1-Description/Analysis

Description/Analysis

Issue Detail: Staff recommends City Council reject all bids received for the Freeport Boulevard, 56th

Avenue and Pleasant Drive Pipe Replacement Project (X14120300). On June 12, 2019, the Department of Utilities (DOU) issued an Invitation for Bid (Bid B20141321001) to replace 520 lineal feet of 6-inch diameter sewer pipeline. On July 10, 2019, one bid was received that exceeded the engineer's estimate by more than three times. Due to the limited number of Local Business Enterprise (LBE) qualified contractors specializing in pipe bursting techniques and high volume of pipeline work, the current bidding environment is not favorable for this type of work. Re-advertising the project in a more favorable bid climate, such as during winter, will increase the chances of receiving multiple bids.

Policy Considerations: City Code Chapter 3.60.160 requires City Council approval to reject bids for contracts of \$100,000 or more.

Economic Impacts: None.

Environmental Considerations: The recommended action is an administrative activity that does not constitute a "project" as defined by the California Environmental Quality Act (CEQA) Guidelines Section 15378, and is not subject to the provisions of CEQA Guidelines Section 15060(c)(3). Appropriate CEQA review has been completed and will be provided at the time the project is brought forward for action.

Sustainability: None.

Commission/Committee Action: Not applicable.

Rationale for Recommendation: The one bid received from California Trenchless, Inc for \$578,200 significantly exceeds the engineer's estimate of \$170,000. In addition, the bid from California Trenchless, Inc. is deemed non-responsive because it did not demonstrate any LBE participation.

Financial Considerations: None.

Local Business Enterprise (LBE): None.
