SECURITIES LENDING

The Board may engage in a securities lending program to provide the System with an opportunity to earn incremental income and offset administrative expenses. The program may be managed by the custodian (see Section VII.B), and/or a qualified third-party securities lending agent. The lending program should remain transparent to the Board

and should not impede the SCERS investment program.
The securities lending program consists of two separate functions. The first function is the lending of SCERS' eligible portfolio securities (domestic and international equities and bonds) to approved and qualified borrowers through an agent, subject to the terms and conditions specified in SCERS' securities lending contract. Domestic loans must have a minimum initial collateralization level of 102% and international loans must have an initial collateralization level of at least 105%.

The second function is the reinvestment of cash proceeds generated by the lending of SCERS' portfolio securities. This function is an investment management function, and as a result is governed by the same prudent person rules employed by the Board and its Investment Manager. Accordingly, the investment of cash collateral shall be in securities permitted by the Board as satisfying the prudent person standard. Cash and non-cash collateral may be invested in commingled funds or in separately managed accounts.

OPTION STRATEGIES

Utilization of options is allowed as a prudent way to take advantage of certain market dynamics in order to increase the overall returns of the investment portfolio without incurring undue risk, and/or to protect positions in a declining market. By Board Resolution 09-003, dated October 26, 2009, the Board has authorized the writing and selling of call options on existing security positions and the purchase of put options to protect existing security positions. Pursuant to Resolution 09-003, the following limitations are placed on the use of such authorized options: (1) The fair market value of securities underlying existing and proposed option contracts may not exceed 30 percent of the market value of the investment portfolio measured at the time each new option contract is evaluated, and (2) the time from the inception of an option position to its expiration date shall not exceed 90 days.

REAL ESTATE MORTGAGES

SCERS' funds may be lent to owners of real property provided the Board is satisfied with the credit worthiness of the borrower, the attributes of the real property, the suitability of the loan-to-value ratio, the interest rate on the loan, the reliability of the source of debt service funds, among other factors bearing on the desirability of the loan. No loans shall be made unless it is secured by a first position deed of trust, junior only to taxes and assessments entitled to priority by state statute, and supported by appropriate title insurance.

6. AUTHORIZED FINANCIAL INSTITUTIONS, DEPOSITORIES, BROKER/DEALER SELECTION

Financial institutions and depositories involved in implementing the Board's investment activities are selected on a competitive basis in order to obtain high quality services by reliable, reputable and stable entities. The competitive process may be formal or informal, as determined by the Board in its discretion, with the objective of obtaining the quality of services necessary to serve the best interests of SCERS and its members,

with services performed at competitive fees and rates.

Among the factors that the Board may consider in obtaining such services are (i) minimum qualifications pertaining to capacity, satisfaction of requirements to conduct required business, i.e. licenses, permits, registrations, certifications, etc.; (ii) capitalization; (iii) insurance and bonding; (iv) safekeeping and custodial experience; (v) status in good standing; (vi) ability and capacity of the firm to provide a full range of services as may be required by the Board; (vii) extent of the value added by an entity over the services provided by firms then-providing investment-related services to the Board; and (viii) other attributes as may be determined by the Board from time to time. The Board may determine the number and nature of firms to be retained to provide investment-related services based upon the volume of existing and projected investment work. Those firms that are selected to execute transactions on behalf of the System shall do so in a good faith manner and in the best interests of the System, and shall disclose to and advise the Board of material facts that bear upon the pricing of a given transaction order given by investment officers.

In lieu of conducting its own competitive process for the selection of supporting financial institutions, the Board may utilize the custodians, banks, brokers, dealers and other financial institutions utilized by the City in the management and investment of its funds. Such institutions must be duly selected and approved by the City Council. Prior to engaging any City-approved institution, the Board must be satisfied with the selection process used by the City.

PERFORMANCE REVIEW

All financial institutions and depositories shall maintain the qualifications and attributes deemed appropriate by the Board, including, but not limited to those enumerated in subsection A above, and shall perform their duties in a satisfactory manner. The Board, in its discretion, shall conduct periodic performance reviews to ensure the institutions and depositories are providing services in the best interests of the System.

7. SAFEKEEPING AND CUSTODY

DELIVERY VS. PAYMENT

All trades of marketable securities will be executed by delivery vs. payment (DVP) to ensure that securities are deposited in an eligible financial institution prior to the release of funds.

CUSTODY OF SYSTEM ASSETS

SCERS shall contract to utilize the services of a master custodian that shall transfer assets to and from the System's funds as directed by the Board and/or the Investment Managers. Also, the custodian shall settle purchases and sales of securities, collect income, and disperse funds for approved expenditures or investments. Other services provided by the custodian include, but are not limited to, cash management, portfolio

transition services, securities lending services, compliance monitoring services and information/accounting services. The inventory and value of cash and securities held by the custodian will be reconciled on a daily basis. The custodial institution shall annually provide a copy of their most recent report on internal controls in accordance with Statement on Standards of Attestation Engagements, No. 18 (SSAE No. 18).

INTERNAL CONTROLS

The Investment Managers shall establish and maintain an internal control structure designed to guide the activities of investment officers to ensure that the assets of the System are protected from loss, theft or misuse. The internal control structure shall be designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management. The internal controls structure shall address the following points:

- Prevention of collusion
- Separation of transaction authority from accounting and recordkeeping
- Custodial safekeeping
- Avoidance of physical delivery securities
- Clear delegation of authority to subordinate staff members
- Written confirmation of transactions for investments and wire transfers
- Development of a wire transfer agreement with the lead bank and third-party custodian

8. REPORTING

INVESTMENT REPORTS

The Investment Manager shall present to the Board monthly investment transaction reports and quarterly performance reports.

MARKING TO MARKET

For purposes of preparation of the investment reports, the market value of the portfolio shall be calculated.

9. POLICY CONSIDERATIONS

ETHICS AND CONFLICTS OF INTEREST

Board members, the Investment Manager, and all other persons materially involved in the selection of investments (collectively, “Involved Persons”) shall refrain from personal business activity that could conflict with the proper execution and management of the SCERS investment program, or that could impair their ability to make impartial decisions. All Involved Persons shall disclose any material interests in financial institutions with which they conduct business or invest in. They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio. All Involved Persons shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of the System.

All Involved Persons shall file State Fair Political Practices Commission’s Statement of Economic Interests and make the disclosures required by the City’s conflict of interest policies.

EXEMPTION

Any investment held at the time these policies are duly adopted that does not meet the guidelines of this policy shall be exempted from the requirements of this policy, provided that as soon as practicable the Board and its Investment Manager shall take appropriate steps to address non-compliant investments in the best interest of the System. At maturity or liquidation, such monies shall be reinvested only as provided by this policy.

AMENDMENTS

This policy shall be reviewed annually by the Board. The Investment Managers may recommend changes to the Board for its consideration. Any changes adopted by the Board must be approved by the City Council.

CITY COUNCIL CONSIDERATION OF INVESTMENT POLICY

This policy shall be reviewed and approved by the City Council pursuant to Section 383 of the Charter.

30

SECTION - 30
Resources

Glossary

Account - The primary accounting field in the budget used to describe the type of financial transaction.

Actual - Actual level of expenditures/FTE positions approved for fiscal year as noted.

Amended - Level of expenditures/FTE positions reflecting adjustments made during the current fiscal year.

Appropriation - An authorization by the Council, which permits officials to incur obligations and expend City resources, for a specific purpose within a fiscal year.

Assessment - Revenue collected for City services that benefit properties in specific areas or districts.

Assessment District - A separate local government agency formed to provide specific services. Property owners within the Assessment District boundary pay the district in proportion to the benefits or services they receive.

Balanced Budget - The amount of budgeted expenditures is equal to or less than the amount of budgeted revenues plus other available resources.

Beginning/Ending Fund Balance - Unencumbered resources available in a fund from the prior/current year after payment of the prior/current year's expenses. Not necessarily cash on hand (also refer to Fund Balance).

Budget - An annual financial plan consisting of Proposed/Approved expenditures for specified purposes and the Proposed/Approved means of financing them.

California Public Employees' Retirement System (CalPERS) – The nation's largest public pension fund, providing health and retirement benefits to more than 2 million state, public school, and local public agency employees, retirees, and their families. The City contracts for retirement benefits only.

Capital Assets - Capital assets include land, improvements to land, easements, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period (fiscal year).

Capital Improvement - A specific undertaking involving procurement, construction or installation of facilities or related equipment that improves, preserves, enhances, or modernizes the City's provision of municipal services, has a useful life of at least five years, and costs in excess of $20,000. CIPs may include construction or major repair of City buildings and facilities such as streets, roads, storm drains, traffic signals, parks, community centers, etc.

Capital Improvement Program (CIP) - An ongoing five-year plan of single and multiple-year capital expenditures which is updated annually.

Carryover - Appropriated funds remaining unspent at the end of the fiscal year, which can be retained by the project to which they were appropriated so that they may be expended in the next fiscal year.

Charter Offices - City Attorney, City Auditor, City Clerk, City Manager, and City Treasurer.

Citywide and Community Support - Program costs that do not relate to any one department, but represent costs of a general citywide nature, such as debt service.

Combined Sewer System (CSS) - Sewers that are designed to collect rainwater runoff, domestic sewage, and industrial wastewater in the same pipe. Combined sewer systems transport their wastewater to a sewage treatment plant, where it is treated and then discharged to a water body.

Community Facilities District (CFD): The Mello-Roos Act (1982) allows any county, city, special district, school district, or joint powers authority to establish a CFD that allows for financing of public improvements (e.g., sewers, streets) and services. To establish a CFD, voters within the district must approve its creation by two-thirds.

Debt Financing - Issuance of bonds and other debt instruments to finance municipal improvements and services.

Debt Service - The costs of paying the principal and interest on borrowed money according to a predetermined payment schedule.

Department – "Department" refers to the Council; City Manager; City Attorney; City Auditor, City Clerk; City Treasurer; Convention and Cultural Services; Community Development; Community Response; Finance; Fire; Human Resources; Information Technology; Police; Public Works; Utilities; Youth, Parks, & Community Enrichment; and Citywide and Community Support.

Dept ID - A sub-unit of a department or division.

Division - A roll-up of units within a department. There are one or more units within a division.

Employee Services - The personnel costs of a City program, including wage/salary, direct and indirect benefits, such as health insurance, social security costs, retirement contribution, workers' compensation, unemployment insurance, etc.

Enterprise - A governmental facility or service that is self-supporting through fee and charge revenue.

Enterprise Funds - These funds are used to account for operations for which it is the stated intent that the costs of providing services to the public on a continuing basis be financed or recovered primarily through user charges and space rentals, e.g., Water Fund, Wastewater Fund (also known as the Sewer Fund).

Equipment - Capital outlay for tangible property of a relatively permanent nature, such as vehicles or equipment with a unit cost of $20,000 or more.

Expenditure Class - A roll-up of accounts: employee services, services and supplies, property, debt service, and interdepartmental transfers.

Expenditure - The actual spending of funds authorized by an appropriation. Expenditures are divided into the following “classes” of individual line items:

- Employee Services
- Services and Supplies
- Equipment
- City Property
- Multi-Year Operating Projects
- Debt Service
- Labor, Service and Supplies, or Central Offset
- Capital Improvements

Externally Funded Program - Program revenues provided by external agencies which are restricted to a specified purpose.

Fiscal Year (FY) - A time period designated by the City signifying the beginning and ending period for recording financial transactions. Sacramento has a fiscal year from July 1 through June 30, referred to as FY2025/26 or FY26.

Full-Time Equivalent (FTE) - A unit indicating the workload of a position in order to distinguish workloads comparable to a full-time position. An FTE of 1.0 means that the position is equivalent to a full-time workload, while an FTE of 0.50 signals that the position is half-time.

Fund - A group of related accounts used to maintain control over resources that have been segregated for specific activities or objectives.

Fund Balance - The total dollars remaining after current expenditures for operations and capital improvements are subtracted from the sum of the beginning fund balance and current resources.

General Fund - The City's principal operating funds (General Fund and Measure U Fund), which are supported by taxes and fees and which, generally, has no restrictions on its use. Expenditures may be described as discretionary and non-discretionary.

- Discretionary - That portion of the General Fund for which there are no restrictions on the use of the fees or taxes collected.

- Non-discretionary - Expenditure of revenues which are collected by users of a program to offset the cost of the program. State law requires that fees charged cannot exceed the cost of the service.

Grant - Contributions of cash or other assets provided by external agencies, which are restricted to a specific purpose, have a time limit for use, and frequently are reimbursed after incurring eligible costs.

Growth Rate - Level at which expenditures and revenues are expected to increase annually.

Impact - Effects on the service level provided by a particular program due to budget changes.

Indirect Costs - Those elements of cost necessary in the performance of a service that are not readily identified to the unit of service, such as administration, supplies, etc.

Internal Service Fund (ISF) - An ISF provides services to all City departments and bills the various other funds for services rendered. ISFs are self-supporting. Only the expenditure by the ISF is counted in budget totals; the internal transfer from the department to the ISF is excluded to avoid double-counting expenditures.

Internal Service Fund Transfer - A transfer from operating funds to an ISF, e.g., Risk Management or Fleet Management.

Labor/Supply Offset (CIP/Grant/Labor) - Amounts for employee salaries and benefits expected to be charged to a CIP or grants, thus reimbursing the operating budget for these costs.

Measure U Fund – This fund was established to account for revenues collected from the transactions and use tax voted in on November 6, 2018 and took effect on April 1, 2019. Measure U was approved as a general tax and can be used for any general government purpose. This one-cent tax is charged on each dollar of taxable sales of goods purchased from retailers within the City of Sacramento, and on the taxable storage, use, or consumption of goods purchased outside the City and delivered to a location within the City.

Multi-year Operating Project (MYOP) – A project/program with funding for internal operations (e.g., community outreach, fleet acquisitions, grants, rebates, and studies) that do not result in capital assets.

Operating Budget - Annual appropriation of funds for ongoing program costs, including employee services, other services and supplies, equipment, and debt service.

Operating Transfers - Moving dollars from a fund receiving revenue to a fund which will expend the resources.

Ordinance - A law or regulation made by a city or town government.

Other Governmental Funds - These funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes, e.g., Gas Tax Fund, Traffic Safety Fund, Operating Grant Fund.

Other Post-Employment Benefits (OPEB) - Benefits that an employee will begin to receive at the start of retirement, not including pension benefits.

Proposition 218 - Passed by California voters in 1996, Proposition 218 specifies requirements for how utility rates for water, sewer, drainage, and solid waste services are set and how the funds generated by those rates are used. Some of the requirements include:

- Holding a public hearing prior to any rate changes for water, sewer, drainage, or solid waste services and notifying rate payers of that hearing via mail at least 45 days in advance.
- Using funds generated by a particular rate, such as water rates, for water operations and projects.

Project, Child: - A project that falls under the budget appropriation authority of a parent project. Child projects are not required of a parent project.

Project, Parent: - A project that has budget appropriation authority given by Council. Parent project numbers usually end in zero-zero (00).

Resolution - A formal declaration by Council.

Resources - Total dollars available for appropriation during the fiscal year, including estimated revenues, fund transfers, and beginning fund balances.

Revenues - Income received from seven categories:

- Taxes - Revenue including sales tax, property tax, utility user tax, etc., collected to fund general operating City programs.
- Charges for Fees and Services - Fees charged to the user of any specific service provided by the City not supported by the General Fund. The fee cannot exceed the cost of providing the service.
- Licenses and Permits - Revenues collected for construction, maintenance, and/or operation of designated equipment, businesses, buildings, and private property including animals.
- Use of Money and Property - Interest earned on City investments or county-held funds.
- Inter-Governmental - Revenue disbursements from other agencies, such as State Motor Vehicle In-Lieu Tax and State Homeowners Property Tax Relief, and revenue reimbursement for services provided to other agencies.

- Fines, Forfeitures, and Penalties - Revenues collected for violations of City ordinances, late payments, etc.
- Miscellaneous Revenues - Revenues not categorized above.

Revenues can also be classified as operating or non-operating in the enterprise activities. Operating revenues are directly related to the fund's primary service activity and consist primarily of user fees and charges. Non-operating revenues are incidental to, or by-products of the enterprise's primary service, such as interest income or the Transient Occupancy Tax for the Community Center Fund.

Services and Supplies - Costs of contractual or outside services, office supplies, and equipment.

Special Revenue Funds - These funds are used to account for activities supported by specific taxes or other revenue sources. These funds are generally required by statute, charter, or ordinance to finance specific government functions.

Successor Agency - Pursuant to operation of California state law, the Redevelopment Agency was dissolved. Effective February 1, 2012, former activities and affairs of the Sacramento Redevelopment Agency were transformed to the City of Sacramento as the Successor Agency. The Successor Agency is authorized by law to accept and maintain the legal title, custody and dominion of records that were created by another agency.

Surplus - An excess of total current resources over total current requirements.

Total City Budget - The City's total fiscal year expenditure budget (operating and capital) as approved by the Council.

Trust Funds - These funds are used to account for assets and activities restricted to a specific purpose in accordance with a trust agreement, e.g., Ethel MacLeod Hart Trust Fund.

User Charges/Fees - The payment of a fee for direct receipt of a public service by the party benefiting from the service.

Variance - Change in expenditures or staffing levels between fiscal years.

SECTION - 31
Resolution

RESOLUTION NO 2026-XXX

Adopted by the Sacramento City Council

June XX, 2026

Approving the Fiscal Year 2026/27 Operating and Capital Improvement Program Budgets

BACKGROUND

A. Article IX, section 111, of the City Charter requires the City Manager to present a balanced budget to the Mayor and City Council no less than 60 days before the beginning of each fiscal year.

B. The City of Sacramento, through the leadership and direction of the Mayor and City Council, has maintained a sustainable budget philosophy. Given this concept of fiscal sustainability, the City Council adopted the following core budget policies and budget guidelines on February 14, 2017 (Resolution No. 2017-0078):

Core Budget Policies

1. City Council must adopt a balanced budget.
2. Funding decisions should be consistent with Council-adopted policies.
3. The Economic Uncertainty Reserve shall be maintained at a minimum of 10% of budgeted General Fund revenues. Resources must be added to maintain this level through the budget and midyear processes, as necessary.

Budget Guidelines

1. Maintain a fiscally sustainable, balanced budget.
2. The Mayor and Council's priorities, based on community input, should drive the budget creation.
3. Continue a community-based budget process where city residents are engaged and educated on budget processes and provide feedback on budget priorities.
4. Look for ways to grow the reserve beyond its current goal.
5. All budget actions must be considered in a five-year context, with new revenues not counted or spent until realized. One-time resources should be used for one-time needs, not ongoing expenses.
6. Do not make spending decisions in isolation. Avoid spending money on one-off projects or without looking at the big picture. Understand long-term consequences and opportunity costs.
7. Keep City Council informed on the fiscal condition of the City and conduct continuous evaluations for efficiencies and effectiveness.

8. The City must consistently look for opportunities to proactively grow revenues instead of simply being reactive.

9. Make every effort to identify private financing or federal and state grant opportunities before using City resources. Pursue new and enhance existing revenue sources.

10. Before new expenditures are made, identify return on investments and impacts, fiscal and social benefits.

11. Address unfunded long-term liabilities.

12. Remain a full-service City.

C. On June 11, 2019, the City's Economic Uncertainty Reserve (EUR) Policy was amended to include Measure U resources in determining the amount to be set aside in reserves (Resolution No. 2019-0248) as directed by the City Council on February 5, 2019 (Resolution No. 2019-0047).

D. The FY2026/27 Approved Budget (which includes the Operating Budget and the Capital Improvement Program [CIP] Budget) is consistent with City Charter requirements and the City Council's adopted Core Budget Policies and Budget Guidelines.

E. The Mayor and Council conducted budget discussions during May and June 2026 to discuss and consider the City's FY2026/27 Budget.

BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:

Section 1. Preliminary Matters.

1.1. The Budget changes attached as Exhibit A and the Summary of FTE attached as Exhibit B are hereby approved.

1.2. The FY2026/27 Operating and CIP Budgets (collectively the Approved Budget), as defined in section 3.2 below, and attached as Exhibits C and D are hereby approved.

1.3. The 2026-2031 CIP, which provides a comprehensive five-year plan for the City's capital project expenditures and attached as Exhibit D, is hereby approved.

1.4. Sections 2 through 20 below, which define the authority and responsibilities of the City Manager in implementing the Approved Budget, are hereby approved.

1.5. The City Manager is authorized to incorporate final decisions of the Council, and to refine and add content, as may be needed to meet Government Finance Officers Association and/or California Society of Municipal Finance Officers budgeting-award requirements into the Approved Operating and CIP Budgets to create the FY2026/27 Approved Budget.

1.6. The attached Exhibits A through D are part of this resolution.

1.7. The City's Debt service must be limited to 6% of total General Fund (includes Measure U Fund) revenues, excluding Department revenues.

1.8. The City Treasurer shall conduct a financial stress test on the General Funds before the issuance of any bonds.

1.9. Available resources in the Innovation and Growth Fund (Fund 2031) shall be transferred to the General Fund as needed to offset projected deficits shown in the General Fund five-year forecast included in the Approved Budget.

(A) Expand the usage of the Innovation and Growth Funds consistent with either ScaleUp Sacramento: An Inclusive Economic Action Agenda (Motion No. 2021-0022) or sections one through five of the Inclusive Economic Development Investment Funding Guidelines (Motion No. 2019-0307).

Section 2. Scope.

This resolution defines the authority and responsibilities of the City Manager in implementing the Approved Budget and supersedes Resolution No. 2025-0162.

Section 3. Definitions.

3.1. "Account" is the primary accounting field in the budget used to describe the nature of the financial transaction (overtime, professional services, debt, etc.).

3.2. "Approved Budget" means the Approved Operating Budget (Operating Budget) and the Approved Capital Budget (CIP Budget), which are attached as Exhibits C and D and reflects the FY2026/27 Proposed Operating and CIP Budgets, as amended by the Council to incorporate the approved Budget Changes attached as Exhibit A, and a summary of position changes as displayed in Exhibit B.

3.3. "City Manager" means the City Manager or, if so designated, the Director of Finance.

3.4. "Department" means Mayor and City Council; City Manager; City Attorney; City Auditor; City Clerk; City Treasurer; Community Development; Community Response; Convention and Cultural Services; Finance; Fire; Human Resources; Information Technology; Police; Public Works; Utilities; Youth, Parks, and Community Enrichment; and Citywide and Community Support.

3.5. "Full Time Equivalent" and "FTE" mean the decimal equivalent of a position, e.g., one full-time position is 1.00 FTE and one quarter-time position is 0.25 FTE.

Section 4. Approved Budget Appropriations, FTEs, and Adjustments.

4.1. The City Manager is authorized to make any expenditure and resource adjustments to the Operating Budget based on final Council action to adopt the Operating Budget.

4.2. The City Manager is authorized to establish the appropriations and FTE as shown in Schedules 1A, 1B, 1C, 1D, and 1E and the fund summaries, including transfers, as shown in Schedules 2A, 2B, and 2C, as displayed in Exhibit C.

4.3. The City Manager is authorized to modify FTE classifications by Department as necessary to implement the reclassifications and studies authorized by Schedule 8, as displayed in Exhibit C.

4.4. The City Manager is authorized to revise any appropriation made in the Approved or Amended Budget where the revision is of a technical nature and is consistent with the Council's intent.

4.5. The City Manager may authorize the use of the Old Sacramento Public Market Fund (Fund 2601) for the development, repair, and maintenance of the north and south public markets.

4.6. The City Manager is authorized to make annual loan payments to the Risk Fund from the Community Center Fund subject to the availability of funds. As of June 30, 2025, the balance of the Risk Fund loan to the Community Center Fund totaled approximately $4.6 million.

4.7. The City Manager is authorized to pay off a $15 million loan from the Risk Fund as a result of the legal settlement with year-end budgetary surplus from the General Fund (Fund 1001). The current balance is $15 million.

4.8. Following budget adoption, the City Manager is authorized to do the following:

(A) Transfer appropriations from the operating budget and establish or adjust revenue and expenditure budgets for externally funded programs (EFPs), multi-year operating projects (MYOPs), and operating grants as shown in Schedule 9 displayed in Exhibit C.

(B) Adjust any appropriation made in the Approved Budget to reflect changes from amounts budgeted for updated labor (for example, changes in retirement rates, payroll taxes, health benefits), fleet (including accident recovery costs), utilities in Citywide Support, 311 Call Center (reimbursements based on call data), cost plan, and risk-management changes, from available fund balance or reserves for the respective funds.

(C) Adjust budgets to reflect all required debt service and related payments, including adjustments to rate stabilization reserves, pursuant to City debt agreements.

(D) Revise and establish indirect cost rates to be applied to hourly salary rates in order to achieve full cost recovery of services; and adjust the Operating Budget to reflect the indirect cost rate plan for FY2026/27.

Section 5. Economic Uncertainty Reserve Policies and Transfers from Contingency and Reserve Funds.

5.1. The Council-adopted EUR Policy as amended on June 11, 2019 (Resolution No. 2019-0248) establishes a minimum reserve level equal to 10% of annual General/Measure U Fund revenues and a target reserve level equal to two months of regular ongoing General Fund and Measure U Fund expenditures, including transfers (17% of General Fund and Measure U Fund expenditures). Resources to fund this reserve will be identified on an ongoing basis and can include positive year-end results or other one-time resources available to the General/Measure U Fund.

5.2. The General/Measure U Fund EUR is maintained to bridge the gap between projected revenue and expenditures during periods of significant revenue declines, expenditure growth, or both. Consistent with Governmental Accounting Standards Board Statement No. 54 (Fund Balance Reporting and Governmental Fund Type Definitions), the Council-adopted parameters for using the EUR are as follows:

(A) The City Manager may recommend a release from the EUR when the gap between projected revenue and expenditures is greater than $1 million in the proposed budget.

(B) Any release from the EUR requires the Council's approval.

(C) These parameters may be changed only by resolution of the Council.

5.3. The City Manager is authorized to maintain an EUR reserve below the minimum threshold prescribed in the Council-adopted EUR Policy in FY2026/27. In the FY2024/25 and FY2025/26 Operating Budgets, General Fund and Measure U Fund EUR contributions were redirected to balance the FY2024/25 budget and create a Federal Funding Reserve in FY2025/26 to protect the City against the federal government withholding or rescinding revenues.

5.4. The City Manager is authorized to make appropriation changes (increases or decreases) less than $250,000 by fund from available fund balance. Appropriation changes, whether increases or decreases, of $250,000 or more require Council approval, except for payments to employees for vacation and sick leave payouts. Payments to employees for vacation and sick leave payout may be approved by the City Manager.

5.5. The City Manager is authorized to make appropriation changes (increases or decreases) less than $250,000 to any Department or project from Administrative Contingency established in the General Fund. Appropriation changes (increases and decreases) more than and including $250,000 to the Department or project require Council approval.

5.6. Transfers must not be made from an available fund balance or Administrative Contingency if the transfer will result in a negative balance.

5.7. The City Manager is authorized to release the General Fund (Fund 1001) and Measure U (Fund 2401) commitments of fund balance for future budget development as needed to submit a balanced budget.

5.8. Use of committed fund balance reserves, except as authorized in section 5.7, requires the Council's approval by resolution.

Section 6. Appropriation Increases and Decreases.

6.1. All appropriation changes (increases or decreases) $250,000 or more to the Approved Budget require Council approval by resolution.

6.2. The City Manager is authorized, upon completion of the audited financial statements for FY2025/26, to adjust FY2026/27 fund contingencies by the amount of net changes in available fund balance. The available fund balance in the General Fund must be included and explained in the report to the Council accompanying the Annual Comprehensive Financial Report (ACFR).

6.3. Residual balances from unexpended debt proceeds will revert to the appropriate fund and be used for the lawful purposes as specified in the conditions of the debt issuance. The City Manager is authorized to establish appropriations and account for the expenditure of these unexpended proceeds.

Section 7. Appropriation Transfers.

7.1. Operating appropriation transfers within the same Department and the same fund, including the Department's established fleet MYOP, require the City Manager's approval.

7.2. Appropriation transfers between two or more Departments, less than $250,000, must be approved by the City Manager. Such transfers more than and including $250,000 requires Council approval by resolution.

Section 8. Staffing Changes.

8.1. Any increase or decrease in FTE by department or by fund as authorized in the Operating Budget, by subsequent approval of the Council, or by the City Manager in accordance with this resolution, is subject to approval by the Council except for renewals or expansion of fully offset grants or EFPs as specified in section 8.2.

8.2. The City Manager is authorized to adjust staffing levels for renewals, expansions, or reductions to fully offset Council-approved operating grants or EFPs. Grant/EFP positions must be terminated upon completion or cancellation of the grant/EFP unless specifically continued by a Council resolution that includes a source of replacement funding. Any existing positions approved on the assumption that the City would receive a grant or other reimbursements must have continued funding verified before filling the position.

8.3. Any reassignment of authorized FTE and employee-services funding associated with the FTE, within a Department and within the same fund, may be made at

the discretion of the Department director with the approval of the City Manager as long as there is no net change to authorized FTE and funding levels.

8.4. The City Manager is authorized to modify any authorized FTE classification as necessary to reflect current incumbent status based on the established flexibly staffed classifications included in Council-approved labor contracts.

8.5. All new job classifications or classification changes (as identified in Exhibit C, Schedule 8) are subject to classification review and approval by the Director of Human Resources.

8.6. The City Manager is authorized to adjust staffing levels in the Police and Fire Training Academies based on projected vacancies.

8.7. The Director of Human Resources is authorized to establish non-budgeted positions (NBPs) for the following:

(A) Mayor and Council Offices, to be funded from their existing operations budgets.

(B) Departments as needed to reflect address critical staffing circumstances. Departments must have sufficient labor savings to cover the cost of NBPs, and none of the NBPs may be used for more than one year. Departments will seek budget authority to convert NBPs to authorized FTE positions or the NBPs will be eliminated during the budget process.

8.8. The City Manager is authorized to create an Economic Development Department in FY2026/27 and to adjust staffing levels within other departments based on the new Citywide organizational structure. The City Manager is authorized to conduct necessary classification changes of existing positions for the new Economic Development Department.

Section 9. Revenue Budget.

9.1. The FY2026/27 revenue budget is summarized in Exhibit C, Schedule 6.

9.2. Any increase or decrease greater than (and including) $250,000 by fund in estimated revenue by Department to the Approved Budget requires the Council's approval.

9.3. The City Manager is authorized to implement biennial Consumer Price Index increases if the increases are warranted based on the adopted Fees and Charges Policy.

9.4. Proceeds from the sale of General Fund and Redevelopment Agency Successor Agency surplus land, unless otherwise specified, will be budgeted in the Innovation and Growth Fund (Fund 2031).

9.5. Unbudgeted one-time general revenue received in a fiscal year, which is not required to balance the budget as part of the midyear review or fiscal year-end close, will be added to the General Fund/Measure U EUR.

9.6. The City Manager is authorized to adjust General Fund revenues supporting Measure U department operations to actuals received and to adjust the appropriate transfers between the funds.

Section 10. Capital Improvements.

10.1. Capital projects and/or appropriations will be used for the following:

(A) Repairs, maintenance, improvements, or acquisitions with a total cost of at least $20,000 and a useful life that exceeds one fiscal year; and

(B) Community/Neighborhood projects as approved in separate resolutions by the Council.

10.2. Council approval is required for the establishment or cancellation (without completion) of a CIP, except as provided below:

(A) The City Manager is authorized to approve and establish one or more capital projects for internal City operations related to improvements and minor construction of existing City-owned or occupied buildings if the total cost to deliver each project is less than $250,000. Projects will be managed in the City Facility Improvement (C15100000) project.

(B) Capital projects may be subdivided into separate sub-projects as needed to administer, manage, and deliver the original scope of the project, without further Council action.

(C) Projects established for agreements the City Manager executes in accordance with Sacramento City Code chapter 18.18. The City Manager is authorized to make all necessary budgetary adjustments when the City accepts improvements constructed under these agreements.

10.3. Capital appropriations must be used solely for the originally approved project or projects except as provided in this section.

10.4. Completed and inactive projects will be closed annually, except for projects that have existing litigation or payment disputes. An inactive project is one where transaction activity is less than $1,000 over the prior three years. Closures are the responsibility of the designated project manager. The managing department and the City Manager are each authorized to process the necessary documentation to close inactive projects.

10.5. Each fiscal year, all multi-year CIP projects in existence on June 30 will be continued except as provided otherwise in section 10.4. The FY2026/27 CIP Budget is summarized on Schedules 2 and 4 as displayed in Exhibit C and on Schedule 4 as displayed in Exhibit D.

10.6. Each fiscal year, unobligated appropriations for all inactive projects, as defined in section 10.4, will expire on June 30 following the third full year of the last appropriation to the project. Projects requiring continuing appropriations will

require Council action through programming within the CIP or through a separate appropriation to the project authorized by resolution of the Council.

10.7. Each fiscal year, on June 30, the balance of each CIP project must be zero or have a positive balance by fund. Projects with spending in excess of available budget from all funding sources (i.e., with negative balance) will be treated as follows:

(A) If the CIP balance exceeds budget by less than $250,000, the CIP must first be corrected within each fund, and then any remaining negative balance must be corrected by a transfer from the CIP manager's Operating Budget (all transfers less than $250,000 must be made as provided for in section 6.1).

(B) If expenditures exceed the budget by more than and including $250,000, a corrective plan of action must be submitted to the Council for approval by resolution.

10.8. Community/Neighborhood projects and appropriations established with one-time funding sources under Resolution No. 2004-551 (6/29/04) and associated staff report, is governed by the following procedures:

(A) Savings of up to and including $50,000 due to lower-than-expected costs or the securing of alternative funding sources may be administratively reprogrammed into other projects within the same Council District at the request of the Council District Office and with the approval of the City Manager.

(B) Savings above $50,000 may be reprogrammed upon approval by resolution of the Council.

10.9. Except as provided in section 10.8, the City Manager is authorized to transfer appropriations less than $250,000 as follows:

(A) General, Measure U, and Capital Bond Funds:

(1) From a project that has not been completed, if a revised project estimate confirms that upon completion there will be project savings.

(B) All other funds from Project A to Project B if:

(1) Project A is complete and has savings; or

(2) Project A has not been completed and a revised project estimate confirms that there will be project savings upon completion.

10.10. Upon completion and closure of a capital project, the City Manager is authorized to transfer any remaining project balance as follows:

(A) To the available fund balance of the respective fund, the Capital Projects Base Reserve in the Utilities CIP or, in the case of the General Fund, Administrative Contingency; or in the case of capital grants, to amend the

revenue and expenditure budgets to actual revenues received and expenditures incurred.

(B) As provided for in section 10.9.

10.11. Except for projects covered by section 10.10, the City Manager is authorized to increase or decrease project budget appropriations by less than $250,000 for each project. Appropriation changes more than and including $250,000 in total for any project must be approved by resolution of the Council. The City Manager's administrative authority to adjust budgets for capital projects will be reset after budgetary actions are authorized by the Council. If the appropriation is from available fund balance, it is subject to the provisions in section 5.

10.12. Projects funded by New Measure A Project Construction Sales Tax are included within the CIP Budget for planning purposes. Work on CIP projects funded by New Measure A Project Construction Sales Tax (Fund 2023) is done before receiving funding, and project funding and authorization for these projects must be as follows:

(A) Fund 2023 revenue and expenditure budgets will not be loaded into the City's financial system until STA Board approval and Council appropriation through separate Council action.

10.13. Projects funded by reimbursable (grant) funds are included within the Operating and CIP Budgets for planning purposes. Work on CIPs funded by these sources is done before receiving funding, and project funding and authorization for these projects must be as follows:

(A) Funds 2700, 3702, 3703, 3704, 6205, 6206, 6207, and 6211. Revenue and expenditure budgets will not be loaded into the City's financial system until agreements (Program Supplements/E-76s, Individual Project Agreements, Cooperative Agreements, etc.) have been executed by the City and the funding authority.

(B) Funds 3703 and 3704. The City is eligible to receive federal or state funding, or both, for certain transportation projects through the California Department of Transportation (Caltrans). Master Agreements, Program Supplemental Agreements, Fund Exchange Agreements, and Fund Transfer Agreements must be executed by Caltrans before such funds can be claimed. The City Manager is authorized to execute on the City's behalf all Master Agreements, Program Supplemental Agreements, Fund Exchange Agreements, and Fund Transfer Agreements, and any amendments thereto.

The City Manager is authorized to transfer matching funds as specified in the approved CIP from the state and federal Grant Match (T15007200) CIP, and to enter the revenue and expenditure budgets as reflected in the grant agreement, only if the amount differs by less than $250,000 from what was reflected in the Approved CIP Budget that authorized the project funding. Project agreements that differ by more than and including

$250,000 from the anticipated budget require the Council's approval by resolution.

(C) For projects in funds 6205, 6206, and 6211 that result from an existing Operations and Maintenance Agreement for facilities maintained by the City but are owned or co-owned with Regional San and Sacramento Area Flood Control Agency, the City Manager or designee is authorized to do the following:

(1) Establish and/or adjust revenue and expenditure budgets of up to $250,000 for any emergency repair or replacement projects; and

(2) Adjust revenue and expense budget based on actuals for project closure.

10.14. The 2026-2031 CIP Budget (Schedule 4, Exhibits C and D) includes projects that are directly supported by user and developer fees and utility rebates. The City Manager is authorized to adjust department revenue budgets and CIP expenditure budgets for projects as identified in the General Government section of the CIP that are directly supported by fees and rebates based on the actual fees and rebates collected, less any operating costs associated with delivering the service.

10.15. The City Manager is authorized to adjust revenue and expenditure budgets to reflect actual revenues received and expenditures incurred in compliance with the original grant award and any amendments. If the grant is not renewed or is changed by more than and including $250,000, the managing department must return to the Council for corrective action.

Section 11. Operating Grants.

11.1. Council approval is required for the establishment or cancellation (without completion) of an operating grant except as follows:

(A) Where the operating grant is less than $250,000 and does not require any of the following:

(1) any increase or decrease, by department or by fund, in FTE as authorized in the Approved Budget or by any subsequent approval by the Council or the City Manager in accordance with this resolution;

(2) matching funds from City resources; or

(3) any ongoing service or funding by the City.

(B) The City Manager is authorized to establish operating grants and authorize spending and allocation of resources more than and including $250,000 in advance of formal agreements in response to governmental requests for public-safety assistance related to homelessness, disasters and national-security risks. The department responding to these events shall report to the Council within 60 days after receiving formal program

documents from the requesting governmental agency or agencies to obtain approval to enter into agreements and accept reimbursements.

(C) Operating grants may be subdivided into separate sub-projects as needed to administer, manage, and deliver the original scope of the project, without further Council action.

11.2. The City Manager is authorized to adjust FTE and associated service and supplies budget, in accordance with section 8.2, for renewals or expansions of fully offset grants previously approved by the Council.

11.3. If a grantor requires Council action as a condition of funding the grant, the establishment of the grant requires Council approval regardless of the grant amount.

11.4. Each fiscal year, all multi-year operating grant budgets in existence on June 30 will be continued in the next fiscal year.

11.5. The City Manager is authorized to adjust revenue and expenditure budgets for renewals, up to the amount previously approved by the Council, and augmentations less than $250,000 of fully offset grants.

11.6. The City Manager is authorized to establish revenue and expenditure budgets for federal or state grant-funded youth programs and parks-and-recreation programs based on the prior year award before receipt of signed agreements. Project funding and appropriations must be adjusted based on the final grant agreement. If the grant is not renewed or is changed by more than and including $250,000, the managing department must return to the Council for corrective action.

11.7. Each fiscal year, on June 30, the balance of each grant budget must be zero or have a positive balance by fund. Grants in excess of the budget from all funding sources (total budget has a negative balance) will be treated as follows:

(A) If the Grant balance exceeds budget by less than $250,000, the Grant must first be corrected within each fund, and then any remaining negative balance must be corrected by a transfer from the Grant manager's Operating Budget (all transfers of less than $250,000 must be made as provided for in section 6.1).

(B) If the project balance exceeds budget by more than and including $250,000, a corrective plan of action must be submitted to the Council for approval by resolution.

11.8. The City Manager is authorized to adjust grant and operating expenditure budgets to account for Council-approved grant match and retention obligations.

11.9. The City Manager is authorized to adjust revenue and expenditure operating grant budgets to reflect actual revenues received and expenditures incurred upon closure of a project in compliance with the original grant award and any amendments.

11.10. Award and Distribution of City Grants.

(A) Council approval is required: (1) to award grants to an individual, non-profit, business, or community-based organization that applies for a City grant more than and including $250,000; and (2) to execute contracts with the grantees for the services to be provided.

(B) Consistent with Council direction, the City Manager is authorized: (1) to award grants to an individual, non-profit, business, or community- based organization that applies for a City grant in amounts less than $250,000; and (2) to execute contracts with the grantees for the services to be provided.

(C) The award and distribution of grants must comply with any Citywide Grant Distribution Policy.

(D) Before grant funds are distributed, the City and the grantee must execute a City contract that outlines the public benefit, timelines, and reporting requirements.

(E) For grant contracts of any amount, the City Manager is authorized to execute amendments consistent with the authority granted to the City Manager in section 3.04.020 of the City Code and related policies.

(F) The annual budget must list all grants awarded the previous calendar year.

Section 12. Externally Funded Programs (EFP).

12.1. Council approval is required for the establishment or cancellation (without completion) of an EFP, except as follows:

(A) Where the EFP is less than $250,000 and does not require any of the following:

(1) any increase or decrease, by department or by fund, in FTE as authorized in the Approved Budget or by any subsequent approval by the Council or by the City Manager in accordance with this resolution;

(2) matching funds from City resources; or

(3) any ongoing service or funding by the City.

(B) EFPs may be subdivided into separate sub-projects as needed to administer, manage, and deliver the original scope of the project, without further Council action.

12.2. Each fiscal year, all multi-year EFP budgets in existence on June 30 will be continued in the next fiscal year.

12.3. The City Manager is authorized to adjust revenue and expenditure budgets for EFP renewals, up to the amount previously approved by Council, and augmentations less than $250,000.

12.4. Each fiscal year, on June 30, the balance of each EFP budget must be zero or have a positive balance by fund. EFPs in excess of the budget from all funding sources (total budget has a negative balance) will be treated as follows:

(A) If the EFP balance exceeds budget by less than $250,000, the EFP must first be corrected within each fund, and then any remaining negative balance must be corrected by a transfer from the EFP manager's Operating Budget (all transfers of less than $250,000 must be made as provided for in section 6.1).

(B) If the project balance exceeds budget by more than and including $250,000, a corrective plan of action shall be submitted to the Council for approval by resolution.

12.5. EFPs with existing contracts approved by the Council, funding ongoing operations and studies, can be adjusted annually (revenues and expenditures) based on the actual revenues received.

Section 13. Multi-Year Operating Projects (MYOP).

13.1. A MYOP is used for the following:

(A) Economic Development Assistance and Development Programs (e.g., inclusionary housing).

(B) Planning, audit, and other consultant studies that will take more than one fiscal year to complete.

(C) Department fleet (vehicle or equipment) acquisition charges.

(D) Other projects and activities that are multi-year in nature and are not capital improvement projects.

13.2. Council approval is required for the establishment or cancellation (without completion) of a MYOP, except as provided in section 13.7.

13.3. MYOPs may be subdivided into separate sub-projects as needed to administer, manage, and deliver the original scope of the project without further Council action.

13.4. Each fiscal year unobligated appropriations in existence on June 30 for existing MYOPs will be continued in the next fiscal year except as noted in sections 13.10, 13.11, and 18.11.

13.5. MYOPs must be used solely for the originally approved program or study. Completed or inactive MYOPs will be closed annually. An inactive project is one where transaction activity is less than $1,000 over the prior three years. Closures are the responsibility of the designated project manager. The

managing department and the City Manager each have the authority to process the necessary documentation to close inactive projects.

13.6. The Police and Fire Departments are authorized to use Measure U MYOPs savings from vacancies for background investigations, recruit academies, and overtime associated with restored programs and operations.

13.7. The City Manager is authorized to establish and adjust budgets for private development activities (Funds 2016 and 2018) managed in MYOPs that are fully offset by development fees.

13.8. Each fiscal year, on June 30, the balance of each MYOP must be zero or have a positive balance by fund. Projects in excess of the budget from all funding sources (total budget has a negative balance) will be treated as follows:

(A) If the MYOP balance exceeds budget by less than $250,000, the MYOP must first be corrected within each fund, and then any remaining negative balance must be corrected by a transfer from the MYOP manager's Operating Budget (all transfers of less than $250,000 must be made as provided for in section 6.1).

(B) If the MYOP balance exceeds budget by more than and including $250,000, a corrective plan of action must be submitted to the Council for approval by resolution.

13.9. The City Manager is authorized to increase or decrease MYOP budget appropriations by less than $250,000 for each project. Transfers that exceed and including $250,000 in total for any MYOP require Council approval by resolution.

13.10. The City Manager is authorized to review MYOPs on an annual basis and return excess funds to the fund balance or contingency of the respective fund (e.g., Fleet, Measure U, Utility Rate Assistance).

13.11. The Utility Box Artwork (I17000800) MYOP General Fund budget can be amended up to $450,000 ($50,000 for each Councilmember and the Mayor) based on requests and resources provided from the operations budgets of the elected official initiating the request.

13.12. MYOPs with existing contracts approved by the Council funding ongoing operations and studies, can be adjusted annually (revenues and expenditures) based on the actual revenues received.

13.13. The City Manager or designated project manager is authorized to administer and manage the Sacramento Utility Rate Assistance (SURA) Program (I14130100) up to the annual budget of $5.4 million.

13.14 Expand program goals in the Workforce Development Framework (I02180900; Reso 2022-0169, Section 1) to include all ages under the priority population criteria.

Section 14. In-Lieu Property Taxes and In-Lieu Franchise Fee.

An in-lieu property tax and in-lieu franchise fee are hereby imposed on the Community Center (Fund 6010) and Parking (Fund 6004) Funds in the amounts provided in Schedule 3 as displayed in Exhibit C. The Council finds that the in-lieu property tax as detailed in Schedule 3 represents the property-tax revenue that would be received by the General Fund if the real and personal property owned by these enterprises were taxable under private ownership. The in-lieu franchise fee as detailed in Schedule 3 represents the franchise fees that the City would receive from private entities as a rental or a toll for the use of city streets and rights-of-way.

Section 15. Appropriation Limits.

The appropriation limit and the appropriations subject to the limit are hereby amended in accordance with article XIIIB of the California Constitution for FY2026/27, as detailed in Schedule 5 as displayed in Exhibit C.

Section 16. Midyear Report.

16.1. The City Manager shall present a Midyear Budget Report including a revised estimate of the financial condition of all funds, estimated revenues and expenditures, and recommendations for eliminating any projected fund deficits to the Council.

16.2. The Council will act on any projected fund deficits as part of the midyear review.

Section 17. Adjustments for Revenue Offset Programs and Services.

17.1. The City Manager is authorized to adjust revenue and expenditure budgets in special revenue funds based on actual revenues collected to provide appropriation authority for operating costs associated with delivering the service. If there are forecasted budget deficits in the future fiscal years, the City Manager is authorized to commit non-mandated General Fund revenues and positive net year-end results to future budget development reserves.

17.2. The City Manager is authorized to make the following adjustments to Department Operating Budgets or fund balance:

(A) Adjust Fire Department revenue and expenditure budgets based on actual revenues received for Department strike-team services provided throughout California.

(B) Adjust operating department revenue and expenditure budgets based on actual revenues received for providing reimbursable services to the Golden 1 Center as outlined in the City's agreement to provide services.

(C) Adjust the revenue budget for the Sacramento Police Department's Secondary Employment Program to reflect actual revenues received and adjust the expenditure budget by a like amount for providing reimbursable services as outlined in the City's Secondary Employment Agreement.

(D) Adjust the revenue and expenditure budgets for facility maintenance and repair services provided to outside agencies and entities (15004521-338020), for private property concrete maintenance and sidewalk repairs (15001641-343010), and private property hollow sidewalk repairs (15001191) to reflect actual revenues received for these services.

(E) Increase the revenue (Account 391320) and fleet-replacement expenditure (Account 474210) budgets in the Fleet Fund (Fund 6501) based on departmental fleet purchasing changes (additional or early replacement) approved by the Council during the fiscal year and upon completion of audited financial statements to allow the continued purchasing of prior-year-funded replacement vehicles.

(F) Transfer excess parking meter revenue from the General Fund (Fund 1001) to cover eligible costs that are incurred in the Parking Fund (Fund 6004) if the full costs of the current fiscal year operations for parking meters has been recovered and the department has positive net year-end results.

(G) The Rental Housing Inspection Program Fees are established to recover the costs of the program. If the full cost of the current-year operations for that program have been recovered, then excess revenues for the program will be committed to fund a reserve equal to one year's revenue budget for the program.

