Title:
Cooperative Purchase Agreement: Replacement Claw Loaders

File ID: 2018-01767

Location: Citywide

Recommendation:

Pass a Motion: 1) approving the use of the Sourcewell cooperative purchase agreement with John Deere Construction Retail Sales (Contract No. 032515-JDC) for the purchase of three claw loaders from an authorized dealer, Pape Machinery, in an amount not to exceed \$343,595; and 2) authorizing the City Manager or the City Manager's designee to execute the purchase specified above.

Description/Analysis

Issue Detail: The Department of Public Works, Fleet Management Division, has a customer requirement to purchase three claw loaders for the Department of Public Works, Solid Waste and Recycling Division. The claw loaders will be used to remove leaves and debris from streets and public spaces.

Policy Considerations: The recommendations in this report are in accordance with City Code Chapter 3.56.

Economic Impacts: None

Environmental Considerations: No environmental review is necessary because the recommendations in this report involve the purchase of vehicles and are not considered to be a project in accordance with Section 15378(b)(2) of the California Environmental Quality Act guidelines.

Sustainability: The recommended purchases are consistent with the updated Fleet Sustainability Policy adopted by City Council on December 12, 2017 (Resolution No. 2017-0478).

Commission/Committee Action: None

Rationale for Recommendation: After reviewing the available purchase options, the Fleet Management Division has determined that the Sourcewell cooperative purchase agreement with John Deere Construction Retail Sales represents the most advantageous purchasing strategy. The contract was competitively bid nationally, and Sourcewell (formerly National Joint Powers Alliance) receives greater discounts from the manufacturer due to a higher purchase volume than the City would receive if issuing its own bid.

In an ongoing effort to maximize cost savings and staff resources, many government agencies share contracting efforts through cooperative purchasing. This procurement method increases pricing competitiveness and lowers operating costs through volume buying. When comparing the administrative costs of procurement, staff considers product research, source selection, specifications, advertising, staff reports, awarding, protest, and administration of the contract.

The City has used both regional and national cooperative purchase agreements to complement its own contracting initiatives. Cooperative purchasing enables City departments to evaluate a broader range of contracting opportunities and to share resources with other jurisdictions. Cooperative purchasing also leverages internal and external resources to maximize cost savings opportunities for the City.

Financial Considerations: The recommended purchase in a total amount not to exceed \$343,595 will be made from the Department of Public Works Fiscal Year (FY) 2018/19 operating budget (Fleet Fund, Fund 6501) and will be charged to the Department of Public Works Solid Waste and Recycling Fleet Project (I06147000, Fund 6007). Sufficient funding exists in the Department's FY2018/19

operating budget and the Public Works Fleet Project (I06147000) to support the recommended purchase.

Local Business Enterprise (LBE): Pape Machinery and John Deere Construction Retail Sales are not LBEs. The minimum LBE participation requirement is waived for the City's use of cooperative purchase agreements that have been competitively bid, evaluated, and awarded by other governmental agencies that may or may not have similar LBE programs.
