Title:

Proposed Two-Hour Parking Restrictions on Sections of 65th Street and Elvas Avenue

File ID: 2019-01508

Location: District 3

Recommendation:

Adopt a Resolution regulating parking on sections of 65th Street and Elvas Avenue with “Two-Hour Parking, 8:00 a.m. to 6:00 p.m., Monday through Sunday” according to the map attached as Exhibit A.

Contact: Staci Hovermale, Operations General Supervisor, (916) 808-5047; Matt Eierman, Parking Services Manager, (916) 808-5849; Department of Public Works

Description/Analysis

Issue Detail: Parking on sections of 65th Street and Elvas Avenue is currently unregulated, allowing vehicles to park for extended periods of time. With several new student housing development projects opening near Sacramento State, there has been a significant increase in student parking in the area. Regulating the parking with two-hour restrictions will help improve vehicle turnover and provide parking for customers of nearby businesses (see proposed map of two-hour parking Exhibit A).

Policy Considerations: The recommendations in this report are in accordance with City Code Section 10.36.100, which requires a City Council resolution to designate certain business districts or streets for restricted parking.

Economic Impacts: None

Environmental Considerations: The proposed restriction of parking is not a “project” under the California Environmental Quality Act (CEQA) pursuant to Public Resources Code section 21065 because it will not result in either direct or indirect physical changes in the environment. Even if the proposed action were considered a “project,” it would be exempt from CEQA pursuant to CEQA Guidelines section 15061(b)(3) because implementation of the parking restrictions does not have the potential for causing a significant effect on the environment.

Sustainability: This action supports the City of Sacramento’s sustainability goals to improve and optimize the transportation infrastructure.

Commission/Committee Action: None

Rationale for Recommendation: Regulating parking on the proposed sections of 65th Street and Elvas Avenue with two-hour restrictions will help improve vehicle turnover and provide parking for customers of nearby businesses.

Financial Considerations: The cost to implement the recommended parking regulation is estimated to be \$2,200. Sufficient funds are available in the Department of Public Works, Parking Services Division Fiscal Year 2019/20 operating budget (General Fund, Fund 1001) to implement the recommended parking regulations.

Local Business Enterprise (LBE): Not applicable