If these operations do not achieve the budgeted revenues or if program costs exceed the program budget, then resources must be transferred from the commitment of fund balance for the Rental Housing Inspection Program to cover the shortfall.

(H) Increase the revenue and expenditure budgets in the Garcia Bend Park (L19703600) CIP based on the actual revenues received from increased boat launch ramp fees at Garcia Bend Park, provided that the Department has positive net revenues after all Parking Services Division costs related to the Garcia Bend launch ramp are paid.

(I) Adjust the Police Department revenue and expenditure budgets based on actual revenues received for mutual aid provided to other jurisdictions.

(J) Establish Department of Utilities revenue and expenditure budgets for any projects that result from an existing operations and maintenance agreements for facilities maintained by the City, but owned or co-owned with an outside agency for less than $250,000 in the Water Grant Reimbursement Fund (Fund 6205), the Wastewater Grant Reimbursement Fund (Fund 6206), and the Storm Drainage Grant Fund (Fund 6211) for an agency's share and to adjust revenue and expense budget based on actuals for project closure.

(K) Adjust the revenue and expenditure budgets for the SB 720 Red Light Camera Fund (Fund 2040) based on actual citation revenues collected.

(L) Adjust the revenue and expenditure budgets in Animal Care Services Capital Campaign Fund (Fund 3705) based on actual revenues donated.

17.3. The City Manager is authorized to make the following adjustments between Department operating budgets and CIPs or MYOPs:

(A) Adjust the revenue budget for the City Attorney's Office and the expenditure budget in the Justice for Neighbors (JFN) (I03000100) MYOP based on the actual fees, penalties, and other revenues collected from third parties for Public Nuisance, Social Nuisance, and JFN actions brought by the City Attorney.

(B) Adjust the Community Development Department operating budget for spay/neuter and unaltered pet-licensing revenue accounts (Account 341380 [Program Code 13006] and 351020) and increase the Animal Care Low Income Spay/Neuter Program (I13000600) MYOP expenditure budget in the General Fund (Fund 1001) to reflect 50% of the penalty fees and 50% of unaltered pet-licensing fees collected in accordance with Sacramento City Code section 9.44.215.D.

(C) Adjust the revenue budget for the Convention and Cultural Services Department franchise fee to reflect actual revenues received and increase the expenditure budget by a like amount in the Old Sacramento Service Courts & Support Facilities (M17700000) CIP.

(D) Adjust the Convention and Cultural Services revenue budget for Memorial Auditorium Facility Fee revenues and the Memorial Auditorium Improvements (M17101000) CIP expenditure budget based on actual fees collected, less any operating costs associated with delivering this service.

(E) Adjust the Convention and Cultural Services revenue budget for SAFE Credit Union Performing Arts Center Facility Fee revenues and the Performing Arts Center Improvements (M17101800) CIP expenditure budget based on the actual fees collected, less any operating costs associated with delivering this service.

(F) Adjust the Public Works Department revenue budget to reflect actual revenues received and the Sacramento Valley Station Operations and Management (I15001000) MYOP expenditure budget by a like amount.

(G) Increase the Public Works Department revenue and expenditure budgets for launch-ramp activities to reflect actual revenues received and transfer any resulting year-end savings for these activities to the Harbor Dredging (M17500000) CIP if the Department has positive net year-end results.

(H) Adjust the Public Works Department revenue budget and the expenditure budget in the Shared-Rideable Implementation (K15195100) CIP based on the actual revenues received from the Shared-Rideable permit fees,

except for the portion of the fee assessed to offset parking-meter-revenue loss.

(I) Adjust the Public Works Department revenue budget (15001021) and the expenditure budget in the Tree Planting and Replacement (R15188500) CIP based on actual revenues received in the Tree Planting and Replacement Fund (Fund 2035).

(J) Adjust the Youth, Parks, and Community Enrichment Department revenue budget for recreation-program fees and increase the expenditure budget in the Recreation Facility Improvement (L19800200) CIP if the full cost of the current fiscal-year operations for this CIP have been recovered and the Department has positive net year-end results.

(K) Adjust appropriations made in the Approved Budget for fleet replacements from amounts budgeted for updated fleet-replacement costs less than $250,000 by department and by fund and transfer expenditure budgets from department operating budgets to the Fleet Acquisitions (I06000999) MYOP if the department is projecting expenditure savings in excess of the transfer.

(L) Increase the transfer from the Community Center Fund (Fund 6010) to the General Fund (Funds 1001/2401) to offset the annual budget provided for in Schedule 9 for the Powerhouse Science Center (E18000400) EFP as authorized by Council through December 2048, if Transient Occupancy Tax revenues exceed budget by an amount up to $600,000 at year-end and if the Community Center Fund has positive year-end available fund balance.

(M) Increase the Youth, Parks, and Community Enrichment Department revenue budget for the all-weather sport field facility fees received and increase the expenditure budget in the Granite All Weather Field (L19806000) CIP, provided that the Department has positive net year-end General Fund (Funds 1001/2401) results.

(N) Adjust the Transportation CIP budget to meet the City's SB 1 Maintenance of Effort (MOE) requirements.

(O) Adjust Community Development Department's revenue budget for the Housing Trust and Housing Impact administrative fees to reflect actual revenues received and increase the expenditure budget by a like amount in the General Plan Update (I22000000) MYOP.

17.4. The City Manager is authorized to make the following adjustments to CIPs and MYOPs:

(A) Adjust the revenue and expenditure budgets in the Old Sacramento Service Courts (M17700000), Old Sacramento District Improvements (M17700100), and the Joe's Crab Shack Repairs and Maintenance (B18119000) CIPs based on actual rent proceeds available after

payment of all fees to the State of California and funding of annual required maintenance costs.

(B) Adjust revenue and expenditure budgets in the Energy Reinvestment Program (C13001900) CIP to reflect actual energy rebates and incentives received.

17.5. The City Manager is authorized to implement the following fiscal transactions as needed to properly manage and account for the City's cannabis revenues and expenditures:

(A) Adjust the Citywide revenue budgets for all Business Operations Taxes relative to Cannabis activities based on actual revenues received and increase the expenditure budget in the Cannabis Policy and Enforcement (I06420000) MYOP as necessary to cover costs.

(B) Adjust the revenue budget for the City Manager's Office of Cannabis Management operations (02001101) to reflect actual revenues received and increase or decrease the expenditure budget in the operating budget by a like amount. At year-end excess resources must be transferred to I06420000 to offset the cost of enforcement. If there are inadequate revenues available, resources must be transferred from I06420000 to cover the actual operating costs incurred in 02001101.

(C) Establish or increase the revenue budget(s) for fines and administrative penalties collected in accordance with Sacramento City Code section 8.132, relating to the cultivation of cannabis, in the department where collected and increase the expenditure budget in I06420000 to support enforcement activities based on actual revenues received.

(D) Adjust the revenue budget for Housing and Dangerous Building fines, fees, and penalties collected by the Community Development Department and the expenditure budget in I06420000 at year-end based on actual revenues received.

(E) Transfer expenditure budgets between I06420000 and the Cannabis Opportunity, Reinvestment and Equity (CORE) (I02420000) MYOP to support CORE program operations.

(F) Transfer expenditure budgets between I06420000 and the Youth Cannabis Outreach & Education program (I06420500) MYOP to support prevention workload in the Office of Youth Development.

17.6. The City Manager is authorized to implement the following fiscal transactions as needed to properly manage and account for the City's efforts toward reducing homelessness:

(A) Adjust the revenue and expenditure budgets to reflect actual contributions received from external partners in the Homeless Housing Initiatives (I23001000) MYOP to support homeless-services programs.

(B) Each fiscal year, unobligated General Fund (Funds 1001/2401) appropriations in existence in the Department of Community Response Office of the Director (23001011) on June 30 must be transferred to the Homeless Housing Initiatives (I23001000) MYOP if the Department has positive net year-end results.

(C) Each fiscal year, unobligated General Fund (Funds 1001/2401) appropriations in existence in the Office of Community Outreach (23001021) on June 30 must be transferred to the Community Response (I23000100) MYOP if the Department has positive net year-end results.

(D) Each fiscal year, unobligated General Fund (Funds 1001/2401) appropriations in existence in the Office of Homeless Services (23001031) on June 30 must be transferred to the Homeless Housing Initiatives (I23001000) MYOP if the Department has positive net year-end results.

(E) Each fiscal year, unobligated General Fund (Funds 1001/2401) appropriations in existence in the Office of Violence Prevention (11001491) on June 30 must be transferred to the Gang Prevention and Intervention (I11003000) MYOP if the Department has positive net year-end results.

17.7. The City Manager is authorized to implement any necessary financial transactions for the administration of revolving loan fund programs authorized by the Council.

17.8. The City Manager is authorized to use Emergency Medical Services Revenue Recovery funds (Intergovernmental Transfer - Ground Emergency Medical Transport and Public Provider – Ground Emergency Medical Transport) to cover overages from the Single Role program and related equipment and vehicles as necessary.

Section 18. Year-End Process and Carryover Authority.

18.1. Each fiscal year, all purchase-order commitments outstanding on June 30, and associated appropriations, are hereby continued.

18.2. If there is not a budgetary surplus in the General Fund (Funds 1001/2401) at year-end, the City Manager shall suspend the General Fund transfers and carryovers authorized in this section. If there is a budgetary surplus in the General Fund and there are forecasted budget deficits in the future fiscal years, the City Manager is authorized to commit non-mandated General Fund revenues and positive net year-end results to future budget development reserves.

18.3. Each fiscal year, unobligated appropriations in existence on June 30 for the Council operations budget will be carried over to the next fiscal year.

18.4. Each fiscal year, unobligated General Fund appropriations in existence in the Arts Stabilization budget (80001065) on June 30 must be transferred to the

Cultural and Economic Vitality (I17001000) MYOP if the department has positive net year-end General Fund results.

18.5. Each fiscal year, revenues in excess of budget in Building Inspection, Building Plan Check, Customer Service/Permit Counter, and Planning Operations areas of the Community Development Department must be transferred to the Development Stabilization Contingency Reserve (DSCR), consistent with the adopted DSCR policy, if the Department has positive net year-end results.

If these operations do not achieve the budgeted revenues or if program costs exceed the program budget, then resources must be transferred from the DSCR to these areas of the Community Development Department to cover the shortfall.

18.6. Each fiscal year, unobligated General Fund appropriations in existence in the Human Resources Department on June 30 must be transferred to the Training and Outreach (I08000300) MYOP if the Department has positive net year-end General Fund results.

18.7. Each fiscal year, unobligated net appropriations in existence on June 30 in the Information Technology (IT) Department operations General Fund budget and the citywide IT budget in Citywide and Community Support must be transferred to the IT Critical Infrastructure (A07000700) CIP to create a funding mechanism for future citywide technology initiatives, which the City Manager will review annually.

18.8. Each fiscal year, unobligated appropriations in the City's California Public Employees' Retirement System budget account(s) (413170/413172) that are not required to balance the budget must be transferred to the City's other post-employment benefit trust.

18.9. Each fiscal year, if the START Fund (Fund 2501) has a deficit, unobligated General Fund (Funds 1001/2401) appropriations in existence in the Youth, Parks, and Community Enrichment Department on June 30 must be transferred to Fund 2501 to cover any deficit associated with the general- and auto-liability insurance premiums if the Department has positive net year-end General Fund results.

18.10. Each fiscal year, the Fleet Acquisitions (I06000999) MYOP will be reviewed, and excess funds will be returned to the fund of origin.

18.11. Each fiscal year, unobligated net appropriations in existence on June 30 in the Public Works Department (15005861) must be transferred to the Commercial Waste Compliance (I15220000) MYOP.

18.12. Each fiscal year, any unspent Measure U Fund (Fund 2401) appropriations in the Youth, Parks, and Community Enrichment Department on June 30 must be transferred to the Measure U Park Improvements (L19706000), Citywide Pool Assess/Repair (L19706500), or Recreation Facility Improvements (L19800200) CIPs until the backlog of deferred maintenance, for existing projects within the programs, are completed.

18.13. The City Manager is authorized to make all necessary budgetary adjustments to account for the interfund Loan from the Risk Fund (Fund 6502) to the General Fund (Fund 1001) related to the agreement with the City and the Natomas Basin Conservancy Loan.

18.14. Each fiscal year, transfer up to $500,000 of available operating grant resources to the Public Safety Capital Improvement Program (F11101000) for specialty vehicle and equipment purchases.

18.15. Each fiscal year, any unspent Measure U Fund (Fund 2401) appropriations in the Diversity, Outreach and Recruitment (DOR) program on June 30 must be transferred to the Fire – Diversity, Outreach and Recruitment Program (I12000200) MYOP as long as any Fire Department year-end deficits can be covered with available year-end General Fund (Funds 1001/2401) budgetary surplus.

18.16 Each fiscal year, a portion of unspent appropriations in the Youth Sports Field Permit Program MYOP (I19143000) on June 30 may be transferred to the Measure U Park Improvements (L19706000), to be used to address the backlog of deferred maintenance for sports fields.

18.17 The City Manager or their designee is authorized to make all necessary budgetary and accounting adjustments related to the Zero-dollar Rate Program (I21002600) to the various impact fees affected by the Reduced Residential Development Impact Fees for Affordable Dwelling Units Program.

Section 19. Year-End Reporting.

19.1. Each fiscal year, after any adjustments specifically provided for in other sections of this resolution, all appropriations in the Operating Budget that remain unspent and unencumbered (unobligated) on June 30 will revert to the available fund balances of the respective funds. Any budgetary surplus in the General Fund (Funds 1001/2401), determined as part of the fiscal year-end close process, will be reported in the ACFR as Assigned for Next Year's Budget, Unassigned, or as specifically directed below or in a subsequent resolution.

19.2. All unrealized investment gains determined as part of the fiscal year-end close process will be reported in the ACFR as Assigned for Unrealized Investment Gains, as those gains are not available for appropriation.

Section 20. Miscellaneous Controls and Considerations.

20.1. Expenditures by fund at the department level must not exceed the Operating Budget as amended by any subsequent approval by the Council or the City Manager in accordance with this resolution.

20.2. Subject to the City Manager's approval, projected fund deficiencies in any department must be corrected as follows in accordance with the sections of this resolution governing transfers and appropriations by reducing expenditures in the department (e.g., restricting purchase orders, freezing vacant positions) or

by an appropriation transfer from Administrative Contingency or available fund balance, or both, subject to the provisions of section 5.

20.3. The City Manager is authorized to eliminate funds as required for proper accounting and fiscal management when the purpose of a fund has expired, and its fund balance has been expended.

20.4. In all staff reports that come before the Council, net budgetary impacts on all funds, including indirect impacts, must be stated clearly and concisely so that the Council has a full understanding of the financial consideration and impacts of its decisions.

20.5. The City Manager shall begin using an equity lens in the review of all budgetary recommendations to Council including the annual budget, midyear budget and staff reports as soon as practical after development of a shared definition of equity in coordination with the community, development of associated outcomes and measures and Council's creation and adoption of an Equity Resolution.

CITY OF SACRAMENTO FACTS

- The City of Sacramento was founded in 1849 and is the oldest incorporated city in California.
- In 1920, city voters adopted a Charter (municipal constitution) and a City Council/City Manager form of government.
- The City is divided into eight districts.
- Elected members of the City Council serve a four-year term.
- The Mayor is elected by all voters in the City. In 2002, voters approved a measure for the Mayor to serve full-time. All other Councilmembers are elected by district and serve part-time.
- The Mayor and other Councilmembers have an equal vote in all matters.
- The City of Sacramento currently encompasses approximately 100 square miles.
- The City of Sacramento population is estimated at 527,979.

Executive Summary and Overview

City of
SACRAMENTO
Office of the City Manager

Maraskeshia Smith
City Manager

City Hall
915 I Street, Fifth Floor
Sacramento, CA 95814-2604
916-808-8491

April 29, 2026

Honorable Mayor and City Council
Sacramento, California

Dear Mayor and Members of the City Council,

The Proposed 2026-2031 Capital Improvement Program (CIP) is the City's five-year financial and strategic plan for infrastructure, deferred maintenance and facility needs. The CIP also identifies all capital needs, including projects that do not currently have identified funding or are not yet fully funded. Providing funded and unfunded capital needs gives Council a clearer picture of the status of the City's infrastructure and fiscal health, allows Council to prioritize infrastructure investments, and aids in the development of a comprehensive capital financing plan.

The Proposed 2026-2031 CIP totals $2.5 billion in capital needs with $0.5 billion in identified funding leaving an unfunded balance of $2 billion. Funded projects in the CIP total $512.6 million, including $77.4 million in General Fund. The fiscal year (FY) 2026/27 CIP budget totals $129.8 million, including $14.2 million in General Fund.

The CIP reflects Council adopted policies and plans and incorporates priorities identified in the Parks Plan 2040, Parks and Recreation Programming Guide, transportation plans (Vision Zero Action Plan, Bikeway Master Plan, Pedestrian Master Plan), utility master plans, and deferred maintenance assessments (aquatics, facilities, and park maintenance). Investment in capital facilities and major maintenance is a critical factor in the City's ability to deliver municipal services.

The capital funding gap identified in the CIP is significant due to aging infrastructure, rising costs, and a lack of dedicated funding to address capital and deferred maintenance needs. However, I am confident in our ability to meet these challenges by using the CIP as a baseline planning tool to guide prioritization and financing decisions. In addition, the financial policies approved by Council earlier this year to allocate available prior-year savings towards unfunded capital needs will help close the capital funding gap over the long term. I offer a CIP that is in alignment with Council policies and prioritizes investments in infrastructure that will increase operational efficiencies and benefit our community.

I would like to thank the Council for your leadership and support which continue to help guide us through challenging times and fuel our collective efforts to ensure a thriving future for our City.

Respectfully submitted,

MARASKESHIA SMITH
City Manager

CAPITAL BUDGETING EXCELLENCE AWARD

California Society of Municipal Finance Officers

Certificate of Award

Capital Budget Excellence Award
Fiscal Year 2025-2026

Presented to the

City of Sacramento

For meeting the criteria established to achieve a CSMFO Award in Budgeting.

February 5, 2026

Jennifer Wakeman
2025 CSMFO President

James Russell-Field, Chair
Recognition Committee

Dedicated to Excellence in Municipal Financial Reporting

The City received the Capital Budget Excellence Award from the California Society of Municipal Finance Officers (CSMFO) for the 2025-2030 CIP. The award process includes peer reviews of cities' capital programming. Peer review methods are employed to maintain standards, improve performance, and provide credibility.

In preparing the 2026-2031 CIP document, the CSMFO award criteria were followed, and it has been prepared in accordance with generally accepted accounting principles. This document will be submitted to the CSMFO for consideration for the FY2026/27 Capital Budgeting Excellence Award.

PROPOSED OVERVIEW OF THE 2026-2031 CAPITAL IMPROVEMENT PROGRAM (CIP)

The CIP is a comprehensive five-year plan that identifies current and future fiscal requirements and is the basis for determining annual capital budget expenditures. Capital improvements are major projects or programs including the procurement, construction, or installation of facilities or related equipment intended to improve, preserve, enhance, or modernize the City's delivery of municipal services. A capital project has a useful life of at least five years and a total cost of at least $20,000.

The City continues to face significant financial challenges in the coming fiscal year (FY), with a structural imbalance between City operating costs and available resources. The FY2026/27 Proposed Operating and CIP Budget remains focused on addressing this structural deficit while maintaining core City services and advancing Council priorities. The major goals of the CIP are to adhere to federal, state, and local mandates/laws and to strategically leverage resources to maintain or improve the City's assets. The five-year plan includes 155 CIPs with estimated total funding of $512.6 million from all funding sources, of which $77.4 million is from the General Fund. The FY2026/27 CIP budget totals $129.8 million funding 143 projects or programs, of which $14.2 million is from the General Fund.

Unfunded Capital Needs

The intent of this section is to provide a comprehensive list of the City's unfunded capital needs. This list along with the CIP will identify all of the City's capital needs and show projects that need funding. Departments will continue to identify and update projects and associated costs each year to ensure the unfunded capital needs list is current. By tracking these efforts through the CIP, the City will be able to quickly identify all capital needs and plan for future fiscal years.

Staff has identified unfunded capital needs totaling approximately $10.1 billion for City infrastructure and facilities which include projects in the five-year CIP and beyond FY2030/31 addressing the backlog of deferred maintenance Citywide. The Proposed 2026-31 CIP totals $2.5 billion in capital needs with $0.5 billion in identified funding leaving an unfunded balance of $2 billion.

The Capital Improvement Plan classifies unfunded capital needs into three categories: Category A, Unfunded Deferred Maintenance which consists of necessary maintenance and repairs; Category B, Unfunded New Assets relating to external forces or regulatory requirements; and Category C, Major Projects Outside the five-year CIP.

The following tables summarize the unfunded needs identified during development of the 2026-2031 Proposed CIP and beyond. This is in addition to the current funding established for existing 2026-2031 CIP projects or programs. Further analysis and refinement of the unfunded capital estimates would be required before funding is requested. More information on unfunded capital needs can be found in Section J.

Unfunded Capital Needs		
Category	**All Funds**	**General Fund**
Category A	$1,469,975,610	$110,988,931
Category B	$523,694,076	$290,476,979
Category C	$8,096,813,070	$797,949,131
Total	**$10,090,482,755**	**$1,199,415,041**

Funded Capital Allocations for Existing Projects		
Funding Year	**All Funds**	**General Fund**
FY2026/27	$129,750,835	$14,209,898
5-Year Total	$512,644,833	$77,380,378

2026-2031 CIP

The following summarizes major program areas with project funding included in the 2026-2031 CIP. Detailed information on CIPs proposed to be funded within the five-year plan is included in the project detail sheets in each program area.

General Government – Section D

The five-year General Government Program continues to reflect the City's commitment to focus limited resources toward existing facilities and programs including the City Facility Reinvestment Program (C13900000, $12.4 million) and the Facility ADA (Americans with Disabilities Act) Compliance Program (C13000400, $3.0 million).

The FY2026/27 budget for the General Government Program totals $3.2 million for 14 projects or programs. The five-year plan totals $24.1 million for the same number of projects or programs.

Public Safety – Section E

The Public Safety Program reflects the City's efforts to provide/replace body worn cameras, police safety equipment, ambulances, fire vehicles, fire safety equipment, and generators for public safety facilities. The five-year plan includes funding for the Fire Apparatus Program (F12000300, $22.7 million), the Body Worn Camera and Conductive Electrical Device Program (F11100500, $10.5 million), the Advanced Life Support Equipment Program (F12000200, $5.8 million), the Police Safety Equipment Program (F11100800, $5.0 million), the Fire Safety Equipment Program (F12000500, $4.3 million), and the Police Department IT Critical Infrastructure Program (F11100600, $370,000).

The FY2026/27 budget for the Public Safety Program totals $11.3 million for eight projects or programs. The five-year plan totals $54.3 million for the same number of projects or programs.

Convention, Culture, and Leisure – Section F

The Convention, Culture, and Leisure Program promotes and preserves the City's unique cultural heritage by delivering accessible arts, leisure, and educational experiences to enrich people's lives and enhance the metropolitan area. The Convention, Culture, and Leisure Program is designed to enrich the quality of life and to contribute to a vibrant metropolitan region by providing exceptional cultural, artistic, and leisure opportunities.

Major projects and programs receiving funding in the five-year plan include the Community Center Improvements Program (M17100000, $2.2 million); the Performing Arts Center Improvements Program (M17101800, $3.9 million); and the Memorial Auditorium Improvements Program (M17101000, $1.6 million).

The FY2026/27 Convention, Culture, and Leisure Program totals $2.4 million for nine projects or programs. The five-year plan totals $10.9 million for the same number of projects or programs.

Parks and Recreation – Section G

The City's Parks and Recreation Program provides residents with significant personal, social, environmental, and economic benefits. Developing and rehabilitating existing parks and facilities, with a focus on park safety and sustainability, is a high priority for the City.

One of the major projects receiving funding is the North Natomas Community Park All-Weather Field (L19140800), which will use $1.5 million in park development impact fees to replace the existing grass field with an all-weather field to allow for year-round play.

In FY2026/27, a total of $6.8 million will be programmed to 22 new and/or ongoing projects or programs. The five-year plan totals $7.7 million for the same number of projects or programs.

Transportation – Section H

The Transportation Program uses available local transportation funds to support specific programs and leverages state and federal funds for larger transportation improvements where possible. The largest program addresses corridor improvement needs using road maintenance and repair funding received with the implementation of the 2017 Road Rehabilitation and Accountability Act, also known as Senate Bill 1 (SB 1). With limited resources, the Transportation Program focuses on key objectives for maintenance, safety, active transportation, equity, and mobility of the overall transportation network.

The Transportation Program is divided into six subprograms: Active Transportation (pedestrian, bikeway, lighting, and streetscape improvements); Bridges and Major Transportation Improvements (bridge replacement and rehabilitation and other major roadway construction); Maintenance (overlays and seals); Parking (parking facility maintenance and upgrades); Public Rights-of-Way Accessibility (curb ramps, markers, and

other accessibility improvements); and Traffic Operations and Safety (safety improvements, Traffic Operations Center, traffic calming, pedestrian safety, and major street light replacement).

Major projects and programs receiving funding in the five-year plan include: the Transportation Corridor Program (R15200000, $74.3 million); the Traffic Safety Response Program (S15265800, $13.0 million); the Safety Pilot Project Program (T15255300, $10.0 million); the Bridge Maintenance Program (R15222200, $9.5 million), and the Active Transportation Program (T15180400, $7.8 million)

In FY2026/27, a total of $60.9 million, which includes $26.9 million in state and federal grants, will be programmed in 41 projects or programs. The five-year plan totals $192.1 million, which includes $35.5 million in state and federal grants, for 43 projects or programs.

City Utilities – Section I

The City Utilities Capital Improvement Program supports projects in four service areas including Recycling and Solid Waste, Storm Drainage, Wastewater, and Water. It is devoted to regulatory compliance, the improvement, rehabilitation, and replacement of the utility infrastructure, improvement or development-related projects, and ongoing facility-related issues. Funding sources include rate-payer funding for each service area and impact fees for Water and Wastewater improvement or development related projects. Major programs receiving funding in the five-year plan include the Water+ Program (Z14190100, $9.6 million), the Reservoir Rehabilitation Program (Z14130500, $20.5 million), the Combined Sewer System Pipe Program (X14170100, $17.2 million), the Wastewater Sump Rehabilitation & Repair Program (X14130900, $11.1 million), the Closed City Landfills Program (Y15100000, $15.6 million), and the Drainage Facility Electrical Rehabilitation Program (W14230200, $13.3 million).

The FY2026/27 budget for the City Utilities Program totals $45.2 million for 29 projects or programs. The five-year plan totals $223.5 million for 39 projects or programs.

How to Read This Document

KEY SECTIONS

The CIP contains the following key sections.

Section A

Budget Schedules – summarize capital funding by the one-year budget (FY2026/27) and the five-year plan by funding source and by program area.

Section B

Sacramento Area Maps – identifies the city limits with Council District, Community Plan Area, Shovel-Ready Area, Neighborhood Commercial Revitalization Area, and Bikeway maps.

Section C

General Plan Consistency – summarizes planning policies, major development projects, and planned public improvements in the 2026-2031 CIP.

Sections D-I

Program Area Summaries – groups individual capital projects by major program area and includes goals and project selection criteria, project budgets, how they will be funded, program issues (including in some cases unmet needs), program long-range plans, and detail sheets for those projects that include budgeted resources through FY2025/26 and a budget plan for FY2026/27 through FY2030/31. Additional section-specific information may be found on page 12.

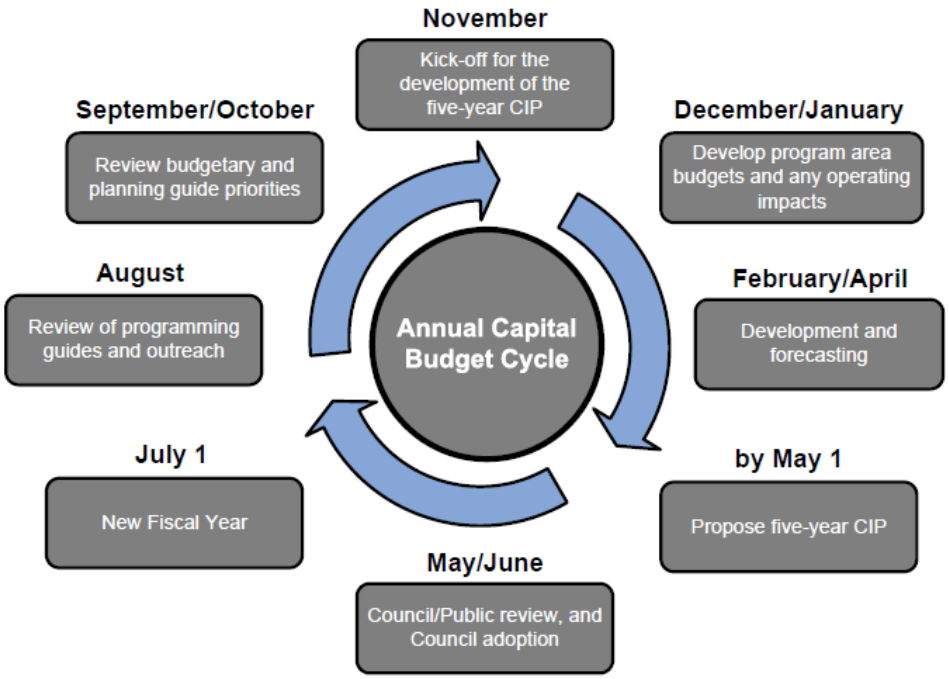
Section J

Unfunded Capital Needs – refers to projects identified in approved City policy documents as needed or desired where funding is currently unavailable to complete the project.

Section K

Description of Major Funding Sources – provides the following information on funding sources: (a) restrictions on the use of the funds; (b) legislation governing the use of these funds; (c) five-year historical CIP programming; and (d) a summary of how those funds have been expended.

Sections L-O



Indexes – provide funding information for the FY2026/27 CIP by Funding Source (Index L), by Program Area (Index M), and for all active and new projects included in the 2026-2031 CIP by City Council District (Index N) and by Project Number (Index O).

Section P

Resources – contains definitions of commonly used terms or concepts and links to various planning documents used to rate and create this CIP.

THE BUDGET PROCESS

The City engaged and educated the community on the budget process and the City's financial challenges by completing a community budget survey, conducting community meetings, and facilitating discussions at the Budget and Audit Committee (Committee) and Council meetings from February through April. The following graphic represents the City's budget/program planning cycle:

The City's fiscal year is July 1 through June 30. As such, the Council adopts the City's operating and capital budgets for a single fiscal year beginning July 1 and ending June 30 in the subsequent calendar year.

THE CIP REVIEW PROCESS

Each project proposal is scrutinized through a variety of approaches before it is included in the CIP. CIPs included in the five-year program are identified by department staff based upon: 1) input from the community received at neighborhood meetings during the year; 2) input from the City Council on needs that develop or are identified during the year; 3) City Council approved master plans and guides for growth, improvements, and rehabilitation for specific programs; 4) adopted criteria for selecting projects to meet the City Council's goals; and 5) staff-identified projects based on critical need due to safety issues or to comply with new mandates. Specific documents used in the capital planning process, such as the *Sacramento 2040 General Plan* or the *Transportation Priorities Plan (TPP)*, are referenced in Section P (Resources) of this book.

All projects are reviewed first by the responsible operating departments. Utilizing the resources available, e.g., *City Facility Condition Assessment*, CIPs are scored, ranked, prioritized, and presented for funding based upon the level of funding estimated to be available for the coming fiscal year and subsequent fiscal years. Generally, projects are prioritized as follows: 1) they are mandated by law or Council policy; 2) they are crucial for public/staff safety or health; 3) funding is or has become available for them; 4) they represent an advantageous opportunity with a restricted timeframe; 5) they increase efficiency or effectiveness of City services; or 6) they enrich or expand City services or assets by maintaining or keeping facilities competitive, safe, and contributory towards increasing revenues.

Top priority has been given to those projects that have a positive effect on operations. In most cases, there is no negative operating impact because the project generates future cost savings or is offset by revenue. For details about ranking and scoring criteria, please refer to the program area's programming guide referred to in the Glossary and Resources section. Departments submit the proposed projects to the Budget, Policy & Strategic Planning Division of the Finance Department. The Division then reviews and creates maps of the proposed projects or programs through geographic information systems (GIS) and prepares the CIP for submittal to the City Council no later than 60 days prior to the start of the new fiscal year.

The proposed CIP is presented, discussed, and acted upon by the City Council in public session during the budget hearings. Members of the community may comment on the proposed CIP and provide input to the City Council during the hearing process. The City Council can make changes to the proposed CIP and then may act on final project approval for inclusion in the approved CIP and Operating Budgets.

GENERAL PLAN CONSISTENCY – SECTION C

All projects are reviewed by the Community Development Department's Planning Division staff and the Planning and Design Commission for consistency with the City's General Plan and any applicable specific plan (City Code Chapter 17.912.010). In general, capital programming is proposed in accordance with existing approved master plans and planning guides and then is evaluated and ranked based upon priorities identified in those plans and guides.

Priorities may be ranked on items such as:

- Adherence to state and/or federal law
- Adopted City Council policies
- Availability of funding
- Public health and safety
- The *Sacramento 2040 General Plan*
- Public input
- Support of economic development

- Support of infill development
- Project feasibility

PROGRAM AREA SUMMARIES – SECTIONS D-I

This document includes program area summaries and detailed project pages for projects being funded within those program areas during the five-year plan. The summaries include program goals and criteria used to select projects to meet those goals (project selection criteria); a summary of planned spending; a five-year plan; a summary of projects by fund; and maps detailing each site-specific project location for FY2026/27 funded projects.

Six program areas are presented within the CIP. Each program area includes subsections that are divided alphabetically, and in turn these subsections include several different projects. Each project is assigned a letter and eight-digit code when it is approved for funding. The first digit of this code reflects the alphabetical letter assigned to the subsection in which the project is included. Individual projects are detailed in their respective program areas.

Program Area – Section of CIP

General Government – Section D
A – Technology
B – New Buildings
C – Facility Improvements
D – General Government

Public Safety – Section E
F – Public Safety

Convention, Culture, and Leisure – Section F
M – Convention Center Complex, Cultural Arts, Golf, Marina, and Zoo

Parks and Recreation – Section G
L – Parks and Recreation

Transportation – Section H
K – Bikeway
R – Street Maintenance
S – Signals/Lighting/Traffic Control
T – Street Improvements
V – Parking

City Utilities – Section I
W – Storm Drainage
X – Wastewater
Y – Solid Waste
Z – Water

The discussion of an individual capital program area generally begins with summary information on total program expenditures and the major projects that make up the bulk of those expenditures, the planning documents referenced when identifying projects, the funding sources to support the projects, and issue statements that highlight significant unresolved fiscal and program policy issues. Each project funded in the five-year plan is summarized within a project detail page.

Detail Pages

The purpose of the detail page is to provide the City Council with enough information to approve the projects or ongoing programs.

An example of a detail page is presented on the following pages to describe the information available.

City of Sacramento

Capital Improvement Program ① **T15036300**

② **Project Name** **FRUITRIDGE ROAD STREETSCAPE ENHANCEMENTS**

③ **Project Description** Rehabilitate pavement on Fruitridge Road, between 65th Expressway and Power Inn Road. Design and construct potential complete street improvements.

④ **Project Objectives** Evaluate potential for lane reduction to allow space for standard bike lanes, resurface and rehabilitate pavement, and provide ADA compliant curb ramps.

⑤ **Existing Situation** Project construction was put on hold pending resolution of redevelopment funding, however an alternate source of construction funds has been secured.

⑥ **Operating Budget Impact** New transportation facilities will require regular maintenance and repairs. No additional gas tax or Measure A sales tax, typical sources of ongoing maintenance, are included for maintenance of these improvements.

⑦ Fund	Fund Description	As of 2/2026 Budget	Unobligated	⑧ 2026/27	2027/28	2028/29	2029/30	2030/31
2001	MEASURE A - CONSTR.	$28,226	$0	$0	$0	$0	$0	$0
2007	MAJOR STREET CONSTR.	$285,438	$38,092	$0	$0	$0	$0	$0
3701	TAX INCREMENT	$180,896	$0	$0	$0	$0	$0	$0
3703	FEDERAL CAP. GRANTS	$207,834	$0	$2,571,000	$0	$0	$0	$0
3803	2006 ARMY DEPOT TE	$31,045	$0	$0	$0	$0	$0	$0
	Total	$733,439	$38,092	$2,571,000	$0	$0	$0	$0

- Project Number ① and Name ②: The project or program alpha/numeric identifier and its corresponding name. Both would be referenced when putting the project to bid or with any City Council action. The numbering sequence reflects the alphabetical letter assigned (as described on the prior page) and an eight-digit unique numeric identifier. The leading digits reflect the responsible department (refer to the following chart), followed by unique identifiers assigned by the responsible department and generally ending in “00.”

Responsible Department

Leading Digits	Department Name	Leading Digits	Department Name
01	Mayor/Council	11	Police
015	City Auditor	12	Fire
02 or 18	City Manager	13 or 15	Public Works
03	City Attorney	14	Utilities
04	City Clerk	17	Convention and Cultural Services
05	City Treasurer	19	Youth, Parks, and Community Enrichment
06	Finance	21	Community Development
07	Information Technology	23	Community Response
08	Human Resources		

  - In this example, “T” refers to a Street Improvements project, and “15” signifies that the department responsible for the project is the Public Works Department. The next four digits are unique and assigned by the department. The last two digits, “00,” signal that this is a parent project. A parent project has budget appropriation authority and will be identified in bold in all the indexes.

  - The CIP name may be classified into two categories: project or program.
    - CIP projects are typically site-specific and have a defined budget and completion date.
    - CIP programs are used for ongoing funding for similar improvements that will be constructed at multiple locations based on the availability of annual funding at locations identified through master plans, planning guides, and replacement programs (e.g., the Groundwater Protection Program, Fire Apparatus Program, and Bikeway Program). CIP programs usually contain “Program” in the title, are generally not site specific, and do not typically have a defined completion date.

- ③ Project Description: A brief but specific scope of the project. The scope of an existing CIP description may include only the preliminary aspects of a project such as master planning or environmental review. In such projects, additional funding and a new CIP approved by the City Council are required to fully develop the project. Other projects may include the development of Phase I of a new facility or of the entire project. The level of funding and the project scope description in the CIP determine the parameters of the project at that point in time.

- ④ Project Objectives: The purpose or scope of the project.

- ⑤ Existing Situation: The circumstances that result in the need for the project, including any pertinent history.

- ⑥ Operating Budget Impact: The estimated annual operating impact of the completed project. Operating and maintenance costs or savings that are significant and quantifiable are identified. Due to limited resources, most CIPs are for the repair and/or replacement of existing assets and thereby do not result in significant or quantifiable operating budget impacts. If the impact can be absorbed by the existing operating budget or if it is a repair or rehabilitation project, “none” is the response. If the impact is quantifiable, it is noted on the detail sheet, e.g., “Operating costs related to generator maintenance are estimated to be $800 per year, per generator.”

- ⑦ Project Costs: For each funding source, the amount of current budget, the unobligated budget as of February 2026, and the funding request for each year of the five-year program. The CIP is a five-year plan with a one-year budget. As such, dollars shown are based on the current value of the dollar and adjusted annually. A project must have an identified source (or sources) of funding to be included in the CIP. Many funding sources have restrictions as to how they may be used, as described in the Description of Major Funding Sources section.

    - Note: The following reimbursable funds are included within the CIP for planning purposes, but budgets are not appropriated in the fiscal year until all grant and/or award documents have been signed. These include grant funds (Funds 3702, 3703, and 3704) and City utility grant/reimbursable funds (Funds 6205, 6206, 6207, and 6211).

- ⑧ Funding Years: The five-year CIP includes a fiscal year budget (in this example it is FY2026/27) and four fiscal years of planned programming (2027/28, 2028/29, 2029/30, and 2030/31).

- ⑨ Funding Summary: The CIP plan presents the City's blueprint for funding critical capital projects based on resource availability and Council's capital investment priorities using current year costs. The five-year funding plan identifies total estimated project cost, funding for the following fiscal year, and a cumulative total of prior expenditures. Funding for future years is based on the current year’s estimated availability of resources. Only the projects included in the first year of this plan (e.g., the Capital Budget) are legal appropriations. The second through the fifth years represent the City’s best estimate of a reasonably fundable plan for capital improvements subject to the availability of resources using current year costs.

2026 - 2031 Funding	$2,571,000
Est. Project Cost	$3,304,439
FY2026/27 Funding	$2,571,000
Prior Expenditures	$695,347

⑨

- ⑩ Timelines: Capital projects will include a Project Start Date and an Estimated Completion Date, example below; however, capital programs will not include a timeline for completion as they are ongoing in nature. Timelines, in light gray, will include a dark gray bar as the Elapsed Time passes or Percentage Complete increases. New capital projects approved for the start of a new fiscal year will reflect 0% completion, but the elapsed time will reflect the current elapsed time of the project at the time the budget is printed.

Project Start Date July 2003
Est. Complete Date November 2027
⑩

- ⑪ Council District: The number of the City Council district in which the project is located.

- ⑫ Plan Area: The number(s) of the Community Plan Area(s) in which the project is located (e.g., South Natomas, Pocket, Central City, South Area). Plan areas are defined in the *2040 General Plan*. A map of these plan areas is included in the Sacramento Area Maps Section of this document.

- ⑬ Project Location: Street address, intersection, building name, or another identifier.

- ⑭ Project Manager: The name of the department and/or the individual project manager responsible for delivering the capital project.

⑪ **Council District**	6
⑫ **Plan Area**	5
⑬ **Project Location**	Fruitridge Road From 65th Street To Power Inn Road
⑭ **Project Manager**	Public Works , Stephanie Saiz

The City Charter requires that the City Council adopt a budget for operations and capital improvements on or before June 30 each year. In adopting a five-year capital plan, the City is allowing for prudent and longer-term planning and allocation of resources for its facility and infrastructure needs.

UNFUNDED CAPTIAL NEEDS – SECTION J

Unfunded capital needs refer to projects identified in approved City policy documents as needed or desired where funding is currently unavailable to complete the project. This report conveys the City's unfunded capital needs within the context of the upcoming fiscal year. The unfunded capital needs are analyzed over a five-year period for each of the City's six CIP program areas: General Government; Public Safety; Convention, Culture, and Leisure; Parks and Recreation; Transportation; and Utilities. The Capital Improvement Plan classifies unfunded capital needs into three categories: Unfunded Deferred Maintenance, Unfunded New Assets, and Major Projects Outside the five-year CIP.

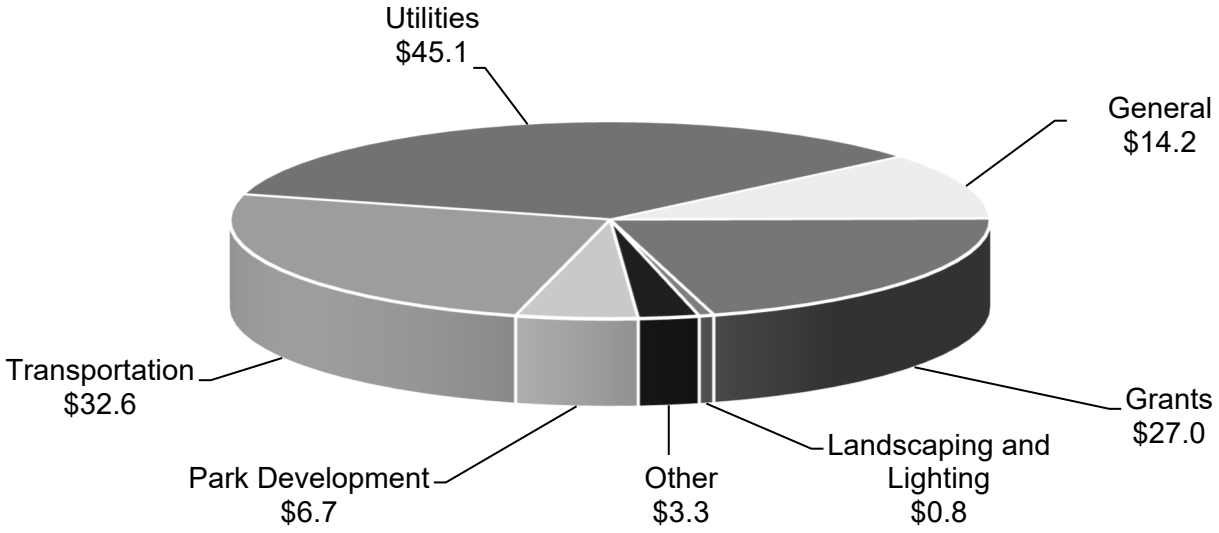
DESCRIPTION OF MAJOR FUNDING SOURCES – SECTION K

A summary of the 2026-2031 CIP resources by funding source. This section gives a brief history of each major fund, the restrictions to its use, examples of where the funds have been previously allocated, and a five-year synopsis of prior funding.

INDEXES – SECTIONS L-O

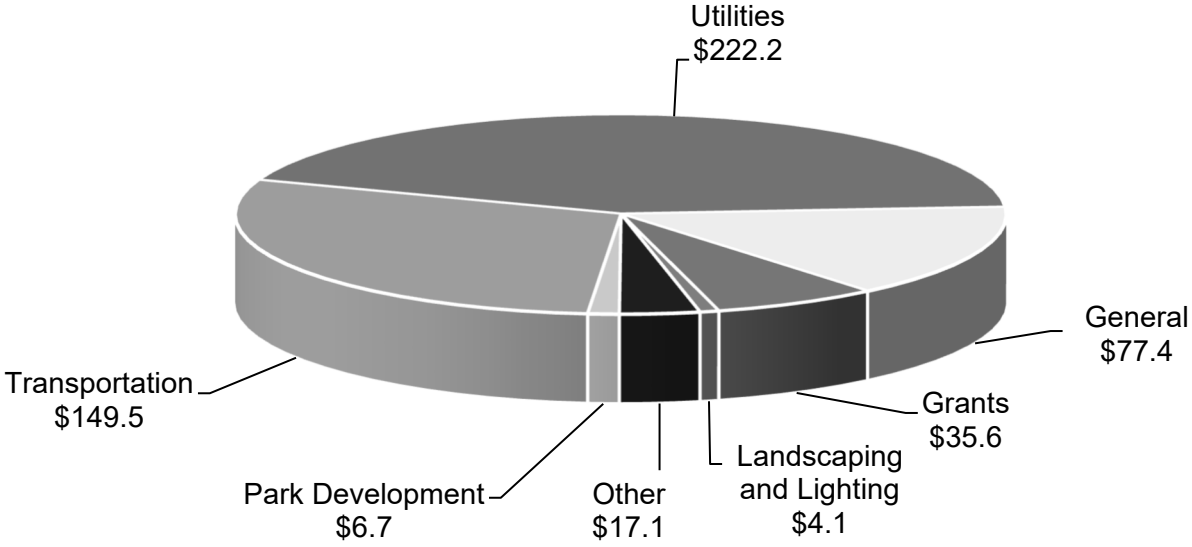
Programs or projects receiving new funding for FY2026/27 or proposed for future fiscal years are listed in Index L by funding source. Index M provides a similar list, organized by program area. In addition to projects or programs receiving funding identified in the 2026-2031 CIP, there are many continuing programs or projects that have remaining budget authority. These are listed in Index N by City Council district and Index O by project number. Parent CIPs will be listed (in bold) as well as any child or subproject (in italics) established under the scope of the parent CIP.

RESOURCES – SECTION P



Included in this section is a list of frequently used acronyms, a glossary, an index, and additional resources that were used as references in the development of the Program Area sections.

