Description/Analysis

Issue Detail: The City is currently under contract with Economic and Planning Systems, Inc. (EPS) to provide an economic analysis of land use. The Mayor and City Council members have requested additional analysis to be performed [based on the previous work](#), which requires an expanded scope of services. The full extent of the expanded scope of services has not yet been determined, and will depend on the results of further discussions with City staff. We estimate the expanded scope of services will cost approximately \$26,000; therefore, the increase to the not-to-exceed amount of the contract is \$26,000, for a new not-to-exceed amount of \$125,900.

Policy Considerations: The recommendations in this report are in accordance with the City

standards for professional service agreements, which requires Council approval for contracts that exceed \$100,000.

Economic Impacts: None.

Environmental Considerations: The proposed activity is not a project pursuant to CEQA. CEQA Guidelines Section 15378(b)(2). The activity is a continuing administrative or maintenance activity, such as the purchases for supplies, personnel-related actions, general policy and procedure making and is not subject to CEQA. CEQA Guidelines Section 15060(c)(3).

Sustainability: None.

Commission/Committee Action: None.

Rationale for Recommendation: Staff is recommending expanding the current scope of services and increasing the not-to-exceed amount of this contract to fulfill the Mayor and City Council members' request for additional analysis for this project.

Financial Considerations: An additional \$26,000 will be added to the not-to-exceed amount of the contract to cover the expanded scope of services. There is sufficient funding in the FY2019/20 City Auditor's Budget for this supplemental agreement.

Local Business Enterprise (LBE): EPS meets the LBE requirements.
