### Description/Analysis

**Issue Detail:** The purpose of the Lobbyist Registration and Reporting Code (Sacramento City Code chapter 2.15; the “Sacramento Lobbyist Code”) is to maintain a fair and open decision-making

process in city government and to ensure that the public and city officials have full knowledge of lobbying activities that have been brought to bear on any legislative or administrative action. To that end, the Sacramento Lobbyist Code states that-

- the people of Sacramento have the need and right to know the identity of lobbyists who attempt to influence the decisions of city government and the means employed by them to advance their interests;
- full disclosure of lobbying activities of such persons and the identity of their employers, will contribute to public confidence in the integrity of local government; and
- full disclosure is also necessary to ensure that city officials are kept informed about the identity of persons whose interests the lobbyists represent.

(Sacramento City Code § 2.15.020.)

To increase transparency and open decision-making, it is recommended that electronic filing be mandated. A survey was sent to Sacramento's registered lobbyists, and 100% of the respondents were in favor of using electronic filing. The recommended amendment makes additional administrative changes to the code to modernize and clarify language.