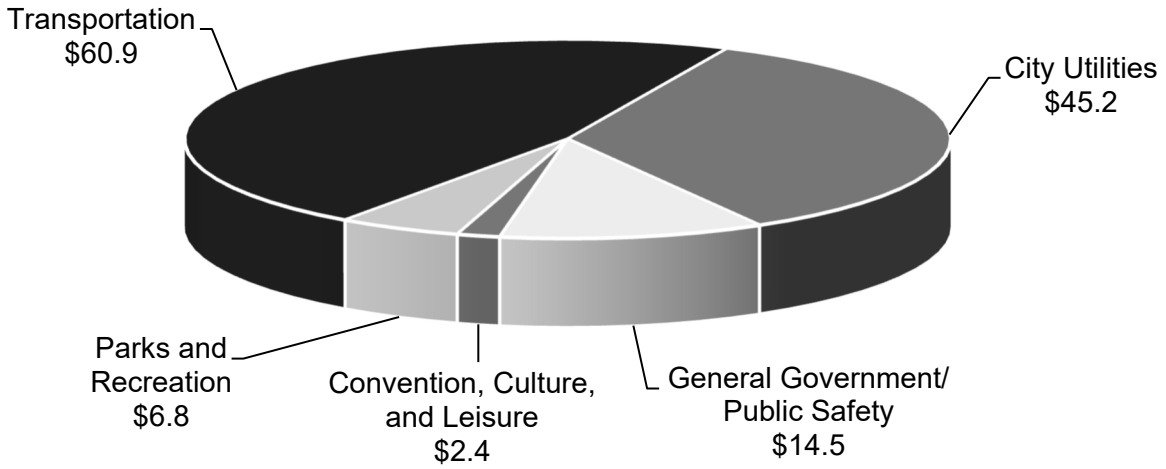
Back to Table of Contents



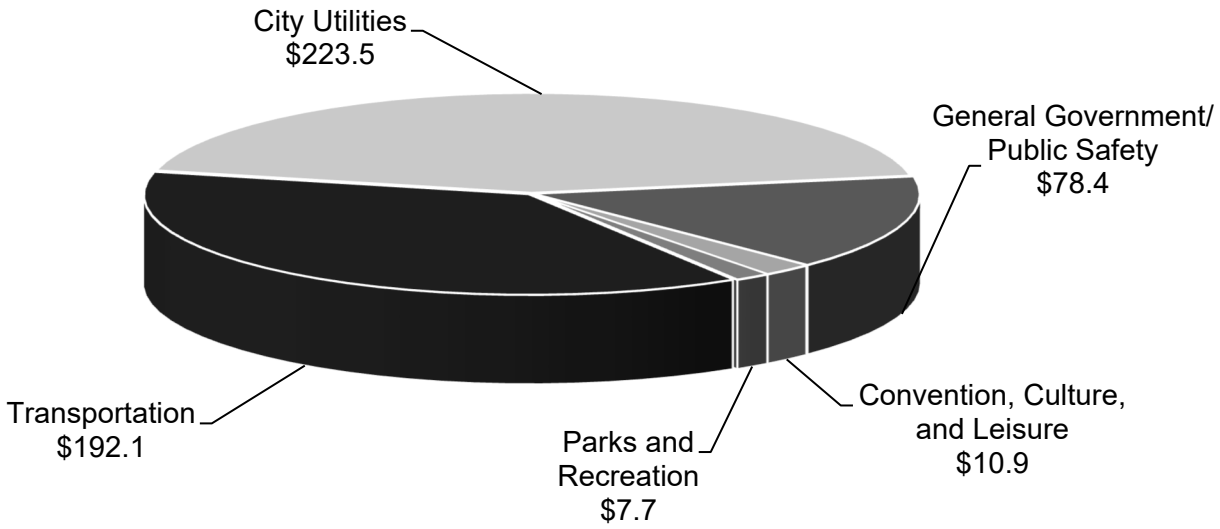
SECTION – A
Budget Schedules

Schedule 1
Capital Budget by Fund

FY2026/27 Capital Improvement Program
$129.8 Million



2026-2031 Capital Improvement Program
$512.6 Million



Note: The totals reflected for each fund provided in Schedule 1 and the charts may differ due to rounding.

Schedule 2
Capital Budget by Program Area

FY2026/27 Capital Improvement Program
$129.8 Million

2026-2031 Capital Improvement Program
$512.6 Million

Note: The total reflected for each program area includes all funding sources for those projects.

Schedule 3

SECTION – C
General Plan Consistency

INTRODUCTION

There are 12 newly created programs in the 2026-2031 CIP. Of these, 11 are site-specific CIPs and are related to park improvements, including developing a site amenities plan, replacing an existing playground structure, adding sidewalks and tree plantings, adding a community garden and futsal court to a park, converting a grass field to an all-weather field, adding shade canopies over playgrounds, renovating an existing soccer/rugby field, replacing an existing bathroom, adding an outdoor event space at a park, adding field lighting to an existing soccer field, and providing a new playground at a park. The remaining citywide program implements plans to provide maintenance and improvements for closed City landfills per State regulations and other requirements.

An analysis is performed annually to determine the consistency of the CIP with the *2040 General Plan*'s goals and policies. The analysis also looks at the Shovel-Ready Sites Program to gauge consistency with investments in opportunity areas.

The *2040 General Plan* anticipates that much of the City's growth will occur as infill. Infill development reutilizes existing urban areas for new construction. In October 2009, the City Council approved the Shovel-Ready Sites Program's Tier 1 and Tier 2 priority areas to help implement the infill goals and policies, and to align programming guide criteria and CIP funding to focus resources toward new infrastructure projects in priority shovel-ready areas Resolution No. 2009-0629.

In addition to identifying opportunities for growth, the *2040 General Plan* also includes goals and policies that support a city of healthy, livable, "complete neighborhoods" that provide for residents' daily needs within easy walking or biking distance from home. Therefore, it is important to balance investment in shovel-ready areas with the maintenance of established communities. As such, projects continue to be identified in the Shovel-Ready Sites Program's Tier 1 and 2 priority areas while balancing the needs of existing neighborhoods.

SHOVEL-READY AREAS

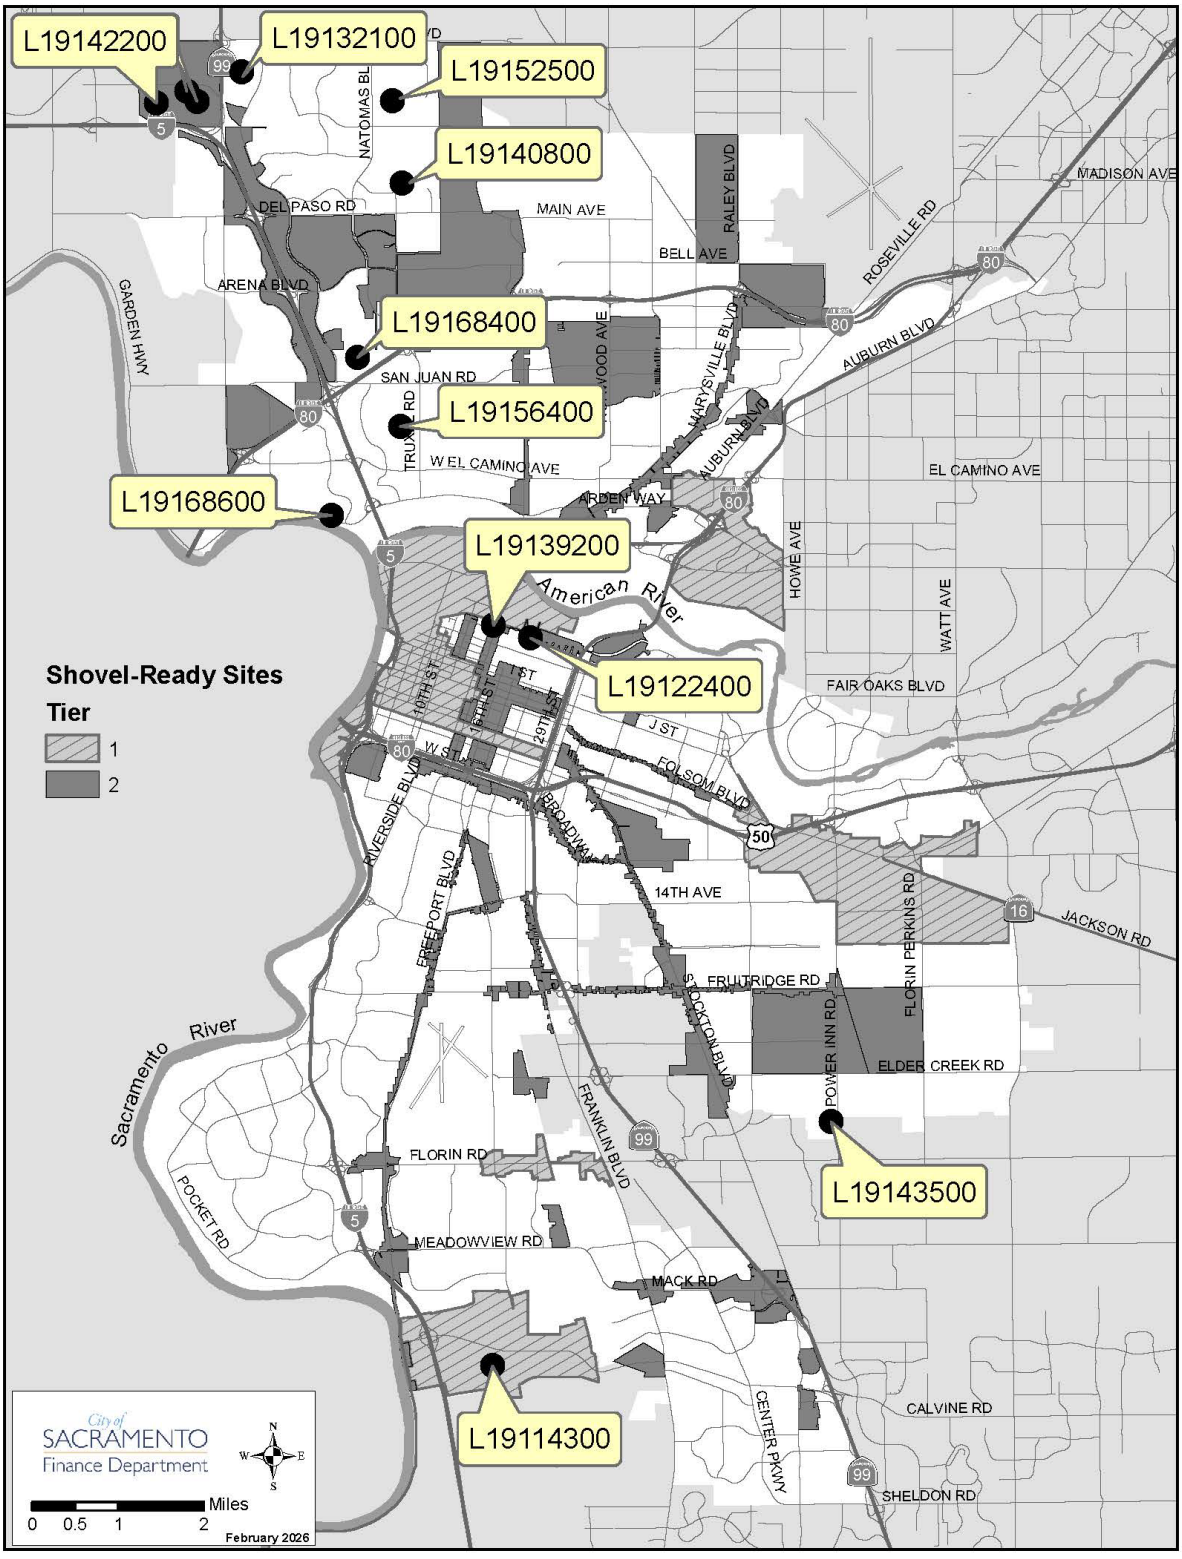
One key to consistency with the *2040 General Plan* lies in the relationship between the CIP and the Shovel-Ready Areas. The Shovel-Ready Areas identify priority areas for city investment and were based on opportunity areas adopted by City Council in 2009 and evaluated in the General Plan. Focusing growth and investment in the Shovel-Ready Areas will help Sacramento grow consistent with the vision, goals, and policies set forth in the General Plan.

The lists below and the following map identify the shovel-ready opportunity areas identified as either Tier 1 or Tier 2 and were used to help inform the General Plan consistency finding.

Tier 1 Priority Area Sites (highest priority)

- Central City
- Swanston Station, Arden Fair, Point West, Cal Expo
- 65th Street/University Village, Sacramento Center for Innovation (south of CSUS and west of Power Inn Road), Granite Regional Park
- Florin Road
- Delta Shores

Tier 2 Priority Area Sites



- North Natomas, Panhandle, Greenbriar
- North Sacramento, Robla, McClellan/Parker Homes
- Power Inn Area
- Other Infill Areas (Corridors and Transit Station Areas)

Although some site-specific CIPs may be located outside the Shovel-Ready areas, these CIPs address critical maintenance, repair, and renovations of existing facilities. All CIPs were individually determined to be consistent with policies in the *2040 General Plan*.

New FY2026/27 CIPs by Program Area

Section – Program Area	Project Number	Project Name	Description
Section G – Parks and Recreation	L19114300	Delta Shores Park P-9 Site Amenities Plan and Naming	Develop a site amenities plan and naming for a new 6-acre park located in the Delta Shores Community.
	L19122400	Grant Park Playground Replacement	Replace existing playground structure
	L19132100	Magnolia Park Improvements	Add sidewalks and tree plantings
	L19139200	Muir Park Improvements	Add Community Garden and Futsal Court
	L19140800	North Natomas Community Park All-Weather Field	To convert a grass field to an all-weather field
	L19142200	Northlake Neighborhood Parks Shade Canopies	Shade canopies over playgrounds (Lakeshore, Lakeview, Sunhaven Parks)
	L19143500	Danny Nunn Field Renovation	Renovate existing soccer/rugby field, including replacing damaged light and accessibility improvements
	L19152500	Regency Restroom Replacement	Replace existing restroom with prefabricated restroom building
	L19156400	South Natomas Community Park Event Space	Add outdoor event space to include electrical upgrades, stage, and accessibility improvements
	L19168400	Tanzanite Park Field Lighting	Add field lighting to existing soccer field
	L19168600	Ray and Judy Tretheway Park Playground	Provide a new playground
Section I – City Utilities	Y15100000	Closed City Landfills Program	To provide maintenance and improvements for closed City landfills to adhere to State regulations and other requirements

FY2026/27 New, Site-Specific CIPs

SECTION – D
General Government

INTRODUCTION

The General Government Program reflects the City's commitment to focus resources toward preserving its existing facilities and continuing its programs through its "green building" and sustainable practices.

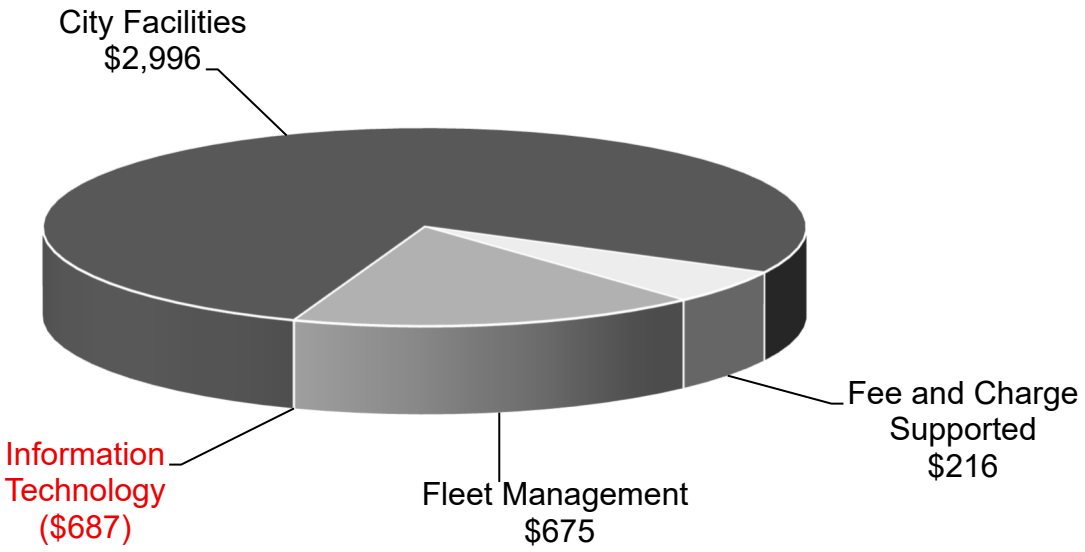
This Program utilizes the following goals and criteria to develop the five-year plan:

Program Goals

- Ensure public health and safety
- Increase efficiency
- Enhance quality of life
- Increase accessibility
- Improve transparency

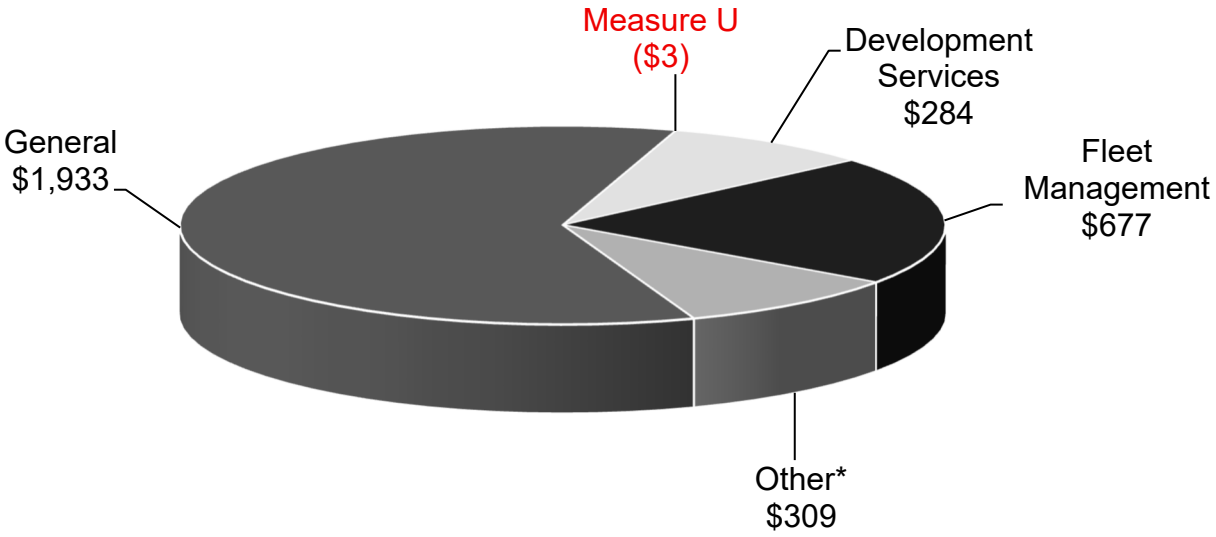
Ranking Criteria

- Public safety
- Renewal/Replacement of worn/obsolete/failed components
- Updates out-of-date software or equipment
- Increases accurate, open access to data
- Leverages existing resources
- Self-supporting (through fees)
- Increases or maintains sustainability



This Program is able to fund only the most critically needed programs and relies on the use of available one-time funds for other important projects that focus on safety.

The General Government Program is divided into the following major subprograms:

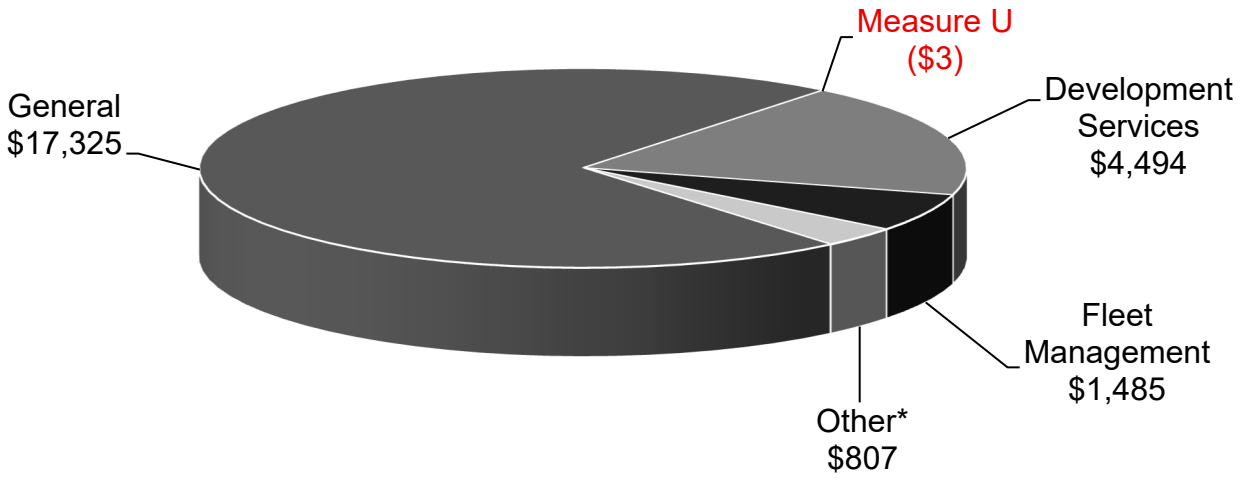


- City Facilities
- Fee and Charge Supported
- Fleet Management
- Information Technology

MAJOR FUNDING SOURCES

FY2026/27 General Government Program Funding by Subprogram Area (in thousands) $3,200

FY2026/27 General Government Program by Fund (in thousands) $3,200



*See funding chart on next page for more information

	TOTAL GENERAL GOVERNMENT		**$3,200,436**

[1]Funds may be in several program areas and may be found in the other sections of this document.
[2]Projects may have multiple funding sources.

2026-2031 General Government Program by Fund (in thousands) $24,108

Additional information on funding sources and their restrictions may be found in Description of Major Funding Sources (Section K). All projects receiving funding may be found by referring to Index L. Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index O.

MAJOR PROGRAMS AND PROJECTS

The General Government Program includes a variety of programs and projects. The top-funded CIPs during the five-year period are listed below by subprogram.

City Facilities

City Facility Reinvestment Program (C13900000, $12.4 million)

This program strategically prioritizes the improvements needed to City facilities to ensure public safety, building code compliance, preservation, and energy efficiency. Public and employee safety remains a top priority. Funding for major projects in FY2026/27 includes roof replacements, fire alarm upgrades, HVAC replacement and repairs at various City facilities, Uninterruptable Power Supply (UPS) systems, and repairs and upgrades at the 911 Communication Center, fire stations, Kinney Police Station, and City South Corporation Yard.

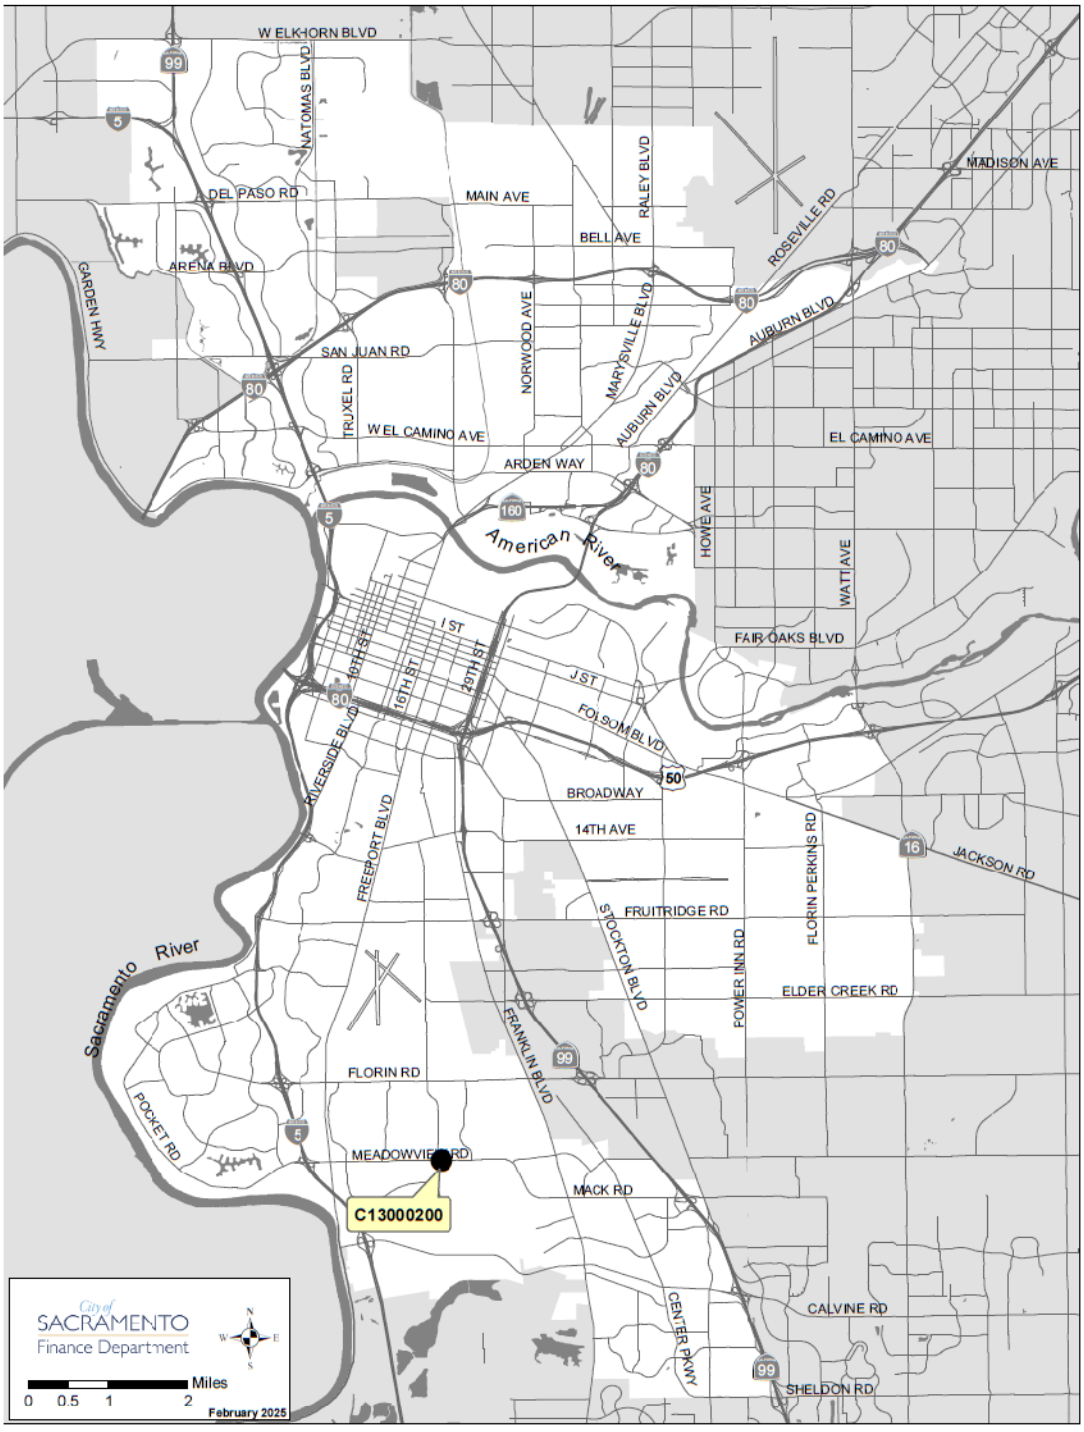
Facility ADA Compliance Program (C13000400, $3.0 million)

This program ensures that persons with disabilities have access to City programs, services, and activities (PSA) offered within City facilities. It also acknowledges that the City cannot immediately remediate all physical barriers to comply with the federal ADA and state accessibility requirements due to budgetary constraints. A First-Tier prioritized phase of work will provide the greatest level of access, enabling people, especially those with disabilities, to participate in the City's PSA at city facilities. Projects scheduled for FY2026/27 include: ADA improvements at Hart Senior Center, Hagginwood Community Center, Cabrillo Community Pool, Sacramento Marina boat loading dock, and at the Police Property & Evidence public entrance.

Information Technology

IT Replacement Program (A07000300, $4.6 million)

This ongoing program maintains and replaces network and telecommunications infrastructure systems necessary for communication between devices and people. This program also ensures the integrity and availability of citywide IT enterprise resources based on life cycle standards, current technologies, and best practice benchmarks. These highly complex systems support City operations and all essential City business systems.



Fee and Charge Supported

Building Permit Technology Program (A21006600, $3.8 million)

This self-funded program implements process updates and technology needs related to citywide development activities. The fees collected are used to develop, implement, and support various programs for the public including technology upgrades to the database of citywide development activity, the systems for viewing details and statuses of planning applications and building permits, and the processes that expedite various programs and services to customers.

FY2026/27 Capital Projects and Programs

Non-site specific or multi-site projects are not shown

Note: Details for the project numbers listed on the map above are provided in alphabetical project order on the following pages.

Project Name CITY CLERK AUTOMATION PROGRAM

Project Description Updates technology and automation projects within the City Clerk's office.

Project Objectives Support the automation of City Clerk and citywide processes for greater efficiency and service delivery.

Existing Situation The technology currently in use does not address all of the office's automation needs.

Operating Budget Impact None.

Project Name IT EQUIPMENT REPLACEMENT PROGRAM

Project Description Ongoing program to maintain and replace IT telecommunications systems including voice over internet protocol (VoIP) equipment, voicemail, unified e-mail messaging, software and hardware licensing, physical and virtual server consolidation, data storage, network infrastructure, closed circuit television (CCTV) camera systems, mobile devices, WiFi, and all related components based on industry standard life cycles.

Project Objectives Ensure the integrity and availability of citywide IT enterprise resources based on life-cycle standards, current technologies, and best practices benchmarks.

Existing Situation Funds continue the management, coordination, and budgeting of citywide IT resources.

Operating Budget Impact To fund this program, departments are charged for telecommunications and other hardware replacement costs based on usage citywide. The “user fee” will be charged to all departments and does not result in additional General Fund costs.

Project Name CITYWIDE FIBER EXPANSION PROGRAM

Project Description The funding for this program will be used to expand and maintain the fiber optic infrastructure in the City.

Project Objectives Achieve the level of connectivity that is needed for traffic control, network connectivity, and communication purposes between City facilities and other agencies.

Existing Situation After review of existing infrastructure, it has been determined that there is a need to expand and maintain the fiber optic infrastructure in order to achieve the required level of city connectivity.

Operating Budget Impact This program's costs are covered through fiber lease revenues from the Los Rios and Sacramento Libraries (Fund 3702).

Project Name ENTERPRISE RESOURCE PLANNING (ERP) SYSTEMS REPLACEMENT PROGRAM

Project Description In 2005, the City initiated the process to replace the financial and human resource systems with an Enterprise Resources Planning (ERP) program, officially known as the electronic Citywide Accounting and Personnel System (eCAPS).

Project Objectives The eCAPS update ensures stabilization and implementation of existing City-owned ERP software, will create staff efficiencies, streamline business processes, reduce the number and cost of redundant systems. improve accuracy, transparency, and accountability.

Existing Situation The functionality of the City's ERP system needs updating.

Operating Budget Impact None.

Project Name DIGITAL STRATEGY

Project Description A comprehensive Digital Strategy provides the framework, prioritization, and multi-year action plan for delivering innovation and technology services that are streamlined, effective, secure, and easily accessible by all.

Project Objectives The execution of the Digital Strategy initiatives will expand access to information, more efficiently use resources, and improve the City's ability to serve customers more effectively and transparently.

Existing Situation In FY2026/27, $200,00 will be directed from the IT Critical Infrastructure Project to the Operating budget to support the IT Training Development Plan and address a significant gap in staff skills and knowledge base that is required to support the City's technical environment and critical business systems.

Operating Budget Impact Digital Strategy investments that have a citywide benefit will be allocated across the General Fund and appropriate enterprise funds through the City's cost allocation process. Additionally, projects will result in operational efficiencies and process improvements citywide.

Project Name IT SECURITY PROGRAM

Project Description Provide a comprehensive IT security assessment of the network and determine the overall IT security of the organization.

Project Objectives The objective of the IT security assessment is to evaluate the network to ensure that necessary security controls and practices are integrated into the design and management of the systems. The assessment will include internal/external network penetration testing, identification of weaknesses in access controls, and identification of vulnerabilities within the City's environment.

Existing Situation IT security risk assessments are an ongoing process of discovering, correcting, and preventing security problems. An integral part of a risk management process, this program is designed to provide appropriate levels of security for information systems. Information security risk assessments are part of sound security practices to ensure proper security controls are in place to protect critical systems, applications, and data against threats, malware and cyberattacks.

Operating Budget Impact None.

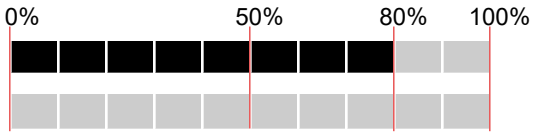
Project Name 311 MOBILE APPLICATION MODERNIZATION

Project Description The City's 311 Mobile Application has been in production for nearly 7 years and needs to be upgraded and modernized to keep pace with changes in mobile communication device technology. This project will provide a smoother and more integrated experience for submitting service requests or reporting issues via mobile device by citizens, visitors, and customers.

Project Objectives The objective of the project is to streamline customer service requests and issue reporting processes, support higher adoption of city information among citizens, and leverage technology to reduce call volume for non-emergency services.



Existing Situation Initially launched in 2012, the existing 311 Mobile Application was built on a legacy mobile app system that is no longer practical to support. This project will allow for further consolidation of other departmental mobile apps under a single mobile app infrastructure where practical.

Operating Budget Impact None.

Project Name **FLEET FACILITIES SAFETY PROGRAM**

Project Description Consolidation and improvement of fleet service, repair facilities, and parts stores to meet safety standards and increase efficiency.

Project Objectives Repair or upgrade fleet shops to meet safety standards as needed, including but not limited to lifts, air conditioning units, build shop components, and other permanent equipment and infrastructure.

Existing Situation Fleet shops are in need of ongoing maintenance, repair, and upgrades to meet safety standards as standards are updated, shop components come to the end of their useful lives, and new technology becomes available. If facilities or equipment do not meet safety standards they cannot be used to repair vehicles, which will lead to decreased productivity and increased costs as repairs will need to be contracted out.

Operating Budget Impact None.

Project Name FUEL MANAGEMENT AND SUPPORT EQUIPMENT PROGRAM

Project Description Fuel management, dispensing, storage, and monitoring systems require ongoing testing, maintenance, and upgrading to ensure environmental protection. This program provides funding for upgrades and implements alternative fuel infrastructure.

Project Objectives Expand technology and resources for all fueling requirements, including compressed natural gas, gasoline, diesel, and oil by replacing and updating failing or outdated fueling equipment, storage, and supporting infrastructure.

Existing Situation This program implements the City Council's fleet sustainability goals, which expands the use of alternative fuels and GPS telemetrics.

Operating Budget Impact Ongoing maintenance costs are recovered through a fuel surcharge.

		As of 2/2026

Project Name MEADOWVIEW REMEDIATION PROGRAM

Project Description The project provides funding for monitoring and remediation efforts in order to meet state requirements.

Project Objectives Ongoing monitoring and soil and groundwater remediation to remove contamination.

Existing Situation The City acquired property for the development of the Pannell Community Center where a dry cleaner business had previously been located. Extensive remediation of the contaminated soil and groundwater has been performed since the City's acquisition of the property, and the contamination has been significantly reduced. However, it is estimated that the property will require ongoing remediation and cleanup through 2031 before the City can stop monitoring efforts.

Operating Budget Impact None.

Project Name FACILITY ADA COMPLIANCE PROGRAM

Project Description Survey, classify, and prioritize conditions in City facilities that do not comply with state accessibility requirements and the Americans with Disabilities Act (ADA). The federal ADA was signed into law in July 1990.

Project Objectives Comply with state and federal civil rights laws to eliminate physical barriers which cause discrimination to individuals with disabilities. Remediate conditions or barriers that hinder the participation of individuals with disabilities in City's programs, services, and activities. Projects scheduled for FY2026/27 include ADA improvements at Hart Senior Center, Hagginwood Community Center, Cabrillo Community Pool, Sacramento Marina boat loading dock and the Police Property and Evidence public entrance.

Existing Situation City staff are currently delivering projects consistent with the City's Facilities ADA Transition Plan. Public entities have an ongoing obligation to ensure that their programs, services, and activities are accessible to the public.

Operating Budget Impact New facilities will require regular maintenance and repairs. No additional General Fund that has been allocated for ongoing maintenance is allocated with this project.

Project Name CITY FACILITY REINVESTMENT PROGRAM

Project Description This program provides funding for end-of-life cycle replacement of facility components or major repairs due to deferred maintenance. In June 2018, staff completed the facility condition assessment to determine and prioritize capital replacement and maintenance needs.

Project Objectives Funding for major projects in FY2026/27 includes roof replacements, fire alarm upgrades, HVAC replacements at various City facilities, Uninterruptable Power Supply (UPS) systems and repairs at the 911 Communication Center, fire stations, Kinney Police Station and City South Corporation Yard.

Existing Situation This program will be used for improvement projects at existing City facilities. Deferred maintenance at City facilities is currently estimated at approximately $1.4 billion for the 2026-2031 five-year CIP.

Operating Budget Impact Annual funding to this program prevents increased maintenance costs within the operating budget.

Project Name SECURITY CAMERA REPLACEMENT PROGRAM

Project Description Maintain and replace security camera systems and all related components based on industry standard life cycles.

Project Objectives Ensure the ongoing integrity and availability of security camera systems at City facilities.

Existing Situation Many of the existing security camera systems are outdated, no longer functioning adequately, or not operating at all. Historically, security camera projects were funded for the installation but not for ongoing maintenance, support, and standard life cycle replacement. This program will address these issues.

Operating Budget Impact None.

Project Name CITY FACILITY IMPROVEMENTS PROGRAM

Project Description Capital projects for internal operations related to improvements and minor construction of existing City-owned or occupied buildings. Projects are requested at the discretion of the departments occupying the facilities, approved by the City Manager or City Manager's designee, and delivered by the Department of Public Works.

Project Objectives Improve City facilities to meet the current needs of those occupying the facilities.

Existing Situation This program will be used for improvement projects at existing City facilities. Funding for FY2016/17 will support improvements to the 311 Call Center. General Funds in the amount of $200,000 have been added for these improvements plus an additional $115,000 has been reassigned from existing IT CIPs.

Operating Budget Impact Projects are funded by the requesting department from its current year operating budget.

Project Name COMMUNITY NEIGHBORHOOD IMPROVEMENTS PROGRAM

Project Description Improve, enhance, and modernize City facilities/assets neighborhoods. Projects may include the addition, construction, modernization, or repair of City buildings and facilities, e.g., community centers, parks, park amenities, public art, roads, signage streets, storm drains, or traffic signals.

Project Objectives To improve and enhance neighborhoods.

Existing Situation Improve the community based on Council priorities.

Operating Budget Impact Unobligated General Funds will be included in the FY2025/26 project sweep as part of budget balancing strategies.

		As of 2/2026

Project Name CITY TREASURER INVESTMENT MANAGEMENT RESERVE PROGRAM

Project Description Program 20% of net investment management fees generated from services provided to Sacramento City Employees Retirement System (SCERS). Funds are used by the City Treasurer's Office to ensure necessary and appropriate resources are readily available to assist in the delivery of the various treasury services; this may include, but is not limited to, the development, acquisition, and maintenance of automated programs.

Project Objectives To provide treasury management services at a less than fair market value without incurring City subsidy.

Existing Situation The investment fees generated from treasury services currently results in a net positive return to the General Fund. Prior to implementation of an investment management fee, the City General Fund subsidized investment services provided to SCERS.

Operating Budget Impact None. The establishment of a Treasury Reserve for treasury management services will help to ensure there is no additional General Fund costs to maintain service levels.

Project Name FLEET ALTERNATIVE FUEL EQUIPMENT REPLACEMENT PROGRAM

Project Description Provide incremental funding for the purchase of alternative fuel, electric, plug-in hybrid, and hybrid vehicle equipment purchases and additional alternative fuel infrastructure.

Project Objectives Purchases of alternative fuel and hybrid vehicles and alternative fuel infrastructure. Assist in complying with the City's Fleet Sustainability Policy to replace a minimum of 50% of fleet equipment purchases with alternative fuel vehicles.

Existing Situation The historical level of funding for the purchase of replacement vehicles does not provide for the additional incremental cost to accelerate the migration of the fleet to alternative fuels and/or hybrid vehicles.

Operating Budget Impact Fleet operating costs and greenhouse gas emissions should decline as the City's fleet is migrated to alternative fuels, thereby reducing petroleum consumption.

SECTION – E
Public Safety

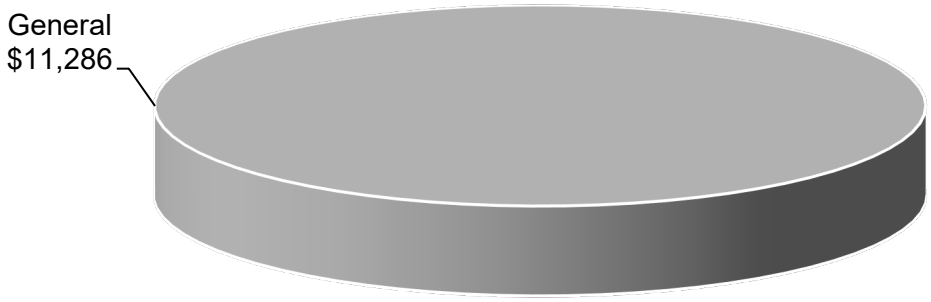
INTRODUCTION

The Public Safety Program establishes and supports capital projects that are consistent with the City's *2040 General Plan*. The Public Safety Program is designed to ensure both fire and police operational facilities are conducive to efficient, safe, and effective operations.

Adequate funding is not available to address the facility needs of the Police Department and the Fire Department. These larger capital repair and/or replacement needs are evaluated and prioritized as one-time resources are identified.

This program focuses resources toward programs that have ongoing funding requirements necessary to address repairs, replacement, and upgrades to the City's public safety infrastructure.

Program Goals



- Protect public health and safety
- Provide reliable infrastructure for operations
- Increase efficiency

Ranking Criteria

- Public safety
- Renewal/replacement of worn/obsolete/failed components
- Leverages existing resources
- Increases or maintains sustainability and accessibility

Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index O.

MAJOR PROGRAMS AND PROJECTS

The Public Safety Program includes a variety of programs and projects. The top-funded CIPs during the five-year period are listed below.

Fire Apparatus Program (F12000300, $22.7 million)
This program is evaluated annually to determine future capital needs to avoid spikes in annual funding requirements. The replacement schedule for emergency vehicles is evaluated to determine the funding necessary in future years.

Body Worn Camera and Conductive Electrical Device Program (F11100500, $10.5 million)
This program supports the deployment of body worn cameras for police officers citywide, including equipment and data storage. Body worn cameras are used to improve law enforcement interactions with the public by providing audio and visual recordings, helping

to strengthen accountability, transparency, and de-escalation of conflict. The program also funds purchases of conductive electrical devices including accessories equipment, storage, software, and periodic device replacement. Funding is evaluated annually.

Advanced Life Support Equipment Program (F12000200, $5.8 million)
This program provides long-term, sustainable funding over multiple years to be used for the purchase of capital equipment needs. The replacement schedule for medical equipment and ambulances is evaluated annually to determine the funding necessary in future years to avoid spikes in annual funding requirements.

Police Safety Equipment Program (F11100800, $5.0 million)
The program provides funding to purchase safety equipment for use by sworn officers, including radios and body armor. Funding is evaluated annually.

Fire Safety Equipment Program (F12000500, $4.3 million)
Purchase of safety equipment including self-contained breathing apparatus (SCBA) packs and bottles, and personal protective equipment (PPE). The purchase of this safety equipment is necessary to meet state and federal regulatory requirements and is critical in fire service. Funding is evaluated annually.

Police Department Fleet Equipment and Technology Program (F11100600, $370,000)
This program provides funding to purchase replacement technology including mobile data computers, in-car camera systems, and ballistic door panels on police patrol vehicles. Funding is evaluated annually.

Project Name BODY WORN CAMERA AND CONDUCTIVE ELECTRICAL DEVICE PROGRAM

Project Description The funding for this program will be used to maintain body-worn cameras (BWCs) and conductive electrical devices (CEDs) including accessories, equipment, storage, software, and periodic device upgrades.

Project Objectives To improve accountability and transparency within the Police Department. BWCs are used as tools to improve law enforcement interactions with the public by providing visual and audio records of interactions. CEDs are used as a less-than-lethal force option in certain volatile situations.

Existing Situation The Police Department received a federal grant to develop and implement the BWC program. Continued funding is required to ensure the continuity of the program. The Department's current CEDs are obsolete and no longer carried by the manufacturer. The Department needs to replace its obsolete CEDs with a modern, contemporary model.

Operating Budget Impact None.

Project Name ADVANCED LIFE SUPPORT EQUIPMENT PROGRAM

Project Description Purchase of medical equipment and ambulances for use in advanced life support (ALS) services.

Project Objectives ALS equipment and vehicle purchases cross fiscal years. The objective of this project is to establish a long-term funding plan that will provide sustainable funding over multiple years to be used for the purchase of capital equipment needs. The replacement schedule for medical equipment and ambulances is evaluated annually to determine the funding necessary in future years to avoid spikes in annual funding requirements.

Existing Situation Expenditures related to medical equipment and ambulances are covered by revenues collected through the City's ALS/Ambulance Service. Existing appropriations and expenditures are managed in separate projects for equipment and ambulances.

Operating Budget Impact Funding for operations and maintenance is budgeted in the Fire Department operating budget. $400,000 of the annual funding for the ALS equipment budget and out-year costs for additional ambulances are supported by intergovernmental transfer (IGT) revenues.

		As of 2/2026

Project Name FIRE APPARATUS PROGRAM

Project Description Purchase of emergency response vehicles including fire trucks, engines, hazardous materials vehicles, and other large apparatus purchases that cross fiscal years.

Project Objectives Establishing a long-term funding plan that will provide sustainable funding over multiple years to be used for the purchase of capital equipment needs. There is an existing replacement schedule for all of the City's Fleet assets. The replacement vehicles schedule is evaluated annually to determine the funding necessary in future years to avoid spikes in annual funding requirements. Beginning in FY2026/27, an additional ongoing $782,000 has been added to this project.

Existing Situation The five-year program for replacement vehicles is based on cash funding.

Operating Budget Impact None.

Project Name FIRE SAFETY EQUIPMENT PROGRAM

Project Description Purchase of safety equipment including self-contained breathing apparatus (SCBA) packs and bottles, personal protective equipment (PPE), and miscellaneous safety equipment. The purchase of this safety equipment is necessary to meet state and federal regulatory requirements and is a critical component of the PPE used in fire service.

Project Objectives Establish a long-term funding plan that will provide sustainable funding over multiple years. The equipment has an estimated 10-year life cycle (SCBA bottles have a 15-year cycle).

Existing Situation Due to CalOSHA requirements, periodic replacements of PPE, SCBA, and safety equipment is necessary.

Operating Budget Impact $600,000 of the annual funding for the PPE budget is supported by intergovernmental transfer (IGT) revenues.

Project Name PUBLIC SAFETY ADMINISTRATION FACILITIES GENERATOR UPGRADE PROGRAM

Project Description Install standby generators at the Public Safety Administration Building (PSAB), fire stations, and other facilities that are essential to emergency response and disaster recovery. The Sacramento Police Department Evidence and Property Building generator installation is anticipated to be completed in 2027, and the Fire Station 57 generator installation is anticipated to be completed in 2030. Succeeding, all new Fire Station locations will be equipped with standby generations.

Project Objectives Generators have been installed at the following fire stations: 1, 2, 3, 5, 6, 7, 8, 10, 11, 12, 13, 14, 15, 16, 17, 19, 20, 30, 56, and 60. Standby generators have also been installed at the PSAB, the Fire Department's Training Tower, a City water tower, and the City's main data center. Additionally, to facilitate regular testing of the generators, a generator load bank connection switch gear was installed at the 911 facility to ensure optimal performance.

Existing Situation The current funding level for this program supported funding for one location to be completed every other year. California Emission regulations have required a higher-class filtration tier on all new generators as of 2025, and this change increases the cost of generators substantially. With the new regulations, current funding will cover one location every three years. Additionally, older standby generators are starting to approach functional obsolescence.

Operating Budget Impact Regular maintenance costs for each generator are estimated to be $1,000 per year. New facilities will require regular maintenance and repairs. No additional General Funds have been allocated for ongoing maintenance and repairs for this project.

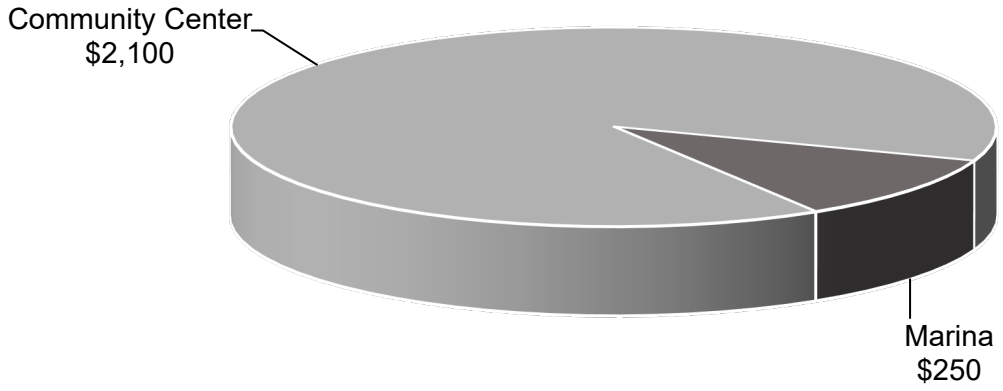
SECTION – F
Convention, Culture, and Leisure

INTRODUCTION

The Convention, Culture, and Leisure Program promotes and preserves the City's unique cultural heritage by delivering accessible arts, leisure, and educational experiences to enrich people's lives and enhance the metropolitan area. The Convention, Culture, and Leisure Program is designed to enrich the quality of life and to contribute to a vibrant metropolitan region by providing exceptional cultural, artistic, and leisure opportunities.

