Description/Analysis

Issue Detail: The Maintenance Services Division of the Department of Public Works has an ongoing need to maintain the landscaping along the transportation corridors within the City of Sacramento. Invitation for Bid No. B20151681009 was issued for maintenance of the Riverview Streetscapes. City Council approval is necessary to award a Non-Professional Services Agreement to Valley Landscapes.

Policy Considerations: The recommendations in this report are consistent with Sacramento City Code Section 3.56 - Purchasing of Supplies and Services, and Administrative Policy 4101 - Procurement of Non-Professional Services.

Economic Impacts: None

Environmental Considerations:

California Environmental Quality Act (CEQA): Maintenance activities for existing facilities involving negligible or no expansion of use have been determined to have no significant effect on the environment and are therefore categorically exempt from review under the California Environmental Quality Act (CEQA) pursuant to section 15301 of the CEQA Guidelines.

Sustainability: The streetscape maintenance services purchased under this contract will support the goals of the City of Sacramento's Sustainability goals by improving and optimizing the transportation infrastructure. Further, maintenance of streetscapes contributes to the quality of life by promoting "greening" within the City.

Commission/Committee Action: None

Rationale for Recommendation: In January 2020, Invitation for Bid No. B20151681009 was issued to procure streetscape maintenance services for the Riverview Streetscapes. Four responsive bids were received.

Based upon the results of the bid analysis below, staff recommends award of a one-year Non-Professional Services Agreement, with two optional extensions to Azevedo's Landscape and Maintenance, the lowest responsive and responsible bidder

The total amount of the agreement, \$203,310, includes \$16,500 for additional maintenance and repairs not included in the agreement's scope of work. The amount is based upon the amount of additional work typically required to address damage caused by vandalism, pest infestations, unseasonably high or low temperatures, and other unforeseen causes.