This Program has been prepared by the Department of Convention and Cultural Services staff utilizing the goals and criteria listed below.

Program Goals



- Provide clean and well-maintained grounds, facilities, and equipment
- Enhance the economic and cultural vitality of the city through cultural facilities
- Maintain and increase client and patron satisfaction
- Provide high quality, safe, and accessible facilities

Ranking Criteria

- Meet legal, health, and safety requirements
- Maintain and improve facilities to ensure the public's comfort and enjoyment
- Improve marketability of SAFE Credit Union Convention and Performing Arts District to increase attendance
- Prevent damage to facilities and watercraft

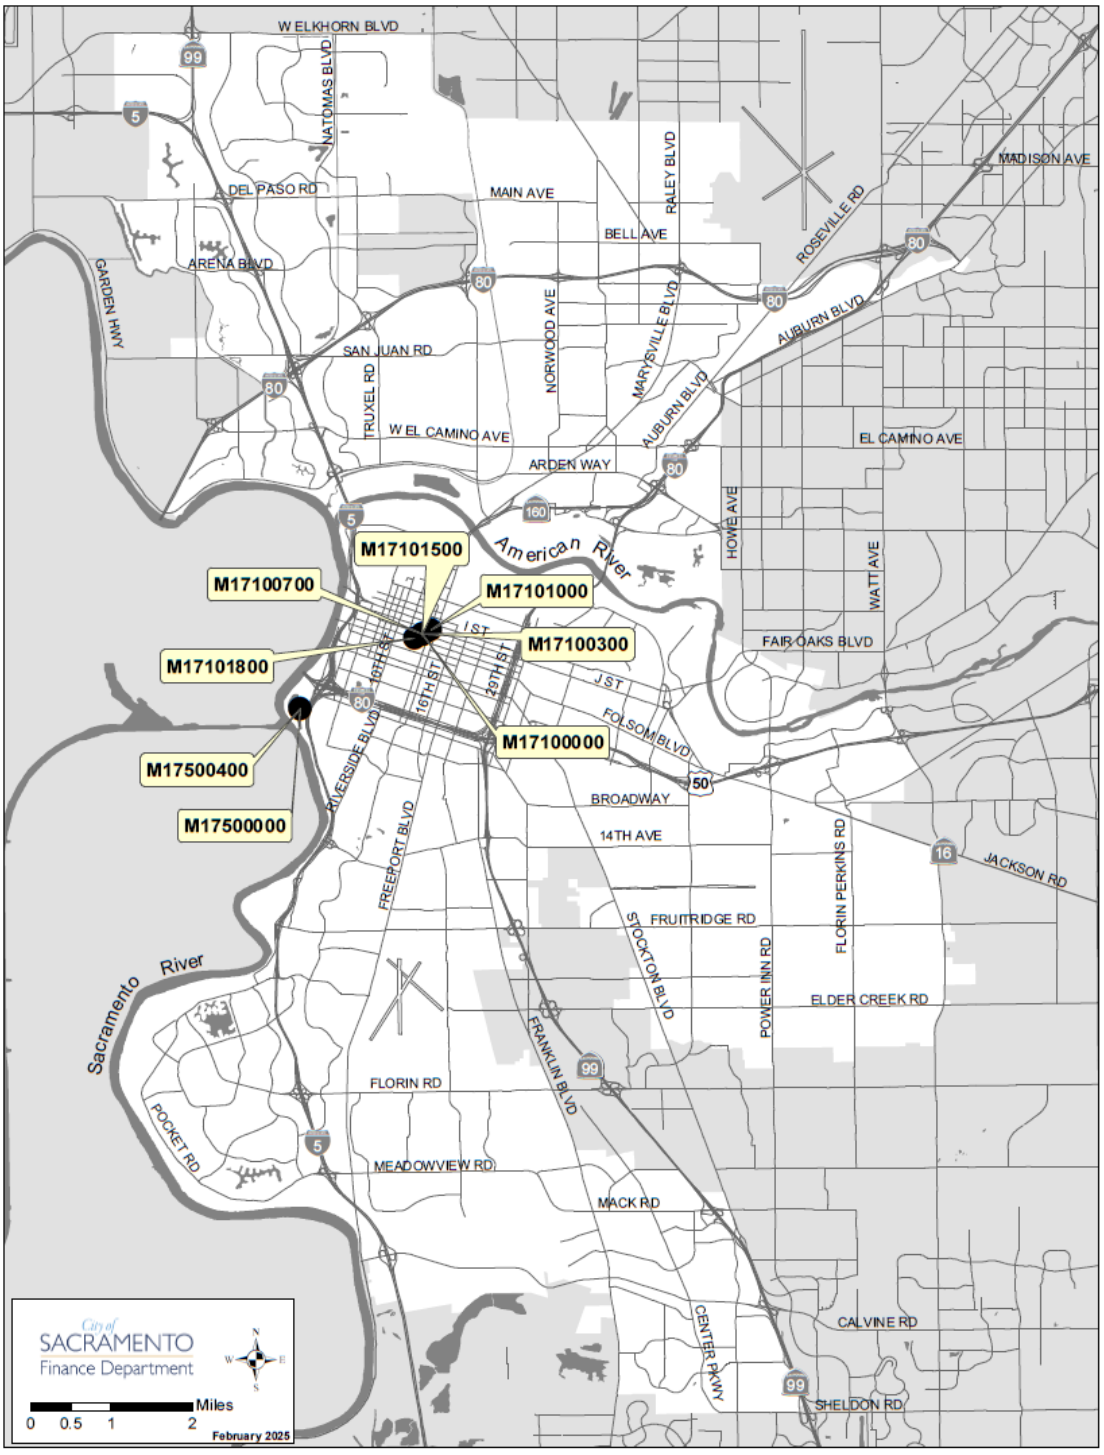
Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index O.

MAJOR PROGRAMS AND PROJECTS

The Convention, Culture and Leisure Program includes a variety of programs and projects. In September 2018, City Council authorized the issuance of bonds to expand and renovate the SAFE Credit Union Convention and Performing Arts District. In July 2019, City Council authorized the issuance of additional bonds to construct a new ballroom for the SAFE Credit Union Convention Center. The Convention Center Complex Renovation Project has enhanced the patron experience at the Memorial Auditorium, improved guest experience and event flexibility at the SAFE Credit Union Convention Center, and improved acoustics and performance space as well as expanded restrooms and concessions at the SAFE Credit Union Performing Arts Center.

Funding is required for ongoing improvements outside the scope of the Convention Center Complex Renovation Project. The top-funded CIPs during the five-year period are listed below.



Community Center Improvements Program (M17100000, $2.2 million)
This program provides funding for major improvements, repairs, or equipment for the SAFE Credit Union Convention and Performing Arts District to prolong or enhance the current conditions. Funding is based on the number of improvements and repairs that need to take place in the next five years.

Performing Arts Center Improvements Program (M17101800, $3.9 million)
This program provides for improvements, repairs, and/or replacements for the SAFE Credit Union Performing Arts Center to continue and provide a well maintained, competitive, and cost-effective venue. Funding for this program is based on the estimated fees to be collected from the SAFE Credit Union Performing Arts Center Facility Fee.

Memorial Auditorium Improvements Program (M17101000, $1.6 million)
This program is to address deferred maintenance, facility improvements, and renovation needs at the historic Sacramento Memorial Auditorium. Funding for this program is based on the estimated fees to be collected from the Sacramento Memorial Auditorium Facility Fee.

FY2026/27 Capital Projects and Programs

Non-site specific or multi-site projects are not shown

Note: Details for the project numbers listed on the map above are provided in alphabetical project order on the following pages.

City of Sacramento

Capital Improvement Program

M17100000

Project Name COMMUNITY CENTER IMPROVEMENTS PROGRAM

Project Description Provide funding for major improvements, repairs, or equipment for the SAFE Credit Union Convention and Performing Arts District to prolong or enhance its current conditions.

Project Objectives Protect employees and the public from potential safety hazards and ensure continued, uninterrupted operation of the facility.

Existing Situation SAFE Credit Union Convention & Performing Arts District recently underwent a $375 million renovation/expansion. To safely maintain these city assets, funding for improvements, repairs or equipment is essential to continue operating these civic amenities.

Operating Budget Impact None.

Project Name CONVENTION CENTER CHILLER UPGRADE PROGRAM

Project Description Upgrade/replace the existing chillers at the SAFE Credit Union Convention and Performing Arts District as needed.

Project Objectives Meet legal, health, and safety requirements to protect the public and employees and ensure a reliable air conditioning system for clients.

Existing Situation The chiller was manufactured in 1995 exclusive Tracer AdaptiView. The upgrade provides an intuitive interface that improves chiller performance, efficiency, reliability and serviceability.

Operating Budget Impact None.

Project Name COMMUNITY CENTER SECURITY SYSTEM PROGRAM

Project Description Assess and upgrade the existing security system at the SAFE Credit Union Convention and Performing Arts District.

Project Objectives Improve public safety, increase user satisfaction, and minimize interruptions to facility operations.

Existing Situation The current security system has been upgraded with additional cameras installed over the past three years. Additional funding will be necessary to continue to maintain and replace equipment and refresh with current technology.

Operating Budget Impact None.

Project Name MEMORIAL AUDITORIUM IMPROVEMENTS PROGRAM

Project Description Address deferred maintenance, facility improvements, and renovation needs at the historic Sacramento Memorial Auditorium.

Project Objectives Ensure the historic City facility continues to provide a clean and well-maintained venue for the public while meeting health, safety, and historic preservation requirements.

Existing Situation Ongoing funding will be used for the following projects: roof repair, freight elevator replacement, and upgrade of the sound and lighting in the Jean Runyon Little Theater.

Operating Budget Impact In FY2026/27, $125,000 in funding will come from the operating budget's Memorial Auditorium Facility Fee. The proposed projects for FY2026/27 are roof maintenance, replacement of water fountain and flagpole, and upgrade of the fire alarm system.

Project Name CONVENTION CENTER CARPET REPLACEMENT

Project Description Replace the existing carpet on the second floor at the SAFE Credit Union Convention Center, approximately 15,000 square yards, due to wear.

Project Objectives Improve the look of the SAFE Credit Union Convention Center by installing new carpets, thereby making the Center more appealing to current and future clients.

Existing Situation Due to the competitive nature of the hospitality industry, it is prudent to plan for a full replacement of the carpet, allowing for a fresh new look. The carpet should be replaced every 8-10 years based on foot traffic.

Operating Budget Impact None.

Project Name CONVENTION CENTER DURABLE EQUIPMENT REPLACEMENT PROGRAM

Project Description Fund the replacement of durable equipment (e.g., chairs, tables, and stage risers) for the SAFE Credit Union Convention and Performing Arts District.

Project Objectives Replace equipment (every five to ten years) to improve the look of the SAFE Credit Union Convention and Performing Arts District and to improve safety needs.

Existing Situation Consistent and repetitive use of the durable equipment at the SAFE Credit Union Convention and Performing Arts District accelerates normal wear and tear of the equipment. Funds are needed to regularly replace these essential items.

Operating Budget Impact None.

Project Name **PERFORMING ARTS CENTER IMPROVEMENTS PROGRAM**

Project Description Provide for improvements, repairs, and/or replacements for the SAFE Credit Union Performing Arts Center.

Project Objectives To continue to provide a well-maintained, competitive, and cost-effective venue.

Existing Situation The recently renovated Performing Arts Center included a large audio equipment purchase, back up equipment was “value engineered” out. Ongoing funding is for purchase of back up equipment to exchange equipment as needed and avoid show interruption.

Operating Budget Impact In FY2026/27, the $775,000 in funding will come from the operating budget’s Performing Arts Center Facility Fee. The proposed projects for FY2026/27 will include repairs to the roof and updates to the air purification system.

Project Name HARBOR DREDGING PROGRAM

Project Description Dredge the Marina harbor entrance annually to eliminate silt buildup and dock structure damage. This project also accumulates funds to perform full dredging of the entire Marina basin every 15-20 years.

Project Objectives Provide sufficient water depth for vessels to navigate in the Marina. Prevent damage to docks. Maintain the Marina in full operation.

Existing Situation Silt buildup decreases the water depth of the Sacramento Marina, which results in navigational problems and potential damage to water craft and Marina structures.

Operating Budget Impact Revenues above those budgeted in the operating budget may return to this program if the Public Works Department has positive net year-end results.

Project Name MARINA IMPROVEMENTS PROGRAM

Project Description Provide funding for retrofitting, major repairs, and improvements at the Sacramento Marina as needed.

Project Objectives Provide clean and well-maintained facilities and equipment. Make improvements to remain competitive with other area marinas.

Existing Situation The Sacramento Marina completed a major renovation of the South Basin in 2008. This funding will primarily focus on identified needs in the North Basin since those berths were constructed over 20 years ago.

Operating Budget Impact None.

SECTION – G
Parks and Recreation

INTRODUCTION

The Parks and Recreation Program reflects the City's goal to optimize the experience of its citizens through parks, recreational facilities, and the preservation of open space. The Parks and Recreation Program is designed to address the City Council's commitment to improving the quality of life through a robust park system, with an emphasis on renovating and rehabilitating aging park amenities within the system.

This Program utilizes the *Park Plan 2040* goals and criteria, the Parks Deferred Maintenance Assessment, the Citywide Pools Assessment, the Facilities Assessment, and input from the City Council to develop the five-year plan.

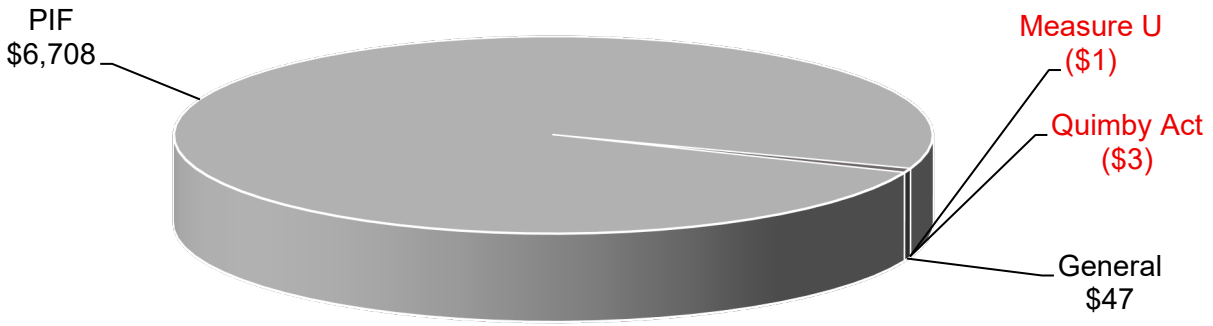
Program Goals

- Provide an integrated system of parks, open space areas, and recreational facilities that are safe and connect the diverse communities of Sacramento
- Plan and develop parks, recreation, and community facilities that enhance community livability, are equitably distributed throughout the city, and are responsive to the needs and interests of residents, employees, and visitors
- Secure adequate and reliable funding for the acquisition, development, and maintenance of parks, recreation facilities, and open space

Ranking Criteria

Projects are evaluated and grouped within each of the eight Council Districts for consistency with the City's *Parks Plan 2040*.

The criteria in each Council District focuses on:



- Neighborhood, community, and/or regional need
- Funding availability for ongoing maintenance
- Site significance, public priority or public use, and suitability to the area
- Priority to economically disadvantaged neighborhoods
- Health, safety, or legal mandates
- Land availability
- Cost offsets/partnerships

by Fund (in thousands)
$7,711

Additional information on funding sources and their restrictions may be found in Description of Major Funding Sources (Section K). All projects receiving funding may be found by referring to Index L. Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index O.

Hopkins Park Playground

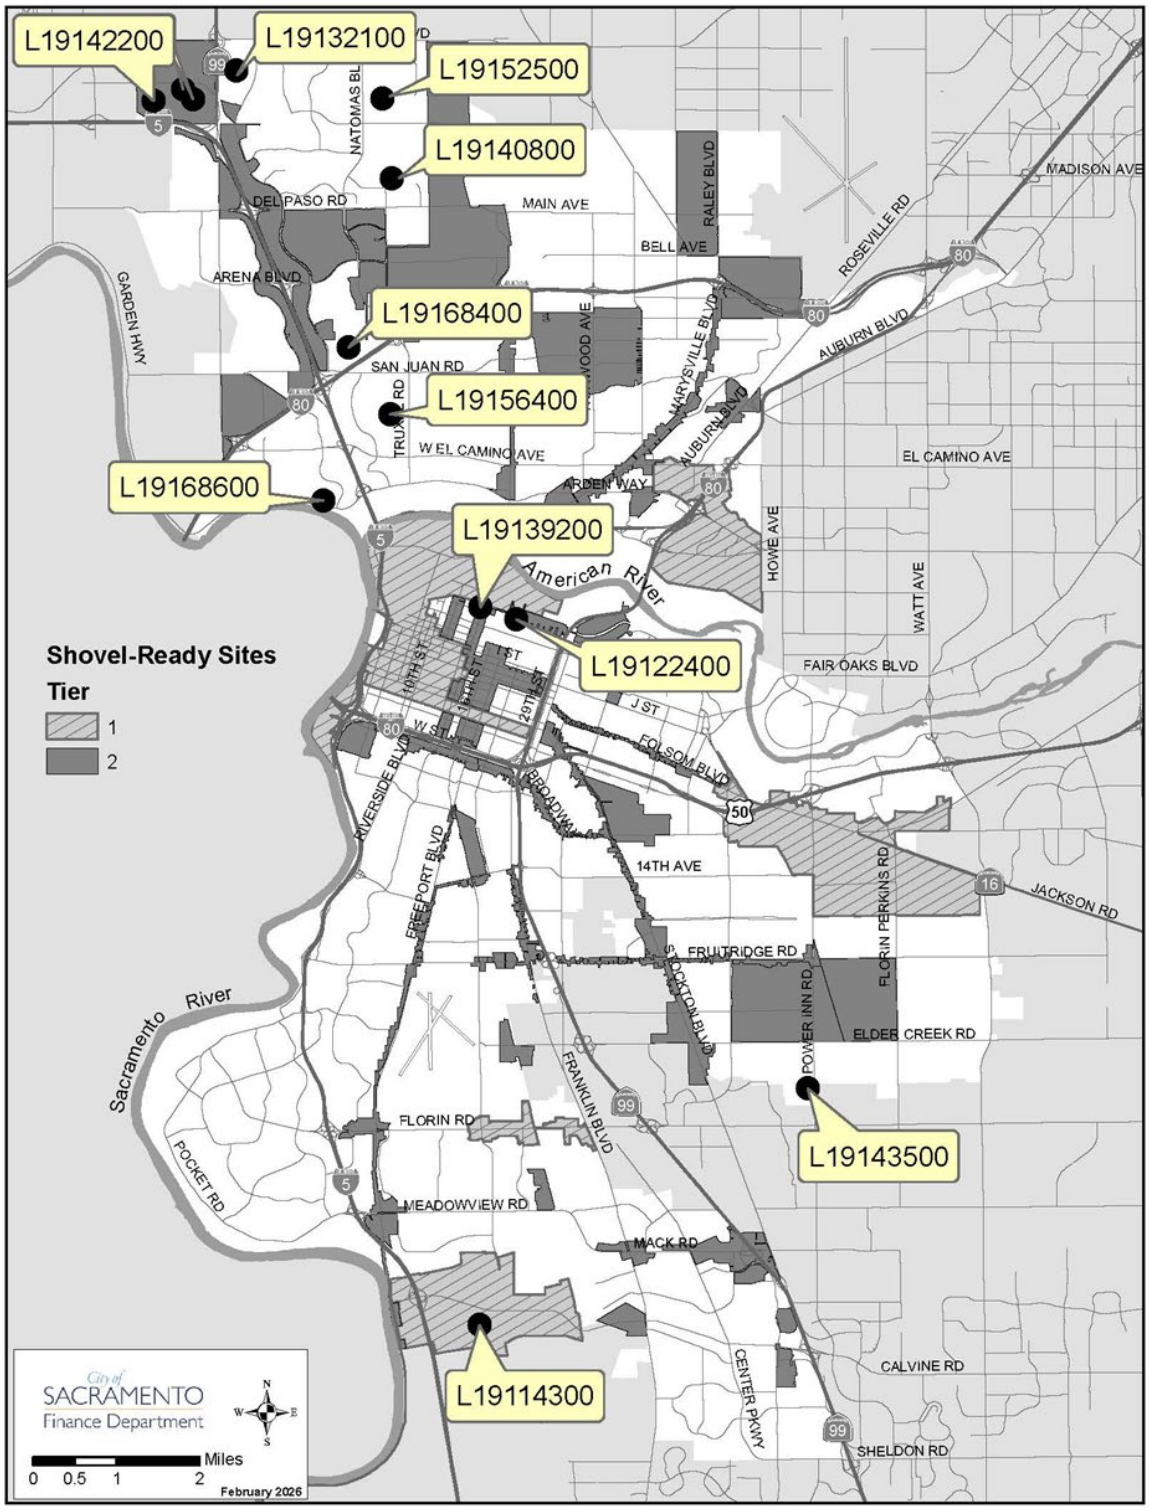
MAJOR PROGRAMS AND PROJECTS

The Parks and Recreation Program includes a variety of programs and projects. The top-funded CIPs during the five-year period are listed below.

Muir Park Improvements (L19139200, $1 million)
Improvements to this park will include the addition of a community garden and a futsal court, providing additional amenities.

North Natomas Community Park All Weather Field (L19140800, $1.5 million)
The existing grass field will be converted to an all-weather field, allowing for year-round play.

South Natomas Community Park Event Space (L19156400, $1 million)
An outdoor event space will be added to the community park. Enhancements to the event space will include electrical upgrades, the addition of a stage and improvements to accessibility. The event space will be used for various events including movie nights and community center programming.



Sutter's Landing Park Program (L19167000, $1.2 million)
Sutter's Landing Park is a decommissioned City landfill and waste transfer station. The objective of the program is to transform the open, available area into a regional park that can serve the recreational needs of the community. This programmatic funding is directed from the revenue received from the onsite billboard.

Sim Park Baseball Improvements

FY2026/27 Capital Projects and Programs

Non-site specific projects are not shown

Note: Details for the project numbers listed on the map above are provided in alphabetical project order on the following pages.

City of Sacramento

Capital Improvement Program

L19003500

Project Name REGIONAL PARK/PARKWAYS PROGRAM

Project Description Funding from the Sacramento Area Flood Control Agency (SAFCA) for the purchase of easement rights on Hansen Ranch to be used toward capital improvements for regional parks and parkways including their planning.

Project Objectives Regional parks and parkways provide quality of life infrastructure.

Existing Situation Approximately one-half of City park acres are regional and the Conlin Complex is a regional facility. Funds from the Regional Park/Parkways (L19003500) will be transferred to fund a portion of the costs for the Conlin Complex Improvements (L19005100).

Operating Budget Impact None.

Project Name MEASURE U PARK IMPROVEMENTS

Project Description Funding shall be allocated for improvements or major repairs upon approval by City Council.

Project Objectives Improve the safety and operational efficiency of existing amenities in the City's park system in need repair or replacement.

Existing Situation Many of the amenities and some of the infrastructure in several of the City's parks have reached the end of their life cycle and require repair or replacement.

Operating Budget Impact None.

Project Name CITYWIDE POOL ASSESSMENT/REPAIR PROGRAM

Project Description An assessment of City-owned public pools was completed in FY2015/16. The assessment evaluated the City's aging pool infrastructure and developed a plan of action for repair.

Project Objectives Fix the pool surface through repair or replacement and have a pool that is in a condition to be publicly accessible.

Existing Situation Funding of $400K was allocated to this project, meant for facility repairs. These funds will be transferred to the proper project.

Operating Budget Impact None.

Project Name PARKS & RECREATION RESERVATION SYSTEM PROGRAM

Project Description Upgrade the City's park facility reservation and registration system to help achieve numerous service enhancements for both staff and customers.

Project Objectives An upgrade will provide an enhanced public interface, creating an improved and simpler experience for customers from a personal computer or mobile device, while providing an opportunity to better market classes and rental facilities.

Existing Situation Parks and Recreation has utilized the Class Software System (CSS) to manage its park facility reservations for over 226 parks, community centers, picnic sites, permitted athletic fields, recreation classes, with over 23,000 registrations each year. The CSS product is at the end of its useful life.

Project Name ART IN PUBLIC PLACES PROGRAM

Project Description Adhere to City Code Chapter 2.84.045, which mandates that “at least 2% of the total cost [of eligible construction projects] shall be expended for public art.” Subprojects for each Community Planning Area (CPA) and their budgets are not reflected here.

Project Objectives Combine the 2% Art in Public Places funding from the various park development projects in each CPA to allow the creation of significant artwork at parks within each CPA where the money was collected. Allocate funding to each area once development in that area commences.

Existing Situation Each eligible park or recreation CIP budget has 2% set aside for the mandate.

Operating Budget Impact None.

SECTION – H
Transportation

INTRODUCTION

The City is responsible for maintaining and upgrading an aging transportation network that serves hundreds of thousands of users, including automobiles, trucks, buses, trains, bikes, pedestrians, and scooters for users of all modes and abilities. Resources to maintain and improve the transportation network come from a variety of sources, primarily the countywide transportation sales tax, state gas taxes, federal and state funding, and special fees and taxes.

For the most part, transportation funding has not kept pace with inflation, and some types of transportation funding have declined, creating challenges in providing needed transportation system maintenance and in providing capital improvements to address safety, network expansions, modernization, and upgrades.

State gas taxes and the local transportation sales tax are the primary funding sources for transportation network rehabilitation and repair and installation of safety improvements. In 2017, Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017, increased gas tax and vehicle registration fees and indexed the gas tax to inflation. The increased funding has allowed the City to maintain a corridor rehabilitation and improvement program to address the most critical high-volume corridors. Even with increased funding from SB 1, however, the conditions on City streets are projected to continue to decline as the current funding is not enough to offset years of deferred maintenance of City streets.

In 2022, after extensive community engagement, the City adopted a Transportation Priorities Plan, Resolution No. 2022-0361, that prioritizes over 700 projects included in adopted plans, including the General Plan, Specific Plans, Bikeway Master Plan, Pedestrian Master Plan, Intelligent Transportation Systems Master Plan, and Vision Zero Implementation. These projects, estimated to cost a total of $5 billion, currently have no funding identified. Projects are prioritized that address air quality and health, provide equitable investments in neighborhoods that lack basic infrastructure or have been recipients of racism and bias, provide connections to jobs, schools and parks, improve transportation safety, and fix and maintain the transportation system.

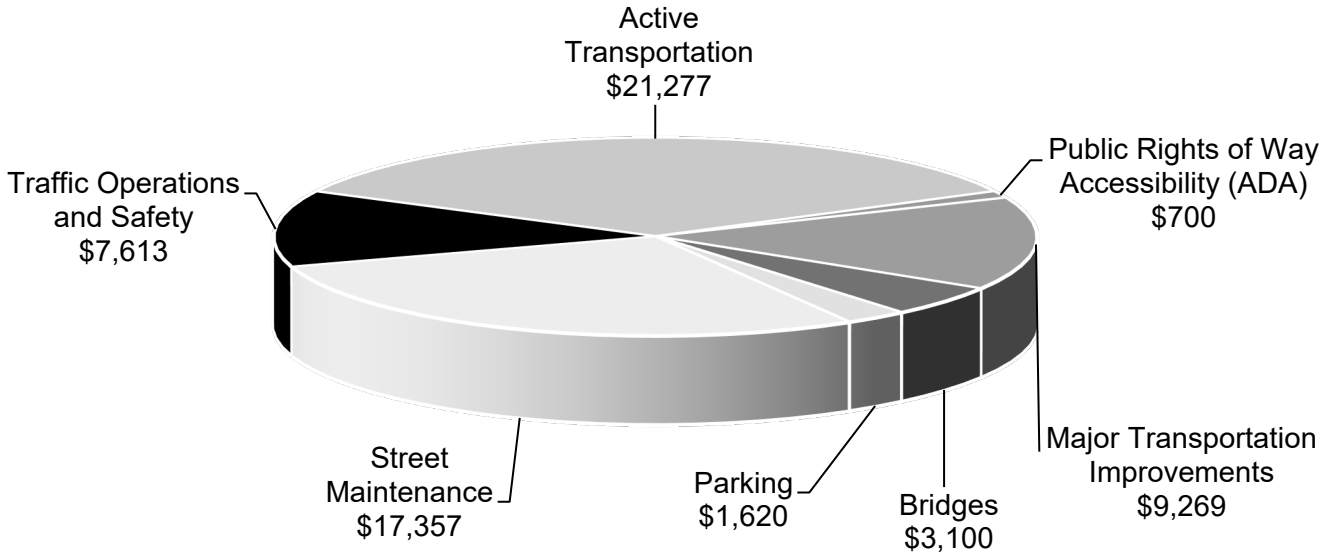
With limited local funding, larger capital projects are primarily funded through state and federal grants. These grant funds are accessed through competitive programs that require a local match commitment, and the level of local transportation dollars and available funding programs limits the number and scope of the capital improvement projects the City can implement. Moving forward, there is uncertainty related to potential changes in federal transportation funding levels or requirements and how that may affect the City’s ability to implement larger capital improvements.

The City also has significant unfunded needs in terms of maintenance and rehabilitation of the existing transportation network (e.g., pavement, bridges, bikeways, traffic control equipment).

Current estimates in the 2026-2031 CIP are at least $1.2 billion in deferred maintenance for transportation infrastructure.

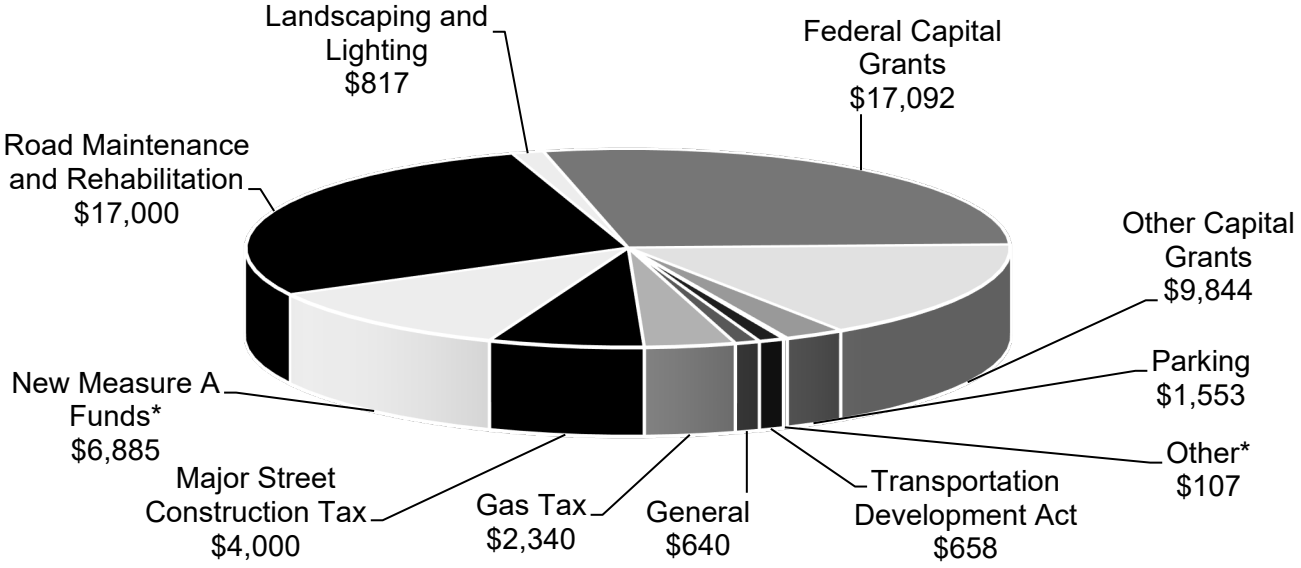
The following describes the Program's overall goals and sub-programs:

Program Goals



- Provide a safe and comprehensive transportation system that is effectively and efficiently planned, managed, operated, and maintained to the extent possible within funding limitations
- Provide a system that serves all modes of travel for all ages and abilities
- Reduce barriers to improve system connectivity by eliminating gaps, increasing accessibility, prioritizing active modes, connecting to transit stations, and increasing multi-jurisdictional transportation corridors
- Promote equity and public health in transportation investment decisions
- Improve transportation safety

The Transportation Program is divided into six subprograms:



- Active Transportation – pedestrian, bikeway, lighting, and streetscape improvements
- Bridges & Major Transportation Improvements – bridge replacement and rehabilitation, and other major roadway construction, including complete streets projects
- Parking – parking facility maintenance and upgrades
- Public Rights-of-Way accessibility – installation of improvements to ensure full accessibility and comply with state and federal requirements
- Maintenance – roadway and bikeway rehabilitation, including integration of complete streets elements and safety improvements with roadway resurfacing projects, and repair of streetlights
- Traffic Operations and Safety – safety improvements, Traffic Operations Center, and active transportation safety

MAJOR FUNDING SOURCES

FY2026/27 Transportation Program by Subprogram Area (in thousands) $60,936

FY2026/27 Transportation Program by Fund (in thousands) $60,936

*See funding chart on next page for more information.

	TOTAL TRANSPORTATION		**$60,936,453**

[1]Funds may be in several program areas and may be found in the other sections of this document.

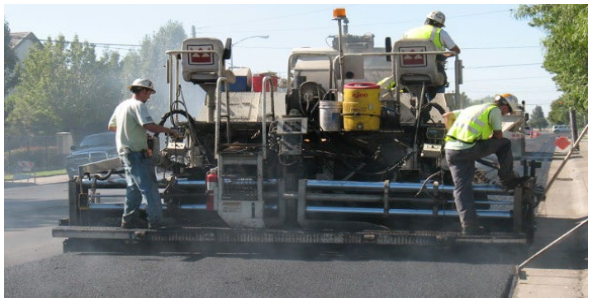
[2]Projects may have multiple funding sources.

2026-2031 Transportation Program
by Fund (in thousands)
$192,100

Parking revenues fully recovered from the pandemic downturn starting in FY2025/26. Allocations for Parking funded maintenance and repair CIPs have increased to address deferred maintenance and needed upgrades at City-owned parking garages.

Additional information on funding sources and their restrictions may be found in Description of Major Funding Sources (Section K). All projects receiving funding may be found by referring to Index L. Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index O.

MAJOR PROGRAMS AND PROJECTS



The Transportation Program includes a variety of programs and projects. Programs for corridor enhancements with road maintenance and safety improvements use local funding to implement near-term improvements and upgrades. Larger projects are usually funded with governmental grants and have local funds that are reserved to meet local match obligations for approved state and federal grant funding awards. With limited local funding available, many CIPs have leveraged local transportation funding with grant funding to maximize the value of every local transportation dollar and the number of improvements the City is able to deliver, and programmed grant awards are the single largest funding source for the Transportation Program in FY2026/27. The top-funded CIPs during the five-year period are listed below.

Transportation Corridor Program (R15200000, $74.3 million)

This is an ongoing comprehensive transportation corridor rehabilitation program to improve pavement conditions, improve mobility options, incorporate or expand active transportation elements, address safety concerns, implement upgraded technology solutions, and provide urban greening elements as needed.

This program takes advantage of opportunities for increased efficiencies and cost savings by integrating complete streets and safety features with pavement resurfacing. For example, road maintenance resurfacing projects (such as road overlay and seals) provide opportunities to implement vehicle lane reductions, add bike lanes, add accessibility improvements, crosswalk treatments, and other complete street features.

The Program is funded with traditional Gas Tax funds and Road Maintenance and Rehabilitation Account funds (additional funding through SB 1). Even using all increased funding from SB 1, available funding provides only about one-fifth of the funding needed to maintain the current pavement condition index.

Street overlay in progress

Traffic Safety Response Program (S15265800, $13.0 million)
Using accident data, collaboration with the Police Department, and community engagement to determine locations, this program will implement focused traffic safety improvements that can be deployed quickly at relatively lower cost than major projects. Funding and staffing resources will be dedicated specifically for quick response safety improvements to reduce potential traffic and pedestrian safety hazards.

The program will use local transportation funding such as Gas Tax, Major Street Construction, and Measure New A funds, avoiding long lead times associated with state and federal grant application, review, and award processes. Prior to the implementation of this program, quick response projects were handled on an ad hoc basis through operating budget and funding from various programs.

Safety Pilot Project Program (T15255300, $10.0 million)
The City will pursue and implement additional strategies to address safety issues on high injury corridors while the ultimate corridor-wide solutions are developed, funded, and implemented. While these major corridor solutions may take years to implement, City staff have been identifying potential faster options as interim solutions, such as modifying roadway striping and other road markings, installation and maintenance of green bike lanes, pavement repair, installation of barrier elements, and others.

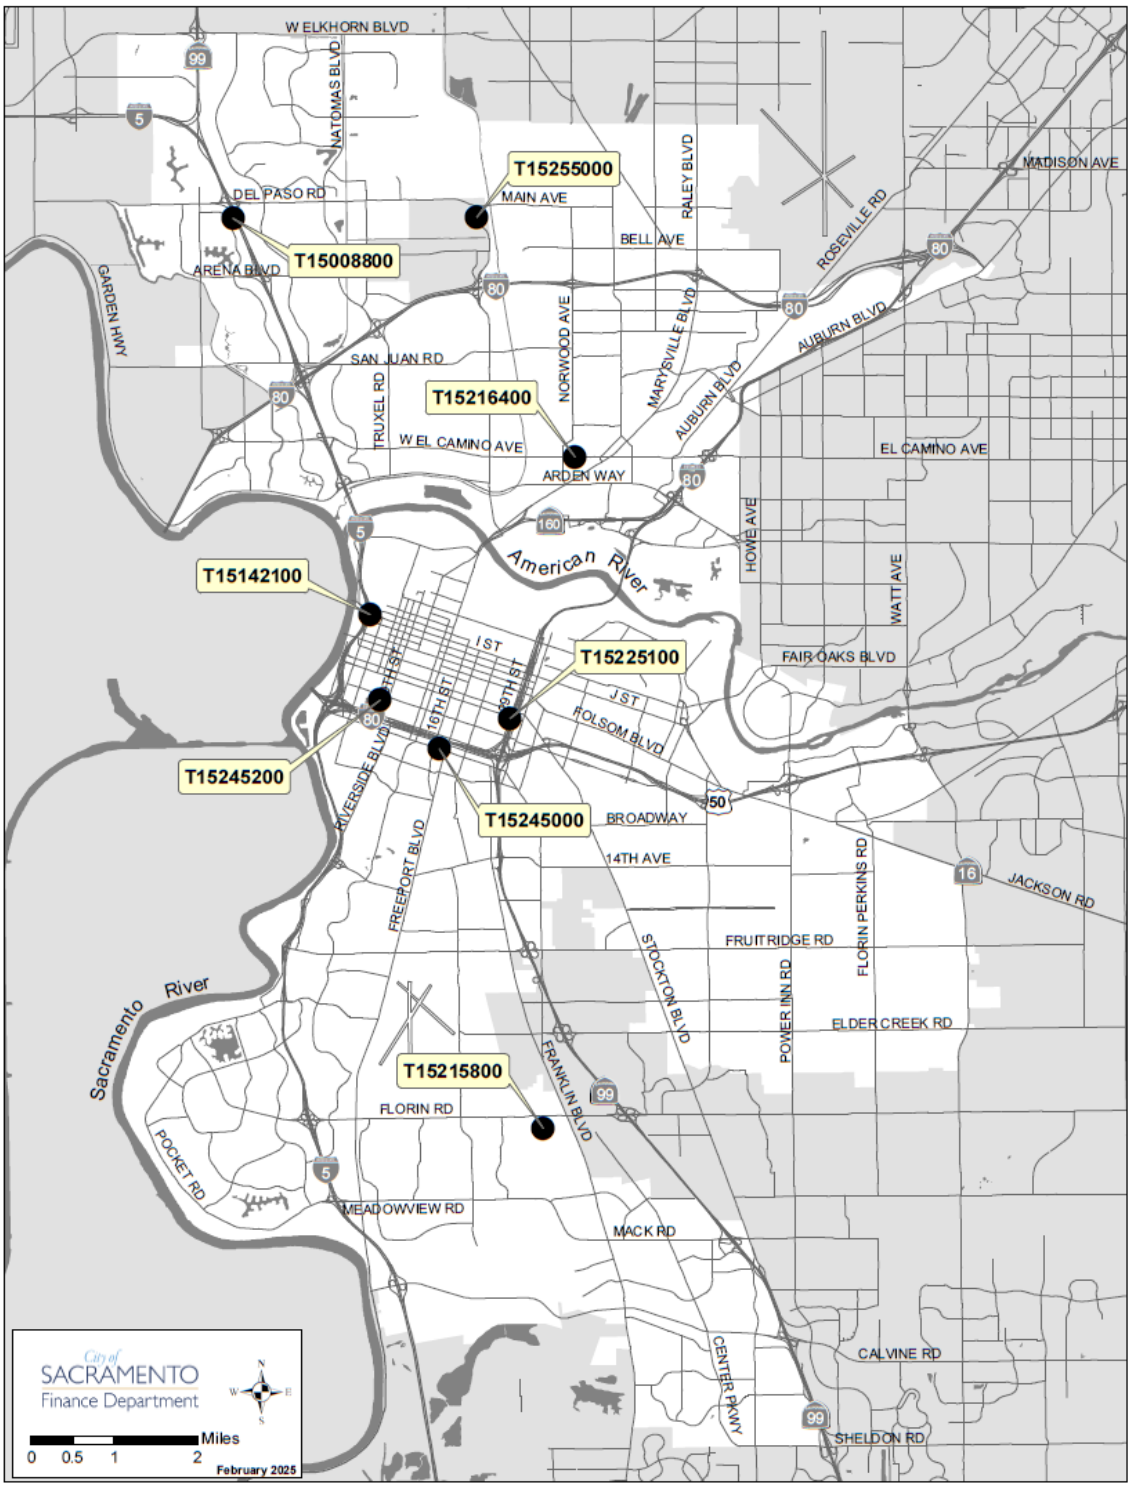
Additionally, pilot projects could be applied to many other locations in the City, if after implementation, demonstrate operational and safety benefits. The City can also utilize pre-screened contractors to provide services within short notice through on-call or master services agreements. The Safety Pilot Project Program is funded solely through local transportation funding with Road Maintenance and Rehabilitation Account (additional funding through SB 1) and Major Street Construction funding.

Bridge Maintenance Program (R15222200, $9.5 million)
The Bridge Maintenance Program provides funding for miscellaneous unscheduled maintenance activities on City-owned bridge structures; this includes review of Caltrans bridge inspection reports and the hiring of consultants for more detailed inspections if needed. Hiring consultants to inspect bridges that Caltrans does not inspect, urgent safety repairs that are required either because a bridge was damaged by a traffic collision or was found from an inspection to have a critical need for repair or maintenance, maintenance to

Inspection of Watt Ave Bridge at Arcade Creek

repair safety issues caused by general wear and tear, and design and construction of individual repair projects as recommended by Caltrans and city consultants and staff. The Bridge Maintenance Program is funded with Gas Tax and New Measure A Maintenance funds.

Active Transportation Program (T15180400, $7.8 million)



Grand Ave sidewalk gap closure construction

The Active Transportation Program is funded with Gas Tax funding, New Measure A Safety, Streetscape, and Bicycle & Pedestrian funding This funding is used to support walking and bicycling and can include sidewalk gap closures, new crosswalks, bicycle detection at traffic signals, match planning grants, and to pursue grants for construction of larger active transportation projects. In turn, the project supports air quality and responsible climate policy, public health, safety, and mobility choices. It also funds support for the City Active Transportation Commission.

FY2026/27 Capital Projects and Programs

Non-site specific or multi-site projects are not shown

Note: Details for the project numbers listed on the map above are provided in alphabetical project order on the following pages.

City of Sacramento

Capital Improvement Program

K15125200

Project Name BIKE PARKING PROGRAM

Project Description Install bike parking facilities in the public right-of-way.

Project Objectives Increase the availability of bicycle parking to encourage more bicycle travel.

Existing Situation Many locations throughout the City lack adequate bicycle parking.

Operating Budget Impact New transportation facilities will require regular maintenance and repairs. No additional gas tax or Measure A sales tax, typical sources of ongoing maintenance, are included for maintenance of these improvements.

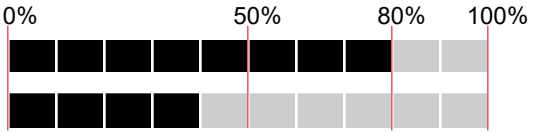
Project Name SACRAMENTO RIVER PARKWAY BIKE TRAIL

Project Description Provide environmental documentation and easement acquisition necessary for a new multi-use path along the top of the Sacramento River levee from drainage pump station north to Arabella Way.

Project Objectives Complete the environmental documentation and obtain the easements necessary to complete the Sacramento River bikeway.



Existing Situation There is no multi-use trail or public levee access.

Operating Budget Impact New transportation facilities will require regular maintenance and repairs. No additional general fund or Measure A sales tax, typical sources of ongoing maintenance, are included with this project.

Project Name PEDESTRIAN AND BIKE TRAIL REPAIR AND MAINTENANCE PROGRAM

Project Description This project is for citywide maintenance, repair, and rehabilitation of existing bike and pedestrian trails including pavement, striping, shoulder repairs, landscape maintenance, and debris and graffiti removal.

Project Objectives Provide maintenance of bike and pedestrian trails to ensure safety for users and to protect the City's long-term investment in its trail system. Consistent maintenance of bike and pedestrian trails will reduce the cost of future repairs.

Existing Situation The bike and pedestrian trail maintenance program is necessary to keep the trail system safe and prevent early deterioration.

Operating Budget Impact None.

Project Name TREE PLANTING AND REPLACEMENT PROGRAM

Project Description Use tree replacement in-lieu fees generated from private development to plant replacement trees citywide.

Project Objectives Maintain the quality of the City's tree canopy.

Existing Situation In-lieu fees are collected by the City when a private development project will remove existing trees. The fees must be used to further tree planting and tree replacement. This project provides a mechanism to do so.

Operating Budget Impact None.

Project Name TRANSPORTATION CORRIDOR PROGRAM

Project Description Ongoing program for comprehensive corridor rehabilitation to improve pavement condition, incorporate or expand active transportation elements, address safety concerns, implement upgraded technology solutions, and provide urban greening elements as needed.

Project Objectives Provide for complete and comprehensive solutions to address issues on transportation corridors, including pavement condition, improve safety, and improve mobility options.

Existing Situation Currently, needs are addressed independently (e.g., roadway overlays, safety projects, active transportation projects). This would provide for solutions on corridors to address all needs in a coordinated, efficient, and comprehensive process.

Operating Budget Impact None.

Project Name PAVEMENT MANAGEMENT APPLICATION UPDATE PROGRAM

Project Description The Pavement Management Application (PMA) inventory system requires regular updates, as well as other required hardware and software upgrades to keep the City's infrastructure management system current.

Project Objectives Update the infrastructure management systems used by Maintenance Services Division.

Existing Situation The City is required by the Federal Highway Administration to have a PMA system. An annual allocation is required to update and maintain the PMA system.

Operating Budget Impact None.

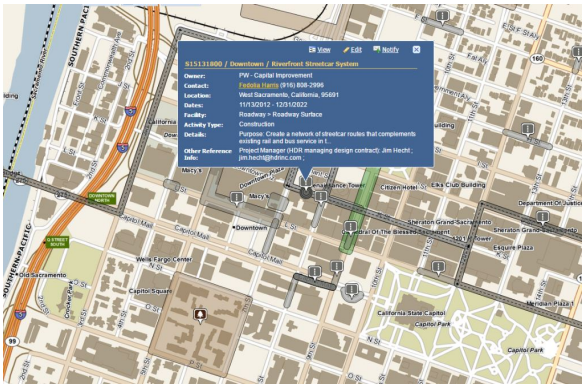
Project Name WORK MANAGEMENT SYSTEM PROGRAM - STREETS AND FACILITIES

Project Description Procurement and implementation of a maintenance work management system.



Project Objectives Upgrade the existing work order system to a web-based environment with GIS capabilities.

Existing Situation Approximately 10,000 work requests are received annually over the phone, by app, and from the 311 call center that are then forwarded to field crews for completion. Periodic upgrades are needed for the system to meet the demand.

Operating Budget Impact None.

Project Name BRIDGE MAINTENANCE PROGRAM

Project Description Program provides funding for miscellaneous unscheduled maintenance activities on City-owned bridge structures.

Project Objectives Repair damage to bridge structures from vehicular accidents not reimbursable through risk management and the unforeseen maintenance issues.

Existing Situation City-owned bridges require periodic maintenance to repair safety issues caused by traffic accidents and/or general wear and tear.

Operating Budget Impact None.

Project Name STREET AND ALLEY REPAIR PROGRAM

Project Description This project will help repair and resurface streets and alleys throughout the City of Sacramento from damage related to age, material, and consistent use from commercial garbage trucks.

Project Objectives Project objectives include making streets and alleys safer by repairing potholes, resurfacing pavement, and conducting overall street and alley repairs. In addition, this project will help increase the condition of the streets throughout the City.

Existing Situation The current funding is not enough to make the necessary repairs to keep the streets and alleys in a state of good repair. This project will help towards that goal. Alley repairs are also not eligible for Gas Tax transportation funding.

Operating Budget Impact This project is funded with Solid Waste Franchise Fees.

		As of 2/2026

Project Name TRAFFIC OPERATIONS CENTER PROGRAM

Project Description This program includes: corridor timing studies and implementation; traffic signal equipment maintenance, upgrade, replacement, and expansion; Traffic Operations Center (TOC) evaluation and expansion studies; related plans, specifications, and estimates; communications conduit infrastructure and maintenance; and Regional Intelligent Transportation System partnership strategic plan studies.

Project Objectives Connect traffic signals into the TOC so traffic signal operations and timing can be evaluated, monitored, and managed from the TOC to reduce travel delay and congestion on City streets.

Existing Situation Approximately half of the 850 traffic signals in the City are tied into the TOC.

Operating Budget Impact None.

Project Name ACTIVE TRANSPORTATION SAFETY PROGRAM

Project Description Provide for active transportation improvements including marked crosswalks, enhancement treatments such as Rectangular Rapid Flash Beacons (RRFBs) or Pedestrian Hybrid Beacons, bikeway gap closures, and other related improvements.

Project Objectives Enhancements for those walking, bicycling, and rolling (active transportation).

Existing Situation Safety improvements for active transportation are often requested. Requests are evaluated and enhancements are made where feasible.

Operating Budget Impact New transportation facilities will require regular maintenance and repairs. No additional gas tax or Measure A sales tax, typical sources of ongoing maintenance, are included for maintenance of these improvements.

Project Name STREETLIGHT/COPPER WIRE REPAIR PROGRAM

Project Description Repair street light infrastructure Citywide that has been damaged or stolen by thieves stripping copper wiring.

Project Objectives Improve public safety by turning the streetlights back on in neighborhoods impacted by copper wire theft and vandalism as soon as possible. Reduce repair waiting times.

Existing Situation Many locations within the City were dark due to street lighting infrastructure vandalism and copper wire theft. Repair wait times can be extensive, posing potential risks to public safety.

Operating Budget Impact None.

Project Name STREET LIGHT RELAMP AND REFURBISHMENT PROGRAM

Project Description Relamp street lights and refurbish the paint coating on aluminum streetlight poles.

Project Objectives This program provides a proactive effort to have streetlights re-lamped prior to burn out.

Existing Situation Streetlights burn out and create safety issues for communities. Without a current proactive re-lamping effort, keeping up with the demand to repair street light outages is challenging. The protective coatings on streetlight poles have also degraded and need refurbishment or replacement.

Operating Budget Impact None.

Project Name VISION ZERO SAFETY PROGRAM

Project Description Support the construction of transportation safety improvements in the public right-of-way and on the High-Injury-Network with the goal of reducing preventable crashes that cause serious injury or death. Includes the design and construction of traffic control devices, pavement markings and striping, median treatments, enhancement of sight distance, traffic calming, and other transportation safety related improvements.

Project Objectives Reduce fatalities and severe injuries related to crashes in Sacramento, and improve public safety and neighborhood livability.

Existing Situation Streets on the High-Injury-Network have demonstrated systemic transportation safety issues and may require safety improvements.

Operating Budget Impact New transportation facilities will require regular maintenance and repairs. No additional gas tax or Measure A sales tax, typical sources of ongoing maintenance, are included for maintenance of these improvements.

Project Name CITY RAILWAY QUIET ZONES PROGRAM

Project Description Ongoing management of City's existing Quiet Zones. Work will include staff time, traffic counts, and potential improvements at multiple at-grade crossings.

Project Objectives To maintain and re-certify the City's three Quiet Zones, required by federal law on a 3-5 year basis.

Existing Situation Currently no program exists to maintain and re-certify Quiet Zones, as required by federal law.

Operating Budget Impact None.

Project Name TRAFFIC SAFETY RESPONSE PROGRAM

Project Description Using crash data, collaboration with the Police Department, and community engagement to determine locations, implement focused traffic safety improvements that can be deployed quickly at relatively lower costs than major projects.

Project Objectives Provide focused traffic safety improvements that can be deployed quickly to reduce potential traffic and pedestrian safety hazards.

Existing Situation There is currently no funding dedicated specifically for quick response safety improvements. These are handled on an ad hoc basis through operating budget and funding from various programs. The success of this program is dependant upon the addition of Transportation employees hired specifically for this purpose.

Operating Budget Impact None.

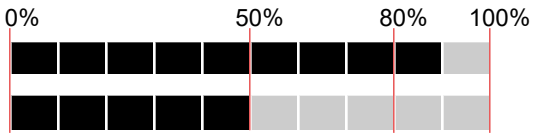
Project Name CENTRAL CITY WAYFINDING

Project Description Update and expand directional signage in the Central City area, with an initial focus around the Convention Center, Golden 1 Center, and Old Sacramento. The initial phase includes updating wayfinding signage from 3rd Street to 16th Street between I Street and Q Street.

Project Objectives Help direct vehicle drivers and pedestrians to cultural facilities, tourist attractions, parking garages and major governmental buildings, and simplify traffic patterns by guiding drivers into, through and out of the Central City areas along the most convenient paths.



Existing Situation The downtown core has an ever increasing number of tourists, residents and new attractions including the Golden 1 Center. The current signage is out-of-date and includes references to sites that have moved or no longer exist in the Central City.

Operating Budget Impact None.

Project Name STATE AND FEDERAL GRANT MATCH PROGRAM

Project Description This project is a reserve for grant matching funds. As individual capital projects are approved by Sacramento Area Council of Governments (SACOG) or other state or federal funding sources, matching funds will be transferred to projects once they have received authorization to begin.

Project Objectives Reserve the matching, local leverage, and startup funds needed for state and federal grants for projects.

Existing Situation In order to take advantage of state and federal transportation grant opportunities, a local match is typically required. Local funds are also necessary to cover certain ineligible project expenses such as overhead indirects.

Operating Budget Impact New transportation facilities will require regular maintenance and repairs. No additional gas tax or Measure A sales tax, typical sources of ongoing maintenance, are included for maintenance of the improvements funded by this program.

Project Name NORTH NATOMAS FREEWAY MONITORING PROGRAM

Project Description Monitor the freeway interchanges serving North Natomas as required by the cooperative agreement between the City and the state (City Agreement No. 95-217). Monitor traffic operations at the freeway off-ramps and adjacent intersections.

Project Objectives Monitor and identify when the freeway interchanges begin to be impacted by traffic growth in North Natomas. Results are used to identify when performance thresholds for the interchanges have been met and what impact mitigation measures are needed. This report is sent directly to Caltrans.

Existing Situation This monitoring has been performed since 1996. Monitoring was included in the state agreement due to the size of the Natomas expansion and the anticipation that the expansion would take decades to complete. This made it difficult to determine when improvements would be needed that would affect the state highway system.

Operating Budget Impact None.

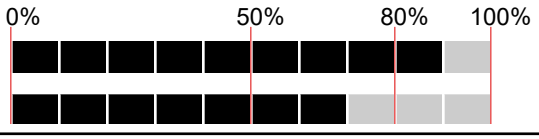
Project Name INTERMODAL TRANSPORTATION FACILITY

Project Description The intermodal work funded by the Community Reinvestment Capital Improvement Program (CRCIP) would include property acquisition and improvements to the historic depot; and contributions to the preparation of environmental and other studies (see TV96 for EIR and other studies). Long range, the project will develop the site with a regional transportation center and develop off-site improvements that directly benefit the transportation goals of the facility.

Project Objectives To provide a state-of-the-art regional transportation center and landmark destination that serves many transportation modes and spurs Railyards development.



Existing Situation Currently, the site is hard to access and connect into the City, facilities are poor, but usage is high. Property acquisition, environmental clearances, track relocation and facility work at the site are initial steps required to develop the intermodal facility.

Operating Budget Impact New transportation facilities will require regular maintenance and repairs. No additional gas tax or Measure A sales tax, typical sources of ongoing maintenance, are included for maintenance of these improvements.

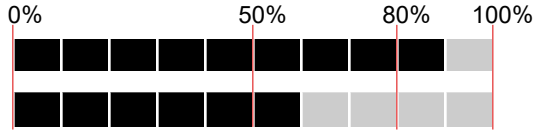
Project Name FRUITRIDGE ROAD STREETSCAPE ENHANCEMENTS

Project Description Rehabilitate pavement on Fruitridge Road, between 65th Expressway and Power Inn Road. Design and construct potential complete street improvements.

Project Objectives Evaluate potential for lane reduction to allow space for standard bike lanes, resurface and rehabilitate pavement, and provide ADA compliant curb ramps.



Existing Situation Project construction was put on hold pending resolution of redevelopment funding, however an alternate source of construction funds has been secured.

Operating Budget Impact New transportation facilities will require regular maintenance and repairs. No additional gas tax or Measure A sales tax, typical sources of ongoing maintenance, are included for maintenance of these improvements.

Project Name HOLLOW SIDEWALK MONITORING PROGRAM

Project Description Identify, evaluate, and monitor conditions of hollow sidewalks. Perform annual inspections and prepare recommendations for needed repairs. Notify property owners of any repairs that are required or recommended to hollow sidewalk locations for which they are responsible.

Project Objectives Maintain and improve public safety.

Existing Situation Approximately twenty-four blocks of hollow sidewalks exist in the downtown area. The sidewalks and many of the retaining walls supporting them date back over 100 years and require routine safety inspection for structural stability.

Operating Budget Impact None.

Project Name PUBLIC RIGHTS-OF-WAY ACCESSIBILITY PROGRAM

Project Description Upgrading, retrofitting, construction, and/or reconstruction of curb ramps, crosswalks, audible pedestrian signals, and/or other elements within the public rights-of-way.

Project Objectives Bringing the public rights-of-way into compliance with all access laws and regulations.

Existing Situation There are locations around the City within the public rights-of-way which need to be upgraded, retrofitted, or constructed to meet current access laws and regulations.

Operating Budget Impact None.

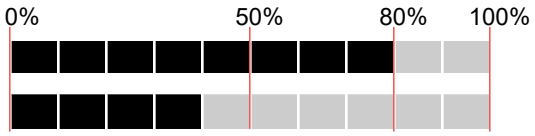
Project Name **FLORIN ROAD VISION ZERO SAFETY**

Project Description Streetscape improvements on Florin Road from 24th Street to Munson Way that includes bicycle lane gap closures, upgrading existing bike lanes to protected bike lanes, sidewalk improvements, pavement repair, new traffic signals, and additional controlled crossings of Florin Road.

Project Objectives Implement the improvements identified for Florin Road in the Vision Zero Top 5 Corridors study.



Existing Situation Florin Road within the project limits is comprised of four travel lanes plus a raised median and center turn lane. The posted speed limit is 45 mph with an Average Daily Traffic (ADT) of 36,000 vehicles.

Operating Budget Impact New transportation facilities will require regular maintenance and repairs. No additional gas tax or Measure A sales tax, typical sources of ongoing maintenance, are included for maintenance of these improvements.

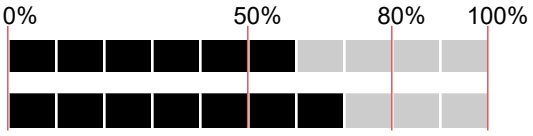
Project Name BROADWAY COMPLETE STREETS PH 3

Project Description The Broadway Complete Streets Phase 3 Project is the final Phase in the Broadway Complete Streets Project and will complete the segments along Broadway from 19th Street to 21st Street and 24th Street to Franklin Boulevard. Improving access for all modes through finalizing a four to three lane road diet, buffered bicycle lane, marked pedestrian crossings and refuge islands.

Project Objectives To complete the Broadway Complete Street Project and create a better balance among all modes of travel, where pedestrians, cyclists, transit riders, and drivers all feel safe and accommodated. To improve pedestrian and cyclist safety along and across the corridor, improve amenities throughout the corridor in a manner that creates a unified character for the corridor and increase opportunities to enjoy business/leisure activities. These facilities have been designed to calm traffic, improve safety and make



Existing Situation Currently the Broadway corridor is an automobile dominated four lane arterial with sidewalks of varying widths, complicated pedestrian crossings at major intersections and discontinuous bike lanes.

Operating Budget Impact New transportation facilities will require regular maintenance and repairs. No additional gas tax or Measure A sales tax, typical sources of ongoing maintenance, are included with this project.

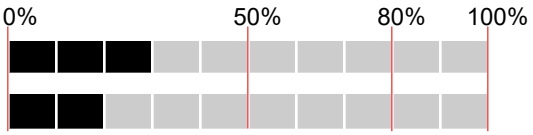
Project Name STOCKTON BLVD MULTIMODAL & BUS RAPID TRANSIT

Project Description Stockton Boulevard Multimodal Partnership & Bus Rapid Transit Corridor is located on Stockton Boulevard with limits between Alhambra Boulevard and Florin Road. In partnership with the County and SacRT, the project will provide multi-modal and high-capacity transit improvements on Stockton Boulevard to improve safety, mobility, and accessibility.

Project Objectives The project will construct multi-modal improvements, varying at different segments of the corridor, including lane reductions, bike lanes, widening for share-use bicycle and pedestrian paths, and shared bus/bike lanes including Bus Rapid Transit (BRT). The project will make the corridor safer and protect existing street users, encourage walking, bicycling, and transit use.



Existing Situation Stockton Boulevard is a five-lane arterial connecting the Central City to South Sacramento. Along the corridor some segments have no bike facilities, others the sidewalk is narrow and has an inconsistent tree buffer. Bike lanes are present in the southern segments. SacRT's Route 51 runs along this section.

Operating Budget Impact None.

SECTION – I
City Utilities

INTRODUCTION

The City Utilities Capital Improvement Program (Program) reflects the City's funding strategy for delivering capital improvements to provide and maintain services and facilities for the benefit of the community, safeguarding public health and safety, promoting sustainability, enhancing livability, and expanding economic development throughout the City.

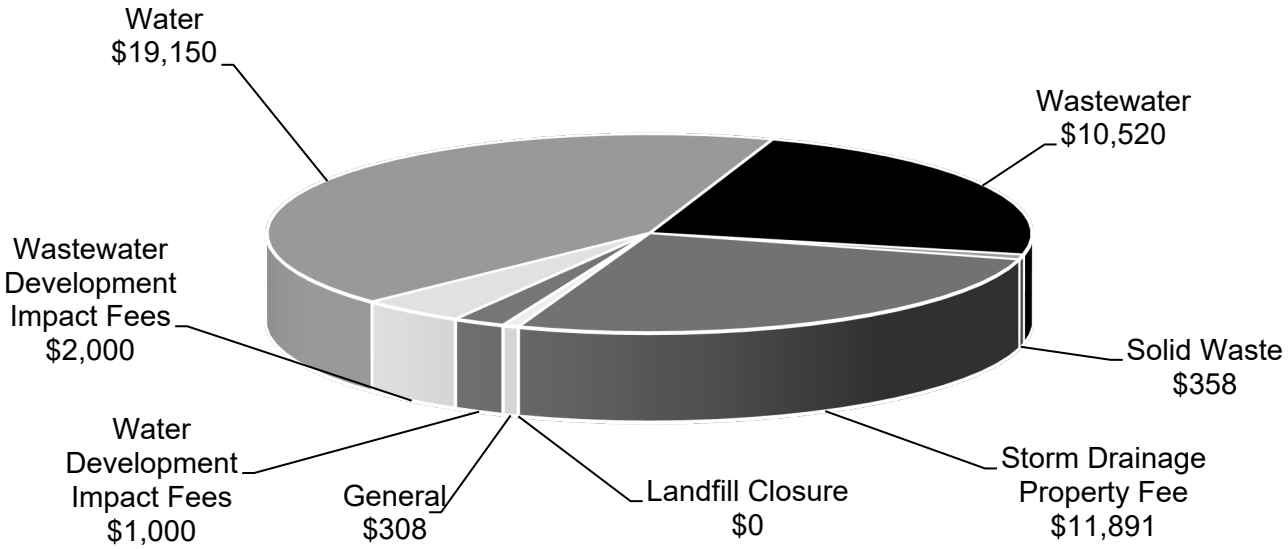
To ensure long-term infrastructure sustainability, this Program utilizes an asset management process to systematically prioritize and rank its rehabilitation and replacement needs based on information collected through various elements such as criticality, condition assessment, master planning, and maintenance history.

This Program is consistent with the *2040 General Plan*.

Program Goals

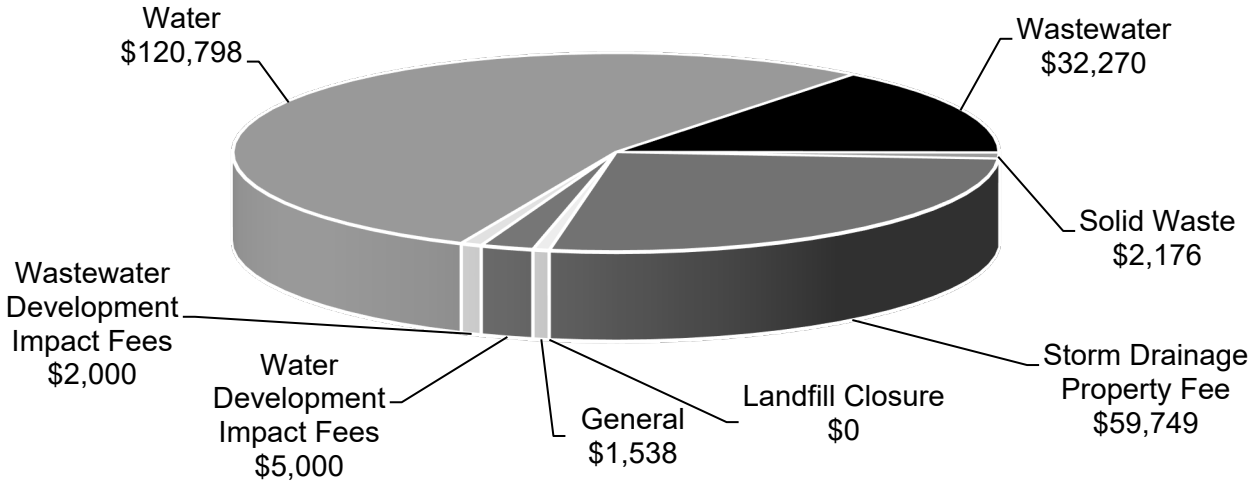
- Comply with all government regulations and legal requirements
- Provide high-quality, safe, and reliable utility systems by delivering services through proactively monitoring and maintaining our assets and reducing system vulnerability
- Plan for current and future generations by protecting, preserving, and enhancing resources, the environment, and the community
- Manage funding by finding alternative funding sources, such as grants or other revenues
- Provide for environmentally sound landfill closure

Ranking Criteria



- Replaces failed infrastructure
- Is mandated by state and federal laws or regulations
- Protects the public by meeting health and safety requirements
- Meets the demands of increased growth
- Improves or reduces ongoing facility operations and maintenance costs

The City Utilities Program is divided into four subprograms:



- Recycling and Solid Waste
- Storm Drainage
- Wastewater
- Water

[1]Funds may be in several program areas and may be found in the other sections of this document.

[2]Projects may have multiple funding sources.

Additional information on funding sources and their restrictions may be found in Description of Major Funding Sources (Section K). All projects receiving funding may be found by referring to Index L. Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index O.

MAJOR PROGRAMS AND PROJECTS

The City Utilities Program includes a variety of projects and programs. The top-funded CIPs during the five-year period are listed below by subprogram.

Water

Water+ Program (Z14190100, $9.6 million)

The Water+ Program will design plans and specifications for the rehabilitation and resiliency of both existing drinking water treatment plants as well as water supply expansion improvements needed due to expected growth. The program is necessary to ensure the City has sufficient water treatment capacity for the future water demands of the City of Sacramento. Long range water demand projections, based on the *2040 General Plan* projections, have identified a shortage of water treatment capacity around 2035. Expansion efforts will primarily be funded by revenues generated from impact fees paid by developers whose projects add to water supply demands.

The Water+ Program also includes resiliency projects interrelated to one another and designs and implements projects to address climate change and reliability. A percentage of these projects will be funded by Impact fees while the majority of the funding will be from rate payers.

Once funding is identified, construction of the Water+ Program projects will be completed in phases. The first of the project elements will be under construction within this five-year period. The Water+ Program is funded by the Water Impact Fees ($5.0 million, Fund 6001) and the Water Ratepayer Revenues ($4.6 million, Fund 6005).

Reservoir Rehabilitation Program (Z14130500, $20.5 million)

The Reservoir Rehabilitation Program will rehabilitate various components at the majority of the City's twelve drinking water storage reservoirs. Many of the reservoirs were constructed in the 1940s through 1960s and need repairs, improvements, and overhauls to keep these critical water system facilities in operation. The proposed projects are supported by asset management condition assessments as well as the Department of Utilities' 2023 Water Supply Master Plan.

Large projects that will be designed and constructed include the following:

- Florin Reservoir Phase 2 – Electrical upgrades, two new pumps, roof repair, security improvements, and HVAC updates.
- Capitol Gateway and City College Reservoirs – Interior and exterior coating.
- Alhambra Reservoir – Electrical replacement.
- Riverside Reservoir – Roof and valve replacements and hatch upgrades.
- Other Reservoir Work – Pump replacements, HVAC improvements, structural repairs and security enhancements across multiple reservoirs.

Wastewater

Combined Sewer System Pipe Program (X14170100, $17.2 million)

The City's Combined Sewer System (CSS) is served by undersized and aging collection pipes that range from six inches to 120 inches pipe diameter, two primary CSS treatment plants, and by two large pump stations, Sumps 1 and 2. The City's operation of the CSS is governed by the Regional Water Quality Control Board through a National Pollutant Discharge Elimination System (NPDES) permit containing a Long-Term Control Plan that guides capacity improvement and rehabilitation projects to meet the CSS long term goals. Replacing worn, failed, or undersized CSS pipes, primary treatment plants and pump stations comply with these goals. Assets are prioritized for replacement based on condition and critical function and the capacity improvement priorities are evaluated under the Combined Master Plan Program. The CSS Pipe Program is funded by the Wastewater Impact Fees ($2.0 million, Fund 6002), Wastewater Ratepayer Revenues ($6.3 million, Fund 6006), and Storm Drainage Property Fees ($8.9 million, Fund 6021).

Wastewater Sump Rehabilitation & Repair Program (X14130900, $11.1 million)

The Wastewater Sump Rehabilitation & Replacement Program will rehabilitate or replace capital assets at wastewater pump stations in the separated sewer basins. The objective of this program is to protect public health and safety by reducing wastewater overflows by ensuring reliable function of the pump stations.

Planned priority pump station improvements for mechanical, electrical, instrumentation, Supervisory Control and Data Acquisition (SCADA), and site/civil components are identified through condition assessments and operation and maintenance constraints identified by field staff.

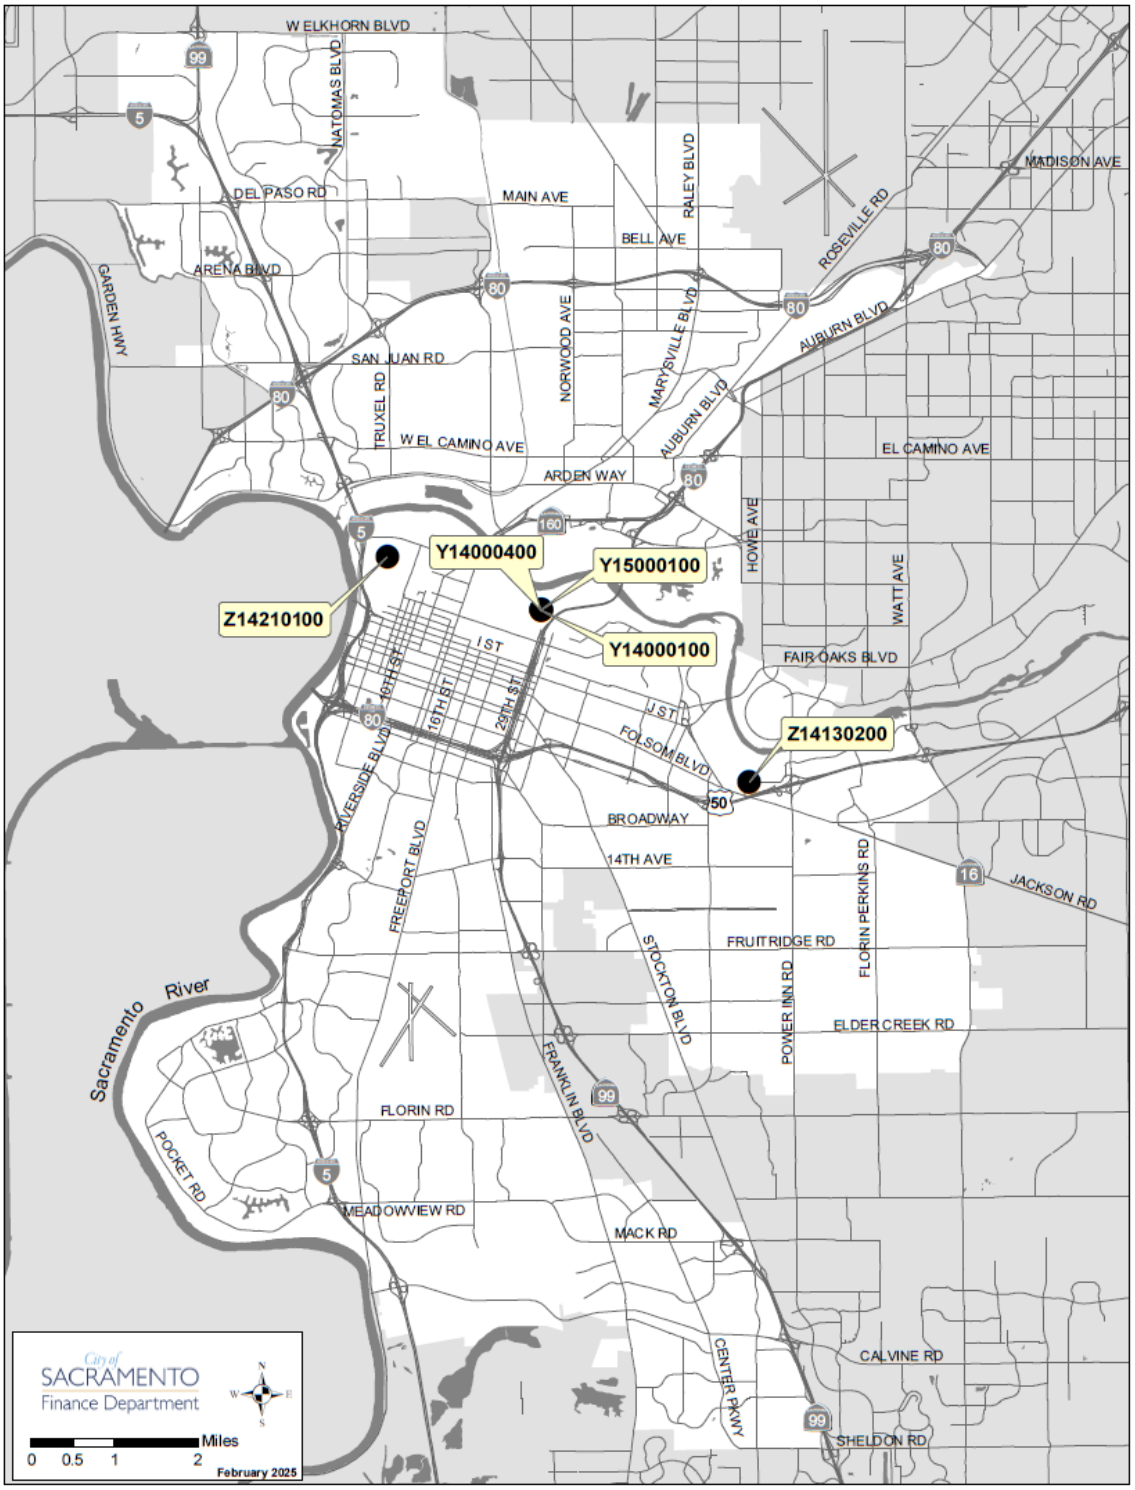
The largest planned project includes the replacement of all components of Sump 85 and relocating the station to a new location that eliminates existing constraints including: limited access issues to the station impacting personnel safety and response times, aging equipment, confined space access issues to the wet well, lack of bypass pumping capability, and station outage duration of only one hour where risk of sanitary overflows increases the longer the station is out of service.

Recycling and Solid Waste

Closed City Landfills Program (Y15100000, $15.6 million)

The City currently manages the post-closure maintenance and improvements for multiple landfill sites. The program ensures closed city landfills are in compliance with requirements from the Regional Water Quality Control Board (RWQCB), the Sacramento County Environmental Management Department, The California Code of Regulations, Title 27, and other relevant landfill regulatory requirements.

With multiple landfill closure plans that must adhere to various requirements, this program will allow Recycling and Solid Waste to better manage various regulatory tasks as necessary until the various regulatory agencies agree that certain criteria are met. The Closed City Landfills Program will be funded by the General Fund ($1.7 million, Fund 1001), and the Recycling & Solid Waste Fund ($13.9 million, Fund 6007). Work performed at closed landfills was previously managed as separate parent projects.



Storm Drainage Property Fee

Drainage Facility Electrical Rehabilitation Program (W14230200, $13.3 million)

The City operates and maintains 106 drainage pump stations. Electrical components at drainage pump stations have a useful life of about 30 years. Currently, there are more than 20 pump stations with electrical systems older than 30 years. It is difficult to find replacement parts for these systems, and they often do not meet current safety standards. This program will provide electrical upgrades at up to 15 drainage pump stations and improve backup power systems at an additional 14 stations in the next five years.

FY2026/27 Capital Projects and Programs

Non-site specific or multi-site projects are not shown

Note: Details for the project numbers listed on the map above are provided in alphabetical project order on the following pages.

City of Sacramento

Capital Improvement Program

W14000200

Project Name BASE CIP CONTINGENCY DRAINAGE PROGRAM

Project Description Reserve for unforeseen capital program needs.

Project Objectives Facilitate the completion of capital projects by reserving appropriations for minor overruns and provide a source of funds for small projects that could not be anticipated before the start of the fiscal year.

Existing Situation It is prudent to maintain a capital program reserve, renewed annually as needed, as a source of funding should the need arise to provide additional funding for an existing project due to previously unforeseen conditions.

Operating Budget Impact None.

Project Name DRAINAGE IMPROVEMENT PROGRAM

Project Description This program funds improvement projects in the City's drainage basins. These projects are identified through master planning or condition assessment efforts.

Project Objectives Fund improvement projects in our drainage basins with the goal of meeting City adopted levels of service.

Existing Situation Many of the City's drainage basins underperform during intense storms leading to street flooding and in some cases property damage.

Operating Budget Impact None.

Project Name DRAINAGE COLLECTION SYSTEM REPAIR AND REHABILITATION PROGRAM

Project Description This program will rehabilitate elements of the storm drainage system including storm drains, leads, manholes, and mainline pipe by trenchless and replacement methods.

Project Objectives To protect public health and safety through maintenance of the City's storm drain system including drain inlets, leads, manholes, and mainline pipe through trenchless or traditional replacement means.

Existing Situation The drainage collection system is comprised of various elements that in time become old, deteriorated, and difficult to repair and/or maintain.

Operating Budget Impact None.

Project Name DRAINAGE TRASH CAPTURE PROGRAM

Project Description Design and construction of certified full trash capture devices and/or multi-benefit low impact development features that will prevent trash greater than 5 mm from being discharged to waterways for identified areas (high density residential, commercial, industrial, and mixed use) with litter to meet the requirements of the State Water Resources Control Board's Statewide Trash Provisions.

Project Objectives This project aims to comply with the State Water Resources Control Board's Statewide Trash Provisions mandate to effectively prohibit trash greater than 5 mm from being discharged to waterways from the municipal separate storm sewer system by 2030.

Existing Situation Trash racks have been installed at most of the sump stations or upstream of sump stations to capture large trash from entering the sump station and ending up in protected waterways. At this time, there are no certified full trash capture devices installed and trash measuring greater than 5 mm can be discharged to waterways.

Operating Budget Impact None.

Project Name DRAINAGE FACILITY ELECTRICAL REHABILITATION PROGRAM

Project Description Replace electrical components at various City facilities in the drainage system.

Project Objectives Protect public safety from flooding by improving the reliability of these facilities.

Existing Situation Facility electrical components have a 30-year life. Antiquated components deteriorate and are difficult to repair because this equipment is no longer supported by manufacturers and replacement parts are not available. Additionally, new safety regulations have changed the way these components are used.

Operating Budget Impact None.

Project Name SEWER UNPLANNED REPAIRS PROGRAM

Project Description Provide funds for unanticipated sewer additions, repairs, or replacements in various locations throughout the City.

Project Objectives Provide timely, cost-effective repairs to the sewer collection system by delivering unplanned projects that support other City departments and external agencies, address urgent O&M field-identified needs, and leverage in-house staff and on-call contractors when capacity or urgency requires.

Existing Situation During the year, unanticipated conditions - which include field observations requiring urgent attention, private development activity accelerating needed improvements, and other City department and external agency projects - can necessitate timely capital repairs that must be delivered through the Capital Improvement Program.

Project Name FACILITY ELECTRICAL REHABILITATION PROGRAM

Project Description Replace electrical equipment at various City facilities in the separated and combined sewer systems.

Project Objectives Protect public health and safety by improving the reliability of these facilities.

Existing Situation Existing electrical equipment is deteriorated and antiquated, making repairs difficult due to the lack of available parts. Failure of this equipment can result in wastewater backing up into streets and properties. Not replacing and upgrading electrical equipment impacts progress on the City's climate action plan, sustainability, and energy management goals.

Operating Budget Impact None.

Project Name SEPARATED SEWER PIPE PROGRAM

Project Description Repair, replace, upsize, or install new pipe infrastructure within the separated sewer collection system to address needed rehabilitation and/or capacity improvements.

Project Objectives Protect public health and safety by reducing wastewater overflows by ensuring reliable function of the wastewater system, and to address capacity deficiencies to support growth and existing system demands.

Existing Situation Various wastewater mains either lack sufficient capacity or are in poor condition causing excessive maintenance and impaired service, including wastewater overflows.

Operating Budget Impact None.

Project Name CSS SUMP/TREATMENT FACILITIES PROGRAM

Project Description Combined Sewer System (CSS) pumping, storage, and treatment facilities need maintenance and improvements to stay in compliance with operational and regulatory requirements.

Project Objectives Protect public health and safety, minimize flooding and outflows, and comply with regulatory requirements through improvements and repairs to the CSS pumping, storage, and treatment facilities.

Existing Situation Pump, storage, and treatment facilities are critical to the operations of the CSS. Proper maintenance of these assets is critical for compliance with National Pollutant Discharge Elimination System (NPDES) permit and level of service goals.

Capital Improvement Program

Y14000100

Project Name **LANDFILL SITE CLOSURE PROGRAM**

Project Description California law requires that funding be set aside each year to ensure that there will be sufficient resources to cover future closure activities. The current budgets to pay for landfill maintenance and improvements are spread out over multiple Capital Improvement Projects (CIPs). The funding for this program will be moved to the new parent program, Closed City Landfills Program (Y15100000), which will oversee all post-closure landfill maintenance work. Moving all existing funds under one parent CIP would allow RSW staff to more easily manage funds and track expenses.

Project Objectives Keep the closed City landfill in compliance with the approved final closure/post-closure plan.

Existing Situation Landfill closure has been completed; however, annual funds must be provided for post-closure maintenance.

Operating Budget Impact None.

		As of 2/2026

Capital Improvement Program

Y14000400

Project Name **GROUNDWATER REMEDIATION PROGRAM**

Project Description State-mandated financial obligations for the landfill's groundwater corrective action program require owners of solid waste facilities to establish financial assurance to cover any reasonably foreseeable release into the groundwater. The current budgets to pay for landfill maintenance and improvements are spread out over multiple Capital Improvement Projects (CIPs). The funding for this program will be moved to the new parent program, Closed City Landfills Program (Y15100000), which will oversee all post-closure landfill maintenance work. Moving all existing funds under one parent CIP would allow RSW staff to more easily manage funds and track expenses.

Project Objectives Satisfy state-mandated financial assurance requirements for California Health and Safety Code Title 23, Articles 5 and 10. Control/mitigate groundwater contamination beneath the City's landfill.

Existing Situation The existing landfill has affected the shallow groundwater aquifer directly under the site. Documented releases were described in the June 1987 Solid Waste Assessment Test Report.

Operating Budget Impact None.

		As of 2/2026

Project Name **DELLAR LANDFILL CLOSURE PROGRAM**

Project Description Closure of the landfill site located directly west of the 28th Street Landfill. The current budgets to pay for landfill maintenance and improvements are spread out over multiple Capital Improvement Projects (CIPs). The funding for this program will be moved to the new parent program, Closed City Landfills Program (Y15100000), which will oversee all post-closure landfill maintenance work. Moving all existing funds under one parent CIP would allow RSW staff to more easily manage funds and track expenses.

Project Objectives Complete closure plan, grade the site to drain, and commence post-closure monitoring. Compliance measures include installing gas collection piping and fitting, staking and drilling extraction wells, and installing condensate traps.

Existing Situation This is a landfill with exposed rubble that cannot be closed until all mandated closure activities have been completed per the Regional Water Quality Control Board's corrective action notice.

Operating Budget Impact None.

Project Name **28TH STREET LANDFILL REGULATORY COMPLIANCE UPGRADES PROGRAM**

Project Description Comply with the Regional Water Quality Control Board (RWQCB), approved closure/post-closure plan, corrective actions for the RWQCB's clean up and abatement order, and new requirements from the Sacramento County Environmental Management Department. The current budgets to pay for landfill maintenance and improvements are spread out over multiple Capital Improvement Projects (CIPs). The funding for this program will be moved to the new parent program, Closed City Landfills Program (Y15100000), which will oversee all post-closure landfill maintenance work. Moving all existing funds under one parent CIP would allow RSW staff to more easily manage funds and track expenses.

Project Objectives Continue to respond to new regulatory requirements from the Sacramento County Environmental Management Department, the RWQCB, and other landfill-related regulatory agencies.

Existing Situation The 28th Street Landfill will be under regulatory review for the near future until the various regulatory agencies agree that certain criteria are met.

Operating Budget Impact None.

Project Name BELL MARINE LANDFILL CLOSURE PROGRAM

Project Description Closure of landfill site located directly west of the 28th Street Landfill and Sutter's Landing Corporation Yard. The current budgets to pay for landfill maintenance and improvements are spread out over multiple Capital Improvement Projects (CIPs). The funding for this program will be moved to the new parent program, Closed City Landfills Program (Y15100000), which will oversee all post-closure landfill maintenance work. Moving all existing funds under one parent CIP would allow RSW staff to more easily manage funds and track expenses.

Project Objectives To comply with the Local Enforcement Agency (LEA) requirements to further investigate the nature and extent of waste in the landfilled areas of Bell Marine, followed by a complete closure plan, grade site to drain, and commence post-closure monitoring.

Existing Situation The exact mitigation required is still to be determined. The City, however, is responsible for 75% of the closure costs, as defined in Settlement Agreement 2019-0240 with Bell Marine Company.

Operating Budget Impact None.

Project Name INFORMATION TECHNOLOGY - SCADA PROGRAM

Project Description This program funds the maintenance and improvements of the Supervisory Control and Data Acquisition (SCADA) system as defined in the SCADA master plan.

Project Objectives Provide improvements per the SCADA master plan and maintenance of the SCADA system that have been deemed essential and critical and are used by Operations to remotely control and monitor the facilities and equipment for the Water, Wastewater, and Storm Drainage infrastructure.

Existing Situation The SCADA master plan has identified vulnerabilities within the City's system, which include but are not limited to, cybersecurity, outdated core network configuration, and non-supported controllers which cannot be updated.

Operating Budget Impact None.

Project Name UNPLANNED CORRECTIVE MAINTENANCE WATER PROGRAM

Project Description Correct and repair unexpected critical failures within the City's water infrastructure. Build projects that were unforeseen during the previous budget cycle but are critical to implement.

Project Objectives Enable repairs needed to continue operating efficiently.

Existing Situation Due to the size, age, and condition of the City's infrastructure, unplanned failures occur. This program provides funding to respond to those events.

Operating Budget Impact None.

Project Name RESIDENTIAL WATER METERING PRO

Project Description The City of Sacramento (City) contracted with A. Teichert & Sons, Inc. dba Teichert Waterworks (Teichert) to construct seven separate public works of improvement as part of the City's Accelerated Water Meter Project (AWMP).

Project Objectives The City Attorney's Office will remain actively involved in the prosecution of this case, but the assistance of Murphy Austin in this litigation is crucial to put the City in the best position to succeed.

Existing Situation The City has identified and confirmed the existence of non-compliant and deficient work performed by Teichert on the AWMP. The City and Teichert have engaged in mediation, but there is a possibility that this matter may result in litigation.

Project Name **WELL REHABILITATION PROGRAM**

Project Description Rehabilitate and replace dilapidated infrastructure at the City potable groundwater facilities. Meet current State of California regulations related to water quality.M onitoring capabilities may be required and other work associated with the groundwater well program.

Project Objectives Maintain City's water supply reliability and groundwater extraction capability. A reliable groundwater supply will optimize conjunctive management of the City's water supply and will allow the City to participate in future drought banking programs and water transfers.

Existing Situation Most groundwater wells in the City were constructed in the 1950s, and require extensive rehabilitation or repairs on the mechanical equipment, electrical switchgear, and well casings. Failing wells require replacement wells to be constructed and the existing wells to be abandoned. Addition of treatment to existing well sites is also explored where feasible.

Operating Budget Impact None.

Project Name TRANSMISSION MAIN REHABILITATION PROGRAM

Project Description Replace existing water transmission mains (pipes larger than twelve-inch diameter) that have failed beyond repair and have created significant leaks and maintenance issues.

Project Objectives Ensure the reliability of the water system and reduce potential damage from transmission main breaks.

Existing Situation This pipeline replacement program replaces water transmission mains that have exceeded their useful lives. Older mains typically require additional maintenance, reduce system reliability, and no longer meet City standards.

Operating Budget Impact None.

Project Name **DISTRIBUTION MAIN REHABILITATION PROGRAM**

Project Description Replace water distribution mains (pipes twelve-inch in diameter or smaller) appurtenances and associated work with the distribution system that have exceeded their useful life.

Project Objectives Improve water distribution system reliability and meet water system levels of service.

Existing Situation Cast iron mains and asbestos cement pipe within downtown/midtown are over 100 years old, have reduced pipe capacity, do not meet fire flow standards in some areas, and are susceptible to leaks. Many are in need of replacement to meet capacity levels and service criteria.

Operating Budget Impact None.

Project Name RESERVOIR REHABILITATION PROGRAM

Project Description Rehabilitation work at water reservoirs, including booster pump stations, which may include patching interior and exterior coatings, improvements to cathodic protection systems, pump and motor improvements, electrical upgrades, structural repairs, etc.

Project Objectives Improve the water system reliability and extend useful lives of the City's reservoirs.

Existing Situation Reservoirs range in age from several years old to just under one hundred years old, and the booster pump stations range in age from several years old to just over fifty years old. These assets require upgrades and modifications to comply with regulatory requirements.

Project Name SECURITY AND EMERGENCY PREPARATION PROGRAM

Project Description Provide security improvements to key Water, Drainage, and Wastewater facilities as recommended in the Department of Utilities (DOU) Security Master Plan.

Project Objectives Implement the DOU Security Master Plan recommendations, as accepted by City Council in September 2014.

Existing Situation A security evaluation was completed by consultants in 2013 that provided a comprehensive road map to bring the Department of Utilities' security up to best management practices, including recommendations for fixing potential security vulnerabilities.

Operating Budget Impact None.

Project Name WATER+ PROGRAM

Project Description Design and construct improvement projects and specifications for the development of necessary water supply expansion needed due to expected growth as well as resiliency projects for the City's water supply and facilities. Provide sustainable, reliable, and sufficient water treatment capacity for the existing and future needs of the City of Sacramento.

Project Objectives Ensure the City has sufficient and resilient water treatment capacity for the future water demands of the City of Sacramento.

Existing Situation Long range water demand projections, based on 2040 General Plan projections, have identified a potential shortage of water treatment capacity.

City of Sacramento

Capital Improvement Program

Z14260100

Project Name **UTILITY BILLING SYSTEM PROGRAM**

Project Description This program is designed to support the City's need to manage, upgrade, or implement a utility billing system to meet the City's operational requirements. This program aims to provide improved functionality, better integration with other city systems, more user-friendly interface for both staff and customers, and training for staff as needed.

Project Objectives Enhance the efficiency and accuracy of utility billing operations. Improve customer satisfaction, reduce billing errors, and streamline the billing process.

Existing Situation The current Utility Billing System is Oracle CCB, deployed on premises and managed and maintained by the City IT. It generates $30 million of revenue monthly, with over 150,000 customer accounts. CCB manages the City's water, wastewater, drainage services, garbage, recycling, green waste, and street sweeping services, as well as wastewater services outside the city in the Sacramento Area Sewer District.

Operating Budget Impact None.

		As of 2/2026						
Fund	**Fund Description**	**Budget**	**Unobligated**	**2026/27**	**2027/28**	**2028/29**	**2029/30**	**2030/31**

SECTION – J
Unfunded Capital Needs

INTRODUCTION

Unfunded capital needs refer to projects identified in approved City policy documents as needed or desired where funding is currently unavailable to complete the project. The Capital Improvement Plan classifies unfunded capital needs into three categories:

- Category A – Unfunded Deferred Maintenance
- Category B – Unfunded New Assets
- Category C – Major Projects Outside the CIP

Category A - Unfunded Deferred Maintenance consists of necessary maintenance and repairs to ensure City facilities and assets are in operational condition as well as replacement of existing assets that are at the end of their useful life and can no longer be repaired.

Category B - Unfunded New Assets refer to capital projects and other capital asset purchases related to external forces such as population growth, changing industry standards, and new regulatory requirements adopted by the State or federal government. These kinds of unfunded needs are necessary to maintain regulatory compliance and to continue delivering services at acceptable levels to City residents.

Category C - Major Projects Outside the CIP refers to capital needs beyond the five-year time horizon of the CIP. Cost estimates for these projects may not be available or may be highly uncertain. Category C is included for information only, and financial data for Category C projects are not included in CIP totals.

This report conveys the City's unfunded capital needs within the context of the upcoming fiscal year. The unfunded capital needs are analyzed over a five-year period for each of the City's six CIP program areas: General Government; Public Safety; Convention, Culture, and Leisure; Parks and Recreation; Transportation; and Utilities.

The five-year CIP totals $512.6 million, including $77.4 million in the General Fund. The fiscal year (FY) 2026/27 CIP budget totals $129.8 million, including $14.2 million in the General Fund. There is a total unfunded capital need of $2 billion from all funding sources, with estimates of $401 million from the General Fund in the 2026-2031 CIP.

The General Funds for total project cost in the following table were determined based on actual budget allocations. General Government is approximately 24% General Fund reliant; Public Safety is 100% General Fund reliant; Parks and Recreation is approximately 1% General Fund reliant; Transportation is 4% General Fund reliant; and Utilities is estimated at 2% General Fund reliant.

The following tables summarize the unfunded needs identified during the development of the 2026-2031 Proposed CIP and beyond, in addition to the current funding allocated for existing projects or programs in the 2026-2031 CIP. Further analysis and refinement of these estimates would be required before funding is requested to address specific unfunded needs.

Unfunded Capital Needs		
Category	**All Funds**	**General Fund**
Category A	$1,469,975,610	$110,988,931
Category B	$523,694,076	$290,476,979
Category C	$8,096,813,070	$797,949,131
Total	**$10,090,482,755**	**$1,199,415,041**

Funded Capital Allocations for Existing Projects		
Funding Year	**All Funds**	**General Fund**
FY2026/27	$129,750,835	$14,209,898
5-Year Total	$512,644,833	$77,380,378

Category A – Unfunded Deferred Maintenance

The numbers included in the table below represent best estimates of how much deferred maintenance priorities could be delivered in the next five fiscal years if sufficient funding were identified. Further breakdown of the data is below by program area.

Program Area	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
General Government	$9,546,680	$24,940,830	$20,688,510	$12,112,130	$7,775,790	$75,063,940
Public Safety	$7,200,000	$9,000,000	$9,000,000	$9,000,000	$9,000,000	$43,200,000
Convention, Culture, & Leisure	$11,500,000	$9,600,000	$4,900,000	$5,000,000	$400,000	$31,400,000
Parks & Recreation	$5,000,000	$5,000,000	$5,000,000	$5,000,000	$5,000,000	$25,000,000
Transportation	$216,185,500	$222,667,625	$233,009,206	$244,012,765	$255,786,573	$1,171,661,670
City Utilities	$22,300,000	$22,800,000	$31,050,000	$26,100,000	$21,400,000	$123,650,000
Total	**$271,732,180**	**$294,008,455**	**$303,647,716**	**$301,224,895**	**$299,362,363**	**$1,469,975,610**

Category B – Unfunded New Assets

The numbers in the table below represent best estimates of capital projects and purchases associated with new assets that could be delivered in the next five fiscal years if sufficient funding were identified. Further breakdowns of the data are included below by program area.

Program Area	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
General Government	$34,321,800	$31,034,200	$31,518,300	$31,087,700	$108,903,500	$236,865,500
Public Safety	$20,540,000	$22,040,000	$25,040,000	$27,040,000	$40,000	$94,700,000
Convention, Culture, & Leisure	$3,000,000	$14,200,000	$0	$0	$0	$17,200,000
Parks & Recreation	$0	$0	$0	$0	$0	$0
Transportation	$2,510,000	$3,272,450	$4,037,522	$4,805,398	$5,576,276	$20,201,646
City Utilities	$27,804,455	$27,550,000	$28,300,000	$26,800,000	$44,272,475	$154,726,930
Total	**$88,176,255**	**$98,096,650**	**$88,895,822**	**$89,733,098**	**$158,792,251**	**$523,694,076**

Category C – Major Long-Term Projects

The projects and cost estimates listed in each program area section represent best estimates of capital needs beyond the five-year forecast to maintain existing assets in acceptable condition and acquire new assets to meet service delivery needs. These are priorities that cannot be

delivered within the next five fiscal years, and cost estimates may be unavailable or highly uncertain. Financial information associated with these projects is not included in CIP totals.

Program Area	Cost Beyond 5-Year CIP
General Government	$229,000,000
Public Safety	$572,600,000
Convention, Culture, & Leisure	$20,500,000
Parks & Recreation	$87,800,000
Transportation	$5,186,000,000
City Utilities	$2,000,913,070
Total	**$8,096,813,070**

General Government – Section D

The General Government Program is divided into the following major subprograms:

- City Facilities, which manages over 600 public buildings and supports maintenance, operations, and capital improvements throughout the City;
- Fleet Management, which manages approximately 2,700 vehicles and assets;
- Information Technology, which support City staff and operations; and
- Libraries

The table below summarizes the current backlog for General Government that could be delivered at the departments' current staffing levels if funding were available. The five-year total for all service areas in this category is $75.1 million. For an itemized list of projects for this category, refer to page J-17 at the end of this section.

Category A – Unfunded Deferred Maintenance

General Government	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
City Facilities	$4,286,680	$16,494,830	$11,916,510	$2,364,130	$2,050,660	$37,112,810
Community Improvements	$1,500,000	$1,500,000	$1,500,000	$1,500,000	$1,500,000	$7,500,000
Fleet Management	$1,250,000	$1,550,000	$1,850,000	$2,000,000	$2,250,000	$8,900,000
Information Technology	$2,510,000	$5,396,000	$5,422,000	$6,248,000	$1,975,130	$21,551,130
Grand Total	**$9,546,680**	**$24,940,830**	**$20,688,510**	**$12,112,130**	**$7,775,790**	**$75,063,940**

City Facilities and Libraries:

The City oversees more than 600 public buildings, covering over 3.8 million square feet of building space, along with associated grounds and parking lots. These facilities, dating from 1870 to the present, serve a wide variety of functions, including administrative offices, community centers, fire and police stations, museums, the Sacramento Valley train station, the animal shelter, and libraries. Additionally, there are unused properties that require ongoing holding costs, further diverting funds from preventive maintenance efforts. Each facility requires regular upkeep to maintain essential systems such as electrical, mechanical, HVAC, plumbing,

and roofing, as well as building elements like painting and the maintenance of surrounding grounds and parking lots.

In FY2017/18, a Facility Conditions Assessment was conducted for approximately 200 of the City's buildings. The Facilities Division is currently working on updating its 16-year-old asset management system to better track the vast number of facility elements, providing a clearer understanding of overall needs. To provide a clearer picture of deferred maintenance needs, costs from the original assessment have been adjusted to reflect current values, supplemented with more recent data where available. However, the assessment does not account for costs related to facility replacement, expansion, or upgrades to meet modern operational demands.

The City allocates $2.5 million annually to address deferred maintenance for General Fund facilities through the City Facility Reinvestment Program. This funding is primarily used for emergency repairs or critical system failures. While it helps manage urgent repairs, it is insufficient for addressing larger infrastructure needs. For instance, replacing the aging HVAC systems at 300 Richards Boulevard and the Public Safety Administration Building is estimated to cost between $3 and $5 million for each facility.

Staffing constraints also hamper the City's ability to tackle deferred maintenance projects, even with additional funding. The Facilities Division currently operates with about 30 fewer staff members compared to 16 years ago, as staffing levels were never fully restored following recession-driven reductions.

Fleet Management:
Due to resource constraints, the City does not replace all vehicles that are recommended for replacement according to industry standards. Due to funding constraints, there is a $49 million backlog for FY2026/27 in vehicles not scheduled for replacement that warrant it based on the City's replacement criteria. In addition, to comply with the City's current Fleet Sustainability Policy, which requires replacement of light duty vehicles with electric vehicles unless not possible to meet operational needs, there is an additional increasing cost of over $1 million annually increasing by five percent every year.

Information Technology:
Firewall Maintenance – The City's network is secured by six firewalls. The firewalls prevent bad actors/hackers from accessing the City's sensitive data and secure both inbound and outbound traffic as well as help segment traffic within the City's network. The City's firewalls filter 45,000 connections from unauthorized users attempting to access the city's network while allowing 800 secure remote telecommute connections daily. The firewalls are essential to both the City's and Public Safety's daily operation. Technical support service is renewed every three years. Additional funding will be needed in FY2029/30 in the amount of $800,000 to continue technical support for the City's network.

Fiber Network Maintenance – a Funding for ongoing maintenance will provide the necessary resources needed to maintain and expand the fiber optic infrastructure that is needed to connect remote facilities and industrial assets. It allows the City to operate more efficiently by reducing

telecommunication carrier dependency, commute times, and response time for repairs. By not supporting this program, the City would not have the ability to connect remote facilities such as fire stations, community centers, and pump stations to the City's fiber network. These facilities will be required to pay for digital internet services that over time will cost the city more. The cost to maintain the fiber network is $50,000 per year.

The City's Finance and Personnel System (eCAPS) was implemented beginning in 2006 and is approaching end-of-life and will need to be replaced and migrated to a modern cloud-based Enterprise Resource Planning (ERP) solution. Replacing eCAPS will be a complex multi-year initiative requiring dedicated staff resources, executive sponsorship, and sustained financial investment. The City has conducted a business value assessment to evaluate costs and benefits. Estimated costs include approximately $850,000 for a cloud readiness assessment, business process mapping, and procurement activities; $15,000,000 in one-time implementation services and software acquisition; and approximately $1,000,000 in ongoing annual maintenance and support, in addition to current maintenance costs. The one-time implementation estimate includes IT staffing backfill to ensure existing staff can focus on the design, configuration, and deployment of the new cloud system without disrupting ongoing operations.

Network and Wi-Fi Hardware Lifecycle Replacement – Funding is needed to support the planned lifecycle replacement of its core network and wireless infrastructure. While the current hardware remains operational, industry best practices and manufacturer guidance recommend replacing core switches, routers, and wireless access points on a regular cycle of approximately every five to 10 years. This proactive approach ensures continued performance, security, compatibility, and vendor support. Routine lifecycle replacement reduces the risk of unexpected failures, security vulnerabilities, and costly emergency procurements. It also ensures the network can support evolving technological needs, including cloud services, public safety systems, digital government platforms, and an increasingly mobile workforce.

The table below summarizes the current future needs for General Government programs that could be delivered over the next five-years at the departments' current staffing levels if funding were available. The five-year total for all service areas in this category is $236.9 million. For an itemized list of projects for this category, refer to page J-18 at the end of this section.

Category B – Unfunded New Assets

General Government	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
City Facilities	$4,288,400	$1,970,500	$2,618,300	$2,187,700	$80,003,500	$91,068,400
Community Improvements	$300,000	$300,000	$300,000	$300,000	$300,000	$1,500,000
Fleet Management	$28,300,000	$28,300,000	$28,300,000	$28,300,000	$28,300,000	$141,500,000
Parking	$1,133,400	$163,700	$0	$0	$0	$1,297,100
Street Improvements	$300,000	$300,000	$300,000	$300,000	$300,000	$1,500,000
Grand Total	**$34,321,800**	**$31,034,200**	**$31,518,300**	**$31,087,700**	**$108,903,500**	**$236,865,500**

Replacement of Aged City Facilities:
Many of the City's facilities and libraries are outdated and will eventually require replacement. The City has not conducted any assessment of these costs, but it would easily be in the hundreds of millions of dollars.

New Facilities and Properties:
The City continues to bring on new facilities and property without any dedicated funding for ongoing maintenance and repair. In the last few years, the City has added two new fire stations, which will require ongoing maintenance as well as care for closed former stations. The City purchased 102 acres in Meadowview for future use; this lot requires ongoing weed abatement, security services, and access to the site, an annual cost in excess of $300,000 in maintenance costs alone. The property will also require ongoing maintenance when it is fully developed.

The City also maintains 200 sleeping cabins on the property at 3900 Roseville Road, which is being used as a facility to serve persons experiencing homelessness.

City Facility Initiatives:
The City currently has about 279 EV charging handles, with 186 being publicly accessible. There are plans to install more than 100 additional charging handles in the next two years to service fleet needs for electric vehicle infrastructure. Ongoing maintenance and replacement costs are estimated at about $750,000 currently to upgrade and repair existing chargers, and about $250,000 per year ongoing.

In order to accommodate the planned new electric fleet vehicles (light duty fleet) that are planned for purchase over the next five years, additional electric charging infrastructure is needed, which also involves electrical supply upgrades at several locations. The City was able to get federal and state funding to support this, but there remains about a $1 million annual deficit in ongoing maintenance and repair costs. This does not include infrastructure needs associated with the Advanced Clean Fleet regulations that are discussed in the next section.

Category C – Major long-term projects that cannot be completed in five years and need to be addressed or funded in out years.

- Facilities and Libraries $100 million
- Advanced Clean Fleet SMUD Implementation $129 million

Facilities and libraries:
The current level of deferred maintenance backlog is estimated at over $100 million, without including replacements or sustainability upgrades. Many facilities are outdated and would benefit from replacement, including the animal shelter, South Area corporation yard, some fire stations, libraries, and other facilities. No assessment has been made to prioritize these needs or provide cost estimates.

Fleet: Implementation of the new state-mandated Advanced Clean Fleet (ACF) regulations will require major expenditures for vehicles and complete transformation of supportive infrastructure to implement replacements of medium and heavy-duty fleet vehicles with electric or zero emission options. The City is currently working with SMUD on a general assessment of needs for vehicle replacements and supportive infrastructure needs, although the future costs of vehicles in most cases are not yet determined, as medium and heavy-duty electric models are not yet generally widely available. Currently, electric versions of medium and heavy-duty vehicles, when available, are usually 50% to 90% more in cost than current vehicles. In addition, to serve these vehicles, massive investments in new electric services and electric charging facilities will be needed, as well as backup generators to address power outages, and upgrades to the City's fleet shops. Electric vehicles, particularly larger trucks, require new equipment, safety controls, and electric shock and fire prevention. Total City costs for compliance with this new regulation are still being estimated.

The California Air Resources Board (CARB) adopted the Advanced Clean Fleet (ACF) regulations that require local governments to purchase zero emission vehicles for their medium and heavy-duty fleets. These new regulations did not include any associated funding to implement these requirements. The City asked SMUD to analyze SMUD's ability to provide necessary electrical capacity for new infrastructure, and to provide a preliminary estimate of costs for fleet replacement and new charging infrastructure to comply with ACF. In its initial review, excluding locations where SMUD considers it infeasible to provide the increased electrical needs and assuming there are adequate and available zero emission vehicle options, SMUD estimates at least $64 million in vehicle costs, $45 million in infrastructure costs, and at least $20 million in Fleet shop upgrades would be required. It is more likely that an entirely new Fleet shop would need to be constructed for the City to be able to service medium and heavy-duty electric vehicles.

Public Safety – Section E

The Public Safety Program reflects the City's efforts to provide and replace body worn cameras, police safety equipment, ambulances, fire vehicles, fire safety equipment, and generators for public safety facilities. There are 24 Fire Stations, four Police stations, and a combined total of over 400 vehicles and equipment.

The table below summarizes the current backlog for Public Safety that could be delivered at the departments' current staffing levels if funding were available. The five-year total for all service areas in this category is $43.2 million. For an itemized list of projects for this category, refer to page J-19 at the end of this section.

Category A – Unfunded Deferred Maintenance

Public Safety	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
Police	$1,200,000	$3,000,000	$3,000,000	$3,000,000	$3,000,000	$13,200,000
Fire	$6,000,000	$6,000,000	$6,000,000	$6,000,000	$6,000,000	$30,000,000
Grand Total	**$7,200,000**	**$9,000,000**	**$9,000,000**	**$9,000,000**	**$9,000,000**	**$43,200,000**

Based on the facility assessment conducted by the Department of Public Works, replacement of the HVAC systems at the Public Safety buildings and Police Stations is needed. The HVAC systems have exceeded the life span of the units and need to be replaced.

The Fire Department would need an additional $6.0 million per year in order to maintain and complete the necessary deferred maintenance projects at the fire stations. Based on a deferred maintenance study conducted in 2017 by CannonDesign, only a few projects from the study have been completed and the list of deferred maintenance continues to grow as our infrastructure continues to age.

The table below summarizes the current future needs for Public Safety programs that could be delivered over the next five-years at the departments' current staffing levels if funding were available. The five-year total for all service areas in this category is $94.7 million. For an itemized list of projects for this category, refer to page J-20 at the end of this section.

Category B – Unfunded New Assets

Public Safety	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
Police	$500,000	$0	$0	$0	$0	$500,000
Fire	$20,040,000	$22,040,000	$25,040,000	$27,040,000	$40,000	$94,200,000
Grand Total	**$20,540,000**	**$22,040,000**	**$25,040,000**	**$27,040,000**	**$40,000**	**$94,700,000**

The Police Department needs to replace and add lockers at the North and South Commands. Existing lockers no longer have the functional capacity to accommodate officers' needs. When the lockers were originally purchased, some as old as 1989, SPD officers weren't required to carry the tools/equipment that officers are required to carry and store today. Locker sizes also vary, with officers being assigned two to accommodate officer equipment and clothing. Additionally, some lockers are broken or have missing parts, such as shelves, hooks, or bars. The Fire Department's unfunded capital needs include mechanical and electrical work needed at Fire Station 14 and 15, new Fire Station for Delta Shores Station, and rebuilds for Fire Station 56, 57, and 60.

Category C – Major long-term projects that cannot be completed in five years and need to be addressed or funded in out years.

- New South Station Facility $40 million
- Fire Station Rebuilds (4) $110 million
- New development fire stations (Railyards & West End) (2) $55 million
- Electric Vehicles and updating infrastructure need for fire stations $97.6 million
- Ambulance and Apparatus Replacements $270 million

Convention, Culture, and Leisure – Section F

The Convention, Culture, and Leisure Program promotes and preserves the City's unique cultural heritage by delivering accessible arts, leisure, and educational experiences to enrich

people's lives and enhance the metropolitan area. There are six golf courses, Old Sacramento Historic District, the Marina, and the Sacramento Zoo.

The table below summarizes the current backlog for Convention, Culture, and Leisure that could be delivered at the department's current staffing levels if funding were available. The five-year total for all service areas in this category is $31.4 million. For an itemized list of projects for this category, refer to page J-20 at the end of this section.

Category A – Unfunded Deferred Maintenance

Convention, Culture, & Leisure	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
Building Improvements	$11,100,000	$9,200,000	$4,500,000	$4,600,000	$0	$29,400,000
Marina	$400,000	$400,000	$400,000	$400,000	$400,000	$2,000,000
Grand Total	**$11,500,000**	**$9,600,000**	**$4,900,000**	**$5,000,000**	**$400,000**	**$31,400,000**

Old Sacramento – Waterfront Reinvestment Program:
Old Sacramento has approximately $26 million in unfunded rehabilitation projects. Currently, the Old Sacramento dock replacement is estimated at about $4.6 million, outstanding repairs to the former site of Rio City Café are estimated at about $2 million, K-Street Barge is estimated at about $7.2 million, public market rehabilitation at $4.5 million, and the wooden sidewalk replacement at $7.1 million. While funding was received from the State through AB157 to benefit riverfront safety and pedestrian access, many of the projects of this program remain unfunded.

History Museum Roof and Mechanical Equipment:
The roof and mechanical system at the History Museum have exceeded their useful life. Replacement of both systems is critical and is expected to cost approximately $4 million.

Marina:
The Sacramento Marina is an aging facility. No assessment of deferred maintenance on this facility has been completed as all funding generated by the Marina is used to cover operations and debt service for the costs to build the South Basin 20 years ago; however, it should be noted this is an aging structure with docks, ramps, and facilities that are exposed to water and weather impacts. Ongoing $400,000 funding would aid in the deferred maintenance of the marina.

The table below summarizes the current future needs for Convention, Culture, and Leisure programs that could be delivered over the next five-years at the departments' current staffing levels if funding were available. The five-year total in this category is $17.2 million. For an itemized list of projects for this category, refer to page J-20 at the end of this section.

Category B – Unfunded New Assets

Convention, Culture, & Leisure	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
Building Improvements	$3,000,000	$14,200,000	$0	$0	$0	$17,200,000
Grand Total	**$3,000,000**	**$14,200,000**	**$0**	**$0**	**$0**	**$17,200,000**

Old Sacramento – Waterfront Reinvestment Program:
As an alternative to renovating the Public Market Buildings, a new construction alternative is expected to cost $17.2 million.

Category C – Major long-term projects that cannot be completed in five years and need to be addressed or funded in out years.

- SAFE Credit Union Performing Arts Center Multi-Purpose Room shell buildout. This is an unfinished portion of the theater remodel which was originally intended to be a black box theater or multipurpose space - $5 million
- SAFE Credit Union Convention Center Cold Shell buildout – There is an unfinished section of the Convention Center which has the potential to be built out for a variety of potential uses including either a concessionaire space or leasable space for potential revenue opportunities. - $2 million.
- New shared use site for the Center for Sacramento History (CSH) and Sacramento History Museum facility. CSH houses the City's historical archives and artifacts as well as an extensive collection of film, photos and other media, all of which are irreplaceable. The current facility is below the flood plain and at risk sustaining substantial damage to both the building as well as the historic collections. The Sacramento History Museum, managed by the Sacramento History Alliance (SHA), provides the public destination for the public to learn about Sacramento's history and to engage with the collections from CSH. In 2025, the City and SHA agreed to jointly explore, plan for and pursue development of a co-located facility. The cost of this project is unknown at this point.

Parks and Recreation – Section G

The Parks and Recreation Program provides residents with significant personal, social, environmental, and economic benefits. Developing and rehabilitating existing parks and facilities, with a focus on park safety and sustainability, is a high priority for the City. The City manages over 230 parks with a wide range of amenities, including sports fields and courts, picnic areas and playgrounds, dog parks, community gardens, amphitheaters, as well as other supportive features.

The table below summarizes the current deferred maintenance backlog for Parks and Recreation.

Category A – Unfunded Deferred Maintenance

Parks and Recreation	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
District 1 Park Improvements	$625,000	$625,000	$625,000	$625,000	$625,000	$3,125,000
District 2 Park Improvements	$625,000	$625,000	$625,000	$625,000	$625,000	$3,125,000
District 3 Park Improvements	$625,000	$625,000	$625,000	$625,000	$625,000	$3,125,000
District 4 Park Improvements	$625,000	$625,000	$625,000	$625,000	$625,000	$3,125,000
District 5 Park Improvements	$625,000	$625,000	$625,000	$625,000	$625,000	$3,125,000
District 6 Park Improvements	$625,000	$625,000	$625,000	$625,000	$625,000	$3,125,000
District 7 Park Improvements	$625,000	$625,000	$625,000	$625,000	$625,000	$3,125,000
District 8 Park Improvements	$625,000	$625,000	$625,000	$625,000	$625,000	$3,125,000
Grand Total	**$5,000,000**	**$5,000,000**	**$5,000,000**	**$5,000,000**	**$5,000,000**	**$25,000,000**

An example of unfunded high-priority projects include repairs at Del Paso Regional Park, Niños Park, Bertha Henschel Park, James Mangan Park, Earl Warren Park, Regency Park, and Grant Park. The current ongoing parks deferred maintenance listing totals $112.8 million and deferred maintenance for pools citywide is approximately $10.4 million. Current staffing levels could address approximately $5.0 million in repair and replacement needs per fiscal year per funding availability.

Category B – Unfunded New Assets

The department has not determined any other capital asset purchases related to external forces. Any compliance-related improvements are included in the Deferred Maintenance Listing in Category A.

Category C – Major long-term projects that cannot be completed in five years and need to be addressed or funded in out years.

- District 1 Park Improvements – $2.9 million
- District 2 Park Improvements – $14.1 million
- District 3 Park Improvements – $8.7 million
- District 4 Park Improvements – $11.6 million
- District 5 Park Improvements – $7.0 million
- District 6 Park Improvements – $11.2 million
- District 7 Park Improvements – $23.6 million
- District 8 Park Improvements – $8.7 million

Transportation – Section H

The City's transportation program area network serves millions of trips annually in all forms of travel with extensive assets that require ongoing maintenance, repairs, and operations. The City has over 3,100 lanes mile of roadways, roughly 80 miles of off-street shared use paths, 250 miles of on-street bike lanes,10 miles of separated bikeways, and 350 miles of on-street bikeways, 250 road and bicycle-pedestrian bridges, and 618 acres of streetscapes in 64 assessment districts. The City also manages and maintains over 800 traffic signals, 42,000 streetlights, and 150,000 traffic signs, as well as fiber conduit and other technologies.

The table below summarizes the current backlog for the City's Transportation section that could be delivered at the department's current staffing levels if funding were available. The five-year total for all service areas in this category is $1.2 billion. For an itemized list of projects for this category, refer to page J-20 at the end of this section.

Category A - Unfunded Deferred Maintenance

Transportation	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
Bikeways	$4,483,000	$1,390,000	$1,487,300	$1,591,411	$1,702,810	$10,654,521
Traffic Operations & Safety	$58,500,000	$58,500,000	$58,500,000	$58,500,000	$58,500,000	$292,500,000
Street Maintenance	$151,702,500	$161,277,625	$171,521,906	$182,421,354	$194,083,763	$861,007,149
Parking	$1,500,000	$1,500,000	$1,500,000	$1,500,000	$1,500,000	$7,500,000
Grand Total	**$216,185,500**	**$222,667,625**	**$233,009,206**	**$244,012,765**	**$255,786,573**	**$1,171,661,670**

According to the City's Pavement Conditions Index, the City currently has a $419 million backlog in pavement repairs that is increasing exponentially. The City dedicates an estimated $14 million annually to roadway rehabilitation, so it would require an additional $136 million annually over the next 10 years to bring the roadways into a state of good repair. At current funding levels, the backlog is estimated to reach over $1.2 billion in ten years.

There are over 250 bridges over rivers and canals in the City. Wherever possible, the City applies through the federal highway bridge program for most of the funding to replace structurally deficient roadway bridges. Preventative maintenance for remaining bridges is estimated at over $30 million, not including the I Street Bridge project where the City is currently seeking replacement funds. Unfunded maintenance for pedestrian/bicycle bridges is estimated at about $2 million per year.

The City's traffic signals and equipment were installed and developed over many decades. The need for repairs includes aging controller cabinets and components, interconnect and wiring, poles, detection failures, battery back-up systems, and central equipment. The current backlog to bring the entire system into best practice is at least $250 million.

The City has over 150,000 traffic signs with poles as well as markings (e.g., striping in streets and curbs). Preventative maintenance standards call for replacement or repair on a 10-year life cycle. The City has about $30 million in arrears on meeting this standard.

The City has over 42,000 streetlights, many of them many decades or even one hundred years old. Improvements require standard repairs and bulb replacements, retrofitting to LED bulbs to meet current City standards, and significant aged underground electrical conduit. Deferred maintenance is estimated at $8.5 million annually.

The City maintains 618 acres of streetscapes in medians and adjacent to roadways, which require ongoing maintenance, trash and weed removal, and irrigation repairs and upgrades. With current ongoing funding, there is approximately $1 million in shortfall annually, with costs increasing about five percent annually. The City is implementing retrofits to drought tolerant landscaping where it is feasible to reduce water use costs and mowing expenses.

The City maintains over 100,000 trees. After tree establishment which requires at least annual attention (estimated three years), best practices for tree health and to address potential hazards are a recommended pruning cycle of five to seven years. The City currently needs about $1.5 million in additional funding to achieve this goal.

The City has a program that allows for the temporary closure of alleys with installation of gates or sometimes bollards. There is not adequate funding for ongoing maintenance, repair, and replacement of these gates, which comes to about $100,000 a year.

The City's parking garages are aging and require ongoing maintenance, including elevator repairs, equipment, and repainting. Current unfunded levels for maintenance are approximately $1.5 million per year, without addressing major equipment replacements or major rehabilitation.

The table below summarizes the current future needs for the Transportation programs that could be delivered over the next five-years at the departments' current staffing levels if funding were available. The five-year total in this category is $20.2 million. For an itemized list of projects for this category, refer to page J-21 at the end of this section.

Category B – Unfunded New Assets

Transportation	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
Bikeways	$535,000	$572,450	$612,522	$655,398	$701,276	$3,076,646
Traffic Operations & Safety	$225,000	$300,000	$375,000	$450,000	$525,000	$1,875,000
Street Maintenance	$1,750,000	$2,400,000	$3,050,000	$3,700,000	$4,350,000	$15,250,000
Parking	$0	$0	$0	$0	$0	$0
Grand Total	**$2,510,000**	**$3,272,450**	**$4,037,522**	**$4,805,398**	**$5,576,276**	**$20,201,646**

As the City grows, new transportation infrastructure, such as new roadways, traffic signals, streetlights, streetscapes (landscaping, trees, irrigation), bike trails, etc., is added to the City and requires ongoing maintenance. Major new areas anticipated include completion of Northlake, and development in the Panhandle, downtown Railyards, and Delta Shores areas, and redevelopment in the River District and 65th Street Planning Area and other infill zones.

In addition, as the City supports increased density and more frequent bus service, roadways are used more heavily resulting in faster deterioration and need for more frequent maintenance, and the additional bikeways and walkways, traffic equipment, and lighting will require ongoing maintenance and repairs.

Category C – Major long-term projects that cannot be completed in five years and need to be addressed or funded in out years.

As stated earlier, roadway maintenance is an ongoing underfunded need, estimated to require an additional $136 million annually for the next ten years to bring it to a state of good repair. If the City could reach this goal, ongoing annual maintenance costs could then be reduced.

As an old City, many of the City's curb ramps, crossings, and traffic signal equipment were constructed prior to accessibility requirements and these require reconstruction to meet accessibility standards. The City dedicates an equivalent of 20% of its local transportation funds to addressing accessibility requirements. Despite this ongoing investment, there are still tens to hundreds of millions of dollars in unmet needs.

The City's parking garages are aging and have over $50 million in deferred maintenance based on the last assessment.

In addition to maintenance of existing transportation assets, the City has adopted plans that include over $5 billion in unfunded new transportation infrastructure.

There are significant neighborhoods throughout the City that lack streetlights. The City currently has no funding source dedicated to providing new streetlighting in unserved existing areas so there are no identified means of providing this service, which would exceed hundreds of millions of dollars.

City Utilities – Section I

The City Utilities Capital Improvement Program supports projects in four service areas including Recycling and Solid Waste, Storm Drainage, Wastewater, and Water. The City Utilities Program is devoted to regulatory compliance, the improvement, rehabilitation, and replacement of the utility infrastructure, improvements for development-related projects, and ongoing facility-related issues.

The table below, Category A – Unfunded Deferred Maintenance Projects, summarizes the current backlog for City Utilities that could be delivered at the departments' current staffing levels if funding was available. The five-year total for all service areas in this category is $123.7 million. For an itemized list of projects for this category, refer to page J-21 at the end of this section.

Category A – Unfunded Deferred Maintenance

City Utilities	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
Drainage	$7,000,000	$6,750,000	$9,500,000	$9,750,000	$11,250,000	$44,250,000
Wastewater	$1,000,000	$1,750,000	$7,250,000	$9,350,000	$3,150,000	$22,500,000
Water	$14,300,000	$14,300,000	$14,300,000	$7,000,000	$7,000,000	$56,900,000
Grand Total	**$22,300,000**	**$22,800,000**	**$31,050,000**	**$26,100,000**	**$21,400,000**	**$123,650,000**

The City Utilities Capital Improvement Program has 11 major deferred maintenance programs. The Storm Drainage service area includes the Ditch/Channel Repair, the Drainage Sump Rehabilitation/Replacement, and the Drainage Collection System Rehabilitation/Replacement programs. The Wastewater service area includes the Combined Sewer System Pipe, the Combined Sewer System Sump Rehabilitation and Improvement, the Combined Sewer System National Pollutant Discharge Elimination System Permit Compliance, the Separated System Pipe, and the Separated System Sump Rehabilitation and Replacement programs. The Water service area includes the Water Distribution/Transmission Main Replacement; the Water Facilities Electrical Switchgear, Instrumentation and Supervisory Control and Data Acquisition (SCADA); and the Water Supply programs.

The table below, Category B – Unfunded New Assets, summarizes the current future needs for City Utilities programs that could be delivered over the next five-years at the departments' current staffing levels if funding was available. The five-year total for all service areas in this category is $154.7 million. For an itemized list of projects for this category, refer to page J-20 at the end of this section.

Category B – Unfunded New Assets

City Utilities	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
Drainage	$9,900,000	$9,150,000	$9,900,000	$5,100,000	$4,340,000	$38,390,000
Wastewater	$12,304,455	$12,800,000	$12,800,000	$19,200,000	$38,432,475	$95,536,930
Water	$5,600,000	$5,600,000	$5,600,000	$2,500,000	$1,500,000	$20,800,000
Grand Total	**$27,804,455**	**$27,550,000**	**$28,300,000**	**$26,800,000**	**$44,272,475**	**$154,726,930**

The City Utilities Capital Improvement Program has 6 major unfunded projected future needs programs. The Storm Drainage service area includes the Drainage Basin Improvement and the Drainage Facilities Improvement. The Wastewater service area includes the Combined Sewer System Long-Term Control Plan Projects. The Water service area includes the Groundwater Well program.

Category C – Major long-term projects that cannot be completed in 5 years and need to be addressed or funded in out years.

Storm Drainage ($339 million)

- Drainage Pipe Improvement Program $123 million
- Drainage Detention and Channel Improvement Program $61 million
- Drainage Pump Station Improvement Program $155 million

Wastewater ($1.0 billion)

- Combined Sewer System Sump Rehabilitation and Improvement Program $54 million
- Combined Sewer System Treatment Facilities Rehabilitation and Improvement Program $156 million
- Combined Sewer System Pipe Program $148 million
- Combined Sewer System National Pollutant Discharge Elimination System Permit Compliance Program $203 million
- Separated Sewer System Pipe and Sump Rehabilitation and Replacement Program $438 million

Water ($661.5 million)

- Groundwater Well Program $90.8 million
- Water Treatment Plant Rehabilitation Program $315.6 million
- Water Distribution/Transmission Main Replacement Program $255.1 million

General Government - Category A Detailed Project List

Project	Program Area	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
Animal Shelter	Animal Control - Repair/Remodeling	$100,000	$100,000	$100,000	$100,000	$100,000	$500,000
Modular building at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$51,800	$0	$0	$0	$51,800
Tag Machines (3) at the Animal Shelter	Animal Control - Repair/Remodeling	$10,400	$0	$0	$11,080	$0	$21,480
Logitech system and bar at the Animal Shelter	Animal Control - Repair/Remodeling	$5,200	$0	$0	$5,720	$0	$10,920
Storage sheds at the Animal Shelter	Animal Control - Repair/Remodeling	$30,000	$0	$0	$0	$0	$30,000
Pallet jack at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$16,600	$0	$0	$16,600
Commercial washing machine at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$33,200	$0	$0	$33,200
Commercial Dryer at the Animal Shelter	Animal Control - Repair/Remodeling	$15,500	$0	$16,600	$0	$18,400	$50,500
Dishwasher at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$3,970	$0	$4,230	$0	$8,200
Household washer/dryer at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$5,360	$0	$5,720	$0	$11,080
Rekeying the facility at the Animal Shelter	Animal Control - Repair/Remodeling	$10,670	$11,040	$11,410	$11,820	$12,150	$57,090
Surgery Tables (4) at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$27,700	$0	$0	$27,700
Wet Table at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$11,080	$0	$0	$11,080
Surgery Lights (3) at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$25,730	$0	$27,460	$0	$53,190
Anesthesia Machines (11) at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$80,400	$0	$85,800	$0	$166,200
Anesthesia Monitors (4) at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$48,240	$0	$51,480	$0	$99,720
Ultrasonic Cleaner at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$1,180	$0	$1,260	$0	$2,440
Centrifuge at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$0	$1,370	$0	$1,370
Microscope at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$0	$1,260	$0	$1,260
Cautery Machine at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$0	$6,290	$0	$6,290
Ultrasound at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$0	$0	$60,000	$60,000
Portable Ultrasound	Animal Control - Repair/Remodeling	$0	$7,500	$0	$0	$0	$7,500
Radiograph Table at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$0	$28,600	$0	$28,600
Radiograph DR/Plate at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$0	$85,800	$0	$85,800
Radiograph Smart Pacs at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$0	$5,720	$0	$5,720
Dental Radiograph Machine at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$0	$23,570	$0	$23,570
Portable Dental Radiograph	Animal Control - Repair/Remodeling	$6,210	$0	$0	$0	$0	$6,210
Dental Cleaning Unit at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$0	$13,730	$0	$13,730
Refrigerators at the Animal Shelter (7)	Animal Control - Repair/Remodeling	$0	$0	$15,500	$0	$0	$15,500
Dog washing station at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$0	$3,430	$0	$3,430
Garbage hauler at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$2,140	$0	$2,290	$0	$4,430
Hydraulic lift for large deceased animals (3) at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$2,140	$0	$2,290	$0	$4,430
Power Washer at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$1,070	$0	$1,140	$0	$2,210
Eye wash stations (2) at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$1,070	$0	$1,140	$0	$2,210
Drug / money safes at the Animal Shelter (3)	Animal Control - Repair/Remodeling	$0	$0	$0	$22,720	$0	$22,720

2026-2031 Approved Capital Improvement Program

General Government - Category A Detailed Project List (continued)

Project	Program Area	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
Kong Freezer at the Animal Shelter	Animal Control - Repair/Remodeling	$0	$430	$0	$450	$0	$880
Libraries	Community Improvements	$1,000,000	$1,000,000	$1,000,000	$1,000,000	$1,000,000	$5,000,000
Fiber Network Maintenance	Computers/Communications	$50,000	$55,000	$60,000	$65,000	$70,000	$300,000
Firewall Maintenance	Computers/Communications	$0	$0	$0	$800,000	$0	$800,000
City's Finance and Personnel System (eCAPS) Replacement	Computers/Communications	$840,000	$4,500,000	$4,500,000	$4,500,000	$1,000,000	$15,340,000
Contact Center Upgrade (Call Centers)	Computers/Communications	$800,000	$0	$0	$0	$0	$800,000
Network and WiFi Hardware Lifecycle Replacement	Computers/Communications	$820,000	$841,000	$862,000	$883,000	$905,130	$4,311,130
Fleet Replacements (Additional Cost for EV Light Duty Vehicles)	Fleet Management	$1,250,000	$1,550,000	$1,850,000	$2,000,000	$2,250,000	$8,900,000
300 Richards replace HVAC	Repair/Remodeling	$400,000	$0	$3,000,000	$0	$0	$3,400,000
Upgrade conference rooms at 300 Richards Blvd. for teleconference/smart set-up.	Repair/Remodeling	$0	$105,000	$0	$0	$0	$105,000
Electric stair chair for east stairwell at 300 Richards	Repair/Remodeling	$15,000	$0	$0	$0	$0	$3,000
Paving and striping of parking lots at 300 Richards	Repair/Remodeling	$200,000	$0	$0	$0	$0	$200,000
Third floor kitchen/breakroom remodel at 300 Richards	Repair/Remodeling	$114,600	$0	$0	$0	$0	$114,600
Change locks for all doors at 300 Richards Blvd. (conference rooms auto lock and shouldn't)	Repair/Remodeling	$6,420	$6,650	$6,890	$7,140	$7,400	$34,500
Second floor patio retrofit and canopy at 300 Richards	Repair/Remodeling	$15,500	$0	$0	$0	$0	$15,500
Additional window cleaning (every six months) and duct cleaning (five years) at 300 Richards	Repair/Remodeling	$7,180	$2,440	$2,530	$2,620	$2,710	$17,480
Administrative Offices (City Hall, Corp Yard)	Repair/Remodeling	$500,000	$500,000	$500,000	$500,000	$500,000	$2,500,000
Fleet Facilities (Shops)	Repair/Remodeling	$800,000	$800,000	$800,000	$800,000	$800,000	$4,000,000
Community Centers	Community Center	$500,000	$500,000	$500,000	$500,000	$500,000	$2,500,000
Replacement of three refrigerators	Repair/Remodeling	$0	$3,800	$0	$0	$0	$3,800
Replacement of single pane windows with double pane windows or glazing at 300 Richards Blvd public counter	Repair/Remodeling	$0	$160,000	$0	$0	$0	$160,000
Elevators replacement	Repair/Remodeling	$0	$500,000	$0	$0	$0	$500,000
Carpet 20-year replacement	Repair/Remodeling	$0	$124,870	$0	$0	$0	$124,870
Accessibility upgrades, e.g., entrance from street	Repair/Remodeling	$0	$100,000	$125,000	$0	$0	$225,000
Kinney Police Station Roof	Repair/Remodeling	$500,000	$0	$0	$0	$0	$500,000
K-Street Barge Hull Repairs	Repair/Remodeling	$0	$7,200,000	$0	$0	$0	$7,200,000
Old Sacramento dock Replacement	Repair/Remodeling	$0	$6,100,000	$0	$0	$0	$6,100,000
Fire Station Roofs and HVAC	Repair/Remodeling	$300,000	$300,000	$300,000	$300,000	$300,000	**$1,500,000**

Crocker Art Museum, Iron Fencing, exterior façade, Teal Family Pavillion flooring, replace the UPS	Repair/Remodeling	$1,000,000	$0	$6,700,000	$0	$0	$7,700,000
Grand Total		**$9,546,680**	**$24,940,830**	**$20,688,510**	**$12,112,130**	**$7,775,790**	**$75,063,940**

General Government - Category B Detailed Project List

Project	Program Area	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
Digital X-ray	Animal Control - Mechanical/Electrical	$0	$106,100	$0	$0	$0	$106,100
Refrigeration (Dead Box)	Animal Control - Mechanical/Electrical	$0	$106,100	$0	$0	$0	$106,100
Surgical equipment	Animal Control - Mechanical/Electrical	$103,000	$0	$0	$0	$0	$103,000

General Government - Category B Detailed Project List (continued)

Project	Program Area	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
Cat kennels (housing for 150 cats)	Animal Control - Repair/Remodeling	$0	$0	$1,360,700	$0	$0	$1,360,700
New Replacement Animal Shelter	Animal Control - Repair/Remodeling	$0	$0	$0	$0	$80,000,000	$80,000,000
Add Bus Stop	Animal Control - Repair/Remodeling	$0	$0	$32,700	$0	$0	$32,700
Visual Barriers between Kennels	Animal Control - Repair/Remodeling	$200,000	$0	$0	$0	$0	$200,000
Fencing behind I and Q	Animal Control - Repair/Remodeling	$15,500	$0	$0	$0	$0	$15,500
Shade Covering	Animal Control - Repair/Remodeling	$0	$0	$21,200	$0	$0	$21,200
Additional Outdoor Meet/Greet Areas	Animal Control - Repair/Remodeling	$31,800	$0	$0	$0	$0	$31,800
Improved Mammal Housing	Animal Control - Repair/Remodeling	$0	$63,600	$0	$0	$0	$63,600
Improved Lighting	Animal Control - Repair/Remodeling	$250,000	$0	$0	$0	$0	$250,000
Improved Ventilation	Animal Control - Repair/Remodeling	$1,500,000	$0	$0	$0	$0	$1,500,000
Improved Food Storage/Modular	Animal Control - Repair/Remodeling	$360,600	$0	$0	$0	$0	$360,600
Repurpose existing cat housing for puppy/small dogs	Animal Control - Repair/Remodeling	$412,200	$424,700	$0	$0	$0	$836,900
Enclosed Meet/Greet Areas	Animal Control - Repair/Remodeling	$1,000,000	$0	$0	$0	$0	$1,000,000
Expand Surgery Suite	Animal Control - Repair/Remodeling	$309,100	$318,200	$327,400	$0	$0	$954,700
Relocate Cat Housing	Animal Control - Repair/Remodeling	$0	$0	$0	$1,287,000	$0	$1,287,000
Additional Parking Under Freeway	Animal Control - Repair/Remodeling	$0	$848,600	$873,000	$897,300	$0	$2,618,900
3900 Roseville Road	Community Improvements	$300,000	$300,000	$300,000	$300,000	$300,000	$1,500,000
EV Charging Infrastructure maintenance and repairs - Light Duty Vehilces	Fleet Management	$300,000	$300,000	$300,000	$300,000	$300,000	$1,500,000
Medium Heavy Duty Fleet Vehicles Replacement (ACF)	Fleet Management	$13,400,000	$13,400,000	$13,400,000	$13,400,000	$13,400,000	$67,000,000
New EV Fleet Infrastructure- Compliance with ACF	Fleet Management	$9,400,000	$9,400,000	$9,400,000	$9,400,000	$9,400,000	$47,000,000
New EV Infrastructure - Light Duty Vehilces	Fleet Management	$1,000,000	$1,000,000	$1,000,000	$1,000,000	$1,000,000	$5,000,000
Fleet Maintenance Facility Upgrades for ACF	Fleet Management	$4,200,000	$4,200,000	$4,200,000	$4,200,000	$4,200,000	$21,000,000
Bike lockers at 300 Richards large enough for e-bikes, estimate seven	Repair/Remodeling	$6,200	$3,200	$3,300	$3,400	$3,500	$19,600
Additional EV charging stations @ 300 Richards	Parking	$1,133,400	$0	$0	$0	$0	$1,133,400
Paving the west parking lot @ 300 Richards	Parking	$0	$163,700	$0	$0	$0	$163,700
Fire alarm system for modular buildings at Front Street Animal Shelter	Animal Control - Repair/Remodeling	$100,000	$0	$0	$0	$0	$100,000
Paving/Painting for the front and back lot at Front Street Animal Shelter	Animal Control - Repair/Remodeling	$0	$100,000	$0	$0	$0	$100,000
102-Acre Meadowview Log		$300,000	$300,000	$300,000	$300,000	$300,000	**$1,500,000**
Grand Total		**$34,321,800**	**$31,034,200**	**$31,518,300**	**$31,087,700**	**$108,903,500**	**$236,865,500**

Public Safety - Category A Detailed Project List

Project	Program Area	FY2026/27	FY2027/28	FY2028/29	FY2029/30	FY2030/31	5-Year Total
Police Stations/311 Center	Police	$1,200,000	$3,000,000	$3,000,000	$3,000,000	$3,000,000	$13,200,000

SECTION – K
Description of Major Funding Sources

MAJOR FUNDING TYPES

There are four types of funds in the five-year CIP: General, Special Revenue, Capital Projects, and Enterprise & Internal Services. Each type may have restrictions and is described in the following table.

Fund # begins with a…	Fund Type	Fund Type Description/Restrictions
1	General	The City's principal operating fund that is supported by taxes and fees and which, generally, has no restrictions on its use.
2	Special Revenue	Special revenue funds are used to account for activities supported by specific taxes or other revenue sources. These funds are generally required by statute, charter, or ordinance to finance specific governmental programs. Examples include Assessment or Community Facility Districts that provide services, as well as Measure A and other public works funding sources.
3	Capital Projects	Capital projects funds are used to account for resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets. Examples include General Fund bond proceeds, Assessment or Community Facility District bond proceeds, and developer impact fees.
6	Enterprise & Internal Service	Enterprise funds are used to account for self-supporting programs that provide services on a user-fee basis to the general public. Internal service funds are established to account for goods or services provided by one department within the City to other departments on a cost reimbursement basis.

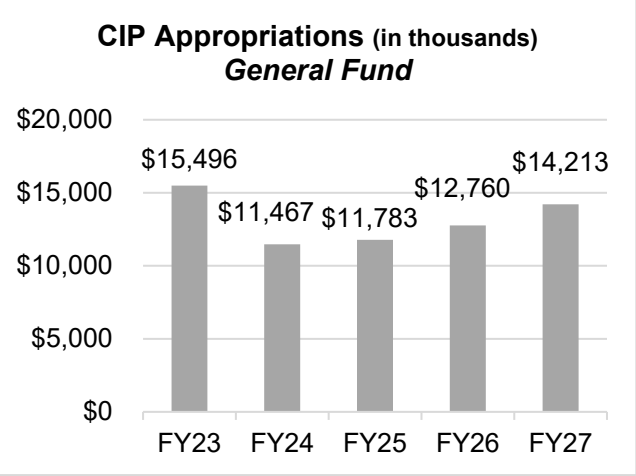
MAJOR FUNDING SOURCES

Three funds provide more than half of the funding for the five-year CIP: the Road Maintenance & Rehabilitation Fund, RMRA (Fund 2036), the Water Fund (Fund 6005), and the Storm Drainage Property Fee Fund (Fund 6021). The Road Maintenance & Rehabilitation Fund will be used for road maintenance and traffic safety activities in the Transportation Corridor Program and Safety Pilot Project Program. The Water Fund provides critical infrastructure repairs for the City’s water infrastructure. The Storm Drainage Property Fee Fund will be used to fund improvements to the City’s aging stormwater system.

DEBT

The Debt Management Policy (Resolution No. 2019-0281) provides the framework for debt issuance to achieve the most effective financing solutions for needed capital improvements. The 2026-2031 CIP does not include the use of any capital debt.

Fund 1001
General Fund



The General Fund is the City's principal governmental operating fund, which supports general government programs including Charter Offices (City Attorney, City Auditor, City Clerk, City Manager, and City Treasurer); City Council; Fire; Police; Youth, Parks, and Community Enrichment; and other support and operating departments. The General Fund revenues include all monies not legally (or by sound financial management) accounted for in another fund. General Fund revenues include property taxes, sales taxes, licenses, permits, fines, forfeitures, penalties, charges for services, and miscellaneous revenues (such as interest).

Restrictions/Legal Mandates

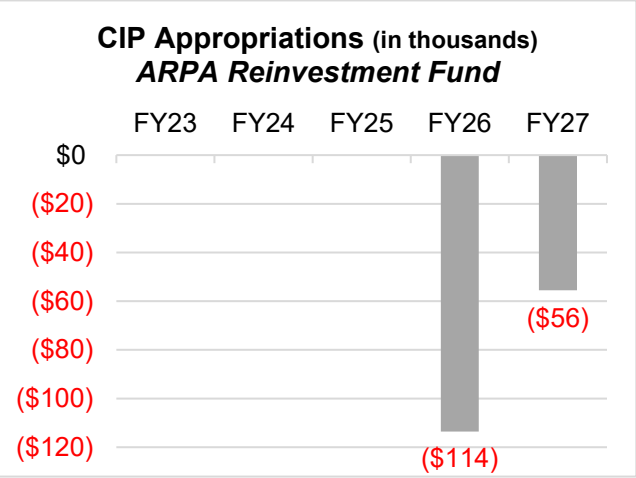
Aside from the 40% appropriation of Cannabis Business Operations Tax for the Sacramento Children Fund (Measure L), General Fund revenues are available for any use as directed by the City Council.

Current and Previous Allocations

The General Fund provides annual funding to various Public Safety Program projects, including the Advanced Life Support Equipment Program (F12000200) and the Fire Apparatus Program (F12000300).

Capital funding budgeted through February 2026: $242,621,581

Fund 1003
American Rescue Plan Act (ARPA) Reinvestment Fund



The American Rescue Plan Act (ARPA) Reinvestment Fund was created in 2021 to address immediate needs related to the COVID-19 pandemic. Federal ARPA funds were identified for federal reporting purposes as revenue replacement for providing government services, and the resulting budgetary savings originally budgeted for those government services were placed into the ARPA Reinvestment Fund. The ARPA Reinvestment Fund was funded on a one-time basis and will be inactivated when the projects and programs it is funding are fully completed.

Restrictions/Legal Mandates

The ARPA Reinvestment Fund is available for any use as directed by the City Council. In September 2021, Council passed Motion No. 2021-0257 establishing a framework for allocating the ARPA Reinvestment Fund. The framework included $28.7 million for small business and commercial corridor revitalization; $41 million for homelessness and housing; $12.3 million for youth, workforce training, and gang prevention programs; $10 million for arts and the creative economy; and $20.3 million for addressing organizational needs.

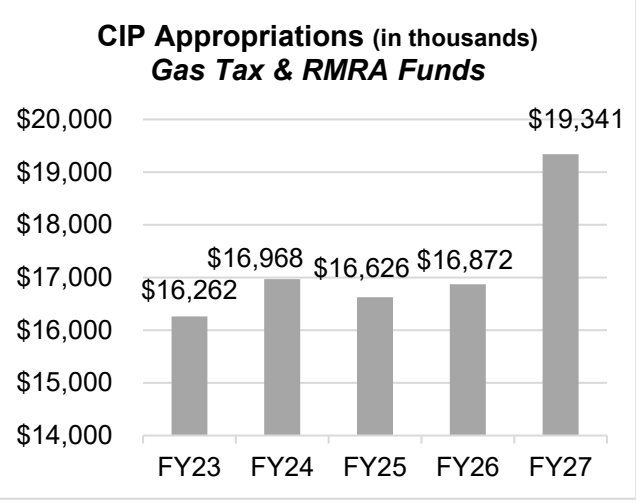
Current and Previous Allocations

The ARPA Reinvestment Fund was fully appropriated according to the Council-adopted framework approved in 2021. For FY2025/26, staff is recommending returning ARPA funds from completed and inactive projects to the General Fund as a one-time budget balancing strategy.

Capital funding budgeted through February 2026: $3,744,874

Funds 2002 and 2036

Gas Tax and Road Maintenance & Rehabilitation Account Funds



Gas Tax and Road Maintenance and Rehabilitation Account (RMRA) Funds largely derive from the City's apportionment of the state excise tax on fuel used to propel a motor vehicle. Senate Bill 1 (SB 1), the Road Repair and Accountability Act, indexed the fuel tax to inflation and increased the fuel tax to establish the RMRA. Effective July 1, 2025, the tax rate on gasoline was increased to $0.612 per gallon, of which $0.457 is allocated through the State's Highway Users Tax Account (HUTA) and used for Gas Tax funding (Fund 2002), and the remaining $0.155 is allocated through the State's Road Maintenance and Rehabilitation Account (RMRA) and used for RMRA funding (Fund 2036). Effective July 1, 2025, the tax rate for diesel fuel was increased to $0.466 per gallon, of which $0.207 is used for Gas Tax funding (Fund 2002), and half of the remaining $0.259 is used for RMRA funding (Fund 2036). RMRA funding is also supplemented by vehicle registration taxes. The California Department of Tax and Fee Administration administers the tax, and the State Controller distributes the revenues from the tax.

Restrictions/Legal Mandates

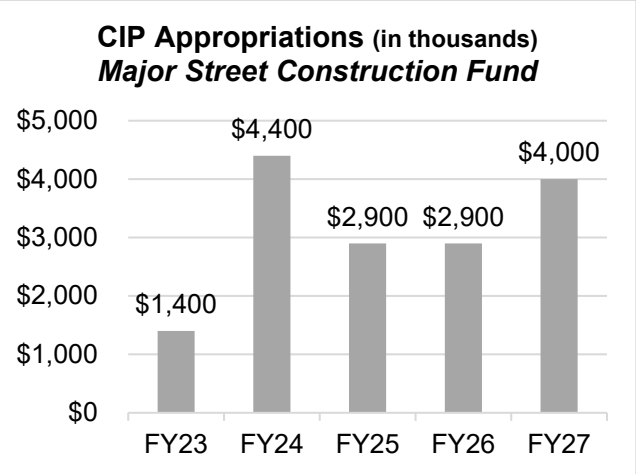
California Streets and Highways Code Sections 2103, 2106, 2107, and 2107.5 limit the use of the gas tax to research, planning, construction, improvement, maintenance, and operation of public streets and highways (and related pedestrian and bike facilities) or public transit guideways. California Streets and Highways Code Section 2030 limits the use of RMRA funding to road maintenance, safety projects, railroad grade separations, complete street components (active transportation, transit, pedestrian & bicycle), and traffic control devices. In order to receive RMRA funds, each local agency must continue to meet a prescribed level of "maintenance of effort," meaning that these funds cannot be used to replace expenditure levels for transportation purposes typically allocated from discretionary funding.

Current and Previous Allocations

Gas Tax funds largely support street maintenance, traffic engineering operations, and traffic safety. Current allocations include the Bridge Maintenance, Traffic Safety Response, Hollow Sidewalk Monitoring, Vision Zero Safety, Transportation Corridor Improvements, Capital Grant Preparation, and Traffic Operations Center Programs. The current allocation of RMRA funds will be used for road maintenance and supportive activities in the Transportation Corridor Program and Safety Pilot Project Program.

Capital funding budgeted through February 2026: $74,954,200

Fund 2007
Major Street Construction Fund



The Major Street Construction Fund derives revenues from a tax imposed by the City in 1978 on all building valuations for new construction or for alterations that add square footage to existing buildings.

Restrictions/Legal Mandates

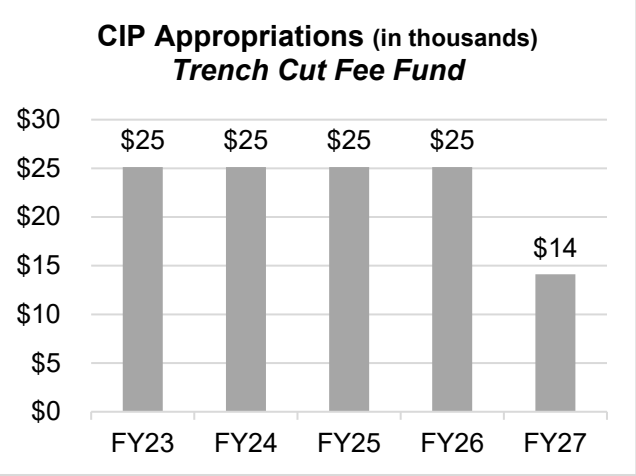
City Code Chapter 3.36 restricts the use of these funds to construction, replacement, or alteration of roadways, bridges, traffic control, and lighting on major streets; use for maintenance and/or operations is not permitted nor is disaster reconstruction.

Current and Previous Allocations

Major street construction funding has been used exclusively for transportation projects, specifically the construction of major street-related improvements. This year, funding will be used to provide matching local funding for federal grants, traffic safety improvements, and accessibility improvements in the right-of-way. In addition, this fund has been used to support private development within specified Finance Plans for construction of roads of more than two lanes.

Capital funding budgeted through February 2026: $27,481,842

Fund 2008
Trench Cut Fee Fund



The Trench Cut Fee Fund accounts for fees collected from utility companies and City departments that cut or trench through city streets. The fee revenues are used to compensate the City for damage caused to the streets by offsetting the cost of future street repairs in the same "geographic area" as the cut that generated the fees. The City has updated this program by requiring more extensive repairs at the time of the street cut or trench, eliminating the need for additional revenue for later repairs. With the change in repair policy, it is anticipated that FY2026/27 will be the last year the Trench Cut Fee Fund will be used for capital improvement projects.

Restrictions/Legal Mandates

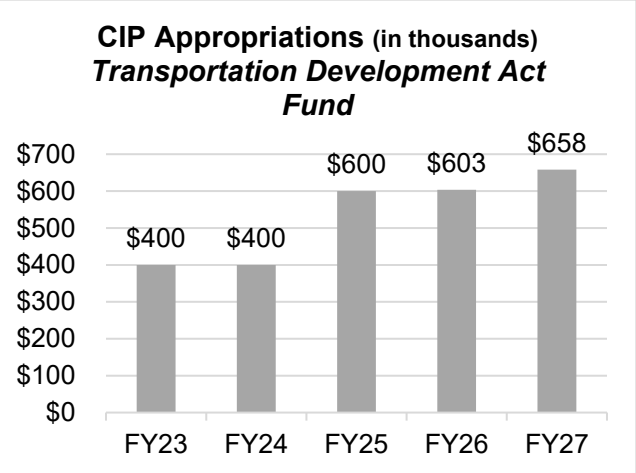
City Code Section 12.12.140 restricts the use of Trench Cut Fee Funds to the same geographic area as the cut or trench that generated the fees.

Current and Previous Allocations

Trench Cut Fee Funds have been used exclusively for street repairs from trenching or cutting into city streets.

Capital funding budgeted through February 2026: $172,932

Fund 2013
Transportation Development Act Fund



The Transportation Development Act (TDA) funds are used to account for receipts and disbursements of money allocated pursuant to the State of California TDA. These funds are allocated by population for transit use. The Sacramento Area Council of Governments (SACOG) administers the funds. The City of Sacramento's allocation is provided to the Sacramento Regional Transit District (SacRT). After administration fees are deducted, up to 2% of the available funds countywide may be set aside to be allocated for pedestrian and bicycle facilities. The City directly receives this 2% share by apportionment from SACOG. Traditionally these funds have been dedicated to bikeway facilities development and upgrades as well as bike trail maintenance.

Restrictions/Legal Mandates

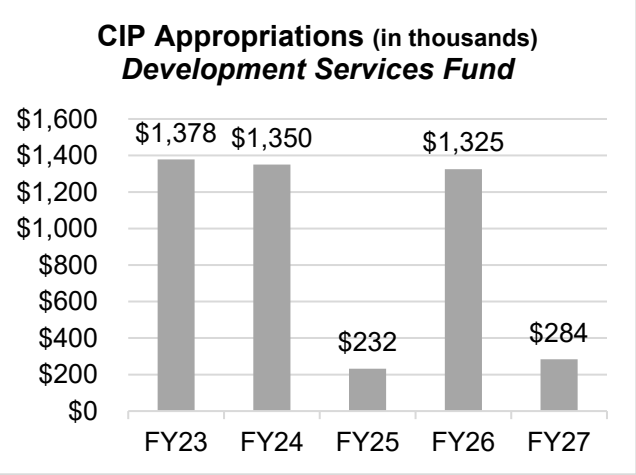
The State of California TDA (Government Code Title III, Division 3, Chapter 2, Article II), restricts these funds to pedestrian and bikeway improvements (2%) or for community transit improvements (administered by SacRT).

Current and Previous Allocations

TDA funds have largely supported the maintenance of off-street bike trails and development of active transportation projects.

Capital funding budgeted through February 2026: $2,216,261

Fund 2016
Development Services Fund



This fund is comprised of developer funds received to account for major plan review and building permit projects, cyclical surplus plan review and building permit revenues, and environmental impact review projects.

Restrictions/Legal Mandates

City Council Resolution No. 99-077 restricted the use of these funds to account for major plan review and building permit projects, cyclical surplus plan review and building permit revenues, and environmental impact review projects. In May 2015, the Development Services Contingency Reserve (DSCR) and Development Services Fund Management Policy was approved with Resolution No. 2015-0123. This established policies and procedures for the Development Services Fund to ensure that funds will be used for the management of development activities and to ensure adequate fund reserves will be available to address revenue shortfalls or an unforeseen recession in development activity.

Current and Previous Allocations

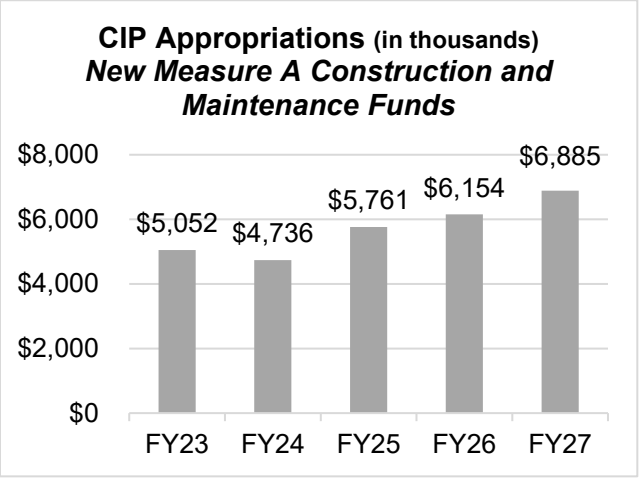
The fund has been used to support development-related initiatives and to advance monies for the General Plan update.

Capital funding budgeted through February 2026: $21,982,082

Funds 2026, 2038, and 2039

New Measure A Project Construction and Maintenance Funds

New Measure A Project Construction and New Measure A Project Maintenance Funds account for revenue generated from a one-half of one percent sales (to each fund) tax beginning April 1, 2009, through March 31, 2039. New Measure A also introduces and incorporates a countywide development impact fee program. Sales tax revenues and development impact fee revenues are allocated annually by percentage to specific programs according to Sacramento Transportation Authority (STA) Ordinance No. STA 04-01.



Restrictions/Legal Mandates

The City is required to enter into an agreement with the Sacramento Transportation Authority (STA) to receive New Measure A funds and expend them exclusively on eligible programs. Local Transportation Authority and Improvement Act (Public Utility Code Division 19, Section 180000, and Revenue and Taxation Code, Section 7252.16) restricts the New Measure A Construction Funds, which has two program components affecting the city:

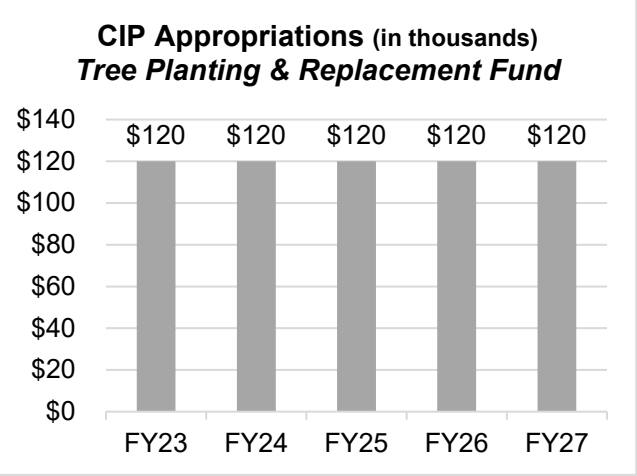
- Traffic Control and Safety (Fund 2038): Traffic control system improvements, high priority pedestrian and vehicle safety projects, and emergency vehicle pre-emption systems)
- Safety, Landscaping, Pedestrian, and Bike Facilities (Fund 2039): Non-motorized, pedestrian, and bicycle safety improvements
- New Measure A Maintenance (Fund 2026) is restricted to the preservation and safety of public streets and road rights-of-way, including road reconstruction and repair, bridge maintenance, streetscape, and lighting maintenance.

Current and Previous Allocations

New Measure A Funds will largely support the ongoing citywide programs, including the Active Transportation Programs, Traffic Safety Programs, Traffic Operations Center Program, and road and bridge maintenance programs.

Capital funding budgeted through February 2026: $30,277,886

Fund 2035
Tree Planting and Replacement Fund



The Tree Planting and Replacement Fund was established by City Ordinance No. 2016-0026 on August 4, 2016, which was enacted for the purpose of the conservation of existing tree resources and to optimize the City's tree canopy coverage. Funding is collected from a fee charged for the loss of City and private protected trees within the City in-lieu of tree replacement, and from associated civil penalties.

Restrictions/Legal Mandates

City Code Section 12.56.060.F mandates that fees collected shall be used only for tree planting (establishing new planting locations and support systems such as the installation of drainage) and preservation programs (creation of new woodland areas, under-plantings as part of a tree planting program, and other planting activities).

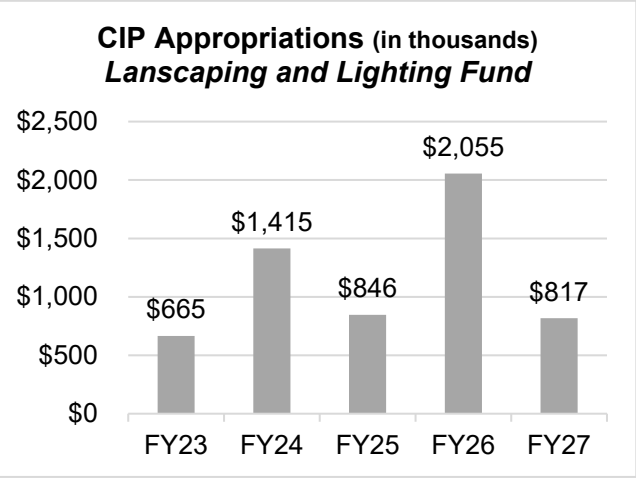
Current and Previous Allocations

Previous Tree Planting and Replacement funding has been deposited to the Tree Planting and Replacement Program (R15188500), and future allocations will also be programmed to this CIP.

Capital funding budgeted through February 2026: $1,348,297

Fund 2232
Landscaping and Lighting District Fund

Established in 1989 in accordance with the Landscaping and Lighting Act of 1972, the Landscaping and Lighting District (L&L) Fund is for revenues generated from a citywide assessment district with assessments based on a series of benefit formulas established in 1989. Assessments are collected on an annual basis with property owners' property taxes. Funds are used for urban forestry operations, safety lighting, median maintenance, parks rehabilitation, street maintenance, and neighborhood lighting maintenance. The Landscaping and Lighting Act of 1972 allows cities, counties, and special districts to levy assessments for land purchase and the construction, operation, and maintenance of parks, tree maintenance, landscaping, lighting, traffic signals, and graffiti abatement.



Restrictions/Legal Mandates

Adopted in 1989 (Resolution No. 89-600), California Streets & Highways Code Section 22500 et seq restricts the funds according to an assessment formula and the established District. Revenues are collected for specific expenditure categories, such as urban forestry, park maintenance, lighting, capital projects, and median maintenance. Funds are available for expenditure within the Community Planning Area originally assessed and should be used within the year allocated.

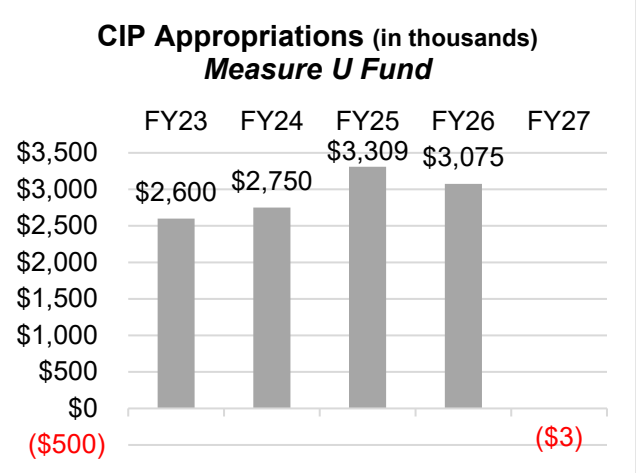
Current and Previous Allocations

L&L funds have largely supported landscaping, rehabilitation of park facilities and structures, lighting, and other park and recreational improvements.

Landscaping and Lighting Bonds of $7.2 million were issued in FY1995/96 to finance capital improvements of parks. The debt service on these bonds is paid from the assessments, which expired after tax year 2016.

Capital funding budgeted through February 2026: $7,914,187

Fund 2401
Measure U Fund



Approved in November 2012, the Essential Service Protection Measure (Measure U) authorized an additional one-half cent transaction and use tax for the City of Sacramento to become effective on April 1, 2013, and to remain effective for six years. In November 2018, Measure U was renewed and expanded to a full cent transaction and use tax for the City of Sacramento effective April 1, 2019.

Restrictions/Legal Mandates

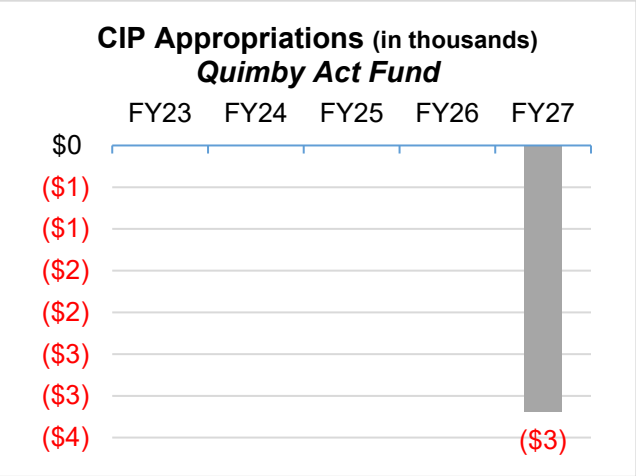
The first half-cent tax of Measure U was designated for the restoration and protection of essential City public safety services, including 911 response, police officers, gang/youth violence prevention, fire protection/emergency medical response, and other essential City services including park maintenance, youth/senior services, and libraries. In 2018, Sacramento voters renewed Measure U as a full one-cent tax. As a general tax, Measure U revenues are available for any use as directed by the City Council. As part of the approved measure, there are independent annual financial audits and a citizen oversight commission.

Current and Previous Allocations

Measure U funds have been allocated to support the Facility ADA Compliance Program (C13000400) and the City Facility Reinvestment Program (C13900000).

Capital funding budgeted through February 2026: $68,078,527

Fund 2508
Quimby Act Fund



The Quimby Act Fund is used to account for fees collected from developers who construct new residential development in-lieu of the developer's land dedication for parks and recreation facilities. The revenues must be used "for the purpose of developing new or rehabilitating existing neighborhood or community parks or recreational facilities to serve the subdivision."

Restrictions/Legal Mandates

Chapter 17.512 of the City Code and California Government Code Section 66477 provides the authority and formula for the dedication or the payment of fees for subdivisions. Funds are restricted to the rehabilitation or new development of parks or recreational facilities that will serve the residential subdivisions that are assessed the fee.

Current and Previous Allocations

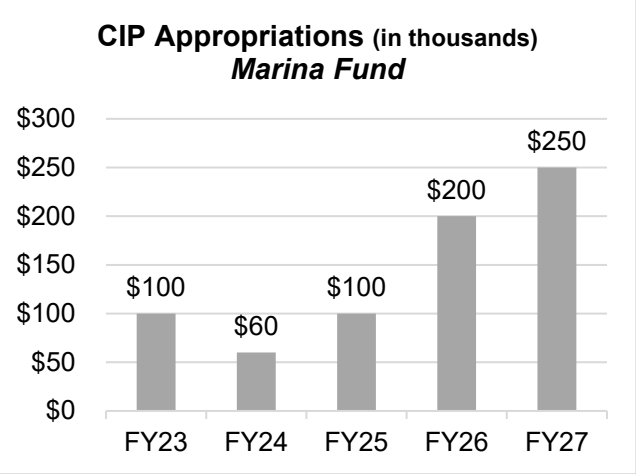
Quimby Act fees have largely supported repair/remodeling projects for parks and recreation. Prior to FY2013/14, funds were allocated by Community Plan Areas. Currently, funds are allocated within the City Council District in which they were collected.

Capital funding budgeted through February 2026: $1,998,158

Fund 2608
Marina Fund

The 475-berth Marina operates as a special revenue fund, and Marina revenues are derived predominantly from berth rental fees, fuel sales, equipment rental, and concession sales at the Sacramento Marina, located on the Sacramento River at Miller Regional Park.

Restrictions/Legal Mandates



In Resolution No. 2013-0156, the Marina Fund was changed from an enterprise fund to a special revenue fund. Special revenue funds are used to account for activities supported by specific taxes or other revenue sources whereas enterprise funds are self-sufficient.

Cities have general authority to impose fees, sometimes called charges or rates, under the city's policy powers as defined by Article XI, Section 7 or Article XIIIB, Section 8 of the California Constitution. There are no specific procedures for fee and rate adoption (Government Code Sections 54954.6 and 66000 et seq.). Funds are restricted for use in Marina operations and capital improvements and may not exceed the estimated reasonable cost of providing services.

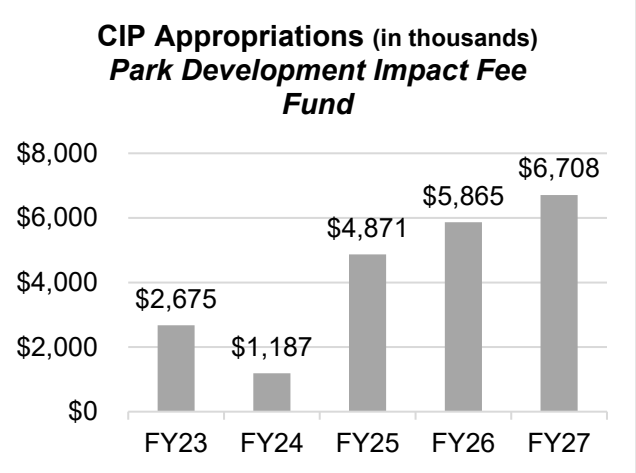
Other restrictions on the availability of this fund include the repayment of the California Division of Boating and Waterways (DBW) loan of $7.65 million for the North Basin Renovation in 1985 and $9 million for the South Basin Renovation in 2005.

Current and Previous Allocations

Marina Funds support Marina operations and capital projects such as docking facility replacement, harbor dredging, and bank stabilization.

Capital funding budgeted through February 2026: $1,021,559

Fund 3204
Park Development Impact Fee Fund



The Park Development Impact Fee is a revenue source approved by City Council in August 1999. This fund is comprised of fees collected from developers at the time a building permit is issued. The revenue must be used to benefit the residents from which the fee was collected. In 2004, an automatic annual adjustment for inflation was added to the ordinance to keep current with increasing construction costs. City Ordinance No. 2013-0017 aligned the ordinance with the 2010 census, the 2040 General Plan, and other chapters of the City Code.

Restrictions/Legal Mandates

City Ordinance No. 2013-0017 restricts funds for recreational and park facilities to serve the residents of the area where the fees were paid.

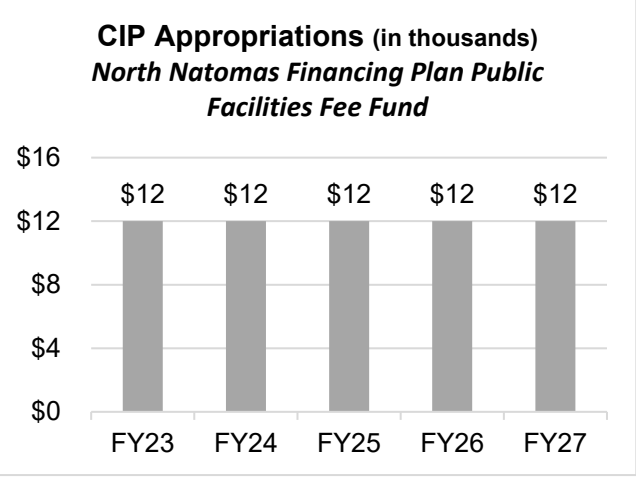
Current and Previous Allocations

The Park Development Impact Fee has largely supported new development and rehabilitation projects for parks and recreation. Prior to FY2013/14, funding was allocated by Community Plan Areas. Funds are now allocated by City Council District.

Capital funding budgeted through February 2026: $30,332,099

Fund 3206
North Natomas Financing Plan Public Facilities Fee Fund

This Public Facility Fee (PFF) was established as the North Natomas Community Improvement Fund with the adoption of the North Natomas Financing Plan (NNFP). The plan was first approved in 1994 and was last updated in 2005.



The PFF area includes the entire North Natomas Community Plan. This PFF will ultimately fund $209.1 million dollars in public improvement facilities. These include a fire station, police sub-station, a community center library, an aquatics center, shuttles, bikeways, freeway improvements, landscaping, major roads, bridges, and signals. Payment of the PFF is required of all private development projects in North Natomas. The impact fee is structured to ensure that basic infrastructure is in place when needed for the development; the cost of major infrastructure is distributed equally among the property owners; and each developer pays a fair-share for necessary infrastructure.

Restrictions/Legal Mandates

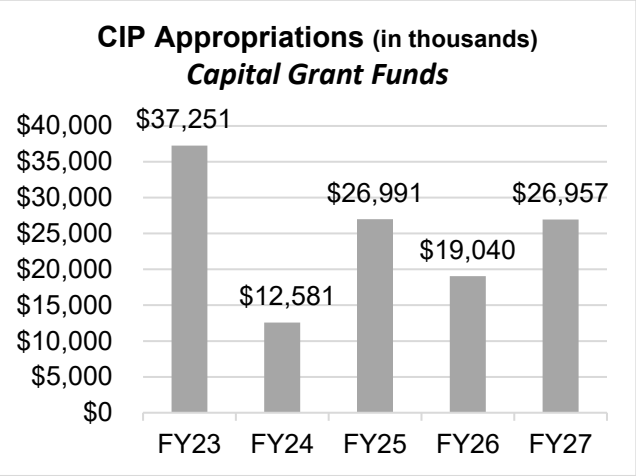
City Ordinance No. 95-058 restricts these funds as specified in the NNFP. Resolution No. 2014-0179, Section 7, established this fund and prior allocations were moved to this fund. The PFF was split into five funds with Resolution No. 2014-0179.

Current and Previous Allocations

This fee has been spent in accordance with the NNFP.

Capital funding budgeted through February 2026: $13,428,078

Funds 3702, 3703, and 3704
Capital Grant Funds



Capital Grant Funds account for various grants received from developers, the state, the federal government, and other agencies that are designated to be used for specific projects or purposes. Each dollar spent must be accounted for and is audited to assure that the monies were spent for the project intended.

Restrictions/Legal Mandates

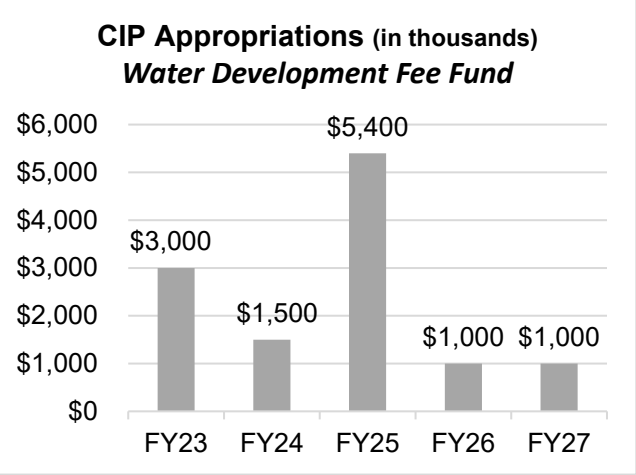
Funds are restricted to the specific project or purpose for which the grant was awarded or as designated in the development agreement. There is no specific ordinance or legislation directing the use of Capital Grants Funds. Granting agencies that allocate funds to the City for capital projects administer any legal or administrative requirements specific to each grant.

Current and Previous Allocations

Capital Grants Funds have largely supported transportation improvement projects, as well as parks and utilities projects.

Capital funding budgeted through February 2026: $277,116,459

Fund 6001
Water Development Fee Fund



The Water Development Fee Fund is used to recover capital costs of the City's new water diversion, treatment, storage, and transmission facilities to support new development. Revenues are generated from impact fees paid by developers and others whose projects add to the demand on the water production and delivery systems.

Restrictions/Legal Mandates

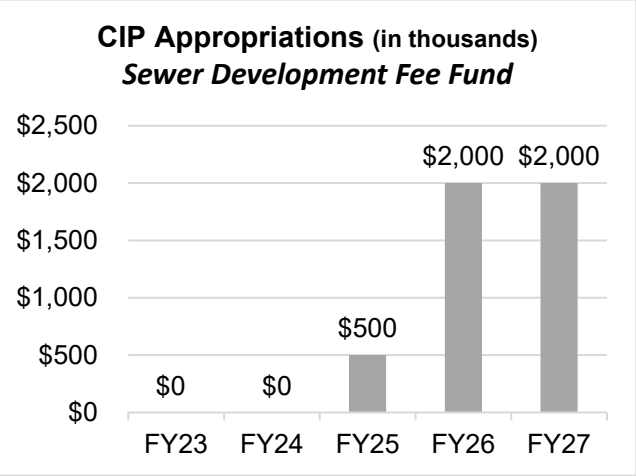
Cities have general authority to impose fees, sometimes called charges or rates, under the City's policy powers as defined by Article XI, Section 7 or Article XIIIB, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (e.g., Government Code Sections 53755 and 66013, City Code Sections 13.08.480 and 13.08.500). Impact fees (i.e. connection fees for water utilities) received into the Water Development Fee Fund are collected on projects that mitigate the impact of additional demand on the water production or water distribution systems.

Current and Previous Allocations

Water development fees have supported projects to increase the production or improvement of the water supply and associated infrastructure.

Capital funding budgeted through February 2026: $24,532,447

Fund 6002
Sewer Development Fee Fund



The Sewer Development Impact Fund is used to recover an appropriate share of the capital costs of the City's existing or new sewer system facilities or the city's existing or new combined sewer system facilities. Revenues are generated from fees paid by developers and others whose projects add to the demand on sanitary sewer or combined sewer collection systems.

Restrictions/Legal Mandates

Cities have the general authority to impose fees, sometimes called charges or rates, under the City's policy powers as defined by Article XI, Section 7 or Article IIIB, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (e.g., Government Code Sections 53755 and 66013, City Code Sections 13.08.480 and 13.08.500). Fees collected into the Sewer Development Impact Fund must be used on projects that mitigate the impact of additional demand on the sanitary sewer or combined sewer systems.

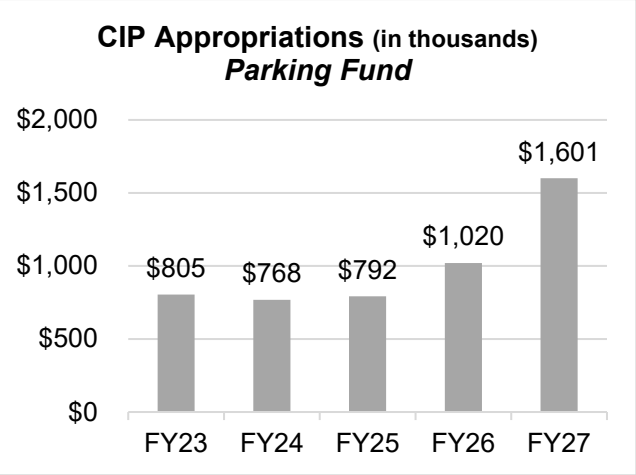
Current and Previous Allocations

Sewer Development Impact Funds have been used on projects to improve the sanitary and combined sewer systems.

Capital funding budgeted through February 2026: $2,707,809

Fund 6004
Parking Fund

The Parking Fund provides for the operation, maintenance, and improvements of City-owned parking facilities. Parking Fund revenues are from parking and retail lease charges within off-street parking facilities. These revenues are then used to pay for parking facility operations, capital improvements, and new facility development.



Restrictions/Legal Mandates

Cities have general authority to impose fees, sometimes called charges or rates, under the City's policy powers as defined by Article XI, Section 7 or Article XIIIB, Section 8 of the California Constitution. There are no specific procedures for fee and rate adoption (Government Code Sections 54954.6 and 66000 et seq.). The Parking Fund is an Enterprise Fund. Generally, revenues are to be used to offset enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services.

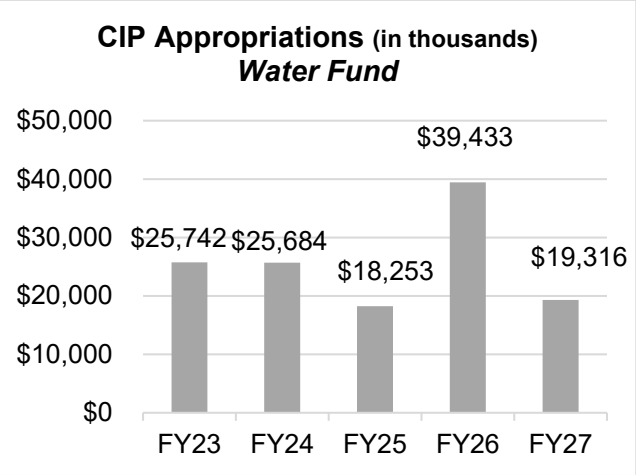
Current and Previous Allocations

Parking funds have mainly supported parking projects. Recently completed projects were focused on structural improvements at Tower Bridge Garage, parking facility painting at Old Sacramento Garage and the installation of a Parking Guidance System at Memorial Garage. Active projects include elevator repairs and an upgrade to the Parking Access Revenue Control Systems (PARCS) equipment at the City-owned parking facilities.

Parking revenues were significantly impacted by the COVID-19 pandemic, however, full revenue recovery was reached in FY2025/26.

Capital funding budgeted through February 2026: $34,474,526

Fund 6005
Water Fund



The Water Fund is used to account for the activities associated with the production, distribution, and transmission of potable water by the City to its users. The Water Fund supports both the capital and operating costs of providing potable water throughout the city including diversion, production, treatment, storage, transmission and distribution systems. Revenues are generated by user fees, interest earnings, development fees, tap sales, and reimbursements from other entities for service performed by or paid by the fund.

Restrictions/Legal Mandates

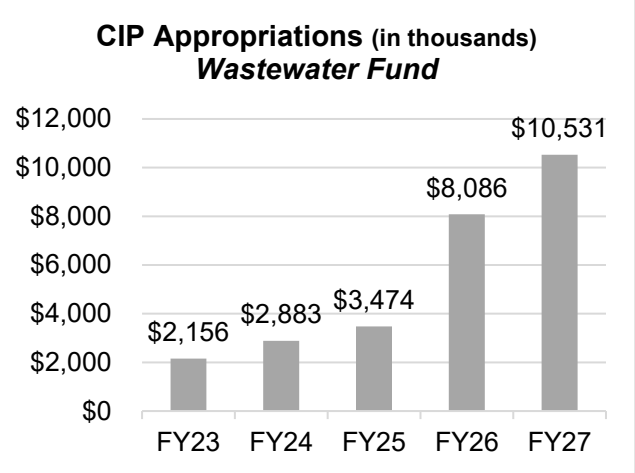
Cities have general authority to impose fees, sometimes called charges or rates, under the city's policy powers as defined by Article XI, Section 7 or Article XIIIB, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (e.g., Government Code Sections 53755 and 66013, Proposition 218). The Water Fund is an Enterprise Fund. Generally, revenues are to be used to offset enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services, plus overhead.

Current and Previous Allocations

Water funds have largely supported projects in maintaining a healthy water supply system in conjunction with balancing funding and resources to support a comprehensive infrastructure maintenance and rehabilitation program and maintaining the water system in a manner that balances level of service with system-wide projects throughout the City.

Capital funding budgeted through February 2026: $178,101,989

Fund 6006
Wastewater Fund



The Wastewater Fund accounts for the maintenance, repair, and replacement of facilities for collecting, conveying, and pumping sanitary and combined sewage to the major interceptor sewers of the Sacramento Area Sewer District, as well as combined sewer system treatment facilities that convey wet weather flows to the Sacramento River during large storm events. User fees finance operating costs and capital improvements.

Restrictions/Legal Mandates

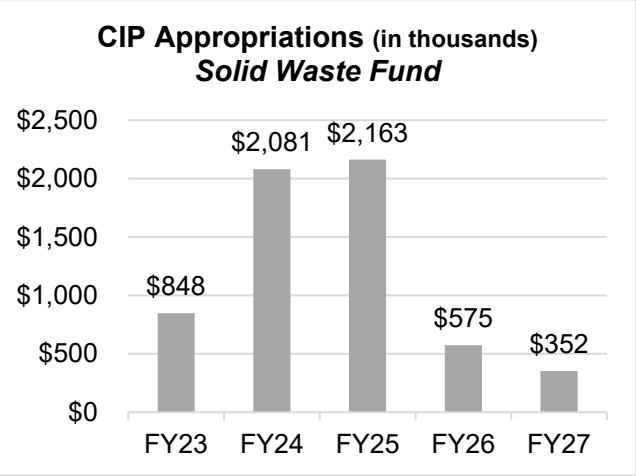
Cities have general authority to impose fees, sometimes called charges or rates, under the city's policy powers as defined by Article XI, Section 7 or Article XIIIB, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (e.g., Government Code Sections 53755 and 66013, Proposition 218). The Wastewater Fund is an Enterprise Fund. Generally, revenues are to be used to offset enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services, plus overhead.

Current and Previous Allocations

Wastewater funds have largely supported the combined sewer system, separated sewer systems, sumps, two treatment plants, and wastewater projects such as repairing, rehabilitating, and improving its wastewater infrastructure, as well as maintaining the system in a manner that balances system-wide projects throughout the City.

Capital funding budgeted through February 2026: $26,157,439

Fund 6007
Recycling and Solid Waste Fund



The Recycling and Solid Waste Fund accounts for the operation, maintenance, and related capital improvements of the City's refuse collection, processing, and disposal services as well as for landfill post-closure maintenance. In addition, yard waste/organics refuse, street sweeping, recycling, and a variety of community service programs are provided from this fund. Services include street sweeping as well as the collection of garbage, yard waste/organics, household hazardous waste, and recycling. Revenues are generated from user fees.

Restrictions/Legal Mandates

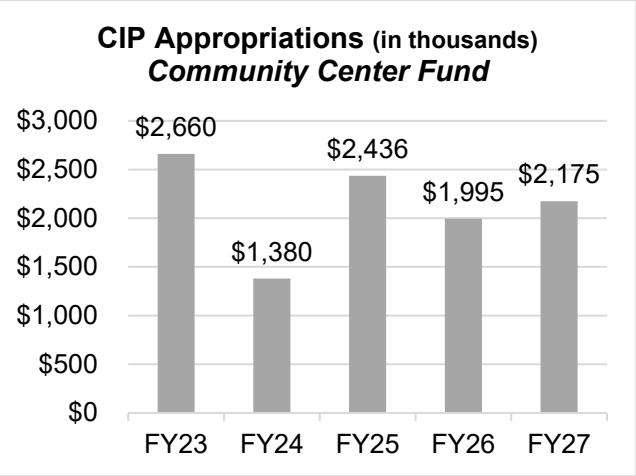
Cities have general authority to impose fees, sometimes called charges or rates, under a city's policy powers as defined by Article XI, Section 7 or Article XIIIB, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (e.g., Government Code Sections 53755 and 66013, Proposition 218). The Recycling and Solid Waste Fund is an Enterprise Fund. Generally, revenues are to be used to offset Enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services, plus overhead.

Current and Previous Allocations

Recycling and Solid Waste funds have largely supported solid waste projects such as maintenance, operations, and vehicle needs.

Capital funding budgeted through February 2026: $35,978,878

Fund 6010
Community Center Fund



The Community Center Fund, which accounts for the operation of the SAFE Credit Union Convention Center, the SAFE Credit Union Performing Arts Center, and the Sacramento Memorial Auditorium, is supported mainly by the transient occupancy tax (TOT), facility user fees, and interest earnings. The TOT is a tax charged to individuals who occupy a room(s) in a hotel, motel, etc. User fees include facility rental fees, equipment, and service fees.

Restrictions/Legal Mandates

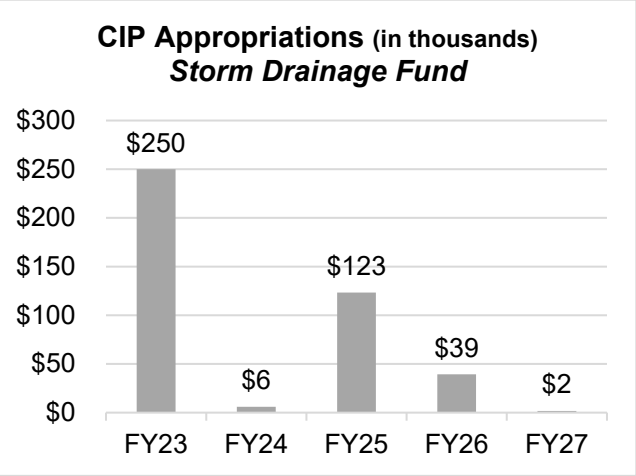
Revenue and Taxation Code, Sections 7280 and 7281, and City Ordinance 3.28 restrict the use of TOT to support Community Center Complex operations, economic development projects that create local jobs, development and upkeep of visitor serving facilities that promote tourism and strengthen the economy, capital requirements, and debt service related to those activities.

Current and Previous Allocations

Community Center funds have supported projects that include the following: the elevator modernization services and updating Ballroom B at the SAFE Credit Union Convention Center; chiller controller retrofit at the Sacramento Memorial Auditorium; and water fountain stations at the SAFE Credit Union Convention & Performing Arts District.

Capital funding budgeted through February 2026: $25,729,754

Fund 6011
Storm Drainage Fund



The Storm Drainage Fund is an Enterprise Fund, which is self-supporting through fees and charges to the consumers. The fees collected for storm drainage are used to account for the activities and maintenance of the City's surface drainage system and 105 storm-pumping stations. Revenues are generated through user fees and interest earnings.

Restrictions/Legal Mandates

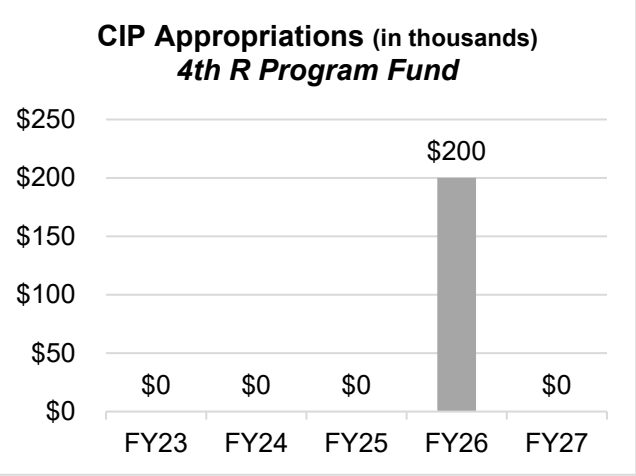
Cities have the general authority to impose fees, sometimes called charges or rates, under the City's policy powers as defined by Article XI, Section 7 or Article IIIB, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (Government Code Sections 54954.6 and 66000 et. seq.). The Storm Drainage Fund is an Enterprise Fund. Generally, revenues are to be used to offset enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services, plus overhead.

Current and Previous Allocations

Storm Drainage funds have largely supported Combined Sewer System and Storm Drainage projects such as repairing, rehabilitating, and improving its storm drainage infrastructure, as well as maintaining the system in a manner which balances system-wide projections in individual drainage basins.

Capital funding budgeted through February 2026: $12,597,190

Fund 6012
4th R Program Fund



The 4th R Fund is an enterprise fund based on the 4th R Child Development Program, which provides school age childcare services at various locations throughout the City. The 4th R program is a fee-based initiative that is supported through parent fees. Under the 4th R department's ID, it is responsible for the upkeep and maintenance of 25 buildings. To ensure the facilities are properly maintained, a deferred maintenance Capital Improvement Project has been established using funds from the program's available balance.

Restrictions/Legal Mandates

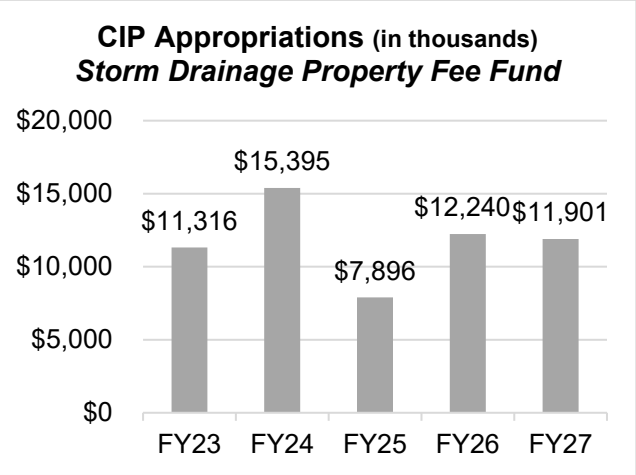
Funds are restricted to serve the 4th R Program and facilities. 4th R funds are specifically designated to support the ongoing maintenance and repair needs of the 4th R facilities, to maintain and manage long-term preservation and avoid potential disruptions or costly emergency repairs.

Current and Previous Allocations

4th R Program funds have been allocated to support the deferred maintenance projects at 4th R locations Citywide.

Capital funding budgeted through February 2026: $730,172

Fund 6021
Storm Drainage Property Fee Fund



The Storm Drainage Property Fee Fund is an Enterprise Fund which is self-supported through property related fees. The fees collected for the Storm Drainage Property Fee Fund are primarily used to fund capital improvements to its aging stormwater system and related operating and maintenance costs. These projects protect local rivers and creeks from pollution and protect homes and businesses from flooding. Revenues are generated through property-related fees and interest earnings.

Restrictions/Legal Mandates

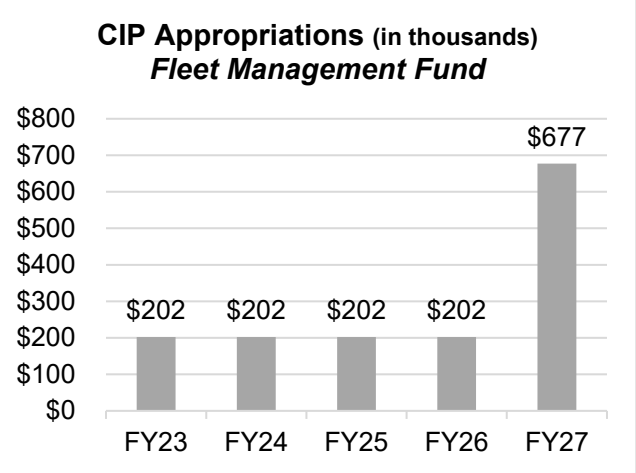
Cities have the general authority to impose fees, sometimes called charges or rates, under the City's policy powers as defined by Article XI, Section 7 or Article IIIB, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (e.g., Government Code Sections 53755 and 66013, Proposition 218). The Storm Drainage Property Fee Fund is an Enterprise Fund. Generally, revenues are to be used to offset enterprise capital improvements and related administrative, operating, and maintenance costs and may not exceed the estimated reasonable cost of providing these services.

Current and Previous Allocations

Storm Drainage Property Fee funds will largely support the Combined Sewer System and Storm Drainage capital infrastructure projects and related operations and maintenance for repairing, rehabilitating, and improving its storm drainage and combined sewer infrastructure, as well as maintaining the system in a manner which balances systemwide projects in individual drainage basins.

Capital funding budgeted through February 2026: $33,510,195

Fund 6501
Fleet Management Fund



The Fleet Management Fund was established to finance and account for services and commodities furnished by Fleet Services to other departments. Services and commodities supplied exclusively to other departments include the maintenance, repair, fueling, and replacement of the City's vehicular equipment. This fund receives its revenue from charges to other City organizations for services received.

Restrictions/Legal Mandates

There is no specific ordinance or legislation directing the use of funds. Funds are to be used for fleet operations, fleet replacement, and fleet facility improvements.

Current and Previous Allocations

Fleet Management funds have largely supported repair/remodel and technology projects. Some of the larger projects include: underground fuel storage and support, 24th Street City Corporation Center maintenance, fleet facilities, and fleet management technology upgrades.

Capital funding budgeted through February 2026: $9,253,976

GLOSSARY

Americans with Disabilities Act of 1990 (ADA): A federal law providing for a wide range of protection to individuals with disabilities ranging from prohibitions against discrimination in employment to specific requirements for modifications of public facilities and transportation systems.

Appropriation: An authorization by the City Council, which permits officials to incur obligations and expend City resources for a specific purpose within a fiscal year.

Assessment District (AD): A separate local government agency formed to provide specific services. Property owners within the assessment district boundary pay the district in proportion to the benefits or services they receive.

Art in Public Places (APP): City Code Chapter 2.84.110 mandates that at least 2% of the total cost of eligible construction projects shall be expended for public art.

Budget: An annual financial plan consisting of proposed/approved expenditures for specified purposes and the proposed means for financing them.

Budget as of 2/2026: Reflects the total project funding from all funding sources (*due to timing, budget modifications after February of the fiscal year are not included*). In some situations, funds are moved into sub-CIP (child) projects to allow for better project management and accounting.

Capital Assets: Capital assets include land, improvements to land, easements, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period (fiscal year).

Capital Improvement: A specific undertaking involving procurement, construction, or installation of facilities or related equipment which improves, preserves, enhances or modernizes the City's provision of municipal services, has a useful life of at least five years, and costs in excess of $20,000. CIPs may include construction or major repair of City buildings and facilities such as streets, roads, storm drains, traffic signals, parks, or community centers.

Capital Improvement Program (CIP), program: CIP programs have an ongoing funding source and are used for similar types of improvements that will be constructed at multiple locations based on the annual availability of funding. Locations are generally identified through master plans, planning guides, and replacement programs (e.g., the Groundwater Protection Program, Fire Apparatus Program, or Neighborhood Street Light Replacement Program). Capital improvement programs are not site-specific, do not typically have a defined completion date and will contain “Program” in the title.

Capital Improvement Program (CIP), project: CIP projects are typically site specific, have a defined budget, and have a specific completion date.

Carryover: Appropriated funds remaining unspent at the end of the fiscal year, which can be retained by the project to which they were appropriated so that they may be expended in the next fiscal year.

Combined Sewer System (CSS): CSS is a type of sewer system that collects sanitary sewage and storm water runoff into a single pipe system. Combined sewers can cause serious water pollution problems due to combined sewer overflows, which consist of sending untreated diluted sewage to the river.

Of greater concern is an outflow during rainstorms in which diluted sewage spills onto streets and potentially onto properties. This type of sewer design is no longer used in building new communities, but many older cities continue to operate combined sewers.

Community Facilities District (CFD): The Mello-Roos Act (1982) allows any county, city, special district, school district, or joint powers authority to establish a CFD that allows for financing of public improvements (e.g., sewers, streets) and services. To establish a CFD, voters within the district must approve its creation by two-thirds.

Construction Engineering: Engineering work during the construction process. This ensures that projects are constructed in accordance with design parameters and specifications.

Continuing Project: A project that is not completed within the fiscal year initially budgeted. Unobligated or unspent project budget is carried forward and is available for expenditure in the next fiscal year.

Debt Financing: Issuance of bonds and other debt instruments to finance municipal improvements and services.

Debt Service: The costs of paying the principal and interest on borrowed money according to a predetermined payment schedule.

Defund: Any unspent balance for a completed project is zeroed out, added back into the originating fund balance, and is available for appropriation to another project.

Design Engineering: The process of identifying project options, developing a project scope, conducting feasibility analyses, and creating plans, specifications, and estimates for a capital improvement project.

Detail Sheet: A summary page for a single project or program receiving new funding that details project need, objective, and budget.

electronic Citywide Accounting and Personnel System (eCAPS): The Enterprise Resource Management system implemented in 2007 and 2008 to manage all City financial, human resource, and payroll transactions.

Encumbrance: An amount of money committed for the payment of goods ordered but not yet received.

Enterprise Funds: A governmental facility or service that is self-supporting through fee and charge revenues. Used to account for the City's ongoing activities that are similar to those found in the private sector, e.g., solid waste management, marina, sewer utilities.

Estimated Balance as of 2/2026: Reflects the estimated balance remaining within a project based on actual expenses through February 2026.

Expenditures: The cost for personnel, materials, equipment, and contractual obligations required for a department to operate or for a capital program to be completed.

FileMaker Pro: The computer program utilized by the City to track and describe capital projects or programs. Each project or program funded within the five-year plan has a detail sheet provided in its corresponding Program Area Summary, e.g., the Facility ADA Compliance Program (C13000400) has detail sheet in the General Government Program Area, Section D. All active CIPs are listed in Index N (by Council District) and Index O (by CIP number).

Fiscal Year (FY): A time period designated by the City signifying the beginning and ending period for recording financial transactions. Sacramento has a fiscal year from July 1 through June 30.

Fund: A separate, independent accounting entity with a self-balancing set of accounts recording financial resources and transactions for specific activities.

Fund Balance: The total dollars remaining after current expenditures for operations and capital improvements are subtracted from the sum of the beginning fund balance and current resources.

General Fund (GF): The City's principal operating fund, which is supported by taxes and fees and which, generally, has no restrictions on its use.

General Plan: The policy document that outlines the acceptable land use within the city limits for both the current and long term. The General Plan is the foundation for establishing goals, purposes, zoning, and activities allowed on each land parcel to provide compatibility and continuity to the entire region as well as each individual neighborhood.

Generally Accepted Accounting Principles (GAAP): GAAP are the standard framework of guidelines for financial accounting as defined by the Governmental Accounting Standards Board (GASB) for state and local governments in the U.S. The City of Sacramento prepares the CIP consistent with these guidelines and principles.

Geographic Information Systems (GIS): a system designed to capture, store, manipulate, analyze, manage, and present spatial or geographic data. GIS maps are provided for each site-specific FY2026/27 funded project (Program Area Summaries) as well as focus on projects in or near priority sites as identified in the *2040 General Plan* (General Plan Consistency).

Grant: Program revenues provided by external agencies, which are restricted to a specific purpose, have a time limit for use, and frequently are reimbursed after incurring eligible costs.

Inflationary Increase: An adjustment made to reflect current year or estimated future year national or regional change to categories of expense. Generally, inflationary increases are based on the Consumer Price Index (CPI).

Infill: The reuse of land in an urban area for new construction.

Landscaping and Lighting (L&L) Act of 1972: The 1972 Act lets cities, counties, and special districts levy assessments for land purchase and construction, operation and maintenance of parks, landscaping, lighting, traffic signals, and graffiti abatement.

Measure U Fund: This fund was established to account for revenues collected from the transactions and use tax approved by voters in November 2018. It took effect on April 1, 2019. Measure U was approved as a general tax and can be used for any general government purpose. This one-cent tax is charged on each dollar of taxable sales of goods purchased from retailers within the City of Sacramento, and on the taxable storage, use, or consumption of goods purchased outside the City and delivered to a location within the City.

Nexus Study: A report that sets the procedural requirements for establishing and collecting development impact fees.

Ordinance: A formal legislative enactment by the governing board of a municipality. If it is not in conflict with any higher form of law, it has the full force and effect of law within the boundaries of the municipality to which it applies.

Project, Child: A CIP that falls under the budget appropriation authority of a parent project. Child projects are not required of a parent project. In Index O, child projects are listed in *italics*.

Project, Parent: A CIP that has budget appropriation authority given by City Council. Parent project numbers usually end in zero-zero (00) and are identified in Index O in bold.

Place of Use (POU): The City of Sacramento's currently authorized Place of Use (POU) for the Sacramento River and the American River water supplies are shown in the Water Master Plan. The City's POU for water from the Sacramento River is all land within the City limits. The City's POU for the American River supply covers 96,162 acres and includes the City limits, as well as portions of service areas of several other water purveyors.

Program: A logical grouping of capital projects according to type of projects completed, e.g., public safety, transportation.

Resolution: A formal declaration by City Council.

Resources: Total dollars available for appropriations during the fiscal year including estimated revenues, fund transfers, and beginning fund balances.

Smart City: A concept that recognizes the opportunity for information and technology as to be used as a tool to provide services to all its citizens through accessibility, affordability, choices, coordination, and efficiency. For transportation, it includes using data and supporting emerging technology to improve mobility and achieve other benefits, such as automated vehicles, electric vehicle charging, alternative fuels, system integration, and data driven solutions.

Special Revenue Funds: Account for the proceeds supported by specific taxes or other revenue sources. These funds are generally required by statute, charter, or ordinance to finance specific government functions. Examples include Assessment or Community Facility Districts that provide services, as well as Measure A and other public works funding sources.

Speed Humps: Speed humps extend across the road in one solid piece. The City no longer installs humps or undulations (double sets of humps) and has moved completely to lumps and tables (elongated humps).

Speed Lumps: Speed lumps were first introduced in Sacramento in 2002. The lumps

have the same design as the hump, but have strategically placed cut-outs that allow for buses and emergency vehicles to pass through without excessive jarring. The lumps reduce response time from seven seconds for hump to less than one second per lump.

Sphere of Influence: The probable, ultimate physical boundaries and service area of a local governmental agency. This is defined as within the city boundaries plus Freeport, Fruitridge-Florin, and Rosemont. The Council may request the Local Agency Formation Commission to expand the Sphere of Influence boundaries as appropriate; the Natomas Basin Study Area is an example of a potential area to be added to the Sphere of Influence.

State-of-Good-Repair: This is a condition in which the existing physical assets, both individually and as a system, are (a) functioning as designed within their useful lives, and (b) sustained through regular maintenance and replacement programs.

Subprogram: A more defined grouping of capital projects within each Program, e.g., within the Transportation Program. Subprograms include Street Maintenance, Street Improvements, Signals/Lighting, and Parking.

Successor Agency: Pursuant to operation of California state law, the Redevelopment Agency was dissolved. Effective February 1, 2012, former activities and affairs of the Sacramento Redevelopment Agency were transferred to the City of Sacramento as the Successor Agency. The Successor Agency is authorized by law to accept and maintain the legal title, custody and dominion of records that were created by another agency.

Transient Occupancy Tax (TOT): A tax of 12% is charged for all people who exercise occupancy at a hotel within the city (City Code 3.28). They are considered transient if they stay for a period of 30 days or less. TOT forms are remitted to the City by the hotels monthly. Of the 12%, the Community Center Fund (Fund 6010) receives 10% and two percent returns to the General Fund.

Unfunded Capital Needs: Unfunded capital needs refer to projects identified in approved City policy documents as needed or desired where funding is currently unavailable to complete the project. The Capital Improvement Plan classifies unfunded capital needs into three categories: Unfunded Deferred Maintenance, Unfunded New Assets, and Major Projects Outside the Capital Improvement Program (CIP).

Unified Endpoint Management (UEM): A type of software that provides a single interface to manage multiple endpoints, such as smartphones, tablets, laptops, and other devices.

User Charges/Fees: The payment of a fee for direct receipt of a public service by the party benefiting from the service.

REFERENCE MATERIALS

A variety of documents have been developed to reflect the diverse and growing needs and priorities of Sacramento residents, businesses, developers, and visitors. Extensive outreach has been done to develop the documents listed below and, in an effort to maintain transparency, the following provides a synopsis and location of the materials that were referenced to develop the 2026-2031 CIP. The connection to these background resources provides a wider understanding of the efforts made to determine, rank, and invest public funds towards maintenance, rehabilitation, or improvement of public infrastructure, public safety, recreational experiences, and assurance that Sacramento remains well-positioned for further economic growth and opportunities.

While each section utilizes the resources listed in the General Plan Consistency Section, other documents are section specific.

Section C: General Plan Consistency

Sacramento 2040 General Plan (2024)
https://www.cityofsacramento.gov/content/dam/portal/cdd/Planning/General-Plan/2040-General-Plan/Adopted%202040%20General%20Plan_20240227.pdf
A document shaped by extensive outreach to residents, business, developers, and decision-makers to guide Sacramento to "be a national model of sustainable, equitable growth and community development." It was developed based on the City's Smart Growth Principles; Council adopted Vision and Guiding Principles for the General Plan; and the Sacramento Area Council of Governments Blueprint (https://www.sacog.org/planning/blueprint/history-of-the-blueprint) .

Section D: General Government

City Facility Condition Assessment (2018)
In September 2017, City Council authorized a City Facility Condition Assessment of over 100 facilities. The assessment was completed in June of 2018 and identified the prioritization and selection standards for the City Facility Reinvestment Program. Initial Council-approved criteria were safety, end of component's useful life, and outdated standards. The criteria have since been expanded to the following:

1. Safety: Projects that, if not corrected, will create a hazard or that may result in personal injury to staff or the public.
2. Renewal/Replacement: Projects with worn, obsolete, and/or failed major components have reached the end of their useful life and are needed to protect or maintain facility integrity. These items, if not addressed, will require excessive man-hours and funding to prevent further degradation of the facility and to keep

the facility functional or do not meet today's standards in terms of functionality or code requirements.

3. High energy consumption: Projects that can achieve significant savings through the upgrading of components.
4. High volume for immediate service requested: Projects that have components or equipment/facilities chronically needing repair.
5. Cost-effective/Combination of projects: Projects that are combined to make them more cost-effective, such as replacing roof mounted HVAC equipment at the same time a roof is replaced.

Sacramento Public Library Authority (SPLA) Facilities Vision Plan (2023)
https://www.saclibrary.org/about-us/facilities-vision-plan
Sacramento Public Library released a new Facilities Vision Plan in 2023. The facilities vision plan guides decision making about investments in library facilities in Sacramento communities over the next 10 to 20 years. The document complements and builds upon the 2007 SPLA Facility Master Plan. Key concepts and themes from the visioning process include:

- Sacramento communities love and appreciate SPLA's services, staff, and spaces
- Expanded and enhanced library collections, programs, and space are needed for diverse and growing community needs
- Welcoming, inclusive and well-maintained facilities are essential for providing high-quality services and maximizing positive community impact

Section F: Convention, Culture, and Leisure

Sacramento Marina Business Plan (2014)
https://sacramento.granicus.com/MetaViewer.php?view_id=22&clip_id=3419&meta_id=413930#:~:text=The%20primary%20purpose%20and%20goal,performance%20and%20make%20the%20Marina
The Marina's business plan was presented to the City Council on March 25, 2014. It is reviewed annually.

Section G: Parks and Recreation

The Parks Plan 2024
https://www.cityofsacramento.gov/ypce/parks/planning---development/park-plan
The Parks Plan 2040 inventories existing physical and programmatic assets, identifies community needs and priorities, and refines the policies, actions, and tools that YPCE will use to guide the provision of parks, recreation facilities, programs, events, and services. By outlining a feasible investment approach and realistic projects and programs, this plan provides implementable recommendations that align with YPCE's mission, the City's goals, and the community's vision for the future.

Park Project Programming Guide (PPPG) (2018)
https://www.cityofsacramento.gov/content/dam/portal/ypce/Parks/parks-planning/PPPG-2018.pdf
The PPPG identifies, evaluates, ranks, and prioritizes unfunded park and recreation projects, including acquisitions, repair/rehabilitation, development, community facility, and regional projects.

The PPPG's goals are to:

- Provide an integrated system of parks, open space areas, and recreational facilities that are safe and connect the diverse communities of Sacramento;
- Plan and develop parks, recreation, and community facilities that enhance community livability, are equitably distributed throughout the city, and are responsive to the needs and interests of residents, employees, and visitors; and
- Secure adequate and reliable funding for the acquisition, development, and maintenance of parks, recreation facilities, and open space.

Projects are evaluated and grouped within each of the ten CPAs for consistency with the City's Parks and Recreation Master Plan, last updated in 2009. An update to this plan, Parks Plan 2040, is anticipated to be completed in 2024. The criteria in each CPA focuses on:

1. Neighborhood, community, and/or regional need
2. Funding availability for ongoing maintenance
3. Site significance, public priority or public use, and suitability to the area
4. Gives priority to economically disadvantaged neighborhoods
5. Health, safety, or legal mandates
6. Land availability
7. Cost offsets/partnerships

Section H: Transportation

Transportation Priorities Plan (TPP) (2022)
https://www.cityofsacramento.gov/public-works/mobility-and-sustainability/transportation-planning/current_transportation_planning_efforts/transportation-priorities-plan
The Transportation Priorities Plan (TPP) is a document that prioritizes over 700 of the City's planned transportation projects that are estimated to cost $5 billion. Projects that were prioritized were those that have been approved by City Council, those that included community engagement, and those in a plan or study. The values shared during community engagement in the initial phase of plan development became the criteria and

metrics for transportation investments and prioritization and were adopted by City Council on March 15, 2022, with Resolution No. 2022-0079:

- Improves air quality, climate and health
  - Supports bicycling
  - Supports walking
  - Supports transit or electric vehicles
- Provides equitable investment
  - Benefits neighborhoods that lack basic infrastructure
  - Benefits communities that have been recipients of racism and bias
- Provides access to destinations
  - Connects to jobs
  - Connects to schools
  - Connects to parks
- Improves transportation safety
  - Improves a Vision Zero Top 10 corridor
  - Improves a Vision Zero HIN street or is a Vision Zero School Safety Project
- Fixes and maintains the transportation system
  - Improves pavement or bridges
  - Improves traffic signals

The TPP was adopted by City Council on November 15, 2022, with Resolution No. 2022-0361.

Vision Zero Action Plan (2018)
https://www.cityofsacramento.gov/content/dam/portal/pw/mas/visionzero/Vision-Zero-Action-Plan-Adopted-August-2018.pdf
Vision Zero is a strategy to eliminate all traffic fatalities and serious injuries, while increasing safe, healthy, equitable mobility for all. Traffic safety impacts our community, neighborhoods, health, and Sacramento's livability. No level of fatality or serious injury is acceptable on our streets because crashes are preventable incidents that can be addressed through engineering, education, and enforcement.

The guiding principles of the Vision Zero Action Plan are:

- Safety of human life is our highest priority.
- Traffic deaths and serious injuries are preventable, a public health issue, unacceptable, and must be addressed.
- Actions towards Vision Zero will be a comprehensive, collaborative, and equitable approach through engineering, education and culture change, and traffic enforcement.
- Actions towards Vision Zero will be data-driven based on available crash data.

- Evaluation will be ongoing, measuring performance against the Vision Zero Action Plan objectives.

The Vision Zero Action Plan is in the process of being updated. Progress on the updated can be found here: https://www.cityofsacramento.gov/public-works/mobility-and-sustainability/transportation-planning/vision-zero

Intelligent Transportation Systems (ITS) Master Plan (2019)
https://www.cityofsacramento.gov/content/dam/portal/pw/mas/Smart-Region-Sacramento-ITS-Master-Plan_FINAL_With_Appendices.pdf
This City of Sacramento ITS Master Plan integrates technology, presenting the City's current and future needs with a focus on effective investments in transportation to improve system performance, safety, and sustainability. This Plan builds upon the City's existing ITS network and envisions a strategy to systematically implement innovative technologies to address the following overarching mission statement: To improve system performance, safety, sustainability, and reliability by ensuring efficient investments in regional smart transportation projects.

ITS goals and objectives include:

- Identify infrastructure and equipment needed to build a comprehensive, modern, and reliable traffic signal system
- Identify programmatic initiatives to efficiently maintain and operate traffic signals and smart infrastructure while also planning for future technology
- Develop strategies to incorporate traffic performance measure data and analytics tools for operations analysis and project planning
- Create a system that allows for data-driven decision making
- Develop a staffing plan to include recommendations on staffing levels and skillsets
- Improve City readiness for connected vehicles and connected-infrastructure
- Develop real-time transportation data dashboard GUI
- Address traffic signal detection issues
- Improve light rail interaction on streets and at gated crossings
- Integration of various transportation data sets to provide a single data clearinghouse and real-time performance dashboard

Streets for People: Sacramento Active Transportation Plan (2025)
https://www.cityofsacramento.gov/public-works/mobility-and-sustainability/transportation-planning/current_transportation_planning_efforts/streets_for_people_sacramento_active_transportation_plan

The Streets for People: Sacramento Active Transportation Plan equips the City with a vision for a safer, more connected, and more comfortable active transportation network that serves all ages, all abilities, and all communities.

Plan goals include:

- Access – providing access to destinations and institutions that provide economic opportunity, educational benefits, health benefits, and personal growth
- Equity – providing equitable investment to address historical inequities, including the impact air quality and climate have on these neighborhoods
- Maintenance – fixing and maintaining transportation infrastructure to support communities' health and the city's economic growth
- Safety – improving transportation safety as a driver for future investments with the intent of addressing the highest need areas first
- Sustainability – improving air quality, climate, and health by addressing the climate emergency and reducing greenhouse gases

The Pedestrian Master Plan (2006) and the Bicycle Master Plan (2018) have been incorporated into and superseded by the Streets for People: Sacramento Active Transportation Plan (2025).

Sacramento Neighborhood Connections Plan (2025)
https://www.cityofsacramento.gov/content/dam/portal/pw/mas/streets-for-people/SacramentoNC_Final_Report_WithAppendix.pdf
The Plan is focused on neighborhood streets, featuring traffic calming treatments to slow traffic and support more comfortable walking, biking, and rolling to neighborhood destinations for people of all ages and abilities, as well as to make neighborhood streets people-oriented rather than oriented to motor vehicles. Once implemented, the plan will utilize traffic calming measures, wayfinding, and walking and biking crossing enhancements to better connect people to schools, grocery stores, parks and other everyday neighborhood destinations through active transportation.

The core principles guiding the development of the Neighborhood Connections network include:

- Establishing direct, people-oriented connections to everyday destinations
- Connecting to or crossing major roads, rather than running parallel to them
- Implementing measures to slow traffic
- Providing facilities that accommodate people of all ages and abilities

Section I: City Utilities

Department of Utilities' Guide Capital Improvement Programming Guide (2012)
https://www.cityofsacramento.gov/content/dam/portal/dou/utilities/reports/CIPProgrammingGuideJuly2012.pdf
This guide explains the processes, methodologies, and funding sources used in developing the City Utilities Program. It also provides an overview of the water, wastewater, and storm drainage utilities operations and functions; explanations of the criteria used to rank projects; descriptions of the types of CIPs; and profiles planned capital projects. Also included is a long-term (30-year) and short-term (three-year) investment strategy for improving the utility infrastructure of the city.
Its goals include:

- Complying with all government regulations and legal requirements
- Providing high-quality, safe, and reliable utility systems through proactively monitoring/maintaining assets and reducing system vulnerability
- Planning for current and future generations by protecting, preserving, and enhancing resources, the environment, and the community
- Providing for environmentally sound landfill closure

Projects are assessed and ranked by:

1. Mandate by state and federal laws or regulations
2. Protect the public by meeting health and safety requirements
3. Meet the demands of increased growth
4. Manage funding by finding alternative funding sources, such as grants or other revenues
5. Improve or reduce ongoing facility operations and maintenance costs

Department of Utilities 2022 Water Supply Master Plan
The Water Supply Master Plan is intended to provide a comprehensive evaluation of existing and future demand projections, a complete water supply inventory and updated supply portfolio, a detailed water system assessment, an updated hydraulic model, and a recommended Capital Improvement Program to support the City's ongoing capital improvement prioritization program.

Regional Water Quality Control Board National Pollutant Discharge Elimination System (NPDES) permit Long-Term Control Plan
The Long-Term Control Plan is a guide for improvement and rehabilitation projects that will meet the Combined Sewer System long term goals.

Section K: Description of Major Funding Sources

FY2026/27 Proposed Budget
http://www.cityofsacramento.org/Finance/Budget
A companion book to the CIP, the Budget provides an overview of the operating budget, the five-year forecasts for the General and Enterprise Funds, as well as an overview of the debt service program that finances the cost of some capital improvements.

CITY OF SACRAMENTO FACTS

- The City of Sacramento was founded in 1849 and is the oldest incorporated city in California.
- In 1920, city voters adopted a Charter (municipal constitution) and a City Council/City Manager form of government.
- The City is divided into eight districts.
- Elected members of the City Council serve a four-year term.
- The Mayor is elected by all voters in the City. In 2002, voters approved a measure for the Mayor to serve full-time. All other Councilmembers are elected by district and serve part-time.
- The Mayor and other Councilmembers have an equal vote in all matters.
- The City of Sacramento currently encompasses approximately 100 square miles.
- The City of Sacramento population is estimated at 527,979.

FY2026/27 PROPOSED BUDGET REDUCTION STRATEGIES

ID	Reduction Category	Department	Description	Revenue/Offset Adjustment ($ in 000s)	Expenditure Change ($ in 000s)	Net Savings ($ in 000s)	FTE Vacant	FTE Filled	FTE Change
R-1	Revenue	City Treasurer	Increase revenues in the City Treasurer's Office due to Pool A recovery fee increase.	$ (150)	$ -	$ (150)	-	-	-
R-1	Revenue	Finance	Increase revenue budget in Escheat to align with projections.	$ (90)	$ -	$ (90)	-	-	-
R-3	Revenue	Finance	Increase revenue budget in Receivables and Collections to align with projections. Late and delinquent payment penalties are now charged at a percentage of amount owed instead of a flat rate.	$ (305)	$ -	$ (305)	-	-	-
R-4	Revenue	Finance	Increase revenue budget for Permits & Taxes to align with projections.	$ (30)	$ -	$ (30)	-	-	-
R-5	Revenue	Finance	Increase revenue budget in Infrastructure Finance to align with projections.	$ (25)	$ -	$ (25)	-	-	-
R-6	Revenue	Police	Increase revenue by offsetting sexual assault exams costs through state reimbursements.	$ (120)	$ -	$ (120)	-	-	-
R-7	Revenue	Fire	Increase revenue budget for Fire Prevention – Permit and Code Enforcement. Revised fee revenue projection for FY2026/27 from the approved May 2025 Fee Study.	$ (1,307)	$ -	$ (1,307)	-	-	-
R-8	Revenue	Fire	Increase revenue budget for the Emergency Medical Services (EMS) Division to incorporate the Voluntary Rate Range Program (VRRP).	$ (4,800)	$ -	$ (4,800)	-	-	-
R-9	Revenue	Fire	Increase revenue budget in the Emergency Medical Services (EMS) Division to recognize the Advanced Life Support (ALS) projected increase.	$ (945)	$ -	$ (945)	-	-	-
R-10	Revenue	Fire	Increase revenue budget to recognize the increase in Fire District Reimbursements from Pacific Fruitridge.	$ (2,253)	$ -	$ (2,253)	-	-	-
R-11	Revenue	Public Works	Delete five positions (5.0 FTE - Parking Enforcement Officer) and add five new positions (5.0 FTE - Senior Parking Enforcement Officer [SPEO]). Increase certain parking violation fines and supportive actions. Updated equipment will increase efficiency and SPEOs will support complex enforcement assignments currently experiencing a processing backlog, thus improving service levels for the public.	$ (2,009)	$ 158	$ (1,851)	-	-	-
R-12	Revenue	Public Works	Extend parking meter operating hours to 10pm across all metered areas to improve on-street parking access for visitors, merchants, and residents.	$ (583)	$ 29	$ (554)	-	-	-

ID	Reduction Category	Department	Description	Revenue/Offset Adjustment ($ in 000s)	Expenditure Change ($ in 000s)	Net Savings ($ in 000s)	FTE Vacant	FTE Filled	FTE Change
R-13	Revenue	Public Works	Increase revenue and expense budgets for Parking Meter Collections by adding 200 new metered spaces in high impact areas. Increasing space turnover will improve access to downtown for citizens, visitors, and merchants.	$ (211)	$ 209	$ (2)	-	-	-
R-14	Revenue	Youth, Parks, and Community Enrichment	Increase in revenue budget in Older Adult Services Division to reflect projected revenues.	$ (20)	$ -	$ (20)	-	-	-
R-15	Revenue	Youth, Parks, and Community Enrichment	Increase revenue budget in the City Cemetery Division to match projections.	$ (3)	$ -	$ (3)	-	-	-
R-16	Revenue	Community Development	Increase revenue budget in Animal Services based on licensing fee increase recommendations from the Citywide fee study.	$ (144)	$ -	$ (144)	-	-	-
R-17	Revenue	Community Development	Increase revenue budget in Planning based on fee increase recommendations from the Citywide 2025 Government Consulting Partners Fee Study.	$ (1,000)	$ -	$ (1,000)	-	-	-
R-18	Revenue	Community Response	Increase revenue for a new Micro-Community Program Fee.	$ (36)	$ -	$ (36)	-	-	-
TOTAL REVENUE				**$ (14,031)**	**$ 396**	**$ (13,635)**	**-**	**-**	**-**

Note: Although the Residential Permit Parking Program and increased parking meter rates proposals are included in the Budget book, they will be excluded from the Budget. The decision to exclude them was made after the Budget book was finalized. They have been removed from the Revenue list. Details and costs of the proposals are included in the FY2026/27 Proposed Budget Reduction Strategies (Not Used) list.

ID	Reduction Category	Department	Description	Revenue/Offset Adjustment ($ in 000s)	Expenditure Change ($ in 000s)	Net Savings ($ in 000s)	FTE Vacant	FTE Filled	FTE Change
L1-1	Level 1 Reduction	Office of Public Safety Accountability	Delete one position (1.0 FTE - Executive Assistant) in the Office of Public Safety Accountability.	$ -	$ (100)	$ (100)	(1.00)	-	(1.00)
L1-2	Level 1 Reduction	City Auditor	Discontinue the biennial Community Survey.	$ -	$ (34)	$ (34)	-	-	-
L1-3	Level 1 Reduction	City Manager	Delete one position (1.0 FTE - Special Projects Manager) and add one new position (1.0 FTE - Senior Development Project Manager) in the Office of Innovation and Economic Development.	$ (165)	$ -	$ (165)	-	-	-
L1-4	Level 1 Reduction	City Manager	Decrease funding for the Office of Innovation and Economic Development by $100,000. This decreases funding available for economic development activities including real estate due diligence, developing plans and studies, purchasing data, and community advertising and sponsorships.	$ -	$ (100)	$ (100)	-	-	-
L1-5	Level 1 Reduction	City Manager	Reduce services and supplies funding in the Executive Office and transfer the City's water lobbyist contract to the Department of Utilities.	$ -	$ (24)	$ (24)	-	-	-
L1-6	Level 1 Reduction	City Manager	Decrease funding for the City Hall Technology Program (I02001500). This will reduce funding available for technology initiatives within the City Manager's Office.	$ -	$ (100)	$ (100)	-	-	-
L1-7	Level 1 Reduction	City Attorney	Move funding for a Deputy City Attorney II to the Justice for Neighbors (JFN) project.	$ (230)	$ -	$ (230)	-	-	-
L1-8	Level 1 Reduction	Information Technology	Offset three positions (1.0 FTE - GIS Specialist III and 2.0 FTE - GIS Specialist II) partially with Technology Fee increases in the Community Development Department.	$ -	$ (234)	$ (234)	-	-	-
L1-9	Level 1 Reduction	Police	Delete two positions (1.0 FTE - Dispatcher II and 1.0 FTE - Police Clerk II) and add two new positions (2.0 FTE - Administrative Technician) in the Communications Division.	$ -	$ (9)	$ (9)	-	-	-
L1-10	Level 1 Reduction	Police	Delete one position (1.0 FTE - Police Officer) and add one new position (1.0 FTE - Administrative Analyst) in the Policy Team.	$ -	$ (49)	$ (49)	-	-	-
L1-11	Level 1 Reduction	Police	Delete two positions (2.0 FTE - Police Officer) and add two new positions (2.0 FTE - Administrative Analyst) in the Crime Analysis Unit.	$ -	$ (246)	$ (246)	-	-	-
L1-12	Level 1 Reduction	Police	Discontinue use of the SpidrTech platform and eliminate ongoing funding (F11100600).	$ -	$ (125)	$ (125)	-	-	-
L1-13	Level 1 Reduction	Police	Liquidate unspent Office of Violence Prevention (OVP) project funds (I02000600).	$ -	$ (406)	$ (406)	-	-	-

ID	Reduction Category	Department	Description	Revenue/Offset Adjustment ($ in 000s)	Expenditure Change ($ in 000s)	Net Savings ($ in 000s)	FTE Vacant	FTE Filled	FTE Change
L1-14	Level 1 Reduction	Police	Freeze nine positions (9.0 FTE - Dispatcher II) on a one-time basis in the Communications Division and reduce labor budget for a part-time position (0.5 FTE - Police Officer).	$ -	$ (1,121)	$ (1,121)	-	-	-
L1-15	Level 1 Reduction	Police	Delete seven positions (1.0 FTE - Police Clerk II, 1.0 FTE - Student Trainee, 1.0 FTE - Dispatcher I, 2.0 FTE - Police Records Specialist II, 1.0 FTE - Police Records Specialist III) across multiple divisions.	$ -	$ (461)	$ (461)	(6.00)	-	(6.00)
L1-16	Level 1 Reduction	Fire	Delete 12 positions (12.0 FTE - Firefighter) and add 20 new positions (10.0 FTE – Sacramento Fire Paramedic and 10.0 FTE - Sacramento Fire EMT) for the second phase of the Single Role Program.	$ (3,642)	$ 116	$ (3,526)	8.00		8.00
L1-17	Level 1 Reduction	Convention and Cultural Services	Delete three positions (1.2 FTE - Marina Aide) in the History Division. No service impact due to decreased dock traffic.	$ -	$ (46)	$ (46)	(1.20)	-	(1.20)
L1-18	Level 1 Reduction	Convention and Cultural Services	Change funding source for McClellan rent payment from Measure U fund (Fund 2401) to the Community Center fund (Fund 6010). Facility provides storage for materials to support exhibitions, research, and public access.	$ -	$ (180)	$ (180)	-	-	-
L1-19	Level 1 Reduction	Convention and Cultural Services	Delete one position (1.0 FTE - History Registrar) and add one new position (0.5 FTE - History Registrar) in the History Division. Essential responsibilities of this role can be	$ (2)	$ (47)	$ (49)	(0.50)	-	(0.50)
L1-20	Level 1 Reduction	Convention and Cultural Services	Change funding for one position (1.0 FTE - City Historian) from Measure U Fund (2401) to Community Center Fund (6010).	$ (96)	$ -	$ (96)	-	-	-
L1-21	Level 1 Reduction	Youth, Parks, and Community Enrichment	Delete one position (0.90 FTE - Program Coordinator) in the Expanded Learning Division.	$ 2	$ (73)	$ (71)	(0.90)	-	(0.90)
L1-22	Level 1 Reduction	Youth, Parks, and Community Enrichment	Change funding source for 50% of one position (1.0 FTE - Administrative Technician) in the Youth Development Administration Division from Measure U Fund to Children's Fund.	$ (62)	$ -	$ (62)	-	-	-
L1-23	Level 1 Reduction	Youth, Parks, and Community Enrichment	Delete one position (1.0 FTE - Program Leader) and add two new positions (2 at 0.45 FTE - Senior Recreation Aide) in Youth Employment Division.	$ -	$ (40)	$ (40)	(0.10)	-	(0.10)
L1-24	Level 1 Reduction	Youth, Parks, and Community Enrichment	Delete one position (0.45 FTE - Aquatics Specialist) in the Aquatics Division.	$ -	$ (23)	$ (23)	(0.45)	-	(0.45)
L1-25	Level 1 Reduction	Youth, Parks, and Community Enrichment	Delete two positions (1.0 FTE - Program Leader, 1.0 FTE - Recreation General Supervisor) and decrease services and supplies in Youth Employment.	$ -	$ (166)	$ (166)	(1.50)	-	(1.50)
L1-26	Level 1 Reduction	Community Development	Decrease funding for consultant services for plan review and inspections.	$ -	$ (955)	$ (955)	-	-	-
L1-27	Level 1 Reduction	Community Development	Change funding source for two positions (2.0 FTE - Associate Planner) in the Neighborhood Development Action Team (NDAT) from Measure U Fund (Fund 2401) to the General Plan Updates project (I22000000).	$ (779)	$ -	$ (779)	-	-	-

ID	Reduction Category	Department	Description	Revenue/Offset Adjustment ($ in 000s)	Expenditure Change ($ in 000s)	Net Savings ($ in 000s)	FTE Vacant	FTE Filled	FTE Change

NUL3-12	Level 3 Reduction	Community Development	Decrease funding for the Residential Development Impact Fees for Affordable Dwelling Units Program. Impacts affordable housing developments, as developers rely on the reduction of impact fees.	$ -	$ (500)	$ (500)	-	-	-
TOTAL LEVEL 3 REDUCTIONS NOT USED				**$ -**	**$ (4,068)**	**$ (4,068)**	**(6.00)**	**(25.67)**	**(31.67)**

ID	Reduction Category	Department	Description	Revenue/Offset Adjustment ($ in 000s)	Expenditure Change ($ in 000s)	Net Savings ($ in 000s)	FTE Vacant	FTE Filled	FTE Change
NUL4-1	Level 4 Reduction	City Auditor	Delete one position (1.0 FTE - Senior Fiscal Policy Analyst) in the City Auditor Office. This will significantly affect the City Auditor's Office ability to conduct audits, research and analysis directed by City Council.	$ -	$ (143)	$ (143)	-	(1.00)	(1.00)
NUL4-2	Level 4 Reduction	Finance	Delete one position (1.0 FTE - Payroll Technician) in the Payroll Division.	$ -	$ (99)	$ (99)	-	(1.00)	(1.00)
NUL4-3	Level 4 Reduction	Finance	Delete one position (1.0 FTE - Administrative Technician) in the Procurement Division.	$ -	$ (89)	$ (89)	-	(1.00)	(1.00)
NUL4-4	Level 4 Reduction	Finance	Delete one position (1.0 FTE - Customer Service Rep) in the Revenue Division Revenue Services unit.	$ -	$ (87)	$ (87)	-	(1.00)	(1.00)
NUL4-5	Level 4 Reduction	Finance	Delete one position (1.0 FTE - Customer Service Rep) in the Revenue Division Permits & Taxes Unit.	$ -	$ (81)	$ (81)	(1.00)	-	(1.00)
NUL4-6	Level 4 Reduction	Finance	Delete one position (1.0 FTE - Customer Service Rep) in the Revenue Division Revenue Services unit.	$ -	$ (82)	$ (82)	-	(1.00)	(1.00)
NUL4-7	Level 4 Reduction	Information Technology	Delete two positions (1.0 FTE - Senior Telecommunications Tech and 1.0 FTE - Telecommunications Tech II) supporting the Fire Communications Program. A reduction to this program will hinder the management of portable and mobile radios used by firefighters, compromise fire vehicle electronics and communication systems affect the Fire Station Alerting System.	$ -	$ (317)	$ (317)	-	(2.00)	(2.00)
NUL4-8	Level 4 Reduction	Information Technology	Delete four positions (2.0 FTE - Systems Engineers, 2.0 FTE - IT Support Specialist II) supporting the Police Department Patrol Vehicle Technology (PVT) Program. A reduction to this program will negatively impact the department's ability to provide essential support for PVT, including maintaining and supplying critical hardware such as rugged laptops, cameras, routers, modems, and other field operations tools.	$ -	$ (592)	$ (592)	-	(4.00)	(4.00)
NUL4-9	Level 4 Reduction	Information Technology	Delete one position (1.0 FTE - Telecommunications Engineer III). If this position is deleted, the department cannot manage the City's FCC radio license operations, affecting 4,620 voice radio users in Police, 911, Fire, Code Enforcement, Utilities, Public Works, Solid Waste, and other departments relying on voice communications.	$ -	$ (195)	$ (195)	-	(1.00)	(1.00)
NUL4-10	Level 4 Reduction	Information Technology	Delete three positions (1.0 FTE - Principal Applications Developer, 1.0 FTE - Senior Applications Developer, and 1.0 FTE - Applications Developer) that support the Citywide Content Management System (CCM/CARA) tools and automation software that enables document capture, management, storage, and delivery. Eliminating this program could put the City at risk of legal penalties under state and federal records-retention policies.	$ -	$ (523)	$ (523)	-	(3.00)	(3.00)

ID	Reduction Category	Department	Description	Revenue/Offset Adjustment ($ in 000s)	Expenditure Change ($ in 000s)	Net Savings ($ in 000s)	FTE Vacant	FTE Filled	FTE Change
NUL4-11	Level 4 Reduction	Information Technology	Delete six positions (6.0 FTE - 311 Customer Service Agents) that support the 311 Contact Center. Reducing this program will transfer after-hours and weekend support to departments. Calls outside from 7:00 am to 7:00 pm, Monday through Friday (around 40,400 calls per year or 16%) will be handled by department on-call personnel.	$ -	$ (643)	$ (643)	-	(6.00)	(6.00)
NUL4-12	Level 4 Reduction	Information Technology	Delete one position (1.0 FTE - Senior Applications Developer) supporting the Electronic Citywide Accounting and Personnel System (eCAPS) Finance Payroll Module. A reduction to this program would severely understaff the team and increase operational risk. Without technical oversight, the city risks payroll errors, missed paychecks, failed deposits, and incorrect tax withholdings. These issues could lead to employee hardship, strained labor relations, compliance penalties, and legal exposure.	$ -	$ (179)	$ (179)	-	(1.00)	(1.00)
NUL4-13	Level 4 Reduction	Information Technology	Delete one position (1.0 FTE - Senior Systems Engineer). This impact the Police Department Systems Support team by reducing their ability to conduct daily system health checks, manage system and data backups, and provide user account provisioning and support.	$ -	$ (144)	$ (144)	-	(1.00)	(1.00)
NUL4-14	Level 4 Reduction	Information Technology	Delete two positions (1.0 FTE – GIS Specialist III and 1.0 FTE – GIS Specialist II), reducing citywide GIS and data analytics capacity by limiting mapping, planning, and data-driven decision-making support across General Fund departments that rely on GIS services.	$ -	$ (360)	$ (360)	-	(2.00)	(2.00)
NUL4-15	Level 4 Reduction	Information Technology	Delete two positions (1.0 FTE - Program Specialist and 1.0 FTE - Administrative Analyst). This could disrupt critical HR operations, including payroll, benefits administration, Open Enrollment, Personnel Action Request processing, and labor contract updates.	$ -	$ (308)	$ (308)	-	(2.00)	(2.00)
NUL4-16	Level 4 Reduction	Information Technology	Delete one position (1.0 FTE - IT Supervisor). The Regional Support Division will be reorganized to distribute work evenly among remaining staff.	$ -	$ (202)	$ (202)	-	(1.00)	(1.00)
NUL4-17	Level 4 Reduction	Human Resources	Delete one position (1.0 FTE - Administrative Analyst) in Office of Diversity and Equity reducing DEI programming and initiatives.	$ -	$ (137)	$ (137)	-	(1.00)	(1.00)
NUL4-18	Level 4 Reduction	Human Resources	Delete one position (1.0 FTE - Diversity and Equity Manager) in Office of Diversity and Equity.	$ -	$ (228)	$ (228)	-	(1.00)	(1.00)
NUL4-19	Level 4 Reduction	Police	Delete 12 positions (2.0 FTE - Police Sergeant and 10.0 FTE - Police Officer) in the Impact Team and discontinue overtime funding in the Impact Project (I11002400).	$ -	$ (2,924)	$ (2,924)	-	(12.00)	(12.00)
NUL4-20	Level 4 Reduction	Police	Delete two positions (2.0 FTE - Police Officer) in the Emergency Vehicle Operators Course (EVOC).	$ -	$ (425)	$ (425)	-	(2.00)	(2.00)

Supplemental Budget Information – Item 1

Question: Update Attachment 2 of the Budget and Audit Committee December 11, 2025 staff report (File No. 2025-01968) to include all General Fund vacant positions with position costs and the number of days vacant.

Response: There are a total of 611.94 Full-Time Equivalent (FTE) General Fund and Measure U (GF) vacant positions as of November 3, 2025. Departments provided additional information regarding the vacant positions. Vacant positions could fall under one of the following categories:

- Reimbursable – Position is fully or partially funded by grants, projects, or another fund. Ex. Funded by an Enterprise fund or other non-GF fund, multi-year operating project or capital improvement project
- Revenue Generating – Position is fully or partially cost neutral because they generate revenues Ex: parking enforcement, building inspectors, etc.
- Covering a Non-Budgeted Position (NBP) – Position is funding an NBP
- Seasonal – Positions for youth programs, aquatics, or any other seasonal hires. Most of these positions would be temp positions.
- Recruitment (Posted) – Position is posted for recruitment, but interviews have not begun.
- Recruitment (Interviews and Beyond) – Position is either currently interviewing, or a candidate is already selected to fill the position.

The chart below is based on department feedback.

Vacant GF Positions as of 11/3/2025

	FTEs
Total vacant positions	611.94
Less vacancies that	
- Fund an NBP	113.50
- Are reimbursable	98.45
- Are revenue generating	30.35
- Are seasonal/temp	79.24
- Are in recruitment	151.90
Remaining Vacancies	**138.50**

Table 1 lists the remaining 138.50 FTE vacant positions by job description and the sum of the total compensation. Table 2 lists all 611.94 FTE vacant positions by category, job description, and the sum of the total compensation. Table 3 lists all 611.94 FTE vacant positions by category and number of days vacant. As a reminder, departments often use funds from vacant positions to pay for overtime and maintain service levels, especially when critical roles go unfilled.

Table 1: Number of General Fund (GF) True Vacancies with Total Compensation by Department

Department	Position Name	Position Type	No. of Position	Total FTE	Total Compensation
City Attorney	Chief Assistant City Attorney	Regular	1	1.00	460,238
	Deputy City Attorney I	Regular	4	4.00	662,368
	Deputy City Attorney II	Regular	1	1.00	189,482
City Attorney Total			**6**	**6.00**	**1,312,088**
City Clerk	Deputy City Clerk	Regular	2	2.00	224,919
City Clerk Total			**2**	**2.00**	**224,919**
